Dr. John A. Hannah, Pres.
Michigan State University
East Lansing, Mich.

Sir:

The American Civil Liberties Union of Michigan is concerned about the recent suspensions and denial of re-admission of a few students at Michigan State University. State and local ACLU officers would appreciate an opportunity to discuss the actions with University officials. I have talked briefly with Dr. Fuzak on the phone. He agreed that it would be best to wait until you returned to the campus so that such a meeting could be held with you and other administration members in your office.

We would appreciate an appointment for a late afternoon meeting during the coming week or at your earliest convenience.

Yours truly,

George L. Griffiths
