No. 33.

THE MAY FESTIVAL MUSICAL SUCCESS.

Six years ago it was undertaken to give at M. A. C. a musical festival in order that students and residents of the community might have the privilege of hearing really good music. Until this year this event has been almost exclusively under the management of Miss Freyhofer, instructor in music. This year, through the agitation of some members of the faculty who felt that the æsthetic training at M. A. C. was far from what it might be, an organization known as the Liberal Arts Union was formed for the purpose of fostering a healthier æsthetic spirit. One of the duties delegated to that organization was the management of the May Festival, and those who were privileged to hear and attend the concerts last Friday afternoon and evening can but admit that they were of high artistic character, high class musical productions, not only entertaining but instructive; to the musically trained presenting a faultless execution of musical technique; to the layman presenting an example of highly trained musical ability.

As usual the afternoon program was an artist's concert, given by the soloists selected to take the solo parts in the Oratorio assisted by Mr. Henri Ern, a Swedish violinist who captivated the audience by his masterful handling of his instrument. One of his most appreciated numbers, if any one can be said to have been most appreciated, was one of his own composition. His playing betrayed a master's touch at every chord.

Of the soloists it is difficult to state whether Miss Stoddard, with her clear, rich soprano, Mr. James, with his superb tenor, or Mr. Croxton, with his rotund bass, was the most appreciated. Each held the closest attention and received hearty and ringing applause. Mr. Croxton, however, seemed to be the general favorite.

The culmination of the day's festival came with the oratorio, "The Seasons," given in the evening by the above soloists and a chorus of 100 voices specially trained during the school year. This production differed materially from those previously given by the chorus and lends itself more easily in execution to please the present day musical taste. In the judgment of many who have attended in previous years, this was by far the best. The chorus this year was made up of many who have taken part in previous years and have had the privilege of from one to three years' training under Miss Freyhofer. Under the excellent leadership of Mr. Killeen, who has had charge of the chorus class during the past season they entered into the spirit and executed that somewhat difficult production in a manner which would do credit to a college having a regular musical conservatory. Much credit is due Mr. Killeen for his work in rounding the chorus into shape.

To the officers of the Liberal Arts Union belongs the credit of establishing the May Festival as one of the regular events of the college year. While financially it cannot be said to have been a success, the genuine satisfaction which is heard on every side has greatly increased the popularity of this event which will assure its success in the future.

ANNUAL GOVERNMENT INSPECTION.

The annual inspection of the military department was made last Thursday, May 20, by Capt. M. J. Lenihan, General Staff United States Army.

First call was sounded at 1:00 p. m., assembly at 1:15, and by 1:20 the inspection was well under way. After forming the companies, the battalions were formed, and then the regiment.

A regimental review was first tendered the inspector, followed by a rigid inspection of the cadets, their military bearing, rifles and equipment.

The inspection was followed by a regimental drill, Capt. Fuger commanding.

Each battalion was then drilled by its major, and then each company by its captain. The company drill was in the nature of a competitive drill and the judges were Col. J. N. Cox, Capt. Vandercook and Capt. Durst, all of the Michigan National Guard. Each company was given six minutes to drill and the movements were discretionary with the captain. After the competitive company drill a regimental parade was called, and when the officers marched to the front and center Capt. W. N. Moss, Co. F., was informed that the judges had awarded first place to his company; Co. B., Capt. T. M. Hooper, second, and Co. E., Capt. E. Hulse, third. As a reward Co. F. will be excused from three hours' regular drill, Co. B. from two hours, and Co. E. from one.

The regiment after the parade was marched in column of squads to the library building, and was then formed as an advance guard to a brigade, each man being provided with 10 rounds of blank cartridges. Co. B formed the advance party, Companies C D and A the support, add the second battalion the reserve. The advance party was directed to advance, crossing the river at the bridge leading to the athletic field. At this point it was assumed that the advance guard was fired upon, and, in succession, the sup-

port and reserve deployed and reinforced the firing line which extended along the road. Men along the line were "designated as wounded," a tag being applied to them stating nature of wound. They were taken care of by the hospital corps.

A guard mounting and other exercises were offered the inspector, but he seemed well satisfied with what he had seen. Fourteen men were reported absent, but only two of this number without leave, the other twelve being sick.

CAMPUS LAKELET IS NO MORE.

The lakelet at the rear of the Women's Building which for several years was an attractive spot on the campus with its rustic bridges and willow fringed shores is no more. For the past week the horticultural department has had a number of men at work cutting the trees and shrubs and scraping down the island, and before the summer is over the scenery in that part of the campus will have been entirely changed.

The lakelet was largely artificial although it occupied a natural depression and was originally fed by the brook which runs through the botanic garden. Pipes were also laid to supply it with water in dry seasons but it proved so expensive that this means was seldom resorted to and in times of drought the sight was anything but pleasant.

Of late years and especially with the coming of the large county drain the problem of keeping it filled has been a hard one to solve and this, together with some unsatisfactory conditions which have arisen from time to time, have influenced the authorities to make the change.

For the present that part of the campus will receive no special attention except to sod it over, but later the space will probably be given over to gardens more or less formal in design, a plan for these having been worked out by Prof. Halligan some time ago. The formal style of gardening has received but little attention at M. A. C., as the campus is laid out in the naturalistic style.

FACILITIES FOR ENGINEERING EDUCATION AT M. A. C.

[Extracts from an address by Dr. R. C. Carpenter at the dedication of the new Engineering Building.]

"The Michigan Agricultural College, I am happy to say, has always been a leader in educational methods and has occupied a prominent position in the world of education during the entire period of its existence. It has especially been the leader in a certain form of industrial education and was the first to point out methods of applying scientific processes to the material advancement of the greatest industry of our country. In connection with the early work of this institution and preceding the establishment of mechanical

or engineering courses, it obtained, because of the excellent work done here, a reputation for scientific research unsurpassed in the annals of the educational world, which reputation has been increased by the excellent work of the last few years.

"It is a great step in the line of material improvement and advancement since the time when I first saw the institution and became acquainted with its officers and students. As the epochs of improvement which have marked the successful progress of the institution from period to period are matters of history and are well-known to nearly every person here, it is unnecessary for me to consume your time with a repetition, and I will not refer to the beginning nor intermediate stages of the period of development which finally led to the convenient, appropriate and magnificent building and to the perfect system of education for engineers which you now possess.

"The new Engineering Hall in its completeness, with its well equipped laboratories, class rooms, drawing rooms and shops, speaks for itself in a way more eloquent than words can express of what has been accomplished in a material way, and leads me to extend again my congratulations to the president, faculty, students, and the state of Michigan for the magnificent equipment for engineering education, of which you are the proud possessors.

"In conclusion I desire to call attention to the well known fact that although structures and material equipment are of great importance to the institution to which they belong, yet the real improvement on which the institution's reputation depends comes from the character and ability of the teachers to whom the material equipment is entrusted. With poor and inefficient teaching the best equipment is of little value. On the other hand, good teaching may make great engineers with a very poor equipment.

"Respecting the officers and faculty of this institution, I need hardly say that they have always been men of character and reputation, and because of the work done by these men the institution owes the advanced position which it occupies to-day. * * *

"The present administration has been one of signal, material development, during which time the number of students has trebled, and the property and material equipment of the institution have been greatly improved and enhanced in value. * * *

"For the future I can only predict that good results and a steady growth are certain, and that the engineers from this institution will make a reputation for the course which will bring additional students and give to the college glory and renown."

Isaac C. Ketler, D.D., LL. D., President of Grove City College, Pa., will deliver the baccalaureate address Sunday afternoon, June 20, in the college armory.

TUESDAY, MAY 25, 1909

U. S. BUILDING NEW HOMES FOR ITALY.

Uncle Sam has undertaken at the request of the Italian government the Herculean task of building within a very short time 2,500 cottages to shelter the homeless in the stricken zone in far-off Italy.

When that harrowing news was flashed over the wires telling of the suffering of the starving and homeless of our brethren in Southern Italy, Uncle Sam was the first to thrust his hand into his pocket and extend substantial succor. Eight hundred thousand dollars was what he gave as first aid to the injured. A great portion of this large sum is being used to feed the hungry, but \$500,000 of it is to go towards the building of homes for the homeless. This work is being carried on with the utmost dispatch, for Uncle Sam is right on the job; he is the architect, builder and boss carpenter all in one. Ship after ship is being loaded with lumber and forces and hurried on this philanthropic mission, and soon a thousand homes built of American pine will shelter the people of another clime.

The plans for the construction of these cottages were quickly arranged and hundreds of sets are being sent along with each cargo of supplies, with the specifications and instructions printed both in English and Italian, as it is proposed to have Italian workmen assist in the building.

The cottages are to be of the two-room type with ample windows and doors, and in their construction there will be but six sizes of lumber used, viz., the rafters, the studding, the caps, and the corner posts will be two by four inch pieces, the corner posts consisting of two such pieces nailed together. The sills are to be of two by six inch and the floor beams of two by ten inch material laid with twelve inch centers. The siding is six inch bevel, laid four inches to the weather, and the floors are to be of ordinary pine boards one inch thick planed on one side.

The windows are to be single sash, opening inward, with two side hinges, and closing with a cupboard catch. Seven of these single sashes are provided for each cottage. Sufficient glass accompanies each sash cut to the required dimensions. The glass is to be secured in the sash by means of a strip beading and brads. Framing for the windows and doors is being supplied in the required lengths for putting in, in order to save all possible time in the construction of these houses; and hinges and locks are being fitted to each door so that they will be ready to hang as soon as the frame work is in position. The roof of each cottage is to be covered with a single layer of a patent roofing sent

out in rolls. Such roofing may be secured by wooden strips or battens, or by cement and roofing nails; supplies of both go forth with each cargo. All the nails required of the proper size and carpenters' tools sufficient to supply workmen enough to begin the construction of fifty houses at one time, with two men employed on each structure, go out on every steamer. To erect such houses three days is ample for two good workmen.

The superintendent of carpenters and his assistants, sent out by the United States navy, under whose auspices the work is to be done, on the steamers with the supplies, will have general supervision of the building operations, and their instructions in regard to selection of material and placing of it must be rigidly obeyed by all concerned in the work. Immediately upon arrival of the steamers at the place where the buildings are to be erected, a model cottage will be built personally by the United States carpenters as an example of how the work should be done.

To construct these houses, which are to be sixteen feet wide by twenty feet long, 7,500,000 feet of lumber is required! Some idea may be had of this enormous amount of timber when it is considered that it would require just about one thousand railway flat cars to haul it. Each cottage is to be built at a total cost of \$150, whereas a portable house of similar size would cost \$300, a saving by Uncle Sam of fifty per cent.—*Technical World.*

M. A. C. EASILY WINS IN TENNIS OVER OLIVET.

In ladies' and gents' singles and doubles Saturday M. A. C. won over Olivet in tennis by a total of five out of the six matches played. The score is as follows:

Gentlemen.

Taft and Igowa, M. A. C., won from Harwood and McWilliams, Olivet, 6-2, 6-1, 6-4.

Taft won from Harwood, 6-1, 6-1.

McWilliams won from Igowa, 6-1, 6-0, 6-2.

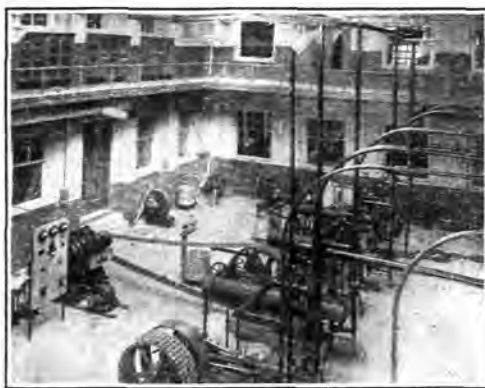

Ladies.

Miss Taft and Miss Kedzie, M. A. C., won from Miss McManus and Miss Northrop, Olivet, 6-3, 6-3.

Miss Kedzie won from Miss McManus, 2-6, 6-4, 6-2.

Miss Taft won from Miss Northrop 6-3, 6-0.

Several officers of the State Horticultural Society visited the horticultural department last Tuesday and met the junior and senior students.

STEAM ENGINE LABORATORY

CAMPUS NOW TAKING ON SUMMER BEAUTY.

The M. A. C. campus is generally conceded to be one of the most beautiful in the country, beautiful because of its great extent and its naturalistic appearance brought about by the original forest trees left when the college was planned and reinforced by careful plantings. Just now every tree, shrub and vine is bursting forth in virgin loveliness. The cool, wet, long-delayed spring has served to nurse back to healthfulness the grass so nearly killed by last summer's long continued drouth and the lack of winter's mantle of snow. The ornamental shrubs are in full leaf and many are in blossom; maples, beech, basswood and other early trees are almost in full leaf, followed by the elms, and even the slowly leafing oaks, almost the last to burst their fetters, are beginning to show the unmistakable traces of delicate green. Wild flowers are growing in profusion along the river bank and soon the flower beds will blossom with flowers already waiting in the greenhouse until jack frost shall have been finally driven back. Truly a more beautiful place will be hard to find.

SECOND ANNUAL SUMMER SCHOOL

AT THE

MICHIGAN AGRICULTURAL COLLEGE

Begins June 28th

And continues for four weeks.

Expenses low.

For Announcement, address
PRES. J. L. SNYDER,
East Lansing, Mich.

Printing Co.

WHEN IN NEED OF
CALLING CARDS

122 OTTAWA ST. E

ALUMNI

'84.

Colon C. Lillie, of the above class has recently been elected president of the board of trustees and business manager of the Grand Rapids Veterinary College.

'91.

A 40 page bulletin on Sheep Farming in Missouri by F. B. Mumford of the above class comes to our desk. It is fully illustrated and deals with every phase of the sheep raising industry in that state.

'95.

Announcement has just been received of the marriage of Mr. James Emerson Niswander, of the above class, to Miss Mary Cecil Morrison, which occurred Sunday, May 9. Mr. and Mrs. Niswander will be at home to their friends at 822 E. 19th St. Chevenne, Wyo.

With '96.

N. C. Johnson is one of the principal officers of the Diamond Match Co., with headquarters in New York City. He has general supervision of all the offices of the corporation.

'03.

F. C. Reimer is Horticulturist of the experiment station at West Raleigh, N. C.

'04.

D. B. Button is a prosperous farmer at Farmington, Mich. He carries on a general farming business, with dairying and fruit growing as specialties.

'06.

R. E. Keech is a member of the Rockford Laundry Co., Rockford, Michigan.

'07.

C. H. Goetz is forester for the Washington State College, Pullman, Washington.

'08.

H. M. Conolly, of Chicago, made a business trip to the college last week. He is in charge of the landscape department of a large nursery there.

CARD OF THANKS.

The parents and sisters of Mr. Wm. S. Sayer wish to express their heartfelt appreciation to those of East Lansing who have been so kind, sympathetic and helpful during our recent bereavement. We feel under deep obligation to the college, and those connected with it, for their interest and for their efficient services.

The efforts put forth at this time are valued the more dearly because we have known that the two years spent in East Lansing were full of happiness for our son and brother.

ANNUAL MEETING OF LIBERAL ARTS UNION.

The annual meeting of the Liberal Arts Union as provided by the constitution will be held in college chapel Thursday evening, May 27, at 7:30 o'clock. Reports of the officers for the current year and the election of officers for the ensuing year will be the order of business.

HOLLISTER BLOCK

ABOUT THE CAMPUS

Pres. Snyder will deliver the Memorial Day address at Howell.

Prof. Halligan, Dr. Giltner and Mr. A. P. Krentel are building new houses on College Heights.

Dr. George D. Shafer, of the department of entomology, has been elected secretary of the Michigan Academy of Science to succeed the late Mr. Sayer.

The horticultural department has received from California a collection of lemons showing the condition of this fruit in several stages of the curing process necessary before shipping.

The reorganization bill for the Michigan Agricultural College was passed by the legislature last Tuesday evening. A summary of its provisions was given in the RECORD for April 13.

In the ninth inning in the second game with Wabash with the score standing 9 to 7, in favor of Wabash, Baker hit out a three bagger, followed by a home run by Vance, which netted the three scores necessary to win the game.

The Eunomians held their annual picnic at Pine Lake Saturday. About seventy young people left the college a little after ten, and after an hour on the lake a picnic dinner was served. The afternoon was spent in boating, roller skating and dancing. The party returned to the college in the early evening tired but happy. The chaperones were Prof. and Mrs. Wilson and Mr. and Mrs. Clark.

The University of Leipzig will celebrate its five hundredth anniversary on July 28 next.

It costs \$10,000,000 per week to give education to 20,000,000 persons in American schools of various kinds.

About 200 school children and others from Union City were at the college Wednesday looking through the laboratories.

Two games will be played this week on Wednesday and Thursday afternoons with De Paul University. Wednesday's game is extra and will be put on in place of one of the games called off on account of rain.

The Michigan Military Academy was recently sold at auction, the buyer being Allen Campbell, of Detroit. It is said that the property will again be used for a school but no details of the plans have been given out.

Pres. Eliot, of Harvard, laid aside last Tuesday the duties and responsibilities of the position which he has held with honor for forty years. The destinies of that great university are now to be determined by Abbott Lawrence Lowell.

Arrangements are being made for the Centenary celebration of the founding of Michigan's first newspaper. This paper was called the *Michigan Essay or The Impartial Observer* and was printed on the first printing press in the northwest territory. The celebration will be held in the Museum of Art, Detroit.

FOUND.—Sterling silver cuff button near athletic field. Owner may have same by calling at secretary's office.

Saturday the big triangular track meet between M. A. C., Notre Dame and Armour Institute will be held on the college field. Though the meet is conceded to Notre Dame M. A. C. hopes to make a good showing. Notre Dame is especially strong this year.

In order to fill vacancies in the State Board of Agriculture until the newly elected board shall meet and organize next January as provided by the new law the following appointments have been made: Wm. H. Wallace, of Bay Port, to succeed himself; Aaron P. Bliss, of Saginaw, to succeed himself, and Wm. L. Carpenter, of Detroit, to succeed T. F. Marston, of Bay City, who resigned.

The Engineering Society has adopted a new plan in the way of program. Instead of having a lecturer from outside every week, some of the meetings hereafter will consist of informal discussions led by one or more of the members who have visited some industrial plant or other place of general interest. Tuesday evening's discussion was led by Mr. Hartman, who gave a very interesting description of the general working system and the principal difficulties encountered at the Lansing Pure Ice Plant. The hour of meeting has been changed from 7 o'clock to 7:30 for the remainder of the term.

The M. A. C. all-freshman team played the Mason high school last week, winning by a score of 12-6.

LOST.—On afternoon of May Festival a lady's black belt. Finder please leave at Mr. Brewer's office.

One hundred ninety-three persons have taken the college extension reading course during the past year.

Tickets for the military will be on sale until Friday morning. See Frazer, Oviatt, or Fairbanks. Price \$1.25. A 12 o'clock party.

Taft and Pratt for M. A. C. secured another victory in tennis yesterday, this time over the Hillsdale team at Hillsdale. The scores were—doubles, M. A. C. vs. Hillsdale, 6-1, 6-1. Singles, Pratt vs. Stillman, 6-2, 6-2. Taft vs. Walrath, 6-3, 6-0.

Professor L. P. Breckenridge, who had charge of the mechanical engineering department at M. A. C. in the early nineties, leaves the University of Illinois at the end of the present year to accept the professorship of mechanical engineering in Yale University. Professor Breckenridge has been associated with the College of Engineering, University of Illinois, since leaving M. A. C., and the remarkable growth of this college has been due very largely to his work. There is very general regret throughout Illinois because of his resignation, but he considers a call from Yale (which is his Alma Mater) to be a command, and has acted accordingly.

ATHLETICS

TRACK MEET EASY FOR M. A. C.

Olivet and M. A. C. track teams were pitted against each other Saturday in track events in which Alma was also represented by a quartette of husky athletes whose points, however, by previous arrangement, did not count in the final totals.

While the meet might be called easy for M. A. C., it served to emphasize the fact, generally conceded, that the track team is this year not the average well-balanced team which usually represents the college. In many events M. A. C. has an abundance of candidates who show up well and above those representing other colleges of the state while in other events, notably the dashes and hurdles, there are few entries and those not up to usual form. The meet, however, served to bring out the strong and weak points and with a little coaching the team will certainly be in position to hold Notre Dame to a lower score than in the meet at Notre Dame two weeks ago.

The summaries are as follows:

120-yard hurdle—Dana, Olivet, first; Harwood, Olivet, second; McKenna, M. A. C., third; time, 16 2-5.

Mile run—Voelkner, Olivet, first; Thomas, Olivet, second; Tillotson, M. A. C., third; time, 4:40.

Quarter mile run—Oviatt, M. A. C., first; Knecht, M. A. C., second; Osborne, Olivet, third; time, 52 1-5.

High jump—M. A. C., Allen, first; Edie and Hammond, Olivet, tied for second and third; height, 5 ft 3 in.

100-yard dash—McComb, Alma, first; Garvey, M. A. C., second; Reine, Olivet, third; Loveland, M. A. C., fourth; time, 10 seconds.

Broad jump—Cortright, M. A. C., first; Allen, M. A. C., second; Dana, Olivet, third; distance, 20 ft 4 1/2 in.

Half mile run—Allen, M. A. C., first; Voelkner, Olivet, second; Oviatt, M. A. C., third; time, 26 2-5.

Pole vault—Bancroft, M. A. C., first; Hammond, Olivet, second; Edie, Olivet, third; height, 10 ft.

220-yard dash—McComb, Alma, first; Knecht, M. A. C., second; Loveland, M. A. C., third; Stine, Olivet, fourth; time, 22 1-5.

Discus—Campbell, M. A. C., first; Amstbeuchler, Olivet, second; Burroughs, M. A. C., third; distance 108 ft 3/4 in.

220-yard hurdles—McComb, Alma, first; Cortright, M. A. C., second; Garvey, M. A. C., third; Dana, Olivet, fourth; time, 26 2-5.

Two mile run—Hunsberger, Olivet, first; Tillotson, M. A. C., second; time, 10 min. 1 sec.

Hammer throw—Antsbeuchler, Olivet, first; Frier, M. A. C., second; Wheeler, M. A. C., third; distance, 115 ft. 1 in.

The relay was won by M. A. C. Total points, M. A. C., 82; Olivet, 53.

TEAM RETURNS VICTORIOUS FROM SOUTHERN TRIP.

From the second trip south the team returned with two good victories to their credit, and for the first time this season were favored with a few consecutive days of fair weather. The trip last week in-

GREAT CLEARING SALE Women's and Misses' Suits

Sale Starts Wednesday, May 26th

WE place on sale in our Cloak and Suit Department our entire line of fine tailor made suits at wonderful reductions. Never have we made such a big cut in price as now. All suits that have sold at \$25.00, \$30.00, and \$35.00 will be sold at the unheard-of price **\$14.95**

Sample Sale of Wash Suits

We place on sale about one hundred fine Tailored Wash Suits and Linen Coats, regular \$10.00 values, sale price **\$5.98**

CAMERON & ARBAUGH COMPANY

cluded two games with Wabash at Crawfordsville, Ind., and one with St. Viators at Kankakee, Ill.

WABASH 4—M. A. C. 5. FIRST GAME.

The first game with Wabash was played Wednesday with Busch pitching, and was won by the close score of 5 to 4. M. A. C. scored but six hits, but three were for three bases. Baker, Harrison and Orr being the responsible parties. Crissey's catching was especially complimented by the Hoosiers.

The score by innings:

	R.	H.	E.
Wabash	0	0	1
M. A. C.	2	0	0

Runs—Shanahan 2, Busch 2, Orr—5; Bridge, Gisler, Warburton 2-4. Two-base hits—Gisler, Bridge. Three-base hits—Baker, Harrison, Gisler, Orr. Struck out—By Irwin 3, by Busch 4. First base on balls—Off Irwin 2, off Busch 4. Stolen bases—Harrison, Lambert, Warburton. Sacrifice hits—Lambert, Shanahan, Irwin.

WABASH 9—M. A. C. 10. SECOND GAME.

The second game played Thursday afternoon proved a batfest for M. A. C., they pounding Puckett out of the box in the third inning who was replaced by Irwin. In all, 11 hits were credited to M. A. C., one of which was for three bases and two were home runs.

Wabash tied the score in the eighth and secured two runs in the ninth which looked like a cinched game, but consistent hitting brought in three scores for the olive green in M. A. C.'s half and the game was won.

The score by innings:

	R.	H.	E.
Wabash	1	0	0
Aggies	0	0	3

Batteries—Wabash, Puckett, Irwin and Bowers; Aggies, Peterson and Crissey.

Two-base hits—Mills, Peterson. Three-base hit—Baker. Home runs—Vance, Peterson. Bases on balls—Irwin 2, Peterson 2. Hit by pitcher—By Peterson 1. Wild pitches—Peterson 3. Struck out—By Puckett 1, Peterson 4. Hits—Off Puckett 3, Irwin 8. Stolen bases—Lambert, Mills. Attendance—50. Time—1:52. Umpire—Queisser, Indianapolis.

ST. VIATEURS 7—M. A. C. 0.

After two grilling games with Wabash, which put the high tension on every nerve M. A. C. faced St. Viators Friday and lost to the tune of 7 to 0. Busch pitched a good consistent game, and allowed but 8 hits, but errors assisted the Catholics in running in seven scores. M. A. C. succeeded in getting one lone hit.

Tired out by the previous games

and travel M. A. C. did not put up its usual snappy game though it must be conceded that St. Viators with its hired battery put up a hard game.

The score by innings:

	R.	H.	E.
St. Viators	0	5	0
M. A. C.	0	0	0

Three hours were spent at Lafayette, Ind., enroute, which were spent in looking over the grounds and shops at Perdue University.
