Michigan Agricultural
College Association
Publishers ■ East Lansing

Vol. XXX.

April 13, 1925

No. 25

The M. A. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan Agricultural College by the M. A. C. Association.

Published weekly during the college year and monthly during July, August and September; thirty-five issues annually.

Membership in the M. A. C. association, including subscription to THE RECORD, \$2.50 per year.

Unless members request a discontinuance before expiration of their memberships it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. A. C. Association.

Entered as second class matter at the post office at East Lansing, Mich.

ROBERT J. McCARTHY, '14, Editor.

THE M. A. C. ASSOCIATION

3 Faculty Row, East Lansing, Mich.

OFFICERS—1924-25

Frank F. Rogers, '83, Lansing, President
 Arthur C. MacKinnon, '95, Bay City, Vice-President
 Luther H. Baker, '93, East Lansing, Treasurer
 Robert J. McCarthy, '14, Secretary

EXECUTIVE COMMITTEE

Members elected at large

Henry T. Ross, '04, Milford, Mich., Term expires 1925
 Clifford W. McKibbin, '11, East Lansing, Term expires 1926
 G. V. Branch, '12, Detroit, Term expires 1927
 W. K. Prudden, '78, Coronado, Calif., ex-officio
 Harris E. Thomas, '85, Lansing, ex-officio
 E. W. Ranney, '00, Greenville, ex-officio

APRIL 13, 1925

FEATURES PROMISED FOR MAY 13

Rather and Hays to Have Charge of Anniversary Night Program for Alumni Over WKAR; Presidents Butterfield and Rogers Scheduled for More Serious Business of Occasion; Special Musical Selections Prepared.

Howard Rather, '17, and James G. Hays, '11, have been chosen joint toastmasters at the annual banquet of the Holstein-Friesian Association of America, which will be held in Grand Rapids, June 2, but their earlier and more important engagement will include duties of a similar character at the Alumni Night celebration to be broadcast by WKAR beginning at 8 o'clock, eastern standard time, on May 13. It will, of course be difficult to crowd into the time available all of the important matters scheduled to be brought before the alumni on that occasion but the evening's entertainment will not be marred by the omission of the lighter portion of the menu.

It is a matter of as much note that President Butterfield will be one of the speakers of the evening and that Frank F. Rogers, '83, president of the M. A. C. Association will be on the program. There are also rumors afoot about a quartet of well-known personages of ten or more years ago which will present melody and harmony in a reminiscent fashion, keeping up with the plan to have the event on a well-balanced foundation.

The program will take the form of an after dinner discussion popular at alumni meetings and many other gatherings. A toastmaster is a necessary evil and, when Rather and Hays are available, this evil is elevated to the ranks of necessities with marked force.

There is not much to prevent the alumnus living within radio radius of the Campus from listening in on this offering. It will be available to the carefully groomed sets of the entire continent, possibly excepting the polar circle, from which there have been no reports on previous pro-

grams. There are enough receiving sets to the square foot to insure all alumni an opportunity to listen in without crowding too many in one house. In extension work halls have been used where the groups would gather around loud speakers and get the program from the College, this is a possible solution of the problem of getting in line with several thousand people who will be awaiting the call of WKAR on the evening of May 13.

President Butterfield's messages to alumni delivered at various meetings have proved of growing interest because of their indication of the policies he desires to see the College follow in its development. President Rogers, on the other hand, has been heard to best advantage by engineering alumni who have attended meetings of highway organizations. The message of the latter will be mainly concerned with the coming reunions and will give some of the details of the opportunities in store for those who return on June 20 as well as giving a review of the work of the M. A. C. Association.

This program is scheduled for the evening of May 13, the anniversary of the dedication of the College. It is part of the general conference program being arranged for the week in which it occurs. A series of meetings have been scheduled which are expected to draw to the College people of the state interested in the work of M. A. C.

The College band sponsored the appearance in Lansing, April 10, of two lecturers from the crews of the army airplanes which made the epochal trip around the globe.

CONFERENCE PROGRAM ADOPTED

Important Meetings Listed for Week of May 13 to Bring Citizens of State Into Discussion of Various Courses; Cover Wide Range in Activities of College.

The following statement has been issued by President Butterfield's office explaining the conferences to be held during the week of May 13.

The year 1925 is a rather remarkable anniversary year for the Michigan Agricultural College. It will be—

The 70th anniversary of the passage of the act establishing the College and of the purchase of the present college estate.

The 40th anniversary of the inauguration of a course in engineering.

The 30th anniversary of the establishment of the course in home economics.

The 30th anniversary of the passage of the law establishing a state-wide system of Farmers' Institutes, which was the first effort of the state to broadcast popular education in agriculture over the entire state, and was the forerunner of the present extension work.

The 10th anniversary of the acceptance of the Smith-Lever Act by the State Legislature and the consequent inauguration of the present state-wide system of extension work in Agriculture and Home Economics.

As a means of commemorating these significant dates the State Board of Agriculture has authorized the holding of a series of conferences during the week of May 13—May 13 being this year the 68th anniversary of the opening of the college to students, and popularly called "Founder's Day," as follows:

Conference on Engineering Education and the Relation of the College to the Industries of the State, Wednesday and Thursday, May 13 and 14.

Conference on the Education of Women and on the Civic and Social Interests of Farm Women, Wednesday and Thursday, May 13 and 14.

Conference on Extension Work and

Continuing Education, Thursday and Friday, May 14 and 15.

Conference on Rural Community Organization, including a Demonstration Community Institute, Friday and Saturday, May 15 and 16.

At regular convocation, 10 o'clock Wednesday, May 13, Dean Eugene Davenport, of the class of '78, will give the anniversary convocation address.

On Wednesday evening, May 13, there will be a radio program of an anniversary character intended particularly for the Alumni of the College, who will be asked to gather at appropriate receiving places for this celebration.

The purpose of these anniversary conferences is not only to call attention to this remarkable anniversary year, but to do it by also calling attention to some of the forward-looking programs which the various divisions of the college are endeavoring to work out.

People in attendance at the conferences may obtain lodging in homes in East Lansing for \$1.00 a night. Application should be made to the People's church. Good meals at a moderate price may be secured in the restaurants of East Lansing. The hotels and restaurants of Lansing also offer good facilities for meals and lodging.

Notices being mailed with catalogs show that the College has adopted the plan of having a "Freshman Week" each fall during which new students will be registered and will have a chance to become acquainted with the Campus before they start on the routine of classes. Another change is indicated by the dates for general registration being advanced to Friday and Saturday, September 18 and 19. Hitherto all students have registered on Monday or Tuesday of the first week of the fall term.

DETROITERS WELCOME BUTTERFIELD

M. A. C. Club Gives Dinner and Reception at Statler; Members Hear Vision of Executive for Progress of College; Other News of Alumni in the Metropolis.

Successful in every sense of the word was the dinner and reception tendered President and Mrs. K. L. Butterfield by the M. A. C. club on Friday, April 3. One of the largest crowds for a local M. A. C. affair was out when 180 sat down at the Statler. All classes were represented and a poll of those present showed the variety of fields entered by Aggie alumni. Newell Hill, with his Pastime Players, or as they are better known, the Nut club, added music to the occasion, both during the meal and afterward.

Scotch is the best adjective describing the program. J. R. McColl, member of the State Board of Agriculture and dean of engineering at the University of Detroit, was the presiding Scotch and called on another Caledonian, Allan . Campbell, president of the Detroit Board of Education and a prominent local attorney first. Mr. Campbell lived up to all traditions of his race in welcoming President Butterfield.

Though President Butterfield stated at the outset that he had no set speech and could not tell what was going to be the future of the College, he did bring the alumni some very definite ideas of what the College is trying to do and what it should do in the future. Fitting the College to the demands of the whole state, both industrial and agricultural, is the problem of the moment, he declared. This is to come through two ways, he thought, enlargement of the recently inaugurated engineering extension system and through carrying the work of the College out to the people of the state, through a system of continuing education for those who are unable to attend schools of any kind. Radio schools have a great possibility and M. A. C. is just beginning to develop this field.

Dr. Butterfield also told of the increased interest in the study of food supply prob-

lems and the place that they are going to have in the programs of colleges and universities in the not far distant future. Though the College appropriation bills have been severely slashed by the legislature, he was very optimistic over the prospects of the College being given a new chemistry building, a new armory and possibly the cancellation of the debt on the stadium as well as generous maintenance appropriations.

James Avery, '16, and J. W. Wagner, '20, after some experience with some local real estate firms have gone together and formed their own company, handling close-in lots and acreage ripe for development.

Eddie Matson, '22 sticks to building, being the construction superintendent for the Gallagher Construction company.

I. J. (Shorty) Snider, '20, is giving the public pieces of land as a salesman for Castle and Ford, Detroit realtors.

L. E. Perrine, '23, is now connected with the Continental Motors company of Pontiac, while his brother Elmer, is straw boss in his father's machine shop. They live at 8604 Carrie avenue.

Pilavian, '23, reports that he is leaving for Egypt before the first of May. His father died recently and he expects to be in the east for at least a year. He says that he will be back for the class reunion in 1926.

Aberson, '24, announces that he has his feet one notch higher on the ladder of success. Last week he was appointed purchasing agent for the Brownell Building corporation.

Mr. and Mrs. E. H. Pate, '17 (nee Frances Edwards) are backward about speaking for themselves, but young Lawrence Howard does enough for both of them. He came to town on January 2, 1925.

VIEWS AND COMMENT

Something of the appreciation alumni and the people of the state at large feel toward the Michigan Union is expressed in the following editorial from the Detroit News:

There is nowhere in the world a finer monument to alumni gratitude than the Michigan Union at Ann Arbor. It rose to its stately proportions as the vision of those who owed much to the University, of what seemed in them a worthy testament. So wisely was it built and so well planned that almost from the day of its opening it became not merely an appanage to the campus but an essential and integral part of the life of the university.

No one who has visited Ann Arbor, and that means every father, mother or relative of a student, has failed to sense the important fellowship such a healthy environment must develop. To every one of them it has been a huge satisfaction that the social life of the university focused in such a place. Impressed in the very stones and spacious halls are the thoughts of that streaming army of alumni who have carried the honor of the University across the world and into high places. It is a building, this Union, which fulfils completely the purpose for which it was erected and has added immeasurably to the wholesomeness of life on the campus.

The M. A. C. Union will fill an even more urgent need. Ann Arbor, poor in such things as it may be, still offers more accommodations to the visitors than can East Lansing. The University offers much more to the visitor and the student than can M. A. C. for it has facilities for guidance and entertainment far beyond those available at M. A. C. It is evident that the Union Memorial building will fill

a want that is felt not alone by alumni, students and faculty, but by those interested in the welfare of the College. The Union is not an untried experiment, it has proved its worth.

With the adoption of the freshman week plan the College is following in the footsteps of many other institutions which have found desirable the plan of having new students register at some time other than that at which the old students go through the formalities incident to continuing their courses.

There are several distinct advantages to the plan. In the first place the newcomer has an opportunity to acquaint himself with the physical features of the Campus ahead of the time when he must rush from one building to another in his quest for classes. It also gives him a chance to spend more time advising with members of the faculty on the course he is to follow and do many of the things found necessary before he can begin the regular work of the term.

In announcing the institution of this plan the College has again indicated that it is willing to keep in step with the march of progress and provide the student seeking an education with the best possible conditions for getting under way on his chosen pursuit. There is not much time for orderly thinking, for deliberation of value, when the student must spend a half day or so in line and then rush to his "academic appointments," depending upon chance acquaintances or thoughtful upperclassmen to see that he finds the proper classroom at the proper time. Freshman week has proved its worth and it should add to the advantages of the College by giving the individual a better insight into its workings before he becomes an integral part of its organization.

"Close Beside The Winding Cedar"

Miss Elida Yakeley, College registrar, is attending the convention of the American Collegiate Registrars' Association, April 14 to 16 at Boulder, Colorado.

J. K. Caswell, teacher of history and political science at the Highland Park Junior college, has been added to the staff of the College as assistant professor of history.

East Tawas and Alpena were visited by the glee club during the spring vacation. Concerts were given at both places and the varsity quartet gave short programs in the high schools.

Thomas Hunt Cade, five years old, son of Professor C. M. Cade, '07, of the civil engineering department, died on April 2 from injuries received when he was run down by an automobile in Lansing on March 21.

The Chicago Symphony orchestra will stage two concerts in the college gymnasium, probably on May 16, one matinee and one evening performance. This will be the third annual appearance of the orchestra here.

Oregon and California people are reporting to WKAR that the programs from the College station are reaching them as clearly as those on the coast. Central America is the latest new point to notify the authorities that the power of the station is great enough to send lectures and music to that distant place.

Robert Powers, '26, new editor of The Holcad, has converted the customary five column paper into one of six columns, bringing the proportions of the paper closer to those of standard daily newspapers. The initial number, which came out on Tuesday of the opening week of spring term, met with general approval. The Holcad is working hard for a "Michigan State Daily".

Edgar Guest, newspaper poet, is scheduled to appear at the College on April 22 in the final number on the liberal arts course.

Monographs have been awarded the following members of the wrestling squad: Homer Hansen, '25, Holland (captain); F. Williamson, '25, Pontiac; F. Gibbs, '26; A. W. Berquist, '26; H. Houghton, '26, Alto; J. Murray, '25.

Elaborate museum show cases have been installed in the main corridor of the library building. According to Mrs. Landon, a series of historical and educational displays have been planned which will be exhibited during the next few months.

Dr. Alexander Borland, College health officer since September 1922, has resigned and his post has been taken by Dr. Ramsey of Lansing. April 15, the College health service will be under the general supervision of the state department of health.

A report among students that a new social rule prevents canoeing on the Red Cedar after dark caused a glut in the market of second hand water transportation, but the rumor proved untrue. Old flivvers, however, seem to be as numerous as usual.

Spring football practice has been inaugurated by Director Young. Coach Taylor will have direct charge of the rehearsals during the first four weeks of the term and plans a regulation contest between two picked teams as the culminating event on the program.

Captain Clyde Kelly, now at the infantry school at Fort Benning, Georgia, has mal will come to East Lansing. Department, replacing Captain H. B. Beavers who has completed his term of service at M.A.C. and will probably be assigned to foreign duty.

DEAN BISSELL INVITES ENGINEERS

Alumni Asked to Return for Conference On Needs of Engineering Education; Prominent Educators Included On Speakers' List; Will Take Up Relation of College to Industries of State.

Dean Bissell issues an invitation to all engineer alumni to attend the conference on engineering education scheduled for May 13 in the following letter:

To Engineer Alumni of M. A. C.:

In the plans for the observation of College Week the interests of the engineering departments will be given a conspicuous place. On the afternoon of Wednesday, May 13, "College Day," at 2 o'clock a public program will be provided at which, in addition to brief addresses by President Butterfield and Dean Bissell, there will be an address by Dean Anson Marston, of Iowa State College, on the subject "The Significance of the Land Grant Act in Respect to Engineering," in which the speaker will set forth the full duty of engineering schools, founded upon the provisions of the Morrill Land Grant Act of 1862, not only in the field of instruction in professional engineering, but also in extension education and in research work related to the industrial activities and interests of the state.

At 8 o'clock in the evening, Dean A. A. Potter, of Purdue University who is also president of the Society for the Promotion of Engineering Education, will speak on the subject, "Tendencies and Problems in Engineering Education."

Following the address of Dean Potter there will be an informal Round Table of engineer alumni and faculty on the general topic of the future development of engineering at the college for the purpose of obtaining constructive criticism from the alumni to assist the faculty in its future work.

On Thursday morning and afternoon there will be special conferences, one on the relations of the engineering school of the college to the engineering industries of

the state through research activity, etc., and one on engineering education by extension and short courses under the auspices of the college.

The immediate occasion of the above program is the fact that forty years ago this winter, the Legislature of Michigan enacted laws whereby the Engineering Department of the College was organized and provided with appropriations for its first buildings, but the occasion is to be more than a birthday in the sense of being simply a celebration of forty years' work, it is intended to be an occasion on which all of those who are interested in the College, and particularly in engineering work, should try to look forward and envision the needs and opportunities of engineering at the college for the next several years, in order that our efforts may at once be directed along channels which will result in strengthening the reputation of the engineering school and place it where it will fulfill to the fullest degree the obligations which may reasonably be exacted by the State of Michigan and the people who contribute to its support.

Please bear in mind the dates and plan, so far as possible, to attend one or more of the meetings. I am particularly desirous that a considerable number of the engineer alumni appear on Wednesday evening to participate in the Round Table discussion and sociable.

Look for further announcements.

Yours very truly,

G. W. BISSELL,
Dean of Engineering.

R. E. Olds Hall of Engineering,
April 9, 1925.

A total of slightly more than 300 took advantage of the winter short courses at the College the past year.

CHICAGO ALUMNI ELECT HOPKINS

New Officers Chosen at Annual Meeting; M. A. C. President and Professor King Represent College at Well Attended Meeting on April 4.

Chicago welcomed President Butterfield on the evening of April 4. The following account of the meeting is furnished by a member of the Chicago M. A. C. Association:

Eighty-one M. A. C. alumni and friends in Chicago sat down to dinner with President Butterfield and Professor King at the City Club, Saturday evening, April 4. Possibly the Detroit Association, our nearest rivals in point of size, may have had a larger number at their recent meeting, but they could not have excelled in appreciation of the presence of President Butterfield in his first meeting with Chicago alumni.

Greetings were read from Dr. F. S. Kedzie, who unfortunately was unable to be present. Professor E. S. King, however, added to the occasion by his witticisms and remarks on the romanticism of M. A. C. His talk was keenly enjoyed.

If there were any who had doubts as to whether M. A. C. possesses a real leader, these doubts were dispelled after President Butterfield's address. We believe that he has a vision of a greater usefulness for M. A. C. that will make our college not merely an imitation or miniature of the large and great universities, but that it will become something which has heretofore not existed. We believe that he has the singleness of purpose, the high ideals, and the tireless energy to make his vision a reality.

This brief review does not permit of an extensive discussion of President Butterfield's remarks. While we were most interested in his conception of M. A. C.'s future, his description of some of the physical aspects of the campus and equipment was also pleasing.

Before the dancing which followed the dinner, a nominating committee composed of George L. Teller, '88, A. V. Mooney, '18, and Larry Archer, '20, suggested offi-

cers for the ensuing year, who were un-animously elected. These were:

President, Willard F. Hopkins, '93.
Vice-President, Van Cleve Taggart, '16.
Secretary-Treasurer, George F. Davis, '21.

Director (for three years), H. E. Van Norman, '97.

Mrs. Zoe Benton Ford, '05, was retained as permanent secretary.

Two directors previously elected retain their terms until 1926 and 1927. These are respectively, W. R. Rummler, '88, and Raymond C. Kinney, '21.

The following alumni and friends were present:

Bernice McLeod; Irving Gingrich, '02; N. S. Mayo, '88; Mary Carpenter Mayo, '88; George L. Teller, '88; Mrs. Geo. L. Teller; W. F. Hopkins, '93; Ove F. Jensen, '14; Mrs. Ove F. Jensen; Geo. F. Davis, '21; Gertrude O'Malley; R. Towar, '03, and guest; R. E. Doolittle, '96; R. M. Renner; Loa Renner Croke; H. E. Van Norman, '97; Mrs. H. E. Van Norman; P. M. Woodworth, '18; Mrs. P. M. Woodworth; John S. Watson, '23; J. W. Nicolson, '15; Josephine Fry Nicolson, '15; Geo. R. Hedges; Josephine Carver Hedges, '17; Ruth Hurd Snyder, '17; Merle B. Snyder; Harold J. Foulkes, '24; Thomas B. Eldred, '24; M. G. Peterson, '24; J. L. Engels, '19; Mrs. J. L. Engels, '19; Helen Newlon; C. E. Hoyt, '85; Clem C. Ford, '05; Zoe Benton Ford, '05; Ester Benton Ford; James A. Sheridan; Geo. E. Piper, '13; Mrs. Geo. E. Piper; V. C. Taggart, '16; Grace Bryant Taggart, '17; Paul E. Donnelly, '21; Mrs. P. E. Donnelly; R. R. Haugh, '13; H. J. Eddy, '21; Mrs. H. J. Eddy, '21; C. R. Garvey, '12; Carrie Lookwood Glenn, '12; A. V. Mooney, '18; Mrs. Clara Livengood Mooney; I. L. Simmons, '97; Mrs. I. L. Simmons, '97; S. W. Doty, '07; A. D. Peters, '05; Mrs. A. D. Peters, '07;

H. P. English, '17; Mrs. H. P. English; Fred S. Hobbs, '17; Mrs. Fred S. Hobbs; Melvin A. Russell, '14; Mrs. Melvin A. Russell; Nan Bunker Weckler, '22; C. A. Weckler, '22; M. G. Jewett, '20; Marjorie S. Jewett, '18; Anah McCool Stelzer, '22; James G. Stelzer, '22; Emmet H. Greenwood, '23; Mrs. H. E. Greenwood; J. L. Bullen, '23; C. L. Richards, '23; Larry C. Archer, '20; Olney J. Dean, '03; Mrs. O. J. Dean; Josephine Dean; Norman Peters; A. S. Armstrong, '06; Mrs. A. S. Armstrong.

STATE BOARD ACCEPTS AGRICULTURAL SCHOOL

President Butterfield has issued the following statement covering the business transacted by the State Board of Agriculture at its meeting on March 19:

Probably the most important action of the State Board of Agriculture at their meeting March 19, was to accept the offer of the trustees of the Menominee County Agricultural School to turn their property over to the Agricultural College. It is the understanding that this property will be utilized for promoting education in Agriculture and Home Economics in the Upper Peninsula. It is expected that it will become a great center for rural betterment in the whole Upper Peninsula. At the outset, an effort will be made to develop short courses, such short courses that will best serve the interest of the rural people of the region; but it is the intention of the State Board of Agriculture to make thorough investigation as to the feasibility of utilizing this new property for a Junior College of Agriculture and Home Making. Of course, it will be necessary for the Legislature to make adequate appropriation for carrying on the new development. The school has been in existence for twenty year. It has served a splendid purpose in that county.

Mrs. Stockman was elected to represent the Board at the meeting of the women

Trustees of Colleges and Universities to be held in connection with American Association of University Women at Indianapolis

The following resignations were accepted:

1. The resignation of W. C. Boman as county club agent for Calhoun county, effective February 28.

2. The resignation of C. M. Kidman as county agricultural agent, St. Clair county, effective March 31.

3. The resignation of Mrs. Marian Rogers Smith, as extension specialist in home management, effective June 30.

4. The resignation of Mr. Lawrence Martin from the English department. Mr. E. A. Finney was appointed to teach surveying in the Department of Civil Engineering, his appointment to become effective April 1, 1925.

Alpha Zeta, honorary agricultural fraternity, has elected the following members: L. J. Braamse, '26, Coopersville; F. A. Harper, '26, Middleville; W. F. Hathaway, '26, Ypsilanti; C. E. Kellogg, '25, Ionia; W. B. Mathews, '25, Hastings; J. Rappleyee, '26; L. E. Teeter, '26, Woodland; L. J. Vincent, '25, Durand. Alpha Psi, honorary veterinary fraternity, announces the election of the following: H. L. Downey, '26, East Lansing; A. J. Durant, '26, W. G. Kinney, '26, East Lansing; R. Learnmonth, '26, East Lansing; J. S. Matteson, '26; G. A. Strum, '26, Pigeon; C. Walquist, '26, East Lansing.

MARRIAGES

SWARTHOUT-HARMS

Homer B. Swarouth and Emma Harms, '17, were married December 29, 1924. They are living at Reese, Michigan.

BUCK-CURTIS

Wesley M. Buck and Dorothy Curtis, '21, were married September 6, 1924. They live in Detroit at 2401 Taylor avenue.

BAKER, '93, ELECTED EAST LANSING MAYOR

In one of the closest elections in years, Luther H. Baker, '93, was elected mayor of East Lansing on April 6. His opponent, H. B. Dirks, professor of mechanical engineering, polled but eleven less votes than the victor. B. A. Faunce was re-elected city clerk without opposition. Mrs. Gertrude Babcock was re-elected treasurer, and Jacob Schepers was again made city assessor. G. C. Dillman, '13, and Fred Dodge, '06, vanquished their competitors in the race for city council. One of the losers was Carl Barnum, '12. Baker is not new to East Lansing municipal affairs. He has been a resident of the city for twenty years, served six years on the board of education and four years as an alderman.

BURNETT, '87, HONORED FOR NOTABLE SERVICE

Students and faculty of the college of agriculture, University of Nebraska, honored Dean E. A. Burnett, '87, for his twenty-five years of service to the institution at a banquet on the evening of April 2, according to a report from Lincoln printed in the Chicago Daily Drovers Journal, of that date. The story describes Burnett's service to the institution in the following:

The dean has given Nebraska over a quarter of a century of service, most of the time as dean of the agricultural college. He has directed the remarkable growth of one of Nebraska's greatest institutions during his time. Ex-Gov. McKelvie will act as toastmaster.

Dean Burnett received his degree from the Michigan Agricultural College and came to Nebraska in 1899 as an instructor in animal husbandry. He became director of the experiment station in 1903 and dean of the agricultural college in 1909 when the industrial college was divided and the

engineering college was moved to the city campus. Nebraska has had but one dean of her agricultural college since it began as a separate college.

In 1899 the institution was housed in two buildings and a number of stock barns. Now there are ten buildings housing classrooms and experiment laboratories.

BASEBALL MEN READY FOR FIRST CONTEST

Baseball practice began anew April 1 after a short vacation. Coach Kobs had good weather to aid him in his efforts to round the squad into form for the season and kept the men busy on the fundamentals of the game, giving them experience in team work as well. He is faced with the task of bringing out a suitable staff of pitchers. From the team of 1924 he has only Wakefield who has had experience on the mound. Carl Baynes, an infielder last year, also shows some promise as a pitcher, and if he recovers from an injury received in sliding practice, may be given an opportunity to display his ability. George Kuhn, brother of B. R. Kuhn, '24, is another possibility, but these two seem to be the limit of pitching talent available.

In other departments of the game the team is more fortunate. Fremont is a dependable catcher who has shown marked talent. He has Kiebler and Corsaut as understudies, although Kiebler will probably be used in the infield. McInnis and Spiekerman are candidates for first base, Hale and Ranney are prominent contenders for second base, Kiebler and Baynes have been used at third and Gauss and Rowley have done most of the work at short, where Sepanik was a fixture for three years. Captain Richards will undoubtedly continue in center field, Fisher is also a candidate for that position, and the rest of the outfield squad is composed of Fleser, Tolles, Thayer and Truman. Beckley may be available for outfield or infield duty and Hayhow is recognized as an infield possibility.

Considerable attention is being given the hitting development of the team. A lack of sufficient pitchers will make it necessary that this department be stressed if a successful season is anticipated. Card, a sophomore who has been ineligible, is also a possible addition to the list of pitchers.

The first games of the year are scheduled for this week when the squad goes to Armour Institute, St. Viators college and Wisconsin on Thursday, Friday and Saturday, respectively. It is probable that the first home appearance of the team will be on April 25 when Western State Normal is assigned to the College military de-

CLASS NOTES

'70

Charles W. Garfield has returned from Deland, Florida, and may be reached at 206 Burton St., S. E., Grand Rapids.

'81

Good reports are coming in from the members of our class and the prospects are fine for a good attendance in June, writes A. B. Turner, secretary.

The boys from Michigan nearly all expect to be present. Bamber, Clark, Jones, Woodman and Lincoln can be depended upon. The three Macks, McKee, McCurdy and McKenny will be there if possible. B. S. Palmer will come from New York, Voigt and Grover from California and Turner from Tennessee.

Dockstader and Phelps are sick and Troupe may not be able to attend on account of his wife's sickness. We hope the sick will recover long before the reunion.

Most of the fellows are intending to take their wives with them. Don't let business interfere this year for there is little chance of another general gathering of our class until our 50th anniversary in 1931.

'88

4753 Ravenswood avenue, Chicago, is the present address for Mr. and Mrs. Nelson S. Mayo.

'93

James S. Holden received his RECORD at 200 Huron building, Detroit, Michigan.

All Together, Now!!!

Are you ready when the song leader gives the signal?
When the bunch sings the old songs don't just hum the tune.
All of M. A. C.'s best songs, with the music, are included in an attractive booklet of convenient size.
You boosters of the Green and White need it on your pianos.
It is indispensable for branch association and club meetings.
Your copy will be mailed prepaid upon receipt of 50 cents at the alumni office. Attractive prices for group orders.
The proceeds will be applied to the Memorial Union Building Fund.

"Hello Man!

Don't forget my Wrigley's. Bring it when you call on sister."

Insure your welcome with this wholesome, long-lasting sweet.

Use it yourself when work drags. It is a great little pick-me-up.

Newspapers in Magazine Form

Unlike anything published to-day! Alumni weeklies, monthlies and quarterlies are carrying live news items of the colleges and personal friends to those men who are doing the majority of the big jobs.

Honestly, isn't this a good time and place to register your name or your product?

We are sure you feel friendly toward the advertisers in this, your own publication.

We believe that your company will benefit from advertising in this and other alumni magazines.

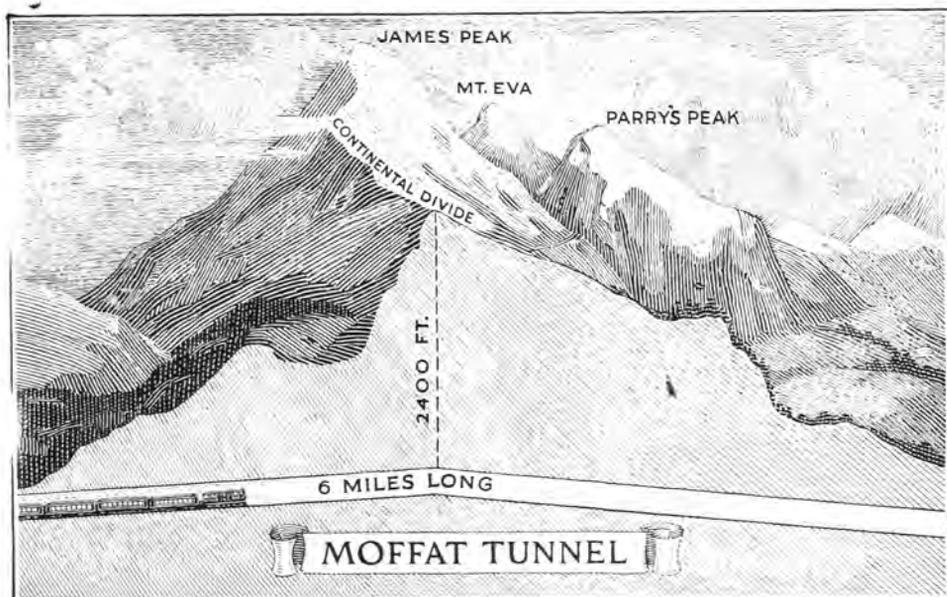

Forty-four alumni publications have a combined circulation of 160,000 college trained men. Advertising space may be bought individually or collectively—in any way desired. Two page sizes—only two plates necessary—group advertising rates.

The management of your alumni magazine suggests an inquiry to

Piercing the Great Divide

The General Electric Company includes many specialists—engineers who know about tunnels; engineers who know about street lighting; engineers who know about the electrification of factories. These men are helping to build the better and happier America in which you will live.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

West of Denver is the Continental Divide; hemmed in behind it is an undeveloped district twice as large as Maryland. That fertile area the new Moffat Tunnel will open up.

General Electric mine locomotives are carrying out the rock, and G-E motors are driving air compressors and pumping water from underground rivers.

The conquests of electricity on land and sea, in the air and underground, are making practical the impossibilities of yesterday. It remains only for men of ability to find new things to do tomorrow. Thus does Opportunity of 1925 beckon college men and women toward greater things as yet undreamed, and to a better world to live in.
