The M.A.C. RECORD

Michigan Agricultural
College Association
Publishers ■ East Lansing
Vol. XXVIII Aug. 20, 1923 No. 35

The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.

Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.

Membership in the M. A. C. association, including subscription to THE RECORD, \$2.50 per year.

Unless members request a discontinuance before the expiration of their memberships it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. A. C. Association. Entered as second class matter at the post office at East Lansing, Mich.

THE M. A. C. RECORD

VOL. XXVIII. No. 35

EAST LANSING, MICHIGAN

AUGUST 20, 1923

DETAILS OF ALUMNI OFFICE CHANGES

Billing System Altered to Reduce Office Work—Explanation of Plan Under Which Business is Being Carried on

In order to keep within the yearly income of the office of the M. A. C. Association several changes in handling the affairs of THE RECORD and the office have become necessary. If you believe your bill for dues has arrived too soon look over the following paragraphs and you will find the reason. If you think a mistake has been made in the amount of your subscription to the Union Memorial building fund you will find the cause for the difference in what you expected to pay and what you are called upon to pay listed here. If you are not allowed the privilege of voting in the annual elections of the Association there is a cause which is told herein.

Office expenses in handling THE RECORD have been higher than the returns justify. To counteract this a system of sending out bills only four times per year is being instituted. Under this plan dues will be payable for the months of October, November, and December on October 1, those for the next three months will be due January 1 and the same will hold true throughout the year. While the expense for postage remains the same, the office work involved is cut down by about half through this arrangement.

In the fall of 1922 the executive committee of the Association voted to allow both man and wife, where both are alumni, to be members of the Association on a yearly payment of \$4.00, including but one subscription to THE RECORD. This provision gives all an opportunity to remain in the Association and take part in its affairs without paying for two subscriptions to THE RECORD. Also, under the amendment to the constitution approved June 16, 1923, only those members of the association in good standing will have the privilege of voting in the elections, all of which will be handled through the mails.

In the matter of a charge for personal service the office has been compelled to make a flat charge of one cent per name for all addresses given out, unless they are to be used for purely Association or college purposes. The privilege of obtaining these free became

too much of a burden to the office, many times necessitating the employment of extra help. These lists are not available to commercial houses for mailing lists but can be obtained by alumni for their business upon payment of the standard rate.

It was found necessary to increase the rate for alumni business cards. Under the old system, which was inaugurated when THE RECORD was first published, the alumnus could insert a business card at a rate which is now entirely inadequate since the expenses of publishing have been greatly increased with the growth in the size of the subscription list. Similarly, they are much more valuable than when the circulation was much smaller.

In the matter of subscriptions to the Union Memorial building fund an attempt was made to keep them of uniform size so that less confusion would result when the two thousand and more bills were sent out each six months. In cases where former subscriptions were increased to \$100, the semi-annual payment was placed at \$16.67 and the amount formerly paid in was credited to the last payments due on the pledge. This was followed throughout, regardless of the amount formerly paid, and in all cases the sums due were placed at the sums payable in case the total amount of the subscription were a new pledge, with the amount already paid credited at the end of the subscription period.

In all of these instances the lessons of the past year are being complied with in order that the business of the alumni office may be run on a strictly business basis. To further this end a new bookkeeping system is being installed through which a more accurate month by month accounting may be made and the progress of the association detailed in better form than heretofore has been possible.

After completing the course at Camp Custer on July 25, four members of the class of '23 received commissions in the O. R. C. They were Harold H. Every, Manchester; Howard K. Menhenick, Lansing; Loren S. Ross, Owosso; Gustav A. Thorpe, Stevenson.

PLAN IMPROVEMENT IN ROAD CONDITIONS

Attempts to better traffic conditions along Michigan avenue between the college and Lansing and within East Lansing are seen in the recent move of the state administrative board directing that immediate action be taken to widen the pavement on the road to the college, pave Franklin avenue up to the Grand River avenue pavement and start the movement to make a boulevard through the East Lansing business section placing a roadway south of the double row of elms along the north border of the campus. Conditions along this roadway have become very serious and the state has decided that a remedy must be provided in the near future.

The boulevard plan will require the consent of the State Board for the use of a small strip of the campus not now in use for any special purpose, except where a section will interfere with a portion of the arboretum and where the tennis courts are situated at the east end of the campus. It will also require the consent of the federal government for the use of a small strip in front of the weather bureau. There have been several schemes submitted to accomplish the end of allowing greater space but this one has met with most general approval. Most of the opposition has come from a small number of East Lansing people who believe the plan would injure business. It is believed, however, that this plan will be accepted and then the college will have a more fitting drive along its border than the one which now exists.

At the time this boulevard is put through it is expected that the new entrance to the college will be installed. This will probably be an extension of Abbot Road or will follow that line with another converging from the point where the street car tracks now enter the campus. In either case the west front of the Union Memorial building will face the entrance.

Prize winners in the boys' and girls' club work of the state were the guests of the college July 9 to 13 when more than 200 youngsters who had earned honors in the various communities gathered for a conference. They were housed in the college dormitories and entertained at a banquet given by the State Board. R. A. Turner, '09, state leader of boys' and girls' clubs, was in charge of the meetings. The trip to East Lansing was the prize for which the club members competed.

TWO CO-ED SOCIETIES TO LIVE OFF CAMPUS

For the first time in the history of M. A. C. women's societies and sororities have been granted permission to live off the campus in houses of their own choosing. For years the restrictions placed on the activities of the co-eds kept them within the limits of the campus most of the week. All were compelled to board at the Woman's building and it is comparatively recently that they were allowed to room off the campus and then only in houses selected and supervised by the college.

The first to take advantage of this ruling was the Alpha Phi sorority, formerly the Feronian society, which has taken a lease on a house at 118 Albert avenue for a period of two years. This was one of the houses used by the college as a dormitory and is close to the campus. The Ero Alphan society is understood to have rented the house formerly occupied by the AcTheon society at the corner of Ann street and M. A. C. avenue and other co-ed organizations are reported negotiating for places close to the campus.

The State Board consented to these arrangements with the provision that college dormitory rules should govern the houses. This movement of the co-eds from the campus and college dormitories will relieve the college of the necessity of providing rooms for all women who enroll. It will also reduce the expense of the woman's department through lessening the cost of supervision. It is the final step in the emancipation of the M. A. C. co-ed who has long chafed under the restraint of rules which, to her, have seemed unreasonable.

Louise Clemens, '13, has been made an associate professor in the home economics division.

Major Mark L. Ireland, '01, received the degree of Ph. D. at the University of Michigan on June 18 following his work there during the past academic year in highway transport, industrial management, automotive engineering, and general transportation. His thesis was entitled "Quartermaster Tractive Resistance of Roads Research." He worked under the provisions of the Howard Coffin fellowship.

Major Ireland was elected to full membership in the Michigan chapter of Sigma Xi, the national research fraternity, in April of this year.

OXFORD GRANTS OVERMYER DEGREE

First Rhodes Scholar from M. A. C. Given Ph. D. for Work in Organic Chemistry; Highly Recommended to Dye Industry.

For the first time in its history an M. A. C. man has been granted a Ph. D. degree by Oxford university, England. In addition to attaining this distinction C. J. Overmyer, '18, M. A. C.'s first Rhodes scholar is the first American to be granted a Ph. D. in chemistry and the first Rhodes scholar from a land grant college. His degree was conferred upon him on June 28 and Overmyer has returned to his home at 614 Court street, Fremont, O.,

istry. In 1920 he won the coveted honor of benefitting through the estate of the late Cecil Rhodes. For three years he attended Oriel college of Oxford university, specializing in organic chemistry for his doctorate.

His research work in organic chemistry was under the direction of W. H. Perkin, a noted professor, and at the close of his course the latter recommended him very highly. He said that Overmyer had demonstrated a remarkable degree of perseverance and ability in research work which entitled him to a strong recommendation to any firm in the dye industry requiring a man of unusual ability for this work.

Overmyer's success as the first Rhodes scholar from M. A. C. has led the college authorities to propose more candidates for this honor and several will be offered to the committee in the fall when another appointment is to be made. Since the field was opened by Overmyer's appointment it is believed that further candidates will meet with more favor.

C. J. Overmyer, '18

while he considers the advisability of several opportunities to continue his work in chemistry.

During his college course, which was terminated early by the graduating regulations for the war year, he was active in military circles, a member of Alpha Zeta and the Delphic society. From college he entered an officers' training school and was commissioned a second lieutenant. Following his discharge, he taught in an Arizona high school and then returned to M. A. C. as an instructor in chem-

SENIORS WIN RANK IN RESERVE CORPS

Military training has grown in popularity during the past few years. In the class of 1923, 36 men qualified for commissions as second lieutenants in the officers' reserve corps and another will receive a commission when he attains the legal age. Those who received their commissions at commencement time were:

Cavalry: A. B. Cook, Jr.; W. D. Harbison, R. W. Knopf, C. Schelhanek, and W. H. Taylor.

Coast Artillery: L. A. Bemis, C. A. Brown, F. H. Bunnell, A. A. Catlin, C. Gardner, H. C. Graham, L. K. Harris, P. J. Truscott, A. O. Ingersol, W. Jacobs, M. W. Landon, L. E. Perrine, A. Schweizer, R. D. Spencer, M. C. Stiff, and L. M. Van Noppen.

Infantry: C. Bohl, R. F. Brevitz, C. R. Clausen, C. M. Cook, A. Dinsmore, J. Dykehouse, C. T. Wickman, W. C. Johnson, E. D. Mallison, K. Ousterhout, R. K. Phelps, M. J. Quirk, Donald G. Rieman, J. S. Watson, and F. W. Moore.

C. J. Carruthers will receive his commission upon reaching the age of 21 years.

VIEWS AND COMMENT

The Promised Land of M. A. C. athletics is now within sight. One glance at the spot south of the Red Cedar where alfalfa grew luxuriantly this spring is enough to convince the most stubborn doubter that the vision of the past ten years is about to arrive. M. A. C. is to have an adequate stadium. A place where the Green and White teams can meet worthy opposition; where the question of space for their supporters will not be so serious as to utterly discourage the attendance of crowds; where they can be urged on to their best in an atmosphere conducive to victory.

With the stadium M. A. C. alumni and friends are taking upon themselves a more pressing duty. With the acquisition of this magnificent equipment they are faced with the problem of seeing that the enrollment of the college is boosted to the limit of its capacity. There will be no trouble about filling the seats at the stadium, there will be comparatively little trouble in having the entering classes increase to the point where the equipment and faculty of the college are occupied to their fullest extent but with all of these new classrooms and facilities M. A. C. will not grow unless its advantages are pointed out to the high school students of the state. This is a task for the alumni.

When the Union Memorial building campaign was first under way there was some opposition to the plan because, in the opinion of some, the money first raised should provide a stadium. Now both will be erected and the equipment of the college greatly augmented. The college is equipped with the most necessary elements for a well-rounded education. The work of seeing that these are used as they were meant to be used is the traditional duty of the alumni. Enjoying them is the privilege of the alumni; but those who have aided in obtaining them will find the greatest pleasure in seeing the fruits of their efforts.

The Commencement number of THE RECORD was unusual in that it printed advertising valued at nearly \$300. With that sum assured it was possible to send a sample copy to each former student or graduate who was not a member of the association. Returns have been gratifying. It serves to illustrate to a certain extent what THE RECORD could be if the full support of alumni were forthcoming.

Lansing business and industrial men, twice, during the past year, financed such an issue. It is a tribute not only to their interest in the alumni of M. A. C. but also to their judgment in realizing the value of THE RECORD as an advertising medium. An alumni magazine is the best publication in which to do your "good-will" advertising, especially if it is your alumni magazine. In the latter case the money you invest not only helps you but it also helps the association.

A student in one of the large Canadian universities visited the campus during the early part of August and remarked on its beauty. His experiences had taken him to England where he saw the famous colleges with their magnificent buildings of storied fame, they had led him to remote parts of the United States but he voted M. A. C. the most beautiful of all in the matter of setting and topography. Cornell, he said, lacked the natural charm and simplicity of M. A. C. while but few others could boast a campus to compare.

Laurels like these are given freely by the visitor to M. A. C. His words fail to feed our vanity, for constant reiteration cannot establish more firmly a fact which has long been self evident. In the quiet of summer, the bustle of fall, the winds and snows of winter, the verdant surroundings of spring, the old campus retains its characteristics of beauty, striking to the beholder, beloved of those who were fortunate enough to spend a generous portion of their young lives within its gates. For the alumnus it needs no encomiums but they are gratifying as corroborative testimony to good taste.

Again we refer to the necessity for closer organization among the classes of alumni. The group of '05, '06, '07, '08, found it advisable to have a joint supper which brought them together at a friendly gathering where college acquaintances could be renewed. 1917 had more than fifty people at a picnic in the grove and green and white paper hats marked the members of the class. 1918 came out in straw hats and '98 appeared in paddy tam-o'-shanters. Next year's reunion should bring out more activities along this line and undoubtedly will as soon as the reunion classes organize and delegate committees to take charge of the affair.

"Close Beside The Winding Cedar"

A. G. Bovay, '12, has resigned as agricultural agent of Saginaw county.

Burrell F. Ruth, '23, has been appointed a half time assistant in the chemistry department.

Dorothy Jermin, '23, Alpena, was awarded the Sayer prize for the best work of the year in bacteriology.

C. A. Willson, '06, dean of the college of agriculture at the University of Tennessee, was granted the degree of master of agriculture at the meeting of the State Board on July 18.

F. T. Riddell, '13, has continued graduate work at the University of Wisconsin during part of the summer. Riddell is in charge of the farm management department of the college.

All college business was suspended and all officers closed on Friday, August 10, in honor of the late President Harding. The colors at the armory were at half mast from the time of his death.

J. A. Hannah, '23, was elected secretary of the Michigan Poultry Breeders' association at its meeting at the college on July 13. Hannah was a member of the college poultry judging team last year.

A large number of representatives of the college and the extension force attended the annual Round-Up for Upper Peninsula farmers held at the experiment station at Chatham on August 11.

At the Camp Custer horse show in July Lt. Col. Sherburne, commandant of the college cadet unit, took first prize in the jumps. He rode the horse which showed to good advantage in the college horse show in May.

Announcement was recently made by the State Board of a gift of \$500 from the Daughters of the American Revolution to be used as a loan fund for needy girl students. It is designed to perpetuate itself and only small sums will be available in individual cases.

About 50 students are engaged during the summer months in eradicating the native barberry, which has been declared a menace to wheat crops, and inspecting corn fields to locate the European corn borer which has been reported in various parts of the country, especially along the Canadian border.

R. K. Rosa, '24, Pontiac, was elected president of the Union for the next college year at the annual meeting in June. Bernice Randall, '24, Grand Rapids, was elected vice-president and W. O. Hedrick, '91, was re-elected treasurer. Rosa was editor of the 1923 Wolverine and had served a year as a member of the Union board.

Among the recent books announced by John Wiley & Sons is "Seeding and Planting in the Practice of Forestry," by J. W. Toumey, '89. It is an illustrated volume of 476 pages presenting the details of practice, and the fundamental principles which control success and failure in the economic production of nursery stock and the artificial regeneration of forests.

A New Diversion for the Co-eds

Some Things You Can Do

The M. A. C. Association needs the enthusiastic support of every member. In order to extend its work it needs more members.

There are several means through which you can help make the Association better and more efficient in carrying out its aims.

1. Pay your dues regularly. It eliminates office expenses which *must be reduced this year*.
2. Keep in touch with the office when you change your address. Notify The Record when you hear authentic news about M. A. C. people. Keep it informed so that the records may be kept intelligently.
3. Work actively with your branch association. Help it to accomplish its program. See that M. A. C. people about you are listed on its rolls.
4. Desirable high school students with the proper qualifications are always needed at M. A. C. It can never have too many of them. You can do much by watching those in your neighborhood and telling them about the advantages of M. A. C.
5. If you market a product, advertise it in The Record. Its circulation is among your friends. It is your most valuable advertising medium, ten times as valuable as newspaper space. A business card in The Record costs but little, and keeps your friends informed about you and your business.
6. In a responsible position where you direct the advertising of any business consider the importance of showing your wares in the best homes in the country. Consider the value of bringing your products to the attention of the best buying circulation obtainable. See that The Record is known and its worth realized.

MAKE THE M. A. C. ASSOCIATION SELF-SUPPORTING AND EFFICIENT

What the Branch Associations Can Do

A branch association, whether it be sectional or a class group, can accomplish much in furthering the program of the M. A. C. Association.

It is the unit through which the work of the general organization is done. In making up a schedule for the year's work think over some of these suggestions.

1. Start the fall with a definite goal. An organization can only live because of its achievements. Raise a fund for a definite purpose, carry out a certain amount of publicity work in behalf of the college, but *make out your program in advance.*
2. Make the first requisite of membership in your group a membership in the M. A. C. Association.
3. See that The Record has a full account of meetings immediately after they are held. See that announcements of meetings are in The Record office at least three weeks before they are scheduled to be held. Send in a lively letter so others can see what you are doing and the way you are doing it.
4. Make your association a clearing house for alumni and college information.
5. Fix your schedule of meetings as early as possible and make arrangements for speakers from the college as much in advance as you can.
6. A constructive program will find you accomplishing things you once thought impossible. It will make your organization stronger, more useful, and will increase the bond between its members and the college.

MAKE YOUR BRANCH ASSOCIATION WORTH WHILE !!

COMMITTEE TO MAKE BUILDING PLANS

Advertising for Bids on Union Memorial Awaits Completion of Plans and Specifications—Will Decide on Program

Delays in designating the spot upon which the Union Memorial building is to be erected resulted in serious delays in the architects' office and up to the time this issue of THE RECORD went to press all of the detailed plans and specifications necessary before bids are asked on the structure were not in hand. This difficulty will produce some postponement in the building plans and it is probable that actual building operations beyond the foundations cannot go ahead before next spring.

To finance the work at the lowest possible cost it will be necessary to have as large a percentage of the cash in hand as possible. Money outstanding on pledges must be borrowed and interest soon adds to the total cost of such a structure. Treasurer F. F. Rogers urges that all who feel so disposed pay up their pledges at the earliest possible date so the cash may be available for the start of building operations. If it is possible the executive committee is going to go farther than putting in the foundation for the building this fall but the lack of full plans will seriously hinder this work until they are complete and ready for the contractors.

A meeting of the executive committee which will also be attended by the members of the plans committee and the newly appointed engineers' advisory committee will be held early in September. At this time the engineers' committee will submit a plan for the letting of contracts on the building and the final decision will be made as to just how this can best be handled.

Payments on the semi-annual installments due in June have not been received as rapidly as the pledges would indicate they should be and the treasurer is anxious that all funds be in the treasury as soon as they are due so that the cost of financing the building may be kept at the lowest possible mark. This is an important item which, Mr. Rogers says, will have a decided bearing on the final cost of the building. In some campaigns 30 per cent over the maximum needed is raised to take care of defections in payments and the cost of handling the campaign as well as the expense of collecting and administering the fund. It is not expected that the Union Memorial building will need anywhere near that percentage of the total but it will rise quite high unless pledges are paid promptly and the supply of cash is kept at the highest point.

BIG ISSUE MADE NEW MARK FOR THE RECORD

The commencement issue of THE RECORD was the largest in the history of this publication. Extra expense was counteracted by the advertising which filled more than one-third of the magazine. Many comments have been made upon this number and the wish expressed that every issue might be as large. There is one way to accomplish this and that is to increase the income either through advertising or an advance in the subscription price. The former seems more feasible but the plans for such an undertaking demand full cooperation from the alumni body. THE RECORD could be made a larger publication by reducing the number of issues per year but this proposal has hitherto met with much opposition. The opportunity to make it self-supporting lies in the prompt payment of dues and increased advertising revenue. Both will help gain this

end, the first is a matter of individual effort among the members of the association, the second can be handled through the office with the help of the workers in the organization.

CAPT. TETER SENT TO PHILIPPINES

Capt. J. J. Teter, C. A. C., who has been connected with the military department of the college since the fall of 1919, has been ordered to duty in the Philippine Islands. Captain Teter was graduated from West Point in 1915, saw service in France and at several of the continental coast fortifications. In 1922 he married Pearl McComb, '21. His transfer is in compliance with the army regulations requiring officers to serve with the troops after three years of detached duty. During Captain Teter's time at M. A. C. he saw the development of the coast artillery unit into an organization which, in many respects, stands at the head of the cadet regiment.

DIRECTOR YOUNG TAKES CHARGE SEPT. 1

New Head of Athletics Will Have Large Squad of Veterans for Football— Unusually Strong Schedule

Director Ralph H. Young is expected in East Lansing about September 1 to take charge of the preparations for the football campaign. He has been attending the summer coaching school at Columbia university and will return to Michigan soon after that is completed.

As the schedule stands now the University of Chicago will offer the first opposition of the season to the Green and White entries for fall honors. Director Stagg has authorized the announcement that this game will be played on Stagg field in Chicago on September 29. The following Saturday Lake Forest university will appear at the new stadium for the informal opening of that enclosure. October 13, Wisconsin is met at Madison. October 20, Albion, flushed by a tie game with the M. A. C. eleven of last fall, will also appear on the new field. On October 27 the Michigan-M. A. C. classic will be played on Ferry field. November 3, the team meets George Gauthier's Ohio Wesleyan grid squad at Delaware, Ohio. November 10 is the homecoming game with Creighton offering the opposition in the new stadium and the ceremonies incident to the opening of the new field will take place at that time. On November 17 the University of Detroit team will be host to the Green and White at the stadium in the metropolis.

To the home fan this is not an attractive schedule. Three games will be played in East Lansing, two others within easy distance and three more at remote points. It is expected that future years will see more attractive and important contests played at East Lansing now that seating arrangements are available for the large crowds which would be drawn by strong teams.

As far as prospects for the fall are concerned predictions at this time of year are out of order. They are not only futile but result in wrong impressions. However, the squad as composed last year in most of the games of the season will be available for Director Young and some fair material will be added from the freshman ranks. Only two members of the graduating class were considered good enough to hold places with any consistency on Coach Barron's team last fall.

Richards, Kipke, Beckley, Frank, Burris, Crane, McMillan, Neller, Lioret, Schmyser,

Gasser, Goode, of the backfield, all saw some varsity experience last fall and are expected to return for the 1923 season. In the line there will be Hultman, Robinson, G. Swanson, Eckert, Captain-elect Taylor, and a number from the reserves of last fall and the Fresh team whose ability was evident last fall but whose work with the varsity depends upon their showing.

At least there is the nucleus for a strong team which should develop through the season. The schedule represents more hard spots than soft ones. Lake Forest is the only team listed which should prove a fairly easy victim for M. A. C. and there is nothing certain about that team being inferior to the usual run of Green and White elevens. Three teams from among the Big Ten, the champions of the Ohio conference last fall and the only team in Michigan, outside of the university, conceded to be in a class with conference teams will face the Green and White on the gridiron, surely a victorious M. A. C. eleven cannot be accused of picking easy victims at the close of this season.

Prof. and Mrs. E. H. Ryder, Miss Elida Yakeley, and Miss Anna Bayha sailed from Vancouver, B. C., on Thursday, August 9, on a journey which will take them around the world. At all of the main points they will visit the alumni have been notified of their coming. Points in Japan and China, Manila, Singapore, Calcutta and other Asiatic and European cities where M. A. C. people are located will be visited and the party will be welcomed in many of them by all of the alumni resident there.

A. M. Shaw, '22, has been appointed club agent for VanBuren county. Clare A. Rood, '20, occupies a like position in Houghton county. L. J. Carter, '22, is the new agricultural agent in Arenac county. C. H. Knopf, '11, has become agricultural agent in Muskegon county. He was transferred from Manistee county where he held a similar position. Barbara Van Heulen, '10, who has been for some time assistant state leader of boys' and girls' clubs, resigned July 1. Harriet Wilder, '20, was appointed in her place.

STUDENTS PASS GOAL IN FUND CAMPAIGN

In concluding the Union Memorial building fund campaign among the students which put the total amount pledged at more than \$76,000, Fred Henshaw, '23, believed he had reports from all solicitors and that the fund was still under \$75,000. With this in mind he induced six men to increase their pledges by \$20 each, raising the desired sum. After this had been done a co-ed reported with more than \$1,000 in pledges, from the home economics division, which had not been included in the previous total.

Henshaw compiled some interesting data in regard to the source of subscriptions. He found that the percentage of contributors in the various men's societies and fraternities were as follows:

Alpha Gamma Rho, Delta Sigma Phi, Eclectic, Lambda Chi Alpha, Phi Delta and Phylean, 100 per cent; Union Literary society, 93.6 per cent; Trimoira, 91.7 per cent; Hesperian, 90 per cent; Dorian, 89 per cent; AcTheon, 85 per cent; Orphic, 84.4 per cent; Delphic, 77.2 per cent; Eunomian, 75 per cent; Columbian, 72 per cent; Olympic, 70 per cent.

The junior class, with a per capita average of \$63.58 for every member, led in the size of contributions. The seniors came next with \$57.35; the sophomores, third, with \$47.89; and the fresh were last with \$39.78.

Alumni and friends of the University of Maine are erecting a memorial gymnasium-armory at a cost of \$500,000. In order to handle the expense of the campaign \$20,000 is being added to the total needed and \$130,000 more in carrying charges is included in the sum to be raised, making the goal of the campaign \$650,000. More than three-fifths has been subscribed in about four months. Maine is little larger in enrollment than M. A. C. It was founded several years later and is not entirely under control of the state.

Although the vicissitudes of business caused the 1923 Wolverine to arrive on the campus after commencement the year-book merits unusual attention because of its faithful portrayal of the college year. Almost exclusively it is pictorial. Richard K. Rosa, the editor, and members of the business staff deserve recognition for their efforts in putting out a meritorious volume in the face of obstacles which threatened to put the college annual into the discard for a year at least.

MISSISSIPPI MAN IS ZOOLOGY HEAD

Harrison R. Hunt, professor of biology at the University of Mississippi, has been appointed professor of zoology and geology at M. A. C. beginning September 1. He takes the place of the late Professor Barrows. A. C. Conger, who had been acting head of the department since the death of Professor Barrows has accepted a position in the department of zoology at Ohio Wesleyan university, his alma mater.

Professor Hunt was graduated from Allegheny college in 1912, was granted a Ph. D. degree for work at Harvard and has been at Mississippi for the past four years. Over the same period he has been professor of zoology at the summer sessions of the University of Tennessee. Before going to Mississippi he was assistant professor of zoology at the University of West Virginia for three years.

He is a member of the advisory committee of the American Genetic association and of the war committee of the Eugenics Research society. Some of his articles on genetics and eugenics have recently appeared in scientific publications. He has a wide reputation in these fields.

BREWER AGAIN MADE MISSOURI DIRECTOR

Chester L. Brewer, who was a strong force in the development of athletics at M. A. C., and who served the Green and White for a total of 12 years in that capacity, has again accepted the directorship at the University of Missouri which he left in 1917 to return to M. A. C., after an absence of seven years. During the past year he has been in a similar position at the agricultural college of the University of California.

Mr. Brewer was recently mentioned as the possible director for the U. S. team which will compete at the Olympic games in 1924. Under the plan suggested he would have charge of the squad of coaches responsible for the conditioning and training of the U. S. athletes.

Members of the M. A. C. R. O. T. C. units which trained at Camp Custer during the early part of the summer won distinction over the representatives of the largest middle west universities. In rifle shooting the M. A. C. men finished second, in pistol, first, and in other events they were well toward the head of the list. T. E. Frank, '24, took first honors as the most efficient soldier in the camp.

'23 ENTERS RANKS OF ALUMNI

Reports Show Classes Widely Scattered—Many to Teach, One to Enter Newspaper Work in Fall

Since the members of the class of '23 have taken up their various roles as alumni an attempt has been made to learn their occupations and addresses. Some of them are recorded as follows:

NECROLOGY

Mrs. Howard C. Rather, '22

Alice Emily McKnight, '22, wife of Howard C. Rather, '17, died suddenly July 28 at the Sparrow hospital in Lansing.

During her college career Mrs. Rather was a member of the Ero Alphan society and took an active part in student affairs. Since her marriage in June 1922 she had lived in East Lansing.

R. B. Weaver, student pastor, conducted the funeral services from the home in East Lansing and interment took place at Birmingham, Mich., where her parents reside.

Mrs. H. K. Vedder

Mrs. Kate D. Vedder, wife of Prof. H. K. Vedder, died at her home in East Lansing, on July 17, after a long illness. She had been a member of the college community for 32 years, most of which she had lived at 2 Faculty Row. She was active in faculty and city organizations and had made hundreds of friends among the student body and alumni while living on the campus.

The funeral was held from her home in East Lansing on July 19 and interment was in Mt. Hope cemetery.

Besides her husband she is survived by two daughters, Mrs. H. I. Andrews, '19, Rochester, N. Y., Mrs. W. C. Chapman, '15, New York, N. Y., three grandchildren and two sisters

MEETING OF THE STATE BOARD OF AGRICULTURE

President's Office,
10 o'clock a. m.,
July 18, 1923.

Present: President Shaw, Mrs. Stockman, Messrs. McColl, Brody, Woodman, McPherson and Secretary Halladay.

The minutes of the previous meeting, having been in the hands of the members, were approved without reading.

The following resolution passed by the Michigan State Veterinary Medical association, at its forty-first annual meeting, held June 28, 1923, was presented to the Board:

"Resolved, That the Michigan State Veterinary association extends support and apprecia-

tion to the State Board of Agriculture and the Michigan Agricultural College faculty, for the granting of the honorary degree of D. V. M. upon our esteemed friend and secretary, H. H. Halladay. This association takes this opportunity of bearing testimony of its appreciation of his valuable advice and services for the solution of the many great problems that have confronted the association and we are justly proud of the great services he has rendered the profession.

On motion of Mr. Woodman, the president was authorized to acknowledge the same.

Moved by Mr. Woodman, that the resolution of the Addison Farmers' club relative to the action of the Board in connection with the resignation of President Friday, be acknowledged.

Carried.

The request of J. W. Scott, associate professor of economics, for one year's leave of absence without remuneration in order that he may pursue graduate work at the University of Chicago, was presented to the Board for consideration.

Moved by Mr. Brody that a contract be sent to Mr. Scott for the coming year and that a reasonable time be granted to him for acceptance.

Carried.

On motion of Mrs. Stockman, the following appointments to the department of dairy husbandry, effective September 1, 1923, were made upon the recommendation of the committee on advanced degrees:

Wright B. Jones, Dalton Pa., quarter-time assistant; John Taylor, Purdue University, quarter-time assistant; W. J. Roberts, Clemson College, S. Caro., half-time assistant; Geo. R. Taylor, Kansas State Agricultural College, half-time assistant.

On motion of Mr. Brody, the degree of master of science was granted W. D. Mills of the department of botany and degree of master of agriculture to Deal C. A. Wilson of the University of Tennessee.

Moved by Doctor Giltner to recommend to the faculty.

The following action taken by the committee of deans at a meeting held July 17, relative to the D. M. Ferry scholarship, was presented to the Board and no further consideration was deemed necessary.

Moved by Doctor Giltner to recommend to the Board that the offer of the D. M. Ferry company be accepted, and to express the willingness of the committee of deans to protect the interests of the college by suitable supervision. Carried.

Moved by Mr. Brody, that the recommendation of the committee on advanced degrees for the appointment of Dewitt Sager, of McPherson, Kansas, and Burrell F. Ruth, of M. A. C., as half-time assistants in the department of chemistry for the year 1923-1924, be accepted and appointments made.

Carried.

In determining to what extent the expenses of Dr. Hallman, Dr. Stafseth and Dr. Giltner, should be allowed in attending the annual meeting of the American Veterinary Medical association to be held at Montreal, it was moved by Mr. Brody that the expenses of one person or its equivalent be allowed.

Carried.

On motion of Mrs. Stockman, a recess was taken until 1 o'clock p. m.

The meeting reconvened at 1 o'clock p. m.

Present: President Shaw, Mrs. Stockman, Messrs. Watkins, McColl, Brody, McPherson, Woodman and Secretary Halladay.

Moved by Mr. McColl, that Mrs. Josephine Hart Fogle be delegated to attend the American Home Economics association and Vocational conference held in Chicago during the week of July 30, with all expenses paid in accordance with the recommendation of Prof. W. H. French.

Carried.

On motion of Mr. McPherson, the appointment of Phillip Gold to a half-time fellowship in farm crops, recommended by Prof. Spragg, was deferred.

On motion of Mrs. Stockman, Miss Edith Franks of Chicago University was appointed as assistant professor of Home Economics teacher training and itinerant teacher trainer.

Moved by Mr. Woodman, that the recommendations of Dean Campbell for the appointment of Miss Arlyn Eilert as instructor in advanced clothing and Miss Josephine Plattenburg as instructor in

millinery and textiles be accepted and appointments made.

Carried.

Moved by Mrs. Stockman, that the State Board of Agriculture grant the request of the Alpha Phi fraternity and other women societies which may desire permission to rent and occupy residences off the campus with the understanding that the same conditions obtain as in houses under college control and approved by committee of deans.

Carried.

On motion of Mr. Woodman, the matter of the State Board of Agriculture taking over the management of the Dunbar School of Agriculture and Domestic Economy located at McCarron, Chippewa county, Michigan, was referred to the president for investigation.

Moved by Mr. McColl, that the request of Dr. Giltner for reconsideration of the salary of Dr. Johnson, be denied.

Carried.

The question of title of associate professor for J. W. Stack of the department of zoology was deferred until some future meeting.

Moved by Mrs. Stockman that the title of associate professor be granted to Miss Hughes and Miss Clemens.

Carried.

Moved by Mr. Brody, that the plan of a tentative research project in co-operative marketing submitted by Prof. J. W. Horner be accepted and Mr. Horner be employed.

Carried.

At the request of Junius E. Beal of the University of Michigan that a delegate be appointed from the State Board of Agriculture to attend the meeting of the Board of Control of State Universities to be held in Chicago, November 12 and 13, it was moved by Mr. McColl that Mr. Watkins be selected to attend this meeting.

Motion carried.

Moved by Mr. Watkins, that the report of Mr. A. H. Lavers, relative to improvements and repairs to buildings, be referred to Mr. McColl and Secretary Halladay with power to take such action as they deem necessary in the matter.

Carried.

Moved by Mr. Brody, that a committee composed of the president, Mrs. Stockman and Secretary Halladay, be delegated to consider the appointment of a leader for the M. A. C. band and also other matters in connection with the department of music, and that the committee make a report at the next meeting of the Board.

Carried.

Moved by Mr. McColl, that the secretary be authorized to confer with the state administrative board relative to the percentage clause in the agreement for the loan of \$160,000 authorized by the legislature for the erection of the stadium.

Carried.

On motion of Mr. Brody the invitation extended by the midwest agricultural economics research council to the State Board of Agriculture to take membership in its organization, was referred to the president for consideration and power to act.

On motion of Mr. Brody, the matter of the purchase of an automobile for the use of the publications office, one-half of the amount to be paid from extension funds and one-half by the college, was referred to the secretary with authority to make the purchase.

Moved by Mr. Watkins that the gift of \$500 from the Daughters of the American Revolution to the Michigan Agricultural college for the purpose of loaning small amounts to needy girl students, and known as the "Daughters of the American Revolution Student Loan Fund" be accepted by the Board.

Carried.

Moved by Mrs. Stockman, that the college exhibit their horses and other live stock at the following fairs and that this circuit comprise all of the fairs at which it will be feasible for the college to exhibit this year: Ohio State Fair, Columbus, Ohio; Michigan State Fair, Detroit; New York State Fair, Syracuse; and Western Michigan State Fair, Grand Rapids.

Carried.

Adjournment.
