Michigan Agricultural
College Association
Publishers ■ East Lansing
Vol. XXVIII May 21, 1923 No. 30

The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.

Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.

Membership in the M. A. C. association, including subscription to THE RECORD, \$2.50 per year.

Unless members request a discontinuance before the expiration of their memberships it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. A. C. Association. Entered as second class matter at the post office at East Lansing, Mich.

ROBERT J. McCARTHY, '14, editor

THE M. A. C. ASSOCIATION

MAY 21, 1923

BARRY ASSOCIATION MEETS AT HASTINGS

On Friday evening, May 4, about forty members of the Barry county M. A. C. association met for a banquet at the K. of P. hall in Hastings.

Clyde Wilcox, '07, president of the association, introduced Congressman John C. Ketcham who spoke for a few minutes in a very entertaining way. Mrs. Irma Nichols, '06, sang "To a Hilltop" and "The World is Waiting for the Sunrise," after which Dean Eugene Davenport, '78, was introduced by Dorr Stowell, '92, and his talk on education was very interesting and instructive. After supper, dancing and other entertainment occupied the rest of the evening.

Those who attended were: Susan Boley, Middleville; O. H. Cleveland, '10, Adrian; Irma Brown Nichols, '06, Hastings; Bertha Wilcox, Hastings; Milton Townsend, '20, Hastings; Caroline Tasker, '18, Bellevue; Ione McKillen, '22, Hastings; Mabel Chase, Hastings; Ward A. Quick, '97, Nashville; Mattie Quick, Nashville; William L. Chase, '97, Hastings; Gertrude E. Stowell, Hastings; Oscar L. Finkbeiner, '23, Middleville; Wilda Richardson, Hastings; Dorr M. Stowell, '92, Woodland; Maurine Smelker, Hastings; Eugene Davenport, '78, Woodland; Mrs. Eugene Davenport, '90, Woodland; Robert Gamble, '25, Hastings; Mrs. Milton Townsend, '26, Hastings; Mortimer E. Nichols, Hastings; Ira Stowell, Woodland; Mrs. C. E. Grohe, Clyde Wilcox, '07, John C. Ketcham, Mildred Calkins, Sara Wood, Katherine C. Andrews, '21, Rutherford Bryant, '20, Mildred Ketcham, '22, C. E. Grohe, Katherine Richardson, Valenta Bryant, Mrs. R. M. Bates, Arthur K. Richardson, all of Hastings; L. E. Harper, '22, Woodland; Lloyd Tasker, '17, Assyria; J. Casgo Smith, '25, Woodland.

Leta Hyde Keller, '09.

Secretary.

More than \$275,000 has been subscribed to the Union Memorial building fund. Detroit is close to the \$50,000 mark. Blake Miller is still working in the metropolis with prospects of completing the eastern section of the state by Commencement.

ENGINEERS HONOR PROF. BRECKENRIDGE

L. P. Breckenridge, who was professor of mechanical engineering at the college 1891-93 and who has since that time been on the faculty of Sheffield Scientific school of Yale university, will retire at the end of the present college year after forty years of teaching and practicing his profession. Professor Breckenridge was to address the New Haven branch of the Connecticut section of the American Society of Mechanical Engineers in New Haven May 21. At the meeting, where he was scheduled to speak on "The Past and Future of Engineering," nationally prominent associates of his planned to present him with a set of resolutions.

Professor Breckenridge intends to spend his summers in Vermont and his winters in California. He established the chapter of Tau Beta Pi at M. A. C.

ANIBAL RESIGNS FROM PEERLESS

Ben H. Anibal, '09, has resigned as chief engineer of the Peerless Motor Co. The announcement which appeared in the Detroit Free Press said Anibal had not reported his plans for the future except to say that he intended taking a vacation. He was with the Peerless firm for two years, leaving a similar position with the Cadillac Motor company to enter into new relations. He was in the employ of the General Motors corporation and the companies which were merged to form it for twelve years after leaving college.

Dick J. Crosby, '93, who has been teaching at Cornell and doing research work on extension methods is spending the present college year on sabbatical leave, making a study for the committee on instruction of the Land Grant College association into the means which can be taken to promote higher scholarship among the colleges. Crosby states that the inauguration of the point system and the plan whereby students are separated into sections according to ability in mathematics and English are the two greatest steps M. A. C. has taken in this regard.

BOARD PROPOSES 16,000 SEATS

Asks Stadium be Constructed so that Additions of Units up to a Capacity of 24,000 Can be Made as Needed

The following report of the buildings and grounds committee of the board in control of athletics was adopted at a recent meeting of the board and has been presented to the State Board of Agriculture for consideration. Enough members of the State Board have already signified their approval to insure its passage.

"Cognizant of the great step in progress which the assurance of adequate athletic facilities means to M. A. C., the board in control of athletics wishes to express its appreciation to the Honorable Alex J. Groesbeck, the state senate and house of representatives for the loan, on generous terms, of sufficient funds to erect a modern stadium.

"It is recommended that the state department of construction undertake the erection of a modern concrete stadium with a seating capacity for 16,000 spectators, to be available next fall, with plans arranged so that the capacity may be increased to at least 24,000 when the added seats are found necessary.

"It is recommended that the stadium be located east and south of the present gymnasium on the high ridge approximately 500 yards from the gymnasium. The following conditions prompt the selection of this location:

"It will provide a well drained playing field with an elevation at least ten feet above the highest recorded water mark.

"It is near the gymnasium and separate dressing rooms, baths, heating connections and so forth, will not be necessary.

"When connected with the campus by a broad bridge across the Red Cedar east of the gymnasium, it will be easily accessible from all points and for all types of traffic. Farm Lane and Harrison avenue will provide two divergent entrances aside from the new bridge near the gymnasium, and the proposed boulevard along the south side of the Red Cedar would add yet another.

"There will be ample parking space for automobiles in close proximity to the field, and a large area will be available for tennis courts, baseball diamonds, track courses and other athletic fields as the need arises.

"The railway spur passes close to this site,

keeping the cost of transporting material at a low point.

"Student, faculty and alumni opinion unanimously favors this selection.

"It is hoped that the work of construction can begin immediately and that the stadium will be ready for use next fall."

TOUMEY SEES NEED FOR FOREST RESEARCH

J. W. Toumey, '89, who was until last June director of the Yale Forestry school, is now professor of silviculture and is doing research work on a tract of forest land at Keene, N. H., where he has charge of extensive projects. Toumey refused to devote his time entirely to research work and is carrying out a great variety of projects on the Keene forest which was recently deeded to Yale.

In a recent issue of the Yale Alumni Weekly some of his work is outlined. He writes:

"American forestry today is as much in need of a background of research in forest production as American agriculture was in need of agricultural research fifty years ago. Our problems in silviculture will be solved only when the underlying principles of its practice have been established on the basis of definite knowledge resulting from research and experiments.

"Research in forest production is so complex and diverse and so dependent on a thorough grounding in the natural sciences, it cannot be left to the sporadic initiative of individual foresters whose chief interests may lie in different directions. It must be undertaken by the public and by educational institutions. Forest research has scarcely obtained an established place in our educational institutions. The schools of forestry must play an important part in the work of forest research and experiments."

C. M. Archbold, '24, Clyde, Ohio, was thrown from a horse during cavalry drill and was severely injured. He is recovering from a broken collar bone, broken wrist and painful bruises and sprains.

M. A. C.'s Outpost in the Pacific

Gathered in front of the hotel at Manila where they held a luncheon in February are the alumni who uphold the traditions of the college in the Far East islands. They had come together for the event from far distant points.

Left to right, back row: Leroy Thompson, '13, Ludivico Hidrosollo, '09, C. W. Edwards, '09, D. D. Wood, '11, E. W. Brandes, '13, J. L. Myers, '07.

Left to right, front row: Santiago Iledan, '20, Mrs. C. W. Edwards, Anna B. Cowles, '15, Zella Kimmel (Mrs. D. D.) Wood, '11, E. G. Hoffman, '10.

February 15, 1923.

Dear RECORD:

"Bill" Edwards came to town the other day from Guam and being full of inspiration, "Bill" called up all M. A. C. people within reach and we lunched in approved M. A. C. style at the Manila Hotel. "Bill" says this is the first get-together meeting in Manila. We've been here so long that we have at least forgotten any previous occasion.

Various matters were brought up for discussion after lunch, among which was the proposed change in the name of M. A. C. We all seemed to think that the old name as well as the old place was good enough for us.

Hidrosollo, '09, expressed for the Filipino alumni appreciation of the hospitality of M. A. C. and the feeling of good fellowship found there for Filipinos.

It was suggested that Myers, '07, being permanently located in Manila, act as center for M. A. C. information and that he publish a directory of people connected with M. A. C. located in the Philippine Islands and vicinity.

Those present were:

Mr. and Mrs. C. W. (Bill) Edwards, '09, of the U. S. Dept. of Agriculture, in charge of experiment station in Guam.

D. D. Wood, '11, and Zella Kimmel Wood, '11. Wood being conservator of forests for the British North Borneo company.

Anna B. Cowles, '15, director of Junior Red Cross for the Philippine Islands.

Santiago Iledan, '20, instructor of agriculture at the Central Luzon Agricultural School at Munoz, N. Ecija.

Leroy H. Thompson, '13, supervising mechanical engineer for the bureau of public works, Manila, P. I.

E. W. Brandes, '13, bacteriologist, U. S. Dept. of agriculture, making a world-wide study of plant, especially sugar cane, diseases.

E. G. Hoffman, '10, manager of the Binalbagan Estate and Refinery, Island of Negros.

Ludivico Hidrosollo, '09, director of agricultural extension for the Philippine Islands.

J. L. Myers, '07, owner Myers-Buck Co., engineers and contractors. Yours truly,

J. L. Myers.

Box No. 1667, Manila, P. I.

VIEWS AND COMMENT

In its attitude toward M. A. C. during the session just ended the legislature demonstrated an unusually kindly spirit which almost amounted to general interest. In having within its ranks Henry T. Ross, '04, W. C. Sanson, '87, A. C. MacKinnon, '95, Norman B. Horton, '02, E. O. Ladd, '78, H. H. Whitely, '02, and Horatio S. Karcher, '87, the state assembly found the merits of the college so great that it could not resist responding to the needs of the institution in a manner commensurate with its accomplishments. Loyal supporters of M. A. C. who find a place in public life seldom fail to give their alma mater the aid it needs to keep at the head of the procession. When men of the stamp of these seven carry the colors of a college into the state capitol they are certain to come out flying. Another legislature will soon be elected, the prominent alumnus in your vicinity should be in line for a trip to Lansing. M. A. C. needs good treatment and that always follows when its capabilities and achievements are made plain to the discerning law maker; this is the mission of M. A. C. men at the capitol and they have carried out their duties in a most laudable manner.

NEUROLOGY

Elmer H. Merz, '11

The death of Elmer H. Merz, w'll, is announced in the May issue of the "Synchroscope," house organ of the Detroit Edison company. Merz was a basketball player of considerable merit and a graduate of the Detroit Eastern high school. The published notice follows:

"The report of Elmer H. Merz's death on March 16, after a twelve-day attack of pneumonia, came as a distinct shock to his many "Edison" friends.

"Mr. Merz, thirty-five years of age, a former M. A. C. engineering student and basketball star, has the enviable record of almost fourteen years' continuous and faithful service in the underground lines department. For the last ten years he had charge of engineering and field work in connection with construction of conduit lines, steam mains, tunnels, street lighting, etc. His fellow-workers will remember him as a rare example of modesty

and confidence combined, as invariably exercising remarkably good judgment, considerate of others, a true friend of those whose privilege it was to know him. He made work a pleasure for those who worked with him and those who worked under him.

"Mr. Merz is survived by his wife and three children."

John Walker Matthews, '85

John Walker Matthews, '85, died at his home, 1936 Clarkdale avenue, Detroit, on May 11. For 23 years he had been connected with the faculty of Detroit Western High school, teaching chemistry and coaching some of the athletic teams representing the institution. He was a prominent member of the Schoolmen's club and other professional organizations of the city. In 1893 he was given the degree of M. S. by the University of Michigan. He was prominent as a supporter of M. A. C. Many students who came from Detroit did so at his urging.

For a short time after completing his college course he farmed. In 1889 he was commissioner of schools for Barry county. He taught later in Grand Rapids high school, Wisconsin State Normal, again in Grand Rapids and then went to Detroit Western. He was born in Mishawaka, Ind., 64 years ago and is survived by five children and two grand children. The children are: Bayard, Virginia, Felix, '15, Andrew, '19, and Josephine, '22. He was a member of the Union Literary society.

Major General Harry C. Hale reviewed the cadet corps on May 7, and on May 14 a special exhibition of infantry work in which a machine gun nest at the west end of the parade grounds was captured by a platoon of doughboys was witnessed by a crowd of more than two thousand. In the latter maneuvers the men were equipped with gas masks, helmets and packs, a smoke screen was used at the south side of the parade grounds and the booming of a one-pounder and trench mortar punctuated the rattle of musketry and the pat-pat-pat of the machine guns. It was war but an advance over an open field would have been murder under war conditions. The strategists, however, were protected by theoretical cover for the advancing infantrymen.

"Close Beside The Winding Cedar"

Dorothy Jermin, president of Alpha chapter, Omicron Nu, requests that all former members send to her at East Lansing their present addresses and occupations in order that the files may be revised correctly.

P. B. Woodworth, '86, president of Rose Polytechnic Institute at Terre Haute, Ind., partook of the benefits of an automobile wreck some time ago. In the course of his experience he sustained broken ribs and other injuries which tended to incapacitate him. He is about ready to resume business and has been released from the hospital where he was confined for several weeks.

R. W. Goss, '14, associate plant pathologist at the University of Nebraska experiment stations is the author of two new bulletins. In February "Potato Disease of Nebraska" was the subject of his discussion in a 32-page booklet and in March he was credited with an 84-page bulletin entitled "Relation of Environment and Other Factors to Potato Wilt Caused by *Fusarium Oxysporum*."

Edgar Anderson, '18, who received his Ph. D. degree at Harvard in '22, was the speaker over the St. Louis Post-Dispatch radio recently advising the residents of cities on how and what to plant in order to obtain the best results under the adverse conditions which surround the city garden. Anderson is assist-

ant professor of botany at Washington university, St. Louis, Mo., and geneticist at the Missouri botanical gardens in that city.

The local alumnae of the Sesame Literary society entertained the active members at the home of Mrs. Henry Publow in East Lansing Tuesday evening, May 8. Plans were completed for a breakfast for returning alumnae on the morning of Saturday, June 16. Numerous alumnae members of the society are expected back, including Mrs. Maude Nason Powell, '13, who has been a missionary in China for six years.

M. A. C. people who happened to be in Escanaba during the first week in May gathered at the home of Frederick R. Harris, '12, city manager, for an impromptu reunion. Those who made up the party were: B. P. Pattison, '12, secretary-manager of the Delta County Milk Producers' association, H. E. Dennison, '11, E. G. Amos, '15, J. W. Weston, '14, A. G. Kettunen, '17, Joe Turner, '18, G. W. Putnam, '16, all connected with the extension service of the college.

Tuesday, May 9, sets a new mark in the weather annals of the state. Ten inches of snow, the largest fall of the year, gave the campus the appearance of mid-winter in spite of the new leaves and green grass which occasionally showed through the white covering. A crew of freshmen spent several hours Wednesday afternoon scraping off the baseball diamond and by Friday it was in good condition for use. Thus far the baseball team has not been forced to cancel a game because of bad weather or wet grounds.

The faculty baseball team has come through its early season without defeat. Lansing teachers presented the first victim and the senior class team fell in the second battle. Coach Walker and Dick Rauch have done most of the pitching for the instructors while Frimodig appeared in the box for one inning against the seniors. "Fat" Taylor, '15, is the mainstay behind the bat and at bat Bergquist of the zoology department and Frimodig presented the most formidable form. The team is looking for more victims but Jimmie Haselman, manager, is selecting his opponents with great care in order to keep his team's record spotless.

DEBATERS MAKE SUCCESSFUL TRIP

Negative Team Wins Five Contests on Long Journey—But One Decision Returned Against M. A. C. Trio—Visit Dr. Beal at Amherst.

A two thousand mile trip with eight contests scheduled over a period of nearly three weeks sent the negative debating team back to the campus with five victories and one defeat, the other two were no-decision affairs. J. W. Milne of the English department accompanied the team as coach. H. G. Smith, '23, St. Clair; D. V. Steere, '23, Oxford, and E. M. Chapman, '25, Cheboygan, carried the burden of winning and handled difficult opposition with remarkable ease.

The journey started April 2 when Marquette university at Milwaukee failed to prove that "labor disputes in public utilities should be settled by compulsory arbitration." Illinois State normal at Bloomington was next on the list and a no-decision debate on the League of Nations kept the M. A. C. travelers in shape to argue that question. Purdue was a victim at Lafayette where the labor dispute problem was discussed and the team rested there over the week-end. This victory gave M. A. C. a clean sweep in the Tri-State debate for the affirmative team won a decision over Iowa State at East Lansing.

Wilberforce university at Xenia, Ohio, triumphed in the next clash of the trip, compulsory arbitration being the question at issue. There was a no-decision open forum debate at Bluffton college, Bluffton, Ohio, next on the schedule. This time the question was "Resolved that a cabinet parliamentary form of government based on the plan of the British government should be adopted in the United States." At Akron university the same proposal was defeated by the M. A. C. men.

The next week-end was spent in Washington where the team was entertained by the parents of Lillian Lewton, '24. Philadelphia and New York city were visited en route to Amherst, Mass., where the Massachusetts Agricultural college debaters were defeated on the labor arbitration issue. K. L. Butterfield, '91, president of the college, entertained the M. A. C. team at a banquet which was attended by several M. A. C. alumni connected with the Massachusetts college. Coach Milne and Chapman visited Dr. Beal at his home in Amherst and found him greatly interested in anything pertaining to M. A. C.

Boston was next on the sight seeing trip and then the arguers took up their positions

against the University of Maine at Orono, winning the last contest of their trip after a sharp debate during which they defended the invasion of the Ruhr. This match was one of the most difficult on the trip for the debaters were not informed concerning the part they were to take until a day before their clash. The university library was kept open all of the night before the debate and the men made good on their efforts to find material to support their arguments.

This is the first trip of such a length to be attempted by M. A. C. debaters and the results represent one of the most successful debating seasons in the history of the college, for widely separated college were met and vanquished and a large number of questions were considered under conditions which are not always conducive to bringing out the best work of such a sort. Earl Chapman, president of the sophomore class, is the only member of the trio who will be available another year but there are a number of valuable men on the affirmative team this year who will be in college another season. Last year a trip into Montana gave the men a chance to display their ability to the West. This year the East paid its homage to their prowess.

PELTON, '88, GIVES PLANTS TO COLLEGE

Dr. D. A. Pelton, M. A. C. '88, has been for a good many years a very busy physician in Forrest City, Arkansas. In spite of this, he is still interested in botany, although he has but little time for it. His interest is such that he has just presented to the herbarium of the department of botany a collection of plants made by him in Pomona, California, a number of years ago. This is the second collection of plants he has given to the botanical department, as there is already in the herbarium a fairly large collection of plants made by him in the old days.

"The botanical department wishes that there were more people like him who would donate their collections to this college, where they will be much appreciated," says Professor Bessey.

ALUMNI AT CAPITAL HAVE NOON LUNCH

Approximately 35 representatives of the Washington M. A. C. association assembled at Harvey's restaurant on Pennsylvania avenue, April 19, for a "Rotary Club" style of mid-day luncheon. Ten minute talks were made by D. S. Bullock, '02, and Louis G. Michaels, '03, both of whom are widely known because of their agricultural investigations in foreign lands. These were followed by a brief impromptu address by Mrs. E. W. Ranney, '99, fresh from the college, who was in Washington attending the National D. A. R. convention.

Bullock and Michaels are representatives of the bureau of agricultural economics of the United States department of agriculture. Mr. Bullock has recently returned from two years in Argentina, Uruguay and Chile, where he made a special study of the livestock industry. He states that cattle raising is the leading industry of Argentina, but at present it is in a badly demoralized condition because of over-production without a corresponding development of a marketing outlet. "In January, five and six-year-old cows were selling at less than \$10.00 a head." Therefore, there is no use for the American breeders to look to Argentina for a market in the near future.

Mr. Bullock spoke of the excellent systems of irrigation in Peru which are still in use and which were constructed by the ancient Incas. In Chile, the fruit industry is making considerable headway, especially the apple and grape industries. European varieties of grapes of excellent quality produced in that country are now commanding good prices in New York city where they arrive a whole half-year out of season for the American product.

Mr. Michaels spoke entertainingly of Bolshevik Russia. He said the Kerensky regime was overthrown largely as the result of promises made by the Bolshevik commissars to the peasants that the land of the wealthy would be turned over to them free of charge, if they (the Bolsheviks) should be placed in power. The plan worked happily for one year. The peasants went to work on their newly acquired land, produced good crops and were contented; however, at the end of the season, the commissars returned and commandeered all excess grain over the amount needed by the peasant for food and seeding.

Of course, the peasant was astonished and dismayed, but finally obeyed orders with the assurance that the grain would be exchanged

in the cities for manufactured goods which would be returned to him. Here again, he was disappointed, for as a rule, the country people are largely self supporting.

The result of these experiences is that the peasants are no longer producing more products than enough for their own supplies and consequently there are inevitable famines. It is probable that unless free handling of grain is permitted so that private interests can make it worth while for the peasant to produce grain to exchange for something he can employ for his own pleasure or profit, the amount of grain produced by each peasant will not be more than that required for his family use.

It has been reported that 150,000 tons of grain have been sold by Soviet Russia to Germany. After the confiscation of grain failed to give results to the government they levied a grain tax on the peasant. It was difficult and expensive to collect this tax, but nevertheless, some grain has been accumulated and it is probable this explains the source of the exported grain to Germany.

Mrs. Ranney spoke refreshingly of doings at the college under the very able leadership of President Friday. Best of all, she said that the ground for the Union Memorial building was to be broken and construction begun in June.

President W. D. Hurd explained that the meeting was but one of its kind planned for the future. During recent years, there have been two and usually three meetings. The regular annual meeting occurs in February. A summer meeting in the form of a picnic is held some time between the last of June and the first of September, and a fall meeting, at least biennially, has been held on the occasion of the coming to Washington of the Association of Land Grant Colleges. Under the management of Charley Woodbury, '03, chairman of the executive committee, it is planned to add to these meetings a springtime luncheon in April and another in the fall, probably in September.

The officers are making every effort to add the greatest possible amount of life to the association. It is especially desired that M. A. C. people from out of town, who expect to visit Washington, will send advance word to the secretary, Miss Edna B. McNaughton, Women's City Club, 22 Jackson Place, N. W., in order that their particular friends may be posted. It is the Washington M. A. C. spirit that every graduate here is interested in every visiting graduate, and will be glad to give them a welcome. Edna B. McNaughton, '11, Secretary-Treasurer.

LOS ANGELES TELLS OF BIG GATHERING

The annual meeting of the M. A. C. association of Southern California was held May 7 and through the courtesy of A. H. Voight, '81, the members met at the new University club in Los Angeles. It took the form of an excellent dinner with lots of pep, fun, and real M. A. C. spirit mixed in.

Earl Harvey, '15, president of the organization, introduced Don Francisco, '14, as toastmaster and he carried the program through with his usual ability. The principal speaker of the evening was Dr. Rufus Von Kleinschmidt, president of the University of Southern California, who delivered an excellent talk and gave us much to think about. Mr. Roth, founder of the memory system, entertained us with practical examples of his system which we all enjoyed. We had engaged a community song leader to lead the songs, etc., but Harry Schuyler, '13, insisted on doing part of it and he succeeded in getting lots of noise out of the crowd. Then the famous male quartet, composed of Ed. Nies, Paul Armstrong, Schuyler and Miners rendered several numbers. The letter from the alumni secretary telling of present conditions at the college was appreciated.

At the business meeting Paul Armstrong, '15, was unanimously elected president for the coming year and Jessie A. Godfrey, '18, was chosen secretary-treasurer. Everyone voted the meeting the best ever and all are looking forward to the next one.

Those present were: F. R. Kenney, '14, Hazel Cook Kenney, '15, Gager C. Davis, '89, Mrs. G. C. Davis, Don Francisco, '14, Mrs. Francisco, Spence Esselstyn, '13, Phena Blinn Esselstyn, '17, J. R. Hunt, '14, Frances Sly Lane, '02, Mr. Lane, Paul Armstrong, '15, Mrs. Armstrong, Jessie A. Godfrey, '18, A. H. Voight, '81, Mrs. and Miss Voight, Bess Frazer Morgan, '11, Mr. Morgan, H. E. Truax, '12, Mrs. Truax, H. A. Schuyler, '13, Mrs. Schuyler, M. C. Howard, '18, Shaylor Coleman, '18, E. L. Overholt, '20, Eric Nies, '08, Grace Perry Nies, '09, F. T. Williams, '15, Dr. Mary G. Korshed, '00, Alma Kittie Leake, '19, Dr. Leake, Juanita Smith, '20, Flora Betts, '11, Flora Campbell, '06, George W. White, '04, Mrs. White, F. C. Miller, Mrs. Miller, Earl Harvey, '16, Mrs. Harvey, Frank Wood, '09, Helen Esselstyn Wood, '09, Violet Miller Dixon, '07, Leon Catlin, '21.

Bess Frazer Morgan, '11,
Secretary-Treasurer.

DETROITERS GATHER FOR TWO EVENTS

Detroiters of the M. A. C. club enjoyed an evening of dancing and cards at the Twentieth Century club on May 4. More than 100 couples attended and Mr. and Mrs. Fred L. Woodworth, '08, were patrons. Punch was prepared by Petrie and Taylor, in charge of the ice cream department of the Detroit Creamery company. The best music available added to the pleasure of the evening.

On May 12 M. A. C. was well represented at the annual baseball luncheon of the Inter-collegiate association of Detroit when the graduates of more than a score of colleges, now living in Detroit, celebrated. The Swartz Creek band took honors in the parade from the Hotel Statler to Navin Field and amused the crowd between innings. Judge Landis, Ty Cobb, Walter Camp and Babe Ruth shared the honors of the day with the M. A. C. musicians, while the Yankees were defeating the Tigers.

TRACK TEAM TAKES MEET AT OBERLIN

Coach Barron's track team won over Oberlin on the Ohio track and field by a one point margin. The final score was 65 to 66. In the last event scheduled the M. A. C. trackmen marked up the lead which spelled victory for them.

The summary:
100 yard dash: Won by Herdell (M); Gorsuch (O) second; Shannon (M) third. Time, :10 2-5.
One mile run: Won by Williams (O); Baguley (M) second; Van Arman (M) third. Time, 4:48 3-5.
440 yard dash: Won by Richardson (O); Wilson (O) second; Burriss (M) third. Time, :54 2-5.
120 yard high hurdles: Won by Hopkins (O); Steer (O) second; Atkins (M) third. Time, :16 4-5.
220 yard dash: Won by Herdell (M); Gorsuch (O) second; Shannon (M) third. Time, :22 4-5.
880 yard run: Won by Hartsuch (M); Klasse (M) second; Hines (O) third. Time, 2:04 4-5.
220 yard low hurdles: Won by Hopkins (O); Herdell (M) second; Stocker (O) third. Time, :26 1-5.
Two-mile run: Won by Willard (M); Baguley (M) second; Wood (O) third. Time, 10:35 2-5.
One-mile relay: Won by Oberlin: Pierce, Gorsuch, Wilson, Richardson. Time 3:42 3-5.
Pole vault: Won by Warner (M); Hungerford (O) second; Lovejoy (M) third. Height, 9 feet, 6 in.
High jump: Atkins (M) and Stocker (O) tied for first; Preston (M) third. Height, 5 feet, 6 in.
Shot put: Won by Surato (M); Fessenden (M) second; Knight (O) third. Distance, 37 feet, 6 in.
Discus: Won by Wood (O); Dyck (O) second; Fessenden (M) third. Distance, 122 feet, 1 in.
Broad jump: Won by Smith (O); Atkins (M) second; Shannon (M) third. Distance, 21 feet, 4 in.
Javelin throw: Won by Weamer (M); Shannon (O) second; Stocker (O) third. Distance, 154 feet, 9 in.

On its first trip the tennis team won from Valparaiso and lost to Kalamazoo college.

BASEBALL TEAM WINS THREE GAMES

Valparaiso, DePaul and Beloit Fall Before Walker's Squad on College Field—Kuhn Strikes Out 15 Against Valparaiso

Valparaiso's baseball team ended its winning streak when it came up against the pitching of Captain Kuhn on College Field May 11 and the Hoosiers took the small end of a 10 to 5 score. Kuhn was complete master of the situation and the batting of his team mates gathered enough runs to win more than one baseball game. Striking out 15 batters is no mean feat and Kuhn turned his second performance of the season in that line, in addition to this he hit three batsmen and gave nine bases on balls but with men on the bases he had control to go with his speed and curves and avoided danger by striking out the hitters when the visitors threatened to score. This evened his score with Valparaiso for that team won from him on its home diamond after one was out in the ninth and with a four-run lead to overcome.

M. A. C.					Valparaiso.

Three base hits: Kuhn, Johnson. Sacrifice hits: Sullivan, Harris, Gasser, Williams. Stolen bases: Sullivan, 2; Anderson, 2; Brady, 2; Stephens, 2; Maloney, Beckley, Kuhn, Daley, Sepaneck, Williams. Struck out: by Kuhn, 15; by Martinson, 7; by Gilpin, 3. Bases on balls: off Kuhn, 9; off Martinson, 4; off Gilpin, 1. Hit by pitcher: by Kuhn, 3. Wild pitches: Kuhn, Martinson. Passed ball: Gasser. Left on bases: Valparaiso, 15; M. A. C. 8.

Brady's home run in the ninth inning concluded a hectic battle 7 to 6 in favor of M. A. C. when DePaul's baseball team threatened to carry off the honors for the day and kept that threat alive through to the last inning. It was a see-saw affair with the visitors leading most of the way and it was only the heroic batting of several M. A. C. men that saved the day. Stephens registered a four-bagger with Johnson scampering home ahead of him in the eighth, knotting the score at six all. Two errors, a base on balls and a single put the home team on an equal basis with the Chicagoans in the fifth. This was

the first of two victories for Coach Walker's men on College Field for the next day, Saturday, they vanquished Valparaiso, 10 to 5, after the Hoosiers had collected an early lead.

Left on bases: DePaul 11; M. A. C., 6.

Beloit college was the first victim of the baseball team last week. The visiting team was reputed to have been a winner over the University of Wisconsin but failed to give much opposition to Walker's crew. Loose fielding and savage batting by the Green and White nine turned the game into a walk away and the home team won 10 to 2. The scoring was curtailed in the third because rain threatened, and with a lead of five runs, M. A. C. could well afford to sacrifice an inning or so with the hope that the weather would not stop the game before a full half had been played.

Wenner was effective at all times. He struck out eleven men and held Beloit to four hits. In the field the M. A. C. men played almost flawless ball, some of the stunts bordering on the sensational.

COLLEGE WILL HAVE ADEQUATE HOSPITAL

By a last minute addition to the college appropriation bill while it was in the senate committee M. A. C. will have a modern hospital for which \$50,000 will be expended and a total of \$100,000 for the miscellaneous building program representing an increase of \$100,000 in the bill as originally passed by the house.

In effecting this change in the measure M. A. C. will have the following funds for use during the next two years, besides the \$100,000 loan for the stadium:

Horticultural building	\$400,000
Extension	300,000
Power house	150,000
Hospital	50,000
Research	70,000
Miscellaneous buildings	100,000
Total	\$1,070,000

This is also in excess of the sum coming to the college from the mill tax and which will be used entirely for the operating expenses of the institution. This will be in the neighborhood of \$1,000,000 and may be above that if the assessed valuation of property in the state is placed high enough.

In a general way the college benefitted greatly through the approval of this measure and with the new library and home economics building it will be well enough equipped to care for an anticipated increase in the enrollment. A hospital to care for student cases has long been needed. During the past few years since the former hospital was occupied by the Y. M. C. A. the only equipment of this kind has been the four cottages at the rear of the bacteriology building. Secretary Halladay was instrumental in having this appropriation placed in the budget. His responsibility extended last winter to providing proper care for a large number of sick students when near-epidemics were prevalent and he saw the need of better facilities for the health department. The sum appropriated for this purpose will allow for the installation of an efficiently equipped organization in a building large enough to meet the demand.

IRELAND REWARDED FOR WAR SERVICE

Major Mark L. Ireland, '01, who has been stationed at Ann Arbor doing graduate work in highway engineering at the University of Michigan, was presented with a Distinguished Service medal at the review of the University R. O. T. C. unit on the campus on May 2. The presentation was made by Major Robert L. Arthur, professor of military science and tactics at the university.

The citation accompanying the medal was as follows:

"Mark L. Ireland, major, Quartermaster Corps, then colonel, Motor Transport Corps, (Quartermaster Corps) United States Army. For exceptionally meritorious and distinguished services in a position of great responsibility. As Chief of the Repair Division, Office of the Director, Motor Transport Corps, American Expeditionary Forces, he displayed sound judgment, executive ability of a high order and unremitting devotion to duty, thus contributing, markedly, to the successful operations of the Motor Transport Corps of the American Expeditionary Forces."

CLASS NOTES

All classes not regularly listed for reunions are urged to gather as large a crowd as possible and perfect their permanent organizations so they will be in working order when reunion time arrives. The class of '17 is the best organized. Take it as a model. Elect permanent secretaries as close to the college as possible and make your program worth while.

^{'71} Richard Slocum is now reached at Glenham, South Dakota.

^{'73} Not a word has been heard from this class concerning its reunion plans. The golden anniversary of a class is worth celebrating. The old timers should be on hand to witness the passing of a half century. Write to the alumni office about your program for June 16. We can help you make the necessary arrangements.

^{'78} W. K. Prudden has written that he may be here to greet the members of his class. A blow has been struck the alumni baseball team by his hesitancy in announcing his certain arrival.

^{'83} There are three members of this class in Lansing ready to start things off for the fortieth anniversary gathering. F. F. Rogers, A. M. Emery, and O. C. Howe are close enough to the campus to insure a warm welcome to their classmates.

^{'86} J. W. Clemons and Jason Hammond are residents of Lansing. Mrs. Jennie Woodard lives in East Lansing. These will make up the local committee

for the regular reunion of this class.

Jemie Towar Woodard is in East Lansing, 511 Abbot road.

W. R. Rummeler sends his blue slip from 1212 Tribune building, Chicago.

'87

George J. Hume, at present farming near Lansing is the member of his class nearest to the scene of the reunion.

'88

On its 35th anniversary old '88 is due for a big time. Have you reported the number you will bring to the festivities of Alumni Day, June 16?

F. J. Free reports no change in occupation and is still at 613 W. Hillsdale street, Lansing.

A. B. Goodwin is the clerk of Carson City, Michigan.

'89

There are enough of this class in and near East Lansing to insure a large attendance at this reunion. It will be twenty years before they will gather again with '86, '87, and '88 in regular reunion.

'90

Frank G. Clark has moved from Pontiac to Birmingham, 216 Willets street.

'93

Dick J. Crosby had planned driving through to East Lansing for his 30th reunion but the date his children complete high school work at Ithaca prevents him carrying out this plan. L. Whitney Watkins, Luther Baker, A. B. Chase, A. B. Cook, and a number of others, however, are arranging for a celebration in keeping with the prominence of the class.

'98

Dewey Seeley will drop his weather cares for the day when M. A. C.'s second war class returns for its quarter century observance and he will be assisted by Mrs. L. C. Plant in pushing the class program through. There are several surprises in store for the '98-ers but the committee is keeping them quiet.

'00

H. B. Gunnison, Detroit Edison company, reports: "No change in occupation. Have been active in building the new Detroit Yacht Club which will be dedicated May 30, 1923. Have served on the building committee and also bond sales committee. It is the finest yacht club in the world. Expect to attend commencement."

'02

H. L. Brunger is now with the Vulcan Plow company at Evansville, Indiana.

'03

Twenty years have passed since '03 departed into the ranks of the alumni. H. W. Norton, Jr., and Edna Smith are inviting their classmates to return for June 16. Have you answered your letter?

Ray R. Tower gets his mail at 417 Seymour avenue, Lansing.

'04

J. P. Knickerbocker may be reached at R. 4, Lockport, New York.

'05

Cora Feldcamp and V. R. Gardner are both on th campus. A large representation is predicted from surrounding cities for '05 has a number of members close to Lansing.

W. F. Jordan reports his occupation as plant engineer at the American Bridge company, Chicago, and lives at 7941 Euclid avenue.

'06

Coming back to see your friends of '05, '07, and '08? Write the alumni office about your plans.

The following is from G. W. Hebblewhite, 1228 Chandler avenue, Evansville, Indiana: "I am with the International Steel & Iron company as chief engineer. We have a drafting force of 40 men and have just completed some large contracts, perhaps the most interesting one being the new baseball park at Louisville, Kentucky. This grand stand is unique in that it is designed for the use of an entirely new type of seat, which has recently been patented. We would like to return for commencement but it is a bit too early when there are kiddies in school. The family will seek the cool

SATURDAY, JUNE 16

A Great Day for Alumni

Look at this line-up:

Breaking Ground for the
Union Memorial Building.

Dedication of new Library.

Alumni-Varsity Baseball
Game.

Alumni Luncheon and Meet-
ing.

Alumni Parade.

Something Doing Every Minute

Special railroad rates available
for ten days for most alumni.

Let us know how many you will
bring. Write a letter or tear
out the handy coupon below,
fill it in and send it to the
alumni office.

I shall return for Alumni Day, Satur-
day, June 16. There will be.....
others with me. I am not merely in-
terested, I am a BOOSTER, count
me in.

Class.....

Signed

Address

breezes of northern Michigan this summer where I am hoping to join them for a time."

'07

E. L. Grover has written to all of his classmates. He is aided in his efforts by F. A. Gould and George Brown. Let them know when you intend to arrive and how many you will bring.

Bessie Harcourt Christopher still reports from 720 Clayton street, Lansing.

'08

H. H. Musselman and E. J. Shassberger are running the reunion of '08. They are preparing for a large crowd and a big time. Notify them immediately.

G. S. Valentine has changed numbers on Garfield street, Jackson, to 519.

Eugene Wilcox is "farming in the same old place" at R. 2, Bangor, Michigan. He was elected township treasurer at the spring election.

'09

Briggs L. Clark should be addressed 1879 Echo Park avenue, Los Angeles.

Justin Kline has moved in Jackson to the Fletcher apartments on West Franklin street.

'12

Postoffice notices say that C. H. Chilson has moved in Detroit to 9385 Woodside avenue.

Ashley Berridge is now in Greenville, Michigan. G. A. White is with the Sparks Withington company in Jackson and lives at 625 W. North street.

'13

G. C. Dillman, O. T. Goodwon and Louise Clemens are getting under way on preparations for the ten-year anniversary. Costumes and all the trimmings for the day are promised to reuners.

E. H. Collins has changed his place of residence to 618 West 14th avenue, Spokane, Washington.

"Phyllis Rena arrived on October 3, 1922," reports Mrs. R. G. Stalmsmith (Lodie Smith) from R. 2, Hartford, Indiana.

'14

R. A. and Mabel Sherwood (w'16) Brown are no longer to be reached at 2100 Center street, Little Rock, Arkansas.

Don and Marjorie Eckliffe ('15) Barman have moved in Grand Rapids to 1425 Milton street.

Building No. 51, Perryville, Maryland, appears under the name of Clyde Taylor, who reports: "No changes, still managing government farm for U. S. veterans' bureau and looking after lawns, shrubs and so forth, in village on the reservation. Would be glad to see some M. A. C. folks, apparently not many come this way."

Gladys Pauline Creswell should be addressed 2446 Lawrence avenue, Toledo, Ohio, instead of Los Angeles as previously reported.

'15

W. W. and Gladys Graham ('13) Blue are now in Marshall, Michigan.

F. C. Herbison is now located at 238 Rosedale Place, Jackson.

Mr. and Mrs. R. R. Havens announce the arrival of Edward Cummins on May 11, 1923.

Arda Strong Boucher writes that they expect to move into their new home in about a month at 1104 W. Main street, Jackson. At present they are living at 339 W. Morrell street.

Hazel Mundy Wayne has been teaching in the Goodrich consolidated school, and is living at 913 Root street, Flint. She is planning a trip west this summer, expecting to be gone a year.

'16

"I have come to live with Mr. and Mrs. V. C. Taggart (Grace Bryant '17). I arrived on May 12 and my name is Van Cleve, junior."

C. P. Pressley is county agricultural agent with headquarters at Ithaca, Michigan.

E. W. Martin is in Detroit at 2712 Hazelwood avenue.

'17

H. A. Morse used to be addressed at Box 393, Dearborn, Michigan—not any more.

Roscoe Rice has moved in Jackson to 736 W. Franklin street.

C. A. and Ruth Wood ('12) Hoag have moved from 1123 Adrian avenue, Jackson, to 215 Fourth street.

Lyle M. Wilson requests his Record sent to 113 1/2 W. Exchange street, Owosso. He plans to return to the campus for commencement.

Postoffice people ask us to change the address of M. V. Carmody to 215 Pratt block, Kalamazoo.

28 Cooper avenue, Pontiac, reached D. B. Hogue.

P. F. Helmer has for his new address, Box 927, Kelso, Washington.

Clare F. Rossman is farming in Montcalm county near Lakeview and raises certified seed potatoes, corn and grains. He was married in 1918 and has two children.

'18

W. R. Collinson and J. E. Kotila have taken up the burden of making preparations for the first big time for the third war class to be graduated from M. A. C. They are designing a schedule to please the most particular.

Aubrey T. Kennedy is president of the Grand Rapids Bedding company.

Arthur Strang gets his Record at Hinkley, Utah.

L. H. Lockwood is connected with the Lockwood Motor company and lives at 730 Fifth street, Jackson.

'19

Mail addressed to G. A. Livingston at 494 Philadelphia avenue West, Detroit, has been returned unclaimed.

Howard H. Sayers is construction foreman with the North-Griffin company, Jackson. He lives at 102 N. Durand avenue.

Erma Preston Bridge (Mrs. A. E. Bridge) may be addressed at 1840 Sherman street, Denver, Colorado, instead of Bondurant, Iowa.

George Cheal is to be addressed 77 N. Johnson avenue, Pontiac.

LaVerne Brown has moved in Jackson to 1322 E. Ganson street.

'20

Rex M. Davies, '20, Bruce Gleason, '21, and Edgar V. Sayles, '21, are all at 506 McBride street, Jackson.

Melvin C. Hart is teaching in the Birmingham (Michigan) high school and may be addressed at 207 Townsend street.

Eaton F. Perkins is with the Jackson county road commission. He lives in Jackson at 214 Wall street.

Clare A. Rood writes from R. 2, Chassell, Michigan: "Still at Otter Lake school which is now the John A. Doelle Agricultural school."

Charles W. Beers was formerly at 2090 W. Euclid avenue, Detroit, but mail recently sent there failed to reach him. Roblin T. Roblin is also reported missing from 808 Francis street, Jackson, Michigan.

Sohia A. Hoehle gets her mail from the route 1 postman, Jackson.

Ona Bishop may be addressed 98 Gladstone avenue, Detroit.

'21

R. B. Coulter stays at the Delphic house in East Lansing.

FOR RENT—During summer school, furnished 7-room semi-bungalow, with garage and garden, on Sunset Lane, East Lansing. Write R. A. Runnells, '16, at Surgery and Clinic Bldg., East Lansing, Mich.

Have You Paid Your Debt to M. A. C.?

You know your education cost the state twice as much as it cost you.

As a business or professional man or ordinary citizen this must make it clear in your mind that you are under a moral obligation to make a return on this investment.

HERE IS ONE WAY

Do your share to help build the UNION MEMORIAL building.

It will be an imposing structure of great utility.

It will be an attraction to desirable students.

It will serve students, faculty and visitors and, to consider it from a selfish viewpoint, it will provide you with a campus home, a place to meet your friends, a clubhouse where you will be always welcome and where you can enjoy true M. A. C. hospitality.
