

The M.A.C. RECORD

Michigan Agricultural
College Association
Publishers ■ East Lansing
Vol. XXVIII June 4, 1923 No. 32

Remember to get a certificate from the ticket agent when you buy your ticket to Lansing. There is no distance too short to save you money on the return trip.
Register when you arrive on the campus at the alumni office, 3 Faculty Row.

The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.

Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.

Membership in the M. A. C. association, including subscription to THE RECORD, \$2.50 per year.

Unless members request a discontinuance before the expiration of their memberships it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. A. C. Association. Entered as second class matter at the post office at East Lansing, Mich.

ROBERT J. McCARTHY, '14, editor

THE M. A. C. ASSOCIATION

3 Faculty Row, East Lansing, Mich.

OFFICERS—1922-'23

- E. W. Ranney, '00, Pres.
- A. B. Cook, '93, Vice-Pres.
- F. F. Rogers, '83, Treas.
- R. J. McCarthy, '14, Secy.

EXECUTIVE COMMITTEE

- Elected at large*
- Henry T. Ross, '04
- Mrs. Dorothy Lillie Crozier, '17
- Horace Hunt, '05

THE M. A. C. RECORD

VOL. XXVIII. No. 32

EAST LANSING, MICHIGAN

JUNE 4, 1923

PLANS COMPLETED FOR SUMMER TERM

Summer school work, which begins June 19, will offer courses in nearly all of the lines taught during the regular college year and several special courses have been arranged. Teachers in rural schools may study general agriculture, a special ten weeks' course in technical agriculture will be given for superintendents and principals of consolidated schools. Classes will also be formed for home economics and vocational teachers and physical education will be taught to both men and women.

Credits earned in any of these courses can be applied toward a degree at any of the normal schools or at M. A. C. Special entertainment will be provided for the students and a student-faculty convocation will be held each week. Prof. E. H. Ryder is again director of the summer school.

LOWE TAKES POST IN WYOMING FIELD

Dear Mac:

Will you kindly transfer my RECORD from P. O. Box 122, Hyattsville, Maryland, to Fort Washakie, Wyoming, as I am about to depart for that part of the world.

You may be interested in knowing that I am with the bureau of mines and have been stationed in Washington for the past year and a half, but effective the first of June, I am being transferred to Fort Washakie, where I shall endeavor to keep an eye out on the development of oil in Shoshone Indian reserves and contiguous territory in which the government is interested.

Of more interest to you, I am sure, will be the fact that first class hunting and trout fishing are to be had close by, and on serious reflection, I find that I am anticipating this part of my "job" more than the oil problems which I shall undoubtedly find there. If you ever have occasion to get out in that part of the world, do not neglect to let me know about it.

There is a possibility that I may be in East Lansing the latter part of this month, and if so it will be my first trip to the campus since my graduation.

H. J. Lowe, '14.

HOLMES, '93, SPEAKS AT MEMORIAL SERVICE

C. E. Holmes, '93, superintendent of the state school for the blind in Lansing, urged preparedness against the foes of the constitution at the Memorial Day services at the cenotaph on the west end of the campus. It was just after 1 o'clock when the crowds were beginning to arrive for the horse show that the band, followed by delegations from the different societies, started its march around the drive from the armory, finally taking up its stand north of the war tablet where a platform had been erected for the speakers.

President Friday introduced the Rev. John Jockinson of Lansing who asked the Divine blessing upon the ceremony and the day. The band played a selection and Mr. Holmes delivered a short, forceful address, drawing to the attention of his audience the real need for supporters which democracy is experiencing now in no less degree than it did in war times. He pointed out that enemies of the nation were now working from within, bringing about as great a danger to the country as existed during the war.

At the close of his address the adjutant of the William Rikerd Johnson American Legion post read the names of those who had given their lives during the war and as the former members of each society were mentioned a representative of the organization placed a wreath on the cenotaph.

More than 500 attended the ceremonies.

PAW PAW BAND WINS FIRST IN CONTEST

Under the direction of Arthur B. Castle, who obtained much of his band experience under Professor Clark, the Paw Paw high school band won the honors for schools of less than 500 enrollment at the contest held at the college May 26. The Allegan band took second prize and a 35 piece organization from Dowagiac was given third.

In the Class A competition Pattengill Junior high of Lansing took first place, St. Johns of Jackson was awarded second.

All bands entered joined with the college band in playing "Officer of the Day" march at the conclusion of the contest.

GILTNER HEADS VETERINARY DIVISION

Bacteriology Department Combined with Other Courses in Veterinary Work—Amalgamation Expected to Aid in Development

One of the most important changes which has occurred since the introduction of the engineering administration courses, is the reorganization of the division of veterinary science to include the department of bacteriology and physiology, with Dr. Ward Giltner, present professor of bacteriology and hygiene as dean of the enlarged division.

At the meeting of the State Board Friday, May 25, the following recommendation was accepted:

"In order to promote harmony, efficiency and economy, having in mind the best interests of the divisions of veterinary medicine, agriculture, applied science and home economics, the experiment station and the college as a whole, it is recommended:

"That the resignation of Dr. F. W. Chamberlain as acting dean of veterinary medicine be accepted and that the board acknowledge its gratitude to him for his faithful services during the past five years.

"That Ward Giltner, professor of bacteriology and hygiene, be made dean of veterinary medicine, the department of bacteriology and hygiene becoming a part of the division of veterinary medicine.

"That there be created a separate department of physiology administered in the veterinary division.

"That the work in parasitology under the immediate direction of Dr. Chandler be transferred to the department of bacteriology and hygiene, the details of the arrangement to be left to the director of the experiment station and the dean of applied science.

"That the secretary of the board be authorized to make adequate provisions for housing the work of the division of veterinary medicine where the changes recommended herewith necessitate additional space.

"That the dean of veterinary medicine be authorized to readjust the work within the division as his judgment dictates in order that all the work be carried on most effectively and that each one in the division carry a full program and work to the best advantage considering his training and the needs of his division."

It is expected that much good will come out of the rearrangement. It will work an economy in money, and in brain, and it will increase the service to the animal interests of the state. The work of bacteriology with

respect to diseased animals has been carried on in the past both in the veterinary division and in the bacteriology department, with no particular cooperation between the two. The new system will centralize the work under one head and make for a more efficient administration.

The department of veterinary science has accomplished as much as was possible under the former system of organization, and much credit must be given Dr. Chamberlain, who, during the last five years has been acting dean since the resignation of B. P. Lyman. Dr. Chamberlain will continue his work in the department, retaining his title of professor of anatomy.

The enlarged division will consist of five main parts: The department of bacteriology and hygiene, with Dr. Giltner at its head; the department of physiology, headed by Assistant-professor Roseboom; the department of pathology, with Prof. E. T. Hallman; and the department of surgery and medicine with Prof. J. P. Hutton.

It is predicted that the activity of the veterinary division will be increased under the new plan. Most of the courses will be elective to students in any division. The bacteriology department expects to serve the science division even more than it has in the past. Everything, in fact, in the veterinary division will be brought to the service of the science division.

Dr. Ward Giltner, the new dean, is one of the most prominent professors on the campus; his work as head of the bacteriology department has been carried on very efficiently.

Dr. Giltner graduated in 1906 from Cornell University with a D. V. M. degree. From '06 to '08 he took his master's work at the Alabama Polytechnic Institute. There he taught in connection with his studies and helped to organize their veterinary school, a school that has since become the strongest of its kind in the south.

Dr. Giltner came here in 1908, fifteen years ago, as a research assistant in the bacteriology department. He was made head of the department in 1912, upon the resignation of C. E. Marshall. Dr. Giltner and Dr. Chamberlain were classmates at Cornell.

The changes in the division of veterinary science have the approval of all the division

heads. Similar organizations have been very successfully worked out at Cornell University and other schools. The method by which common problems were solved at the other colleges and universities will help greatly in making the enlarged division a success here.

NEW ELECTION PLAN READY FOR MEETING

An amendment will be offered to the constitution of the association at the annual meeting on June 16 affecting the election of officers. In order to make it clear to all who expect to attend and give an opportunity for for due consideration it is printed herewith:

Article VI

Section 1. Nominations for officers of the association shall be made by two committees of three each, appointed by the president, each committee to nominate a full ticket for vacancies to be filled. The names of the nominating committees shall be published in THE RECORD not less than five months prior to the annual meeting, with a request for suggestions from the membership at large. The committees shall confer not less than three months prior to the annual meeting and shall consider all names which have been suggested, after which each committee shall nominate one person for each position to be filled. All nominees must be active members in good standing who shall have signified their willingness to attend to the duties of their offices. The two tickets, thus nominated, shall be published in THE RECORD not less than 60 days prior to the annual meeting in order to give opportunity for nomination by petition as provided in Section 2.

Section 2. Any twenty active members may also present the name of any nominees for offices to the Secretary, provided it is done at least forty days before the annual meeting.

Section 3. The names for all candidates for office shall be placed by the secretary on the printed ballot without distinction as to method of nomination and he shall mail it to every active member in good standing at least thirty days before the annual meeting. The ballot shall be enclosed in an envelope on which is printed "Ballot" and a place provided for the endorsement of the voter. The voter shall mark the ballot, seal it in the envelope, endorse the envelope, and mail it to the secretary. The secretary shall certify as to the signatures and competency of the enveloped ballots as received and deliver them unopened on the day preceding the day of the annual meeting of the association, to a com-

mittee of three or more tellers, appointed by the president, who shall open the sealed envelopes and report the results of the election.

Section 4. Ballots received later than two days preceding the day of the regular annual meeting of the association shall not be counted.

Section 5. A plurality of votes cast shall elect.

Section 6. The ballots shall be held by the secretary for twenty-four hours after the hour of the announcement of the result of the election, and then, unless otherwise instructed, he may destroy them.

In order to obtain continuity of policies it is recommended that by-law Number 2 be amended to read as follows:

Members of the executive committee shall be elected on June 16, 1924, for a period of one, two and three years, respectively, and thereafter one member shall be elected each year for a period of three years or until his or her successor shall have qualified for office.

OLD TIMERS READY FOR VARSITY NINE

The alumni promise to put forth their best efforts in the baseball game. "Fat" Taylor, '15, victorious basketball promoter, will apply his energies to making the game one of the best the alumni have ever played and he has a high mark to shoot at.

In the ranks of the graduates, however, there is enough first class material to do duty against a league nine. Al Brown, Ralph Dodge, "Baldy" Spencer, "Frenchy" DeMond, "Brownie" Springer and a dozen others will be available for pitching duty. Blake Miller may also be available unless cranking his car has spoiled his arm. Catchers are plentiful and of exceptional ability. Stanley Johnston, "Swede" Oas, A. L. Bibbins and a few others will be near College Field when the umpire calls "play ball." One first base there is Frimodig, second to none. The other posts on the infield will find Paul Dancer, C. C. Hood, C. W. Andrews, "Chuck" Higbie, "Chi" Fick and other favorites in action. The outfield will be carefully guarded by John Hammes, Willman, Harvey, "China" Clark, and choice selections from a long list of others.

The alumni are well acquainted with "Bull" Green, veteran umpire, who may be requested to return for the reunion. Many of them remember his famous decision, which cost M. A. C. a victory over Michigan, and would be glad to have a chance to talk it over with him.

VIEWS AND COMMENT

The fortunes of a great established institution such as M. A. C. are not made or unmade by the influence of any one person. They may be shaped for good or bad if his influence is felt over a period of sufficient length to allow it to pierce through the outer covering and reach the heart; if it has an opportunity to affect the fundamental policies or tear asunder the ties which bind it to those whose life work is a part of its existence it can change the path of its teachings or encourage or retard its progress. These things, however, are not accomplished within a short span of time. In the resignation of President Friday, M. A. C. loses somewhat of the headway it had gained during his administration. A change in executives always delays progress along the lines laid out by the previous incumbent but his departure cannot be listed as an irreparable loss to the college.

Dean R. S. Shaw, who has been a constructive factor in the life of the college for more than two decades, entered upon his second period as acting president on June 1. Dean Shaw lives and breathes the spirit of M. A. C. He is a part of it. His personality has commanded the respect and admiration of students and faculty; his achievements have placed him high in the ranks of educators and administrators. In Dean Shaw's scheme of existence the interests of the college are everlastingly first. As an adopted son of M. A. C. he has proved faithful, energetic and just. His influence has long been felt in the conduct of college affairs. There is nothing ephemeral about it. The rigorous righteousness of the old-fashioned Scot is in his heart directing his action. His efforts will be marked by that kind of deed which is not purchased with salary but springs from the nature of the man who believes in a cause and is willing to sacrifice personal considerations for the good of the institution.

Travel along the highroad of life with the hurry and bustle of America is tiring, it saps the energy of the traveler. To keep going is the problem faced by most of us. It has been much simplified in the past thirty years. While the pace has been intensified the opportunities for relieving the strain have multiplied until now they are well defined oases along the way; shrines where the pil-

grim seeking his objective may halt and be refreshed. Of these the best is the custom of alumni reunions. For a day or more you can bask in the shade of the beautiful trees of your college days; you can drink deep from that fountain of youth, college spirit; you can refresh your jaded spirit-by communing with those who have blazed trails along different lines than the one you chose; for a definite period you can cast off the shackles of business and loose your energies in gay abandonment as the events of the period draw forth your inclinations. The conventions of professional and commercial life, the strait jacket of precise social etiquette are discarded for the day. You have stepped again into the green valleys of contentment which surrounded you in your carefree days; you see once more the vision of those heights beyond, and are inspired anew to assault the fortress of success. All of these and more are offered to you at the wayside station of Reunion Days.

A long trip, at all comparable to the journey of life, requires resting spells where energy may be fortified and perspective adjusted. The transcontinental walker or automobile driver knows the value of these periods of rest. You should know it also. Your opportunity to add to the pleasures of your lifetime, to discharge a duty to your alma mater, to renew and strengthen old friendships, comes on Saturday, June 16. To miss it is like withdrawing your savings account just before interest is due or keeping your spare cash behind the clock instead of in a bank; you are sacrificing something you can never regain. The next year will not be as good, the next reunion will find some of your friends missing. If you pass this wayside shrine the next will be less inviting, thus a habit will be formed as pernicious as that of failing to get the proper amount of rest, you cannot gain by this abnegation, you can only lose.

A. B. Chase, E. Peters, A. B. Cook, L. W. Watkins and Luther Baker comprise the committee from the class of '93 to handle affairs for the thirtieth reunion of that class on June 16. Although the members of this class are scattered over fifteen states Luther Baker is of the opinion that a large percentage of the original graduating class will be on hand for the feed at his home in East Lansing after the baseball game.

"Close Beside The Winding Cedar"

C. G. Clippert, '10, has received his M. D. degree and is an interne at Harper hospital, Detroit.

The freshman baseball team added another trophy to the list possessed by the class of 1926 when it captured campus baseball honors.

The varsity male quartette has been much in demand for commencement exercises at small high schools within a wide radius of East Lansing.

Pupils in the consolidated schools in nearby towns and the county normal convention gathered at the college May 17 and 18 for a field day and meetings.

Miss Maude Meech and Miss Louise Walsworth, who have for some years been connected with the office of the secretary of the college, have entered new lines of work.

O. T. Goodwin, '13, who has been associate professor of dairy manufacturing, has left the college to accept the position of secretary and manager of the Michigan Producers Dairy company at Adrian.

One of the senior stunt days recently found the '23 co-eds wearing masks and dressing to fit the parts they portrayed. Other similar practices mark one day each week when the graduating class exercises its option to do the unusual.

On June 12 East Lansing will vote on the proposal for a city bond issue to provide \$50,000 for fire protection and water supply. Of this sum half will be used to increase the water supply and half to furnish adequate equipment for fighting fires.

A dance and reception was given in the armory on the evening of May 22 by the members of the military department in honor of the inspecting officers. Officers of the cadet corps and reserve officers at the college attended as well as about 40 members of the faculty.

The varsity tennis team left last Tuesday on a trip which took it as far east as Pennsylvania and on which it encountered the opposition of five teams. Detroit Junior, Oberlin, Penn State, Pittsburgh and Allegheny were scheduled to be met before the men turned their faces homeward.

A recent report in THE RECORD to the contrary notwithstanding, the Canoe club has decided not to begin early operations on the erection of a shelter.

A Chinese play, "The Golden Lily," was presented at the People's church on the evening of May 20 by the co-eds who were raising funds to aid colleges in China.

Six juniors were received into the membership of Alpha Zeta at the spring initiation. Those honored were: E. C. Perrine, Detroit; G. R. Schlubatis, Battle Creek; J. L. Kidman, Clyde, Ohio; C. F. Abel, Sand Lake; George Allan, Rockford; C. W. McIntyre, Dowagiac.

Interclass athletics of all sorts is taking the attention of those inclined that way among the co-eds. One of the latest forms of competition is archery and the west end of the parade ground is more dangerous for the pedestrian than it was during the sham battles of the cadet corps.

Among the events listed for the water festival on the evening of June 15 are: Men's single and double races from the Columbian landing to Farm Lane; mixed canoe tilt, one man and one woman in each canoe; canoe battle, combination tilt in which canoes will be drawn up in opposing lines.

R. C. Bristol, '03, was a recent campus visitor. He is president of the Parker Rust-proof company in Detroit and lives in Highland Park. H. P. Baker, '01, was also at East Lansing recently while on a visit to J. O. Curwood in Owosso. Baker's headquarters are in New York city where he is secretary of the American Paper and Pulp association.

MARRIAGES

BLAIR-DICKEY

Thomas Stewart Blair, '21, and Louise R. Dickey of Ashland, Kentucky, were married May 28, 1923. Mrs. Blair was graduated from the Denison University at Granville, Ohio, in 1921. They will be located in Wyandotte at Elm and Van Alstyne streets, and T. S. adds: "As soon as we get settled we want all our friends to think of Wyandotte as the place they are sure of one good, free meal."

STADIUM ON NORTH-SOUTH LINE

Athletic Board Decides to Have Structure Erected Near and Parallel to Railroad Spur—State Prepares to Begin Work Immediately

After a consultation with members of the State Board, representatives of the state construction department and T. Glenn Phillips, '02, advisory landscape architect, the board in control of athletics, on Saturday, May 26, decided to place the stadium parallel to the railroad spur south of the Red Cedar at a distance of about 250 feet from the river on the high ridge at that point.

The decision came after a discussion which extended over two meetings on the site and resulted in an unanimous vote for the proposal to place it on a north and south line and close to the railway spur.

At the meeting on May 25, J. R. McColl, '00, and Secretary Halladay represented the State Board, and Superintendent Rutley, in charge of construction at the college for the state, gave his viewpoint on the relative costs of construction, outlining the plans by which it would be put through to completion. It was at first suggested that the structure be placed at an angle with the line of trees bordering the railroad, allowing room for a 220 yard straightaway without going south of the farm lane which has been constructed through the field. This met with objections because of the angle it would make with the sun and the probable effects it would have on the player attempting to catch punts. It also found opposition because of the increase in cost due to the low ground which must be filled to accommodate the stands and track.

Maps had been prepared and these were presented by Prof. R. G. Saxton of the civil engineering department who disclosed the features affecting the site. It was decided at that time to get Director Young's opinion on the most desirable orientation of the playing field and his idea as to the necessity for a 220 yard straightaway for track meets.

Director Young attended the meeting of the board on the following day. He urged that the field be due north and south and that the track be included. This suggestion was taken up by the board and it was decided to place the field parallel to the railroad track and run the straightaway to the fence at the south end and as far north as was necessary to get the required distance.

The state department of construction is ready to begin as soon as materials and machinery can be taken to the site. One of the first tasks is to level off the playing field in

an attempt to have it in condition for playing next fall, see that it is thoroughly drained and provide for the approaches.

In the erection of the first units of the stands seats will be provided for 12,000 in the concrete structure and the use of temporary bleachers will allow room for more than 2,000 over that number. If it is found necessary to complete the stadium in oval form it will have a seating capacity of nearly 40,000. It is expected, however, that the facilities planned for the first unit will accommodate most of the crowds for the next few years.

Unlimited space will be available for parking automobiles, both south of the river and on the campus side and the proximity of the field to the gymnasium does away with the expense of providing dressing rooms at the stadium. In preparing for the actual work of construction a side track will be run in from the railroad spur and all materials will be brought in that way and unloaded by locomotive crane. This will work a great economy in haulage costs over any site where trucks must be used in transporting materials and equipment. In the case of special trains bringing spectators to the games they will be able to unload immediately at the field and leave from that point.

While the new field is being prepared the old practice field back of the stands on College Field will be utilized for training and practice and it will be smoothed off and seeded during the summer to have it in the best possible condition for the fall.

President Friday spoke before an audience of 1500 in the Forest of Arden, May 27, on "A Sufficient Philosophy of Life." His discourse revealed what he believes the cardinal principles for living a full life. He urged good taste, a sense of humor, love of intelligence, the necessity of personal liberty and the experience of renunciation as the necessary points to be considered. The varsity male quartette sang and the crowd joined in favorite selections. The People's church orchestra supplied the accompaniment.

A score or more senior Hort students spent three days in Detroit recently studying the market situation which is more or less under the direction of G. V. Branch, '12.

COMPLETES PICTURE OF COLLEGE HALL

Prof. A. G. Scheele has just completed a large painting of College Hall which will be hung in the Union building. It is probable that it will be exhibited in the present Union building for some time. Professor Scheele presents a view of the west side of the historic building which is fully as familiar as any other and gives him an opportunity to show the entire side of the structure much more clearly than any other view allows.

Professor Scheele has already placed one picture in the Union building. It is an oil painting of a view across the Red Cedar under the railroad bridge which can well be placed in a prominent position in the new building. He has promised to add other samples of his work on college scenes of which he has found a great variety.

HENSHAW, HALSTED WIN ESSAY PRIZES

At a convocation in the gymnasium on May 31 the Bregger-Friday prize for the best essay on the subject "Is it to the Best Interests of American Agriculture that Farm Land Values Increase or Decrease" was divided equally between F. W. Henshaw, '23, Grandville, and B. V. Halsted, '24, Petoskey. L. A. Bregger, '88, offered \$100 for the best essay and President Friday offered \$50 for the second best. The judges found no sufficient difference in the merits of the two best essays and each man was given \$75. Both Bregger and President Friday have announced that the prize will be offered again in 1924.

Following the presentation of the awards President Friday spoke on the profession of the economist. He explained that there are still great fields unexplored for the student of affairs who has the zeal necessary for research. He urged that M. A. C. students look into the possibilities of farm economics and enjoy the fellowship of economists.

Lions clubs from all over the state attended the convention of that organization held at the college on May 23. A kiltie band was one of the features of the day. The visitors were regaled with a review of the cadet corps presented largely for the benefit of the federal inspecting officers who happened to choose that as one of the days upon which they would inspect the college soldiery.

TRACK TEAM THIRD IN STATE STANDING

M. A. C. was forced to take third place in the eighth annual intercollegiate track meet held on College Field, May 26. This was the second time in the history of the feature that the Green and White failed to take first honors. Ypsilanti normal led the field at the close of competition with Western State Normal second, just a point ahead of M. A. C. Meet records were broken and the outcome of the meet was in doubt until the last event was run off.

It soon became apparent that the three principal contenders were Ypsi, Western State, and M. A. C. Smith of Western State cut in too soon after taking the lead from Suarey of Ypsi. Suarey was spiked and Western State was disqualified. This gave Ypsi first place in the relay and the meet.

Smith (W. S. N.), smashed the record set by Ernst in the 440 last year when he ran it in 49 1-10 seconds. He far outdistanced the rest of the field. Stewart, of Alma, broke the record for the shot-put with a throw of 43 feet, 1 inch. Later, in an exhibition throw, he tossed the cannon ball 44 feet, three inches.

Spanenberg, of Albion, set a new record in the mile run when he covered the distance in 4 minutes, 28 7-10 seconds. Harris of Detroit Junior, established a record in the javelin throw with a mark of 165 feet, 1 inch. Ypsilanti was also credited with a record in mile relay with 3 minutes and 29 seconds.

M. A. C. captured only one first in the track events. This was the 880 in which Klasse and Hartsuch had things all their own way. Herdell had an off day and failed to win a first. He ran the century in the morning in 10 seconds flat but failed to do better than third in the afternoon when the winning time was 10 1-5 seconds. Captain Atkins won the high jump and Fessenden collected a first in the discus.

The Fresh found the opposition too strong. Total points: Ypsilanti normal, 38 1-3; Western State normal, 33; M. A. C., 32; Kalamazoo college, 21; Detroit Junior, 16 1-3; Alma, 10 1-3; Albion, 7.

R. K. Rosa and Beatrice Boileau, both of the class of '24, were married at Cadillac on May 26. Rosa is editor of the 1923 Wolverine, a member of Alpha Zeta and the Eclectic society. Miss Boileau has been teaching school near Cadillac during the past year. She is a member of the Ero Alphan society. Both will continue their college work.

VARSITY DEFEATS YPSI, ST. VIATOR'S

Crack Illinois Team Victim of Kuhn and McMillan—Normal Nine Loses Memorial Day Number on Home Diamond—Eight Straight Wins

Ypsilanti was conquered on its home diamond by Captain Kuhn and his men when, on Memorial Day, they took a twelve-inning game, 12 to 8. Wenner started the contest but Kuhn was forced to take the mound in the fifth inning to save the day. A full report of this game will be printed in the next issue of THE RECORD.

With one of the whirlwind finishes which have characterized all games on College Field this season, with the exception of the Michigan contest, Coach Walker's men took victory from the hands of the St. Viator's team on May 24, 5 to 3. There would have been no necessity for a ninth inning rally had not Daley contributed to the chances of the visitors with two errors which were instrumental in allowing them to score that number of runs. No team can score much on two hits and the four registered by M. A. C. were opportune enough and long enough to insure a safe margin.

St. Viator's came to East Lansing with a record consisting of a long string of victories over colleges in its class in Illinois and Indiana, in fact it had gone into conference circles to show its superiority. Clancy at first base performed with the polish and instinctiveness characteristic of a professional star and the entire team with the exception of McLain at short played baseball of the highest type. In Captain Kuhn, however, the visitors, in common with other teams, found an obstacle to their progress. Kuhn held them to two hits and fanned fourteen. McMillan's home run wallop in the ninth scoring Brady ahead of him before a man had been put out was responsible for the figures reading as they did on the M. A. C. side of the score while the M. A. C. team in the field performed creditably, Daley being the only man to make a miscue.

Kuhn started the scoring in the fifth when he hit to left center for three bases. Gasser, who followed him, laid down a perfect sacrifice in a squeeze play and the captain galloped home. Gasser, who is smaller than the average player, was forced to go over his head for the pitch but completed his end of the play perfectly. The visitors scored twice in

the sixth and M. A. C. came back with one in each of the seventh and eighth, tying the score at three all. In the ninth Brady worked Duffy for a pass and Duncan, who had lowered Indiana's colors in a one-hit performance, replaced the big right hander in the box. McMillan looked over two of the port sider's shoots and picked out one for his home run wallop to left field, ending the game.

Score by innings:

St. Viator's	000	012	000	—3
M. A. C.	000	010	112	—5

Home run: McMillan. Three base hit—Kuhn. Sacrifice hits—Fitzgerald, Gasser, Beckley. Stolen bases—Sepaneck, 2; Gasser, Clancy. Struck out—by Kuhn, 14; by Duffy, 7. Bases on balls—Off Kuhn, 5; off Duffy, 9. Hits—Off Kuhn, 2; off Duffy, 3; off Duncan, 1. Wild pitches—Kuhn, 3. Passed balls—Gasser, Standaert. Left on bases—M. A. C., 10; St. Viator, 5.

KUHN SETTING PACE FOR PITCHING HONORS

Captain Kuhn is accumulating a college baseball record which will be hard to equal. With the exception of Michigan he has faced the strongest teams on the M. A. C. schedule and has turned them back in a manner which stamps him as one of the greatest pitchers who ever wore the Green and White. Starting with the Albion game he has gone through 39 innings, allowing a total of 14 hits and 14 runs, giving 24 bases on balls and striking out 64 batsmen. No figures are available to show the number of runs earned against him but it is certain that the total would be halved at least if these statistics were computed, for few of the tallies registered while he was in the box were attributable to his work.

St. Viator's and Notre Dame he stopped with only six hits over, the full route for both games and his work against Albion is not truthfully reflected in the box score which allowed the Methodists one safety, that was a scratch hit which never should have been given them had the umpire been watching the play.

Bases on balls have been largely a question of watching the corners closely and the wild pitches he delivered were usually the result of curves too sharp for the catcher to handle. With first class fielding and batting in the earlier games he would have compiled a heavier record but the advent of warm weather meant much in getting him into shape for his feat. Not only has he pitched in championship form but at bat he has contributed enough hits to put his average over .350, most of his hits going for extra bases.

In his three years of competition Kuhn has consistently improved and his record this year tops off the list impressively enough for the ambitions of any college man.

NEW COURSE FITS GOLF LINKS EXPERTS

Professor Halligan of the landscape department has arranged a new course for those interested in the care and laying out of golf courses. Development of this sport during the past ten years has led to a greatly increased need for experts to construct and keep in shape the multitude of links for which there is such a demand.

Lyman T. Carrier, '02, with the U. S. de-

partment of agriculture, has been applying his efforts toward solving the problem of proper grasses for courses and through a committee of the U. S. Golf association he has arranged to place college men on various courses during the summer months, getting experience in handling greens. Several M. A. C. men will follow this work during the summer.

Men qualified for positions of this sort are assured profitable work for the demand which exists for their services far exceeds the number of men available.

BARRON PERFECTS TRACK SCORE BOOK

Coach Barron has perfected a score book for track and field events which has found enough favor with coaches and officials to have A. G. Spalding & Bros. take it up, copyright it and arrange for the selling privileges. It is the first book of its kind to be worked out and contains a well-arranged scoring system, providing space for individual and team events of each meet on two pages and a page for summary of points of individuals and teams for the season concludes the book.

At the Drake Relays samples of the book were presented by the sports goods firm to the coaches attending and it was praised by Major Griffith, conference commissioner of athletics. It is expected to prove a help in keeping corrects records of teams and in showing the exact accomplishments of individuals.

CLASS NOTES

All classes not regularly listed for reunions are urged to gather as large a crowd as possible and perfect their permanent organizations so they will be in working order when reunion time arrives. The class of '17 is the best organized. Take it as a model. Elect permanent secretaries as close to the college as possible and make your program worth while.

'61

James H. Gunnison now resides in East Lansing at 1033 E. Grand River.

To the "Boys of '83

"We, the undersigned, met at luncheon in Lansing, May 28th and solemnly swore that it was our duty to punch up the old boys and remind them of their duty to return to their Alma Mater at least once in 40 years.

The first 40 years have now passed and we have the names of some 25 of the old bunch who have so far survived.

Fearing that we may not all be here 40 years from now we insist on your coming to the reunion this year.

The Lansing fellows promise you a warm reception.

Time—Saturday, June 16.

Place—M. A. C.

Paste this in your hat.

Yours for a good time,

- Frank F. Rogers,
- Osmond C. Howe,
- Archie M. Emery,
- Herbert M. Weed.

'88

The post office informs us of a change of address for Mary Harrison Flower to Bradenton, Florida. Mrs. Flower was formerly in Detroit.

'93

Fellow Classmates:

"We're the Class of '93

And we get there every time."

Thirty years ago we stepped off and we have been stepping ever since with the result that, according to the last report of the alumni secretary, we are now scattered over fifteen states; but distance means so little in these days that your committee on reunion is looking for practically 100 per cent attendance of the forty surviving members of our class on June 16th. Will you be present?

You are cordially invited to attend the general reunion and, as usual, the special reunion of the class of '93 on Luther Baker's lawn adjacent to the campus.

If circumstances prevent your attendance, do not fail to write a letter to Luther giving in a few words your best suggestion for the future of M. A. C. Your letter will be read to those present in person, but come if you possibly can, not only to greet old friends, but to see the wonderful new buildings that have been added to the campus since you were here last. Sincerely and cordially,

- Albert Chase,
- Ed. Peters,
- Bert Cook,
- L. Whitney Watkins,
- Luther Baker,
- Committee on Reunion.

'98

H. A. Hagadorn announces his new address as 715 Laurel avenue, Bridgeport, Connecticut.

'03

Frank C. Rork is employed as chief drafts-

man in the mechanical department of the Miami (Arizona) Copper company. He recently enjoyed a visit with his brother, C. E. Rork, '97, of Douglas, Arizona.

T. E. Jarrard, formerly vice-president of the Apperson Brothers Motor Car company, at Kokomo, Indiana, is now sales manager of the Durant Motor company of Michigan at Lansing.

The present address of F. N. Grover, which F. C. Rork, '03, requested, is not known to this office. This information would be greatly appreciated by us.

Mail addressed to Mrs. W. E. Grant (Katharine Huckins) at Culver City, California, has been returned to the Alumni office unclaimed.

'07 Reunion

The local committee of the class of '07 is making arrangements for the largest reunion the class has ever held. Headquarters will be at the People's church. A large number of the class from near and far have already signified their intentions of being present. Don't fail to return this year. Notify the Alumni office when you will arrive.

Local Committee, Class of '07.

'08

Arthur Wilcox writes from Eugene, Oregon, where he is in the Forest Service: "April was spent in supervision of forest planting work in our burn on Mt. Hebo. 180,000 trees were planted, eight feet by eight feet, covering about 315 acres. It took a crew of 20 to 25 men slightly over a month. Cost about \$9.00 per acre. Trees were all Douglas firs, the native timber tree, two and three years old, averaging about eight inches high. Adjacent to the area planted were trees planted twelve years ago, now a dense stand of young trees, some of which are fully fifteen feet high. A little work spells the difference between waste and production."

Joseph A. Rosen sends best wishes from Bolshaiia Nixitkaia 43a, Moscow, Russia.

'10

Vernon N. Taggett is city engineer at Niles, Michigan.

'11

Ralph and Maude Nelson ('13) Powell are back in Michigan at R. 1, Ionia.

E. E. Wallace has moved in Detroit to 5545 Hillsboro avenue.

'12

Harry R. Bates is now at 3213 S. Emerson avenue, Minneapolis, Minn.

'14

J. DeLoss and Marion Sly Towar are now

located at 517 N. Sycamore street, Lansing.

W. L. Mason is still superintendent of the Youngstown (Ohio) plant of the American Tar Products company, and is also secretary-treasurer of the Tri-State Construction company. He is just finishing 3 1-2 miles penetration road for the Ohio State Highway department.

'15

Mr. and Mrs. Albert H. Jewell announce the arrival of David Osborn on May 23, 1923.

P. J. O'Neill has changed his address in Toledo, Ohio, to 3726 South Lockwood avenue.

Theodora Hollinger is still directing the activities of the domestic art department of the Hamtramck high school and reports several M. A. C. people teaching in other branches of work. She informs us that A. H. Hollinger, '14, is now teaching his third year at Northwestern High School in Detroit. He is coaching tennis there this season in addition to teaching his regular classes in biology.

Harry Gottenheimer writes from 2014 Avenue H., Birmingham, Alabama: "I am still director of the public school bands here. Too bad we are so far from M. A. C. There is some excellent material for the band. Band work is a long cry from hort but I got a good part of my training for band work while at M. A. C. under Director Clark. Please extend to him my regards."

'16

Frederick C. Wise should be addressed in care of General Delivery, Grand Rapids, Michigan.

Allan W. Ferle has moved in Lansing to 115 N. Sycamore street.

'17

H. C. Stewart writes: "Married June 3, 1922, to Gladys M. Woodward of Worcester, Massachusetts. In building business with my brother, office 2419 First National Bank building, Detroit. Living at 3343 Lawrence avenue. M. A. C. friends always welcome."

Howard Rather is extension specialist in farm crops at M. A. C., the duties of which involve the office of secretary-treasurer of the Michigan Crop Improvement association.

Earl W. Phelps is "growing certified Michigan robust beans and number 9 potatoes" at Corfu, New York.

Frances Klasell announces a change in address to 2475 Gladstone avenue, Detroit.

Ralph J. Morgan's blue slip contains the following: "I am organization specialist for the extension division, University of Tennessee, at Knoxville. Our department has recently assisted the state farm bureau in organizing the Tennessee Cotton Growers association, in-

Address

cluding 6000 farmers who signed up 65,000 bales of cotton under a legal binding contract for cooperative marketing. I had the pleasure of meeting Prof. E. S. Good from Kentucky at the southern agricultural conference at Memphis, and also saw Doc Smith, '17v., at Nashville and he looks fully as husky as he did in the tug of war in the fall of 1913. If any old M. A. C. men are in Tennessee please have them look me up. My headquarters are in Knoxville but I have a branch office in Nashville, Jackson and Memphis. Am sorry I can't come back for commencement. Give my best to everyone."

'18

Lansing, Michigan,
May 28, 1923.

Dear Middleaged '18ers

Well—I've put the baby to bed, given her the last dose of medicine for the night (I hope) for after paying a friendly visit to the doctor today (for which said honor it cost me three seeds) he up and told me she had the measles. He loaded the back end of the "Baby Lincoln" down with medicine, etc., and sent me on my way (rejoicing). So ends the prologue; just to show you other '18ers who have family cars that I'm an old hand at the game!

Now to business: A lot of you "birds" and "birdies" know that this commencement is a reunion for the class of '18 and a lot of you don't—so—McCarthy—bless his soul—wished the job of letting it be known to the multitude onto said shoulders and Kotila's. This is my first slam, you'll hear from him later, and then from both of us.

We want every last one of the old gang to come back this year who possibly can. You'll never know the school—why t'other night while I was making my monthly rounds of Well's Hall I stepped into a "Freshie's" room (What! yes it's true) and hanging before me was a picture. I looked and said, I see you've been to the "Midnight Frolic" lately and he says back: "Nope, never saw it, that's the M. A. C. girls' swimming team." Gee! men you should have seen them—nothing like that when "we ducks" were around here. (Coming back now?). Then I hit it past "Abbey Hall," the old place where you and I got soaked and where we broke enough glass in two nights to make a green house like "Tommy" Gunson's, where Glenn Zuver turned into a mud man and "Sissy" Anderson lost three ribs, 'member—well coming right out of those doors where we got throwed out was one of these new fangled women—short hair, men's pants, socks, hats, everything in fact but the "Peerless"—and I

stood and looked—do you blame me?

The above is just a start and for lack of space will tell you the other new attractions in my news letter (?) next week.

We haven't much time in which to work up your "enthoosiasim" for we were late in being notified but we will do our "durndest." "Youall" will receive a letter shortly telling you all about the costumes we are going to wear this year, all about the feed we are going to have, and who will be here waiting to greet you and show you a good time.

'18erly yours,

"Red" Collinson.

Mr. and Mrs. N. F. Yonkman announce the arrival of Barbara Grace on February 16, and report that she is almost over a light attack of whooping cough. Yonkman spent May 23 on the campus attending the Lions state convention. He was pleased at the rapid growth of the college. Yonkman is quite prominent in club activities at Grand Haven and has won quite a name for himself in bowling circles. He was present at the state convention of engineers at Muskegon and helped win the bowling championship for the Muskegon chapter. He will captain the Muskegon club at Port Huron at the next state convention. Yonkman lives in Grand Haven at 43 1/2 Leggat street.

'19

Harry E. Franson has been in Minneapolis, Minnesota, at 1019 University drive, but no longer is reached there. He has neglected to inform us of his change of address.

W. E. DeYoung is not at 601 S. Sixth street, Springfield, Illinois, any more and has been very negligent in tell us of his latest address.

Warren E. and Patricia Lyons (w'21) DeYoung are living in Rushville, Illinois where "Skinny" is a civil engineer with the highway department.

FOR RENT—During summer school, furnished 7-room semi-bungalow, with garage and garden, on Sunset Lane, East Lansing. Write R. A. Runnells, '16, at Surgery and Clinic Bldg., East Lansing, Mich.

Have You Paid Your Debt to M. A. C.?

You know your education cost the state twice as much as it cost you.

As a business or professional man or ordinary citizen this must make it clear in your mind that you are under a moral obligation to make a return on this investment.

HERE IS ONE WAY

Do your share to help build the UNION MEMORIAL building.

It will be an imposing structure of great utility.

It will be an attraction to desirable students.

It will serve students, faculty and visitors and, to consider it from a selfish viewpoint, it will provide you with a campus home, a place to meet your friends, a clubhouse where you will be always welcome and where you can enjoy true M. A. C. hospitality.
