NO. 8

M. A. C. GATHERING AT SAGINAW

By far the largest crowd that ever graced a gathering of M. A. C. teachers at the State Teachers' meeting met at the Canoe Club, Saginaw, October 29th, for a noon banquet. Chairman E. L. Grover, '07, of the State Teachers' M. A. C. Association, had a fine program arranged and the occasion left nothing to be desired. Acting President F. S. Kedzie performed the duties of toastmaster. Pauline Creswell, '14, in a clever poem responded to "The Joys of Teaching." "The Duty of an Alumnus" was very ably handled by Earl P. Robinson, '07. E. C. Peters, '93, spoke of "M. A. C. and the Business World," and the program was concluded by a toast to "The Girls," in which many local hits were made, by Frances Kirk, '14.

Besides those mentioned above, the following were present from the college: Mary E. Edmonds, Louise L. Clemens, C. N. Rix, W. H. French, Paulina Raven, Mrs. C. M. Cade, Dr. J. L. Snyder, Mrs. L. L. Peppard, E. D. Lindemann, from the State: Wm. J. Smith, '68; Frank F. Rogers, '83; Coral Havens, '00; Grace Elliott, '02; Mr. and Mrs. Wm. Prakken, '05; Florence Hall, '09; Belle Hubbard, '09; Linda Himmelein, Jane Rigterink, '10; Glema Pancoast Hayden, '10; Mrs. Earl P. Robinson, Daniel H. Ellis, '07, and Mrs. Ellis, J. P. Dick, F. J. Gibbs, '11; A. M. McVittie, '11, and Mrs. McVittie; A. J. Runner, '12; W. A. Wood, '12; Harry Taft, '12; Sara VanDervoort, '12; Grace M. Mack, '13; Laura E. Crane, '13; A. E. Warner, '13; Mr. and Mrs. Wallace, George R. Wheeler, '14; C. R. Garlock, '14; Flora Roberts, Z. W. Storrs, '14; Marion Sly, '14; Margaret Pratt, '14; R. H. Stone, '14; Clara Rogers, '14; Sophie Dodge, '14; Jessie M. Whitney, '14; Janet Renwick, '14; Jaunita Northway, '14; Hazel Ramsey, '14; H. B. Vasold, '14; Fred Smiley, '15; K. H. Miller, '15; Hazel Mundy, '15; Gertrude Thompson, '15; Mae Hamilton, '15; Jean Fry, '15; L. B. Aseltein, '15; Julia P. Grant, Helen Brohl, '15; Helen Boyce, '15.

In addition to the election of officers the following resolution was adopted:

Resolved, That the M. A. C. Association, thro its assembled members

at Saginaw, do hereby express their extreme sorrow over the untimely death of Frank H. Hurst, who has been such a powerful influence in the lives of so many young men of the State of Michigan; whose first interest was always with Alma College, his own alma mater, but who was also deeply interested in the welfare of M. A. C., where he was at one time Y. M. C. A. secretary and assistant coach. Be it further

Resolved, That the family of Mr. Hurst and the officers of Alma College be informed of our high regard for his usefulness as a citizen of the State of Michigan and especially for his splendid services to the two institutions mentioned.

ADDITIONAL INSTRUCTOR FOR SOIL DEPARTMENT.

The increase in work in the Soils Department is seen in the necessity for the appointment of an additional instructor which action has just been authorized. The person selected is C. E. Millar, who begins work at once, under the title of assistant professor. Mr. Miller has his B. S. ('09) and M. S. ('11) in chemistry from the University of Illinois and his B. S. A. from Kansas Agricultural College. He taught chemistry one year at the University of Illinois and then went to Kansas where he had charge of work in soil analysis and also charge of work in soil research course for advanced students. He will do both teaching and experiment station work at M. A. C.

U. OF M. WINS X-COUNTRY.

The varsity cross country team from the University of Michigan took first place in the first annual cross country hike at M. A. C. last Saturday morning. The course was five and one-fourth miles long and Addington, of Albion, who made a wonderful sprint at the finish and came out ahead, made the trip in 29 minutes and 30 seconds. Carroll, of Michigan, came in second and Michigan got also fourth and fifth places, giving them the race. Albion received second place and M. A. C. third, Sheldon winning third place in the race. The Michigan all-fresh team was last.

THE SECOND GENERATION.

There is probably more real loyalty and genuine M. A. C. spirit built up at M. A. C. thru students that can boast of a brother, sister, father or mother who have been in attendance or who have graduated than in any other way. The mere fact that an entering student has some kin who has at one time traveled the same paths, recited in the same class rooms, or even studied in the same room, endears the college as no other circumstance could, and puts that individual away ahead of his class in knowledge of and reverence for the institution. This is the condition which obtains at the older institutions of learning in the East where it is considered little short of a crime if a son should not attend the college his father attended.

The following is an attempt to place before the readers of the RECORD a list of the people who have either had sons or daughters graduate or attend the Michigan Agricultural College. The task is a large one and it is not to be hoped, however much desired, that all are included who should be. Will those who know of people who should have been included please report the same to the Editor.

O. C. Hollister, '89, a farmer at Seven Oaks Farm, Laingsburg, is a son of C. E. Hollister, deceased, a member of the first class, 1861. So far as we know C. J. Monroe, prominent fruit grower of South Haven and a member of the first class, is the only person living who can boast of having both a son and grandson who have been in attendance at M. A. C. Geo. C. Monroe, '91, is a banker at South Haven, and his son, G. S. Monroe, is a member of the class of '18. A. J. Cook, '62, now California State Horticultural Commissioner, graduated a son, A. B. Cook, '93, of Owosso, and daughter, Katherine Cook Briggs, '93, of Washington, D. C. Charles Adolphus Jewell, Jr., '96, of Winnemucca, Nevada, is a son of Charles Adolphus Jewell, now deceased, who graduated in '62. Oscar Clute, '62, now deceased, president of M. A. C. from '89 to '93, has a daughter, Lucy Clute Woodworth, '93, of Chicago, and two other daughters, Marion and Katherine, and two sons, Oscar and Will, who attended M. A. C. Lemuel Clute, brother of

M. A. C.'S GLEE CLUB.

If the vim and enthusiasm exhibited at the several practices so far are any indication of success, Director Fred Killeen will have a Glee and Mandolin Club this year that will compare favorably with that of any college or university in the country. And we see no reason why it should not stand up under comparison. M. A. C. has come to expect big things of every representative she has in the field and the Glee Club should be no exception.

Plans are under way to make the Glee Club this year an M. A. C. organization that will be as typically of the college and receive as much support as does the college band. This is a big contract, but it should be fulfilled. The slogan of the club is "To the coast in 1920." This would undoubtedly be a great advertising feature for M. A. C. and one that would merit the support of all students and alumni. But the first task for the Glee Club is to become well known and sought after in the state.

The annual spring trip is already being arranged for and the faculty will be asked to grant an extension of three days, the first week of the spring term, so that the club may be out a full two weeks. We believe that this should and will be granted and that other students who are late in registering and who are fined, will gladly consent to exemption for the Glee Club students.

The alumni have a duty to perform in connection with this spring tour which, if performed well, would bring much credit to M. A. C. and to the M. A. C. Association. This is in the line of entertaining the club at the various places, and advertising their concert. The various local M. A. C. Associations in Michigan should be vying with each other for the honor of putting on a concert of the M. A. C. Glee Club in their communities. A gathering, and perhaps a feed, of the M. A. C. people at the occasion of these concerts would bring the alumni and former students in touch with the

present day college life as few opportunities now permit. This would also show the M. A. C. students, represented by the members of the Glee Club, that those who have gone before them are loyal to M. A. C., thereby kindling afire the spark of loyalty smoldering in the present student body. Let's get behind this Glee and Mandolin Club and push.

CORRESPONDENCE.

Pittsburgh, Pa., Oct. 28, 1915.

M. A. C. RECORD:

In order to forestall "Old Bill Oversight" from claiming me as one of his "clients," I enclose my cheque herewith.

I note with pride the splendid showing of our wonderful aggregation of athletes in their battle with the University boys. We must have "quite some" team by this time. Back in my day we felt just a little chesty about our baseball team, but we smothered our emotions when it came to football.

The current issue of the RECORD is otherwise interesting because of the letter from Japan by S. Yebina. It was considerate of Kains to send it in, and I hope we may have more of them. I would like to suggest that M. Sera, of 1893, also be encouraged to contribute. I don't believe I have ever heard of him since he left college. It would indeed be pleasant to hear from him through the columns of the RECORD, and I am sure that many others of the boys of our time will second me. By the way—this reminds me that we haven't heard much of anything regarding the boys further back than 1900 lately, and can't some of them be induced to come out of their shells?

If any of the boys have occasion in the near future to search through toy departments for gifts for their heirs, they will very likely see such toys as Sandy Andy, Panama Pile Driver, Automatic Sand Crane and several others, all going under the general name of "Wolverine Automatics." If you do, think of B. F. Bain, who had a lot of fun digging them out and sometimes by the midnight oil. I am happy to say that they have taken splendidly and our whole 1915 production is more than sold out. This enterprise was started about four years ago as a department of my business, but has developed so that it constitutes the greater part of our production.

I have gone to this length in describing my feelings and telling what I am doing, in the hope that some of the other boys, and particularly those near my time, may also be induced to reciprocate and come across with a letter telling what they are doing. These letters are what make the paper interesting to me, and I don't care so much about what is said as about how often it is said.

Very truly yours,

B. F. BAIN, '93.

MORE COMMENTS ON THE UNION.

In the letter from President K. L. Butterfield of Amherst, which was read at the Union committee meeting, October 30th, the point was brot out that whatever is done about the M. A. C. Union, the organization headquarters should be primarily useful to the students—so useful as to become indispensable. This opinion was echoed by the members present. It was brot out that the average alumnus would use a Union building about once a year for fifty years, or fifty times while undergraduate students would use such a building once a day for two hundred days in each of his four college years, or eight hundred times—the result being the historic ratio of sixteen to one.

This seems to be the general sentiment—that the M. A. C. Union should be the "very heart of our future college spirit where all alumni and students can turn for inspiration and encouragement."

I want to put myself on record in favor of using College Hall for the M. A. C. Union as suggested by President Haigh and seconded by Garfield and others. The building may not be beautiful, but a great deal of sentiment clusters around it and no doubt all will agree that it should be preserved for the use of the alumni, including those who have known it from the earliest day of the institution.

A. H. VOIGHT, '81,
Los Angeles.

I forgot that I intended saying that I think the M. A. C. Union is just what we want at M. A. C. and I'll boost it all I can this winter.

C. G. RYTHUR, '12,
Lackawanna, N. Y.

I am much interested in the future of our dear old Alma Mater and trust plans will be formulated for the furtherance of the Henry A. Haigh plan to perpetually preserve "College Hall." I most heartily endorse this movement and many of the ideas already advanced in the RECORD regarding the future purpose of the building.

FRANK M. PAINE, '89,
Traverse City.

Prof. F. H. Sanford spent the first part of last week at Frankfort, Mich., where he went to advise means of stopping the advance of sand dunes on a piece of land north of the city. He is working out extensive systems of planting which will control the sand.

Prof. Chittenden of the Forestry Department made a trip to Grand Rapids last week looking up the willow project.

THE SECOND GENERATION.

(Continued from page 3.)

Oscar, and a member of the class of '63, has two sons, W. K. Clute, '86, and R. L. Clute, '96, both of whom graduated.

W. W. Tracy, '67, seedman with the U. S. Department of Agriculture, Washington, D. C., has the distinction of having four sons graduate, all of whom are living: W. W. Tracy, Jr., '93, seed grower at Rocky Ford, Col.; H. W. Tracy, '94, seed grower at San Juan Batista, Cal.; S. W. Tracy, '96, traveling salesman with D. M. Ferry, San Francisco; J. E. W. M. A. C. TOTALS 68 POINTS AGAINST MARQUETTE WHILE LATTER GET 6 ON FUMBLE

There is no doubt about it now—the last two games on M. A. C.'s football schedule this fall should have been turned around. If Macklin's men had played against Marquette Saturday the way they did the week before against Oregon there wouldn't have been 68 points registered up on the score board at the close. And if this same aggregation had played against Oregon the way they did in the first quarter Saturday, the score a week before would not have been quite so humiliating. But, as Coach John Farrell says, "The water has gone over the dam now," the only thing remaining is to make use of it further on—perhaps another year we can blot out that 20 to 0 memory.

It looked as if the East Lansing boys were back in their old paces at the first toot of the whistle Saturday when Blake Miller received the ball from kick off and trotted down to Marquette's 25-yard line, and then, in three downs, DePrato and Gideon Smith advanced the ball over the goal line—all this in less than one minute. In two minutes more DePrato was over again. Three more touchdowns were garnered in the first period—all by line plunging and end runs except the last, when Butler received a pass behind Marquette's goal line that traveled 35 yards from Huebel. The quarter ended 34 to 0 with the stands calling for a hundred for final score.

The second quarter didn't go so fast for with several substitutions only two touchdowns were counted. "Jerry" took the ball over for one, and a 30-yard pass from "Jerry" to Henning behind the goal posts tallied the other.

In the third quarter Macklin introduced four freshmen, the men from Milwaukee braced up and the contest looked more like a real football game. M. A. C. only got one touchdown in this period—fumbling and poor passing being largely to blame. In this period Marquette made three of her four first downs, the gains being largely due to half back Beutler who, while weighing only 125 pounds, managed to wriggle thru for several good gains. Two more touchdowns were

registered in the last quarter, one of them following another long pass—Huebel to Oviatt. DePrato kicked goal eight times out of ten. Huebel was responsible for Marquette's touchdown in the third quarter when he fumbled and Lyons picked up the ball and toted it thru the open field to the goal line—the only chance Marquette had to get a glimpse of it during the whole game.

Hewitt Miller was unable to be in the game on account of his knee and thus lost a chance to play in the last varsity game of his college career. He, with his brother Blake, and Gideon Smith, Jerry DePrato, and Howard Beatty receive their diplomas next June, and thus to M. A. C. is lost five as good all around athletes and students as ever labored for the Green and White. Another senior to go out this year is Oviatt, and while he has never shone as brilliantly as the others, he has had a chance to play in nearly every game this year and has always shown the fight of real varsity calibre, and it is sure that "Dutch" will be missed not a little.

NEWS AND COMMENT.

The Sesame party occurred Friday night in the Agricultural Building, with Mr. and Mrs. Publow, Mr. and Mrs. Kiefer, and Prof. and Mrs. Baldwin chaperoning.

The Sesame girls were entertained at the home of Mrs. Baldwin last Saturday night, from 5 until 9, by Mrs. Baldwin, Mrs. Kiefer, Mrs. Publow and Miss Louise Clemens.

D. P. Flower has been selected to instruct the short course men in gas engines. He has had a good deal of practical experience, both with stationary engines and farm tractors.

Miss Maud Gilchrist, former Dean of the Home Economics Division, is at Pocahantas, Iowa, again this year. She writes that she is always glad to receive the weekly news from M. A. C.

Another post graduate student has arrived in the person of Paul C. Kitchen, a graduate of Ohio State, '15, in forestry. Mr. Kitchen is majoring in botany, making a special study of the anatomy of some woods, and minoring in forestry.

W. A. Meltzer of the Dairy Department talked at the Forestry Club meeting last week on his experiences in the Forest Service. Mr. Kitchen, post graduate student in botany, and a graduate of Ohio State, told about the O. S. U. forestry school.

C. D. Ball, instructor in chemistry, and a graduate of Penn State, spoke at the last meeting of the Hort. Club, on growing palms under glass. His father has extensive greenhouses and Mr. Ball has had much practical experience along the line of his topic.

The laboratory guide in bacteriology which the bacteriology department has had under preparation for some time, is just about completed. It is so inclusive that it contains laboratory directions for all the undergraduate bacteriology. It is expected that there will be a large call for it from other schools.

The Glee and Mandolin Club has over half of last year's veterans back in the line-up and some excellent new material. The following officers have been elected: G. R. Warren, president; Art Turner, vice president; B. J. McClure, secretary and treasurer; J. W. Moore, manager; W. C. Boman, assistant manager.

The Hesperians held their annual fall term party in the Agricultural Building last Saturday night. The room was prettily decorated with autumn leaves, and music was furnished by Lankey's orchestra. The patrons were Mrs. Gardner, Mr. and Mrs. Donovan, Dr. and Mrs. Lyman, and Mr. and Mrs. Leroy.

The members of the Engineering Society were favored with an illustrated

lecture on the Panama Pacific Exposition by H. E. Morton, '16. Morton used pictures which he took himself and this gave added interest to the lecture and made the audience fully aware of the fact that the speaker enjoyed a rare privilege in the trip thru the West.

The Girls' Glee Club of sixteen members, have elected the following officers: Claribel Pratt, president, and Bernice Coors, secretary and treasurer. The girls have been practicing for some time and made their first appearance at the dinner given to the State Federation of Women's Clubs recently. The club is planning to give a concert in the Armory some time this winter.

Mr. F. Eric Millen, state inspector of apiaries, addressed the members of the Farmers' Club on Tuesday evening last, and gave a general talk on "Bee-keeping." In his remarks Mr. Millen explained the life of the bees and their work how nectar was gathered and the value of the honey bee in the pollenization of many kinds of flowers, which meant a more abundant crop of seeds and fruits. The speaker stated that honey was one of nature's most healthful sweets and should be eaten in larger quantities. If it were not for the honey bee thousands of tons of honey would be wasted every year and our crops of fruits and seeds materially decreased.

In the program for the annual meeting of the Michigan State Horticultural Society to be held in Grand Rapids December 7, 8, and 9, we find M. A. C. represented by the following: C. F. Schneider, '85, "The Use of Water as Protection from Frost;" Prof. C. P. Halligan, "What the U. S. Department is Doing for the Fruit Grower;" Prof. R. H. Pettit, "Fruit Pests;" Prof. M. M. McCool, "Soils Suitable for Fruit Growing," and Don W. Francisco, '14, "Going After the Consumer's Dollar." At this meeting there will be the usual prizes offered to college students in judging fruit and speaking. In the latter contest, however, the selection of the ten candidates has been provided for somewhat differently than in the past. Fifteen will be nominated and five eliminated by contests at the college before they journey to Grand Rapids. It has been usual just to elect the ten.

Frank R. Hurst, secretary of the Y. M. C. A. at M. A. C. from 1904-1906, died at his home in Detroit, Wednesday morning, October 27th. Mr. Hurst was a graduate of Alma college and came to M. A. C. directly after, where he gained a great place in the affections of every one with whom he came in contact. His many friends thruout the state will greatly mourn his death and extend to the bereaved wife and three small children their heartfelt sympathy.
