No. 26

PEACE ORATION CONTEST.

HEAR MR. KLINGER.

The State Peace Oration contest will be held in the college armory, M. A. C., on Friday evening of this week, at 7:30 o'clock. Mr. Aisenstein has withdrawn from the race, and K. M. Klinger, who was a close second in the local contest, will represent M. A. C. Mr. Klinger has a splendid oration, and should have the support of the entire college community. His work has received the very highest commendation by those who have heard him speak, and it is sincerely hoped that a goodly number will turn out Friday evening.

There will be six speakers, representing the following institutions: University of Michigan, Albion, Olivet, Hillsdale, Ypsilanti, and M. A. C. There have been a number of inquiries from our sister colleges concerning accommodations for visitors, and indications are that each will send good delegations. There will perhaps be 200 visitors at that time.

Special music is being prepared, and will be of the best.

THE NEW ENGLAND ALUMNI REUNION.

The sixth annual meeting of the New England M. A. C. Alumni Association took place at the Bellevue Hotel, in Boston, on March 8. No other alumni association draws its membership from such widely distributed points as does this New England gathering, since not only is Boston and Massachusetts called upon, but Connecticut, Rhode Island and New York, also furnish members, and sometimes even Maine and New Hampshire have contributed representatives. No small amount of commendation is due these faithful alumni members that they should put themselves to so much effort in behalf of their alma mater.

An admirable banquet supplied both zest and volume to the good humor which was already so prevalent throughout the company, and suitably prepared the way for the deliberative part of the meeting, which followed. President Butterfield asked that new officers for the association be elected for the ensuing year, and Mr. C. M. Weed, '83, as president, and Mr. Glenn Sevey, '03, as secretary-treasurer, were the lucky choices. Several resolutions were presented with regard to the college, for the purpose of ascertaining the views and wishes of the assemblage. Two of these, at least, were emphatically timely, and are deserving of mention at this place. First, the old College Hall should be preserved. This resolution was endorsed without dissenting vote or word. Second, that the name of the college should be changed, in harmony with the wishes of the M. S. C. partisans. Here there was no such unanimity of opinion as was shown with regard to the first proposal. Several

strongly condemned a change in the name, and others were equally convinced of the propriety of such action. In the end, the resolution was voted upon favorably.

The visiting representative from the college, Prof. Hedrick, now discussed some of the subjects of current interest at the alma mater, and Dr. Beal presented some topics from the forthcoming history of the M. A. C., which he is preparing. A large number of those present were at this time called upon by the presiding officer, and some very interesting discussions followed. Since teaching and journalism are the two predominating vocations which have called M. A. C. graduates into the east, the theme which was uppermost in the addresses of the evening pertained clearly to matters of agricultural education, and no little divergence of views upon this question found expression. Before adjournment, the attention of the meeting was called to the fact that an old graduate and an enthusiastic member of the New England alumni association, Mr. A. B. Peebles, '78, was seriously ill in a Boston hospital, and resolutions of sympathy were adopted and transmitted to Mr. Peebles.

The following were among those who attended the reunion:

Prof. L. A. Clinton, wife and daughter, of Storrs, Ct.; F. C. Kenney, of Amherst, Mass.; H. C. Hicks, of Amherst; R. R. Lyon, of Ft. Terry, N. Y.; H. K. Patriarche, of Boston, Mass.; W. D. Hurd, of Amherst; Wm. F. Uhl, of Boston; A. T. Stevens and wife, of Storrs, Ct.; Dr. Howard Edwards, of Kingston, R. I.; Ray Stannard Baker and wife, of Amherst; Kenyon L. Butterfield and wife, of Amherst; C. M. Weed, of Lowell; Mrs. C. P. Reynolds, of Springfield; Dr. Beal, of Amherst; Glenn C. Sevey, of Springfield, Mass., and Bland Edwards, of Boston, Mass.

PRES. KING AT PEOPLE'S CHURCH.

The closing session of the 33d annual meeting of the Lansing Congregational Association was held in the People's Church, Tuesday, March 26. President Henry Churchill King, of Oberlin College, gave an address at 4:30 on that day on the subject, "The Moral and Religious Challenge of Our Times." The address was of intense interest to every one present, as in it the speaker analyzed the external features of the present time, and the moral and religious influence upon same. The wonderful progress of the age, man's power over the forces of nature, the increasing wealth of the nation, the extension of economic forces, and the mingling of races were subjects for discussion, and president King handled these important questions with an ease and earnestness which impressed every one present. A luncheon was served for the attending delegates at the close of this session.

BASEBALL.

A most attractive program of baseball has been outlined by Mr. Macklin for our spring term. The schedule includes sixteen games, ten of which are to be played on the home grounds. As has been stated, the weather conditions have been most unfavorable for the preparation of the spring work, and the team must enter the field with very little practice.

There is, however, a strong nucleus from last year's squad around which to form our 1912 team, and the new men are showing up very well indeed. Cap. Harvey and his men will get down to real practice at the earliest possible moment, and the bleachers will be expected to do their share.

The only changes made in the schedule, as first arranged, is the dropping of the game from April 23, and changing the Ypsi game from April 27 to June 8.

The program is as follows:

- April 13—Olivet, at Olivet.
" 19—Ohio State, at M. A. C.
" 20—Case, at M. A. C.
" 26—Western Reserve, at M. A. C.
May 1—Ohio Wesleyan, at M. A. C.
" 4—Michigan, at M. A. C.
" 10—Syracuse, at M. A. C.
" 11—Alma, at M. A. C.
" 16—Wabash, at M. A. C.
" 18—Michigan, at Ann Arbor.
" 22—Ohio Wesleyan, at Delaware, Ohio.
" 23—Western Reserve, at Cleveland.
" 28—Alma, at Alma.
" 30—Michigan, at Ann Arbor.
June 1—Olivet, at M. A. C.
" 8—Ypsilanti, at M. A. C.

AGRICULTURAL TEACHERS' MEET.

The annual meeting of the Michigan Society for the Promotion of Agricultural Teaching will be held in the Agricultural Building, Friday evening and Saturday forenoon, April 19 and 20.

The following program will be carried out:

FRIDAY EVENING, 7:30.

Address, - President J. L. Snyder.
Address, - Dean R. S. Shaw.
Address, - Hon. L. L. Wright.
"What Can We Do to Promote Agricultural Teaching in the State?"
Alex McVitte, St. Johns.
Discussion, Sup't E. C. Warriner, Saginaw.

SATURDAY, 9 a. m.

"The Proper Scope of High School Botany," A. J. Hutchins, St. Louis.
Discussion, Sup't S. J. Gier, Hillsdale.
"The Use of Land in Connection with High School Agriculture,"
J. W. Chapin, No. Adams.
Discussion, C. S. Langdon, Watervliet.
"Is the Four Unit Course in Agriculture Desirable?" C. L. Nash, Union City.
Discussion, Sup't J. D. La Rue, Northville.
President, R. A. Turner, Hillsdale.
Secretary, C. L. Nash, Union City.

ALUMNI

'61.

Albert Fuller Allen, of Vineland, Kansas, a member of the first graduating class, and the oldest living graduate, has been heard from. He writes to acknowledge the receipt of the alumni catalog, in which he was greatly interested, and trusts that the college will continue to publish these every ten years. He also requests us to send him a copy every time they are published as long as he lives. Mr. Allen, who is a prominent farmer near Vineland, was 75 years old on Dec. 27.

'01.

Mr. and Mrs. James Willis announce the marriage of their daughter, Essie, to Prof. Charles McCue, on Wednesday, March 27, at Newark, Del. Mr. and Mrs. McCue will be at home after April 20 at 454 Delaware Ave., Newark.

'02.

Mr. and Mrs. George N. Cardozo, of Big Timber, Mont., announce the birth of a daughter, on March 25. Mrs. Cardozo was formerly Harriet Farrand, a graduate of '02.

D. S. Bullock has resigned his position at Temuco, Chili, as missionary instructor in agriculture, and will leave that country for the States early in April. Mr. and Mrs. Bullock will come by way of Panama, and will probably call on college friends some time in May. Mr. B. has been doing considerable collecting, and will have several new species of S. A. birds to add to his already large collection in our museum. After reaching Michigan, his temporary address will be Lapeer, R. D. 5.

'09.

A daughter, Phyllis Calesta, was born to Mr. and Mrs. E. B. Hulett, at 130 E. Eleanor St., Philadelphia, Pa., on Thursday, March 21. Mr. Hulett, who graduated with the class of '09, is chemist with John T. Lewis & Bros. Co., in the above city.

R. W. Taylor writes from Ogden, Utah, that he expects to leave, April 15, for Nevada City, Calif., to do reconnaissance work on Tahoe National Forest. He received a call from Shirley, '08, recently, who was on his way to Montana, where he is to be engaged in horticultural work for the state.

'10.

W. C. Spratt is teaching agriculture in the high school at Ada, Minn., this year, and is meeting with splendid success. He is putting in long hours, and working hard.

John A. Smith, assistant to entomologist at Harrisburg, Pa., is inspecting imported nursery stock at Philadelphia, and will be in that city for several weeks. His address is care of Windsor Hotel.

TUESDAY, APRIL 2, 1912.

AN EASTER CREED.

I trust in the living God, Father Almighty, Maker of heaven and earth and of all things and creatures visible and invisible. I trust in the kindness of his law and the goodness of His work. I will strive to love Him and keep his law and see His work while I live. I trust in the nobleness of human nature, in the majesty of its faculties, the fulness of its mercy, and the joy of its love. And I will strive to love my neighbor as myself, and even when I cannot will act as if I did. I will not kill or hurt any living creature needlessly, nor destroy any beautiful thing, but will strive to save and comfort all gentle life and guard and perfect all natural beauty on earth. I will strive to raise my own body and soul daily into all the higher powers of duty and happiness, not in rivalry or contention with others, but for the help, delight and honor of others and for the joy and peace of my own life.

JOHN RUSKIN.

AND now for the home stretch.

OLD winter has been loath to leave us, but we can the more appreciate the spring when it comes. After all, the weather don't count much, according to the Hoosier poet:

"Whatever the weather may be," says he,
"Whatever the weather may be,"
"It's the songs ye sing and the smiles ye wear
"That's a-making the sunshine everywhere."

WITH the beginning of the spring term, the newly elected officers on the *Holcad* assume their duties for the coming year.

Editor Verne Branch and Business Manager H. H. Coplan have completed their year's work, and both are to be congratulated upon the results. There are many vexing and trying problems in connection with the publication of any paper, and especially is this true with a student publication. These problems have come to Mr. Branch in full measure, and yet he has handled every detail of the work with such painstaking and careful consideration that the student paper is at present second to none in the state.

Under the efficient business management of Mr. Coplan, the paper has been placed on a better financial basis than ever before, and the prospects are very bright for the coming year.

With these points in view, the new staff begins its work. Mr. Klinger brings to his office consid-

erable experience along the line of publication work, in which he has been very successful. Mr. Granger, as business manager, will succeed without question of doubt, if we can bank on his past efforts along this line. We feel certain that every student will rally around the new staff, and give them the support necessary to make their work pleasant and successful.

A RULING OF THE BOARD WITH REGARD TO SOCIETY HOUSES.

There have been frequent requests of late for information concerning the attitude of the State Board of Agriculture with reference to the erection of society houses.

It will be remembered that in 1909 the Board made a very thorough investigation of this question. As a result of this investigation, the Board passed certain resolutions, which are quoted below. The full report of this investigation will be found in the 1909 report of the Secretary of the State Board of Agriculture.

Last fall, a society which had lived off the grounds for some time in rented quarters, purchased a house on a contract. This matter was brought to the attention of the Board, and the following action taken, under date of August 16, 1911. From this action, the attitude of the Board may be understood. At the meeting at which this action was taken, the two new members whose services began January 1 were present, although not officially members of the Board. The action is as follows:

"In accord with the expressed sentiment of between eighty and ninety per cent. of the alumni heard from,

"*Be it Resolved*, That it shall be the policy of this institution to foster the dormitory system of housing students, and that efforts will be made to increase, as rapidly as possible, dormitory accommodations, eating halls, and quarters for social purposes.

"*Resolved*, Further, that this board shall not give its consent to the erection of society houses for living purposes, but it shall encourage the erection of houses by our literary societies for literary and social purposes, it being understood that such houses shall contain rooms for alumni and care takers.

"The building already erected off the grounds with the consent and under the conditions laid down by the board, shall not be disturbed in the enjoyment of the privileges already granted. The other societies living off the grounds in rented quarters shall be expected to occupy again rooms on the campus when such rooms are properly provided.

"We conceive it to be the duty of a Board placed in charge of an institution maintained by taxation to keep such an institution as far as possible within the reach of the average student. Therefore we adopt this policy, and trust it may have the approval of the alumni and other friends of the institution to the end that the democratic spirit which has characterized the college in the past may be maintained, and that it may continue to be an institution where the sons and daughters of all citizens, without distinction, may secure an education which will

fit them for the practical duties of life," and

"*Whereas*, the Hesperian Society is reported to have purchased a house outside the grounds of the Michigan Agricultural College, to be used as living quarters for that society,

"*Therefore be it Resolved*, That we consider the action of the Hesperian Society in purchasing a society house for living purposes outside the grounds of the Michigan Agricultural College as a violation of the foregoing resolution, and said society is warned against continuing its aforesaid project, and is hereby notified that if it proceeds with the same, it must abandon said house whenever rooms on the campus are provided, or whenever ordered to do so by this Board."

DR. WILEY'S SUCCESSOR.

The many friends of R. E. Doolittle, '96, no doubt understand that he is one of the men to be mentioned as Dr. Wiley's successor. The other two are W. D. Bigelow, for many years assistant chief of the Bureau of Chemistry, and Dr. J. S. Mitchell, of the Dairy and Food Bureau of Minnesota.

Mr. Doolittle has had the strong endorsement of the Michigan delegation, beside being endorsed by many of the dairy and food commissioners of the country, with whom he has had more or less intimate acquaintance during his connection with the Division of Food in the Bureau of Chemistry.

Immediately after graduation with the class of '96, Mr. Doolittle entered the laboratory of the Michigan Dairy and Food Commission, at Lansing, as assistant chemist. He later became chief analyst, but resigned this position to accept a position with the Bureau of Chemistry, Division of Food Inspection, with offices in New York City. His speciality was the inspection of foods imported from foreign lands, and required a force of 30 chemists to carry on the work. He was required, in connection with his work, to visit all the ports of entry, and pass upon many rather perplexing problems.

Upon the re-organization of the official food board, at Washington, Mr. Doolittle was selected by Dr. Wiley to take the place made vacant by the resignation of Solicitor McCabe. Since Dr. Wiley's resignation, he has been made acting chief of the Bureau of Chemistry. He is a man well qualified for the important office, and his friends are anxious to do what they can to make his present position a permanent one.

On Monday evening the men's class of the People's church kept open house to receive the election returns. Special arrangements were made with the telephone company for all the news which was telephoned to the church, and to no other place in the community. The bulletin announced "Some music, some talk, something to eat, something appropriate to drink, no formality, and a mighty good time. Everybody is invited to get around about 7:30 or a quarter to eight." This opportunity to get the returns first hand was certainly appreciated by every one present, as all were particularly interested in the local option vote.

ABOUT THE CAMPUS.

Ingham Co. went wet, but East Lansing cast 194 votes for local option against 33 for whiskey.

A daughter was born to Mr. and Mrs. Ray Small, at 111 Bingham St., Lansing, on Friday, March 29.

Miss Luella Harper, who has been employed in Sec. Brown's office the past winter, left this week for her home in St. Louis, Mo.

W. R. Holmes, foreman of our forge shop, has been seriously ill at his home on Bingham street, Lansing, but is reported some better.

Sixteen men have been kept busy by our dairy department during the past few weeks, testing for advanced registry at various points in the state.

Dean Lyman, of our Veterinary Department, and Foreman Davis, of the Hort. Department, were in Chicago last week, where they purchased a fine pair of horses to replace the old browns which were sold recently.

A very enjoyable April Fool party was held in the Agricultural Building Thursday evening, March 28, for the benefit of those who remained over vacation. The program was in charge of Messrs. Taylor, Bovay, and Caldwell.

Miss Dondero, who taught the primary grades in our public schools last year, has completed her work at Mt. Pleasant for her state certificate. She will have charge of the primary grade in the Bingham St. school, beginning with the winter term.

Mrs. H. P. Baker (Fleta Paddock, '01) and children expect soon to start for St. Croix Falls, Wis., for a short stay, and will visit relatives and friends at M. A. C. en route. Prof. Baker assumes his duties as head of the forestry department at Syracuse this month.

The annual meeting of the International Association of Instructors and Investigators is to be held at M. A. C. the coming summer, probably in June. A detailed program has not as yet been arranged, but the RECORD will give further notice when such a program is available.

Prof. Wm. L. Miggett, of the engineering department at Ann Arbor, who spoke in Lansing on Friday evening, was the guest, on Saturday, of Prof. Kunze, and after a close inspection of our courses and equipment, expressed himself as both surprised and delighted with the same.

Prof. Hedrick had a short visit with Prof. Wendell Paddock, of Ohio State University, recently, and learns that the Ohio board has promised a new \$250,000 horticultural building as the next improvement. Mr. Paddock, who is a graduate of the class of '93, is the professor of horticulture in the above institution.

An illustrated lecture on Mechanical Technology was given by Prof. William L. Miggett, of the University of Michigan, in the Public Library, Lansing, on Friday evening of last week. Some of the subjects under discussion were: Industrial or Manufacturing Processes, The Machine Shop, The Foundry, and The Working and Heating Treatment of Steel.

ABOUT THE CAMPUS

Plan NOW to attend the May Festival, May 24.

A bunch of keys has been left at the dairy building. If you are interested, call.

The Farm Crops Department has purchased a new Standard Seed Tester, and also a number of dissecting sets for work in hybridizing.

Quite a number of M. A. C. people appear on the programs of the eighteenth annual meeting of the Michigan Academy of Science, held in Ann Arbor the past week.

The annual Tic-Olympic party was held in the Masonic Temple Friday evening, March 22. It was one of the prettiest parties of the year, and a large number of out-of-town guests were present.

There are now 30 members in the "Poultry School" at Jackson, and Mr. Linton reports added enthusiasm at each meeting. The work is under the auspices of the Jackson Y. M. C. A., and consists of a series of lectures and demonstrations by Mr. Linton.

There has just been issued, by our experiment station, an excellent bulletin on Tile Drainage. The various systems are fully explained, kind and size of tile needed for various lands, etc., as well as a full description of the various instruments used in laying out mains and laterals. A large number of excellent illustrations are presented, and add materially to the usefulness of the publication. The work is that of Prof. Jeffery.

Prof. and Mrs. Myers, spent the past week at the professor's former home, Geneseo, Ill.

Fred Riddell, with '12, will do testing throughout the state for the college dairy department during the spring and summer.

Messrs. Taft, Pickford, Hart, and Hays were kept busy during vacation week, pruning the college orchard and top-working a number of apple trees.

O. W. Schleussner has completed his work for graduation, and has accepted the management of a large fruit and truck farm near Caldwell, N. J. The position is particularly acceptable to Mr. S., as it is quite near his old home in New York.

About 35 men, representing the paid Y. M. C. A. employees of the state, held a meeting in the People's church on Wednesday and Thursday of last week. They spent a short time Thursday afternoon in looking through our buildings, and many were greatly surprised at the extent of grounds and equipment.

A number of the junior and senior Hort. students spent the vacation in a practical and profitable way, pruning and spraying orchards. Carmody, Branch and Knowlton worked on the large orchards of Nazareth Academy, at Kalamazoo; Ed. Smith and Truax at Paw Paw; Schuyler and G. E. Smith at LaPorte, Ind.; McClintock, Pickford and Sayre at Marshall; Fields, Granger and Richardson at Grosse Isle; and Carey and Clothier at North Adams.

The Delta Club was closed for the week end, because of the fact that so many members were away for the vacation.

E. C. Lindemann, '11, of *The Gleaner*, and J. W. Chapin, '10, teacher of agriculture at North Adams, were among our college visitors recently.

Pres. Snyder and Pres. McNair, of Houghton, met with Pres. Hutchins, of the State University, at Ann Arbor, Thursday of last week, to discuss questions of interest in connection with the work of the three institutions.

The Forestry Club held a very enjoyable banquet at the close of the winter term in Club A. A bounteous dinner was served, after which several speeches were made by representatives of the various classes, and also by members of the forestry teaching force. The occasion was a thoroughly enjoyable one.

During the past week, a pattern loft has been arranged on the east side of the machine shop gallery, which will be of great convenience in keeping track of this phase of the work in the wood shop department. There have been constructed seven parts, or standards, with four shelves to each, and one section without shelves will be reserved for the larger patterns. These shelves will be divided and properly labeled with numbers and letters. In connection with this, a card index will be kept, so that any pattern may be found easily.

Dr. de Zeeuw has purchased a lot in the grove on north Park St., and will begin building operations as soon as the weather will permit.

E. E. Gallup, with '96, and Wm. Lightbody, '89, both prominent school men in the state, were on the program of the Schoolmasters' Club meeting held in Ann Arbor last week.

Prof. Shoesmith was in Jackson, Saturday, where he organized a Jackson County Experimental Association. Mr. Hoopingarner organized a similar association in Grand Rapids, recently.

About 200 teams are entered for the Intercollegiate and Interscholastic Relay Race Carnival, to be held in Philadelphia, on Saturday, April 27. This is Olympic year, and it is expected that this will be one of the greatest carnivals ever held.

"Top-working Apple Trees" is the subject of Circular No. 14, issued by our experiment station. The circular is timely and instructive, and the cuts are clear and add greatly to its value. The circular is the result of work by Prof. Halligan.

C. L. Oppenheimer, one of the men to help in the establishment of our poultry plant, was at the college the past week. He is now with the government, and is working in the interests of better poultry produce. Several Michigan shippers are interested, and are working in conjunction with Mr. O., with the hope of bettering the grade of poultry and eggs sent on to the markets.

ABOUT THE CAMPUS.

Prof. Macklin acted as one of the judges in the big track meet at Ann Arbor last week.

Miss Calla Krentel, '07, of the Kansas Manual Training Normal College, Pittsburg, Kansas, is at home for a month or so, in order to secure a much needed rest.

The following note was endorsed on a final exam. paper and handed in to a near-sighted instructor:

"Adieu, Mr. Glasses;
Here's hoping I passes."

E. E. Sours, 13c, has left for his home in Wexford Co., where he will be employed in surveying work during the coming summer. He will return next winter and complete his course.

Miss Maud Meech, the voucher clerk in Sec. Brown's office, has returned from her trip through the south, and has been greatly benefited by the outing. She resumed her duties again this week.

The May Festival, the big attraction of the spring term, promises to be bigger and better than ever, on May 24. A unique way of keeping this date before the people is the use of green envelope stickers on the local correspondence.

At the East Lansing election Monday the following city ticket was elected: Mayor, Thos. Gunson; aldermen, J. Schepers and Luther Baker; clerk, B. A. Faunce; treasurer, F. P. Kishpaugh; supervisor, E. R. Blair; justice, J. H. Cowley.

Those who did not see the high school play, "College Town," will have another opportunity, on Saturday evening of this week. The play seems to have met with popular favor, and there has been a general hope expressed that the same might be repeated.

B. F. Kindig who was in college the past year, and who has been teaching at Goshen, Ind., has accepted a position as assistant state entomologist of Indiana and begins his new duties April 15. His address after this date will be Room 58 State House, Indianapolis, Ind.

Prof. J. A. King, of the department of farm mechanics in the Iowa College of Agriculture, was a college visitor the past week. Prof. King is connected with the experiment station of that state, and is developing what is known as the Iowa silo. He is at present securing information relative to the Harder patent on silos.

Two new sets of fire escapes have been placed on the Women's Building during vacation. One has been installed on the south wing and the other on the north end of the building in place of the one formerly there. These are a great improvement over the old style, and are so constructed that one may descend with perfect safety. The one on the east side of the building will be left in place.

The usual number of A's, B's, "etc." were handed out by our registrar the past week.

Miss Norma Gilchrist spent the spring vacation with the Chapman's, at their home in Chicago.

Mr. C. A. Taylor, of Coldwater, was at M. A. C. Thursday of last week, to confer with the authorities in connection with the research work in forestry.

Miss Louise Rademacher, of our Bacteriological Dept., who has been ill in the college hospital for several weeks, is gaining slowly, but will not be able to be out for some time yet.

The course in beet sugar chemistry closed Thursday of last week, and was a success from every standpoint. Forty-six practical factory men were in attendance, and all were enthusiastic over the results.

Prof. Hunt spent the vacation at Champaign and Purdue; Miss Stevens at her home in Marengo, Ill.; Miss Scott at her former home, and Miss Casho and Miss Berg remained at the College the entire week.

'10.

C. E. Smith, of Merle Beach, has accepted the management of a large fruit farm near Torch Lake, and leaves soon to begin operations.

'11.

E. H. Brown has decided not to continue his teaching work another year, on account of poor health. He will seek out of-door employment for the summer.
