The M. A. C. RECORD

ESTABLISHED IN 1896

Entered as second-class matter October 30, 1916.
at the post office at East Lansing, Michigan,
under the Act of March 3, 1879.

Published every Friday during the College Year
by the Michigan Agricultural College
Association.

E. W. Ranney, '00, Greenville	Pres.
A. B. Cook, '93, Owosso	Vice-Pres.
F. F. Rogers, '83, Lansing	Treas.
R. J. McCarthy, '14	Secretary

Members of Executive Committee.
Elected at Large:

Henry T. Ross, '04, Milford.
Mrs. Dorothy Lillie Crozier, '17, Grand Rapids.
Horace Hunt, '05, Jackson.

MEMBERSHIP IN THE M. A. C. ASSOCIATION
which includes subscription to the
Record, \$2.50 PER YEAR.
Make Remittances payable to the M. A. C.
Association.

Unless members request a discontinuance it will be
assumed that a renewal of membership is desired.

PLAN EARLY START ON BUILDING

Committee Decides on Campaign for Union Memorial

Long-awaited, the Union Memorial building is soon to be an accomplished fact. A group of prominent alumni, composing the executive board of the M. A. C. association, met at the Flower Pot Tea room early last month and voted to renew the campaign for funds this winter and start building next June. It will mean a period of intensive work when all efforts of both students and alumni must be turned toward the goal of gathering about \$400,000 so that the aim of the originators of the scheme may be carried out. The sum which will be sought is very small in comparison with the amount which other colleges have raised in shorter lengths of time.

The rapid expansion of the college, which is contemplated, makes more imperative the need for such a building and the alumni recognized this necessity in setting their mark for almost immediate building operations. New plans are being prepared to include all of the improvements which have been developed since the early design was offered. The experience of the architects since that time will be valuable as they have planned similar buildings for several colleges and have had the opportunity of seeing how their theories work out. W. O. Hedrick, of the plans committee, has made arrangements for Pond & Pond to make a restudy of the situation and present their recommendations to the committee. This can probably be effected within a short time.

The minutes of the executive committee meeting on September 13 follow:

President Ranney called the meeting to order in the Flower Pot Tea room at 4:00 o'clock. Those present were: President Ranney, Treasurer F. T. Rogers, and the following members of the executive committee: Henry T. Ross, '04; Horace Hunt, '05; G. V. Branch, '12; A. C. MacKinnon, '95; Arthur Wolf, '13, R. V. Tanner, '09, proxy for Washington, D. C., Association; H. M. King, '18; W. O. Hedrick, '93. Proxies were in the hands of the secretary from the Milwaukee Association, and Mrs. Dorothy Lillie Crozier of the executive committee.

President Ranney directed that the secretary write Mrs. Drolett that the association accepts the proffered gift of the Flower Pot Tea room equipment and on motion of Mr. McCarthy it was also decided that in case there was a deficit not to exceed \$300 in the funds of the council that this amount be paid from

the Memorial Building account of the association.

On motion of Mr. Branch a special class of membership was established so that alumnae would retain their standing in the association in case they married alumni. The yearly fee for the couple was fixed at 4 to include one subscription to the Record and dues for both in the association.

Mr. King moved that a committee be appointed to investigate the Barrows residence as the future home of the M. A. C. Union and alumni office, with power to expend \$1500 from the Union Memorial Building fund for furnishings and equipment which could be transferred to the Union Memorial Building upon its completion.

The secretary was authorized, upon motion of Mr. Branch, to make trips to Ohio State, Purdue and Ann Arbor to study the campaign methods followed in obtaining funds for union buildings at those institutions.

W. O. Hedrick, '93, reported for the plans committee that Pond and Pond, the architects, are now in a better position to plan a Union building for M. A. C. than they were previously for, during the past two years, the experience of the University of Michigan and other colleges with propositions of this sort has pointed out many weak spots in the first plan. It was deemed advisable by the committee that a new study of conditions here be made by the architect and that new plans be formulated to correspond with the results of the investigation. Prof. Hedrick thought that this could be accomplished within a month.

It was accepted as the desire of the committee that the goal of the campaign be placed at \$500,000 as previously fixed but that plans be made so that one unit of the complete building could be built from the funds which will be in the treasurer's hands by next June. It was believed possible that \$200,000 or more in cash could be collected by that time and that with this on hand arrangements could be made to construct a \$200,000 building as the first section of the contemplated structure.

There was a general discussion of the plan of campaign and it was agreed that this could be better fixed when the building plans were complete and the preliminaries in working order.

Adjournment.

V. R. GARDNER HEADS HORT. DEPARTMENT

Victor R. Gardner, who took charge of the Hort department at the beginning of this term, was a member of the class of '05. Since leaving M. A. C. he has had a great variety of experience and has done extensive teaching and comes here after having been professor of horticulture at the University of Missouri for some time. Mrs. Gardner was Bernice Jackson, '05. F. C. Bradford, who is added to the M. A. C. staff as research associate and associate professor, has worked with Gardner for some time, serving with him at Oregon and Missouri. He also collaborated with him in writing "Fundamentals of Fruit Production," a textbook for upperclass work which is regarded as one of the best.

E. P. Lewis is a new member of the department as is also H. M. Wells. The former comes from the teaching force of the University of Illinois and is a graduate of Purdue and the latter is a graduate of Ohio State.

Prof. C. P. Halligan has been appointed head of the department of landscape gardening.

'14 ENGINEER TAKES STATE BAR EXAMS

Nearly 240 law students, several of them women, took the state bar examinations at the college for three days beginning Tuesday, Sept. 19. Among those who aspire to the title of attorney is Philip C. Baker, '14. Baker received his B. S. in engineering here then attended Massachusetts Institute of Technology where he was granted advanced honors. Since that time he has had an opportunity to study law and will use his knowledge of the legal profession in the real estate business in which he is engaged with his brother, J. Lee Baker, '07, in Detroit.

One of the members of the State law examining board is Lincoln Avery, '82. He has occupied that post for ten years and is now an attorney in Port Huron.

Professor H. M. Eliot, formerly head of the farm management department, has gone to Washington, D. C., where he will continue work along that line with the department of agriculture.

Work will soon be completed on the house which was occupied by former Secretary Brown and President Friday will move in. Within another month Secretary Halladay will have taken over the old Dr. Beal residence in which Dr. Bessey has been living for the past ten years.

Steam lines have been laid to the houses along Faculty Row so that they can be heated from the college plant.

C. A. REED IS HELD UP BY CHINESE OUTLAWS

C. A. Reed, '05, now in China for the U. S. department of agriculture, had some thrilling experiences with the mutineers of Peiyuan while making a trip in the interest of his work into the troubled regions of the great Celestial Empire. The North China Standard, published in Peking, recounts his story in a column article in the issue of August 25, excerpts from which follow:

Mr. Reed and Professor Chamberlain, of Peking University, left Tuailai on August 15 for a visit to the Trappist Monastery at Yungping, and arriving there on Thursday afternoon spent the night at the Monastery. On the following afternoon they left for Mentoukou, and crossing the Great Wall arrived at Hsiaolungmen where they camped for the night. They learned that the villages ahead of them were in the hands of four hundred Peiyuan mutineers, but made an early start next morning. After an hour's ride they were informed by peasants that the town they were then approaching was in the hands of the mutineers, and on arriving at its wall found a sentry on duty. This man, however, made no attempt to interfere.

On leaving the next town the party had not gone more than a few hundred yards when a shot was fired from the village. Several other shots followed, and the party halted to await developments.

They were overtaken by some eight or ten unkempt looking soldiers led by a man who wore civilian clothing. These crowded around them and proceeded to ply them with questions. One of the soldiers apparently burned to possess Mr. Reed's field glasses and finding his own demands ignored called the attention of his leader to them. The latter requested that they be handed over. A brief inspection, in the course of which he made no attempt to focus the instruments, apparently satisfied him, and they were returned to their owner.

Shortly afterward the party was allowed to proceed. No further trouble was encountered but that evening, as evidence of the treatment given by the mutineers to some of those who displeased them, the party found a newly sealed coffin beside the road. A spot of ground nearby was stained with blood, and it was learned that the body within was that of one of three men who had been brought thither from a neighboring village and shot in cold blood.

(Mrs. Reed (Katherine McNaughton, w'05), and their infant daughter, Betty Jane, accompanied Reed to China, but from the story apparently were not included in the party which encountered the mutineers.)

Is every M. A. C. grad or former student in your vicinity a member of the association? In numbers there is strength.

BOWD DESCRIBES H. E. BUILDING

College Architect Tells Details of Plans

Architect Bowd, who prepared the plans, submits the following description of the new Home Economics building as he has designed it. He states that changes in some of the details are probable but the general scheme of construction is being followed by the builders. This will add one more to the group of Gothic buildings on the campus and the elevation drawing promises a structure of unusual beauty. Almost facing it will be the new library of a similar style and as new buildings are added there will be further examples of the same type until the campus circle will have achieved an enviable goal of art. His description follows:

The Home Economics building is 200 feet frontage and 120 feet deep, four stories in height. The architecture is Gothic, of the Tudor period. The structure is of reinforced concrete, faced with Rose Mission brick with sandstone trimmings and slate roof.

The main feature of the building is the wing at one end with a Gothic tower. In this wing is located the main entrance on the ground floor, opening into a lobby which gives access to the main staircase to the first, sec-

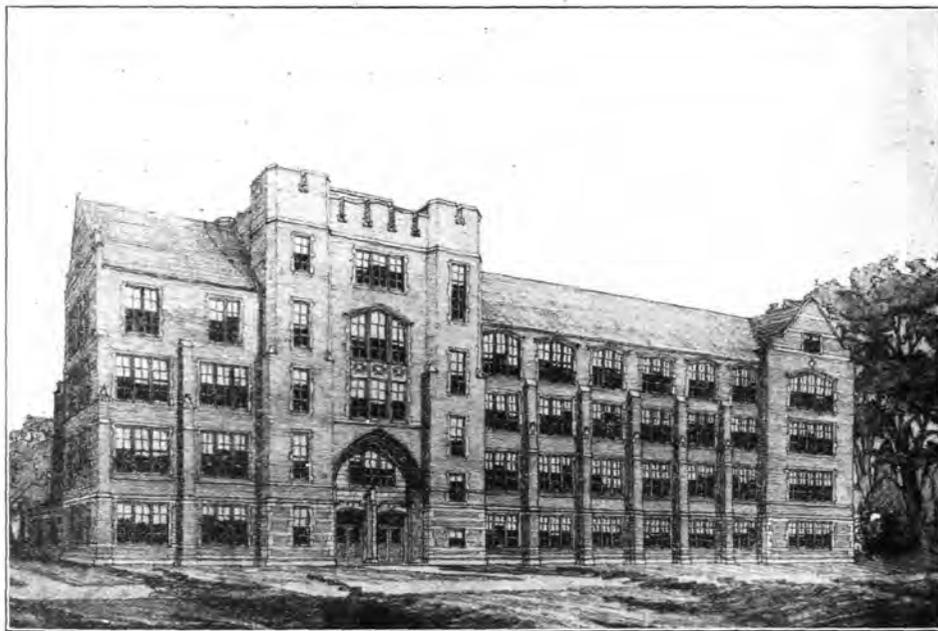

ond and third stories, the elevator, coat rooms, main corridors and cafeteria.

The cafeteria is 38 feet by 78 feet, with office, serving rooms, kitchens, pastry rooms, refrigeration and storage rooms and help's quarters. On the south side of the corridor are the food laboratories, dining room and storage.

The first floor contains the main offices for the dean and assistants, conference and library rooms, nutrition laboratories and class rooms. On the second floor are the child care rooms, clothing and millinery laboratories, class rooms and seminar. On the third floor are the textile laboratories, testing and research laboratories, design rooms, a large assembly room 38 feet by 78 feet, and the practice rooms, consisting of a living room, dining room, kitchen, bedroom and bath.

The living quarters for the caretaker are located in the tower.

The main corridors are 10 feet wide, well lighted, with toilets opening off same on all floors. The building is ventilated by a fan system, the fan room being located in the basement and is heated from the main central plant, with direct radiation.

Elevation Drawing, South Side of Home Economics Building

VIEWS AND COMMENT

There is great satisfaction in having a home. Early this month the alumni office will be moved to the Barrows residence, 3 Faculty Row, to occupy better quarters than it has ever known. There student activities will center, student committees will have a place for their meetings, alumni will have a place to gather and the spirit of a Union building will be carried out insofar as it is possible with the limited space at our disposal. The new location will be directly on the route to College Field, and while not so readily accessible as the old office, will have greater attractions to induce returning alumni to make the short trip up Faculty Row from the post office.

This is a desirable step in the affairs of the association along the route marking its progress toward its goal of influence and strength. Homes are the foundations of the nation no less when they represent the headquarters of an association than when they are the abiding place of the citizen. It is a rallying point where the returning alumnus or alumna is always welcome, from which the functions of the organization can best be carried out and where the life of the college will come into contact with the sentiment of the graduate body. It is an achievement worthy of note for which a great deal of credit is due President Friday and Secretary Halladay, whose staunch support in the face of a building shortage has made the consummation of the plan possible.

Now that we have a home there will be the necessity of making full use of it. Inspect it when you return to the campus.

It is hard to keep in touch with many of the members of the association and former students who are not members. Files of all these are kept at the alumni office and it is important that we have full information of all who should be connected with the organization. If there are any such people in your neighborhood help us to get into communication with them. When you talk to a former Aggie inquire into his affiliations with a branch association and whether or not he is a member of the general association. Keep the ball rolling. With a renewal of the campaign there will be more need for a complete list of all who ever attended M. A. C. They will be interested in our constructive program. Send in the names and addresses on your blue slip or write us a letter, we will appreciate your efforts.

Plans for the new library include space for 250,000 books; plans for the college contemplate enrollment of 5,000. How many freshmen have you lined up?

Heartfelt devotion and full cooperation is a small price for an institution to ask for the priceless advantages it gave to you for which you never could pay in money.

President Friday tells the farmers they must replace their poor producers with units of higher standard. The units of this association are the individual members; they have the power of increasing their own efficiency as supporters of the organization. We need the best you can give.

An alumnus has sent into the association office a long article stressing the necessity for neighborly cooperation, with it he gave notice of his desire not to be considered further as a member of the M. A. C. graduate family. Neighbors are those with common interests; miles of space cannot change that status. His withdrawal refuted his own argument.

NEUROLOGY

Earle Horton Meyer, '13, died September 11 at the Roosevelt Legion hospital at Battle Creek after a long illness. Meyer was a graduate of the civil engineering course in which he maintained a high standing throughout his career here. He was a member of the engineering society and was elected to Tau Beta Pi. His home was in Ewart, Mich.

He returned to M. A. C. as an instructor in civil engineering shortly after graduation and left here to accept a position with the engineering corps of the Pennsylvania railroad in 1916 with which he was connected when war was declared. He attended the first officers' training camp, was commissioned a first lieutenant and assigned to D company, 113th Engineers at Camp Shelby, Miss. He served with this unit in France and was discharged from the service June 10, 1919.

His health had been poor ever since his separation from the service but he joined the forces of the J. M. Preston company in Lansing and worked there until last May, when he was ordered to the hospital in Battle Creek because tuberculosis had set in.

He had a pleasing personality and was well liked by those with whom he came into contact. Those who knew him best say that he paid the price of his service in the war without begrudging the cost, the type of man who should wear the laurels of fame.

“Close Beside The Winding Cedar”

L. B. Mayne and Louis Waldo, formerly instructors in the English department, have gone to Europe to continue their educations.

In the years to come those who help build the Union Memorial building will be looked upon with the same spirit as those pioneers who erected old College Hall. Are you entitled to claim a share in the work.

Sgt. H. O. Tracy, who has been connected with the college military department for the past year, has been placed on the retired list and has left East Lansing to take up his duties as the vice-president of a motor sales organization in Columbus, N. M.

A training table has been established in the basement of the gymnasium. Assistant Director Frimodig says that preparations are being made so that all athletic teams will eat there. Room has been provided for sixty men and two cooks will minister to their needs.

A feast for the hundreds of campus squirrels was provided this fall by the large beech tree which stands immediately in front of Abbot hall. Bushels of nuts were borne by this monarch of the forest which produces a crop only at intervals of four or five years.

Two early fall visitors to the old campus who hadn't seen it since graduation were P. Edward Geldhof, '14, and H. J. Buell, '15. Geldhof is a mechanical engineer with the Syracuse Washing Machine Corp., Syracuse, N. Y., and Buell is in the produce business in Indianapolis.

P. B. Woodworth, '86, who practices law and is president of Rose Polytechnic Institute in Terre Haute, Ind., has found a most unusual means for training his students in mining engineering. Coal has been discovered on the new campus of his school and the newspapers report that President Woodworth will give them practical experience by having them do the actual work of production.

M. E. Bottomley, '16, has been appointed an instructor in the landscape department at Iowa State College. He and Esther Parker Bottomley, '17, stopped at the alumni office on their way to Ames. R. G. Bigelow, '16, assistant professor of shop work at Northwestern university, is another who registered. M. B. Eichelberger, also a '16 man, has been doing commercial engineering work in Baltimore for several years and goes to the faculty of the U. of M. this fall. He says he will be in a rather difficult position when the Aggies go to Ferry Field November 4, but the dictates of his heart will undoubtedly conquer the claims of his new allegiance.

Dean Kedzie, who was seriously ill during the summer, has recovered sufficiently to return to his desk and greet the new and old members of his science division as well as the student body in general.

C. A. Wilson, '06, vice dean of the college of agriculture, University of Tennessee, and Bertha Wellman Willson, '96, also returned for a glimpse of their alma mater, as did W. D. Frazer, '09, a major in the coast artillery corps stationed at the University of Washington, Seattle.

Dr. Alexander Borland is the new head of the M. A. C. health service. His experience has been largely in public health work and he has also conducted a general practice. The staff of the department will remain unchanged with Miss Hand as secretary, Mrs. LaPrelle as matron of the hospital, and Miss Parker as nurse.

John W. Rittinger, '94, superintendent of schools in St. Joseph county, Indiana, has prepared a booklet giving a wide range of information concerning the educational work carried on in that county, the state laws governing the schools and recommends certain improvements which should be carried out to better the system.

A new golf club with Dr. O. H. Bruegel as president has been organized by Lansing and East Lansing citizens and is preparing to lay out links and erect a clubhouse on the farm which was owned by the late President Emeritus J. L. Snyder, just west of the college community. A prominent architect has been engaged to construct the course.

The Michigan conference of the Methodist Episcopal church recently voted \$150,000 for use in religious educational work at M. A. C. \$25,000 will be contributed to the construction of the state normal schools. Of this sumtion of the new People's church which will be erected west of the Phi Delta house at a cost of \$175,000. Congregationalist, Baptist and Presbyterian bodies will each give a like amount.

Under the guiding genius of Professor Gunson the campus took its best appearance as a welcome to the new faces and in honor of the older ones as they came to college for the opening day of the fall term. Flower beds were carefully groomed, shrubbery made to look its best and the velvet stretches of grass throughout the campus testified to the meticulous care of the genial task maker who has guarded the natural beauties of M. A. C. over a long period of years.

NEW FRAT. LEADS SOCIETY STANDINGS

According to Miss Yakeley's compilation of the marks of the members of the different societies, Alpha Gamma Rho, a new men's organization with national affiliations, leads the list with an average of 2.5953, then follow five girls' societies with the Letonian leading. In computing the standings Miss Yakeley took the term-end marks for the regular college year for each student, gave "a" a weight of four, "b" three, "c" two and "d" one. The total was then taken for each society on this basis and divided by the total number of marks which the members of that society received.

The highest average represents a generous "c plus" while the lowest is very close to "c." The standings follow:

Society	Average
Alpha Gamma Rho	2.5953
Letonian	2.5714
Ero Alphan	2.4973
Alpha Phi	2.4267
Sororian	2.4838
Themian	2.4127
Eunomian	2.4086
Forensic	2.3828
Trimoira	2.3793
Delphic	2.3499
Hermian	2.3104
Columbian	2.2814
Aurorian	2.2625
Dorian	2.2500
Phylean	2.2431
Union Literary	2.2152
Alpha Gamma Delta	2.2148
Orphic	2.1723
Sesame	2.1133
Eclectic	2.0654
Hesperian	2.041
Phi Delta	1.9901
AeTheon	1.9809
Olympic	1.8975

The foundation and groundwork of the home economics building are almost complete. As soon as this work is finished the crew of men working under the direction of the state construction superintendent will be transferred to the site of the library to get that under way.

Now that the alumni office is about to desert the old car station a little of its ancient history may be revealed. It was, years ago, the woodshed at the rear of Howard Terrace and, with a few changes, has been successively, postoffice and bookstore, alumni office, waiting room and tearoom. When it blooms into a restaurant few of its old features except the general shape of the structure will be recognizable.

SHERBURNE AT HEAD OF MILITARY DEP'T.

Lt-Col. T. L. Sherburne, who comes to the military department to take command of the college units, is a cavalry officer with a long record of experience in the army. He is a native of Louisiana, a graduate of the state university there, and entered the army as a second lieutenant of volunteers from that state in 1898. He served until 1901 in the Philippine insurrection and saw plenty of action. In 1901 he was commissioned a second lieutenant in the regular army. Since then his peace time service has included five years in the Philippines, time in China, Alaska, Panama and Cuba, and he accompanied Pershing on the punitive expedition into Mexico in 1916.

During the World war he had the unusual experience of serving in six major operations. Part of this time he was with the noted Second division and later he was a signal officer of the Fourth division. His work was hazardous and important. He was wounded twice, received the Croix de Guerre and a divisional citation. Before his division was demobilized he saw service in France, Belgium and Germany. He recently completed the courses at Fort Riley, for cavalry, and the general service school at Fort Leavenworth. This past summer he was in command of a Citizens' Military Training Camp at Camp McClellan, Alabama, and was detailed to M. A. C. from that place.

He is enthusiastic about the opportunities for training offered at the college and his ambition is to place it again in the distinguished class.

SUCCESSFUL TERM OF SUMMER SCHOOL

Professor, Ryder, who was director of the work, reports that the courses of study taken up during the summer term were the best patronized and produced the best results of any similar effort in the history of the college. Nearly 500 students were enrolled, most of them for the six weeks' course, but more than 50 attended classes over a period of 12 weeks. This latter list finished its work just before the fall term began.

The only innovation was a course in agriculture for superintendents of consolidated schools designed to fit them either to direct or teach elementary classes in this branch of science. Prof. Ryder says a need has developed for men with this training and the solution of the problem is believed to lie in intensive instruction for two summer terms of all those who are already fitted to take charge of such schools. Technical agriculture is covered in all its branches in condensed courses.

AT THE ASSOCIATION MEETINGS

A full list of the officers of each branch association must be available in the alumni office files. If yours has not been sent in please attend to this matter as soon as possible. Groups wishing to form new associations will be aided from the alumni office and speakers provided where this is possible.

The following officers are presiding over the destinies of the Grand Rapids association:

President—Arthur D. Wolf, '13.
Vice-President—Mrs. Marjorie Eckluff-Barman, '15.
Secretary and Treasurer—Willard Coulter, '18.

President Friday and Secretary Halladay addressed a large group of Genesee county alumni and alumnae at Grand Blanc last Saturday. It was a special occasion for the Flint association which planned the affair so that former students could get into closer touch with the new college administration. A full report of the meeting will be printed in the next Record.

Battle Creek alumni met September 21 and elected the following officers for the coming year:

President—Don Stillson, '13.
Vice-President, Nenna Dunlap, '19.
Secretary, Elsie M. Johnson, '16.
Treasurer, Roy M. Hamilton, '14.

The association is planning a banquet for the latter part of this month and wants a college speaker to carry the atmosphere of the campus to their gathering. H. M. King, who is chairman of the advisory committee, has been appointed a delegate to the meetings of the executive committee of the M. A. C. association.

This organization is also arranging a special meeting for next spring when it hopes to greet President Friday.

G. H. Collingwood, '11, found his visit to the New York State fair more pleasant because he met several M. A. C. people. Collingwood writes of the following whom he saw:

"Irving ('Smut') Smith, '07, who is with the New York department of foods and markets in charge of apple grading, has a farm near Skeneateles, N. Y., with a lot of five and six year old apple trees which he hopes will some day bear a profitable crop.

"Hugh Glazier, '06, Youngstown, Ohio, is assistant sales manager for a steel construction company. Hugh is fat, almost beyond recognition and bald. He has all the appearances of prosperity, including a Shriner's pin in his lapel.

"Miss R. M. Kellogg, formerly on the M. A. C. home economics faculty, now assistant professor of home economics at Cornell, had charge of a very interesting and instructive kitchen exhibit. The electrical machinery in this display was all run by power generated by a water wheel which was a part of a neighboring exhibit.

"C. N. Silcox, '20, has received his master's degree in agronomy from Cornell and is now employed with A. L. Bibbins, '15, in the seed department of the Grange League Federation."

Collingwood also enclosed a clipping from the Ithaca Journal-News which states that J. Sloat Wells, '09, of Elmyra, N. Y., has developed a fertilizre mixture which works wonders with played out soil.

ALUMNI OFFICE GOING TO BARROWS HOUSE

When you return to the campus and look for the alumni office don't stop in the car station on the street car loop, which has served its purpose as an office for the association for the last six years, but go to 3 Faculty Row, formerly occupied by Prof. Barrows. To the older graduates this is enough of a direction to visualize for them the location of our new home. To describe it further it is opposite Sleepy Hollow and when you leave the car at the stone walk stop and cross the campus toward College Field it is on your right as you pass Faculty Row.

It is a mere start in the line of a Union building. It will provide a small lounge room in which students and alumni may gather, it will have some room for the offices of student activities and will provide a rest room for the alumnae or wives of alumni who visit the campus. The alumni office will be on the right hand side of the house as you enter. The next time you visit the campus be certain to make the trip to the new Union building; it will be a small effort in the way of showing you what will be accomplished when the new structure is completed. It is believed that the Barrows house will be available for occupancy by the Union until the new building is ready.

When you come to East Lansing meet your friends at the Union building; there will be easy chairs and a fireplace and all of the comforts your association can provide. A committee of alumni headed by Zelin Goodell, '12, is purchasing furniture and the college is decorating the rooms to be used.

Bert Wermuth, '02, of the Michigan Farmer, called to pay his respects to President Friday and renew his confession of faith in the Union Memorial building.

AGGIES TAKE SEASON OPENER FROM ALMA

A smashing attack which soon demoralized the visitors' team and a dazzling exhibition of forward passing contributed to the 33-0 defeat the Aggies administered to the Alma eleven on College Field last Saturday. It was a satisfying game because the largest crowd which has ever graced the stands for the first football game of the season learned before the matinee was over that Bert Barron and his coterie of assistants had developed a series of backfields and linemen who could replace each other without interrupting the team work or materially changing the power of the defense or lessening the impregnability of the defense.

The first quarter was not all that could be wished for by the Green and White supporters. The Alma line was stubborn on defense and the backfield showed a disconcerting ability to rip up the Aggie wall for gains almost at will but this condition could not last. The broiling hot sun and the unexpected strength of the visitors' team worked together to generate the extra steam needed and after that period Captain Johnson and his men scored almost at will.

The Aggies defended the north goal. Alma kicked to Johnson on his own 20-yard line and he ran the ball back five yards. Three attempts at the Alma line netted only one yard and Johnson punted to Brackenbury on his 30-yard line. He was downed by Lioret after a 15-yard run. MacDonald made three yards through left tackle, another try at the line failed and a forward pass was muffed up by the Aggie line, forcing D. Johnson to punt. Schmyzer received the ball and three tries by the Green and White backs left 11 yards to be gained so Johnson kicked to Alma's 35-yard line where the Red and White runner was downed in his tracks. Lioret then spoiled an attempted forward pass from punt formation. Another play was gummed up when Eckerson was forced to run with the ball instead of passing it and was downed behind the line.

D. Johnson then punted to Richards on M. A. C.'s 40-yard line. Schmyzer and Neller netted seven yards on two plunges and the next try resulted in a fumble which was recovered by Alma. The Presbyterian backs failed to gain, and the ball was in M. A. C. hands. Johnson kicked to Carty who returned the leather 22 yards to his own 43-yard line. D. Johnson punted to Richards. Johnson made ten yards around right end, Neller lost one and Schmyzer failed to gain. Alma was penalized 20 yards.

The Aggie aerial attack was opened at this point and Richards to Johnson added 30 yards to the Green and White position. Line plunges ended in a fumble near Alma's goal line and the visitors elected to punt out of danger. The kick was short. Rollie ran it back ten yards and another pass took the teams to the 11-yard line when the whistle blew ending the period.

Beckley went in for Schmyzer and crashed through right guard for two yards. Lioret and Neller added a total of five. Lioret tried again and missed first down by inches. Alma tried to kick from behind its own goal line the punt was low and the ball hit an Alma man and bounded to one side. Thorpe fell on it for the first touchdown of the game. Beckley failed to drop kick goal. Johnson kicked off over the goal line. An Aggie

was offside and Captain Bill's next effort was from his own 35-yard line. MacDonald received the ball on his own five-yard line and ran it back 22 yards. Alma backs tried the line three times and then punted to Richards who dodged through a broken field for 30 yards. On the fourth down a high heave from Richards to Johnson allowed the star Aggie captain to throw himself over the goal line for the second tally of the game and Beckley kicked goal. Score, M. A. C., 13; Alma, 0.

The half ended with the leather in the Aggies' possession on their own 47-yard line. Score, M. A. C., 13; Alma, 0.

Kipke replaced Neller in the backfield. Schultz went in at right end for MacGregor and Robson took Thorpe's position at left guard. Beckley carried the ball back on the kick off to the Aggies' 30-yard line. Johnson hit left end for seven yards and Lioret was taken out when his ankle was slightly injured. H. K. Archbold replaced the speedy full back. A fumble gave Alma the ball on M. A. C.'s 40-yard line. Johnson circled the Aggie right end for 15 yards and Alma was penalized five yards for holding. An attempted forward pass fell into the arms of Stub Kipke and he galloped 15 yards through a badly broken field before he was downed. A penalty was imposed upon the visitors for disputing with the referee and plunges by Archbold, Beckley and Kipke ended when Archbold carried the pigskin over the line. Beckley again succeeded in dropping it over the bar. Score, M. A. C., 20; Alma, 0.

Johnson again kicked to the Alma goal line. Harry Graves impeded the progress of the visitors and they kicked. Then a parade down the field started with the Aggie backs gaining at will and the line opening great gaping holes in the opponents' forward wall. Two successful forward passes failed to net the desired territory, however, and the ball went over. The Alma kicker punted to Beckley standing 23 yards from the goal posts and the latter signalled for a fair catch. He tried a free kick at the bar but failed to register and it was Alma's ball on their 20-yard line. Johnson stopped an end run and the quarter ended on the 17-yard line. Score, M. A. C., 20; Alma, 0.

Goode replaced Beckley at half. He picked up an Alma punt on his own 35-yard line and returned it five yards. The backs made first down through the line. MacMillan went in at quarter for Richards. The backfield again twice in succession made the necessary distance to retain the ball and carried it to within one foot of the goal where Alma made a determined stand but could not stave off the impending goal which MacMillan registered. Kipke booted the ball over. Score, M. A. C., 27; Alma, 0.

Hultman replaced Schultz at end. The Aggies took the ball from Alma after kick off. C. Archbold took Johnson's place at end. The backs again made first down and MacMillan passed one to Goode over the line for the final score of the game. Kipke failed to get the ball over the bar. Score, M. A. C., 33; Alma, 0. Hultman punted to Alma's 20-yard line where the game ended, after Eckert had smothered a final effort of the visitors.

Eckert and Graves were the only M. A. C. men to play the entire game. Alma apparently changed its team completely several times during the final quarter. The summary:

Michigan Aggies.	Alma
Johnson	L. E.
Eckert	L. T.
Thorpe	L. G.
Eckerman	C.
G. Swanson	R. G.
Graves	R. T.
McGregor	R. E.
Richards	O. B.
Neller	L. B.
Lioret	R. B.
Schmyzer	F. B.
	Shafer
	Foss
	Zuelk
	Wagner
	Erickson
	Tarrant
	D. Johnson
	Hickerson
	Brackenbury
	Carty
	McDonald

Score by quarters:				
Michigan Aggies	0	13	7	13-33
Alma	0	0	0	0-0

Touchdowns: Thorpe, Johnson, H. Archbold, MacMillan, Goode.

Goals from touchdowns: Beckley (2); Kipke. Substitutions: M. A. C.—Beckley for Schmyzer; Kipke for Neller; Schultz for McGregor; Robson for Thorpe; MacMillan for Richards; Goode for Beckley; Morrison for G. Swanson; Hultman for Schultz; C. M. Archbold for Johnson; Burriss for Kipke; H. Swanson for Eckerman. Alma—Foster for Shafer; Catherman for Hickerson; H. Catherman for Brackenbury; Wright for Wagner.

FOOTBALL SCHEDULE INFORMATION

October 7 Albion at College Field. 2:30 p. m. Admission \$1.

October 14 Wabash at Crawfordsville, Ind. 2 p. m. Admission \$1. Applications should be made to Karl Huffine, manager, at Wabash.

October 21 South Dakota at College Field. 2:30 p. m. Admission \$1. Reserved seats \$1.50.

October 28 University of Indiana at Bloomington. 2:30 p. m. Admission \$1. Applications should be made to U. H. Smith, bursar, University of Indiana.

November 4 Michigan at Ann Arbor 2:30 p. m. Reserved seats \$1.50.

November 11 Ohio Wesleyan at College Field. 2:30 p. m. Admission \$1.00. Reserved seats \$1.50.

November 18 Creighton University at Omaha, Neb. 2:30 p. m. Admission \$1.00. Reserved seats \$1.50. Application should be made to A. A. Schlabinger, director, Creighton University.

November 25 Massachusetts Aggies at College Field. Homecoming game. 2:30 p. m. Admission \$1. Reserved seats \$1.50.

November 30 St. Louis University at St. Louis, Mo.

For all games at home and the Michigan game application for tickets must be made to L. L. Frimodig, assistant director of athletics, East Lansing. Reserved seats cost a total of \$1.62 each, which includes mailing and registering. This amount must be sent to insure delivery. A large block of seats has been reserved for M. A. C. supporters at Ferry Field November 4 and these should be ordered immediately to insure you a good view of the game among your friends.

Most Promising Coaching Staff in Aggie History

Blake Miller, Fred Walker, Bert Barron, Dick Rauch

PROF. CLARK AGAIN HEADS COLLEGE BAND

Prof. A. J. Clark, noted as the leader of the Aggie band over a five-year period, will again wield the baton over the Green and White musicians. Professor Taylor of the music department found his work with the regular courses expanding so rapidly that he was forced to ask for relief from his duty as bandmaster, and President Friday prevailed upon Professor Clark to again accept the place.

Ambitious plans are on foot for the organization. It will undoubtedly soon regain the polish it exhibited last year and will make rapid strides under the leadership of the man who has shown himself to be as much a musician when he is in that field as a chemist in the laboratory. One of the innovations this fall will be the raising of the flag before each football game. This will probably start October 7, when Albion plays in East Lansing. The ceremony will be preceded by a parade and the spectators will stand while the band plays the "Star Spangled Banner" and the Stars and Stripes are being raised to the top of a mast. A staff will be erected in one corner of college field. Secretary Halladay is an enthusiastic supporter of this plan and believes that it will heighten college spirit as well as impress a patriotic lesson upon all who witness the ceremony.

COLLEGE STOCK TAKES PRIZES AT FAIRS

Touring five fairs is the lot of many of the best specimens of livestock on the college farm. At the Ohio State fair blue ribbons and second prizes were won in large numbers; at the Michigan State fair Langwater Model, a two-year-old, was junior and grand champion among the Clydesdales; Librite was second and reserve senior champion among the Percherons; the stallion Jupiter was second and reserve champion among the Belgians and the mare Betty d'Camille was first prize two-year-old and junior and reserve grand champion. Other prizes were also brought home by the M. A. C. entries.

First and second steer herd were awarded to the M. A. C. car exhibit. Additional ribbons included first senior yearling Shorthorn bull, second two-year Aberdeen Angus bull, second age Hereford bull and others.

Grand champion and reserve champion wether went to M. A. C. sheep, as well as first medium wool yearling, first medium wool lamb and first fine wool yearling.

They were also entered at the Jackson and Grand Rapids exhibits and will be shown at the International in Chicago next month.

One of the reasons for the excellent showing of the stock was the attention the horses were

given by John Carter, known as one of the best grooms in the country and Horseshoer McAllen, who comes from the east and has had long experience in preparing horses for exhibition. There is also a specialist in polishing up the sheep for the show ring who aided in the preparatory work.

Al LaFever, '16, was also one of the exhibitors at the State fair at Detroit. He showed some well bred Duroc hogs and was awarded the silver cup for the grand champion boar besides several prizes for his other animals. LaFever is just finishing, at his home near Jonesville, a new barn which will accommodate 20 cows. It is a modern dairy plant. He has a good herd of Holsteins, most of which are registered and at the head of his herd is stock from M. A. C.

MARRIAGES

Mr. and Mrs. John C. Stafford, '88, announce the marriage of their daughter, Henrietta Maude, '20, and George W. Laton, w'17, on September 3, at Keeler, Mich. They are at home at Orchard Lawn, Lawton, Mich.

Mrs. Georgiana Fish announces the marriage of her daughter, Marion Hesketh, to Albert R. Carlson, '21, on September 2, at Milwaukee.

Roland Shenefield, '20, and Josephine Zachariah, '20, were married in Lansing August 26. Shenefield is living in Columbus, Ohio.

Max Gardner, '12, and Margaret Briggs, a graduate of Purdue, were married in the church of which the bride's father is pastor at LaPorte, Ind. Gardner is a pathologist at the Purdue experiment station.

Charles Stahl, '12, and Marie Schneider were married September 5 at St. Mary's church, Lansing.

Gerald H. Mains, '14, and Ferne Knapp were married September 11 at Front Royal, Va. They are at home at The Chateau Thierry, Washington, D. C. Mains is a chemist with the department of agriculture.

Ruth Turner, '16, and Ira R. Taggart, of Spokane, Wash., were married at the home of the bride in Lansing on September 12. They will make their home in Spokane.

Margaret Gardner, '20, and Maurice Yates were married September 9 at the home of the bride's parents in Traverse City. They will make their home in East Lansing.

Fay S. Reynolds, '21, and Edna M. Richards were married September 23 at the home of the bride's parents in Charlotte. They will live in Lansing, where Reynolds is employed.

Mr. and Mrs. W. U. Faunce announce the marriage of their daughter, Izette Ruth, w'21, and Frank S. Jacobs, '21, on September 1 at the home of the bride's parents in Petoskey. They will be at home after October 15 at 211 W. Mitchell street, Petoskey.

CLASS NOTES

Good snapshots of yourself at work, at play, or with your family will be used in the Record if they are suitable for making cuts. Let your friends see you as you are. In sending pictures be sure they are fully identified as to names and places and are as clear as possible.

'77

Louis F. Levin was last at 1020 2nd street, Ames, Iowa. Does anyone know his new address?

'79

Mrs. Eva Coryell McBain, the first woman graduate of M. A. C., says that she and her son, Ralph, '20, "can report a fine year, and prospects for the coming year are excellent. The two new steel boats for Les Chenaux Islands that we are promised for next year will put Coryell Island on the map". The McBains live at 435 Crescent avenue, N. E., Grand Rapids.

'83

Henry Danville is still treasurer of Manistee county.. He lives in Manistee.

'86

William R. Rummel, senior member of Rummel & Rummel, patent lawyers, say that P. B. Woodworth, '86, is still a member of the firm although most of his time is now taken up by his duties as president of the Rose Polytechnic Institute at Terre Haute, Ind., and some of it in his Terre Haute patent law office which he is conducting with his two sons, Paul and Bob, also M. A. C. men.

'90

H. F. Hall has been commissioned a captain in the officers' reserve corps and assigned as battalion commander, 300th Field Artillery, organized reserves. He is living at 17 Clinton avenue, Pittsfield, Mass.

'94

John W. Rittinger, superintendent of schools in St. Joseph county, Indiana, says "Pete Woodworth, president of Rose Polytechnic, is stepping some. Fine new buildings and everything going good. Seven hundred and fifty teachers in the territory over which I have supervision. Was never busier in my life but would like to see any old M. A. C. fellows." Rittinger's mail is received at 410 E. South street, South Ben, Ind.

'96

C. A. Jewell is superintendent of schools at Tenino, Wash. He formerly occupied a similar position at Sheridan, Ore.

J. N. Goodrich was last known to be at 52 East Philladelphia street, Detroit, but has moved without notifying us of his new address.

'99

A. B. Krentel formerly of Findlay, Ohio, is now at 835 Magnolia avenue, Lansing.

'02

H. A. Burnett is no longer at 142 Atchison avenue, Detroit, but has left that place for unknown parts. Information will be appreciated.

'04

Grace Taft Kunze has moved to East Lansing. She was at State College, Pa.

'06

Alida Alexander wants The Record sent to 835 West College avenue, Jacksonville, Ill.

'08

Lillah M. Haggerty is lost. She was living at 6821 Olmsted avenue, Chicago, but has not forwarded her new address.

Frank B. Wilson is manager of the Farm Bureau elevator at Ypsilanti. He says, "Farm Bureau now owns two elevators in Ypsilanti, six employees, besides manager, business steadily growing."

K. B. Lemmon, major in the coast artillery corps, is now stationed at Fort Kamehamaha, Honolulu, T. H.

'09

Leslie L. Smith has moved from 710 Washington

Arcade to 800 Marquette building. Both of these addresses are in Detroit.

Bertha C. Cameron is a bacteriologist with the Parke-Davis company. She has moved from 674 Baldwin avenue to 2166 Newport avenue, Detroit.

'11

F. G. Wilson is at Trout Lake, Wis., with the forest division of the state conservation commission. He recently changed his address from Vancouver, B. C.

R. S. Russell is with the Bailey Motor Car Co., Kalamazoo, and lives at 838 Oak street.

J. W. Applin, who is chief engineer of the Lafayette Motors corporation, residing at 415 Ruskin Place, Indianapolis, says that the Lafayette firm expects to move to Milwaukee this fall and he will do as his boss does. He reports the arrival of John W. Applin, Jr., on August 1.

G. Harris Collingwood is starting his seventh year in charge of forestry extension work in New York state, working out from Cornell university. "I was fortunate in being able to get back to M. A. C. for commencement last June. I only wish that the fires and finances had been sufficiently under control so that more of the 1911 foresters could have been there.

"Earl Trangmar, '17, is located during the next month or so in New York City with offices at 1605 Barrell building, corner Madison avenue and 33rd street."

C. A. Hamilton has moved in Grand Rapids from 711 Henry S. E. to 238 James avenue.

C. L. Rose says he is glad to note the change in the publishing date of The Record and hopes it will have good news to record during the football season. He is living at Ewart, Mich.

Harry E. Rosselit is still handling cash at the Commercial State Bank at Shepherd, Mich. He says "I think you have a real man in President Friday. His ideas are sound."

Ray C. Edwards writes, "I am still managing Edwards Bros. hardware store in Arcadia, Mich., and spending any spare time and money in the Fixall garage on M. 22, Arcadia. So if any M. A. C. folks go north, stop in."

'13

Mrs. Nell Favorite Strahan lives at 1624 Ashland avenue, Indianapolis.

Donald D. Stone is an engineer in the electrical division of the engineering department of the Buick Motor company, Flint. He hangs his hat at 121 West Hamilton avenue.

Willgert Reilly notes a change of address from Sauneman, Ill., to Oakland in the same state.

Elmer C. Geyer is invoice auditor for the Saginaw Products company, division of the General Motors Corp. and after October 1 he will be in charge of accounts receivable and payable for that division. He lives at 2227 N. Bond street. His message is that he will be at Ann Arbor November 4 and at East Lansing November 25. ("Windy" is the trail-blazer in this respect for the '13 gang. Who is next?)

Robert Rosen is an M. D. in the Chalmers Bldg., Detroit. He was president of a medical society in 1921 and is on the hygiene committee of the Wayne county medical society for this year.

'14

W. W. Lanckton announces that he is assistant to the electrical engineer at the Detroit Copper and Brass Rolling Mills and lives at 2160 Hubbard avenue, Detroit.

Ralph Corvell is in the nursery business with his father at Birmingham. He says he expected to build a home this year but the top prices for construction deterred him. He has good prospects for better business. Margaret Alice is being raised along the lines which a prospective co-ed should follow.

H. S. Bird requests that his Record be sent to 43 Linnean street, Cambridge, 38, Mass.

John W. Fisher, Jr., since May 1, has been associated with George Livingston, former chief of the federal bureau of markets in organizing American Institute of Agriculture, 326 W. Madison street, Chicago designed to give extension courses in the marketing of farm products. J. W. and Jean Avery (11) Fisher, live at 1045 Ashland avenue, Willmette, Ill.

H. L. Smith is with the Louis Allis company as chief engineer and is engaged at the present time

in the design of a new line of polyphase electric motors which they hope to have on the market in a few months. This company was formerly called the Mechanical Appliance company and has been building motors for over 20 years building up a reputation for special applications and designs. He may be addressed at 2904 Grand avenue, Apt. 309, Milwaukee, Wis.

Paul Calrow is still state supervisor of agricultural education in Minnesota. He has 80 high school agricultural departments under his care. In his spare moments he is taking graduate work at the University of Minnesota. He is living at 1452 Raymond avenue, St. Paul.

'15

E. E. Sours, formerly of Big Rapids, since July 1, has been engineer for Allegan county and lives at 503 Marshall street, Allegan.

Julia Raven is anxious that her Record be sent to lock box 67, Wakepala, S. Dakota. She is still in Indian work only she has changed her immediate surroundings from those in which she labored last year.

Clifford Foster gives his new address as 1420 Bates street, S. E., Grand Rapids. He changed houses but not cities.

The postmaster says that R. E. McNaughton is now in Middleville where he moved from Caledonia.

S. C. (Crow) Vandenberg is in Boise, Idaho, where he buys and ships fruit in car lots during the fall months. The rest of the year Mr. and Mrs. Vandenberg (Edna Tussing '17) make their home in Portland, Ore. Last spring they drove to Seattle to visit Russell and Gertrude Hudson McCurdy and report that the former is enjoying a lucrative practice as a physician.

Arda Strong Boucher governs the home at 330 W. Morrell street, Jackson, and says that there is no particular news from her establishment as she is too busy caring for John and Barbara, three years and six months, respectively.

The Gray Motor corporation boasts John W. Leggat as its service manager. Previous to July 1 he was experimental engineer and has been with the Gray people for two and a half years. His family is thriving. There are three sons, the youngest of whom is three months old. The Leggats gather for meals at 4720 Brooklyn avenue, Detroit.

'16

C. M. Loesel now takes his mail from Box 3, Leonardo, N. J. He was formerly at Ithaca, N. Y.

Gerald Bos announces the arrival of Emily Jane who tipped the scales at eight pounds on July 25. He sells Fordsons for the Standard Auto Co., Grand Rapids. He lives at Byron Center, R. I.

Bootlegging has not attracted O. S. Shields into its ranks of capitalists although he admits that he lives in the heart of the region where this industry has reached extensive proportions. He is in charge of the biggest laboratory of the dairy industry and expresses his thanks for the training he received at M. A. C. which enables him to hold his present position. His address is Chateaugay, N. Y.

Frederick C. Wise has changed his Grand Rapids abode from 733 Lake avenue, to 746 East Fulton street.

Allen B. Robbinette is teaching in Grand Rapids Central high school and lives at R. F. D. 4.

Merrill S. Fuller buys fruit and farms at Lawrence. He notes with pride that Mrs. M. S. (Kitty Handy) is still his chief partner.

Charles L. Williams writes that the renumbering of the streets has changed his address to 113 East avenue, N., Jackson.

Earl Spencer lives at 618 Lyon street, Saginaw.

L. D. Sears, formerly of Battle Creek, may now be addressed 432 Somonauk street, Sycamore, Ill.

Glenn Hacker boasts that the Kentucky Hatchery hatches chickens all year around. A new incubator recently installed has an egg capacity of 40,000. His home is at 331 Aylesford Place, Lexington, Ky. He notes that Ralph J. Morgan '17, is in charge of co-operative marketing with the Alabama Farm Bureau Federation his headquarters being at Montgomery, Ala.

'17

Gordon C. Edmunds is glad that new buildings are under way on the campus for they will be appreciated by three "Slims" in about 20 years. He is still superintendent of the reformatory farm at Ionia.

Herbert C. Huebner is among the missing. He last lived at 650 2nd avenue, Detroit.

Grace Holthrop is also lost from her old address, 722 State street, Petoskey.

A. B. and Octavia Russell ('16), Muir, were last heard from at Monroe. They have not reported their present address.

Myron Strong is at Burlington, Mich.
Glenn S. Thomas is manager of the mail order department of Stark Bros., nursery, Louisiana, Mo. He lives at 702 Georgia street.

Philip M. Hodgkins is now in Gorham, N. H., where he is in the employ of the forest service.

¹⁸
Howard G. Smith writes "My first six months as a 'back-to-the-lander' has been most successful and enjoyable. Have a nice flock of about 500 chickens and will double this number next year. Also expect to go in strong for turkeys another year. Corn, tobacco and hay seem to be the biggest crops here in southern Maryland with most of the money being made in tobacco". Smith is at home in Pomonkey, Md.

G. H. Gillespie is an inspector in the perishable freight service of the New York Central lines. At present he is located at Lawton, Mich. His mail address is Woodland, Mich.

John A. Chisholm who lived on Second Boulevard in Detroit, fails to answer to roll call at that address any more.

Mary S. Johnson teaches mathematics in the Grand Ledge high school and lives at 332 East Jefferson.

¹⁹
Winnie Haywood is lost, she formerly lived in Manistee, but could not be located there by the mail carrier.

Agnes McIntyre has moved from Allegan to Tecumseh, Mich.

Mildred Mead now lives at 1170 Hancock avenue, W., Detroit.

George and Lavinia Cottrell Bentley are living at 703 25th street, Detroit, and welcome their M. A. C. friends there. Bentley is still in the employ of the gas company where he finds romance in the fact that he helps provide the fuel for the daily meals for a million people.

Elizabeth Weld teaches at Three Rivers and lives at 522 Portage avenue.

Kenneth Roland teaches at Warwick, N. Dakota.

²⁰
Kenneth Kernan is among the lost ones. He was last heard from at 527 Ruby street, Saginaw.

Warren P. S. Hall is also on the A. W. O. L. list. He departed from 5034 Fernwood avenue, Detroit, without leaving a forwarding address.

Florence Rouse is living at 1037 N. Washington avenue, Lansing.

Iva Beach is now at 344 S. Main street, Charlotte. Genevieve Gillette of Lansing, has moved to 507 E. Grand River avenue, East Lansing.

Lawrence J. Bottimer, 702 Carter Building, Houston, Texas, is not receiving his mail there now and has not indicated the office to which it may be forwarded.

R. E. Post is taking advanced work in economics at the University of Wisconsin, and his address is 440 W. Johnson street, Madison.

P. G. Lundin teaches agriculture at Manistique, and lives at 158 Cedar street. He says that Miss Esther Rebko, 21, is also on the faculty of that school.

Ruel N. Wright is a parishable freight inspector with the Pennsylvania railroad. His headquarters are at Canton, Ohio. He lives at 831 0th street, N. W. He reports that Frank A. Davis '18, is chief inspector of perishable freight for the central region of the Pennsylvania railroad and is located at room 1002 Pennsylvania station, Pittsburg.

²¹
N. B. Shaffer is practicing veterinary medicine at Vicksburg, Mich. He also is city treasurer.

W. B. Williams may be reached at the office of the county surveyor, Grand Rapids. He and Emily Castle Williams '17 live at 444 Giddings avenue, S. E.

L. E. Hall asks us to change his address to Room 405, Y. M. C. A., Akron, Ohio.

Sylvia Wikson is home demonstration agent for Marquette county with headquarters at the court-house, Marquette.

Larry W. Rose is located in the credit depart-

ment of the Studebaker corporation at South Bend and lives at 402 W. Navarre street.

Linus Palmer is forester for the Kent county road commission, and lives at Grandville, Mich.

Ann Harvey is lost from our records. She received her last mail at Constantine, Mich.

George L. Fick was at the Lynn Haven hotel, Lynn Haven, Fla., but is not there now and they have not been informed as to his new address.

Earl P. Kehm is missing from R. 2, Rockwell, Ia., without forwarding directions.

²²
Tone McKillen is teaching algebra and household arts at Hastings high school. She lives at 438 S. Broadway.

William J. Smith teaches at Onaway.

Ruth Biebesheimer instructs the home economics classes in the Grand Ledge high school.

Ivan French is working for the Realty Construction company. His address is care of J. H. French, Chevrolet Motor company, Flint.

Esther Parker and Catherine Watkins are living at 110 Josephine street and teaching science and art in the Flint junior high school.

R. J. Anderson and Dorothy Pettit Anderson (w '23) and Richard James, Jr., live at the Chastleton, Apt. 649, 16th and R. streets, Washington, D. C. "I am so head over heels in this 5 and 10 cent store business that a dozen army tanks couldn't pull me out. It is most interesting. Hope to have my own store in another two years."

Nellie Bowerman is teaching home economics and English at Bath, Mich.

Martha Perry teaches home economics at Grand Blanc, Mich.

Helen Takken teaches food work at St. Joseph high school and lives at 922 Main street.

Frederick Huebner is secretary and general manager of the Huebner Screen Door company. He is also a director in the Edward Huebner and Sons, Inc. He lives at 548 E. Kirby street, Detroit.

Samuel H. Patterson teaches Ag in the St. Joseph high school and lives at 1218 State street. J. D. Patterson is with the Globe Construction company at Kalamazoo, living at 836 Portage street.

Lucy Cole is teaching sewing in the Owosso high school and lives at 418 Adams street.

Gladys M. Kellogg teaches domestic science and are in the Mt. Pleasant high school. She lives at 414 S. Lansing street.

Effie Cook is a technician in the Blodgett Memorial hospital laboratory and lives at 347 Crosby street, N. W., Grand Rapids.

Emerson C. Brown is now doing tree surgery work on a few estates at Lake Angelus, near Pontiac. He will soon be employed by the Greening Landscape company at Monroe. His mail reaches him at Bay Port.

G. W. R. Baldwin is with O. A. D. Baldwin helping to sell strawberry and other small fruit plants at Bridgman, Mich.

George E. Wilson is with the Wilson Bros., clothiers, St. Johns.

Arthur R. Schubert is an inspector for the bureau of dairying, state department of agriculture. At present, he is the lone worker on that sort of a job in the upper peninsula. His duties include the supervision of creameries, cheese factories, ice cream manufacturing plants and city milk supplies over the entire upper peninsula. His mail address is 209 Vivian street, Hancock.
