## WHERE ARE YOU CONCERNING YOUR CAREER PLANS AND GOALS?

The Office of the Dean of Women at Purdue University has devised a SPAN PLAN CHART to aid coeds in taking a more comprehensive look into their long-range life patterns in terms of educational, career, marriage and family plans. The SPAN PLAN CHART becomes more relevant when the following are taken into consideration:

- life expectancy for a female born in 1964 is 74 years
- 9 out of 10 females will work sometime during their lives; working at least 25 years out of the home

# WHAT HAPPENED TO YOUR LEARNING, THINKING, AND FEELING THIS YEAR?

The following lines are a commentary on maturity by Ann Landers which might help you measure your development and facilitate your self-discovery. MATURITY IS:

- . . . the ability to control anger and settle differences without violence or destruction.
- . . . patience, the willingness to pass up immediate pleasure in favor of long-term gain.
- . . . perseverance, the ability to sweat out a . . . situation in spite of opposition and discouraging setbacks.
- . . . unselfishness, responding to the needs of others, often at the expense of one's own desires or wishes.
- . . . humility. It is being big enough to say, "I was wrong." And, when right, the mature person need not say, "I told you so."
- . . . the ability to make a decision and stand by it. The immature spend their lives exploring endless possibilities and then do nothing.
- . . . the act of living in peace with that which we cannot change.
