THE HONORABLE ROBERT E. WEISS	<i>Flint</i>

JOHN DiBIAGGIO, <i>Ex Officio, President</i>	<i>East Lansing</i>
DAVID K. SCOTT, <i>Provost</i>	<i>East Lansing</i>
MARYLEE DAVIS, <i>Secretary</i>	<i>East Lansing</i>

ACADEMIC COSTUME

In 1895, the Intercollegiate Commission, a group of leading American educators, introduced an academic costume code which by design of gowns and hoods would indicate the various degrees, and which by colors would identify the various faculties.

Three types of gowns are indicated by the code. Those worn by the bachelors have long, pointed sleeves. Those worn by masters have long, closed sleeves with the arc of a circle near the bottom. Doctor's gowns are faced with velvet. The sleeves are full, round, and open with three bars of velvet on each sleeve. The velvet facing of the bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic color of the institution conferring the degree (e.g., green and white for MSU; burnt orange and white for the University of Texas; blue and gold for UCLA). If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velveteen binds the hoods and indicates the department or faculty to which the degree pertains.

The color of the velvet of the hood is distinctive of the subject to which the degree pertains. For example, the trimming for the degree of Master of Science in Agriculture should be maize, representing agriculture, rather than golden yellow, representing science. Generally, the code for the velvet of the hood is the same as listed below for tassels.

At Michigan State University, it is customary to identify the candidates graduating from the different departments of study by tassels of the official department color as established by the Intercollegiate Code.

COLLEGE OF AGRICULTURE AND NATURAL RESOURCES <i>Maize</i> Forestry, Packaging <i>Russet</i>	COLLEGE OF COMMUNICATION ARTS AND SCIENCES <i>Peacock Blue</i> Journalism <i>Crimson</i> Speech <i>Silver Gray</i>	JAMES MADISON COLLEGE <i>Citron</i>
COLLEGE OF ARTS AND LETTERS <i>White</i> Fine Arts <i>Brown</i> Music <i>Pink</i> Philosophy <i>Dark Blue</i>	COLLEGE OF EDUCATION... <i>Light Blue</i> COLLEGE OF ENGINEERING <i>Orange</i>	COLLEGE OF NATURAL SCIENCE <i>Golden Yellow</i> COLLEGE OF NURSING <i>Apricot</i>
COLLEGE OF BUSINESS <i>Drab</i> Economics <i>Copper</i>	COLLEGE OF HUMAN ECOLOGY <i>Maroon</i> COLLEGE OF HUMAN MEDICINE <i>Green</i>	COLLEGE OF OSTEOPATHIC MEDICINE <i>Green</i> COLLEGE OF SOCIAL SCIENCE <i>Citron</i> COLLEGE OF VETERINARY MEDICINE <i>Dark Gray</i>

MICHIGAN STATE UNIVERSITY

Michigan State University, a leading land-grant university and the first agricultural college in America, strives for excellence in providing students a broad curricula of liberal and practical education. MSU also serves people of the state, nation, and world through its numerous research, extension, and international programs.

Now in its 134th year, Michigan State University has grown from three buildings and six faculty members to one of the largest universities in the nation. It has more than 3,000 faculty/staff engaged in teaching, research, and public service; more than 400 campus buildings; and more than 5,200 acres of land, of which some 2,100 acres are in existing or planned campus development. More than 42,000 students now attend the university at East Lansing, of which some 86 percent are from Michigan.

Founded in 1855 to educate youth for the major occupation of that day — farming — MSU has broadened its offerings to meet the educational needs of today. The university now has a Graduate School and 14 colleges — Agriculture and Natural Resources, Arts and Letters, Business, Communication Arts and Sciences, Education, Engineering, Human Ecology, Human Medicine, James Madison, Natural Science, Nursing, Osteopathic Medicine, Social Science, and Veterinary Medicine.

At the center of all major universities is a cluster of disciplines that constitute the liberal arts and sciences. At MSU, this center consists of three colleges — Arts and Letters, Natural Science, and Social Science. Providing outstanding undergraduate and graduate degree programs with majors in traditional disciplines, these colleges also have special programs that enable students to obtain a broad multidisciplinary education. In addition, in collaboration with the College of Education, the three colleges prepare students to become teachers in the secondary schools of Michigan and the nation. These colleges touch the lives of all undergraduate students at MSU by providing the general education that constitutes approximately one-quarter of the undergraduate program. The Honors College, which enables superior undergraduate students to waive normal graduation requirements and undertake individual programs, attracts many of the nation's finest young scholars. MSU is proud of its record in producing Rhodes Scholars, a total of thirteen (ten in the last sixteen years); the university also has provided six Marshall Scholarship winners. These British scholarships are two of the most distinguished and prestigious academic awards that an American student can receive. Michigan State University also is a prominent sponsor of National Merit Scholars.

MSU adds to the store of knowledge with a wide array of outstanding research activities that are supported by a multimillion dollar sponsor-funding program. Some major facilities include the Pesticide Research Center, which presents a model program of multidisciplinary research and teaching; the Plant Research Laboratory, operated with the U.S. Department of Energy as a national plant biology center; and the MSU/W. K. Kellogg Biological Station, which has been designated as a National Research Preserve. In collaboration with both the National Science Foundation and the U.S. Department of Energy, the National Superconducting Cyclotron Laboratory at MSU is examining the nuclei of the heaviest of elements.

Benefits of the university are brought to the public by the Agricultural Experiment Station, Lifelong Education Programs, and the Cooperative Extension Service. Their programs provide technical information and formal course work for many Michigan citizens. The Kellogg Center for Continuing Education, one of the finest conference centers in the nation, annually hosts nearly 60,000 adults who come to the campus for some 600 conferences and other educational meetings.

The university's land-grant concept of service is international. Supported by grants from the federal government and private foundations, MSU maintains research and educational assistance projects on a worldwide basis. International projects have given many faculty members overseas experience, adding a new dimension to their teaching.

Michigan State University is a member of the Association of American Universities, National Association of State Universities and Land-Grant Colleges, American Council on Education, American Council of Learned Societies, International Association of Universities, Association of Graduate Schools, Council of Graduate Schools, and the Committee on Institutional Cooperation.

HONORARY DEGREE

LEE IACOCCA

Your brilliant leadership re-established Chrysler Corporation as one of America's foremost auto makers—and simultaneously set the lives of thousands of Chrysler workers on firm economic ground once again. Such leadership focused your business and financial vision on the needs of an industry as a community of people—engaging the cooperation of owners and employees and the support of the United States government itself. This accomplishment has established your name as a household word, admired across this country and throughout the world. But this phase of your career is only the best known of a lifetime of accomplishments that combine successful service to the American economy with generous service to society.

Born of Italian immigrant parents, you joined the Ford Motor Company after graduating from Lehigh University and receiving a master's degree in mechanical engineering from Princeton University. In thirty-two years at Ford, you rose from management trainee to president, with intermediate steps as assistant district sales manager in Philadelphia; district sales manager in Washington; truck, car, and vehicle marketing manager, and vice president. you became president of the Ford Motor Company in 1970 and held the position until your departure in 1978.

You left Ford on November 1st, 1978, and on November 2nd you were elected president and chief operating officer, and member of the board of Chrysler Corporation. Within a year you were chairman of the board and chief executive officer of the corporation. From a \$1.7 billion loss in 1980, you led Chrysler to a \$266 million profit by the first three quarters of 1983. On June 15, 1983, the company paid back \$1.2 billion in government-guaranteed loans, exactly in your words: two years, 11 months, and 21 days after the first one was received. As you announced this remarkable event, you described your philosophy on borrowing: "We at Chrysler borrow money the old-fashioned way. We pay it back."

Prompt pay-back was only one important part of the story of that loan and of the Chrysler recovery: your accomplishment was the result of your capacity to enlist the best effort of all the workers in the corporation in a drive to improve the quality of the cars they produced and of your remarkable gift for making the benefits of such efforts clear to everyone concerned.

In a time of intensifying international economic, technological, and cultural competition you have become a candid and forceful national leader in the re-birth of United States competitiveness.

Your commitment to society has been apparent in the causes to which you have devoted yourself during your years in Michigan. As chairman of the Committee for Corporate Support of the Joslin Diabetes Foundation you have put your persuasive powers to work in the drive for funds to fight that destructive disease. At the same time, you have served as an active member of the Board of Governors of the Bob Hope International Heart Research Institute. As Co-chairman of the governor of Michigan's Commission on Jobs and Economic Development, and through New Detroit, Inc., you have been a key player in the larger effort to bolster the economic and social well-being of the State of Michigan and of its largest city. Your interest and commitment to the fundamental social role of the arts are evident in your service on the Board of Directors of the Detroit Symphony Orchestra and as a member of the Founders Society of the Detroit Institute of Arts.

The full list of other boards on which you have made vital contributions to economic and social welfare would only underline what is already powerfully apparent: you are a man whose generosity has led you to commit your great intelligence and energy to the economic, social, and artistic well-being of the people of Michigan and of the whole United States. In light of these accomplishments, Michigan State University is proud to award you the honorary degree of Doctor of Engineering.

1990 DISTINGUISHED ALUMNI AWARDS

PHILIP J. GANNON

While serving as a Research Consultant for the Community Development Program at Michigan State University, and working on his doctoral program, Philip J. Gannon was hired in 1956 to conduct a feasibility study in relation to the need for a community college in the Lansing Metropolitan area. After completing the study, he was hired to establish the College, and founded Lansing Community College in 1957. He then continued to be President and Chief Executive Officer for thirty-two years.

Under his leadership, the College grew from approximately 224 students in 1957, to over 47,000. Initial quarters for the campus was a Lansing School District Office; today LCC is a twenty-eight acre urban campus with fourteen major buildings, plus training centers at Lansing Capital City Airport and near Battle Creek. Also, the College has twenty-five area Learning Centers and additional Learning Centers in Otsu City and Shikoku, Japan, with sister college affiliations in many countries throughout the world.

During the time President Gannon was establishing LCC, which became the ninth largest single campus community college in the nation, he completed his doctoral degree at MSU (B.A., Albion College, 1947; M.A., Michigan State University, 1954; Ph.D., Michigan State University, 1979).

TAM S. DAVID-WEST

Described as a man with "international vision, a global concept of service to his country and its relationship to the community of neighboring States, and of the world," Tam S. David-West has distinguished himself many times since receiving a B.S. degree from Michigan State University in 1961. Among other honors, he was named a Fellow of the Royal College of Pathologists (England); Fellow, Nigerian Academy of Science; Member, New York Academy of Science; Member, Governing Council of the University of Ibadan (1975-1983), Member of the World Health Organization Expert Panel on Virus Diseases; Director, WHO National Influenza Centre; Order of the Star of Africa; Grande of Grand Band; and an Honorary Fulbright Fellow.

From 1975-79, he served as Commissioner for Education and Member of the Rivers State Executive Council. In 1979, he was a member of the Constitution Drafting Committee for the Federal Government of Nigeria, and later served as Federal Minister of Petroleum and Energy (1984-85), an Minister of Mines, Power and Steel (1986) in Nigeria. Today, he is Professor and Chairperson of the Department of Virology at the University of Ibadan, Nigeria. In addition to the B.S. degree earned from Michigan State University, Dr. David-West holds an M.S. degree from Yale (1962), and a Ph.D. from McGill (1966).

Fantasy on MSU Songs *Curnow*
The MSU Wind Symphony

CONFERRING OF DEGREES

JOHN DiBIAGGIO
President, Michigan State University

ALMA MATER *Traynor*

M.S.U., we love thy shadows
When twilight silence falls,
Flushing deep and softly paling
O'er ivy-covered halls.
Beneath the pines we'll gather
To give our faith so true,
Sing our love for Alma Mater
And thy praises, M.S.U.
(The MSU Wind Symphony and Audience)

PRAYER

DR. GRAHAM

RECESSIONAL

The MSU Wind Symphony

We would like to express our appreciation to the members of many student organizations for their assistance at the commencement exerciss.

The audience is requested to remain seated while those in the processional are entering and leaving the arena.
