EAST LANSING, MICH.

July, 1927

Country Life Week Plans Completed

Seventeen Organizations Scheduled to Meet July 31 to August 6; Largest Conference in History to Study Agriculture and Rural Life; Secretary Jardine Heads List of Speakers.

Country Life Week, a six-day conference on the social and economic problems of rural life, which is scheduled for July 31 to August 6 at Michigan State College, will be the first conference of its kind ever held. Seventeen organizations and groups will meet during the week, comprising the largest and most representative gathering ever brought together for the purpose of studying the problems of rural life.

It is particularly fitting that the first country life conference, bringing together all of the outstanding organizations interested, should be held at Michigan State, the oldest college of its kind in America and an institution that has established itself as a leader among land grant colleges.

President Kenyon L. Butterfield, as president of the American Country Life Association, a member of the International Country Life Commission and a member of the World Agricultural Society, has been instrumental in sponsoring the conference. President Butterfield has long been associated with national movements for rural advancement.

The meeting of the International Country Life Commission at the College this summer will be the first meeting of this organization in America and probably the last in this country for several years. They met last year in Brussels, Belgium.

The sessions of the American Farm Economics Association, the conference of the International

Country Life Commission, the School of Leadership for students interested in rural life, the meeting of the World Agricultural Society, and the conference of American "Master Farmers", will be gatherings of national and international scope.

All of the seventeen special conferences are listed wither for the days of the Country Life Week, or, in cases where the conference are to last for a longer period, they have been so planned as to reach their climax during this week. In many instances, various meetings will be held simultaneously, but the most important sessions will be arranged so that all the guests at Country Life Week may meet together.

Many prominent leaders in the agricultural and country life fields from the United States, Canada and Europe, and outstanding economists and sociologists, will be included among the speakers.

Hon. William Jardine, United States Secretary of Agriculture, is scheduled to deliver an address August 1, and will be perhaps the best known speaker to appear before the Country Life Week audiences.

Prof. H. C. Taylor, rural economist at Northwestern University; Dr. C. J. Galpin, rural sociologist, U. S. Department of Agriculture; Father Edwin V. O'Hara, of Oregon, nationally known leader in rural life betterment; Judge Florence Allen of the Ohio Supreme Court; Henry Morris, of

England; Paul DeVuyst, of Belgium; Dr. V. Lindequist, of Germany; Entienne Wiess, of Hungary; Jacob Lange, of Denmark, and many others are included on the conference list of speakers.

"Farm Income and Farm Life," the subject which has been chosen for the joint meeting of the American Country Life Association and the American Farm Economics Association, will stand out as the leading theme of the Country Life Week conference. The relation between agricultural income and the standards of farm life will be discussed by authorities who have studied these problems from all angles. The American Farm Economics Association, in addition to their meeting with the American Country Life Association, will conduct a School of Cooperation in which they will deal with all of the outstanding problems of farmers' commodity exchange organizations.

Groups conference scheduled for Country Life Week include the following: American Country Life Association, American Farm Economics Association, International Country Life Conference, National Catholic Rural Life Conference, World Agricultural Society, Michigan Farm Woman's Institute, National School of Leadership for Students Interested in Rural Life, Conference of Master Farmers, Citizenship Conference for Women, Michigan Country Life Association, Summer School for Town and

(Continued on page 4)

SPARTAN CLUBS

JACKSON COUNTY

The annual summer picnic of the Jackson county alumni club which was scheduled for Saturday, June 18, at the Ella Sharp park in Jackson was postponed on account of heavy rain. Geo. Dobben, '24, president of the club writes that "we hope to have a better understanding with Dewey Seeley the last of July or early August."

BERRIEN COUNTY

Dan Mather, '13, of St. Joseph, president of the Berrien county alumni club writes that their group entertained the college band on Blossom Day the last of May. The American Legion Auxiliary served a fine dinner even though the band was an hour late in arriving. The Berrien County club plans to hold their summer picnic early in August.

MUSKEGON COUNTY

John Van Arman, '26, of the Muskegon Boiler Works writes that Muskegon alumni number but twenty at the present time. He adds, "however, even though our crowd will be small I have visited most of them and they all want to organize an alumni club here. Most of them are graduates of some years ago but I am sure we can get a good club started this fall."

SHIAWASSEE COUNTY

At the mid-winter meeting of the Shiawassee County alumni club the alumni field secretary was instructed to place an order with the college publications committee for a 1927 Wolverine and one year's subscription to the Michigan State News, these to be sent to the high school library in Owosso. On June 9th, the Wolverine was placed in the library and was very much appreciated by the high school students. This as well as the Michigan State News, the students paper, is a distinct service that the local alumni clubs can perform for their local high schools. A. B. Cook, '93,

is president of the club, Mrs. J. A. Byerly, '15, secretary and V. O. Braun, '24, corresponding secretary.

SOUTH HAVEN CLUB

The South Haven alumni club held its annual meeting in April at the home of Mr. and Mrs. Leon Burge, '26, at South Haven. There were about twenty-five present and at the business meeting officers for the coming year were elected as follows: L. B. Karr, '24, president; Floyd Barden, '08, vice-president, and Mrs. Orvis Williams, secretary-treasurer.

A joint meeting of the club was held at Kibbie, Mich., on May 20th, with the South Haven Community club.

GRAND RAPIDS CLUB

A large caravan carrying over 100 members of the Grand Rapids alumni club motored to Grand Haven Saturday, June 25, and enjoyed an old time picnic at the cottage of Phelps Vogelsang, '25. Herb Straight, '17, president writes: "We had one of the best picnics I ever attended. Both old and young were there and entered in the games and sports. The supper on the beach of Lake Michigan was a relief after the few hot days we had. We were especially pleased to have Coach Ralph Young and Miles Casteel fill their cars with East Lansing folks and join in with us. Our weekly luncheons will be discontinued during the summer months but we expect to meet every Friday noon in the fall at the Masonic Temple cafeteria and any State men who happen in Grand Rapids are always welcome."

DETROIT ALUMNI PICNIC

About 100 members of the Detroit M. S. C. alumni club and students home from College were in attendance at the decidedly successful annual picnic held at the River Rouge Park, Saturday, June 25th.

Al Barron, '15, and Eli Middlemiss, '20, were in charge of the games, races and stunts for the youngsters. The men seized the opportunity during the afternoon to stage a barn-yard golf tournament. By dusk the teams were practically

eliminated and Eli Middlemiss and Emil Pokorny were awarded the club trophy.

Basil Knight, '20, and family, formerly of Grosse Ile, drove all the way from Palisade, Colorado to reach Detroit for this event and will visit relatives there during July.

The picnic supper at Detroit's new west side park was very successful, and attracted Capt. Don Stroh from Camp Custer summer camp, as well as Vern Branch who stayed in a board meeting at Lansing until four thirty in the afternoon. A hillside base ball game followed the big feed with batting honors going to Leo Chamers. Glen Stewart, '17, alumni field secretary of the college managed to get a good feed and met many new faces in the Detroit club. E. C. Krehl, '08, vice-president of motor city alumni was general chairman of the day.

COUNTRY LIFE WEEK PLANS COMPLETED

(Continued from page 3)
Country Ministers, Conference on Relation of Town and Rural High Schools to the Community, School for Managers and Directors of Local Cooperative Associations, Regional Conference of Community Church Workers, Conference on the Michigan Country Church and a Christian Program for the Rural Community, Conference of Country Y. M. C. A. Secretaries, and the Michigan Rural Education Society.

After checking up on wind velocities in Nebraska, the Weather Bureau cooperating with the Nebraska State Agricultural College at Lincoln, is about prepared to say that farms can be lighted by means of wind machines. The problem is, of course, to harness all loose horsepower in the unlimited debate over agricultural relief—to get out the volts instead of the votes.—Nation's Business.

Michigan State College poultry experts will figure prominently in the program of the International Baby Chick association, annual meeting, being held at the Pantlind Hotel, Grand Rapids, July 18 to 22.

New Members Added to Teaching Staff

State Board Chooses New York Man Head of Music Department; New Department of Psychology and Philosophy Added

Appointment of Lewis Richards of New York City, as head of the music department of the College, has been announced by President K. L. Butterfield. Mr. Richards will assume his duties at the beginning of the fall term. Prof. J. S. Taylor who has been conducting the department for the past few years will devote his entire time to teaching.

The new music head is a Michigan man. He received his early musical education at the University School of Music, Ann Arbor, later studying at the Royal Conservatory of Music, Belgium. He was the first American pianist to graduate at this conservatory. Since 1905 he has taught in Detroit, toured Europe as a concert pianist, served on the Belgium relief commission with Herbert Hoover during the war, and for the past few years has lived in New York, making a specialty of the harpischord. Mr. Richards has had considerable teaching as well as executive experience, and has a wide acquaintance with music and music education.

A new addition this fall will be

the department of psychology and philosophy. Prof. H. C. Coffman, who will head the department, has been studying for his doctor's degree at Columbia university in the field of psychology and will be here for opening of college in September. The new department will be under the liberal arts division, which has been gradually expanding until now it has some 800 students.

Among other changes of the teaching staff for this fall is the addition of Dr. William Haber, who will have the position of assistant professor of industrial relations. Dr. Harber is a graduate of the University of Wisconsin and during the past year had a fellowship in industrial research at Harvard university. His experience includes one and one-half years as labor manager with Hart, Schaffner and Marx, one year as research student on the Wetbeim Fellowship, "For the Betterment of Industrial Relations," and teaching at the University Extension service in Milwaukee and Madison.

Among the changes already an-

nounced in the graduate assistants are: Dr. Chas. F. Gibbs, who received his Ph. D. from Yale and spent some time in China as a missionary, replaces Howard W. Koch, assistant in bacteriology; Frank Forbes, Jr., replaces E. P. Johnson as assistant in bacteriology, while Johnson stays here with the state department of agriculture as animal pathologist; D. B. Myers replaces E. R. Carlson as assistant in pathology.

Four women have been added to the staff of the home economics division. Miss Lois Munn of Iowa State College will be an instructor in clothing and related art work; Miss Marion Lewis, of Cargegie Tech. will replace Miss Mary Shellenberger, who resigned, as instructor in clothing; Miss Sylvia Metzger of Columbia university comes as an instructor in foods, and Miss Catherine Miller of the Buffalo State Normal, and formerly with the Merrill-Palmer school of Detroit, will continue the child study course and nursery work that has been started this summer.

The following article concerning the life and work of Dr. R. C. Kedzie was printed in the Journal of the American Chemical Society.

Another early pioneer in American agricultural chemistry was Robert C. Kedzie (1823-1902). After graduating from Oberlin College in 1846 and from the Michigan State University Medical School in 1851 he practiced medicine until 1861. He then entered the army to serve as surgeon in the Civil War, but resigned in 1863 to accept the professorship of chemistry at the Michigan Agricultural College where he taught until his death. In addition to his long services as a teacher of agricultural chemistry, Dr. Kedzie did a large amount of

Robert C. Kedzie (1823-1902)

practical experimental work that was of great value to the farmers of his state. He studied the muck lands and other soils of Michigan, investigated the importance of the volatile constituents of animal man-

ures to crop growth, and made experiments upon the fertilizing action of wood ashes, lime, land plaster, and salt. The Michigan fertilizer law was largely the result of his labors, as were also various other enactments for protecting the public welfare. His crusades against adulteration and other frauds were conducted with persistence and vigor. His investigations upon the chemical composition and baking quality of Clawson wheat were of great value to Michigan farmers. He was the first to grow sugar beets in Michigan and the Michigan beet sugar industry owes its origin to him. Dr. Kedzie was one of the group of chemists who attended the Priestle Centennial at Northumberland in 1874.

THE M. S. C. RECORD

Established 1896

Published for the alumni and former students of the Michigan State College by the M. S. C. Association.

Published monthly throughout the year.

Membership in the M. S. C. Association, including subscription to THE RECORD, \$2.50 per year.

Unless members request a discontinuance before expiration of their memberships, it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. S. C. Association.

Views and Comments

With this issue of THE RECORD, G. O. Stewart, '17, takes charge of the publication, succeeding Robert J. McCarthy, '14, who has been responsible for it during the past five years. Stewart will combine the duties of field secretary and editor, and his predecessor will remain as secretary of the Association and manager of the Union Memorial Building for another year.

No change is contemplated in the policies of THE RECORD. The new arrangement takes effect because of the necessity for more time being allotted to the work of conducting the affairs of the Union. Stewart served as editor of The Holcad while in College and has been connected with THE RECORD since last November.

In taking up the duties connected with THE RECORD we find our constituencies constituting a wide range of thought and ideas. Through the columns of our alumni magazine we shall attempt to carry the latest information from the College to its scattered sons and daughters; to carry news of these scattered sons and daughters to the College; to carry news of college mates to each other; and to provide an opportunity whereby all alumni can speak

on matters of College and alumni opinion.

We want you to feel that this is your magazine. We want to present the latest news without prejudice. Agreement with our ideas is not always expected; a healthy division of opinion may be stimulus. An earnest endeavor always will be made to keep THE RECORD a truly alumni magazine, and we count upon the support of every busy, interested and loyal alumnus to assist us through the coming year.

Every member of the M. S. C. Association is an ex-officio associate editor or contributor to THE RECORD. Your privilege is to send in news items at least once a month; to give constructive criticism; to help keep our mailing lists up to date; to pay renewals promptly; to buy from our advertisers; to be loyal to Michigan State. Are you living up to your privileges?

Few people give away more money than they should. In giving to the Union Memorial Building, you should not withdraw from any of the worthy charities which you now aid. You are being asked to subscribe only as much as you can afford. You know that you are a better man or woman and a better citizen to have done your part in supporting other worthy enterprises. We believe you ought to do your part in this one.

ALUMNI COUNCIL RECEIVES A. A. U. REPORT

The following report was prepared by the representative of the College at the convention of the American Association of University Women, held at Washington.

This year Michigan State College made its second application for recognition to the American Association of University Women. According to form, the Association's Sectional Committee on Recognition spent the day on the campus visiting classrooms and laboratories and interviewing various administrative offices of the institution. The result of the visit was a favorable report to the National Committee on Recognition.

During the National convention of the Association in Washington in March, the National Committee on Recognition considered Michigan State College's application and decided that the College does not yet fully meet the standards of the Association.

To more fully understand the reasons for this decision it may be stated that the objectives of the Association's work of recognition are two-fold; to promote high standards of education, and to win recognition in advanced education for women students and for women on the faculty.

To this end the Association requires that:

1. In technical schools conferring the Bachelor degree a minimum of 50 per cent of liberal arts work be required.

2. High standards for the care of women students in regard to community health and social environment be maintained.

3. There be on the faculty a fair proportion of scholarly women of teaching ability in the higher as well as the lower, ranks who are promoted with impartiality in comparison with men of the faculty; who are asked to carry only a reasonable burden of teaching hours; and whose salary scale is equal to that of men of the same rank.

4. The Dean of Women in a co-educational institution be more than a glorified chaperone; that on the contrary she have rank as a member of the faculty and that her

office be invested with dignity, prestige and material equipment which will make possible her highest usefulness to the community.

5. Women serve on the policy framing committees of the faculty; on the curriculum and executive committees; and are not relegated to minor committees.

6. Women serve on the Board of Trustees.

Michigan State College adequately meets the Association's standards in regard to scholarship, the care of women students, the office of the Dean of Women, and representation on the Board of Agriculture. The Committee on Recognition however, was not satisfied with the number of women on faculty com-

Pinetum. Planted 1896-7 by Dr. W. J. Beal, "Father of Michigan Forestry."

mittees; the comparatively small number of advanced degrees among the members of the faculty; the very small number of women holding the rank of associate professor and professor; and the fact that women's salaries range lower than men's.

Because of these existing conditions the vote of the National Committee was negative.

FLINT ALUMNI FILL MANY IMPORTANT POSITIONS

My Dear Stewart:

Mindful of my promise to send in occasional notes on any of the local alumni who appear to be pre-

occupied, and mention in these columns such trivial matters as changes of address, new job, new radio, children or what not, I am taking this opportunity to send you my initial installment.

Benson Cataline, '10E, lives at 902 E. Dayton street. Since leaving college "Ben" has devoted all his working hours to making better rear axles for the Buick Motor Car company. For the past several years he has been the mathematical authority and inventor extraordinary for the Buick engineering staff. He has recently been promoted to the post of axle engineer in the Buick organization.

Clark H. Day, '13E, has built a fine new home at 801 W. Hamilton avenue. Clark is foreman of one of the largest heat treating shops in the country—that in which all the parts for the Buick motor are put through the fire.

Carl J. Hatfield, '09, lives at 2116 Corunna Road. He is managing secretary of the Industrial Mutual association. Carl reports that two other '09ers are division heads in this unique organization of factory employes.

L. G. Kurtz, '11E, lives at 522 E. Patterson street. Bill has settled down in Flint as manager of the Buick assembly plant, after serving as manager of outlying factories for the same company at St. Louis and Detroit.

Perry Schad, '09, lives at 2413 Adams avenue and is the director of the insurance division of the Industrial Mutual association; with 35,000 local policyholders, he has a real job on his hands.

Albert Sobey, '09E, lives at 2001 Chevrolet avenue and is the educational director of the Industrial Mutual association. He organized a night school for factory men in 1919, and has built it up to a point where the General Motors has taken it over and are erecting in Flint the first unit of what will be known as "General Motors Institute of Technology." Sobey will be the director of the new institution.

Yours truly,

EDGAR OSBORNE, '19.

Scribe.

822 W. Patterson street.

Summer Enrollment Increased

Enrollment at the summer school session at the opening of the second week, June 27, reached a total of 548, according to Elida Yakely, registrar. This group composed largely of teachers and regular students, exceeds that of last year by 102, and is a record for the summer term at this institution.

Model Kitchen On Truck

A home demonstration truck, showing a completely equipped model kitchen, started a tour of the State on May 31. It is being sponsored by the College agricultural engineering and home demonstration extension departments. N. A. Kessler, '18, and Miss Edna V. Smith, '03, are accompanying the truck, and explaining its purposes to the hundreds of farmers and their wives who visit the home convenience exhibit.

Start Super-Highway

Construction of a thirty foot pavement between Lansing and East Lansing in accordance with the 200 foot super-highway project, is to be started soon, according to the action taken by the state administrative board recently, in awarding the contract to the Martin A. Holland Co., Lansing. F. F. Rogers, state highway commissioner announced that only the 1.21 miles of pavement on the south side would be laid now, and a temporary detour provided around the Church property if a satisfactory agreement cannot be reached by the time the paving reached that far. Plans are also being worked out for a new concrete bridge on South Harrison Ave., which would thus provide another outlet for the football traffic.

"Close Beside the Winding Cedar"

New Pastor at Peoples Church

Rev. N. A. McCune has announced the addition of Rev. R. M. Pratt of East Chicago, Indiana, to the staff of the Peoples church. Rev. Pratt will be the associate pastor with responsibility for parish administration and supervision of work with high school students. He is a native of England and graduated from Owen's College in 1897.

Tourist Camp On Campus

The drill field in front of the armory and much of the land comprising the cavalry field across the Red Cedar river will be utilized as a tourist camp for the several hundred visitors from Michigan and other states during the Country Life Week, July 31 to August 6.

Forestry Head Abroad

Prof. A. K. Chittenden, head of the forestry department, is spending the summer in Europe and will return to the campus just before the opening of the fall term in September. Mrs. Chittenden accompanied her husband on the trip, and their course abroad will include England, France, Holland, Switzerland, Germany, and Italy. Prof. Chittenden expects to make some observations on forestry in the various countries.

Farm Bureau Rally

The annual state rally of the Michigan State Farm Bureau will be held on the campus Monday July 18, according to Claude L. Nash, '09, organization director who is in charge of the day's program. Some 700 to 800 farmers and their families will have their basket dinner on the College picnic grounds, later going on a tour of the experimental plots, livestock barns, new buildings and points of interest in the vicinity of East Lansing. A large banquet will be held in the evening and the following day those remaining over will be guests of the Michigan Elevator Exchange at their annual meeting.

Wileden to Head Veterinarians

Dr. L. A. Wileden, '13, of Mason, was elected the new president of the Michigan State Veterinary Medicine association, June 29, when they held their annual meetin at the Union building. Dr. Edward K. Sales, '16, of the College was re-elected secretary-treasurer. Some 100 delegates from over the State were in attendance.

Hitchcock On Research Experiment

Prof. W. W. Hitchcock, '07, of the engineering department is spending the summer at the Iowa State College, at Ames, conducting experiments of air resistance principles on automobiles. In Germany they have perfected and placed on the market, automobiles built on air resistance principles, which are operated with a vast saving of fuel. Prof. Hitchcock conducted similar experiments last summer and will continue this year under the direction of Prof. T. R. Agg, head of the highway departments at Ames.

Co-ed Coaches East

Three instructors in the woman's physical education department of the College, Miss Helen Grimes, Miss Ruth Fickles, and Miss Clarissa Anderson are spending ten days at Wellsley college, Massachusetts, attending a special school. From there they will go to Columbia university, New York, for the summer session.

4-H Club Champs Here

Three hundred and fifty Boys' and Girls' Club champions from 39 counties of lower Michigan have been in attendance at the ninth annual Four-H Club week at the College during the past week. With the exception of J. Adams Puffer, of the Beacon Boys' Bureau at Boston, Mass., and Pres. K. L. Butterfield, all the speakers at their annual banquet were from their own group. Several music contests and health contests were held during the week. The club program was in charge of A. G. Kettunen, '17.

European Delegation Coming A large delegation of European officials has arrived in the United States for a two-months' tour of the agricultural states. According to President Butterfield the group will attend the session of the International Country Life Association and Country Life week here the first week of August. An intensive study of rural life and farm conditions will be made on their pilgrimage from state to state. Twelve foreign lands are represented in the party, which is being accompanied by Arthur Hobson, American delegate to the international institute of agriculture

Radio Station Unchanged The original intention of the Federal Radio Commission was to cut the wave length of many of the broadcasting stations. This would have placed the College station WKAR at 230 meters. The commission has now recinded its action so far as our station is concerned and the old wave length of 285.5 meters will be used again this year. Authorities in charge of the station feel they have received excellent treatment in the decision. Keith Himebaugh, '28, will continue to act as announcer and I. D. Ball, '29c, has been promoted to chief operator. The programs of Country Life Week, July 31 to August 6, will be broadcast.

Youngest Freshmen Enrolled Under the direction of Miss Catherine Miller, formerly of the Merrill-Palmer school, Detroit, a five weeks' course in child care and psychology is being given in the college nursery in the home economics building. The youngsters ranging from 2 to 4 years of age spend three hours each morning from 9 to 12 o'clock at the College and co-eds study the rudiments of child psychology. In addition to the actual practice in caring for the children, the co-eds taking the course are given a series of lectures by Miss Miller. The work is similar to that conducted at the Merrill-Palmer school, although not as extensive. The course will be given again this fall and as it is expanded all co-eds in the home economics division will be required to take the work.

College City Grows To the old grad returning to East Lansing and the campus for a visit this summer he is immediately impressed at the many changes occurring in the business section. The site of the first Peoples church is now covered by a large business block with stores, offices and apartments above. The Hesperian house has been moved to one of the streets back of Abbott Road and will be used by the College for a girls' residence. The new bank and theater building has replaced the old fraternity house and this modern four story building adds a decided atmosphere of business to the College City. College Manor a large three story business and apartment building occupies the corner of Abbott and Albert. Another new bank will open its doors in this building during the next month. The large East Lansing high school will be open for classes this fall and is located about six blocks north on Abbott Road on the edge of the old Chandler marsh. New subdivisions have developed rapidly during the past year and the building activity has been above the average.

Ash Trays Lessen Fires Professor A. K. Chittenden sees a great saving of timber by the enforced use of ash trays in the cars of motoring tourists. He estimates the forest fire loss in Michigan last year to be more than \$114,000. The origin of many fires can be traced to the carelessness of a tourist tossing a lighted cigarette along the highway. The state fire warden and his corps of deputies are placing warning notices all over the state.

Sayer Prize Awarded The Sayer prize for the student doing the best work in bacteriology during the year was awarded to Stanley Hartsell, a senior science student, according to an announcement by Dean Ward Giltner. Hartsell will continue his study of bacteriology at Yale university. The Michigan State Veterinary Medical prize to the senior having the best standing among the students of the veterinary division was awarded to Fred J. Brockett.

New Home for Power Firm The waters of thirteen Michigan rivers were united when Charles W. Tippy, vice-president and general manager of the Consumers Power company, broke on a granite arch a ribbon bound flagon in which they were contained, dedicating the power firm's new eleven story office building, which was formally opened at Jackson on the evening of July 13. The waters were from the streams in the state where the company maintains power plants. The structure will provide space for more than 1,000 employes, many of them being Michigan State engineers.

College Host to Bands Forty-two bands were entered this spring in the third annual band tournament sponsored by the music department of the College. Nineteen hundred boys and girls ranging in age from nine to twenty gathered on the campus for a day of music that lasted from eight in the morning to nearly midnight practically exhausting three judges who refused to take time out for dinner until the tournament was over. Awards went to Flint high school in class A, to State vocational school at Lansing in class B, Flint junior in class C and Port Huron in D class.

Invention Helps Lindbergh While Lindbergh generously gives credit to the designer and maker of his plane, to his engine and his instruments, and while manufacturers of oil, tires, and the rest hasten into print avariciously to claim their share of the glory, one important award of credit remains to be made—it has apparently been overlooked by the press, points out the editor of The New Republic. The earth inductor compass, to which Lindbergh ascribes his ability easily to maintain a true course without nautical observations, is a result of the scientific research carried on in the interest of the public by the United States Bureau of Standards. For its invention Dr. Lyman J. Briggs and Dr. Paul Heyl of the Bureau were awarded the Magellan Medal of the American Philosophical Society; it having been previously

used in the round-the-world flight by American aviators.

Lyman J. Briggs is a graduate of Michigan State with the class of 1893. He is one of those workers in science, receiving extremely modest salaries, seldom asking credit for their achievements, thus in their way add a peculiarly pure type of glory to any exploit.

**Co-eds
Win
Letter**

The old English "S," which is one of the highest marks of distinction awarded by the Women's Athletic association, was given to three senior girls who had won a thousand points or more in extracurricular athletic activities. The honored co-eds are Elizabeth Woodworth, Detroit; Dorothy Shoemith, East Lansing; Beatrice Beck, Calumet. Monograms for winning five hundred points were given to Ruth Bowen, '28, Grand Rapids; Flossie Pangborn, '28, Bad Axe; Florence Banhagel, '29, Lansing; Fay Gillis, '29, New York city; Lelah Horning, '29, Battle Creek; Alice Hunter, '30, Lansing; Lona Lautner, '29, East Lansing; Henriette Scovell, '29, Lansing; Marion Woodworth, '30,

NECROLOGY

HARRY C. WALKER

Harry C. Walker, '17, president Walker & Co., Outdoor Advertising, Detroit, and a director of the Outdoor Advertising Association of America, died suddenly in Baltimore, May 27, enroute to Millbrook, N. Y., to attend the graduation of his daughter Jane, from the Bennett School.

The news of his sudden death came as a great shock to his host of friends and associates in Outdoor Advertising circles where he had been such a prominent figure for almost a quarter of a century. For nearly twenty-two years he was the active head of the business which bears his name, succeeding his father in that capacity.

In addition to his numerous activities in the Outdoor Advertising industry, Mr. Walker was also a director of the Detroit Convention and Tourist Bureau, playing an important part in the recent drive for

a Million Dollar Campaign fund to advertise the city. Throughout his life he was prominently identified with advertising movements and organizations.

Mr. Walker was born in Detroit September 1, 1879, and is survived besides his daughter, Jane, by one son, William T. Walker. He attended Michigan State with the class of 1897, where he established athletic records on the track and on the baseball field. He was also manager of the Detroit Athletic Club's baseball and track teams in the early years of the Club's existence.

FRANCIS BLOOM LOVE

Francis B. Love, 1917, died at his home in Shelby, Ohio, Sunday, June 5, 1927, of Addison's disease and tubercular trouble.

While in college Love was a member of the Trimouira Literary society, the Glee Club and the college choir. He was in service during the World War but did not get overseas. Since 1919 he has been an engineer with the Shelby Auto-rail company.

ELISHA DEMING ANDREWS TRUE

Elisha D. A. True, 1878, died May 24, 1927, at Melbourne Beach, Florida.

Mr. True was one of the organizers of the Union Literary society. He received his masters degree in agriculture in 1896. For some time he was a draftsman for a machine company in Detroit. He later lived on a farm near Richmond, Michigan.

HENRY AUGUSTUS DANVILLE

Henry A. Danville, 1883, died at his temporary home in Lansing, May 7, 1927, of apoplexy.

For the past few years Mr. Danville was employed in the state conservation department and was well known in Masonic circles of Lansing and Manistee. Previous to his connection with the state department he was a teacher in public schools of Michigan. In the summer of 1923 he received his college life certificate, one of the last teaching certificates granted by the late Walter French. For some time he was country treasurer of Manistee county.

LOUIS C. BROOKS

Louis C. Brooks, 1892, died at his home at Croton, Massachusetts, April 18, 1927, of hemorrhage of the brain.

Brooks was a member of the Union Library society and a charter member of Tau Beta Pi. He was class poet his senior year, and once remarked that he escaped being commencement orator by not passing entrance geography. He received the degree of electrical engineer in 1908.

He started in as a draftsman for General Electric at Schenectady. From 1899 to 1901 he was a draftsman in the U. S. navy, starting at that time his interest in electrical engineering as related to shipbuilding. Until 1905 he was an electrical inspector at Cramps shipyard, Philadelphia. He then became master electrician in the U. S. navy yard at Boston. From 1910 to 1917 he was an electrical engineer in the Industrial Control department of General Electric, and assistant in charge of the department for two years of that time. From 1917 to February 1926 he was with the Bethlehem Shipbuilding Corp., Ltd., of Bethlehem, Pa., and Quincy, Mass. He then resigned on account of ill health and settled on a fruit farm in the Nashoba fruit belt in Croton, Massachusetts.

WALTER W. WELLS

Walter W. Wells, 1901, died at his home in Lansing, March 18, 1927.

Wells was a member of the Hesperian society and Tau Beta Pi. Following his graduation he was an instructor in mechanical engineering at the College. In 1903 he left the College and became connected with the Ball Engine company of Erie, Pennsylvania, to return to his old position on the engineering staff of the College in 1904. In 1906 he went to Clyde, Ohio, where he served as chief draftsman for the Roberts Motor company. He remained in Clyde for several years as chief draftsman for the Elmore Manufacturing company and Clydesdale Motor Truck company. In 1923 he came to Lansing where he was employed in the engineering department of the Reo Motor Car

(Continued on page 11)

Spartans Place at National Classic

Relay Team Equals World Record in 440; Grim Wins 200 Junior Title; Alderman Given Honor Medal as He Graduates; Other Awards Closes Banner Season.

New laurels crowned the efforts of State's championship relay team in the National A. A. U. meet at Lincoln, Nebraska, July 1 to 4. Bohn Grim, '27, won the junior 220 title when he made the distance in :22.2 and Henson placed fourth. In taking the honors in this race Grim defeated Haynes, of Denver, considered one of the best men at that distance. Fred Alderman, '27, was unable to enter because of a pulled tendon. On July 4 the varsity relay team ran third in the 440 relay, equalling the world record of :41.6, but the winner made a mark of :41. In accomplishing this feat the Green and White triumphed over the Los Angeles four which boasted Charles Paddock as anchor man. In this contest Grim succeeded in pulling a muscle which put fifty per cent of the squad on the casualty list so that when the team faced the starter in the half-mile relay much of its effectiveness had been destroyed. In the 880 the winner took the event in slower time than the Spartan four had to its credit in previous meets, but the crippled Green and White entry finished fifth.

Henson and Lang, the other half of the team, both sophomores, gave continued promise of providing excellent material for the track squad another year, but the graduation of Grim and Alderman breaks up the combination which has startled the

NECROLOGY

(Continued from page 11)
company. He held patent No. 1,117,759 on a governor adapted to a wide range of speeds used on the Clydesdale Motor Trucks and advertised as the Clydesdale Controller, The Driver Under the Hood. This was also used on a line of Advance-Rumley tractors.

His son, Lawrence V. Wells, is a member of the class 1927.

athletic world during the spring meets by taking every collegiate event in which it was entered.

Fred P. Alderman, '27, holder of most track records both local and national, and retiring captain of the varsity team, was awarded the medal given annually to the senior who has most successful combined athletic endeavor with scholastic ability during his four years. Alderman is a member of Tau Beta Pi and Sigma Alpha Epsilon.

Track awards were granted this year to the largest number of men in the history of Green and White athletics. Also the winners were given gold track shoes in recognition of the best season in the history of the sport. The following were on the approved list: Frederick P. Alderman, '27, (capt.), East Lansing; Bohn W. Grim, '27, Sturgis; Roy W. Severence, '27, Decker; Russell R. Lord, '28, Owosso; Paul M. Smith, '28, Saginaw; Ivan G. Tillotson, '28, Petoskey; Henry E. Wylie, '28, Sparta; Meredith G. Clark, '29, Vicksburg; Deland H. Davis, '29, Battle Creek; Lewis H. Hackney, '29, Flint; H. Lyle Henson, '29, Lansing; William H. Kroll, '29, Detroit; Forrest J. Lang, '29, Beaverton; Harold L. McAtee, '29, Milford; Albert M. McCabe, '29, Petoskey; Clarence Passink, '29, Grand Rapids; Victor H. Rossman, '29, Onondaga; Earl D. Wareham, '29, Lansing; Theodore E. Willmarth, '29, Detroit; Eugene W. Williams, '29, Okemos. Special awards, track: Burgoyne A. Diller, '29, Battle Creek; Robert C. Olsen, '29, Sault Ste. Marie; Joseph L. Joachim, '29, St. Clair.

The following members of the baseball squad were granted varsity letters by the board in control of athletics at its meeting on June 11. In addition each letterman was awarded a gold baseball in recogni-

tion of the record of the season in which the varsity lost but two games in a regular schedule of sixteen: Donald W. Fleser, '27, (capt.), Allegan; Robert K. Bremer, '27, Howell; Delmar R. Zimmerman, '27, Traverse City; Rowley A. Gail, '27, Laingsburg; Carl W. Baynes, '27, Birmingham; Forrest A. Rinehart, '28, East Lansing; John I. Caruso, '28, Owosso; Albert T. Tolles, '28, Bangor; Russell J. Davis, '28, Elberta; Marvin A. Eggert, '29, Lansing; Clark B. Hoisington, '29, Adrian; Gordon L. Witter, '29, Detroit; Fred W. Barratt, '29, Lansing.

Six members of the tennis squad were given varsity letters. They are: Theodore R. Hendershott, '27, (capt.), East Lansing; Robert T. Stott, '27, Chicago, Ill.; Merwyn T. Farleman, '28, East Lansing; Carleton J. Colvin, '28, East Lansing; Alfred Perrin, Jr., '29, Saginaw; Leland A. Smith, '29, Allegan.

MARRIAGES

DIRRIM-CLARK

Earl Clark, '26, and Miss Esther Dirrim, w'26, were married June 25 at East Lansing. Mr. Clark is at present a civil engineer at Mt. Clemens.

MCCULLY-THOMPSON

Miss Anna McCully and Claude D. Thompson, jr., were married at East Lansing June 26.

WILDER-SHAVER

Of interest to many college folks was the announcement of the marriage of Miss Harriet Elizabeth Wilder, '20, to Frederick W. Shaver on Saturday, June 25, at Bay City. Mrs. Shaver has been assistant state club leader for girls during the past four years, while Mr.

Shaver is the popular athletic coach and instructor in the East Lansing high school. They will reside in East Lansing.

CLEVELAND-KELLER

Oliver H. Cleveland, '11, and Leta Hyde Keller, '09, were married November 27, 1926 at Hastings, Michigan. They are residing at 43 E. College street, Columbus, Ohio, where Mr. Cleveland has a position with the Columbus Railway Power and Light company.

SORAUF-NORTON

Frank J. Sorauf and Mary Norton, both '24, were married in November, 1926, and are living at 711 Morris avenue S. E., Grand Rapids, Michigan.

KINNEY-MITCHELL

William G. Kinney, '25, and Sue E. Mitchell of Seattle, Washington, were married January 29, 1927. They are living in Seattle where Dr. Kinney has a small animal hospital. 2420 Fourth avenue reaches them.

CLASS NOTES

'08

1436 Addison street, Chicago, Illinois, reaches E. G. Born.

"Please change my address to Wayne County Training School, Northville, Michigan," writes Alice L. Latson. "We are attempting a big innovation in the educational field here, in organizing a school for high grade undernormal children that will train them to go back into the world as self-supporting independent citizens, not too easily preyed upon by the wolves of society."

A. L. and Hazel Crafts ('12) Campbell have moved in San Bernardino, California, to 1279 St. Elmo street.

'10

M. Blanche Bair sends in her blue slip from 523 South G street, Tacoma, Washington, with the following: "Am at Stadium high school, one of the points of interest for all planning Tacoma in their itinerary for 1927 N. E. A. convention being held in Seattle, Washington. Remember also that Tacoma is 'The Gateway to the Mountains'. E. Belle Alger, '13, is with the Extension Service for State College of Washington as foods and nutrition specialist. Her headquarters is Pullman. Recently visited Edna (Hopson) Simpson, w'12, at Rockport, Washington. Mr. Simpson has a position as operator at Gorge Power house for Seattle, Washington Light department. They are beautifully located in the foothills

of the Cascade mountains on the banks of Skagit river."

'11

Virgil T. Bogue says: "No change in residence, religion or politics, and am still picking off chips on the same old woodpile. Family some larger than last reported but not more numerous. Spent an evening in February with Ivan Clizbe, '11, Earl Wallace, '11, and R. G. Crane, '10. All seemed well and happy. See Bill Shanor, '11, of Erie, Pennsylvania, quite often. Bill just moved into a new home. Am always glad to see M. S. C. men headed this way." Bogue is in Geneva, Ohio.

Ralph Powell should be addressed at 506 Battery place, Chattanooga, Tennessee.

'12

D. F. Fisher is starting his fifteenth year in charge of the United States fruit disease field laboratory at Wenatchee, Washington.

Nels Hansen is United States construction engineer on public buildings at Aberdeen, South Dakota.

J. F. Jonas has moved in Royal Oak, Michigan, to 728 Pleasant street.

A. B. Stuart claims for his address 1730 Walden Parkway, Chicago, Illinois.

J. H. Tibbs tells his story thusly: "Same wife (Hannah Williamson, '11), same job, same kids, same Sun Maid raisin vinyard at Route K, No. 403, Fresno, California. A. A. Sorenson, '12, Fresno teacher of agriculture recently highly commended by Fresno papers and Fresno school board for outstanding work in landscaping city school grounds."

'13

R. F. Kroodsma is engaged in extension forestry work at the College and lives in East Lansing. He reports: "I meet many alumni in my wanderings over the state. Spent a pleasant evening with Herb Warner, '17, last winter. Herb has built himself a cozy home on a beautiful little lake in Kalamazoo county."

'14

H. Blakeslee and Muriel Smith Crane announce the birth on April 24, 1927, of Elizabeth Blakeslee.

H. J. Lowe is petroleum production engineer, eastern division, for the Pure Oil company. His offices are located in the Pure Oil building, Wabash and Wacker drive, Chicago. Lowe lives in River Forest at 126 Franklin avenue.

George T. Smith sends his blue slip from 1138 W. 33rd street, Indianapolis, Indiana, with the following notation:

**Do Not Neglect
Your Record
Subscription**

"I am still designing electric motors for Fairbanks Morse and company. We recently built a 150 H. P. low speed vertical motor for the city of Saginaw, Michigan. This motor is to drive a low head Fairbanks Morse and company centrifugal pump. I should like to see any M. S. C. men who may be down this way."

'15

The postoffice notifies of the following changes in address: M. C. Hengst to 1811 College avenue S. E., Grand Rapids, Michigan; Verne Stewart to 18346 Collins avenue, Reseda, California; and E. K. Chamberlain to Sparta, Michigan.

'16

J. M. Johnson, Jr., is sales representative with the Union Drawn Steel company with headquarters at Detroit. He lives at 4015 Taylor avenue.

Fred A. Thompson's new address is R. 3, Newaygo, Michigan.

Van C. Taggart has for his business address 1425 S. Racine avenue, Chicago.

W. D. McFarlane gives his new address at 14365 Marlowe avenue, Detroit, Michigan.

The following letter from Rose Hogue was postmarked Los Angeles, California: "I am on leave of absence from Central Michigan State Normal this term and am spending it in California with my mother. While here in Los Angeles I have been visiting the home economics departments and classes at the University of California, southern branch, also the University of Southern California and the city schools. When I go up to San Francisco I am planning to do the same there, going out to Berkeley and Leland Stanford university. I have seen Nina M. Streetter, who was formerly on the extension staff at M. S. C. She is on the home economics faculty here at the U. S. C."

Ivan H. Driggs is vice-president and general manager of the newly organized Driggs Aircraft corporation in Lansing.

The engineering firm in which A. W. Barron is a partner has moved its offices to 916 Francis Palms building, Detroit.

'17

Albert W. Haines has recently opened a law office in the office of Merriam & Marsh at 1212 First National Bank building, Detroit.

W. E. Newlon notes on his blue slip: "No changes in family, residence or job—except that Jack is keeping us busy trying to keep up with him. Fear he is more active at 20 months than he will be at 20 years. Still with University of California as extension poultry specialist. See Vic Coledge '17 here in Berkeley, occasionally. Just bought himself a new home. Guess the Southern Pacific railroad had a prosperous year. Saw Jim France, '11, in Los Angeles

recently. Jim is county agent for San Diego county. Harold Cudaback and A. L. Campbell are doing county agent work with us. Harold in Napa and A. L. in San Bernardino county. Both fine when I saw them last."

'18

"Compressor engineering department Ingersoll Rand company, living on Manhattan and still single," writes T. W. Keating from the 14th floor, 11 Broadway, New York city.

H. K. Wrench is manager of the Michigan Federated Utilities, and is supplying "good gas service" to Plymouth, Northville, Wayne, Newburg and Rosedale Gardens. He lives in Plymouth at 1347 Ann Arbor street.

'19

Ruth Musselman may be reached at 819 Hawthorne, Royal Oak, Michigan. Dorothy Kahres Fleming (Mrs. P. O.) writes that they have built a new home at 13725 Maplerow, Garfield Heights, Cleveland Ohio.

'20

The postoffice informs that A. J. Gregg should be addressed at 321 E. 85th street New York city.

"We started the New Year properly with arrival of Robert George on January 1. Is practicing college yells already, writes H. B. and Corinne Lichtenwalter Keydel from 392 Kitchener avenue, Detroit, Michigan.

Lawrence Archer is district manager of the Stewart Fruit company with offices at 1425 S. Racine avenue, Chicago.

Howard V. Hoffman is located at the Detroit district office of the Louis Allis company of Milwaukee, Wisconsin. He lives at 3320 Chicago boulevard. Janice Lee was born October 11, 1926

'21

S. P. Nelson may be reached at 317 Beulah street S. E., Grand Rapids, Michigan.

Eva K. Schurr is starting her fourth year as home demonstration agent in Harford county, Maryland. She lives at Bel Air. Miss Schurr reports that Lillian Ruth Grimm '22 and Rodney Frazer of Elkton, Maryland, were married January 2, 1927, and are spending several months in Oakland, California.

Mail addressed to Laura Crissman at Romeo, Michigan, has been returned unclaimed.

An illustrated leaflet describing the seven forest preserves in Winnebago county, Illinois, bears the signature of T. G. Lindquist, county landscape forester. Lindquist's headquarters are at the court house at Rockford.

Loren Shedd has moved in Flint, Michigan, to 305 E. Patterson street.

'22

Carl M. Brown may be reached in care of the division plant of the Michigan Bell Telephone company, Grand Rapids, Michigan.

Harold Fleming is assistant operating engineer helping in the supervision of gas plants for the Illinois Power and Light corporation. He may be reached at Room 1532, 231 South LaSalle street, Chicago.

Mr. and Mrs. J. L. Whitelaw (Mary Emily Ranney) announce the birth on March 2 of Robert Ellis. The Whitelaws are at Fort Amador, Canal Zone.

Rufus W. Snyder is assistant metallurgist for the American Steel and Wire company, Worcester, Massachusetts. He lives at 87 Hillcroft avenue.

James B. Wellman gives his new address as New Egyptian Portland Cement company, Port Huron, Michigan.

J. Dean Wilson writes from Wooster, Ohio: "Have been at the Ohio Agricultural experiment station as assistant plant pathologist since my graduation at Johns Hopkins university last June. Other State men here are Paul Tilford '23, Alderman '20, Gerdel '23, Don Corin '24, Dr. H. C. Young, Jack Cutler '21, and possibly others."

"What's happened to all the people who went to State in 1922?" asks Thelma Haite Sanford, 805 N. Washington avenue, Lansing.

George E. and Huldah Coon ('23) Tichenor are living in Santa Monica, California, at 1230 22nd street. George is teaching physical education in John Adams junior high school.

The last communication from Lieut. George F. Schulgen told of his plans for a trip on a U. S. destroyer to southern islands, Indo-China and China this spring. He had hopes and prospects for a tiger hunt. Schulgen is at Clark Field, Stotsenberg, Pampanga, P. I.

According to postoffice information Mrs. J. W. Baird (Irene Marthen) has moved to 1516 Dexter avenue, Ann Arbor, Michigan.

'23

Glen W. Nesman is with the H. J. Heinz company at Bay City, Michigan, and lives at 244 N. Lincoln avenue. Edgar Glen was born December 24, 1926.

"Am still county agricultural agent for Iron county, Wisconsin, with headquarters at Hurley," writes Waino J. Helli. "This together with the task of being secretary-treasurer for the local farm loan association keeps me rather busy. Had our regular 'Institute' meetings a while ago. Doc Gingrich, also from the class of '23, assisted me with talks from his special field, veterinary."

Mail addressed to the following people has been returned unclaimed: J. Park Teter, Room 882, 208 South LaSalle street, Box 4, Main Postoffice, Chicago; John F. Spaulding, 2111 S. LaSalle Gardens, Detroit; and George Postmus, 1513 Genesee street, Kansas City, Missouri.

P. D. Prentice may be reached in care of the State Highway department, Lansing, Michigan.

Edward Ludwig gives his new address as Gypsum, Ohio, care U. S. Gypsum company.

A very unique and apparently successful method of presenting progressive suggestions to the farmers of Arkansas was recently introduced by the Missouri Pacific lines by what is known as the Missouri Pacific Agricultural Progress train which on February 9 completed a novel and interesting tour of the Arkansas divisions of the Missouri Pacific lines. The work of the train was planned and supervised by John T. Stinson is director of agricultural development for the railroad, and Oran W. Rowland is agricultural agent of the Missouri Pacific railroad at Little Rock. The outstanding features of the train were its interesting exhibits and the instructive and entertaining exhibits featuring matters of vital importance to the Arkansas farmers. It was estimated that fully 15,000 persons visited the train during its 30-day tour, or an average of 500 attendants per day.

The postoffice says that Lee Bullen should be addressed in care of Bates & Rogers, 91st street and Drexel, Chicago.

Ralph Koppa is with the Milwaukee Electric Railway and Light company but has moved to 275 35th street. He says: "Ralph Leonard arrived April 24, 1926; he is doing all the engineering in the house at present. President of the Leonard Wrecking company."

Colonel F. Snyder has moved in Bay City, Michigan, to 514 Wilson street.

'25

"Still keeping company with milk and the dairy cow for the United States Gypsum company at Oakfield, New York," writes R. P. Britsman.

Veterinary science department, Madison, Wisconsin, is the address which the postoffice gives for H. J. Fiege.

The following was contained on a blue slip from Lloyd J. Conkel: "Immediately after graduation I came to Pittsburgh and began the student course which the Westinghouse Electric company offers. When I graduated from that I accepted a regular position in the headquarters sales organization of that company. October 2 I was married to a Pittsburgh girl, Helen E. Steele. We are now living happily at 415 Kelley avenue, Wilksburg, Pennsylvania, which is one of the best of the suburbs of Pittsburgh. Since December 15 I have spent a great deal of my time on the sick list. Measles was my first illness, which was closely followed by bronchial pneumonia. I'm planning to attend the two weeks' training period of the O. R. C. at Fort Monroe, this summer."

Max K. Hood writes: "Please send my Record to Box 303, Corunna, Michigan, until further notice. Have just moved to Corunna to take care of a thirty-acre orchard here. The fruit
