

The M. A. C. RECORD.

MICHIGAN STATE AGRICULTURAL COLLEGE.

VOL. 14.

LANSING, MICHIGAN, TUESDAY, JANUARY 19, 1909.

No. 16.

COLLEGE ACQUIRES ACRE OF LAND BY "ADVERSE POSSESSION."

Reservation Unnoticed in Original Transfer.

CONTAINS SITE OF NATIONAL WEATHER OBSERVATORY.

In transferring to the United States Government .49 of an acre of ground just west of the college hospital that has been selected as a site for the weather observatory, it was discovered that the college did not hold a clear title to that particular parcel of land. Several years before the college was established, in transferring land which is now a part of the college farm and campus, one acre was reserved by the owner which, curiously enough, contains the very spot which the college now wishes to deed to the United States Government. Though several transfers were made before the land finally became college property the exception seems not to have been noticed and perhaps never would have been had not the government officials decided upon this particular spot.

Now Uncle Sam is minutely particular about the titles of the lands he holds and the problem now is, how to turn over the property, title clear. Fortunately no one has ever disputed the college's ownership of the property and as it has now had undisputed possession for over fifty years it has, by the laws of the State of Michigan, acquired title to the property by the right of "adverse possession." Attorney Samuel L. Kilborne, of Lansing, who was one of the early students of the college, who has been a resident of the city nearly all his life and has kept in close touch with college affairs, has made affidavit that the college has held possession of the land in question, undisputed, for over fifty years and Dr. Beal, who has been connected with the college for forty years, has made affidavit to much the same effect. The title will therefore probably be adjudged clear.

ROUND-UP INSTITUTE.

The Annual Round-up Institute will be held this year at Mt. Pleasant, Mich., Feb. 23-26, and promises to be one of the best ever held in the state. Mt. Pleasant is in the exact geographical center of the state surrounded by a good farming country, has excellent facilities for accommodating visitors and is easily reached by railroad from all sections. The program will consist of lectures by experts from all parts of country interspersed with music and readings to make an entertaining as well as an instructive session.

Tuesday's program will deal largely with soils and crops; Wednesday's with corn and forage crops; Thursday's with fruit and the dairy, and Friday's with livestock. Women's meetings will be held on Wednesday and Thursday

afternoons and on Friday afternoon a special educational section will be held.

The programs are now in the hands of the printer and may be had at the office of the Superintendent, Prof. L. R. Taft, or will be mailed on application to either Prof. Taft or the President's office, East Lansing. Student's desiring programs sent to their friends can leave their names with Prof. Taft or at the President's office.

TAKE NOTICE! LISTEN!

ORATORICAL CONTEST FRIDAY EVENING.

On Friday night, January 22, the annual oratorical association contest of the college takes place. Although unfortunate, in a way, in not having a large number of contestants entered, yet we think that no better program has ever been gotten up, for the contest. It contains some of our most representative students and promises to be unusually close and interesting.

As our college courses are mostly technical the interest in such affairs is not as great as it is in schools of a purely literary nature. Nevertheless we believe them to be well worth support, and to you, as representative students, and friends of our Alma Mater, we must look for support.

It appears as though this year is to mark a turning point with the Oratorical Association, for if the contest is not a success, the oratorical work may be dropped. This means that no representative will be placed in the State contest, or eligible for it, or the Interstate contests. In the eyes of other colleges, our prowess, and progress as gained in other lines of college activities, will suffer a serious thrust, for they may think that M. A. C. students are not capable of handling this work, and draw out of such feats as are seemingly unsuccessful for them.

We should entertain the State Oratorical League at the contest to be held at M. A. C. next year, and so would like to see sufficient interest manifested to warrant our going ahead with preparations for that contest. If we have liberal support in the local contest, showing to us that the student body is with us in our efforts to place M. A. C. at the head of our Michigan colleges in oratory as well as in football, debate, etc., then we know that we shall not fail in the larger undertaking of making preparations for the larger contest.

In numbers there is inspiration, and we hope that the students, faculty, and friends will take this opportunity to hear a good entertainment, not only to show appreciation to the orators for their work in getting up the program, but also to have it a financial success and a fixed social event of the college year. The contestants have very good topics for discussion. The program is as follows:

PROGRAM.

Music, M. A. C. Orchestra.
The Development of a National Conscience, A. J. Hutchins, Columbian Society.

Unto One Another, R. A. Turner, Euno-mian Society.

Vocal Solo, W. C. Maliskey

True Aristocracy, Leslie H. Belknap, Aurorian Society.

A Champion of the American Idea, C. J. Oviatt, Union Literary Society.

Selected Reading, Prof. E. S. King.

Presentation of Medals, Miss Shirley M. Gardner.

Music, M. A. C. Orchestra.

We trust that as many as possible will make an effort to be present. Expecting to see you at the armory at 7:30 o'clock, Jan. 22, (Friday night), we hope to give you your money's worth and a pleasant and profitable time.

Yours truly,

M. A. C. Oratorical Association.

R. G. HOOPINGARNER,

President.

FIRST PRELIMINARY DEBATES.

The first preliminary debates for the Ypsi contest were held last Friday night. Four teams debated, out of which twelve men were picked for the second preliminaries. The teams debated in the Columbian rooms, Aurorian rooms, Euno-mian rooms, and Y. M. C. A. rooms, the results being as follows:

In the Columbian Rooms:

Decamp, first.

Walker, second.

Lyon, third.

Judges, Sec. Brown, and Prof. Eustace.

In the Aurorian Rooms:

Nash, first.

Chapin, second.

McDermid, third.

Judges, Prof. Ryder, and Mr. Leffler.

In the Euno-mian Rooms:

Crane, first.

Spratt, second.

Kloeffer, third.

Judges, Prof. Hedrick, and Mr. Wright.

In the Y. M. C. A. Rooms:

Van Wagenen, first.

Hulett, second.

Kurtz, third.

Judges, Prof. King, and Prof. Meyers.

These men are made up into two teams of six each, which will debate in the second preliminaries as follows:

TEAM I.

Affirmative	Negative
Van Wagenen	DeCamp
Chapin	Lyon
McDermid	Kurtz

TEAM II.

Affirmative	Negative
Crane	Nash
Hulett	Walker
Spratt	Kloeffer

The date of the second preliminaries is not yet fixed, but all debaters are urged to get their respective teams organized immediately. The date will be decided upon at the regular meeting of the Debating club this week. Everyone should come Thursday at 7 p. m. in room 7.

ALUMNI

In the Record office there is kept a card catalogue of all students who have ever been connected with the college. In order that this may be kept up to date, please notify us of any change of address or occupation.

W. J. WRIGHT, Editor.

'03.

W. M. Brown of the above class was at the college Tuesday in the interest of the Whitehead & Kales Co. of Detroit with which firm he has been connected since his graduation.

J. G. Moore, assistant professor of horticulture at Wisconsin, was at the college last week calling on old friends. Mr. Moore is just recovering from a severe attack of typhoid fever.

'05.

A. J. Anderson, '05 and Miss Mary Tawney, were married in Cleveland, Ohio, Jan. 6th, 1909. At home 10753 Lee Ave., Cleveland, Ohio.

'06.

W. Neilson is now instructor in civil engineering at the University of Michigan.

'07.

O. K. White, of the above class, and Miss Jessie Carver, were married December 15, 1908. At home after February 1, Hart, Mich.

The wedding of Mr. Herbert R. Beckwith, of the class of 1907, and Miss Ora Luther, formerly a student here, took place Christmas Day at Jackson. They are to make their home at Albany, N. Y. An amusing little incident took place during their wedding trip, at Buffalo, N. Y. "Beck" told the story himself a day or so later. While in Buffalo they stopped at the beautiful, new "Statler." In registering it seems Beckwith registered only for himself, neglecting to register for his bride. Shortly after they had gone to their rooms the telephone bell rang. "Beck" answered the call and a man's voice asked, "Is this Mr. Beckwith?" Beckwith answered in the affirmative, wondering who on earth it might be. The man at the other end then said, "This is Mr. —, the hotel clerk. Didn't you take a lady to your apartment with you?" Taken somewhat aback, Beckwith replied, "Why, yes, what's the matter?" "Well, then," said the clerk, "Come down here and register like a man."

'08.

W. M. Rider, who has been in charge of the Crab Tree Dairy at Lake Bluff, Ill., has recently accepted a position at the East Michigan Asylum at Pontiac as foreman in charge of the Holstein herd of that institution.

With '11.

Arthur J. Youngs, who entered with the class of '11, is now with the U. S. A., and is stationed at the Presidio of San Francisco 60 Company C. A. C.

TUESDAY, JAN'RY 19, 1909

BREEDERS' AND FEEDERS' MEETING GRAND SUCCESS.

The eighteenth annual meeting of the Michigan Improved Live Stock Breeders' and Feeders' Association, held at the college Jan. 12 and 13, was, in point of interest and number of members present, by far the most successful meeting ever held.

The meeting opened at 2 p. m., Jan. 12, with sectional meetings of the various separate associations; the Short Horn Breeders' Ass'n, Holstein Friesian Ass'n, Jersey Cattle Club, Guernsey Cattle Club, Merino Sheep Breeders' Ass'n, Oxford Down Sheep Breeders' Ass'n, Berkshire Ass'n, Duroc-Jersey Breeders' Ass'n, and Poland China Breeders' Ass'n, together with the newly organized Michigan Horse Breeders' Association and the re-organized Red Polled Breeders' Ass'n. Probably at least 300 delegates were present at these meetings, the Holstein-Friesian Association being the most largely attended. The National Meeting of the American Berkshire Breeders' Association which will be held at the College March 16, 17, and 18 next, was the main topic of discussion at the Berkshire meeting.

A union meeting of all sections was held at 5:00 p. m., at which Dr. Marshall and Dean Shaw discussed respectively, The Present Status of Hog Cholera Prevention and Contagious Abortion Among Cattle. The recent prevalence of these two diseases made this meeting of particular interest to many breeders.

Tuesday evening at 7:30 the annual banquet was held in the dining rooms of the Women's building, which was attended by over 250 guests. President Snyder acted as toastmaster and introduced as speakers of the evening, Gov. F. M. Warner, Prof. E. A. Burnette (M. A. C. '87), of Nebraska Agricultural College, Hon. L. W. Walker, Hon. C. R. Campbell, Hon. H. W. Shantz, Dr. Waterman (M. A. C. '91), Hon. D. D. Atkin and Hon. R. D. Graham, Pres. of the Board of Agriculture. Music was rendered by the M. A. C. orchestra and Mr. R. A. Turner added to the pleasure of the evening with well rendered solos. These banquets, by promoting good fellowship and bringing together in a common interest, the representatives of the various associations

do much to stimulate interest in better live stock for the state.

The least that can be said for the service which was in charge of Miss MacDonald of the domestic science department is that it was perfect.

Wednesday's meetings were held in the armory at which over 300 people were in attendance. After the address of the President and the report of the secretary and treasurer, H. H. Dean, professor of dairy husbandry at Ontario agricultural college gave a strong address on the improvement of live stock discussing methods and practices. Dr. Marshall spoke on bovine tuberculosis and its economic bearing and J. J. Ferguson, formerly instructor in the live stock department at M. A. C., now with Swift & Co. of Chicago, spoke on the methods of eradicating this most serious disease of cattle. Mr. Ferguson has probably collected the most valuable data on this subject of anyone in this or any other country.

Beef Production in the corn belt was the interesting topic of a practical talk by Director Burnett (M. A. C. '87) of the Nebraska experimental station which was followed by a paper, "Benefits of Improved Blood to the General Farmer," by Mr. G. Arthur Bell of the U. S. Dept. of Animal Husbandry.

An attempt by Hon. W. H. Shantz of Hastings to introduce resolutions favoring a revision of the tariff created considerable discussion and resulted in a tie vote. It was laid on the table.

Much credit for the success of the meeting is due to the untiring efforts of Prof. A. C. Anderson, secretary of the association, who left no stone unturned to make it a success.

The officers for the following year were elected as follows:

Pres.—E. N. Ball, Ann Arbor.
Vice Pres.—Dean R. S. Shaw, East Lansing.
Sec.—Prof. A. C. Anderson, East Lansing.
Treas.—C. S. Bartlett, Pontiac.

EXECUTIVE COMMITTEE.

T. F. Marton, Bay City; W. H. Shantz, Hastings; H. H. Hinds, Stanton; G. B. Hupp, Birmingham; F. R. Crandall, Howell.

READING AND CONCERT.

What promises to be one of the best entertainments of the year will be given Wednesday evening February 3rd, by Professor E. S. King and the band.

Professor King has never appeared at his best before a college audience, having always before given but a five or six minute sketch on a program, giving him no opportunity to present anything of a standard production. February 3rd, however, he will take fully one-half of the time of the program, and will present Shakespear's "Merchant of Venice."

The band is also working up some first-class compositions for the occasion, so the program will be one of especial merit and should have the hearty support of the faculty and students.

We need more of such entertainments at M. A. C. Mark the date on your calendar and speak to your friends about it.

FIRST ANNUAL FRUIT SHOW.

The First Annual Fruit Show of the M. A. C. Horticultural Department was held last Friday afternoon in the Hort. Lab. The department had obtained fruit from ten or twelve states in order to compare the same variety as grown under different conditions. With such a representative display and the interest shown by three or four hundred persons, it is believed that the first show was a success.

Besides the Michigan fruit there were apples from Iowa, New York, Massachusetts, Colorado, Washington and California. Besides this there were a number of plates of citrus fruits from Mississippi, Florida, California and Arizona. Primroses and Boston Ferns served the double purpose of representing the Floriculture Department and additional decoration for the fruit tables.

If we may judge from remarks made by those who attended the show, there is no best fruit section, and apples having attractive form and color, lack flavor. Fruit growers don't always accept such statements but the preference evinced for certain varieties is worth noting. Northern Spy, Baldwin, Rhode Island, Greening, Winter Banana, Jonathan, Delicious are some of the varieties which attracted most attention.

Through the kindness of fruit growers in various localities and the interest of horticultural students at home and abroad the Annual Fruit Show promises to be a valuable lesson for students of pomology and an incentive to all who are interested in more and better fruit.

FORENSIC SOCIETY.

At the regular meeting of the Forensic Society last Saturday evening the following officers were elected:

President—B. H. Roberts.
Vice President—A. H. Perrine.
Secretary-Treasurer—A. Hendrickson.
Record Editor—O. W. Fairbanks.
Members of the Executive Committee—W. W. Pratchner, J. L. Graybill, E. E. Wallace, R. M. Renolds, J. F. Newell.

The Forensic Society has made rapid strides during the past term, both in literary and social lines and the past officers are to be congratulated on their splendid work. This is the first open literary society which has existed at M. A. C. and from present indications it shows no signs of closing its doors to all but a selected few. Although the society does not send a representative to the Oratorical contest this year, it intends to send one every year hereafter, and even this year a contest was held in the society rooms. To further show their enthusiasm on this subject, they intend to attend the annual contest next Friday evening in a body.

THE CENTENNIAL YEAR.

The year of 1909 witnesses the one hundredth anniversary of many of our renowned men.

Edgar Allen Poe was born Jan. 19, 1809.
Mendelssohn was born Feb. 3, 1809.
Lincoln and Darwin were born Feb. 12, 1809.
Chopin was born March 1, 1809.
Tennison was born Aug. 6, 1809.
Oliver Wendell Holmes was born Aug. 29, 1809.
Gladstone was born Dec. 29, 1809.

NEW INSTRUCTORS.

The increase in work in many departments has made necessary several new instructors this term as follows:

G. T. BACKUS, forestry field agent. Mr. Backus is a graduate of Biltmore and has been with the government forest service for some time. He is now doing field work in Wayne Co.

LAWRENCE B. BRINK, A. B., Instructor in English. Mr. Brink is a graduate of Rochester University and has also attended the Kalamazoo college and the Kansas Agricultural College, where his father is at the head of the English department. He has taught for two years in the high schools of this state.

MARGARET DUPEE, S. B., Instructor in botany. Miss Dupee is a graduate of Kenwood Institute, Chicago, and of the University of Chicago. She has also taught at the Kenwood Institute.

HECTOR MACPHERSON, M. A., Instructor in economics and sociology. Mr. MacPherson is a graduate of Toronto College and has taken two and one-half years special advanced work in the University of Chicago. He has also spent a year at the German Universities.

HERBERT E. MARSH, B. S., Instructor in Physics. Mr. Marsh was graduated from M. A. C. last June, and since then has been engaged in practical engineering work at Flint.

N. PERCY POPE, B. S., Instructor in Drawing. Mr. Pope was graduated from Arkansas University in '05, was instructor in the University of Texas for one year, and since that time has had some valuable drafting room experience.

B. B. ROSEBOOM, B. S., Instructor in Zoology. Mr. Roseboom is from Auburn, N. Y., and a graduate of Hamilton College.

SHORT COURSE INSTRUCTORS.

The following additional instructors have also been secured for the short courses:

F. O. FOSTER, former instructor in dairying here, is acting as instructor in buttermaking from whole milk cream.

SIMON HAGADORN, of Almont, Mich., Instructor in Starters.

CLAUDE GROVE, of Ottawa, Ohio, Instructor in Buttermaking from gathered cream.

J. C. GILBERT, Webberville, Mich., Instructor in Separators.

H. H. MUSSELMAN, B. S., Instructor in Farm Mechanics. Mr. Musselman graduated from the engineering course at M. A. C., with '08.

'89.

R. S. Baker, who has been preaching the gospel of civil service for Michigan for the past few months, has been elected president of the Michigan Civil Service League recently formed in Lansing.

'90.

A letter from E. J. Rowley, '90, who now is in the Canadian Northwest at Strathcona, Alberta. He expects to return to Michigan soon, not being at all pleased with weather from 35 to 40 degrees below zero.

ABOUT THE CAMPUS

The Ferris Institute celebrates its
25th anniversary this week.

"Reflections of a Consulting En-
gineer," at Engineering Society to-
night.

The lecture by Dr. B. E. Fernow
of Toronto University before the
Forestry club last Tuesday evening
was unusually well attended.

Mr. F. H. Newell, of the U. S.
Reclamation Service, who was to
speak here on January 26th, will be
at the college directly after inaugura-
tion on March 4th.

Edwy B. Reed, with '08, left Jan.
5th for Guthrie, Oklahoma, where
he has accepted a position as acting
editor of the *Oklahoma Farmer*.
He takes up his duties Jan. 15th.

The entertainment given at the
armory Friday evening by Prof.
and Mrs. Schonberger for the bene-
fit of the People's church was well
attended. It was a high class en-
tertainment throughout.

The Forestry Department has
just received from Supervisor C. C.
Hall, stationed at the National For-
est in Montana, lodgepole pine se-
cured at an elevation of 6,000 feet.
The seed was donated by the U. S.
Forest Service for experimental
purposes. The lodgepole pine
(*Pinus murrayan*) resembles some-
what our Jack pine, so common in
the northern portion of this state.
It forms pure forests of exceedingly
uniform growth over large areas in
the Yellowstone National Forest,
and also through Idaho, Montana
and Wyoming.

Lost—A watch. H. L. M. on
case. Please leave at secretary's
office. HELEN MARTINDALE.

See Mills and Lynch for "J
Hop" flowers. Satisfaction guaran-
teed. Rooms 6 A and 7 D Wells.

Lost.—A bunch of keys. Tag
marked E. P. B. Finder please
leave at barber shop or at secretary's
office.

The Chicago Alumni Association
will hold its annual reunion and
banquet Jan. 30. Dr. Beal will rep-
resent the college.

Dr. Beal and Prof. Barrows were
in Ann Arbor Friday attending a
meeting of the advisory committee
to the State Geologist.

Michigan still seems to be on the
map as a grain producing state, A.
W. Jewett, of Mason, having re-
ceived 15 premiums on 22 exhibits
of grain at the National Corn Show
at Omaha last month.

Mr. L. G. Johnson has returned
to college this term fully recovered
from a siege of typhoid fever and
takes up the active management of
the M. A. C. Orchestra. They al-
ready have a number of engage-
ments for the term.

The U. S. Forestry Service has
detailed an instructor to instruct the
forestry students of the college
along the lines of actual reserve
field work. He will be here for ten
days, and will carry on in miniature,
the actual office routine of reserve
work for the instruction of the
forestry students.

Show your college spirit by help-
ing to make the Oratorical suc-
cess—Friday evening.

The farm department has just re-
ceived from Clay Robertson & Co.
10 cattle ranging from prime to
common which will be used in
classes in meat demonstration.

The American Baseball Maga-
zine, devoted to national and college
sports, has the following to say re-
garding M. A. C.: "The Michigan
Agricultural College cross country
team were victors in a triangular
cross country meet held recently at
Notre Dame, with teams from De
Pauw, M. A. C. and Notre Dame
competing. Tillotson, of the win-
ning team, took the individual
trophy. His time for 5 1/4 miles
was 29.12." Other colleges to re-
ceive mention in the sheet were Yale,
Harvard, Pennsylvania, Brown and
Dartmouth.

About fifty members of the sub-
faculty and their friends, gathered
at the Union Literary building last
Friday evening and spent a very
pleasant time in games and dancing.
The affair was given by the young
men and was due to the labor of
Messrs. Harrington, Hensel, Cor-
nell, Fish, and Miss Northrop.
The refreshments were prepared
under the direction of Miss Mac-
Donald, assisted by Messrs. Chas.
Brown, Liverence, Miss Long and
Mrs. Peppard. The affair was
declared a success and a unanimous
vote of thanks was given to
the Union Literary Society for the
use of the building.

Two new agricultural buildings
will be formally dedicated this week,
viz: The agricultural building at
the University of Georgia, which
was dedicated Jan. 18, and the hall
of agriculture at the University of
Maine on Jan. 20. Dean Eugene
Davenport (M. A. C. '78) will de-
liver the dedicatory address at the
latter place.

According to the new constitution
the state board of agriculture will
hereafter be elected at the spring
election instead of appointed. At
a meeting of the alumni advisory
committee recently held it was de-
cided to ask the alumni to support
Hon. C. J. Monroe, '61, and Judge
W. L. Carpenter, '75, as two of
the six members to be elected at
this time. The change makes it
necessary to elect the entire board.
Hereafter two members will be
chosen each two years.

According to the almanacs for
1909 now being distributed there
will be two eclipses of the moon
and two of the sun but not all vis-
ible in the United States. June 3
there will be a total eclipse of the
moon visible in parts of America
but only partially so in this part.
A total eclipse of the sun June 17th
visible in the United States as far
south as a line drawn from west to
east and south from San Francisco to
the mouth of the Rio Grand river.
At Philadelphia as a partial eclipse.
A total eclipse of the moon Novem-
ber 27, visible in North America
and a partial eclipse of the sun De-
cember 12, invisible in the United
States.

THE TECHNICAL CLUBS

Brief Reviews of the Meetings

HORTICULTURAL CLUB.

On Wednesday evening Prof. Halpin spoke before the Horticultural club on the subject of Fruit and Poultry.

Prof. Halpin began his remarks with the question, "Why plant an acre of orchard without having an acre of poultry," and then proceeded to show how the two branches coincide. Almost as many hens can be kept on an acre in orchard as in the usual system. The birds, ranging over the orchard are of assistance in the control of insect pests. Poultry requires as much attention in summer with reference to shade as it does warm houses in winter. The orchard solves the shade problem. Prof. Halpin's idea is to turn the orchard into a range for the chickens and to use colony houses which may be moved from one portion of the plantings to another to suit the changing conditions of the fruit reason.

After these remarks, Prof. Halpin turned the meeting into a general discussion. In this discussion various interesting points were brought up which go to prove that the present egg production per hen in the United States is only about thirty-five per cent. of what it should be. Cows do more damage to the poultry industry than hawks. Rome Beauty apples were served.

ENGINEERING SOCIETY.

The Engineering Society held its first meeting of the term last Tuesday night. Mr. E. N. Bates, of the electrical department, gave an interesting and instructive talk on the phenomena of high tension. He explained the three discharges (brush, flame, and disruptive), and gave the use to which each was put. The lights were turned off and each discharge was shown with apparatus made in the electrical laboratory. An induction coil drew a flame about eight inches in length.

The meeting was well attended, and it is hoped that the students will all turn out to the meeting tonight. Mr. G. M. Brill will speak on "Reflections of a Consulting Engineer."

WINS TWO HOME GAMES.

DEPAUL 7—M. A. C. 76.

In a whirlwind exhibition of basket ball Wednesday night, DePaul University was defeated by the overwhelming score of 76-7. At no time during the evening did the visitors have a "look in," as they were outclassed at every stage of the game and it was only a question of how many points M. A. C. could score before the whistle blew.

M. A. C. presented the same line up that was used in the Michigan game with such success. "Long" Campbell at center was the particular star of the game when it came to reaching up and dropping the ball into the ring, as he scored 28 points, getting 10 to the first half and 18 the second. Dickson scored nine times, and made things interesting at all times by his remarkably fast work. Merz played a great game and brought the ball the whole length of the floor by his dribbling time after time for goals. An injury near the close of the first half, caused him to be replaced by Bel-

NOTICE

TO RESIDENTS OF

EAST LANSING

Beginning at once we shall run our own delivery to East Lansing every MONDAY, WEDNESDAY, and FRIDAY morning.

Yours, for better service,

CAMERON & ARBAUGH CO.

knap at the opening of its second period of play.

DePaul showed flashes of good basket ball at times, but their shooting was erratic, and most of their passes were broken up by Hanish and Merz before any damage resulted in the way of scores.

There were comparatively few fouls committed and most of these were for having two men on the ball. McKenna scored 4 field goals, Wathiers for DePaul 1.

The line-up:

McKenna.....	f.....	Wathiers
Dickson.....	f.....	McCarthy
Campbell.....	c.....	Wilhoit
Hanish.....	g.....	Fox
Merz, Belknap.....	g.....	Sweeney

M. A. C. 24. — BURROUGHS ADDING COMPANY 15.

M. A. C. defeated the Burroughs Adding Machine team last night by a score of 24 to 15. The game was the fastest, most exciting, and therefore the most interesting game played on the local floor in a long time, and demonstrated the fact that M. A. C. is represented by the best and fastest basket ball team she has ever had.

The game was played under collegiate rules, which allows a great deal faster and rougher style of play than do the Y. M. C. A. rules played under last year. Both sides played to win, and were pushed to their utmost all through the game, as they were very evenly matched. McKenna's ability to throw for baskets from fouls gave us a lead which Burroughs were never able to overcome. In all "Mac" threw 8 baskets from fouls, 4 each half, and besides managed to score 10 points from the field. The rest of the scoring was divided between Dickson, Campbell, and Merz, each registering a basket.

Stockham and Smith did most of the scoring for Burroughs, Stockham getting 7 points, and Smith 4. Conroy and Powers divided the other 4 points between them.

SUMMARY.

M. A. C.	Burroughs.	
McKenna.....	f.....	Payne
Dickson.....	f.....	Conroy
Campbell.....	c.....	Stockham
Merz.....	g.....	Lane
Hanish.....	g.....	Powers (Capt.)

ALL MEATS...

May look alike to you, but there is a very great difference in the quality we handle and that sold by some other markets. We handle none but the very best. Like the pudding, the proof of good meats is in the eating. A trial will convince you that you ought to trade with us. We make daily trips to the College. BOTH PHONES. Careful attention given to phone orders.
Gottlieb Reutter.
322 Washington Ave. South.

DIRECTORY

LANSING BUSINESS AND
PROFESSIONAL MEN.

The names in this Directory, as well as those of all our other advertisers, are of reliable parties. We hope that the faculty and students will take pains to patronize those who patronize us.
