

The M. A. C. RECORD.

MICHIGAN STATE AGRICULTURAL COLLEGE.

VOL. 11.

LANSING, MICHIGAN, TUESDAY, NOV 14, 1905.

No. 9

FOOTBALL.

M. A. C. 46—ALBION 10.

"We have met the enemy and they are ours." Before the largest crowd ever seen at a football game here, Albion went "Down Before the Farmers" last Saturday at the rate of 46 to 10. It was certainly the greatest game of the season and the M. A. C. rooters simply went wild as the team walked up and down the field for touchdowns. The day was ideal for a light team, and although our boys were out-weighted fifteen or sixteen pounds per man, they were sure of gains on almost every play, whether around the ends or through the line. No punting was done, the gains for the most part being made by straight football.

Albion kicked off to Small who was downed dangerously near our own goal line. On the first play M. A. C. fumbled and lost the ball. Albion tried for a place kick which was blocked, one of her own men getting the ball. By fierce line plays and one or two short end runs the visitors secured the first touchdown after six or seven minutes of play. Frey failed to kick goal. This seemed a little discouraging to the side-liners, but it seemed an awakening of the team as it was the only time the visitors scored until near the close of the last half when it became so dark it was impossible to follow the ball.

Albion again kicked off to M. A. C., Fisk being downed on the 30 yard line. Then began the clock-like work, which has characterized the playing of the team this season, and in about five minutes McKenna was sent over the line for a touchdown, Small missing goal for the first time this season. From this time M. A. C. held their big opponents for downs again and again. The next touchdown was made by carrying the ball forty yards in six plays. Small kicked goal. Near the end of the first half Albion took a brace and carried the ball to M. A. C.'s five-yard line, but were unable to go farther. M. A. C. now took the ball, and in spite of penalties, worked it the length of the field, and sent Kratz over for a touchdown before the close of first half. Four touchdowns and three goals were registered during the first half.

The second half was a repetition of the first. Some of the best team work seen anywhere was exhibited and the visitors for a time seemed completely at the mercy of the home team. In the first half, as in the first, it looked as though Albion was going over the line as they worked the ball to within a few feet of M. A. C.'s goal. They were again doomed to disappointment, however, for the ball was fumbled and Boyle scooped it up and ran the full length of the field for a touchdown. This was certainly the feature of the game. Very few of the players, seemingly, knew just where the ball had disappeared until it was two-thirds of the way across the field. Just at the close of the last half Frey was sent over for the last score.

For Albion Frey, Bliss, Saunderson and Smith did good work making good gains when called upon.

Burroughs put up a great defensive game throwing his man back for losses and breaking through time after time for a tackle. Boyle starred throughout and by the aid of splendid interference made good gains repeatedly. The line also stood up splendidly against the superior weight of the visitors and the only man taken out was Burroughs and he not until near the close of the game.

Following is a list of players with weights:

M. A. C.	ALBION.
C—Burroughs 190	Collar 225
R G—Boomslicer 175	Merritt 205
L G—Wright 180	Eslow 190
R T—McDermid 175	Day 175
L T—Fisk 175	Leonard 185
R E—Boyle 152	Black 145
L E—Holdsworth 142	Kennedy 150
Q B—Small 134	Smith 145
R H—McKenna 158	Hayes 150
F B—Doty 160	Bliss 200
L H—Kratz 160	Frey 205

Totals 1801 1975
Average weight, M. A. C., 163 +, Albion, 179 +.

Touch downs, Frey 2, McKenna 3, Doty 2, Kratz 1, Holdsworth 1, Boyle 1. Officials Hollister and Fishleigh, of Michigan.

The following comparative scores may be of interest:

M. A. C.	Albion
1901 11	0
Return 17	17
1902 22	11
1903 6	6
1904 0	4
1905 46	10
Totals 102	48

Next Saturday the team will play Northwestern at Evanston and a good game is looked for. It is understood that the boys will be looked after by the Chicago Alumni who will see to it that they have proper support from the side lines.

M. A. C. DEBATING CLUB.

Last Thursday evening the following question was before the club for discussion: "Resolved, That free trade would be beneficial to American commerce." Messrs. Glazier and Locke sustained the affirmative side, while Messrs. Hough and Adams took the negative, and the question was very earnestly discussed both pro. and con.

The decision of the judges was two to one in favor of the affirmative. Dr. Edwards, acting as critic, made some very helpful suggestions. After the formal debate the discussion of the question was thrown open to all who wished to participate. This plan met with a degree of success that should insure its permanent adoption.

The question for next meeting is "Resolved, That Municipal Ownership of street railways is desirable." This a problem that many of the cities of the U. S. are now attempting to solve, and its discussion should interest every one.

FARMERS' CLUB.

There were more than a hundred at the meeting Tuesday night, and all were very glad they came.

Prof. Kedzie gave a very interesting and instructive talk on "Con-dimental Stock Foods." He said he found, by examination, that these stock foods contained a large percentage of oil, meal and a little of a number of other materials, such as "corn, wheat, oats, etc. So that, for the protein, it is worth just about half as much as oil meal and it sells at \$.10 per pound or \$200 per ton. A number of Experiment Stations have tried these foods and they have all, without exception proven that it does not pay to feed condimental stock foods to any kind of stock, whether it be beef cattle, dairy cattle or poultry.

DR. WILLETT'S LECTURE.

The second number of the lecture course was given in the armory Friday evening by Dr. Herbert L. Willett of the Chicago University. His subject was "The Place of the Bible in Modern Thought." The treatment of the subject was from the standpoint of the student of history. He gave a graphic description of the origin and development of the Bible and of the great influence it has had in moulding our present civilization.

Dr. Willett has a finely modulated voice and a very pleasing personality. To those who are interested in the literature of the Bible, the lecture was very much enjoyed, to those who have never taken special interest along this line, it was also interesting and suggested many new lines of thought.

FORESTRY CLUB.

At the meeting of the M. A. C. Foresters Tuesday evening there were two interesting reviews of periodicals. Mr. Kiefer, in an able manner described the manufacture of paper pulp from pulp wood, saying among other things that the chief concern of the companies now is where they are going to get future supplies of timber.

'02.

W. R. Wright, assistant in Bacteriology last year, writes pleasantly of his work at Stillwater, Okl. He says: "I have seen but one person from M. A. C. since locating here. About three weeks ago the Oklahoma Normal, located at Edmond, sent their basket ball team, composed of girls, over to play our girls' team, and with them came their coach, Miss Norma Searing. She was as much surprised to find me here as I was to see her. If appearances count for anything she is enjoying her work."

Mr. Wright wishes to be remembered to College friends.

'03.

W. R. Brown's present address is City Hall, care Dept. of Water Pipe Extension, Chicago, Ill.

ALUMNI.

The Grand Rapids M. A. C. Association cordially invites you to its fifth annual supper, to occur in the parlors of the Park Congregational church, at 6:30 o'clock, on Monday evening, November 20, 1905.

It is expected that President Snyder and Professor Frank Kedzie will be present and address us on the present college situation and the future plans of usefulness.

There will be no set speeches, but each one will be asked to relate a fact or incident near the opening and the closing of his college experience. Put your thinking cap on and do not fail us. It may be the "time of your life."

Supper, 50 cents.

'82.

In last Sunday's Free Press there appeared a picture by Allen of the University club banquet, of which J. W. Beaumont of the above class figures as toast master. This is an annual event of this club, the meeting taking place every Halloween.

'97.

H. E. Van Norman has recently accepted a position at State College, Pa., as professor of Dairy Husbandry.

'99.

Born, to William Roscoe and Ida Ella Kedzie a daughter, Lillian Faith, on Nov. 8, 1905. Mr. Kedzie is pastor of the Congregational church at Vicksburg, Mich.

'01.

S. J. Kennedy, was chairman of the entertainment committee of the "Palette and Chisel Club," an organization of Chicago artists, and had general direction of a delightful entertainment given by them to their friends on the night of Nov. 4. Among former M. A. C. people who were present were, Prof. and Mrs. P. B. Woodworth, Prof. and Mrs. M. D. Atkins, Mr. and Mrs. C. P. Reynolds, Dennis Smith, and James Green. The club room and studios occupy the entire top floor of the Athenaeum Building at 26 Van Buren St., which was given up entirely to the pleasure of the 150 invited guests. Mr. Kennedy has lately been elected a member of the Chicago Press Club, one of the most exclusive social organizations in the city.

Miss Carrie A. Lyford, formerly in charge of Domestic Science at M. A. C. now head of the school of Domestic Science at 39 State St., Chicago. This institution is considered to be the best and most largely patronized of any of its kind in Chicago. Miss Lyford's private address is 152 East 52nd St., Hyde Park, Chicago.

'02.

George Richmond of the above class, is enjoying life in the Philippine Islands. He is doing research work in essential oils in the government laboratories at Manila.

TUESDAY, NOV. 14, 1905.

Y. W. C. A.

The Twentieth Annual Convention of the Young Women's Christian Association of Michigan, held in the Plymouth Congregational church, opened on Thursday evening with greetings from the pastor of that church, Rev. Frank G. Ward, and an address "The Divine Partner" by Rev. Allan Huber of Detroit. The text taken was the one which was the motto of this convention, "labourers together with God." The fact was brought out impressively that we are all labourers, that we must be labourers together and that in order to have the most successful and complete lives, we must allow God to make us his partners and thus be labourers together with Him.

The morning hours were taken up with the song service; the morning devotions led by Miss Mary B. Stewart of the State committee; the business sessions and the Bible hour in charge of Miss Charlotte A. Porter of Detroit. These Bible Hours were very helpful as an aid to an effective study of the Bible. Miss Porter emphasized the benefit of systematic, continuous and prayerful study of the Word.

The student and city conferences were held in the afternoon, the one led by Miss Bridges and the other by Miss Barnes, both of whom are national secretaries. One hour was also taken up by a talk on the work of Miss Berniger, our Michigan representative in Shanghai, China. The pledges from the association for her work this year amounted to more than enough to cover her salary and expenses.

On Friday evening the State, National, and World's Association work was presented by Miss Johnson, our state secretary, Miss Bridges and Miss Barnes. It was very interesting and encouraging to hear, not only of the work in our own land with which we are more familiar, but also of the sister associations in Europe and even in far off India.

The Student's Conference on Saturday afternoon was held in the Woman's Building. Supper was then served to all delegates and students and was made a festive occasion in honor of the birthday of Miss Bridges. During the supper hour the delegations showed their college spirit by rendering their col-

lege cheers and songs. This was followed by an important program with Miss Keep of the State Committee as toast mistress. Toasts were responded to by Misses Johnson, Bridges, Barnes and Mrs. Harriet Gulick Clark, of Oberlin.

Mrs. Clark who has been a missionary to Japan for nineteen years and expects to return next fall, gave the missionary address at the armory in the evening. She told of the curiosity of the Japanese concerning American people and their manner of living, and how through their desire for knowledge, they may be easily reached. She told also of the lack of workers and made a strong plea for two girls to return with her to Japan.

The meeting held on Sunday afternoon for the delegates and led by Miss Bridges, and also the farewell meeting following the evening services were an inspiration to all who were privileged to attend them. In them was found the true association spirit.

The closing meeting of the convention Sunday evening was the association address by Miss Barnes, in which something of the extent and importance of the association work was presented. She told of the several thousands of working girls, many of whom are leading happier, more noble lives, on account of the educational, social, physical and spiritual advantages which the association makes possible for them, and of the need of more workers together with greater means for carrying on the work.

MICHIGAN FARMERS' INSTITUTE.

(Continued from last week).

THURSDAY, NOVEMBER, 23.

9:00 A. M.—Roll call.

Suggestions to Farmers' Institute workers (40 min.) Hon. John Hamilton, Washington, D. C.

Selecting and Breeding the Dairy Herd (25 min.) Colon C. Lillie.

Silage and How to Produce It (25 min.) N. P. Hull, Dimondale.

2:00 P. M.—Orchard methods (40 min.) Prof. S. W. Fletcher.

Balanced Ration (40 min.) Prof. C. D. Smith.

Breeding to Improve the Live Stock of Michigan (40 min.) Prof. R. S. Shaw.

The work of the Dairy and Food Commissioner, Colon C. Lillie.

Some Agricultural Schools out of School (40 min.) Miss Jennie Buell, Ann Arbor.

Wild Birds on the Farm—Illustrated—(40 min.) Prof. W. B. Barrows.

FRIDAY, NOVEMBER 24.

9:00 a. m. Roll call

Institute Gleanings from Other States (40 min.), Hon. John Hamilton, farmers' institute specialist, Washington, D. C.

Farm Dairying (25 min.), Mrs. Ella E. Rockwood, Flint.

The Care of the Dairy Herd (25 min.), E. O. Ladd, Old Mission.

2:00 p. m. Types of Breeds of Cattle (40 min.), Prof. R. S. Shaw.

Veterinary Hints (40 min.), Dr. G. A. Waterman.

Bacteriology of Milk (40 min.), Dr. Chas. E. Marshall.

7:15 p. m. The Agricultural College and Its Work (40 min.), Pres. J. L. Snyder.

The Experiment Station and

Special Courses (40 min.), Prof. C. D. Smith, director and dean.

The Decoration of Home Grounds, illustrated, (40 min.), Prof. S. W. Fletcher.

SATURDAY, NOVEMBER 25.

9:00 a. m.—Roll call.

Poultry for the Farmer (25 min.), Mrs. Emma A. Campbell, Ypsilanti. How to Grow Small Fruits (25 min.), J. N. Stearns, Kalamazoo. Care and Management of Hogs (25 min.), N. I. Moore, Hanover. Profitable Sheep Feeding (25 min.), Peter Voorheis, Pontiac.

In addition to the above program there will be Special Women's Sections each afternoon in the parlors of the Women's Building. The subjects treated in these afternoon meetings will be Chemistry of the Household, Hygiene, Home Nursing, Home Dressmaking, House Plants, Economic Cookery, etc. Demonstration exercises have also been planned and the visitors should be able to gain much valuable material for lecture work during the coming winter.

Y. M. C. A.

There are seventy-two men enrolled in the several classes in the Life of Christ, fifteen in the O. T. characters, and seventeen in the Acts and Epistles. More men should be in these classes. See Mr. Bates, room 29 or Sec. Hurst at the Y. M. C. A. if you would like to attend these classes.

H. H. Crosby conducted the meeting Thursday evening taking his Scripture lesson from John XV. The meeting was well attended nearly all seats being occupied.

O. I. Gregg and R. A. Miner assisted with some valuable remarks on the stand that early Christians maintained. It was one of the best meetings of this year.

Miss Charlotte Porter, of the Detroit Y. W. C. A., gave an interesting address in the chapel Sunday morning.

Sir George Williams, the founder of the Y. M. C. A., has recently died in London. To him the Young Men's Christian Association owes more than to any other man, for it was he who when a boy of 17 saw the opportunity to work for young men and organized the first association in London. The spread of the organization and the great work he did personally among the young men of England caused Queen Victoria to knight him, and the remains of Sir George Williams will be placed beside England's honored dead.

Perry Edmonds, for some time connected with the chemical department, is now in Denver, Colorado, selecting machinery for the Stamp and Amalgamation Plant to be installed by the Corralejo Gold Mining and Milling Co., near Eloro, Mexico. Mr. Edmonds will leave for Mexico about Dec. 1st.

Through the kindness of L. B. Littell '01, the drawing department has received three samples of riveted joints from Stephen P. Att Boiler Works and American Bridge Co. of Detroit. These samples were put up to illustrate the standard forms of rivets in bridge and boiler works as used by these two companies. These samples will be used for illustration purposes in free hand and mechanical drawing.

A rousing mass meeting was held Wednesday evening when the chapel was full to overflowing with enthusiastic students. Speeches were made by Coach Brewer and other members of the faculty and two or three members of the team. The band was on hand and aided very materially to the life of the meeting. The various yell masters led off with the yells which had been printed and distributed among the students, and the hour passed off very quickly.

Saturday evening a crowd of students, headed by the band and football team, went to the city and celebrated their victory. Every one was asked to furnish some sort of instrument (tin pans, for instance) and to use the same to the best of his ability. They formed a procession, marched through the principal streets and called upon members of the team and officials for remarks. Red fire was burned along the line of march. Wonder what sort of a time Albion had.

According to custom all college exercises will be held on Friday and Saturday following Thanksgiving. Students desiring to go home for this holiday will be granted excuses by class officers. These excuses will be given Wednesday afternoon and will release the student from class work until Saturday evening. Under no consideration will a student be excused from classes on Monday. Students living in the city as well as those who remain at the college will be expected to attend classes as usual on Friday and Saturday unless excused beforehand by the class officer.

The following experiments have been begun in the College greenhouses: 1. To determine why Michigan lettuce growers have not been able to grow head lettuce for the Chicago market with profit, and an investigation looking to the remedy of the difficulty. 2. To determine the cause of misshapen and undersized tomatoes when grown under glass. 3. Comparative experiment in the sterilization of greenhouse soil, freezing the soil, and a means of combating greenhouse pests. These experiments are being conducted under the general supervision of Mr. Gunson by students in horticulture.

'02.

George D. Francisco writes Prof. Weil pleasantly of his work in Pittsburg. We are permitted to quote the following: "My work at present is along the civil line of the profession. I am just completing an intake pier for the American Water Works and Guarantee Co., and we have just secured the contract for a 44x20x25 coal hoist pier for the Jones & Laughlin Steel Co. The company has detailed me on the latter. Both are built by the caisson method."

'04.

G. C. Morbeck, '04, writes from Gordan, Idaho, that he is enjoying the west very much. He recently passed a civil service examination for forest ranger in which he successfully performed "stunts" that even a western woodman did not care to undertake. Quoting from his letter he says: "I hope the forestry students are enthusiastic in their work. There is a greater opening for foresters on reserves in the west than ever before."

SHOE STORE

ABOUT THE CAMPUS.

Thanks for the items in the boxes
this week.

Miss May Butterfield, '05, is visit-
ing college friends.

It has been "predicted" that M.
A. C. will win the state champion-
ship.

Chauncey Simonds, with '08, was
here last week visiting friends and
acquaintances.

E. I. Dail '02, was a college vis-
itor last week and incidently took in
the big game.

Some of the boys are wondering
if any one has found the trouble-
some squeak yet.

Mr. S. C. Stebbins, '09, is dan-
gerously ill with scarlet fever, at his
home in Lansing.

Prof. Barrows was confined to
his home several days the past week
with throat trouble.

Miss Beryl Legg, in College last
year, spent Saturday and Sunday
with College friends.

Miss Lena Maxwell, former book-
keeper in the secretary's office, is
visiting College friends.

Half-term marks are out. Miss
Bently was kept busy last week
marking A. B. C., etc.

W. P. Ricamore with '03 was
here for the ball game Saturday.
Mr. R. is farming near Detroit.

Have you visited the greenhouse
lately? The chrysanthemum bed
presents a pretty sight just now.

President Snyder, Prof. Smih
and Prof. A. J. Patton are in Wash-

ington this week attending the
meeting of the A. A. A. C. and E.
S.

A fine nine-pound boy has come
to live with Dr. and Mrs. Marshall.
He arrived Wednesday of last week.

Elmer Nicholas, of last year's
track team, is with Lawrence &
Van Buren Printing Co. in the city.

Improvements in the way of grad-
ing and leveling have been going
on east of the mechanical laboratory.

Special attention is called to the
new Encyclopedia Americana of
sixteen volumes, just placed on the
library shelves.

Among those at the game Satur-
day we noticed C. B. Rose, H. D.
Hahn, C. M. Blanchard, W. R.
Shedd, and Newell Snyder.

Frank J. Stahl, '85-'88, is one of
the new proprietors of the Baird
Opera House, the firm name being
Stahl and Williams.

Miss Katharine McNaughton
was with College friends Saturday
of last week. Miss M. is teaching
in the Williamston schools.

J. H. Tryon, who was in college
last year returns for the spring term.
Mr. Tryon is at present switchman
for the M. C. Ry. in Bay City.

The freshman and sub-freshmen
mechanicals have completed their
work in free-hand for the term and
started in on the work of mechani-
cal drawing.

The Y. W. C. A. desires to ex-
press its appreciation of the kindness
of the faculty and Collegeville ladies

who aided in entertaining the dele-
gates Saturday evening.

C. A. Hach was here for the M.
A. C. — Albion game. He is now
with the Saginaw Valley Traction
Co. of Saginaw. His private ad-
dress is 304 North Warren Ave.

Workmen while excavating near
Wells hall unearthed a stone hatchet
and several pots, pestles and other
interesting Indian relics. They
have been placed in the museum.

The Freshmen English class will
produce the "Merchant of Venice"
in the College armory, during
December. The parts have been
assigned but for the present are
kept secret.

The Freshman basket ball team
claim the M. A. C. inter-class cham-
pionship and hereby challenge all
other classes. Address all com-
munications to Captain Robert
Dickson, M. A. C.

The Almanac is a football num-
ber for November. A cut of Capt.
Angell appears on the cover, and a
picture of the present football squad
and several of former captains are
shown throughout the pages.

In the normal institute program
as published last week the following
correction is made: On Wednes-
day evening Hon. H. S. Earle will
speak on The Michigan Highway
Laws and the Changes Needed.

Squires, Albion's crack fielder in
speaking of Saturday's game said:
"M. A. C. certainly has improved
in yelling. Last year they were
rotten, but this year they are the

'candy.'" Praise from a rival is
always acceptable.

An ex-student, when told that
Albion was in a crippled condition,
one of her men even playing while
suffering with a boil on his back, re-
plied, "Why, that's not ing. M.
A. C. has a 'Boyle' on her whole
team, but it don't seem to injure her
plays.

M. J. Dorsey and C. D. Wood-
bury gave a stereopticon talk before
the Junior class on Monday, Nov. 6.
Mr. Woodbury showed slides and
gave a talk on the Grand Rapids
peach market. Mr. Dorsey reported
on the trip to the peach section
around Benton Harbor.

Prof. Fletcher will give two talks
before the State Horticultural so-
ciety,—one a lantern slide talk on in-
fluences that decrease the set of
fruit, and the other a talk on select-
ing nursery stock, illustrated with
samples of nursery trees obtained
from different parts of the country.

Mr. McCue will give a stereopti-
can lecture before the State Horti-
cultural Society on potato spraying.
Mr. Craig will present a paper on
plant breeding with the potato and
tomato. Both have been doing con-
siderable work along these lines and
are now planning experiments in
spraying and plant breeding for the
coming season. The object of Mr.
McCue's experiment is to determine
the practical value of potato spray-
ing in field culture. Mr. Craig seeks
to produce a blight resisting variety
of potato and a rot resisting variety
of tomato.

'02

O. H. Skinner is now located at Wallaceburg, Ont., where he is working with A. N. Clark. He is enjoying his labors and states that M. A. C. is represented there by A. N. Clark, C. F. Jackson, J. Hanselman and W. B. Simons.

'02.

Ernest A. Richmond spent part of the past summer in Colorado and later was connected with the Alpha

Portland Cement Co., near New York City. He is now superintendent in charge of the entire plant operated by the Iroquois Portland Cement Co., at Caledonia, N. Y.

With '01.

Died, July 2, 1905, in Santiago de las Vegas, Cuba. Josephine Spencer, wife of Clift F. Austin, class of 1899. While in the Michigan Agricultural College, Mrs. Austin was with the class of 1901; to her classmates and friends the announcement of her death will bring a sorrow sharp in proportion to the sweetness of spirit which so characterized her life. Deeply loved even by her more recent friends, to those with the closer ties of old acquaintance, or of kinship her loss will be hard to endure. Two little daughters, one two years and a half old, the other but a week old at the time of the mother's death, are left to Professor Austin's care.

'03

The following letter has been received from Glen Sevey '03. "Am getting along as fine as a fiddle. Am in love with my work, therefore we both prosper. I am associated with the American Agriculturist Weeklies—acting editor of the New England Homestead, the eastern edition. I saw Hurd of Orono while at the Maine State fair this year. He is doing fine. Also see Clinton and Gully of Storrs, Conn., quite often. Wessls of Kingston, R. I., called at the office recently." Mr. Sevey speaks of the good work of Pres. Butterfield of R. I. and says, "send young men east". His address is Springfield, Mass.

'04

Howard Severance has successfully passed his examination and received an appointment as teacher in the Philippine Islands. Mr. Severance sails from Seattle, Dec. 5, arriving at Manila Jan. 1. His present address is 6404 Chatham, St. Louis, Mo.

With '05.

M. L. Kingsley has been since last April with the South Park Commission, Chicago. His present title is Engineer of Jackson Park, in which capacity he has taken an active part in replacing two of the World's Fair piers; in building about 1800 feet of shore protection in concrete set on pile foundations; besides constructing several miles of macadam road and cement walks, running sewer and water lines, and the like. With all this he seems to find time to study, and hopes to return to College some time in the future.

Hayden, in Metallurgy—Did you call my name, Hayden?

Thatcher, (before Prof. could answer) what else would he call it.

A. W. W.—In Junior English received a bouquet while delivering his oration, "No Need of Pessimism." The appreciative audience being on the outside.

H. I. Glazier, coming into room 28 at 6:30 p. m., "Where are the members of the fire department that are going to inspect the fire escapes of the Women's Building?" Capt. Kratz said I could go along."

Said Miss Brown who was thirty and coy, "Don't you dare kiss me, Archibald Foy. Don't you do it—it's bad; I shall holler for dad."

What she did was to holler for joy.

ALL MEATS . . .

May look alike to you, but there is a very great difference in the quality we handle and that sold by some other markets. We handle none but the very best. Like the pudding, the proof of good meats is in the eating. A trial will convince you that you ought to trade with us. We make daily trips to the College. BOTH PHONES. Careful attention given to phone orders.
