FOOTBALL TEAM.

The above cut presents to our readers the championship football team of the Michigan Colleges for the season 1903. Kalamazoo and Albion have strong teams but both were defeated twice during the season. M. A. C. played every team in the intercollegiate and was not defeated a single time. She was scored on only twice by Michigan teams and both touchdowns were the result of fumbles.

The sporting editors of the Free Press and Tribune in recent reviews say that M. A. C. far outclasses all other college teams in Michigan this year. The student body and faculty are proud of the record made. The victories won have not been clouded by roughness nor has scholarship been sacrificed. It is sometimes claimed that only the poor students and those inclined to be rough, engage in football. Both claims are refuted by the M. A. C. team of 1903. Decker, the leading player of the team, is president of Y. M. C. A. Others might be mentioned, but this will suffice.

Director Brewer says that the success of the season is due to the friendly spirit, cooperation, and willingness to work that has characterized the team throughout the season. The members of the team say that their success is due to the excellent coaching of Director Brewer. He has been out early and late with his football suit on. He has kept the boys together, shown them how to play and has

always encouraged and inspired them and has thus given M. A. C. the first championship team in her history. The RECORD thinks that both are correct. There has been harmony between coach and players, and in this connection we should not forget the excellent work of Instructor Hopkins and his reserves. The second team has played every night throughout the season. They have withstood the onslaughts of first team, have been bumped and jolted for three months. The success of the season is due in a large measure to the valiant work of the second team. Many of its players are strong and active and will make the first team next season. They deserve much credit and should not be overlooked when honors are passed around.

The following is a detailed statement of the members of the first team:

Decker.—Height 6 ft., weight 191, experience three years. Mr. Decker has been the most conspicuous center in the intercollegiate. He is a good tackler, carries the ball well, passes it accurately, is active and cool. He had no equal this year. He has handled every opponent with ease and especially was this true of the Albion center.

Lampke.—Right guard, weight 172, height 6 ft. Mr. Lampke's picture is not shown as he was absent when the photograph was taken. While he lacked in experience, yet he proved a strong guard and will make an excellent man. He was

picked by Albion for the All-Michigan eleven.

Case.—Left guard, weight 170, height 6 ft. Played three years in Albion high school. He was a steady player. He never missed a minute, never took out time, and never said more than five words the entire season. He grew stronger at every game, and was the star player in the Olivet game, as he broke up nearly every one of her plays. Mr. Case is a freshman and will be heard from in the next few years.

Bell.—Left tackle and captain; height, 6 ft.; weight, 178; 2 years experience at M. A. C. Very strong on offensive, steady on defensive. Has been elected captain for next season and is one of the strong men on the team.

Kratz, F. J.—Right Tackle; weight 170; height, 6 ft. 2 in.; experience, 2 years on Albion high school and 2 years at M. A. C. He is a steady, conscientious worker. His position at tackle was maintained by close application to business. He is rather tall for tackle but hard work kept him there.

Peck.—Right Guard; weight 185, height, 6 ft. 3 in.; no experience. A strong man and a hard worker, and as he is a freshman, he will be one of the coming men.

Ashley.—Right end; weight 162; height, 5 ft. 10½ in.; experience, 4 years in Lansing high school. He was aggressive, strong, muscular and knew the game thoroughly.

Peters.—Left end; weight 166;

With '70.

George Peet visited at M. A. C. Dec. 4. Mr. Peet is a prosperous farmer near Battle Creek, Mich.

'88.

H. B. Cannon has a dairy farm at Rochester, Mich. He has sufficient cows to supply the milk for his route. Mr. Cannon does a great deal of work in connection with farmers' institutes, discussing a large variety of subjects but especially dairy topics.

'89.

Prof. J. W. Toumey of the forestry department of Yale University has been elected director of the Yale botanic gardens.

Ray S. Baker was called before the senate committee who are investigating the conduct of General Wood. Senators Scott, Teller and Hanna did the questioning but nothing of importance was brought out. Mr. Baker attended a dinner given by General Wood when a proposed magazine article criticizing General Brooke was discussed. This discussion caused the committee to summon Mr. Baker.

'91.

Prof. C. F. Wheeler, of the Bureau of Plant Industry, has sent 32 kinds of fruits and seeds to Dr. Beal for the botanic garden and herbarium.

'93.

A. B. Cook is tarenmaster at the Owosso Sugar Factory. Mr. Cook has a large farm near Owosso, raises beets, beans and also has quite a good deal of live stock. He makes a large amount of maple syrup in the spring, having one of the best sugar bushes in central Michigan.

D. J. Crosby has become a sun-down farmer in connection with his work in the U. S. Department of Agriculture. The term is applied to doctors, dentists, lawyers and other professional men who work at their vocation, or perhaps, avocation, after government office hours. Mr. and Mrs. Crosby have moved to Lanham, Md., where they have purchased a house and lot. The lot contains 40 apple, peach, pear and plum trees, three persimmon trees and three large grape vines, all in bearing. Prof. and Mrs. Wheeler and M. A. Crosby will accompany them.

With '95.

A. N. Clark is now consulting chemist at the Owosso Sugar Factory. He says that chemists have been very scarce this season and that wages have consequently been much better than usual.

With '01.

L. F. Pierce is running a dairy farm of 200 acres near Lansing. He has seven thoroughbred Holsteins and thirteen thoroughbred Jerseys. He is making a success of the business and enjoys his work.

FOOTBALL TEAM.

(Continued from page one)

height, 5 ft. 11 in.; experience, 3 years at M. A. C. A speedy end, strong, knew the game and had no equal in his position in the opposing teams.

Shaw.—Right end; weight 158; height, 5 ft. 11½ in.; experience, 4 years in Detroit schools. A fast player and one of the hardest workers, grew stronger all the time.

Small.—Quarterback, height 5 ft. 6 in, weight 129; experience, 2 years on each of Milwaukee and Charlevoix high schools. He handled the team well, made very few fumbles, and was the best tackler on defense.

McKenna.—Right half back, weight 154, height 5 ft. 8½ in.; experience, 2 years in Iron Mountain high school and 2 years at M. A. C. A very swift player, a star in open field work and at catching and returning punts. He was an excellent dodger and time and again made spectacular plays.

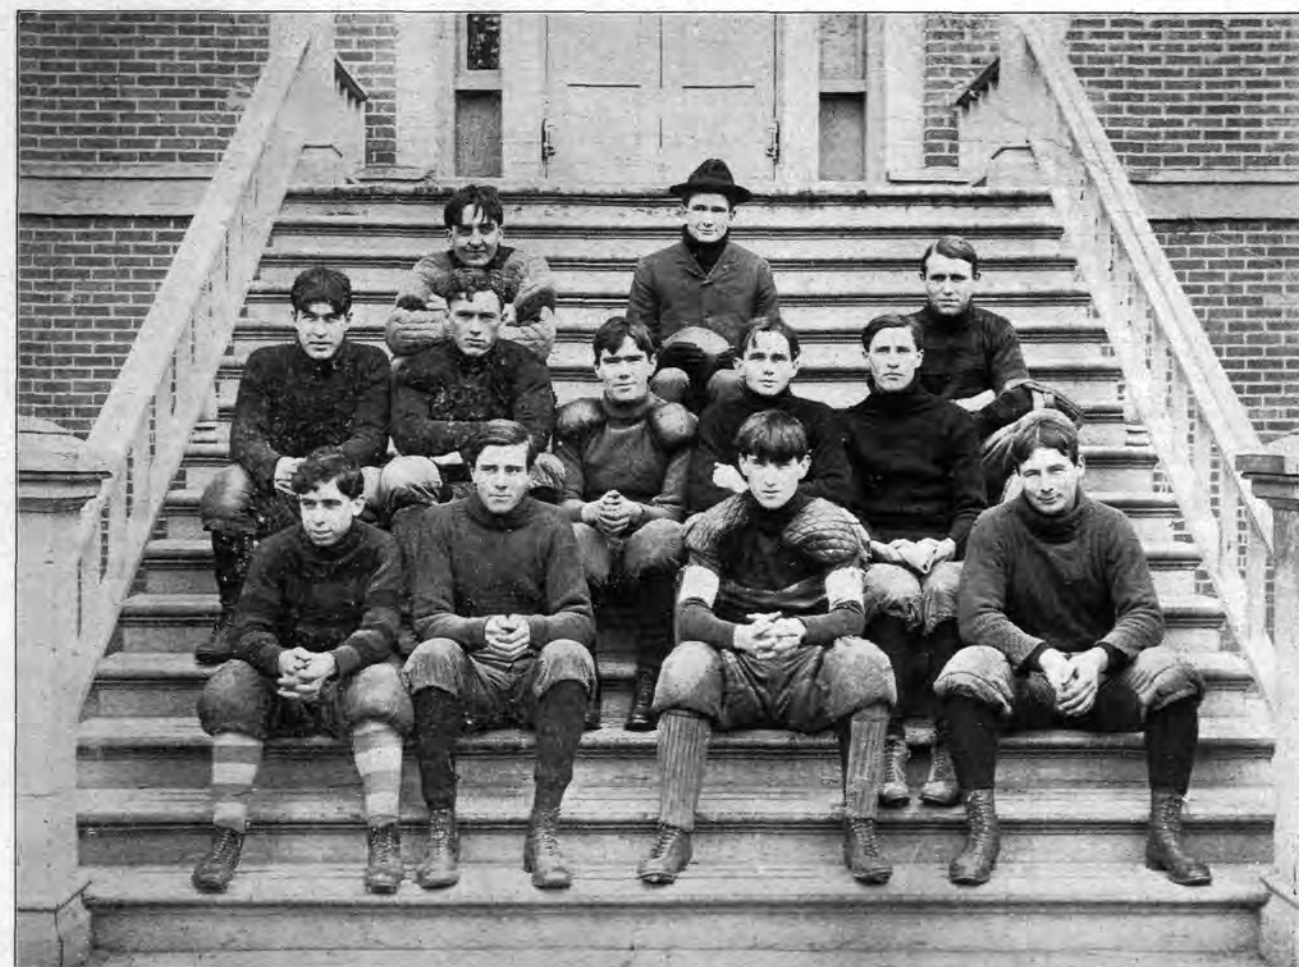

Millar.—Left half-back; weight 145; height, 5 ft. 10 in.; experience, 2 years on Romeo high school. He played a star game at end the first part of the season and played a good game at half, though a little light for the position. He was the best man on the team to pick openings and take advantage of them.

Doty.—Full back; weight 154; height, 5 ft. 8½ in.; experience, 2 years on Lockport high school team. He was a good, steady, plugging player and hit the line hard. He could always be counted on in the game.

Holdsworth and McCue each played half of one game. Holdsworth is a member of the reserves and "Peggy" needs no introduction to M. A. C. or the colleges. He was captain of the team in 1900 and was a star end for two years. He is now taking post graduate work and came out at the urgent request of many friends.

Y. M. C. A.

The Thursday evening prayer meeting was conducted in the interest of foreign missions. Mr. Haines gave a very interesting report of the

Ann Arbor convention. Mr. Rogers spoke on the brotherhood of man and what we, as members of that brotherhood owe each other and to whom we owe the greatest debt. After this Mr. Wermuth presented the claims of missions upon us, and more especially solicited aid for Mr. D. S. Bullock's department in the Mapuche Mission, Chile, S. A., also the claim of Mrs. Brockman, of China. The subscriptions were liberal. Mr. McWethy, chairman of the mission committee, conducted the meeting. The exercises were interesting and quite well attended.

Chapel services Sunday morning were conducted by Rev. David Howell. His text was, Hebrews 2:1, "Therefore we ought to give the more earnest heed to the things which we have heard, lest at any time we should let them slip." A large number attended.

Mr. Burt Wermuth conducted the Sunday evening meeting of the Y. M. C. A. His theme was "The Y. M. C. A. and its work." He showed its scope to be very wide and not conservative. It has city, railroad, college and university, military and naval, shop and country departments, giving mental, moral and physical training. Its night and day study classes, its gymnasium and baths, and its spiritual meetings all tend to bring out the best there is in man.

VACATION.

A rate of one and one-third fare for the round trip will be granted by the railroads from Lansing to all points in Michigan and the territory of the Central Passenger Association for non-resident students of the College returning home for the Christmas vacation. Tickets will be sold to students on presentation of certificate signed by the president on Dec. 18 and 19, 1903, good to return until and including January

4, 1904. The certificates can be secured at the president's office after noon Dec. 17.

Mr. Walter has photographed 130 new varieties of apples for the horticultural department.

The department of botany is preparing a set of notes, outlines and classification of parasitic fungi for the junior class.

The new electric meters are being installed in the different departments and every private house on the campus.

The greenhouses at the College are in fine condition. Carnations, roses and violets are doing well. One or two orchids are in full bloom. All the plants are thrifty and the houses are in splendid shape for student work next term. The Juniors who elect horticulture make special studies of certain plants. These they grow to maturity and incidentally learn the names of the greenhouse plants, their care and culture. The new heating system is a great improvement.

Dr. Landon has moved his office from Mrs. Kedzie's to a room on the first floor at Miss Ketchum's. He can be found there at the hours indicated in the directory.

ABOUT THE CAMPUS.

Paul B. Pierce, '04, entertained relatives from DeWitt last Saturday.

Mrs. Dr. Edwards left for Virginia last Thursday to spend some time at the home of her parents.

Dr. Edwards was in Ann Arbor at a recent meeting of the council of the State Teachers' Association.

Applications for the special courses are coming in rapidly. The indications are that there will be a good attendance.

The campus is much in need of arc lamps in front of the different buildings. These could be secured at reasonable expense.

Miss Thomas, sister of P. G. Thomas, '08, and teacher of history and English in the Coldwater high school, recently visited M. A. C.

The beet sugar course will accommodate 14 students. Those wishing this work should apply at once. The course will begin February 2 and continue till June 24.

The Columbian Literary Society has elected officers for the winter term as follows: Pres. S. E. Johnson; Vice-Pres. R. F. Bell; Secretary, H. H. Barnett; Treasurer, L. J. Smith; Sec. of Records, E. Balbach; Record Editor, C. D. Sterling; Marshall, C. P. McNaughton.

Pres. Snyder attended the Live Stock exposition in Chicago last week. While there he met many M. A. C. alumni from all over the U. S. M. A. C. has many graduates in the different agricultural colleges

who are engaged in animal husbandry.

The coldest weather this fall at M. A. C. was on the night of Dec. 2, when the thermometer registered 5 above zero. November has been a very cold month as compared with former years.

Fifteen prospective students have registered for the cheese course which begins February 15. As only 24 can be accommodated, it will be seen that this course is liable to be over-crowded. First come, first served.

The Hesperian Society elected the following officers for the winter term: Pres., J. P. Knickerbocker; vice-president, Richard C. Fowler; secretary, W. B. Allen; treasurer, Ward D. Carpenter; marshal, M. W. Taber.

The board for the various clubs has been audited and is as follows this term: A, \$2.18; B, \$2.50; C, \$1.70; D, \$2.29; E, \$2.30; G, \$2.00; H, \$2.06. As usual, C is the lowest, but girls are not supposed to eat as much as boys.

The Eclectic society elected officers for the ensuing year as follows: Pres., H. T. Ross; Vice. Pres., B. McAlpine; Sec., H. H. Hogue; Treas. H. J. Mastenbrook; Marshal, H. R. Beckwith; Librarian, J. R. Bolte; RECORD Editor, P. H. Wesels.

The Thursday evening Y. W. C. A. prayer meeting was conducted by Miss Bessie Cordley, who brought before us the importance of opening our hearts to Christ and

being guided in all we do by His spirit. The Sunday evening meeting was given to the report of our Geneva delegate, Miss Irene Way, and the delegates to the state convention.

The Columbians gave their last eleven o'clock party for the term in their rooms on the evening of Dec. 4. Prof. and Mrs. Brewer acted as chaperones. The music was furnished by Messrs. Robinson and Netzorg.

Dewitt Miller will give his famous lecture, Love, Courtship and Marriage, in the armory next Friday evening, Dec. 11. This is a subject that strikes home and should be of interest to every one at M. A. C. The lecture course is well patronized though more could be accommodated. There are still six numbers left which can be had for \$1.

Instructor Holbrook will give an exhibition of the X-ray to ladies from 5 to 6 p. m. Wednesday, and a lecture and demonstrations at 7:30 p. m. to men. A new induction coil will be used. All experiments have been very successful and many interesting things will be shown. All are invited. The lecture will be in the physics room.

The Athletic Association has reelected J. P. Haftenkamp manager of the football team for the next season. Mr. Haftenkamp has proved a very efficient manager and has done all in his power to make football a success. The season has been successful in every way, even

financially, and the association expressed its appreciation by reelecting him. Mr. Haftenkamp feels, however, that he cannot act and has handed in his resignation.

A few of the class in shop methods who manifested special interest in certain matters discussed in the class were taken by Mr. Leonard to the shops of the Crystal Creamery on Friday after 3 p. m. Another section who could not go on Friday will go on Monday at the same hour to the Olds Engine Works on River street. The Friday section also visited Robt. Smith & Co.'s printing office and inspected a new printing press, the original of which was designed by Mr. Leonard. Some of the class have shown special interest in the turret lathes exhibited at the shops of the Crystal Creamery.

Ye editor attended the Farmers Institute at Luther last week and discussed Consolidation of Rural Schools and Diseases and Care of the Orchard. A short talk was given to the high school on Wednesday morning and an address in the evening on The Elements of Success. Prin. Fuller and his four assistants have a very successful school. The interest was good in all the rooms and the work was of a high order. Several inquiries were made in regard to M. A. C. and one young man expects to be here next fall. This young man not only has a good record in the school but is also an athlete of more than ordinary promise. He has a record of over 20 feet in the running-broad jump and has vaulted 9½ feet.

OLYMPIC VENISON ROAST.

The Fourth Annual Olympic Banquet and Party was given on Saturday evening, December 5. It was one of the most original and unique functions ever held on the campus. By four o'clock the guests were assembled in the Olympic rooms which were decorated for the occasion, and transformed into a veritable northern forest. The assembly room was tastily decorated with evergreens. In one corner there was a tent with a full moon rising just above it, a camp-fire burning brightly in front, directly back of the fire was an upturned boat with a neat little cozy corner beneath it surrounded by the paddles and guns. In the opposite corner stood an evergreen tree with a deer's head peeping thro it, while the other two corners were occupied with a thatched hut and an imitation log house.

An informal reception was held from 4 to 5 when the meeting was called to order by the president, and the literary program began, which consisted of articles about game and its capture. Mr. E. A. Holden an Alumnus of the society acted as critic. His criticism brought out many weaknesses of what all considered a fair program. After the literary program dainty booklets containing the dance program, literary program and menu were given out to the guests. The front cover design consisted of a hunting scene at the top and fishing rod and basket in the lower left hand corner.

Dancing was enjoyed until seven o'clock when the banquet was announced. Couples then formed for the grand march which took them to the Club A dining parlor, very tastefully decorated in pink and white, where a most enjoyable time was spent disposing of the many tempting dishes and listening to the toasts. Mr. Thomas of Lansing, proved himself a very entertaining toastmaster. The banquet continued until 9 o'clock, when all returned to the society rooms where the party continued with the hum of gayety until the hour of closing was announced. Prof. and Mrs. C. L. Brewer very pleasantly chaperoned the party.

The following is the program and menu:
