NO. 32

## IMPORTANT EVENTS THIS WEEK.

THIS week is full of good things for M. A. C. people within striking distance of East Lansing. On Friday afternoon the first number on the annual May Festival—the artists' program—will be given. Following this, M. A. C. plays baseball with the University of Michigan on College field. After the game, the preliminaries of the inter-society relay will be run off. In the evening the M. A. C. Chorus of two hundred voices, assisted by some of the best vocalists in Lansing, and by the artists, Lenora Allen, Ella May Minert, Enrico Aresoni, and Theodore Harrison, will present "The Golden Legend," by Sullivan.

Saturday, at eleven o'clock, there will be a meeting of the Executive Committee of the M. A. C. Association; in the afternoon another ball game with the University, followed by the finals in the inter-society relays.

For those who can remain over, the Military Field Day, on May 31st, should prove attractive. Deputy Secretary of State Lusk will deliver the oration of the day.

Surely this presents a well rounded program that should attract a large number of M. A. C. people from all over the state.

## MAY STATE BOARD MEETING.

The following are the more important actions taken by the State Board of Agriculture at their May meeting last Wednesday:

The President, Secretary and Dean of Women were authorized to rent a house to provide rooms for the girl students for the coming year.

A communication from Dean Shaw relative to the building of a farm at the Upper Peninsula Station was referred to the Committee on Buildings and College Property. The question of the repair of the farm lane bridge was referred to the Engineering department for recommendation and estimate.

The report of the committee consisting of H. J. Eustace, F. S. Kedzie, G. W. Bissell, and C. P. Halligan, on the question of the addition on the Union Literary Society house and the building of a society house by the Delphics on the College grounds was adopted. Part of the report is as follows: "This committee is of the opinion that it would be unwise to appropriate any site upon the campus for the erection of a building that would involve a long time lease and likely to become permanent and to be enlarged. The future demands of the College for sites for College purposes may become very urgent. For the College to sell to the societies such commodities as light, heat, and sewerage privileges might lead to embarrassing situations. In view of the above we suggest that the Union Literary Society be not encouraged to enlarge their building and that the request of the Delphics be denied." It was also argued that to grant any societies the privilege to build on the campus would be discriminating against the societies that have already built off the campus.

The Agricultural Division, Engineering division and Administration were authorized to be represented by a delegate to the national meetings to be held in San Francisco this coming summer.

A communication from Dean Shaw, approved by Dean Bissell and Prof. Musselman, regarding the co-operation of the Agricultural and Engineering divisions upon the subject of agricultural engineering was read but no action taken. Dean Shaw called attention to the fact that there were great possibilities of new lines of work, both in investigation and extension.

A committee consisting of Messrs. Waterbury and Woodman was appointed to consult with the interested departments as to the advisability of combining all mechanical and engineering work in the engineering department.

A recommendation of Dr. Giltner that a committee to consist of the President of the College, Director of Experiment Station, and Director of Extension Work, be appointed to act with the Live Stock Sanitary Commission in all matters of mutual interest was approved.

The matter of fixing the salaries of employes for the ensuing year was referred to the Committee on Employes with power to act.

The following was adopted regarding new buildings: Resolved, that it is the sense of the Board

that gymnasium shall be the next building to be erected and that steps be taken to build it as soon as possible, that a committee consisting of Messrs. Doherty, Wallace, Bowd, and Macklin be appointed to investigate similar buildings in other places.

Mr. Graham was appointed member of the commission authorized to make distribution of the state appropriation for fairs among the several counties of the state.

Prof. Anderson was given permission to attend the annual meeting of the Holstein Friesian Association to be held at Syracuse in June.

A resolution regarding the improvement to Grand River Ave., adjacent to College property, was approved. It was decided that the College would stand one-fourth of the expense.

## C. B. WALDRON, '87, RECEIVES PROMOTION.

Clare Bailey Waldron, a graduate from M. A. C. with the class of 1887, has recently been made Dean of Agriculture, Agricultural College, Fargo, N. Dak., the appointment to become effective on July 1st. Prof. Waldron hails from Ionia county, Michigan. After graduation he was assistant in the Experiment Station at M. A. C. He has been professor of horticulture at Fargo since 1892 and this promotion comes as a fitting recognition of his excellent services. The *Fargo Forum* says: He is held in the highest esteem by faculty and students alike and is splendidly qualified for the work in the department of which he is now dean and with which he has been connected ever since coming to the institution."

## BACTERIOLOGY DEPARTMENT PREPARES BOOK.

The accumulative efforts of instructors in bacteriology for a period in excess of ten years are being brought together in a manuscript that will be published as a laboratory guide for students in bacteriology. The title of this book, which will be put out by John Wiley & Sons, New York, is "A Laboratory Manual in General Microbiology." At present there is no guide published that covers this general field, so it is felt that the book will have a wide use throughout the agricultural colleges of the United States.

The work is being prepared under the direction of Dr. Giltner, head of the department, by Assistant Professor L. Zae Northrup, assisted by W. L. Kulp. The instructors at present or formerly connected with this department who are given credit for assistance are: Dr. C. E. Marshall, Dr. Otto Rahn, W. G. Sackett, S. F. Edwards, L. D. Bushnell, W. H. Wright, L. R. Himmelberger, Dr. F. H. H. Van Suchtelen, Dr. E. T. Halmann, and C. W. Brown.

OUR SLOGAN:

*"One Hundred New Subscribers This Term."*  
*Will You Help?*

## ANNOUNCEMENT.

*Every member of the M. A. C. Association is ex-officio an associate editor of the M. A. C. Record. The privileges of associate editors are: To find fault; to send in news at least every month; to pay renewals promptly; to buy from Record advertisers; to be loyal to M. A. C.; to use the editorial pass, good with all doorkeepers except St. Peter. Have you been living up to these opportunities?*

PACIFIC COAST REUNION, SAN FRANCISCO,  
AUGUST 12TH.

## FALL IN LINE.

The idea of a permanent register being placed in every center in the country visited by M. A. C. men is one of the best suggestions we have received in some time. At present we are aware of there being such a register only with the Northern California Association at San Francisco. There can be no doubt but that if this idea were carried out as widely as possible, travel could be made much more interesting, and material benefits might accrue to the M. A. C. people in business in the various places. We will be glad to keep a list of the location of these registers before RECORD readers at all times.

\* \* \*

## MARK THE DATE.

Less than a month intervenes before the big celebration at M. A. C. on June 21 and 22. It is high time that a red, red mark is made around those dates on your calendar and every effort from now on is spent with the view that you are going to be away from home all the first of that week. David Starr

Jordan, of Leland Stanford University, will deliver the Commencement address and everyone wishes to hear this noted educator. The faculty reception, usually given the Saturday night before Commencement, has been combined with the President's reception and these are scheduled for the Armory on Monday night, June 21st. And you will surely wish to get in in time for the alumni get-together on Monday afternoon. Now, altogether, all hands behind this Second Annual Reunion and push!

\* \* \*

## HAIL! HAIL! '13.

Editor M. A. C. RECORD:

It might help some to know definitely some of the class of 1913 who will be back for the reunion, so I am writing to let you know I will be there. We 'thirteeners should be present in sufficient numbers and spirit to insure the success of our first reunion, and perhaps plan something definite to keep track of each other as a class. A class luncheon should by all means be arranged. We, of course, will have to depend upon the local '13 alumni to make the plans.

Yours for the best reunion yet,

F. E. ANDREWS.

(Andrews is managing the Leitchfield Electric, Heat and Power Co., at Litchfield, Ky.)

## GOOD IDEA ADVANCED.

W. T. Langley, '82, of the Minneapolis-St. Paul M. A. C. Association, advances the idea of having in each large center like Chicago, San Francisco, New York, Washington, and Detroit, a place where M. A. C. men and women can register while visiting in the city and find there list of M. A. C. people living in that locality, with their telephone number and residence. This idea was prompted by the meeting of an M. A. C. man, a resident of Minneapolis, on the streets of that city, two M. A. C. men wandering aimlessly about, not knowing they were in the vicinity of friends. The idea was carried out and an M. A. C. record book has been purchased and placed in the tailoring parlors of Charles F. Herrmann, '97, at 524 Nicollet Ave., Minneapolis. Langley says: "This is in the very heart of the city and easy to find. If in no other way ask any well dressed man you chance to meet on the avenue for Herrmann the tailor, and he will tell you.

Mr. Langley further says: "All the 'Twin City' and nearby M. A. C. people are requested to report at Mr. Herrmann's and register in the record book, giving a short sketch of their life, their location as to town, street and telephone number and business address. Then when any M. A. C. person comes this way, passing through the gateway to the great Northwest, he may take a look in the book and perhaps find listed there an old college friend or classmate."

The senior girls were given a banquet last Wednesday night in the dining room of the Women's building by Dean White, the junior girls serving. The following were present: President and Mrs. Snyder, Sec. and Mrs. Brown, Dean and Mrs. Shaw, Dean and Mrs. Bissell, Dean and Mrs. Lyman, Prof. and Mrs. E. H. Ryder, Mr. and Mrs. B. F. Davis, of Lansing, Hon. Robert Graham and wife, of Grand Rapids, Mrs. Landon, Miss Yakeley, Mrs. Peppard, Misses Hunt, Clemens, Morris, Hatch, Himmeline, Edgerton, Lefler, Casho, and Farwell. The dining room was decorated with lilacs and wisteria. Following the sumptuous banquet Dean White called on Dean Shaw, Prof. Ryder, Prof. Hunt, and Gert-rude Thompson, of the class of 1915, for toasts.

## NEWS AND COMMENT

The members of the Y. W. C. A. and friends enjoyed a picnic at Pine Lake last Saturday.

The engagement of Edna Tussing, sophomore, to S. C. Vandenberg, senior, has just been announced.

Information has been received that a girl was born recently to Mr. and Mrs. Ray Johnson, of Saginaw. Mrs. Johnson was formerly Alice Pettit, and both were former students at M. A. C.

L. R. Walker, who will graduate with the class of 1915, has been appointed county agricultural agent of Marquette county. This makes four counties in the Upper Peninsula that have county agents.

The Columbian spring term party was held at the Columbian House last Saturday night. Mr. and Mrs. Ryder and Mr. and Mrs. Robinson were the patrons for the evening. Roscoe's orchestra furnished the music.

Dr. McDaniels, of the veterinary division, spoke at the Forestry Club meeting last week on common injuries to animals on the range and their diseases. He also discussed the problem of poisonous plants in connection with range animals.

C. T. Hirshfield, a prominent consulting engineer of Detroit, with the Edison Illuminating Co., will be the principal speaker at the Engineering Show which will be held June 4th and 5th. Mr. Hirshfield's address will be on "Agriculture, Engineering and Business," and will be given at the Engineering building on the evening of June 4th.

The Phyleans decorated the Agricultural Hall in dogwood and maple for their party last Saturday. The Lyric orchestra furnished the music. Kroodsma, '14, of Charlotte, and Waffle, '15, of Lansing, were back for the dance. Dr. and Mrs. McDaniels, Prof. and Mrs. Huston and Mr. and Mrs. Morse, the honorary members, were the patrons.

The Eunomians entertained their friends at the annual picnic at Pine Lake last Saturday. The liveliness of the crowd made up for the deficiencies of the weather man. For the old grads to say that "heavenly hash" was on the menu will assure that the dinner was of the usual quality. Mr. and Mrs. Patton, Mr. and Mrs. Wilson, and Mr. and Mrs. Mitchell were patrons.

The members of the University of Michigan Union, which has been running for about twelve years now, together with some prominent alumni of Ann Arbor and vicinity, have launched a campaign for a million dollar building to house the Union. The alumni and former students of the University all over the world are more or less organized, and every one will be solicited some time this summer. The Union has proven very popular at the University, not only with the students, but also with the faculty, who will admit that it is one of the biggest institutions in the life of the University.

According to a report which has just been sent to the U. S. Forest Service, Washington, D. C., the Forestry Department at M. A. C. has sent out, in the last seven years, 1,843,880 trees, averaging between two and three years of age. Figuring 1,000 trees to the acre this means that about 1,844 acres in the State of Michigan have been planted to forest in that time from this one agency alone. This last year about seven carloads of trees have been planted, the bulk of them being five to seven year old white pine and Norway spruce. The department is pushing operations towards the development of private nurseries to be maintained by those large land owners along Lake Michigan, who are just awaken-

ing to the necessity of reforestation. One year seedlings are being furnished for this work.

Under the title of "Some General Observations," Prof. F. S. Kedzie brought up some M. A. C. history for the Hort. Club boys last week. His principal theme was, "Devote yourself to a greater M. A. C." Prof. Kedzie said that at the time the war broke out there were 66 students at M. A. C., 28 of whom enlisted. Of the seven seniors, all enlisted but one. A review of the men who had charge of the horticulture department from the beginning was also on the program. These are: J. C. Holmes, from '60 to '62; Albert N. Prentiss, '61, from 1863 to 1869; W. W. Tracy, '67, from 1869 to 1872; W. J. Beal, from 1872 to 1881; James Satterlee, '69, from 1882 to 1884; L. H. Bailey, '82, from 1885 to 1888; L. R. Taft, from 1888 to 1902; U. P. Hedrick, '93, from 1902 to 1905; S. W. Fletcher, from 1905 to 1908; H. J. Eustace, '01, since 1908.

## HIGH SCHOOL AGRICULTURAL TEACHERS GET EXTENSION EXPERIENCE.

The teaching of agriculture in the high school is rapidly being put upon a more firm basis than in the past and consequently is more attractive to agricultural graduates. This is being made possible in part by the fact that many of these teachers are allowed and encouraged to do extension work among their pupils and the nearby farmers during the summer months. In some cases these men act as collaborators for the U. S. Department of Agriculture, and in some the local chamber of commerce or board of supervisors furnish the encouragement. This year twelve of the agricultural teachers will do extension work, considerably more than last year. The following is the list and the places they will work: K. K. Vining, '13, Fremont; A. McVittie, '11, Bay City; Wheeler, '13, Boyne City; Zeluff, '14, East Jordan; Davidson, '13, Escanaba; Kebler, '14, Hastings; Russell, '13, Ishpeming; Hard, '12, Manistee; Spaulding, '14, Marshall; Nash, '09, Muskegon; Bosink, '14, North Adams; Hagerman, '13, St. Johns; Hunn, '13, Tapiola; Ballard, '12, Iron Mountain.

The following have already been placed for next year's work: E. J. Smith, Blissfield; A. E. Warner, '12, Allegan; R. E. Decker, '15, Plainwell; Floyd Gibbs, '11, Charlotte; Bernie Beach, '15, Hart.

## PANAMA PACIFIC REUNION PLANS.

The members of the M. A. C. Association of Northern California met at a dinner at the Hotel Sutter, San Francisco, on May 14th, to discuss plans for the Reunion which will be held in San Francisco August 12th. This date has been set aside by the Exposition authorities and will be observed on the Exposition grounds as Michigan Agricultural College Association Day. A hall will be reserved for a session which will be held on the morning of that day. The committee in charge of the program for this Reunion are: W. E. Piper, '07, Ralph Stevens, '05, H. M. Goss, G. H. Freear, ex-'10. One of the features of the Reunion will be a trip to Mt. Tamalpais. All M. A. C. people who are planning on this Reunion should communicate with the Record or write direct to George H. Freear, 424 Holbrook Bldg., San Francisco, who will be glad to furnish any information desired.

One of the features of this dinner at the Hotel Sutter was the outbreak of an ag-mech. war, but according to the report the prompt action of the overwhelming numbers of ags. immediately quelled the riot. It was also reported that George Piper's military record was under fire. (Perhaps he was a member of the hospital squad or fire department.)

**BASEBALL BOYS DROP TWO.**

The Aggie nine journeyed down into Ohio and West Virginia last week, and, to say the least, it was a disastrous trip. The first game with Ohio Wesleyan, played on Tuesday, was a pitcher's duel between Hills and Weeder, in which Hills showed up just a shade the better, giving the Ohio boys the game by 2-1.

Four other games were on the schedule, but rain prevented all but the one with Marshall College, which went 13 innings, M. A. C. again taking the small end of the score which was 3-2. At the beginning of the ninth inning the score stood 2-0 in favor of M. A. C. Then with two men out, a hot one was hit through Williams and let two runs in. No more scores were registered until the 13th. Williams, the first M. A. C. man up, secured a two-bagger, but Fick hit into a double play and the side was retired without a run.

Marshall College came to bat and ran in one score, winning the game. Springer pitched a fine game for M. A. C. "China" Clark was used most of the time in the outfield in place of McWilliams.

**M. A. C. BREAKS THREE RECORDS.**

Notre Dame won the dual track meet last Saturday by the score of 78½ to 51½. Sheldon, of M. A. C., broke two records, the mile and 880-yard dash, and Beatty broke the M. A. C. record in the 220-yard low hurdles. In the weight and the 100 and 220-yard dashes Notre Dame won both first and second. The results:

220-yard low hurdles—Beatty (M.), Kirkland (N.), Shaughnessy (N.). Time, 25 3-5. (Record formerly held by Moon, 26 2-5.)

100-yard dash—Bergman (N.), Hardy (N.), Bruselbach (M.). Time, 10 seconds.

Mile run—Sheldon (M.), Furlong (M.), Waage (N.) disqualified. Time, 4 min. 36 2-5 sec. (Record formerly held by Geib, 4:42 4-5.)

440-yard dash—Welsh (N.), Henahan (N.), Bruselbach (M.). Time, 52.4.

120-yard high hurdles—Kirkland (N.), Beatty (M.), Shaughnessy (N.). Time, 16 1-5.

Two-mile run—Barnett (M.), Burns (N.), Herr (M.). Time, 10:16.

220-yard dash—Bergman (N.), Hardy (N.), Peppard (M.). Time, 21 3-5.

880-yard dash—Sheldon (M.), McDonough (N.), Voelkers (N.). Time, 2 min. 2-5 sec. (Record formerly held by C. J. Oviatt, 2:02.)

Shot put—Bachman (N.), Eichenlaub (N.), Blacklock (M.). 41 ft. 9½ in.

Pole vault—Yeager (N.), Sargent (M.), and Loveland (M.), tied for first. Height, 11 feet.

Running broad jump—Miller (N.), Beatty (M.), Martin (N.). Distance, 21 ft. 6½ in.

Discus—Bachman (N.), Eichenlaub (N.), Blue (M.). Distance, 130 feet.

Running high jump—Julian (M.), and Mills (N.) tied for first; Loveland (M.) and Miller (N.) tied for third. Distance, 5 ft. 8 in.

Hammer throw—Bachman (N.), O'Donnell (N.), Blacklock (M.). Distance, 149 ft.

Relay—Forfeited to M. A. C.

**NORTHWESTERN TEACHERS' AGENCY**

*The Leading Agency for the entire West and Alaska*

We place the majority of our teachers in July, August, and September. Write immediately for free circular.

## ALUMNI NOTES

Clara Waldron, '13w, is doing dietetic work in the Lakeside Hospital, Cleveland, Ohio.

"Nick" Prakken, ex-'07, is with the Shepard Electric Crane and Hoist Co., Chicago, Ill., with offices at 630 People's Gas Bldg.

A. B. Mead, '12e, is working with the Overland distributor at Bismark, N. Dak. He reports he is getting astride of about 10 Overlands a month.

Born, to Mr. and Mrs. W. I. Gilson, East Lansing, on May 9th, a six and one-fourth pound girl, Clara Louise. Gilson graduated in 1910 and is instructor in forestry at M. A. C.

H. F. Palmer, '93, who is with the H. K. Mulford Co., manufacturing chemists, Philadelphia, has sent for a catalog of the College. He says that he has a son nearly ready for college.

Glenn A. Barcroft, '10e, called at the College last week. He expects to start soon for Seattle, stopping off at Chicago and Minneapolis. Barcroft will receive the degree of C. E. this June.

R. L. Nye, '12a, who is superintendent of the Menominee County School of Agriculture, spent one day at the College last week. He was looking for teachers of agriculture and home economics.

Donald H. Kedzie, '76, died in a hospital at Los Angeles, Cal., May 21st, as a result of an injury which brought on kidney trouble. As previously noted in the RECORD, Mr. Kedzie had recently retired from the newspaper business which he had been engaged in in Lordsburg, N. Mex., for the past 27 years.

We have it on pretty good authority that certain of our eminently able alumni, whose names do not appear on our subscription list, are fond of glancing through the columns of the RECORD. While we are exceedingly glad that we are able to make one slice of bread do for two, we are greatly concerned with the fact that, with so much bread on hand, we cannot sell the two slices.

"I note the extract from the last numbers of the *Bubble* referring to an effort to organize an alumni association at the coming commencement. If I am not misinformed the books of the association have no record of that meeting. In response to the call seventeen did assemble in the southwest room on the third floor of College Hall and laid plans that resulted in the first public meeting of the association held a year later. There were present the ten seniors that graduated a few hours later, A. J. Cook, '62, W. W. Tracy, '67 (both employed at the college), and in addition C. G. Jewell, '62, C. G. Hollister, '61, Frank Hodgman, '62, and Daniel Strange, '67. Not a large total, but still over half of all living graduates and a proportion that has never been exceeded at a meeting since."—A. G. GULLEY, '68.

It is utterly impossible to keep track of all the M. A. C. men who get into print, and while we hold no brief for The Country Gentleman, we cannot refrain from calling attention to the fact that in one number of this estimable weekly, that for May 15, there appear three articles by M. A. C. graduates and one picture not in connection with any of these three articles, showing the picture and work of another graduate. One of the articles is by M. G. Kains, '95, head of the Hort. department at Penn. State, another by E. H. Brown, '11, horticulturist for Western Michigan Development Bureau, another by W. J. Wright, '04, dean of agriculture in Alfred University, New York. The picture is a demonstration in the cold-pack method of canning as advocated by E. C. Lindemann, '11, in his work with girls' canning clubs.

# COME TO The Mills Store

(The Heart of Lansing)

FOR THAT

## New Spring Suit, Coat, Dress, Skirt or Waist.
