The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.

Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.

Membership in the M. A. C. association, including subscription to THE RECORD, \$2.50 per year.

Unless members request a discontinuance before the expiration of their memberships it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. A. C. Association.

Entered as second class matter at the post office at East Lansing, Mich.

EAST LANSING, MICHIGAN

Oct. 29, 1923

WILL ERECT FOUNDATION THIS FALL

Committee Authorizes Advertising for Bids on Underground Work and Approves Plan for Student Excavation Week to Make Way for Contractor

An early start on the construction of the Union Memorial building was made certain when the executive committee of the M. A. C. Association on October 20 authorized the secretary to initiate a plan for having the students do the excavating for the structure and advertise for bids to construct the foundation up to grade.

An earlier meeting had authorized advertising for bids and the second was called to elaborate upon this instruction. A representative of Pond and Pond was invited to attend the meeting and explained some phases of contracts which decided the committee that it was best to proceed with the student excavation week plan and call for proposals on the work of erecting the foundation walls, which will be of concrete.

It is the expectation of the committee that this amount of work will be done before cold weather of too severe a type sets in. This will allow for the completion of the underground work before next spring and it is anticipated that contracts for the superstructure can be obtained at the best terms during the winter season when contractors are not generally over-supplied with work. It would be practically impossible to continue the work through the winter months without adding greatly to the cost of the building and the committee believed it best to do what was possible this fall and continue the operations as soon as the weather permits in the spring.

Plans which were well under way last spring for a student excavation week to handle the underground work of the building will be put into execution provided the faculty approves the scheme submitted for excusing each student one half-day during the week designated. At an early meeting this fall the M. A. C. Union board appointed a chairman to handle the student end of the arrangements and another committee had been formed among faculty members to facilitate the coordination of student effort with the supply of hauling equipment available.

The college wants the soil removed to a spot at the rear of the Woman's building where a depression exists which has long been a gathering place for water during wet seasons. This will shorten the haul and allow the work to proceed at a minimum of expense.

Students are enthusiastic over the prospect of having a chance to actually aid in the construction of the building and the committee is planning on organizing them into groups so that a spirit of competition may prove an incentive to getting the work all done in the shortest possible time. It is estimated that about 4000 cubic

yards of earth must be removed to accommodate the foundation plans. This represents about three to four yards per student. It is estimated that most students will be able to move that amount during the four hours they are expected to work, provided the plan is finally approved by the faculty.

It will be necessary to hire equipment to do the hauling from the site but the committee in charge anticipates that the resultant saving in cost of labor will more than compensate for the effort expended in carrying out the program. Members of the faculty will be allowed to take part and it is expected some of the engineers will have an opportunity to oversee the work, checking the progress with blue prints.

If the plan is accepted the work must be done within the next three weeks in order that the contractor may have an opportunity to complete his work on the foundation before excessively cold weather sets in.

DIPHTHERIA SUSPECT ON FOOTBALL SQUAD

E. Eckert, '25, was declared to be the victim of an attack of diphtheria by the college health officer on Monday of last week. He was confined to the hospital and received the full antitoxin treatment as a preventive measure. The entire football squad was inoculated to halt the spread of the supposed disease and other measures were taken as if an epidemic had struck the college. There is still some doubt that Eckert, star tackle on the football team, was suffering from a well-defined case of the disease.

A somewhat similar occurrence was the cause of some agitation last winter. The basketball team had an important game on its schedule just after a case of supposed smallpox was found among the students. The entire team was forced to submit to vaccination but luckily the resultant sore arms were in evidence in only a few of the cases. There was no further appearance of the disease.

Clarence Ripper, '26, Wellsville, Ohio, finished first in the all college cross country run on October 20. He was followed to the tape by Keith Baguley, '24, captain of the track team. Fast time was not recorded over the five-mile course, but a large proportion of the squad finished close to the leaders.

EQUIP RADIO STATION FOR 2000 MILE RADIUS

Most M. A. C. alumni will be able to hear the college station, WKAR, when the proposed radio programs are broadcast this winter. New equipment is being installed, giving the apparatus a sending radius of 1500 to 2000 miles. Such a circle with East Lansing as a center includes all of the larger alumni centers and insures a wide interest in the musical numbers and speeches which the radio committee will offer. The new apparatus is comparable to that of some of the largest stations in Michigan.

In making preparations to increase the power of the M. A. C. plant a new aerial mast 145 feet high was erected between the engineering building and foundry, wires were strung from the top of this to the top of the new power house stack. The sending set will be 500 watt instead of 50 watt as previously used. A new generator is being installed to provide power for the larger set. Other equipment is being added to bring the plant up to a high standard.

F. L. Phippeny, a sophomore in the electrical engineering department, who is a licensed radio operator, trained in the U. S. navy, has charge of the station and is supervising the erection of the new plant under the direction of Professor Sawyer.

The student committee plans a series of ten programs during the winter term with two or three in the spring. It is anticipated that these will be made up almost entirely from college talent. Members of the various departments will present lectures on popular subjects, the various musical organizations will perform their specialties and a general program containing information about the college and its divergent branches and interests will be given in short talks.

College authorities have recognized the value of such a station and have aided the electrical engineering department in its plans for a complete set of equipment. Several members of the college staff have used their influence and resources to insure the success of the project and the student committee appointed through the student council is preparing the programs along lines approved by the college. M. A. C. will be heard from one end of the country to the other, through the new instruments.

Dr. and Mrs. Otto Rahn (Bell Farrand, '06) report from Germany where they are living in Kiel, Schuttenwall, 43, the birth of Margarete on September 9. Dr. Rahn is head of the Dairy Research Institute of Prussia. His German title includes the following order of syllables as nearly as they can be translated: Vorsteher des Physikalischen Institutes der Staatlichen Forschungsanstalt für Milchwirtschaft. Variations of certain vowels are also included in the original which cannot be indicated on the ordinary linotype. Cora Feldcamp, '05, forwarded this information from Washington, D. C., where she is living at 1211 Delafield place, N. W.

STATE BOARD MOVES TO GET COURT RULING

The state administrative board, created within the past few years to administer the financial affairs of the state, has refused to allow the expenditure of certain sums allotted to the extension service by the last legislature unless the state board of agriculture complies with a program for the handling of these funds which was submitted as a condition to their release. The state board of agriculture has taken the first step toward getting a ruling from the courts by drawing an order on the state auditor general for the amount appropriated for the first period of the present biennium. The auditor general has refused to honor the order and it is expected that the matter will be carried to the courts within a short time in order that this may be settled.

Under the state constitution the state board of agriculture has power to expend as it may deem fit all funds appropriated for the college or any of its branches. Some of the conditions imposed by the administrative board appear to violate this provision. It is on constitutional grounds that the issue will be fought. It is probable that two prominent alumni, well known in legal circles, will handle the case for the college.

A misconception has been broadcast that the funds now being temporarily held up relate to the conduct of the college and will handicap its work. It is explained that the money was appropriated for the extension service and not for the general fund from which the college derives part of its support.

MARRIAGES

WELLS-THURSTON

Joseph S. Wells, '13, and Grace E. Thurston were married at the home of the bride's parents in Vassar, Michigan, October 10, 1923. They are living on a farm near Vassar.

WRIGHT-SAYER

Herbert Wright, '22, and Ethel Sayer, '22, were married September 11. They are living on a farm near Vickery, Ohio.

BRADY-KELLOGG

J. O. Brady, '23, and Gladys Kellogg, '22, were married August 25, 1923. They are living in Buchanan, Michigan, at 107 Clark street. Brady is coaching athletics in the high school.

LAZELLE-BROWN

John B. Lazelle, '23, and Edith Brown, '23, were married September 1, 1923. Lazelle is with the Bell Telephone company at Lansing, where they live at 221 North Sycamore street.

TICHENOR-COON

Announcement has been made of the marriage of George Tichenor, '22, and Huldah Coon, '23. They are living in Los Angeles, California, at 1116 S. Harvard boulevard.

WASHINGTON ALUMNI TO PROVIDE TABLET

Alumni at Capital Vote to Raise Fund for Bronze Memorial to be Placed in Union Building—First Special Gift from Alumni Group Toward Building.

The Washington M. A. C. Association voted at its meeting on October 17 to purchase a bronze memorial tablet, to be placed in a memorial room in the Union Memorial building. It will contain the names of, and be dedicated to the memory of those men who have given their lives in the military service of their country. This is the first gift of its kind from an alumni association to the college.

W. D. Hurd, '99, president of the Washington association, in bringing this matter before the alumni of that city, said in part:

"The Union Memorial building is about to become a reality. The building, finely planned, will contain recreation rooms, cafe facilities, sleeping quarters, etc., and should rapidly become the social center of the campus. It will be the 'home' of the alumni and their friends when they return to the college. It will be a most useful addition to the present equipment and will certainly preserve the democratic spirit for which M. A. C. has always been noted.

"But fine and useful as the building is, there is nothing so far which especially connects it with the real purpose for which it is to be built. This building is to be dedicated to the memory of M. A. C. men who gave their lives in military service, and it must ever be a symbol and a visible expression to coming college generations of the spirit of service and sacrifice which these men showed.

"These sacrifices will ever be a ringing challenge to every one of us not to forget.

"This first of all is a memorial building. It must contain a memorial room, and in this room there must be placed suitable memorials which will preserve for posterity M. A. C.'s most honorable history and traditions. This room will be

like a shrine on the campus,—the very soul of the building. It will be the one place to which all visitors and returning alumni will first go.

"M. A. C.'s military record will always be the glory of the college. Every member of the first class, save one, entered the Civil war. At the time of the Spanish war, college activities were threatened with disorganization because of the restlessness and desire of every able-bodied student to enlist. In the World war, 1300 of the very flower of the college left this campus, and 42 did not return.

"A bronze tablet is a particularly fitting manner of expressing this spirit of service and sacrifice which we wish to commemorate. It will be a memorial which will endure, and when this building is gone it can be transferred to others and thus will pass down through the ages.

"We propose to you, members of the Washington M. A. C. association, that you honor yourselves, the men in whose names this building is to be erected, and show your loyalty and devotion to your college, which has done so much for you, by placing in this building this memorial tablet.

"By so doing, it is our hope and belief that other alumni associations and individuals will catch this spirit and will make other worthy contributions which will be in keeping with the project which is being undertaken."

HEAVY AUTO TRAFFIC FORCES ROAD CHANGES

In the course of preparing for the heavy automobile traffic certain to result from the playing of games in the new stadium, it was discovered that several of the campus roads were unsuited for handling more than a single car at a time. Steps have been taken to remedy this condition near the gymnasium and the road, between that point and its intersection with Faculty Row in front of the Senior house, has been widened ten feet by filling in that much of Sleepy Hollow.

A large number of automobiles were driven to the Albion game. The old golf course just west of the stadium entrance was used as a parking field and the cars were distributed so as to allow for easy removal. The problem of handling the traffic did not end there, however. It was more than a half hour after the game ended before the last cars were able to cross the bridge. It is planned to remedy this situation as soon as the new concrete bridge is completed. This structure will allow four lanes of cars to cross the Red Cedar at one time and will facilitate the departure of the crowd. Other plans are being made to take care of some of the traffic by routing it to and from the field over different roads.

VIEWS AND COMMENT

In this issue is recorded the offer of the M. A. C. Association of Washington, D. C., to supply for the Union Memorial building a suitable memorial tablet commemorating the men of M. A. C. who died in the service. This is an offer entirely apart from individual pledges and is the direct result of the efforts of W. D. Hurd, '99, president of that association, to have such an expression of sentiment given by this group. This gift opens an avenue for similar activities on the part of those M. A. C. organizations in large centers of population.

It will remain forever a symbol of the work of those whose memory the Union building is designed to perpetuate and also the staunch loyalty of a group of individuals who were willing to do more than they were asked to complete the project. There is an immense field for the donation of materials and special furnishings for the interior of the building, there are rooms which cannot be completed under the plan to finish only such a portion of the building as can be done with the funds available. Special equipment will be needed for the various parts of the structure, appropriate decorations must be placed in the various rooms. Many of these can better be supplied through individual effort or that of groups than merely by a contractor through the architect's recommendation. This method will also add to the personal interest the alumnus will feel toward the building. It will give the various groups a chance to actually point to some object they installed as a special gift, it links the individual to the structure with ties more binding than his regular subscription. This is one goal a branch association can well set for itself as a desirable accomplishment for the year and at the end it will have results everyone will be able to see.

The Washington association has demonstrated what one group is willing to do, there are other associations fully as strong as that at the national capital, they can well afford to emulate the example of their colleagues. A movement of this sort promotes solidarity, gives the members of the association a chance to use some of their enthusiasm for the college and the Union Memorial building and adds greatly to the value of the building.

A pilgrimage to Ann Arbor was the lot of most of East Lansing again last Saturday. Students crowded into a special train, drove superannuated flivvers or caught rides on the trip to the university. Any way to get there was the slogan, as has been the case for years. There is a prospect, which has grown brighter during the past summer, that in future years some of the trips may be avoided. Michigan playing M. A. C. in its new stadium would be an attraction to thousands. It is always regarded as the big game of the year by the followers of M. A. C.

and the prestige the university enjoys throughout the center of the state would further augment the interest. This year marks the turn in the road, for years M. A. C. could ill afford to have the big teams come to East Lansing, now it is in a position to handle the best competition on its home field.

It is a popular fallacy, subscribed to more or less by schedule makers, that the homecoming crowds want to see their favorites in an easy victory. It is undoubtedly true that the alumnus likes to see his alma mater victorious but the type of opposition will affect his views on the success or failure of the game as an attraction. An occasional victory over a team of high type will have more effect on the pleasure of the day than will a series of easy conquests. Notre Dame with its wonder team back on the schedule, a list containing Indiana, Purdue, Penn State and Michigan as the major contests of the season, next to the traditional battle with Maize and Blue, would soon bring out interest in the M. A. C. squad. It would be a constructive program giving the Green and White athletes a goal worth shooting at.

The smiling goddess of deferred victory always stands just around the corner, ever just within grasp only to spirit away and lead the chase again. She has dodged many an M. A. C. team by a narrow margin but her attraction is never diminished, the chase continues. As long as the University of Michigan and M. A. C. continue to exist there will be that determination on the part of the Green and White to defeat its strong but traditional rival in such sports as may be the custom. It is a healthy spirit as long as the rules of sportsmanship are observed.

INSPECTOR APPROVES EXPERIMENT STATION

Dr. Flint, of the United States department of agriculture, recently inspected the experiment station at the college and gave the following report to Acting President Shaw, director of the station:

"I find the work of your station so satisfactory and in such excellent condition that I have no criticisms to make or suggestions to offer. Some very fundamental and valuable work in relation to the agriculture of the state is being successfully carried on. The general morale among the station workers is fine. Cooperation is prevalent everywhere. Departments show a symmetry and uniformity in strength of work and personnel which places it among the leaders of the various experiment stations in the country."

Dr. Flint was also very much pleased with the financial condition of the station and the aid given this work by the state.

"Close Beside The Winding Cedar"

A. C. McIntyre, '24, Grayling, has been chosen editor of the forestry annual for 1924.

The Inter-Society union is no more. Its place has been taken by the Pan-Hellenic council. The Greeks are in the minority, however.

A globe chronometer which will be placed in the new library building has been presented to the college by Nathan Judson of Lansing.

Bernie F. Beach, '15, attended the meeting of the Michigan Milk Producers at the college on October 19. He is connected with the organization.

The parlors of the Union building were used by the Women's league for a tea in honor of Dean Krueger and the freshman co-eds on October 11.

Co-eds in the senior class taking physical education now have a chance to learn equitation, instructors and horses are provided by the military department.

W. R. Riblet, '13, football star for three years, managed to get a look at the varsity during a practice session just before the Albion game. He is now located in Elkhart, Ind.

Frank Haven, a freshman, won the novice cross country run over a distance of three miles on October 13. His time, 20 minutes and 7-10 seconds, was not as good as has been made in former events of this type. The race was open only to those students who had not placed in distance runs.

VARSITY BACKFIELD

Ernest Lioret, '25, halfback

Alpha Gamma Rho, one of the men's fraternities, has offered a prize to the student presenting the best phrase to represent the M. A. C. radio call. The competition closes November 14.

A "big brother" campaign has been inaugurated by the upperclassmen connected with the Y. M. C. A. and each man is taking an active interest in the welfare of a number of freshmen.

A convocation on Friday morning at 10 o'clock drew the students and faculty together for the presentation of scholarships for the year and a final session for the generation of enthusiasm for the Michigan game.

At the annual meeting of the Upper Peninsula Educational association held in Menominee October 11 and 12 the following alumni took part in the program: R. A. Turner, '09, E. N. Grover, '07, L. R. Walker, '15.

Charles Parish, Jackson, was elected president of the class of 1927 at a meeting sponsored by the student council. The other officers chosen by the freshmen were: Clara Barton, Lansing, vice-president; June Ranney, Greenville, secretary; Harry Swanson, Lake Linden, treasurer.

D. B. Jewell, '01, agricultural agent for Cheboygan county, has been appointed superintendent of the general potato exhibit at the apple and potato show to be held in Grand Rapids in November. He is also a member of the board of directors of the potato show scheduled for Gaylord during the same month.

Willard F. Hopkins, '93, secretary of the Chicago Trust company, writes that he visited W. D. Groesbeck, '92, in Washington, D. C., recently, and found "him looking and feeling mighty well." Hopkins enclosed in his letter a pamphlet describing the new home of the Chicago Trust company which recently absorbed a similar institution and moved to enlarged quarters at Clark and Monroe streets, Chicago.

The following senior co-eds have been invited to join Omicron Nu, the honorary society of the home economics division: Eleanor Kidder, Jamestown, N. Y.; Roberta Hershey, Lansing; Irma Loessel, Bay City; Ruth Morley, Grand Rapids; Celia Williamson, Pontiac; Inez Severance, Holland; Clarissa Anderson, East Lansing; Naomi Hensley, Detroit; Lois Corbett, Blissfield; Dorothy Hubbard, Lansing.

Daniel Strang, '67, is the author of "Pioneer Days in Eaton County," an article which appeared in the January-April number of The Michigan History Magazine. His chronicle covers the period from 1836-66 which he describes as the actual time during which pioneer activities were uppermost in that county. He tells interestingly of the early history of Charlotte and his stories of the activities of the settlers are valuable additions to the written history of the state.

VARSITY SURPRISES MICHIGAN ELEVEN

Advance in Third Quarter Comes Closer to Goal Than Any Opponent This Year on Ferry Field—Lyman Shows Well at Quarter—Neller, Schmyser and Haskins Star.

Speed and skill have not yet been developed on the M. A. C. football team to the extent that the Green and White can meet a rival of Michigan's type on even terms on the gridiron. Grim determination and unquenchable spirit could not bear up under the heavy odds the Yostmen offered and the Maize and Blue was again victorious on Ferry Field last Saturday. The final count was 37 to 0 but eighteen of these points were piled up in the final quarter when the heavy backfield of the victors, refreshed by substitutions, pounded Coach Young's line so hard it could no longer hold its own. At that the contest was a good exhibition, it had the effect of renewing confidence among the M. A. C. supporters for once again "hold 'em, Michigan" was heard from the stands. Two elements united in deciding the issue—and for some time there was apparent danger that the Wolverine goal would be crossed for the first time this season—Beckley was forced to punt hurriedly and the line, far outweighed, could not hold up under the strain of the Michigan attacks. Good kicking would probably have prevented at least three U. of M. touchdowns; fresh substitutes for the line would have stopped at least one advance on the Green and White goal.

Chief among those who stood out for M. A. C. was Dick Lyman, still in his eighteenth year, who went in at quarter for Richards early in the game and handled the team like a veteran throughout most of the contest. His work had weak spots but was by far the best exhibition a substitute has given this year. Haskins at tackle, Neller at fullback and Schmyser and Beckley at halves were other stars on both offensive and defensive. In fact the work of the line was above what could be expected. Eckerman was barely able to stand at the end of the game, Speikerman, substituting for Captain Taylor, injured a shoulder but played through most of the struggle.

The game was not marred by penalties to any great extent. The teams suffered from this source for about the same distance.

With all of its powerful attack which has swept conference elevens to defeat throughout the past two seasons the Michigan team was unable to pierce the M. A. C. wall for seven yards in less than six downs, late in the game. The Wolverines were driving for a touchdown. They had been aided by a short punt which Beckley sent from behind his own goal to the 32-yard line, they gained readily until they reached the seven-yard line when the backs were held by unusually firm resistance. It required the best efforts of the Yost backfield to make a first down on the four yard line in two plays. Then came four more gruelling attempts, the last two being from within the one-foot mark, before the ball

was put over for the score. It was work such as this which satisfied the crowd that M. A. C. had more than an aggregation of football players, it had a team.

Michigan won the toss and Neller kicked to Herrstein who ran the ball to his 30-yard line. Line plays made five yards and Kipke punted out of bounds on the M. A. C. five-yard line. Neller hit the ends three times and made three yards and a Michigan penalty gave M. A. C. first down. Schmyser went off right end for fourteen yards and another first down. Neller again tried twice but advanced only one yard. Richards passed to Kipke for five yards. Beckley punted and M. A. C. lost fifteen yards for tackling Uteritz who had signalled for a fair catch. Herrstein and Kipke carried the ball over for the first touchdown. Kipke's drop kick failed.

Neller kicked to Vick who ran the ball back to the M. A. C. 42-yard line. A pass made thirteen yards. A line play made two yards, two passes failed and Kipke tried a drop kick from the 35-yard line. The M. A. C. ends and tackles rushed the play and Kipke's attempt fell wide and short but rolled over the goal line. Line plays failed to gain and Beckley kicked to midfield from behind the goal line. Kipke started the advance and then turned over the job to Miller who pounded the M. A. C. line for the remaining distance for a touchdown. Richards was injured on a play near the goal and Lyman soon replaced him. Haskins blocked Blott's try for point.

Neller kicked to Kipke who ran it back to his own 20-yard line. Kipke punted to Lyman who fumbled and recovered the ball on his own 30-yard line. Neller went around right end for ten yards. The quarter ended with the ball on the M. A. C. 40-yard line.

Neller made two attempts to gain and Beckley punted to the Michigan 17-yard line where Kipke was downed in his tracks. Two plunges made first down and then, on a reverse play, Kipke went around left end for forty yards, putting the ball on the M. A. C. 28-yard line. An attempted pass was intercepted by Neller on his 17 yard line. Speikerman went in at tackle for Captain Taylor. Beckley was forced to punt. The ball was dead on the Michigan 37-yard line.

Vick, Kipke and Miller made first down through the line. A forward pass netted nineteen yards. A plunge made two yards and two passes failed. Kipke tried a drop kick from the M. A. C. 40-yard line. It was blocked and M. A. C. recovered on its 26-yard line. Beckley soon punted and the ball was downed in midfield. Miller and Kipke carried the ball through the field for a touchdown, Kipke making the final gain of one yard. A pass, Uteritz to Curran,

counted the extra point. Michigan had the ball on its 26-yard line when the half ended.

During the intermission the M. A. C. band displayed its complicated maneuvers to the crowd and received loud applause. The university band also tried its hand but limited its work to musical performances. M. A. C. and Michigan cheer leaders worked overtime to get the crowd into the mood for cheering.

It was the third period which brought the M. A. C. adherents to their feet and tore the cry of "hold 'em" from the Michigan stands. In this space of fifteen minutes the Green and White approached closer to the Maize and Blue goal than had any team this season and demonstrated a real threat to put across a tally. After carrying the kick-off back to its 43-yard line, Michigan lost it on downs. Neller and Schmyser barely missed first down on three plays and Lyman completed the yardage when he went through center for two yards. Schmyser plunged through center for a yard and Neller passed to Lyman for first down. Neller hit center for two yards and took a forward pass on the Michigan 30 yard line for first down. Schmyser and Neller carried the ball to the 23-yard line. A pass failed. Uteritz intercepted a pass on his 18-yard line and the advance was stopped. Kipke punted to Lyman on the M. A. C. 40-yard line. The kick was called back and M. A. C. was penalized fifteen yards. Kipke again punted, this time to the M. A. C. nine-yard line. Beckley punted out of bounds on his own 29-yard line, paving the way for another touchdown. The M. A. C. line held on its own seven-yard line and took the ball.

Uteritz made a fair catch of Beckley's punt on his own 42-yard line. Michigan was penalized fifteen yards and Kipke punted to the M. A. C. seven-yard line. Neller made a yard at guard as the quarter ended.

The fourth quarter saw Michigan unleash a bunch of fresh substitutes heavy enough to puncture the M. A. C. line almost at will. Grube in at fullback for Miller and a fresh line took the measure of the M. A. C. defense and plowed through for three touchdowns but not in one case could the Wolverines register a point from touchdown. Neller was taken from the game when his knee was injured and Crane replaced him. Beckley continued to do the punting and Hultman kicked off. At times the M. A. C. machine showed signs of reviving and threatened to make headway with forward passes but one was intercepted and the chances for a score went flickering.

M. A. C. completed eight first downs while Michigan tallied seventeen. In the number of forward passes successful M. A. C. far surpassed Michigan. The Green and White heaves were completed in five out of eight attempts and Michigan caught only four out of twelve tries. Each team had one pass intercepted. Not a punt was blocked by either team. Michigan lost two chances to score by drop kick because the M. A. C. forwards were in next to the kicker. Michigan completed one attempt to score a point after

touchdown, this was by a forward pass. All attempts to kick goal from touchdown failed.

Michigan	M. A. C.
Marion	L. E. Kipke
Muirhead	L. T. Taylor
Hawkins	L. G. Hultman
Blott	C. Eckerman
Steele	R. G. Hackett
Vandervoort	R. T. Haskins
Curran	R. E. Robinson
Uteritz	Q. B. Richards
Kipke	L. H. Beckley
Herrinstein	R. H. Schmyser
Miller	F. B. Neller

Score by quarters:

Michigan	12	7	0	18—37
M. A. C.	0	0	0	0—0

Touchdowns: Kipke, 2, Miller, Grube, Parker, Vick. Goals from touchdowns: Curran. Referee: Costello, Georgetown. Umpire: Kennedy (Chicago). Head linesman: Olds (Michigan State Normal). Substitutions: Vick for Herrinstein; Kunow for Muirhead; Grube for Miller; Brown for Blott; Blott for Brown; Swan for Steele; Rockwell for Kipke; Parker for Uteritz; Palmer for Curran; Witherspoon for Grube; Heston for Marion; Donnelly for Vandervoort; Becker for Heston. M. A. C.—Edmonds for Kipke; Lyman for Richards; Speikerman for Taylor; Kipke for Edmonds; Crane for Neller; Place for Eckerman; Smith for Speikerman.

R. H. Westveld, '22, is located at Tres Ritos, New Mexico. He expected to visit the college this week and was to give a talk to the forestry club on "Timber Sales on the National Forests."

Sealed proposals will be received by the Building Committee of the M. A. C. Union for certain excavating and for the erection of the foundation walls to grade, for the proposed M. A. C. Memorial Building, located on the Michigan Agricultural College campus, at East Lansing, Michigan. Bids will be received until 11:00 A. M. Nov. 16th, 1923, at the office of the M. A. C. Association, East Lansing. Plans and specifications may be procured from R. J. McCarthy, Sec'y, or from Pond and Pond, Architects, 64 E. Van Buren St., Chicago, Ill.

COMPLETE HOMECOMING PROGRAM

Barbecue, Cross-Country Run, Football Game, Reunions of Organizations
Among Attractions Listed for November 10 Celebration—
Coaches Invited to Luncheon.

Starting with the annual barbecue on the evening of November 9, Homecoming events will this year be of unusual interest to the returning alumni. An endless chain of letters has been going the rounds for some time in which the captain of each athletic team over more than a decade urged the members of his particular team to return for the day. It is estimated that more than 1000 such letters have been sent out. From the alumni office alone more than 300 addresses have been supplied to those captains who have been unable to keep track of their teams since graduation. It is certain that November 10 will see the greatest array of athletic talent, past and present, M. A. C. has ever witnessed at one time.

As an informal introduction to the new stadium the State Intercollegiate cross-country meet will start from and finish in the enclosure. The runners are scheduled to get away at 10 o'clock on the morning of Homecoming Day and a large field has been entered.

The alumni luncheon will be held in the woman's building at 11:30 o'clock. The guests of honor will be the members of the athletic department, in order that the visiting alumni may have an opportunity of seeing the men and women who are handling the affairs of the M. A. C. physical training department this year. The Swartz Creek band has promised faithfully that it will put in one of its peppy appearances with all of the stunts necessary to improve the day's program. Pritchard, successor to the peerless Mark Small as conductor of this group of musicians, reports that his aggregation will be on hand any time, anywhere, when the invitation includes a meal. The association has promised to feed the famished dispensers of cheer.

It is not planned to have set speeches on the program. It is being urged upon Director Young that he present one of his noted ten-word speeches and Coach Taylor may be prevailed upon to tell how he induces the line to "smack 'em" but other activities in the oratorical line will be restricted to remarks addressed to the secretary about the quality of the lunch, the disappointing service and the brigandage of an organization which so misuses its members as to charge enough for one a small lunch to ordinarily feed a dozen people. It is also urged that these exhibitions of platform prowess be reserved until after the luncheon.

Now the most important event of the day, the attraction which draws most of the old grads back to the campus, is the football game in the afternoon. Creighton university from Omaha, Nebraska, will furnish the opposition for the Green and White in the new stadium. Although

there will be no formal exercises to mark it, this will be the more or less formal opening of the new structure. The new brick gateway at the north end is completed and ready to admit alumni, properly supplied with tickets, to the attraction of the afternoon. It opens the way to a walk around the end of the field, bordered on one side with evergreen trees which cover the slope of the high "fill" necessary to make the gridiron level. This walk leads the way to the rear of either stand where entrances supply the remaining links to connect the spectator with the seat from which he can view the action of the afternoon. The contest will start at 2 o'clock, central standard time, and, from whistle to whistle, it promises to be one of the best of the year. Last season Creighton administered a 9 to 0 defeat to the M. A. C. eleven, last year also Albon tied the Green and White. Creighton accomplished its feat by kicking three goals from the field. This year the M. A. C. squad is primed to stop such an attack and administer the affairs of an advance of its own. At any rate the game has all of the promise of being one of the best of the season on the home grounds.

It is noticeable that there is not much of a program for the morning hours. For this there is a reason. Alumni returning to the campus for special occasions have but little time to acquaint themselves with conditions at the college. The morning hours, for those with sufficient ambition, will provide a space where the old timers can look through the new buildings and make a thorough inspection of the stadium. The library and a home economics building have been completed to a point where their general features are readily recognizable although they are not yet ready for use and there are many features of the stadium which require minute investigation to appreciate their full worth. The student parade which has been a feature of other Homecomings will not be carried out this fall.

After the game the time is generally recognized as most auspicious for organization reunions. Many of the societies are planning special events for this time, the Eunomians will celebrate the twentieth anniversary of the founding of their organization and others will take this opportunity to acquaint their active and alumni membership with each other at informal gatherings.

The first thing to do is to register your name and address at the alumni office, 3 Faculty Row, and purchase luncheon tickets so that none will be disappointed. It is planned that the alumni luncheon will have an attendance of at least 200 and preparations are being made to accommodate that number as a minimum, to reduce the possibility of loss to the caterer.

Detroiters' Doings

Walter E. "Shrimp" Webb, '20, forester, has been "timber cruising" in Detroit for the past week. Shrimp is superintendent of parks in Mitchell, South Dakota, but an attack of tonsillitis "floored" him and he is now convalescing at home. Included in his work in the west is the supervision of the city playgrounds and tourist camps.

"The very picture of her dad," said they all of the latest arrival at Max Somers', '17, home, so they called her Maxine. The little miss just missed the Fourth of July celebration by one day, arriving on July 5.

A. J. Army Marling, '23, who has been with the Frye Brokerage Co. of Chicago, has been transferred to Detroit where he will be in the fruit and vegetable game with the Bloom Co. F. A. L. Bloom, '15, and Pat Henry, '15, are partners in the company.

"Doc" R. E. Hammond, '22 vet. has resigned as city meat inspector in Detroit to take charge of similar work in South Bend. The inspection of the city milk supply is coupled with that of the meats in the latter city. He expects to move to South Bend about November 1.

T. H. Kay, '11, will ride the rails to Washington, D. C., October 30, as a member of the third degree team from Corinthian Lodge, No. 241, F. & A. M. The team has been asked to confer the third degree as part of the exercises at the dedication of the New Washington National Memorial. Kay expects to prolong his visit in the Nation's capital from Tuesday till Saturday.

Arthur "Dinny" Dinsmore, '23, has transferred his activities from "dishing out hash" at Club A to dishing out oil and grease for Detroit. His title is service station supervisor for the Standard Oil Co. and his territory includes 27 service stations in the southeastern part of Detroit.

From the top of a wall to the invalid's bed at home was the leap taken by Emory Horst, '12. As superintendent of construction for the W. E. Wood Co. he was busy on the new Pennsylvania freight station. While inspecting some work from a wall he fell and a number of bones in one foot were broken with the result that he is now confined to his home for a while.

Al Barron, '16, and Nick Knickerbocker, '16, confirmed and confessed bachelor engineers, have decided to become ags and have started experimenting with "all good fellows" friend, *saccharomyces elypsoides*. Latest reports are that cellar stocks are up to five gallons. Nick says that they will be pleased to have M. A. C. folks call on them.

Detroit's loss but M. A. C.'s gain is F. L. Zwickey, w'22, who left the Department of Parks and Boulevards to finish his college course this year.

WILL REQUEST RAILWAY TO REMOVE TRACKS

At the recent meeting of the State Board steps were taken to provide for the formal opening of the home economics building which, it is expected, will be ready for use early in the winter term. It was also decided by the board to instruct Secretary Halladay to confer with the officials of the Michigan Railway company in regard to removing the trolley tracks from the campus. These tracks have been on college ground for a long time but they were put there originally under a temporary agreement and have been left there since only through the courtesy of the college.

It is the plan of the college authorities to remove the old post office and the tracks as soon as possible. When the new library building is ready for occupancy some of the offices now located in the old post office building will be moved to the old library. This will make the maintenance of the old wooden structure at the entrance to the campus unnecessary and it will probably be torn down. These improvements will make way for the construction of the projected formal entrance to the campus.

Alumni Opinion

Dear Mr. McCarthy:

THE RECORD for Oct. 1 has just come—been looking for it for a week or more. Now that it is here it is a disappointment in that there is not a word in it regarding the attendance—of very great interest to all friends of the college—far more of a news item than the article regarding Butterfield, interesting as that is. By the way, he was of the class of 1891, not '90.

I hope the next issue will have a full statement of the attendance—all classes and courses—and a little later a statement making a comparison for the past 10 years.

Very truly,

Harry J. Eustace, '01.

San Francisco, Cal.

The student cheering section will be provided with separate seats at the Homecoming game. A portion of the west stands situated north of the 50 yard line and immediately adjoining that point will be reserved for student ticket holders who attend the game alone. It is expected that this will result in more organized cheering than has been the case in the first two home games of the season.

M. A. C. was represented at Camp Custer in the R. O. T. C. section by 26 men who are taking the course leading to a commission in the Officers' Reserve Corps. Several others attended camp at Fortress Monroe, Virginia. At Custer M. A. C. had the third highest representation and many of the men were commended for their work.

CLASS NOTES

'70

C. B. Charles writes from Bangor, Michigan: "Am still plugging along at the same place but am slowing up like other old boys. My farms are idle and really I enjoy fishing as well as ever. On Wednesday of this week a solid train load of apples left Bangor for Chicagoo and we believe this to be the first full train of fruit sent from a Michigan town. We expect to ship from Bangor six hundred cars of apples raised within six miles."

'82

According to the Boise, Idaho, postmaster, J. L. McClear may be addressed at Couer d'Alene, Idaho.

'03

W. F. Hopkins should be addressed in care of the Chicago Trust company at southeast corner of Clark and Monroe streets, Chicago.

'04

Lawrence T. Clark may be reached in care of the Parke Davis and company at Detroit, where he is junior director of medical research and biology laboratories.

'07

The Detroit postmaster informs us of a change in address for Clara Morley to 455 W. Hancock avenue, Detroit.

'09

J. A. Mitchell writes that he is now in St. Paul, Minnesota, at 2107 Knapp street.

G. H. Stephen asks us to change his mailing address to 803 East Seventh street, Flint, Michigan.

'11

Mr. and Mrs. Charles Morgan (Bess Frazer) announce the birth of Janet Elizabeth and John Francis on October 9. They are at home at 2401 Alhambra avenue, Monterey Park, California.

Betty Palm writes from 2701 Arnold Way, Corvallis, Oregon: "Several members of our college staff have at one time been connected with M. A. C., either as a student or on the staff. Dean Cordley, Prof. G. V. Copson, Prof. and Mrs. C. B. Mitchell, Mr. and Mrs. J. A. Berry, Dr. and Mrs. H. MacPherson, and myself. Last year we had Miss Bertha Thompson and Miss Dorothy Shank."

'12

R. B. Delvin is in Longview, Washington (Box 501), and is connected with the field office of the Sessions Engineering company of Chicago, Illinois, engaged in the development work being carried on by the Long-Bell Lumber company.

Mary Shafer has moved in Lansing, Michigan, to 223 North Walnut.

'14

The postoffice department records a change in address for Francis Crawford to 731 Westmoreland avenue, Lansing, Michigan.

'15

John W. Leggat was recently assigned to the duties of service engineer with the Gray Motor corporation of Detroit, and lives at 4720 Brooklyn avenue. He reports three prospective students, aged 7, 5, and 1 1-2 years.

'16

Grace Martin has moved in Grand Rapids, to 345 Paris avenue S. E.

Henry Jessop writes from 11 Bellevue Road, Durban, Natal, South Africa: "Am still supervising native schools in the Natal Coast country. A cordial welcome to any M. A. C. people calling at this port."

'17

M. V. Carmody may be addressed at 405 South street West, Kalamazoo, Michigan.

David E. Blair is inspector of perishable freight for the Merchant's Despatch company and is located at the Louisiana street station, Buffalo, New York.

Willis D. Kimmel may be temporarily reached at 707 N. Winton Road, Rochester, New York.

Earl A. R. Lauffer still is addressed at 4741 Garland avenue, Detroit. Lauffer reports that Loren Williams was operating an electric store at 420-28 Bates street, Detroit, in April.

'18

C. J. Perry requests us to change his address from Wenatchee, Washington, to 1116 State Lake building, Chicago.

Willard M. Coulter writes from Jenison, Michigan: "Business—Coulter Lumber company, 1205 Randolph S. W., Grand Rapids, Michigan. Mrs. (Helen Edmonds '19) Coulter and I are enjoying our two daughters Marie 1 1-2 years and Barbara Jean 2 weeks. Marie Edmonds has just returned from the home of Mr. and Mrs. H. A. Reeves, '18, of East Lansing, where she has been getting a taste of M. A. C. life. M. A. C. visitors are always welcome. We are nine miles out from Grand Rapids. Take M-51 to Jenison and turn to the right for one half mile until you spot a white bungalow. Country life—city conveniences."

Harold Juddles is at Columbia University and is living at Livingston Hall.

'19

Wesley Thomas has moved in Lansing to 1213 E. Kalamazoo street.

Ada Cobb is living in Omaha, Nebraska, at 3316 Harney street.

Frances Spencer was granted her M. A. degree from Columbia last June and is now a member of the faculty at Haskell Institute, Lawrence, Kansas.

Gertrude Newbrough has moved in Detroit to 91 Gladstone.

'20

M. P. Parsons is a chemist at the Alma, Michigan, plant of the Michigan Sugar company. He lives in Alma at 226 Lincoln avenue.

The following is contained on Robert Post's blue slip: "Address, 600 11th avenue, Brookings, South Dakota. Granted a masters' degree by the University of Wisconsin last August in agricultural economics. Now engaged as assistant

professor of farm economics at South Dakota State college, and assistant in the state department of agriculture. At present am teaching general economics, agricultural economics, marketing and farm management. I like my work very much and am more than pleased with the state. After our April wedding Mrs. Post joined me at the University of Wisconsin. Here at Brookings we are fortunate to secure an apartment in the Hillcrest, which was just completed September first."

Louise Larrabee is teaching domestic art in the high school at Traverse City, Michigan, where she lives at 512 Fifth street.

'21

William R. Barger is in Pasadena, California, at 29 North Meredith avenue. He says: "Still with the U. S. department of agriculture dividing our time between California and Florida trying to get fruits and vegetables to market in better condition. In last year have come in contact with Diehl, '18, at Washington, D. C.; Pailthorp, '13, at Washington, D. C.; W. W. Potter, w'19, at Sanford Florida; Stone at Sanford, Florida; Warren, '16, at Philadelphia; S. Pierce, '16, at San Francisco; R. E. Caryl, '14, at Riverside; L. B. Scott, '12, at Pasadena and A. C. Mason, '12, at Orlando, Florida. The address of L. E. Hall, '21, is Pennsylvania Freight station, Akron, Ohio.

River Avenue

Hours: 6:30 a. m to 7:30 p. m.

All Together, Now!!!

Are you ready when the song leader gives the signal?
When the bunch sings the old songs don't just hum the tune.
All of M. A. C.'s best songs, with the music, are included in an attractive booklet of convenient size.
You boosters of the Green and White need it on your pianos.
It is indispensable for branch association and club meetings.
Your copy will be mailed prepaid upon receipt of 50 cents at the alumni office. Attractive prices for group orders.
The proceeds will be applied to the Memorial Union Building Fund.

Newspapers in Magazine Form

Unlike anything published today! Alumni weeklies, monthlies and quarterlies are carrying live news items of the colleges and personal friends to those men who are doing the majority of the big jobs.

Honestly, isn't this a good time and place to register your name or your product?

We are sure you feel friendly toward the advertisers in this, your own publication.

We believe that your company will benefit from advertising in this and other alumni magazines.

Forty-four alumni publications have a combined circulation of 160,000 college trained men. Advertising space may be bought individually or collectively—in any way desired. Two page sizes—only two plates necessary—group advertising rates.

The management of your alumni magazine suggests an inquiry to

NEW YORK CHICAGO
23 E. 26th St. 230 E. Ohio St.

H. S. Hackstaff is kept busy as senior member of the firm of Hackstaff-Atkinson company, manufacturers, agents and jobbers of carbonic gas. He lives at 1821 Crenshaw boulevard, Los Angeles.

Walter E. Webb, '20, visited the college last week. He is city forester at Mitchell, South Dakota and brought a number of interesting specimens of petrified wood from South Dakota which he gave to the forestry department. Professor Herbert of the forestry department is attempting to determine the species of trees from which these woods came.

More subscriptions for the 1924 Wolverine were obtained from the students during the Wolverine week campaign this fall than were on the books when the annual was published last spring. Work by the business staff of the big book will continue until the student body has been thoroughly canvassed. A feature which has brought some measure of success to the appeal is the offer by the staff to print the name of the owner on the cover of his book.

MEETING OF THE STATE BOARD OF AGRICULTURE

President's Office,
October 17, 1923,
11 o'clock a. m.

Present: President Shaw, Mrs. Stockman, Messrs. Watkins, Brody, McColl and Secretary Halladay.

The minutes of the previous meeting, having been in the hands of the members were approved without reading.

On motion of Mr. McColl the following appointments were confirmed by the board:

Appointment Confirmations.

Miss Joan Krueger, dean of home economics, effective Sept. 1, 1923.

Harrison Hunt, professor of zoology, head of the department of zoology and geology and animal geneticist of the experiment station, effective September 1, 1923.

Miss Julia Fear, assistant professor of home economics, to fill the vacancy caused by the leave of absence of Miss Anna Bayha, effective September 1, 1923.

Mary Stadenberger, instructor in clothing, effective September 1, 1923.

Miss Mamon Grottenberger, assistant chemist in experiment station chemistry, effective September 10, 1923.

Mrs. Olive Dobson Henkel, instructor in voice with the understanding that she is to give two full days per week with a maximum of twenty lessons.

Miss Dorothy Yakeley, full-time graduate assistant in bacteriology, effective September 1, 1923.

Fred H. Black, quarter-time assistant in the department of farm crops, effective September 1, 1923.

Herbert W. Schmidt, half-time assistant in the department of chemistry, effective September 1, 1923.

Arthur Lukowski, half-time assistant in the department of chemistry, effective September 1, 1923.

Neil Morrish, half-time assistant in the department of mechanical engineering, effective September 1, 1923.

George D. Fick, the D. M. Ferry Fellow in botany, effective September 1, 1923.

Motion by Mr. McColl, that the report of the music committee composed of President Shaw, Mrs. Stockman, and Secretary Halladay, recommending an additional salary for A. J. Clark as band leader, be accepted.

Carried.

Motion by Mr. Brody, that the arrangement of time and salary of Dr. Eben Mumford, between college and extension work as suggested by R. J. Baldwin, be adopted, and that his salary be paid from extension funds from June 30 to January 1, and from the general fund the other half of the year.

Carried.

The appointment of E. A. Gee as assistant professor of economics to succeed Walter Stark, resigned, effective September 1, 1923, was confirmed.

Motion by Mrs. Stockman, that the bill presented by Grace Cone covering her services rendered the college from October, 1922, to April 1923, in connection with the class in social service, be paid.

Carried.

Motion by Mrs. Stockman, that Messrs. Grover and Walpole be delegated to attend the conference of the Federal Board for Vocational Education, to be held at Indianapolis, October 22 to 25, with expenses paid.

Carried.

Motion by Mrs. Stockman that President Shaw, extension director, R. I. Baldwin, Dean Krueger, Dean Bissell and E. B. Hill, assistant to the dean of agriculture, be delegated to attend the meeting of the Land Grant College association held at Chicago, November 13 to 15, with expenses paid.

Carried.

Motion by Mr. McColl, that a representative be sent to attend the meeting of the American Society of Agricultural Engineers held at Chicago, November 5 to 10, with expenses paid, the person to be selected by H. H. Musselman, professor of farm mechanics.

Carried.

Inasmuch as J. F. Cox, professor of farm crops, has been requested to prepare an address on "Alfalfa in the East" for presentation at the annual meeting of the American Society of Agronomy held in Chicago, November 12 and 13, Mr. McColl moved that Mr. Cox be delegated to attend with expenses paid.

Carried.

On motion of Mr. McColl, A. J. Patten, professor in chemistry, was appointed to attend the meeting of the Association of Official Agricultural Chemists, of which he is president, to be held at Washington, D. C., November 19 to 21, with expenses paid.

At the recommendation of Col. T. L. Sherburne, it was moved by Mr. McColl, that Major Gray, the second ranking officer on duty in the military department of this institution, be given the rating of associate professor.

Carried.

The matter of the State Board of Agriculture taking out a membership in the National Transportation Institute was considered and it was decided to defer action for the present.

Motion by Mrs. Stockman, that \$50 be added to the Fair Exhibit Fund to be used toward educational exhibits at the Michigan Apple and Potato Show to be held at Grand Rapids, November 20 to 23.

Carried.

Motion by Mrs. Stockman, that Mr. French, director of the vocational teacher training, be granted a leave of absence for the fall term with continued salary, on account of the condition of his health.

Carried.

Motion by Mr. McColl, that the Globe Chronometer offered to the college by Nathan Judson, 662 N. Washington avenue, Lansing, be accepted and the secretary be instructed to write Mr. Judson of the board's appreciation of this gift.

Carried.

On motion of Mr. Watkins, the matter of funds for the Y. W. C. A., was left to President Shaw and Mrs. Stockman with power to act.

The following resolution was presented by Mr. Watkins and adopted by the Board.

"Resolved, that the State Board of Agriculture authorize and instruct H. H. Halladay, secretary, to officially requisition from the auditor general a warrant upon the state treasurer for seventy-five thousand dollars, (\$75,000) of the appropriation for extension work under the appropriation act of the Michigan legislature of 1921; that said requisition be made upon forms ordinarily used for obtaining funds from the auditor general, the same to be placed in the hands of O. B. Fuller auditor general, not later than October 17."

On motion of Mr. McColl, Mr. Watkins, and Mrs. Stockman were appointed a committee of the State Board of Agriculture to act with other college committees in formulating a program for the formal opening of the new home economics building when completed.

Motion by Mr. Brody, that a committee be appointed composed of Mrs. Stockman, Mr. McColl, and Mr. Brody, to confer with the Union Literary society on the matter of building a new house on the campus.

Carried.

Motion by Mr. McColl, that the secretary be instructed to take steps to have the tracks of the Michigan United Railway company removed from the College campus.

On motion adjourned.
