

# The M. A. C. RECORD.

MICHIGAN STATE AGRICULTURAL COLLEGE.

VOL. 16.

LANSING, MICHIGAN, TUESDAY, SEPTEMBER 20, 1910.

No. 1

## NEW INSTRUCTORS.

### BOTANY.

RUTH FLORENCE ALLEN, Ph. D., instructor in botany, comes to M. A. C. from the University of Wisconsin, where she has been teaching assistant since her graduation in 1905. She was granted her doctor's degree from Wisconsin in October, 1909.

BERTHA E. THOMPSON, A. B., instructor in botany, holds a life certificate from the State Normal at Ypsilanti, and was granted her A. B. from our State University, where she specialized in botany. Miss Thompson has taught successfully in the schools of Battle Creek and Minneapolis, Minn.

### CIVIL ENGINEERING.

ANDREW M. OCKERBLAD, B. S., instructor in civil engineering, is a graduate of the University of Vermont, 1910, with the degree of B. S. His home is at Burlington, Vt.

H. E. MARSH, B. S., instructor in civil engineering, graduated from M. A. C. with class of 1908, and during the past year has been with our physics department. He is this fall transferred from said department to civil engineering.

### DRAWING.

B. P. THOMAS, A. B., instructor in drawing, is a graduate of the Wittenburg College, Ohio, science department. During his junior year in college Mr. Wittenburg was assistant instructor in physics, and during the past two years has taught mechanical drawing.

MAX D. FARMER is one of our own graduates of 1910, and will act in the capacity of instructor in drawing during the coming year.

### ECONOMICS.

DON STEPHENS, B. S., instructor in economics and sociology, is a graduate of the State University, also of the University of Wisconsin, and spent three years abroad in travel and study. For the past two years he has taught in the West Virginia Normal School.

### ENGINEERING.

ERNEST A. EVANS, foreman and instructor in machine shop, comes to us after having had eight years of practical experience in machine shop, having last been connected with the Bates & Edmonds Motor Co., of Lansing. Mr. Evans succeeds Mr. C. O. Wilcox.

EDWARD J. KUNZE, M. E., assistant professor of mechanical engineering, will have charge of machine design and shop work. Mr. Kunze graduated from the Newark, N. J., technical school in '96; from Cooper Union in '99, with the degree of B. S., and from Cornell, with the M. E. degree in 1901. He has had ten years of practical shop and construction experience, six of designing and other engineering experience, and has taught for the past three years in the University

(Continued on page 2.)

## NEW FACULTY MEMBERS

DR. ERNST A. BESSEY  
Professor of Botany.

DR. ERNST A. BESSEY, elected to fill the position made vacant by Dr. Beal, is a graduate of the classical course of the University of Nebraska, and in 1904 was granted the degree of Ph. D. from the University of Halle, Germany. In 1902 he was sent abroad, and traveled extensively for the department in Europe, Central Asia and North-western Africa.

In 1908 Dr. Bessey resigned his position with the department of agriculture to accept the professorship of botany and bacteriology, in Louisiana State University, at Baton Rouge, from which place he comes to us. Dr. Bessey is a son of C. E. Bessey, '69, of Nebraska.

## AN EMPLOYMENT AGENCY.

The Michigan Agricultural College has, since its establishment, encouraged and drawn to it students who maintain themselves while in college by their own individual efforts. The college desires to continue this policy.

The recent rapid growth of the institution has made it impossible for the college to furnish labor to every student in attendance or even to those who desire it. Therefore a students' employment agency has been organized with the idea that some persons living near at hand might be so situated as to profitably use the services of many of our self-supporting students if the employers could be brought together.

While the time of our students is very largely taken up with their necessary studies and work in the laboratories, many of them have time to work for their self-support. Of the kinds of work which our students can and are willing to do, the following is a partial list:

General farm work, husking corn, digging potatoes, pruning fruit trees, spraying for insects, grafting, fence building, etc. Shop men and machinists can be furnished.

DR. RICHARD P. LYMAN  
Dean of Veterinary Department.

DR. RICHARD P. LYMAN, of Kansas City, Mo., is to have charge of the veterinary division of M. A. C. the coming year. Dr. Lyman is a graduate of the Massachusetts Agricultural College, 1892, and from Harvard in 1895. He practiced veterinary medicine in Hartford, Conn., for some time, and has held a chair in the Kansas City Veterinary College the past three years.

Dr. Lyman's work here will be to build up the veterinary department, which will be made a four-year course on the same basis as the other courses offered by the college. Dr. Lyman and family will occupy the house on Abbot road owned by Prof. Sawyer.

Many householders in the city need extra labor for various occasions. Our students are available for all kinds of such work. They can clean rugs, take up carpets, handle furniture and be otherwise of general help.

When you want labor, drop a card to Mr. R. E. Loree, East Lansing, or call Automatic 'phone 170—Bell 799.

The management of this employment agency is without cost to the student or patron.

W. H. FRENCH,  
F. S. KEDZIE,  
Committee.

The above mentioned agency will, we feel sure, meet a long felt want. While many students desiring work in the past have been able to secure it, and while departments have succeeded, at times, in securing much needed help, lack of system which this agency will no doubt supply has caused annoyance to both employers and employed.

Mr. Loree is the right man in the right place, and it is hoped that all personal or departmental work which can be done by our students will be registered with him.

[Ed.]

## ALUMNI

With '64.

Mr. Samuel Alexander, who was in college in '60-'61, was a college visitor the past week. Mr. Alexander was the first M. A. C. man to enter the service in '61, and arrived on the scene shortly after the firing on Ft. Sumpter. He was among the first 30,000 to reach Washington. Mr. Alexander is interested in botany and forestry, and has made many interesting discoveries. He is also a writer of considerable note, his productions having been copied in various technical works.

'82.

We regret to announce the death, during the summer, of Lucius W. Hoyt, of Denver, Colo. Mr. Hoyt had been in poor health for some time, and tuberculosis was the cause of his death. He was a prominent lawyer, and was for some time secretary of the Colorado Bar Association.

'03.

Howard Severance, of the class of 1903, was struck by lightning on the evening of Aug. 17, and instantly killed while at work on a farm near Wixom, Mich. Mr. Severance was for some time a teacher in the Philippines, and had only recently returned from the Islands. His brother, George Severance, graduated with the class of '01, and a sister, Mabel, completed her work in 1902.

'05.

Mr. and Mrs. Oliver Burk, of South Bend, Ind., are the proud possessors of a new son.

'06.

E. N. Bates, of '06, and a former instructor in physics, was married on Friday, Sept. 2, to Miss Cora L. Brown at Big Rapids, Mich. Mr. and Mrs. Bates are at home in Boston, Mass., at 58 Temple St.

'07.

William B. Allen, class of '07, and Miss Elizabeth L. Huntington were married on Tuesday, Aug. 16, at Jackson, Mich.

Miss Mable Craig, the only colored girl in the class of 1907, has accepted a position on the faculty of the university for colored students at Jefferson City, Mo. Miss Craig has recently completed a post graduate course in New York City.

'09.

Joseph A. Cavanagh, '09, and Aimee Blair Corcoran were married at Battle Creek, Aug. 9, 1910. Mr. and Mrs. Cavanagh are at home to their friends in Midland, Mich.

'10.

Announcement was received, early in August, of the marriage, on August 6, of Rey B. Stuart, of the above class, to Miss Katherine Ott. The young people are at home to their friends at Fremont, Mich. Mr. Stuart is a successful farmer of the above place.

The M. A. C. RECORD

PUBLISHED EVERY TUESDAY DURING THE COLLEGE YEAR BY THE MICHIGAN STATE AGRICULTURAL COLLEGE

B. A. FAUNCE, MANAGING EDITOR

SUBSCRIPTION 50 CENTS PER YEAR

Entered as second-class mail matter at Lansing, Mich.

Remit by P. O. Money Order, Draft or Registered Letter. Do not send stamps.

Address all subscriptions and advertising matter to the College Secretary, East Lansing, Mich. Address all contributions to the Managing Editor.

Business Office with Lawrence & Van Buren Printing Co., 122 Ottawa St. East, Lansing, Mich.

TUESDAY, SEPT. 20, 1910.

EVERYBODY shake hands with everybody else.

BE sure and register tomorrow. Fifty cents is worth saving. That's the price of the RECORD.

GET square with your work. Start right, and the rest comes easy. The student who takes two weeks to "pick out his work" oftentimes has hard picking the rest of the term.

OLD students, make the new ones welcome. Help them get settled. It takes but a moment and a word or two to make those who are here for the first time feel they are welcome. It will do them good, gain a friend for yourself, and M. A. C. will surely be benefited.

TO the new students.— Determine to win out. Stay by your course, and you'll never regret it. Join the Y. M. or Y. W. C. A., the Athletic Association, and enjoy good wholesome fun as well as study. "If you want to live in a good neighborhood, be a good neighbor" applies with equal force to college life. You are certainly welcome to M. A. C., and we have a right to expect that you will help to maintain the present high standard of the greatest college in America.

We have endeavored to place this issue of the M. A. C. RECORD in the hands of every student, and trust that subscriptions may result. We shall be grateful for the support, and endeavor to give value received.

'06.

Gertrude Peters, of the above class, goes to Albany, N. Y., State Normal College, the coming year, where she will have charge of the department of home economics.

Miss Lulu V. Robinson, of the above class, was married Thursday, August 25, to Dr. George B. Wiles, at the home of her mother, Mrs. Alice M. Robinson, in Lansing. Dr. and Mrs. Wiles will be at home after October 1 in Sheboygan, Wis., at 1025 N. Fourth St.

'02.

The marriage of Frank S. Carpenter, '02, and Miss Chloe Goodrich took place last Thursday evening at 8 o'clock at the home of the bride's parents in Lansing. About 60 guests were present for the wedding and the informal reception which followed. Mr. and Mrs. Carpenter leave in a short time for Portland, Oregon, their future home. The bride was also a special student at M. A. C. for some time.

THE NEW POSTOFFICE.

Work has been pushed rapidly all summer on the new postoffice, and before long Postmaster Rosecrans and his clerks will take possession. The building so long known as Station Terrace has been enlarged, and the entire first floor will be given over to the use of the new postoffice, and same has been leased by the government.

The main room will be 30x57 feet. Ample box room has been provided for rental boxes, and 500 will be placed on the north side of the room, all of which will no doubt be taken by students shortly after college opens. There is also room for 200 more boxes as soon as the demand warrants their installation. Four business windows will be located on the west side of the room within easy reach of the postmaster's desk. In the southeast corner will be a room where sorting bins will be found. This room will furnish a place where the experiment station bulletins and other bulky mail may be handled to a much better advantage than before. The arrangement of lobbies and entrances is such as to afford the greatest possible conveniences.

The old building, used as postoffice since 1902, will be used by the Co-operative Book Store and as a waiting room.

Lieut. Holly will occupy two of the rooms on the second floor of the postoffice building, and the remaining rooms will be for rent.

MINISTERS' CONFERENCE.

The conference of rural ministers, held at M. A. C., July 12-16, was a success from every viewpoint. Over sixty persons were registered, and seemed to enjoy every moment of the four or five days here. Pres. Kenyon L. Butterfield, of Massachusetts Agricultural College, and Rev. Chas. O. Bemis, of Pennsylvania, were the speakers, and "Rural Progress" was the keynote of the entire conference.

An open conference was held each day from 11 to 12, in which all took part. In addition, members of the faculty spoke on various farm topics each day at 10:30, while the afternoons were given to the subjects of horticulture and poultry raising. The large class was taken out to the gardens, orchards and vineyard, where the members might be shown the proper methods of tillage, pruning, etc., and much interest was shown along all lines of this work.

In poultry, Mr. Kempster's lectures were supplemented by practical demonstrations, and this, too, proved a live topic, as Mr. K. was kept busy answering questions for some time after each lecture.

As a proof of the fact that the conference was a success, it may be stated that resolutions were drawn up, in which the members voiced their hearty appreciation of the entertainment and instruction received at M. A. C., urged an organization and begged that the second conference might be held at M. A. C. during the summer of 1911.

W. H. Hartman, with our engineering department the past year, is now with the Western Electric Co. of Chicago.

DR. DANDENO RESIGNS.

Dr. James B. Dandeno, for the past eight years assistant professor of botany at M. A. C., has resigned his position, and accepted a similar one in a college near Toronto, Canada, where he will teach general scientific work, including biology and chemistry. Dr. Dandeno's old home was at Guelph, near the college in which he is employed. His residence on College Heights has been purchased by Mr. Westfall.

R. S. Newton, '05, was a college visitor last week. Mr. Newton is draftsman for the General Electric Co., of Schenectady, N. Y.

Mrs. Rosencrans entertained one afternoon during vacation in honor of Mrs. Jennie Whitmore Woodard, formerly Miss Jennie Towar, of the class of 1886.

S. F. Edwards, '99, professor of bacteriology in Guelph, Ont., with his wife and little daughter, visited at the home of Mrs. Edwards' mother during August. Prof. Edwards was looking fine, and states that Guelph is "an all right place" in which to live.

Mrs. Snyder and Mrs. J. F. Baker entertained one afternoon recently, in honor of Mrs. Proud, before her departure for Amherst, Mass., which is to be her future home. The hostesses were assisted by Mrs. R. S. Baker and Mrs. Luther Baker.

'04.

We are pained to note the death on Aug. 16, of the little son of Mr. and Mrs. H. N. Hornbeck, of Traverse City. The little fellow, three and one-half years of age, was ill but a short time, the cause of the death being tubercular meningitis. The RECORD extends, for the many friends at M. A. C., heartfelt sympathy to the bereaved parents.

NEW INSTRUCTORS.

(Continued from page 1.)

of Wisconsin, department of mechanical design and experimental engineering.

JAMES L. MORSE, instructor in mechanical engineering, comes to us with five years experience at Highland Park College, Des Moines, Ia., which covers both classroom and correspondence work. For the past three years he has been salesman for the Otto Gas Engine Works of Omaha. Mr. Morse has also had three years of general shop work experience and one year of railway shops.

ENGLISH.

The new instructors in the English and modern languages department are Messrs. E. T. Fischer, Frederick M. Pyke, Ray D. Penny, Louis B. Mayne, and George H. VonTungeln.

MR. FISCHER takes the place as teacher of German, held last year by Mr. C. L. Wuebker, who has gone to Massachusetts Institute of Technology to do graduate work. Mr. Fischer is a graduate of Indiana State Normal College, with two years of graduate work in Chicago University. He has taught four years in the schools of Ohio and in the Vincennes, Indiana, high school.

MR. PENNY follows Mr. Sloat, who has accepted a position in Oklahoma at double the salary he was receiving here. From the Upper Iowa university, Mr. Penny went to the University of Chicago, where he took his degree. He has had a wide experience in newspaper work, is well known as a writer of stories for the *Youth's Companion* and other papers and magazines, and has taught in the Iowa schools.

MR. PYKE takes the work in public speaking that was done for two years by Mr. Fish, who becomes head of the public speaking department in the University of Pittsburg. Mr. Pyke is a graduate of De Pauw University, and has had two years' graduate work at Harvard. He has been a wide traveler. He was born in China, and with that country is very familiar. He has also made several trips to Europe for travel and study. He comes here from a private boys' school in Lancaster, Pa., in which he was master in English.

MR. MAYNE succeeds Mr. Stott in English work. Mr. Stott has gone to the Eastern Kentucky State Normal School, as head of the department of English. Mr. Mayne was educated in Indiana University and in the University of Illinois, where, during the past year, he has been a graduate student. He has taught four years in Indiana schools, the last two years of his teaching having been in the Camden high school.

MR. VON TUNGELN is a graduate of Central Wesleyan college, Missouri, and has his master's degree from Northwestern University. He has taught two years in Illinois schools and two years in Central Wesleyan College.

FORESTRY.

FREDERICK A. GAYLORD, instructor in forestry, is a Yale graduate, and has had considerable experience in the forests of the country. Mr. Gaylord was with our juniors in Roscommon for a time during the summer.

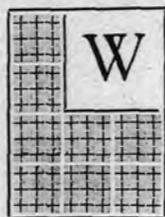

HOME ECONOMICS.

MISS AGNES HUNT, B. S., Professor of domestic science, is a graduate of the Illinois University, and was for two years an assistant in the laboratory of Dr. Gridley. She was also Director of Home Economics in the new American College at Honolulu for a time.

MISS GRACE E. STEVENS, B. S., instructor in domestic science, is also a graduate of the University of Illinois, and acted as laboratory assistant for one year. She has also had some experience in public school work.

MISS GRACE LOUISE SCOTT, instructor in music, is a graduate of Olivet College, class of 1908. Miss Scott has studied music under Mrs. Bintliff, and has had considerable experience in teaching private music. Following her graduation in 1908, she taught one year in her home college.

MISS FLORENCE CHAPMAN, instructor in physical culture, is a graduate of the Chicago school of physical culture, and has but recently returned from a tour of the Mediterranean countries. She is a sister of Miss Grace Chapman, a former instructor in this college.

COLLEGE BUS HEADQUARTERS

**ABOUT THE CAMPUS**

Theo. Kessler is the newly elected steward of Club B.

Gas mains have been extended west on faculty row during the summer.

The road between the college and city limits has been greatly improved recently, by the application of a coat of fine gravel.

Prof. Baker has been taking a trip through the west, with the idea of better acquainting himself with forestry conditions in the country. Mrs. Baker accompanied him.

Several decaying trees on the campus have been treated, during the summer, in an attempt to prolong life. The decayed portions were thoroughly scraped and cleaned, and portland cement used for filling. The results will be watched with interest.

Earl Webber, former Y. M. C. A. secretary, was a college caller on Aug. 4. Mr. Webber will finish his course this year at the Chicago Seminary, is married, has a fine son one year of age, and is the happiest man in Chicago. He has promised to be with us sometime during the winter.

Mr. H. L. Curtis, former instructor in physics at M. A. C., made college friends a visit early in the summer. Mr. Curtis, who is employed in reasearch work at Washington, D. C., has been improving his time in study, and was granted his doctor's degree by the U. of M. last June.

Mrs. Cameron will have charge of Club C during the coming year.

Dr. Howard Edwards, president of Rhode Island Agricultural College, spent a few hours at M. A. C. on July 28.

Floyd Robison, our state dairy and food chemist, has been spending a part of the summer at the university in study.

Instructors Hargrave, of the department of chemistry, and Laycock, of the department of physics, spent the summer in study at our state university.

Mr. C. E. Walter, for so long college photographer, has sold his property on Michigan Ave. to Mr. Kendall, who has transferred his shoe repairing business to the same, and will also put in a stock of shoes.

Mr. George B. Claycomb, a student during the past year, and Miss Nina Carter were married on July 14, 1910, at Ann Arbor. At home after Oct. 1 in Geneseo, Ill., where Mr. Claycomb has a position in the city schools.

Dr. Beal left about Sept. 1 for Amherst, Mass., where with Ray S. Baker and family he will make his future home. The best wishes of the entire community go with Dr. Beal, as well as with Mr. Baker and family, to their new home. What is M. A. C.'s loss is Amherst's gain. And we sincerely hope that college folk will be remembered, and that we shall hear often from them.

Dick J. Crosby, '93, Dept. of Education, Washington, D. C., visited college friends Aug. 3.

A very enjoyable musical program was given at the residence of Mrs. Bogue recently, with readings by Mrs. Wilcox.

Prof. Beach, of the Iowa Agricultural College, visited M. A. C. during the week of Aug. 14. Mr. Beach is professor of horticulture in the above institution.

R. J. West, former student and instructor in chemistry, with his wife, paid college friends a short visit this summer. Mr. West is with John Lucas & Co. Color Works at Gibsboro, N. J.

The college excursions during August, while not so largely patronized as in some previous years, brought many young people who were anxious to learn more of the institution and the work it is doing, and in this way fulfilled its mission.

Mrs. Gertrude Slaght Preston, of 1904, has charge of the 4th, 5th and 6th grades in our public schools this year. Mr. Preston finished his course in a Chicago medical college last June, and is this year occupying a position as interne in the college hospital.

Prof. L. L. Appleyard has severed his connection with our engineering department, and has accepted a position with the Seager Engine Works of Lansing. Mr. Appleyard's position is that of salesman, with headquarters in the southwest, probably at St. Louis.

H. H. Coplan will be student assistant in the drawing department during the fall term.

C. C. Cobb, one of our instructors last year, is this year with the Seager Engine Works, of Lansing, in the costs department.

Miss Bessie Bartholomew, who assisted in the drawing department last fall, will have charge of like work during the coming term.

Dr. Marshall has taken the usual precaution to avoid any trouble arising from the use of contaminated water, and is analyzing samples of water from various points in the system, as well as from the wells in use in the community.

We are glad to report that Ira Butterfield, who has been obliged to leave his lucrative position in Detroit on account of illness is on the gain. Mr. and Mrs. Butterfield are spending the winter with Mrs. B.'s parents, Mr. and Mrs. Groat.

Mr. C. C. Wilcox, machine shop foreman during the past year, has resigned and accepted a position as assistant consulting engineer with E. J. Bechtel, of Detroit, whose principal business is the designing, construction and operation of electric railway properties.

Prof. Wm. Shaw, of Washington State Agricultural College, spent a few days with his brother, Prof. R. S. Shaw, during the summer. Mr. Shaw received his master degree at M. A. C. 1901, and has been for several years professor of agronomy in Washington.

# ATHLETICS

The prospects for football this season, while not as bright as in 1909, are still much above the average. Last year practically every '08 man was back, and in consequence the team was the strongest perhaps in the history of the college.

Of last year's squad who will be back are Exelby, Cortright, F. Campbell, Stone, Pattison and Hill,—all monogram winners last season. Of last year's subs. reporting are Montfort, Ballard, Horst, Riblet, Williams, Sanford, and McDermid.

Of new material there promises to be an abundance, and of a good quality, while there is still good material among the old men who will be back.

An all-freshman team will be organized at the opening of the term, who will have a regular coach to handle them, and who will have a schedule of games.

The changes in rules will affect the game considerably, and the first part of the season will be something of an experiment. However, the game promises to be more spectacular and exciting for both players and spectators than ever before. It is expected, also, that the changes made will lessen the danger of injury to a large extent.

Practice began Monday, and the opening game between the varsity and scrubs will be played Oct. 1. The first college games will be played with Detroit College Oct. 6. The schedule is the most attractive ever offered, the date with Notre Dame being perhaps the greatest drawing card. For the first time we have been able to schedule a home game on Thanksgiving. Following is the schedule as arranged at present.

- October 6—Detroit College at East Lansing.
- October 8—Alma at East Lansing.
- October 15—Michigan at Ann Arbor.
- October 22—Lake Forest at East Lansing.
- October 29—Notre Dame at East Lansing.
- November 5—Marquette at Milwaukee.
- November 19—Olivet at Olivet.
- November 24—Wabash at East Lansing.

Mr. Fred C. Kennedy, of Amherst, former cashier at M. A. C., made college friends a hurried visit Aug. 19, 20.

Prof. J. D. Towar returned to M. A. C. in July, and has taken up the management of the old home-stand, south of the college. His many friends are glad to welcome him back once more.

Mr. Albert M. Clark, superintendent of the Wallaceburg Sugar Co., recently went, with a special train of the American Chemical Society, to attend the mid-summer meeting at San Francisco. While there he met W. C. Oven, superintendent of the sugar factory at Hamilton, Cal., and George Woodruff, superintendent of the large factory at Logan, Utah. Mr. Clark will be remembered as among our first instructors in beet sugar chemistry.

## ELMA H. SMITH.

The college community were shocked to learn of the death, on July 6, of Miss Elma Smith, '12, as but few of her friends knew of her illness. She had been in poor health for some time, but her condition did not become serious until but a few hours before she passed away at her home on College Heights. The immediate cause of her death was appendicitis.

Miss Smith was a sophomore in college, and had made many friends. She leaves a father, mother and one sister to mourn, who have the sincere sympathy of the college community.

## JAMES S. BRODY.

James S. Brody, of the class of 1912, died at the home of Mrs. Hammond, on the Delta, Aug. 26, at the age of 22 years. At the close of last year Mr. Brody secured a position with the Experiment Station, where he has been at work during the summer, but when found to be in failing health took steps at once for recovery. He was very much gratified by the progress he was making until about one week before his death, when he failed rapidly. He leaves a father and two brothers, Clark, who graduated in '04, and Clarence, both of whom reside at Three Rivers.

Mr. Brody was an industrious, ambitious young man, and his genial disposition won for him many friends at M. A. C. The *Commercial Hustler*, a Three Rivers paper, has the following to say: "Words can but feebly express the gratitude felt towards his many friends in East Lansing, especially his landlady and room mate, for their loving care and strenuous exertions for his recovery."

The RECORD extends heartfelt sympathy to those who mourn.
