

The M. A. C. RECORD.

MICHIGAN STATE AGRICULTURAL COLLEGE.

VOL. 12.

LANSING, MICHIGAN, TUESDAY, OCTOBER 2, 1906.

No. 3

M. A. C. 23—OLIVET 4.

M. A. C. won her first game of football on Saturday, defeating Olivet by the above score. Although quite a heavy rain fell during Friday night and continued Saturday forenoon, the field was in good shape for the game. There was plenty of punting and open field work which made the game one of the most interesting ever seen on our field. The visitors were certainly outclassed and outplayed in every department of the game. Their only chance to score came at the very beginning when M. A. C. lost the ball on a fumble near the 25 yard line. Olivet could not gain, however, and Hurlburt made a fine drop kick from this point.

M. A. C. gained consistently throughout, and in punting and handling punts did some very clever work. Three touch-downs were made in the first half by Frazer, Doty and Bowditch, Burroughs securing one in the second. Two fifteen minute halves were played and both were full of good work.

Burroughs was great on defensive work, Small played his usual steady game, while the work of Bowditch in punting and running on fake punts was especially good. The line up follows:

Olivet	M. A. C.
Bishop	R. E. Shedd
Morrison	R. T. Dersnah
Birdsall	R. G. Parker
Barker	C. Moore
Harwood	L. G. Meeker-Campbell-Wheeler
Thomas	L. T. Burroughs
Weed-Stout	L. E. Bowditch
Machtshiem	L. H. B. Frazer
Hadden	R. H. B. Boyle-Dunlop
Thacker	F. B. Doty
Hurlbut	Q. Small

THE DEBATING CLUB.

The Debating club held its first meeting of the term last Thursday evening in room 7 of college hall with a goodly number present.

The question for debate was: "Resolved, that it is for the best interest of the people to close all avenues of trade on the Sabbath."

The judges declared the debate won by the negative.

The following are the questions from which the questions for debate will be chosen during this term.

I. Resolved: That further annexation of territory to the United States is not for the best interest of the American people.

II. Resolved: That the system of creating trustees in our prisons should be abolished.

III. Resolved: That eight hours should constitute a day's work.

IV. Resolved: That the rebellion against a tyrannical government is justifiable.

V. Resolved: That the government ownership of railways is for the best interest of the public.

VI. Resolved: That poverty, rather than riches tends to develop character.

VII. Resolved: That trade unionism operates to the advancement of laboring men, physically, mentally, socially and religiously.

VIII. Resolved: That U. S. Senators should be elected by popular vote.

IX. Resolved: That the annexation of Cuba to U. S. would be for the best interest of the people of that Island.

X. Resolved: That the farmer is more useful and indispensable to society than the mechanic.

XI. Resolved: That our criminal and idle population should be employed in the building of good roads.

XII. Resolved: That the consolidation of rural schools in Michigan by state law is desirable.

XIII. Resolved: That President of United States should be elected by the vote of congressional districts instead of the states.

XIV. Resolved: That the world is improving in morals.

Any student may become a member of the debating club by simply signing the constitution. There are no fees, or assessments and no compulsory debating required of the members.

Any student may be placed on a debate whether member of club or not.

Any student that attends all the meetings of the club as he would a class, and takes part in one debate, may get credit in English 7 c.

Any student desiring to debate on any foregoing questions, should see some one of the program committee.

C. H. GOETZ.

C. P. McNAUGHTON.

L. R. DORLAND.

Any new questions, that any one wishes to have debated either this term or next term, will be gladly received.

SENIOR HORTICULTURAL TRIP.

The recent trip of the senior horticultural students was most successful and enjoyable. The company left Lansing for Grand Rapids over the Pere Marquette Wednesday evening. At 5 o'clock next morning the Grand Rapids market was inspected, and the practical side of marketing fruit and vegetables demonstrated. Differences in the selling value of inferior and excellent fruit could be observed very clearly here. The Pere Marquette train for Fennville was taken Thursday morning. There the party was met by Mr. C. E. Bassett, an M. A. C. man and now secretary of the State Horticultural Society. A trip was made to the famous Morley orchard. The fruit from the fifteen acres of apples of this place sold for \$2,500 this year on the trees, although it is an off year. The superintendent, Mr. Stately, filled the boys with grapes and watermelons, and gave them a very pleasant time. The orchard of Mr. Bassett was next inspected. Here we first met the ravages of the "Little Peach Disease," which is very serious this year in the peach belt. An

(Continued on page 2.)

M. A. C. CHORUS.

All who are interested in singing are invited to join the College Chorus which meets next Monday evening at 6:45 in the college chapel.

The Chorus meets each week on Monday evening for one hour's practice, and in the spring of the year always gives a concert. This year's concert is to be given at the time of the Semi-Centennial celebration, and therefore especial efforts will be made to have a large chorus of at least one hundred and fifty voices, making it possible to give an excellent concert.

The college assumes the financial responsibility of securing assisting soloists and orchestra. It is hoped all old members and many new ones will join the chorus.

Come to the chapel next Monday evening and join! Any who sing are admitted. Four credits are given for the year's work.

While it is early to state definitely just what help may be secured from outside, it is hoped to secure either a Detroit orchestra or perhaps even the Thomas orchestra. The management is also considering the matter with the Lansing Choral Union as to the possibility and advisability of uniting our choruses on this occasion. While a number of our Lansing friends favor this plan, it is, of course, uncertain just what will be done.

'03.

Edna Smith is now employed as teacher in the Middleville schools.

Announcements have been received of the marriage of Frank H. Nickle, '03, to Miss Marion A. Shaw, at Windsor, Ont., August 17. Mr. and Mrs. Shaw are at home at 57 St. Joseph Ave., Trenton, Mich.

LECTURE COURSE.

The committee having in charge the arrangement of the lecture course for this winter are now ready with announcements. Considerable care has been exercised in securing talent and it is believed we shall have one of the best courses ever offered. We give below list of the entertainments as advertised with probable dates:

Schildkret Hungarian Orchestra—probably Oct. 18.

Ernest Wray Oneal, lecture—Nov. 23.

Jacob Riis, lecture—Dec.

Lulu Tayler Gates, reader—Feb. 1.

Maud Ballington Booth, lecture—March 15.

Perhaps no greater speaker has ever appeared on our programs than Jacob Riis and his lecture alone will doubtless be worth almost the price of the course. The Hungarian Orchestra consists of eight members all high class musicians, and you surely cannot afford to miss this the first entertainment. With Miss Lulu Tyler Gates on Feb. 1 will also appear Edith Adams, violincellist; Graham Smith, basso, and William E. Snyder, pianist. Mr.

(Continued on page two)

ALUMNI.

'99.

Jos. L. McDermott is a student in the Kansas University Medical school, class of '07. His address is Buckner, Mo.

Secretary M. A. C. Agr. College, Mich.—My dear Sir:—THE RECORD is always a very welcome paper. We look for it. 2,000 rebel troops camped on our grounds last night. Things are getting lively.

C. F. AUSTIN (Cuba).

'01.

Announcements have been received of the marriage of John B. Stewart to Miss Helen H. Shattuck on Wednesday, Oct. 10, 1906, at the South Congregational church, Grandby, Conn.

Bertha Malone writes from the West stating that she has just proved up on one of Uncle Sam's quarter sections and been offered \$2,000 for the same, but refused to sell just yet. Miss M. is helping her father in the locating business but expects to teach again as soon as a desirable position shows up. She hopes to be present at the semi-centennial. Clarence Moan is now waiting to file on a claim before returning to College. Miss Malone's address is Draper, S. D.

with '03.

Mr. Newman enjoyed a short visit with O. D. Dales during the summer at Niagara Falls, where Mr. D. is employed by the Original Hyd. Power Co. He has been with the above firm two years and is now second man in his line of work. His mother and sister are now with him. Mr. Dales is anxious to meet all M. A. C. people who may come to N. F.

'05.

Clarence Reed is assistant in horticulture at the Maryland Agricultural College, College Park.

Enclosed please find \$.50 for a year's subscription to THE RECORD. I again gladly welcome its weekly arrival for it seems like meeting old friends again.

Hoping this, the semi-centennial year of our Alma Mater, may be a banner year in its history, I remain sincerely,

FRED B. HOWARD.

I beg pardon for not sending in my subscription more promptly. With over 100 Freshmen and half as many Sophomores to look after in either lecture room or laboratory and lots of other things to tend to I find myself pretty busy; but when the RECORD comes I always figure that I have sufficient excuse to postpone other things long enough to read about M. A. C. and her students. Regards to the fellows (girls included).

Yours very truly,

V. R. GARDNER.

'06.

C. A. Willson is at Manhattan, Kans., where he has a position as assistant in agriculture.

TUESDAY, OCT. 2, 1906.

SUBFRESHMAN LETTERS.

ENGLISH DEPARTMENT.

Agricultural College, Mich.,
9-25-'06.

Dear Sister:

I will describe the class rush which occurred Saturday afternoon between the freshman and sophomore classes. Their preliminary work can be compared very favorably with the actions of barnyard fowl.

The two classes yelled defiance at each other very much as strange roosters will crow defiance at each other. You have often noticed that ducks and geese will form in line when in search of water, usually waddling in single file. Each class formed somewhat in the same way and marched about the campus in single file to show their relative strength. After they had marched around for sometime, they formed in a semi-circle and seated themselves on the campus, to proceed with an arranged program.

Wrestling was the first event on the program. This event was won by the Sophomores. They lost the heavyweight match, but won the two lightweight bouts. The tug-of-war was very exciting and was also won by the Sophomores. Flushed with victory the Sophomores tied their class flag around a tree about ten feet from the ground, then arranged themselves in regular form, about ten feet from the tree, to meet the on-coming Freshmen. Their defense was well planned, but superior force of numbers was too much even for the Sophomores.

A Hurrah! a rush and trampling of many feet, then a crash, followed by a cheer from the Freshmen, who were rapidly gaining headway toward the coveted flag. One by one they vaulted to the shoulders of the now almost helpless Sophomores, and grasping the flag tore it from the embrace of the defenders.

This was followed by much cheering, then silence. The hearts which were joyful and gay with victory, were now heavy, and silence reigned with defeat in the ranks of the Sophomores.

Lovingly your
(SUB-FRESHMAN) BROTHER.

Olie Burk called on College friends Sunday, coming to Lansing on the excursion.

A PAGE FROM A DIARY.

(Imitating Bunyan's Style.)

* * * As I walked along the road the two forces fought their battle in my heart, and each wanted to capture my will. The evil one kept on hollowing in a loud and bold voice: "He has done thee wrong and thou must avenge him." And he pictured in my mind how I was treated badly, one which made my blood hot and my heart sore.

At this very time I heard from one depth of my heart a low and tender voice saying gently: "But I say unto you love your enemies, do good to them who hate you, and bless them that curse you." But the fiend was strong and bold to the uttermost; and he laughed and cried out loudly: "Weakling, coward, thou art afraid of thine enemy and dost not dare to go against him."

And with that the good spirit brought into my mind the picture of Him of whom we often say "Ecce homo." And as he turned to me his loving eye and sad face my heart mellowed and the evil one was beaten and sped him away.—A STUDENT.

GRANDMOTHER'S FARM.

As I look back over the years when I was free from cares it seems to me that grandmother's place gave me the most pleasure. The house is large and of a colonial style with long broad porch on two sides. Inside the rooms are many historic articles receiving their value from the war.

Just away to the left is the large orchard containing the choicest and best known varieties of fruit. At one end of the orchard was the water-melon patch, which was of use and happiness to us. It was a source of great pleasure to eat a part of a melon here or there, and then wander through the long rows of apple trees, eating the sweetest and biggest apples.

After the orchard, the barn seemed next in supplying us with fun. In the mow we rolled in the hay, burying each other in turn till forced outside by the thick, dusty air. At night when the horses came in was the most interesting time in the barn.

One other sport was to get a cup of corn and feed the chickens. When they fluttered about our feet we would, by a quick move, catch one, and then repeat the operation.—O. S. V.

Maxwell's Talisman is a 16 page monthly publication now in its sixth volume and is fast gaining a wide reputation and circulation. The creed of the Talisman is education, co-operation, opportunity, and home on the land. Mr. Maxwell is interested in the work of M. A. C. and offers to place a certain number of free yearly subscriptions among the students, teachers and alumni of the institution, requests for these subscriptions to be received and forwarded by the forestry department. Any one in the classes mentioned desiring to take advantage of this liberal offer should communicate their wishes to the forestry department at once. Those who heard Mr. Maxwell's address at the last commencement will appreciate this offer.

M. P. Willett called on College friends yesterday while on his way to Bay City.

Senior Horticultural Trip.

(Continued from page 1.)

interesting point was the excellent results Mr. Bassett has secured with sour cherries on a sand dune, which has thus been made profitable. Several other orchards were visited in teams and the party was the guest of Mr. Bassett at the hotel Thursday noon. They all appreciated his hospitality and kindness in entertaining them.

Thursday afternoon we left Fennville for South Haven. We had time at Hartford for an hour of "Duck on the Rock." The basket factory was visited and the details of the work explained. On the following morning, the party inspected the State Experiment Station. It contains over one thousand varieties of fruit, and it is considered the best fruit testing station in the country. Mr. Wilkens, the superintendent, was liberal with grapes and cantelopes. Interesting features were the Wind-break and Japanese chestnuts. The excellent condition of the station attested the thoroughness of its management.

Hon. C. J. Monroe, the president of our board, took charge of the party for the rest of the day. A visit to the South Haven canning factories proved to be a very interesting feature of the trip. One of these factories handles ten thousand bushels of peaches a day. Mr. Monroe had arranged for the proprietor, Mr. Dunkley, to explain the process of canning from beginning to end. Another smaller factory was also visited.

Friday afternoon Mr. Monroe gave the party a ride to Covert and back. There we visited two of the best orchards in the section. At the first orchard, which is owned by Mr. Monroe's son, we saw a block of sixteen year old peach trees in perfect condition. The excellent care they received was testified by the grading machine which we saw in operation. This turned out for that day, 285 bushels of firsts and only 11 bushels of seconds. Mr. Monroe's own orchard at Covert was visited and the eighteen year old trees found to be in a remarkable state of preservation, largely due to the renewing of the tops by heavy cutting back a few years ago. It is a pleasure to know that the president of our Board is a practical and successful fruit grower.

Returning to South Haven Friday evening, we took Mr. Monroe's farm wagon to his home about three miles from the city. On the roof of his house, we had a panoramic view of the greatest fruit district in Michigan and our host pointed out favorable sites for fruit and explained the reasons. Mrs. Monroe presided over a bountiful table after which we spent a pleasant evening with our host. A jolly crowd rode back to town under a large canvas secure from the rain. We enjoyed a very pleasant and profitable day.

Through the kindness of Mr. Monroe and Secretary Bassett, the Chicago & South Haven Line granted us transportation by boat to Chicago. Saturday morning we studied the South Water Street market, including other styles of fruit packages, methods of expressing the fruit, etc.

Mr. Prost, M. A. C. '05, now took charge of the party for the remainder of the day. We went through several of the city parks and Mr. Prost pointed out many of the important features in park

building and maintenance. The excellent nursery of ornamentals of Leesley Bros. was inspected, followed by a glance at Rheinberger's immense greenhouse establishment where one man has as large an area under glass as is included in the center of our campus. The famous Graceland cemetery was the most interesting feature of the Chicago trip, as it represents the highest type of Landscape Art. We met Mr. Simons who was here last spring to prepare plans for our campus.

We left Chicago at 3 o'clock Saturday and reached Lansing at 9:30 o'clock. The total cost of the trip was \$11.50. It was time and money well spent. We appreciate the efforts of Dr. Fletcher to make this an interesting and profitable trip.

Lecture Course.

(Continued from page one)

Oneal lectures on a variety of subjects and has certainly been well received wherever he has appeared. Maud Balington Booth on March 15 is a well known and popular lecturer and hardly needs an introduction.

Tickets will be on sale at the Secretary's office, and the book store. Season tickets \$1.25. Single admission 35c. Let everyone help to make this course a success by purchasing a season ticket.

'06.

M. J. Dorsey has been elected to the position of assistant in horticulture in the Maine Agricultural College located at Orono.

J. G. Cavanagh is with the Rock Island Ry. Co. He states that there are three in the party with 800 miles of track to look after. He says, "I have worked in three states in one week, Iowa, Minnesota, and South Dakota. Am enjoying the work very much." His address is 721 E. Maple St., Estherville, Ia.

K. B. Stevens is now with the Platt Iron Works of Dayton, Ohio; the company builds turbines, pumps, condensers, Corliss engines, etc., and is quite an extensive plant. In the drafting room of this company Mr. S. found Yates, Balbach, and Cass Lamb. Mr. Steven's address is 43 W. Herman St. Before going to Dayton he worked two months in the drafting room of a grain elevator construction company at Chicago, where he found Locke, Kingscott, Poole, Adams, Hebblewhite, Hagany and Moon.

Wells, Williams and College Halls are now lighted from our own plant, but on account of delay in receiving wire it has not been possible to go ahead with other buildings. The work of placing motors is now on, and they are being installed in the farm barn, chemical laboratory, veterinary building, and farm mechanics building. As soon as current can be extended one will be placed in the dairy, one in the carpenter shop, one in the coal shed to be used as power for hoisting and three are to be placed in the shops. This is certainly making use of our new plant and by this time it is hoped that all needed wire will be on hand so that the work of extending same to other buildings along the tunnels may be completed.

E. H. Taylor, '07 e, was called to his home on Friday last on account of the death of an aunt.

HOLLISTER BLOCK

ABOUT THE CAMPUS.

H. H. Crosby is ill with typhoid fever at his home in Three Oaks.

A gold link cuff button has been found and left at the RECORD desk.

Mrs. Marie Bellis Johnson '99, of Chicago, spent several days on the campus the past week.

W. L. Lodge of Kingston, Ont., elected instructor in physics, arrived at the college today.

Miss Caroline Holt of the drawing department was ill at her home in Lansing the past week.

The little Hort. greenhouse has been turned over to the botanical department for plant physiology this term.

Mrs. Geo. Krentel, who has been quite ill at her home in Collegeville for several weeks, is much improved.

We shall attempt to publish a complete list of the names and addresses of the 1906 class in next week's RECORD.

The work of changing the roadways is progressing, the second crossroad west of the Library now receiving attention.

Miss Lauretta Hendricks and Miss Louise Mans, both special students last year, are now teaching in the Detroit schools.

The Aurorian society has chosen the room in Ward E, new Wells; the Eunomian Ward D, and the Phi Delt, Ward F.

The King's Daughters will meet with Mrs. Krentel, Wednesday at

2:30 p. m., when report of delegates will be given.

The room in Ward A, fourth floor, Wells Hall, has been wired for lights and will be used by the band as practice room.

The senior foresters are measuring the trees in the pinetum and discover an exceedingly large growth during the past two years.

Remember the chorus practice on Monday evenings 6:45 to 7:45. It is hoped that we may have the largest number ever entered for this work.

The continued fair weather is advantageous to the contractors who are pushing the work of the new engineering building along very rapidly.

Graduates who have returned for the work in "Education," as adopted last year, are Grace Taft and Alta Gunnison, '05, and Rosamond Kedzie, '06.

The forestry club will meet at Prof. Bogue's home Thursday evening for a social hour. All students interested in forestry are cordially invited to be present.

J. E. Fisk has been elected manager of the "Bach. Hall Bunch," and A. R. Kohler, treasurer. Samuel Hadden was also elected manager of athletics for instructors.

The Schoolmaster, the first volume of which has just been published, is a monthly journal devoted to the entire school interests of Michigan. It is published at Saginaw.

The sophomore class in agricultural physics inspected the road machinery and road construction recently, which was explained by the road builders, and incidentally had their picture taken as a class.

Jacob Reed & Sons of Philadelphia have been given the contract for military uniforms again this year. New students were requested to report at the armory for measurement on Thursday of last week.

The "Bach Hall" boys gave a spread in the room of Webber and McWethy on Saturday evening. The evening was spent in visiting and story telling. The boys will take a trip to Pine Lake next Saturday.

Instructors A. C. Anderson and H. Norton were in charge of the college exhibits at the Midland fair the past week. This week they are at Hillsdale. These exhibits are the same as were shown at Grand Rapids and Detroit.

The question of resuming the meetings of the botanical club has again been raised, and much interest shown. Dr. Beal, Mr. Gunson and Mr. Lawrence are ready to give any possible aid. All those interested please see Dr. Beal this week.

Mr. E. H. Parker, who for several years has had charge of the janitor work in the Bacteriological building, has accepted a similar position at the State Dairy and Food Commissioner's headquarters in the city, and began his new work yesterday.

J Lee Baker '07 has issued a

very neat "M. A. C. Guide and Reference Book" for the use of college people in general. The book not only gives useful information concerning M. A. C., but mentions many of Lansing's places of interest.

After considerable correspondence Mrs. Landon has been able to purchase the five volumes of Harper's Weekly covering the period of the Civil War. This is a very rare combination and gives a history of that period such as is not found in any other publication.

M. A. C. goes to Alma for a game next Saturday. It is understood that Alma is light this year, but they are also fast and the new rules will therefore not work any serious injury to the game with them. The relations between the two colleges have always been most friendly and the playing fair and square. If Alma wins it is perfectly safe to say that she will win on her merits. If M. A. C. wins we hope Alma can say as much.

The Hort. club met Wednesday evening September 27, for the first time this term. The time was spent in listening to talks given by members of the present Senior Hort. class, who described the many places they visited on their trip to Grand Rapids, South Haven, and Chicago. The meeting was well attended and all appreciated the instructive talks given by the Senior. Another program will be given next Wednesday evening, Oct. 3. All are cordially invited.

NEW STUDENTS

Entered for fall term, September, 1906.

Allen, Grant G., a, Milan.

Hale, Paul B., a, Eaton Rapids.
Hale, Sherman S., e, Memphis.
Hall, Claris H., a, Eaton Rapids.
Hall, Lulu P., w, Lansing.
Hallam, Henry L., e, Marquette.
Haller, John M., e, Sault Ste Marie.
(Remainder of list next week.)

Don Skeels, a former special forestry student, is now in charge of a government forestry reserve near Bozeman, Mont.

A long letter has been received from H. N. Hornbeck, '04, teacher of science in Traverse City. Mr. H. was married on June 20 last at his old home near Newaygo. He expects to return next year and pursue a course for the M. S.

The work in psychology is proving very popular, twenty-two students having enrolled for the subject. Three of this number are men. This subject will be followed in the winter term with Science of Education and in the spring with the History of Education.

There are some six M. A. C. men on the faculty or station staff at Kingston, R. I., at the present time. They are: President Edwards; L. J. Cole, '94, Chief of Division Pathology; P. H. Wessels, '05, First Assistant Chemist; J. E. Schaefer, '05, Instructor in Horticulture and in charge of the new \$15,000 greenhouse; Thomas A. Chittendon, '98, Assistant in Mechanical Engineering; and J. Willard Bolte, '05, Assistant Professor of Animal Industry.

CHICAGO M. A. C. ASSOCIATION.

Mr. Homer C. Skeels, '98—the backwoodsman, has invited the M. A. C. Association and its friends to enjoy an outing at the "Forest of Arden." The "Forest of Arden" is a beautifully developed country estate, and its hills and valleys, forests and meadows form a glorious landscape.

Let's all go. 'Twill be a rare pleasure to see this place all aglow with the autumn colorings of its trees and shrubs, and a fitting place to talk about good old M. A. C. and the dear old campus. So chuck your baskets chuck full of chuck and be at La Salle St. Station at 11:45 a. m. on Sunday, Oct. 7, 1906. In case it rains we will go one week later, Oct. 14. We will return leaving Cherry Hill at 6:15 p. m. If we all go, we can have a special car all to ourselves. The fare will be adults \$1.00, children 50 cents for the round trip. Carlton R. Dart, '81, president; William R. Rummler, '86, Vice Prest; J. H. Prost, '04, Secy.; Philip B. Woodworth, Permanent Secy., 5808 Ohio street. Entertainment committee, G. W. Williams, '96; J. W. Perigo, '94; S. J. Kennedy, '01; Homer C. Skeels, '98.

ALL MEATS . . .

May look alike to you, but there is a very great difference in the quality we handle and that sold by some other markets. We handle none but the very best. Like the pudding, the proof of good meats is in the eating. A trial will convince you that you ought to trade with us.

We make daily trips to the College.
BOTH PHONES. Careful attention given to phone orders.
