

The M. A. C. RECORD.

MICHIGAN STATE AGRICULTURAL COLLEGE.

Vol. 13.

LANSING, MICHIGAN, TUESDAY, JANUARY 28, 1908.

No. 18

TWENTY-FIRST ORATORICAL CONTEST.

E. J. SHASSBERGER WINS FIRST PLACE.

Will Represent M. A. C. in State Contest at Hope College.

Those who think that because M. A. C. is a technical school there is no interest manifested along literary lines, must have been considerably taken back Friday night to note the interest taken in the twenty-first annual oratorical contest, by which the orator, who is to represent the College at the state contest at Hope College, was selected.

The following is the

PROGRAM.

Music..... M. A. C. Orchestra
The Cry of the Children.

Roswell G. Carr

Union Literary Society.

The Edge of the Future.....G. W. Dodge
Eclectic Society.

American Materialism,
E. J. Shassberger
Hesperian Society.

Vocal Solo.....R. A. Turner
School and Hand.....Glenn A. Gilbert
Columbian Society.

A Civic Necessity.....R. G. Hoopingarner
Aurorian Society.

Music.....M. A. C. Orchestra
Presentation of Medals.

Miss Helen Esselstyn

The result was close. There was much speculation as to who would secure the medal but the decision of the judges gave Mr. Shassberger first by a margin of less than two points above Mr. Hoopingarner. Mr. Gilbert was given third place.

Judge Carpenter, Judge Wiest and A. M. Cummings of Lansing, L. L. Barbour of Detroit and Geo. E. Rowe of Grand Rapids, acted as judges.

One other point brought out at the contest is that M. A. C. has an orchestra; an orchestra that is a credit to the institution, and should receive loyal support.

AN ENGINEERING EXPERIMENT STATION.

Bill Now Before Congress to Establish One in Each State Similar to the Agricultural Experiment Station.

M. A. C. May Get a Slice.

A bill has been introduced in congress known as the McKinley Engineering Experiment Station Bill which calls for the establishment in each state of an engineering experiment station on lines similar to those upon which the agricultural experiment stations have been founded. There is no doubt but what such stations would be productive of much good work in industrial and engineering enterprises.

Just where the Michigan station will be located, should the bill pass, is a matter of conjecture, but it would seem that M. A. C. might reasonably expect a slice of the appropriation for carrying on experimental work.

DEBATING CLUB.

At the meeting of the Debating Club last week it was decided to hold the second preliminary debates for the Ypsilanti contest on Saturday, Feb. 8th, instead of on Feb. 7th, as was announced last week. They will be held as follows:

Team I. at the Columbian Rooms.

AFF. NEG.

C. C. Taylor Z. S. Graybill
C. T. Nash G. A. Barcroft
A. H. Perrine W. M. Rider

Team II. at the Union Lit. Building.

AFF. NEG.

H. T. Kempster F. H. McDermid
C. J. Oviatt R. T. Kurtz
T. H. Offer R. P. Holdsworth

Team III. at the Aurorian Rooms

AFF. NEG.

A. J. Runner G. F. Hubbard
P. H. Piper W. D. Frazer
J. C. DeCamp J. J. McDevitt

The societies named will have open meetings so that anyone may hear the debates. This time those winning the first four, instead of the first three, will go on with the third preliminaries, and thus more men will be given a chance.

At the regular meeting of the Debating Club this week, the question: *Resolved*, That the army canteen should be abolished, will be discussed. Messrs. Yorker and Benedict will defend the affirmative, while Messrs. Grinnell and Marsh will advance the negative. Prof. King will be the critic. Everyone is invited to come. Room 7, College Hall, next Thursday from 7 to 8 p. m.

THE M. A. C. ENGINEERING SOCIETY.

For a year or more there has been no Engineering society at the college save in theory. Now there is such a society in fact. On Thursday of last week there was a preliminary meeting of engineering students interested, at which a temporary organization was effected and a committee appointed to prepare and report a Constitution. This instrument was presented on Monday evening of this week, after discussion which resulted in some changes, it was adopted, and the society proceeded to elect officers as follows:

President, A. E. Marsh.

Vice President, E. J. Shassberger.

Corresponding Secretary, J. V. Gouger.

Recording Secretary, G. F. Kamps.

Treasurer, R. L. Kurtz.

Press Reporter, A. Sobey.

Executive committee, the president and recording secretary *ex officio* and Messrs. H. H. Musselman, H. C. Sherman and H. C. Pratt.

As soon as practicable regular meetings will be held, the programs for which will be published in advance. A feature of the work of the society will be securing lectures by nonresident engineers of note in civil, electrical and mechanical lines.

Why is it folks sit this way in
The car we miss,
While in the car we catch at last
We're jammed like this?

THE COLLEGE ORCHESTRA.

The M. A. C. orchestra made their first public appearance at the Oratorical contest Friday evening and were well received by the audience. The organization is composed entirely of college students all but two of whom are members of the college band, and should receive the support of the student body. Arrangements may be made with the manager, L. G. Johnson. The following are the members:

Piano,—R. Rudzinski.

Violins,—K. D. Van Wagenen, N. J. Sproat.

Cornet,—S. G. Johnson.

Clarinet,—K. E. Hopphan.

Flute,—S. A. Martin.

Trombone,—C. Clippert.

Traps,—W. F. Ellison.

A GREAT PHILANTHROPY.

Perhaps no greater work is being done for boys than that which was begun a few years ago—the instituting of boy's camps for the poor little waifs who crowd the streets of our larger cities. Many of us have been ignorant of this work, but last Thursday evening those who attended the Y. M. C. A. meeting were brought into sympathy with it.

Mr. Frazer who was the director of the Detroit Free Press Fresh Air Camp last summer gave a very detailed account of this work among the boys of the city. The object of the camp is to give the little fellows who have never had a taste of pure country air and fun an opportunity to enjoy these pleasures free of any cost to them other than that of parting with the city real estate which they take with them. In these camps the boys are given a higher standard of living and are taught by putting into practice the importance of cleanliness of mind and body. This work is important and deserves the support and encouragement of every one. It means something not alone to the boys themselves but also to our nation for it must be remembered that these little fellows who are now selling papers and shining shoes are sprouting up into manhood and will soon have a share in our government. Sympathy and support to this work is what Mr. Frazer endeavored to and succeeded in driving home to the young men present.

Sunday evening the chapel was packed to overflowing. Miss Landis, State Student Secretary of the Y. W. C. A., gave a very inspiring talk on the things fundamental in living a Christian life. It was also a pleasure to listen to the Industrial School Orchestra, it is to be commended for its good work.

Next Sunday evening Mr. Holmes, the Superintendent of the School for the Blind, will address the Y. M. and Y. W. C. A.

'06.

Miss Rosamund Kedzie has been elected to the position of assistant in domestic science and art at the Akron, Ohio, high school.

ALUMNI.

NOTICE.

Since the alumni of the College took no action, at their meeting last spring, regarding the "Memorial Building Fund," and as the original project has been abandoned through inability to secure a sufficient sum to erect the building as planned, I am instructed by the State Board of Agriculture to return the subscriptions. Through inability to locate the following, their subscriptions have not been returned. Anyone knowing the present address of any of the persons named below will confer a favor by informing me of the same.

Respectfully,

A. M. BROWN, Sec.

E. H. Adams.
G. M. Angier.
R. J. Baker.
C. H. Briggs.
G. D. Bansard.

GIFT TO THE COLLEGE MUSEUM.

Valuable Collection of Birds and Quadrupeds Left at College by the Late Levi Broas, of Belding.

Through the generosity of the heirs of the late Levi Broas of Belding, Michigan, almost his entire collection of quadrupeds and birds has been presented to the Agricultural College. The collection consists entirely of mounted specimens and includes examples of most of the haired animals native to the state, from bear and deer to flying squirrels and gophers, in addition to which there are upwards of five hundred birds, large and small. Most of these are from the region about Belding, but Mr. Broas received many from other parts of the state as well as from several of the Western states, so that the collection includes a number of forms which do not occur in Michigan.

Some of the species are new to the College collection and there are other numerous specimens of comparatively rare birds which will make valuable additions to the museum shelves. Mr. Broas, who was an enthusiastic naturalist, took up the study and practice of artistic taxidermy after he had passed middle age, and the large collection which he left bears witness to his industry and skill along these lines. His son, Mr. Charles Broas, of Lansing, recently communicated to the College the wishes of the heirs with respect to this collection and last week Professor W. B. Barrows, of the College, visited Belding to inspect the collection and arrange for its transfer. This will be accomplished at an early date and a large part of the specimens will be placed on exhibition as soon as proper arrangements can be made.

The College museum has grown rapidly during the last ten years and now contains specimens of most of the natural products of the state, being especially well supplied with specimens of its native reptiles, birds and mammals. As the state becomes more thickly settled many of its animals decrease in numbers and approach extinction and it is especially advisable that good specimens of those forms which were formerly abundant, but now rare, should be gathered into public museums where they will be safe, properly cared

for and always accessible to the general public as well as to the scientist. The generous act of the Broas heirs in the present instance is commended to the thoughtful attention of others having valuable collections which are likely soon to be scattered and lost.

Y. W. C. A.

The Y. W. C. A. was especially interesting this week. The girls that were to the Bay City convention gave talks on the meetings. Miss Gilchrist gave her general impression which added to the interest of the meeting.

The girls that attended this convention feel that more girls would attend these conventions if they only knew what a great spiritual help they are.

We are glad to have Miss Landes with us this week. We hope and pray that we will all be strengthened and helped by her visit here.

Monday, Tuesday and Wednesday afternoons from four until six Miss Gilchrist has planned for Miss Landes to meet the girls so that we may be better acquainted and do better Y. W. C. A. work.

INTERCOL. COM.

HORT. CLUB.

At the Hort. Club last Wednesday night, Prof. Shaw gave a very interesting talk on "Broadening the Vision." The Professor thought that, although the tendency of the age is toward specialization, yet a general knowledge of all subjects is essential to success. Apples were served.

This was one of the largest attended meetings we have had, and we hope that this interest in the work will continue. Next Wednesday night, Jan. 29, Mr. John F. Nellist, a prominent lettuce grower of Grand Rapids, will talk on "Greenhouse Farming." Everybody welcome.

H. A. TAFT, Sec'y.

FARMERS' CLUB.

Prof. Shaw will lead in a discussion on "Profitable Live Stock for Michigan," which will be followed by a general discussion by members of the club at the Farmers' Club 6:30 on Feb. 4. Every one welcome.

NOTRE DAME MEETS LOCAL FIVE FRIDAY NIGHT.

Game will be Held in Armory.

What promises to be the most exciting and one of the important games of the season will be played in the Armory, Friday night, when Notre Dame meets M. A. C. in basketball under intercollegiate rules which allow much more freedom in regard to fouling, and is more strenuous. Notre Dame has one of the strongest teams in the west, and was only defeated by Wabash by a small score. The latter college has held the undisputed championship in basketball in the west for several years. Many students do not care for basketball because it is not strenuous and exciting enough, but if the team has the student body back of them with their rooting, on Friday, there will be no doubt but that the game will be a hair raiser from start to finish.

TRACK MEET ARRANGED.

About 100 Men Respond to Call.

As the days begin to lengthen again, comes the interest in track events. Coach Brewer already has the schedule of indoor and outdoor meets nearly complete with a goodly showing of men for each position. The first call for track candidates was issued for last Wednesday, at which time about 60 handed in their names. Since that time enough more have applied to make the present squad a out 100.

The following meets have been arranged:

INDOOR MEETS.

Olivet at M. A. C. (date announced later.)

Notre Dame at Notre Dame (about March 1.)

OUTDOOR MEETS.

Cross country run with Olivet, March 7.

Local cross country run, March 18.

Varsity meet, April 25.

Alma at M. A. C., May 2.

D. U. S. at M. A. C., May 9.

C. M. Interscholastic at M. A. C., May 16.

Notre Dame at M. A. C., May 22 or 23.

Armour Institute at Chicago, May 30.

Among the old track men who will be out this season are: Capt. Carr, for distance runs; Oviatt, Bignal, Allen and Griffin for quarter and half mile; Gongwer and Gilbert for pole vault; Wheeler, McKenna and Campbell for weights; Hansen, Pearsall and Small for hurdles; and Griffin and Vaughn for dashes. These men should show up well this year but there is plenty of room for new material, especially among the weights, jumpers, hurdlers and sprinters. Capt. Carr should also have help in the long runs.

BEHIND THE SCENES IN A FAMINE.

BY C. E. PARSONS, '00.

With prosperity smiling on her teeming millions, Columbia little knows either of the squalor of European slums, the struggle of an oppressed peasantry, or the multitudinous woes of oriental famines. My first introduction to these afflictions of China, the "open sores of the east," was during a year of such calamity, in Shensi, near the ancient capitol of China, Si-an. Drought and the growth of opium had emptied the local granaries, and deficient means of transportation had insulated the district from more favored regions beyond the mountains. Our walks were soon punctuated by scenes which no pen can describe, and thousands of dollars of relief were voted from the throne of the Sun of Heaven. Practically none reached its destination, and foreign relief was given. This district had been one afflicted in 1878 when 9,500,000 Chinese perished from lack of bread during twelve months, despite the strenuous efforts of the imperial throne to check the mortality over northern China.

Forty days of rain in 1907, inundated the plains of Kiang-Peh along the Grand Canal, and to the north, in eastern China, until the silted streams refused to do their part, and, 15,000,000 Chinese were left with ruined crops.

Generously the United States responded to the cry for help, and \$1,600,000 (Mexican) of relief (in-

cluding a small amount from other lands), was poured into the district, effectually for once, breaking up a famine, conferring large benefits in the canal and other relief works, upon the country, destroying age-long superstition, opening hearts to the gospel, and leading to the establishment of closer relations between the two nations, which can but react favorably upon their commercial, and other interests. The boycott of American work is defunct, and last week trades returns from the Chinese Customs, reveal a revival in the importation of American commodities. Thus, incidentally, the famine has proven that "Bread is better than diplomacy," and the Golden Rule is operative in healing the affairs of nations.

The one thought however in administering the famine relief was to save life. A railway or bridge disaster comes to startle the general public, but a famine within three weeks of San Francisco, with several millions of fellow-beings facing death, appealed with greater reality to the instincts of humanity, because of the great proportion.

While distributing relief in the Concentration camp, transshipping with others the tons of foodstuffs and seed arriving at our base, daily superintending 7,500 refugees in the construction of roads superintending the feeding of 22,000 at a flour depot, at the same time building bridges, and measuring earth for 4,000 men and later, giving 38,000 sacks of American and Australian flour in unreached districts. I had ample opportunity for witnessing the inner workings of a great famine. Some 90 foreigners faced the task of "driving the wolf from the door," of those whose arms had fallen nerveless to their sides. More than 100,000 men were employed on canal and road work, the repairing of dykes, bridges, etc., and quantities of seed wheat, potatoes, maize, etc., were distributed.

During the period extending between January, 1907, and July, 1907, the work was carried forward, and more recently two of us have distributed Manchurian seed-wheat for 40,000 acres in Antony, while others have enabled the farmers to sow 15,000 acres in other districts. The remainder of relief work will be done in restricted areas by two of us detailed for this work and will include a Christmas gift of \$5,000, \$10,000 Mexican, contributed by American, English, Australian, New Zealand, Chinese, and other donors, and the opening of drainage canals to safeguard 3,000 square miles from future floods. This district skirts the old bed of the Yellow river and the coast of the Sea of China.

Chinese official relief has relieved thousands, but it has been stated by the eminent viceroy Tuan sang, ruler of 80,000,000 (eighty millions) that foreign relief, chiefly American, has saved the situation by rescuing 1,000,000 from certain starvation. The number that perished owing to the famine in regions where no foreign relief was permitted is placed by the same authority at 1,000,000 persons.

Whatever views parents or teachers themselves should hold upon the duties of teachers, there is no doubt that the boys should have firmly in their heads the good old fashioned idea that it is their duty to learn, and not that it is the duty of the teacher to teach them.

HOLLISTER BLOCK
WOODBURY'S OLD STAND

ABOUT THE CAMPUS.

Instructor Stephens has been con-
fined in the hospital with a severe
attack of grip.

A community social will be held
at the home of Pres. and Mrs.
Snyder Thursday evening.

A special election for the purpose
of electing a school board has been
called for Feb. 8 by the East Lan-
sing council.

The short course students did the
capitol and other points of interest
at Lansing Thursday under the
direction of Prof. Smith.

Mrs. J. J. Meyers and Mrs. W.
J. Wright entertained the members
of Dr. Blaisdell's Sunday school
class Thursday evening.

The smiling countenance of B. A.
Faunce, former editor of THE REC-
ORD, was seen about the campus
Monday. We are glad to see him
looking well and prosperous.

The cottage cheese makers, are
busy filling orders. Those who are
desirous of obtaining their products
are kindly requested to file their or-
ders with the Dairy Dept. in fore-
part of each week.

M. E. Valleau, sp., during the
year '80-'81, called on friends at
the college recently. Mr. Valleau
was a great lover of botany and has
named a son recently born Asa
Beal Valleau, for Asa Gray and
Dr. Beal. We hope that the fact that
this is number thirteen in Mr. Val-
leau's family will not prevent his at-
taining to the high standing which
such a name would indicate.

The Themian society were the
guests of Mr. and Mrs. M. D. Pick-
ett of Okemos Saturday evening.

Merle E. Valleau, with '11, and
wife (Roxie Palmer, with '08) ex-
pect to enter college again next
September.

A modern large size Corliss en-
gine will soon be purchased by the
engineering department for experi-
mental work.

Mrs. Snyder entertained a party
of College ladies at a one o'clock
luncheon last Friday in honor of
Mrs. Edward Gibson, of Detroit.

A cross country run with Olivet
will be one of the athletic features
of the winter term. Just when or
where it will be pulled off has not
been decided.

Dr. Blaisdell and President
Dickie of Albion spoke on the
temperance question before a mas-
meeting held under the auspices of
the W. C. T. U. in the auditorium
of the Masonic temple at Lansing
last Wednesday evening.

A "winter party" was given by
the Feronian society in the Armory
last Saturday evening. Nearly 60
couples were present and joined in
the grand march led by Miss Mable
Ferguson and Mr. Lloyd Blundon.
Several "old girls" were back for
the party, among them being Cecil
Alden and Hazel Kelsey, of G and
Rapids, and Gertrude Hellenthal.
Prof. and Mrs. Sackett and Mr.
and Mrs. F. W. Robison added to
the pleasure of the company by
their presence.

About 30 of the young ladies saw
William and Thomas Jefferson in
The Rivals last Tuesday evening.

The next Promenade concert will
be given in the Armory Friday
evening, Feb. 21st. Mark this date
on your calendar and watch for the
program.

Prof. Meyers gave a lecture on
eye strain before the E. M. C. club
at Lansing Friday night. Demon-
strations were made with models
made for the occasion.

H. S. Bailey, last year instructor
in chemistry at M. A. C. and who
since has been with the department
of agriculture at Washington, has
been transferred from the dairy di-
vision to the division of food inspec-
tion and will soon make an inspec-
tion of the food inspection labora-
tories at New York, Chicago, Kansas
City, etc.

A 30-page bulletin by Prof. J. J.
Jeffery, entitled an Elementary Lab-
oratory Study in Crops, has been re-
cently issued by the Department of
Public Instruction and is being dis-
tributed to the teachers of the State.
It contains studies in seed germina-
tion, the quantity of food stored in
seeds, depth to which seeds should be
planted, effect of age on the vitality
of seeds, vitality of bin grains, vi-
tality of sprouted grains, vitality of
kernels from different parts of the
ear, effect of freezing upon the vi-
tality of seed corn, necessity of air
for the germination of seeds, effect
of temperature on germination, ex-
ercises in corn testing, judging, etc.

Mrs. Minnie Hendricks has been
quite ill with the gr p.

The members of the Ero Alphan
Society were entertained last Satur-
day at the home of Miss Edith Roby,
five miles northeast of the college.

President and Mrs. Snyder will
entertain the members of the Y. M.
and Y. W. C. A. at their home
Friday evening in honor of Miss
Hallie Landes, student secretary of
the Y. W. C. A.

Dr. L. Jodidi, who was appointed
at the last meeting of the Board of
Agriculture as research chemist in
the experiment station, comes very
highly recommended. He obtained
his technical education at the Uni-
versity of Dorpat (Russia) and the
University of Giessen (Germany),
receiving from the latter the degree
of Doctor of Philosophy. He af-
terwards spent several years in the
laboratories of Prof. Dr. A. W. von
Hofmann, Prof. Dr. Emil Fischer,
and Dr. C. Scheibler, of Berlin.
Since coming to this country he has
been employed as chief chemist in
some of the large sugar factories,
having spent one campaign with the
Sanilac Sugar Refining Co. at Cros-
well, Mich. Dr. Jodidi has pub-
lished a number of scientific articles
both in Europe and in this country;
among them may be mentioned the
following:

"Fuel Economy in Sugar Fac-
tories."
"Recovery of Sugar from Sy-
rups and Molasses."
"Utilization of the By-Product
in sugar Factories."

BASKET BALL.

Local Five Loses to Detroit Y by Narrow Margin. Easily Defeats Grand Rapids Y.

The team was defeated for the first time this season at Detroit last week Monday.

The following account was taken from a Detroit paper:

Detroit, Jan. 24.—In a game filled with excellent passing on the part of the local Y. M. C. A. representative five and a number of hair-raising long shots which scored, by M. A. C., the local quintet defeated Coach Brewer's farmer five last evening in the "Y" gym, 33 to 20. The game was fast to say the least, and the M. A. C. was represented by the fastest five they have ever shown on a local court, and they made it necessary for the "Y" boys to go at top speed from start to finish to beat them as bad as they did.

A large delegation of the M. A. C. alumni attended the game, which made the rooting a very even proposition, the good plays of each side being cheered with equal volume. Coach Brewer, of the college team, refereed the contest in excellent style and kept the game going at top speed, and did not break up the play when it got heated but let them run, calling fouls for roughing only when absolutely necessary, the contest bordering on the intercollegiate style.

Saturday night M. A. C. lined up against Grand Rapids Y. M. C. A. in the Lansing Y. M. C. A. gym and won a one-sided game by the score of 74 to 16. The Y. M. C. A. boys were simply smothered by the clever work of M. A. C. and could do nothing against the team work which at times was of the sensational order and was so fast that it seemed to bewilder the visitors. Grand Rapids however never showed the white feather a minute and played with a determination that brought them deserving applause. M. A. C. was careless at times in fumbling the ball while Dickson got mixed up with his own men on two occasions in his anxiety to get the ball. Vondette scored sixteen baskets. Mills and Merz were used in the second half and played good games.

In a curtain raiser the Reserves defeated Lansing Y. M. C. A. 32-15, but had to play hard every minute. The line up for them was Gorton, Duthier, Tanner, Campbell, Belknap, Burroughs, Anderson.

The line up for the big game:

GRAND RAPIDS	M. A. C.
Spoltstra	RF McKenna
Chamberlain	LF Dickson
Odgen	C Mills
Beattie	LG Vondette
Bennett	RG Krehl
	Merz

Referee—Brown.

'01-'02.

It may be of interest to members of the classes of '01 and '02 to learn that M. A. Crosby, '02; Lyman Carrier, '02; Arthur E. Kocher, '02, and Gordon E. Tower, '01, have recently purchased a large plantation in one of the richest portions of Mississippi. This plantation lies in what is known as the "Black Prairie Belt," and is admirably adapted to the production of alfalfa and live stock. It is the intention to convert this plantation into a model alfalfa and hog farm.

'06.

A. A. Towner is now in the manufacturing department of the Frederick Stearns Co. at Detroit. His private address is 176 Bellevue Ave.

R. C. Graham, '06, called on M. A. C. friends last week on his way back to Davenport, Iowa, after a few weeks' visit with friends in Michigan. Mr. Graham is junior member of the Davenport Engineering Concrete Co.

'07

We are sorry to announce the illness of Mr. M. F. Johnson at Milo, Mich., of typhoid fever. Previous to his illness he was with the Ill. Central R. R. at Council Hills, Iowa.

The College Inn

BASEMENT ABBOT HALL

Several people did not know of our 1-2 OFF GERMAN BASKET SALE in time to buy.

We will give our last one-half off sale next FRIDAY AND SATURDAY January 24 and 25. Fancy and staple office baskets, students and work baskets, clothes hampers, etc.

Cameron & Arbaugh Co.
P. S.—One-fourth off on all willow baskets.

ALL MEATS

May look alike to you, but there is a very great difference in the quality we handle and that sold by some other markets. We handle none but the very best. Like the pudding, the proof of good meats is in the eating. A trial will convince you that you ought to trade with us. We make daily trips to the College. BOTH PHONES. Careful attention given to phone orders.

GOTTLIEB REUTER,
Washington Ave. South

122 Ottawa St. E.

AVERAGE men are as colorless as average clothes. College men are outside the average—their togs *have* to be—College Brand Clothes *are*. Just a bit more dash to 'em, a great sight more style—and the precisely right amount of fit. Though exclusive their price isn't enough to *exclude* you from wearing 'em. For the young man and the "like-to-be-young."

O'CONNOR, Clothier.

Sole Agents for College Clothes.

Dairy Employment Agency

Lansing, Michigan.

F. O. FOSTER, Proprietor.

Office 511 Oakland Bldg. Cit. Phone 1590 Bell Phone 204
