## M. A. C. CHORUS PRESENTS "ROSE MAIDEN."

The M. A. C. chorus of 150 voices, under the direction of Prof. Fred Kilteen, with the assistance of the M. A. C. orchestra, and four soloists, gave a splendid rendition of the "Rose Maiden" at the Armory last Tuesday evening. The soloists were: Miss Helen Dodge, soprano, a graduate of M. A. C. in 1911; Miss Mary Louise Creyts, contralto; Oscar F. Jackson, tenor, and Ray Hamilton, tenor, who sung the baritone role. Both Mr. Jackson and Mr. Hamilton are known quantities at M. A. C. but their singing last week carried their reputation higher than ever, the former appearing at his best in "Sleep of Even," and the latter winning much appreciation for his rendition of "Where Gloomy Pine Trees Rustle." Miss Dodge made her debut at M. A. C. as a soloist, but easily took her place among those better known and won much merited applause for her work, especially for her solo, "Bloom On, My Roses." Miss Creyts' fine, round tones made her especially fitted for her part, the charm of her voice coming out especially in "Yet Chime They So Sadly." The chorus, with its volume and delicate tone shading, showed the training of a master hand.

## DETROIT ALUMNI PLAN DIN- NER DANCE MARCH 24.

### WILL ENTERTAIN GLEE CLUB.

Recent reports from Detroit go a long way to disprove the claims made recently by contributors to the Record columns that the M. A. C. people of Detroit are dead. For events varied enough to satisfy the most exacting are promised for the evening of March 24th, when the M. A. C. Glee and Mandolin Club appears in Detroit in its first concert of the spring tour. The Glee Club concert will be held at McColbester Hall in connection with the Church of Our Father. This place has all facilities for banquet, concert and dancing and also a very spacious church house in which the reception will be held prior to the banquet. There will be dancing after the banquet and concert and those who do not care to dance can visit in the church

## FACULTY AUTHORIZES OP- TIONS IN CHEMICAL EN- GINEERING—OTHER NEW COURSES.

At the faculty meeting last week a resolution was passed authorizing the remodeling of the engineering course to provide for options in chemical engineering, the new schedule to go into effect this fall, except that the change in chemistry for the freshmen go into effect next term. This proposed new work will make necessary the installment of courses in chemical technology, industrial chemistry, physiological chemistry, special courses in organic chemistry and qualitative analysis, and a course in economic geology.

Another new course which was adopted is one in general accounting, a three credit course open to students in the agricultural division. A course in physiological chemistry to be elective for the junior and senior girls this next spring term was also authorized. It is understood that this latter course will be offered hereafter in the fall and winter terms and will be required of juniors as a prerequisite to the course in dietetics.

## NEW M. A. C. ASSOCIATIONS.

### BERRIEN COUNTY.

Good news comes from S. S. Smith, '12, of Watervliet, to the effect that on Saturday evening, March 18th, the M. A. C. people in and around Benton Harbor will assemble at Library Hall at 7:30 p. m., for the purpose of forming an M. A. C. organization. There are a goodly number of M. A. C. people in that vicinity and Smith writes that chances are good for a strong organization. Everybody should get out and help boost this movement.

### PHILADELPHIA.

Scott B. Lilly, '07, assistant professor of civil engineering at Swarthmore College, Swarthmore, Pa., visited M. A. C. a week ago Monday primarily for the purpose of looking over M. A. C.'s engineering building. Incidentally he looked up the list of M. A. C. people in and around Philadelphia and waxed enthusiastic over starting an M. A. C. organization in that vicinity.

## STUDENT ELECTIONS.

At the annual student elections last Saturday, G. O. Stewart of Avilla, Ind., was elected editor of the Holcad for the coming year. Stewart is at present assistant editor. L. H. Vershoor of Grand Rapids, was chosen business manager of the Holcad. The position of circulation manager has been abolished. In the athletic elections H. D. Straight of Holland, was elected assistant football manager; F. England, Detroit, yellmaster; L. W. Wrench, West Allis, Wis., assistant football manager; C. R. Oviatt, Bay City, tennis manager; A. K. Smith, assistant tennis manager. R. S. Raven of Monroe, was chosen as student representative on the Liberal Arts Union. The two members elected on the athletic board of control were D. L. Peppard of East Lansing and C. N. Silcox of Battle Creek. The following men were chosen for student council: W. R. Wright, Port Huron; A. G. Kettunen, Ishpeming; R. D. Kean, Stanley, N. Y.; D. C. Cavanaugh, Lake City; W. N. Cawood, Marlette; R. T. Stevens, Durand.

## SPRING TOUR OF GLEE CLUB ANNOUNCED.

The following itinerary of the M. A. C. Glee and Mandolin Club has been announced by Manager Moore for the week of spring vacation and the week following:

Detroit, March 24.  
Port Huron, March 25.  
Pontiac, March 27.  
Flint, March 28.  
Saginaw, March 29.  
Bay City, March 30.  
Traverse City, March 31.  
Manistee, April 1.  
Ludington, April 3.  
Muskegon, April 4.  
Holland, April 5.  
Grand Rapids, April 6.  
Portland, April 7.

The college sugar bush was tapped a week ago to the extent of 600 trees. This project affords an excellent opportunity for the commandant at M. A. C. to give his cadets some first hand experience in guard duty.

## FORWARD MARCH!

It certainly is invigorating to view the work of the faculty, in its recent meeting, in the way of adding new courses to the curriculum and strengthening others. Especially is this so at this time when there might be a tendency to hold back and see what is going to happen. It shows a conviction on the part of the officers of the college that there is a definite place M. A. C. should strive to fill in the educational opportunities of the land. And the spirit and will appears to be back of the convictions to such an extent that we hear a decisive command, "Forward March!"

We as alumni are intensely interested in any advance of our Alma Mater, and, from some rather uncomplimentary remarks which have recently appeared in some of the papers of the state, it looks as if we ought to be on our guard. We are glad to see these new options in chemical engineering. They will cost the state comparatively little and with M. A. C.'s present chemical equipment she will be able to turn out graduates who are in much better position to assist in handling the chemical problem of our country, which will continue to be a vital one. The course in accounting for the agricultural students will meet with a ready approval from the agricultural graduates who have gone out in the past, and who have long appreciated the need of direction in this line.

\* \* \*

## A TRIP WORTH WHILE.

A glance at the proposed spring trip of the Glee and Mandolin Club ought to convince the most skeptical that there are some people out through the State of Michigan who are behind this M. A. C. organization. In some of these places, notably Detroit and Traverse City, alumni organizations are backing the proposition; in others alumni and former students are at the head of other organizations which have taken over the responsibility.

And while this is the longest trip, both in point of time and distance, ever undertaken by the Glee Club, the manager is quite sure that he will be able to pay expenses. We believe it the duty of the alumni to see that the boys more than pay expenses. The trip is eminently worth while for the boys who make the club; it is worth much more to M. A. C. And it costs the college practically nothing. This tour will mean infinitely more to M. A. C. if the people of the various communities see that the alumni are back of the performances. This may be a chance for you to show your colors, and exhibit to your neighbors some of that much vaunted M. A. C. spirit.

\* \* \*

## FIVE JUNIORS MAKE ALPHA ZETA.

The winter term Alpha Zeta initiation took place last week, the following juniors being honored by selection:

S. H. Dwight of Decatur; A. G. Kettimen of Ishpeming; C. J. Schneider of Massillon, Ohio; C. J. Seidel of Saginaw and E. R. Trangmar of Hancock.

The new men were banqueted at the Campus Club Thursday night. Following the banquet the program, of which "The Season" was the main theme, was presented, with W. J. Atchison in the role of Coach. G. R. Bogan responded to "The Try-outs;" E. R. Trangmar, "The Scrubs;" L. R. Stanley, "The Regulars," and Dr. M. M. McCool, "The Winning Team."

The Alpha Zeta, designated at M. A. C. by "Kedzie Chapter," has been in existence at this college since December, 1902, when a charter was granted to the organization. The following men were charter members: F. D. Stevens, '03, now assistant agriculturist in charge of farm management investigation for Alabama, Mississippi and Tennessee; E. S. Good, '03, chief of the division of animal industry and professor of animal husbandry at Kentucky State University; H. W. Norton, Jr., '03, a progressive farmer at Howell, Mich.; F. O. Foster, '03, bacteriologist for the Detroit Creamery Co.; C. M. Marshall, '03, farmer at Heber, Cal.; H. W. Dey, '03, farmer at Springport; Glenn C. Sevey, '02, editor "New England Homestead" at Springfield, Mass.; S. B. Hartman, '03, deceased; J. B. Strange, '03, farmer at Grand Ledge, and J. G. Moore, '03, associate professor of horticulture at the University of Wisconsin.

By a vote of 505 to 265 the hour of military drill was changed for the spring term from 4:20 p. m. to 7 a. m., at the student election last week. This will make it necessary for students living in the dormitories to arise at 6:28 instead of 6:29 in order to get their shoes shined in addition to the ordinary toilet preparations for 6:30 breakfast.

## REORGANIZATION GOES AHEAD RAPIDLY.

Pessimism has no place at M. A. C. these days. There is neither room nor time for gloomy thoughts or prophecies, and whether this is a by-product or the cause of the great interest and enthusiasm exhibited in making things move, is immaterial. The material thing is that the reorganization of engineering laboratory work is going ahead with leaps and bounds. Class room work has already settled down into the scheduled grooves.

In the mechanical engineering laboratory the students are getting some real experience. One-half of the gas engine laboratory in the basement of the Agricultural Building has been cleaned out and the boys have been installing the lathes that were saved. One of these, operated by an individual motor, was at work early in the week. The department of physics and electrical engineering has taken quarters in the Forestry Building, with offices and class rooms on the first and second floors and laboratories in the basement. The office of the dean of engineering and the mechanical engineering department is located on the first floor of the Agricultural Building, just to the right of the stairway, and the instructors in civil engineering are quartered on the second and third floors. The drawing department has offices and class rooms on the third and fourth floors. One drawing instructor was heard to remark that last Tuesday his classes did just the same work and as much of it as they would had they been in the old quarters. Lansing firms have been very loyal in the way of loaning laboratory equipment.

## NEW BUILDING ON WALLS OF OLD.

Workmen have been busy the past week tearing down the walls of the old shops and Engineering Building, most of which still stood menacing the lives of passers-by. Dynamite was used to a considerable extent in loosening the mortar and leveling the ruins.

Dean Bissell believes that the old foundations have not been harmed and plans for the new building, upon which the architect is already working, call for a structure similar in shape and size to the one burned. A much larger lecture room has been decided upon as one of the changes that will be made in the old plans. The engineering shops will be built to the east of the main building and back of its front line. This will make possible an extension of the grounds in this direction and will make the arrangement of buildings conform more nearly to the general plan of the campus.

Rev. O. J. Price spoke in Chapel last Sunday morning.

## DETROIT "Y" EVENS UP WITH M. A. C., WIN- NING 35-14

The Detroit Y. M. C. A. forced M. A. C. to divide the state honors in basketball this season when the "Y" quintet secured a 35-14 victory over the Aggie five in Detroit last Tuesday. M. A. C. won from the "Y" at East Lansing earlier in the season so that now the score is evened up.

The game from M. A. C.'s standpoint was decidedly below par, Frimodig and Hood being the only ones who looked good at all. Ricker and Rigby were decidedly off color. Sheffield substituted for Rigby and showed up considerably better. McClellan was taken out because of fouls in the last half, his place being very ably filled by Karl Miller.

M. A. C. started the game in the lead, and continued until near the end of the first half. Then Ely, Sutton, Bush and Vinton disturbed the situation to such an extent that at the end of the first half the score stood 19 to 10 in Detroit's favor.

During the second half Frimodig secured a basket at the opening, but another at the close, by Ricker, ended the scoring. Ely for Detroit secured five baskets in this half.

M. A. C.	Y. M. C. A.
Ricker.....	L. F.....
Hood.....	R. F.....
Frimodig.....	C.....
Rigby.....	L. G.....
McClellan.....	R. G.....
	Vinton

Baskets from field: Ely 6, Sutton 3, Boosey 2, Bush, Vinton, Ricker, Hood, 2, Frimodig 2, Rigby. Baskets from fouls: Ely 9 in 15, Ricker 2 in 8. Referee, Perrine of U. of M. Umpire, Hackett, Drake.

## "A LETTER WITH SOME LIVE POINTERS."

"Dear Editor:

"Enclosed find payment for my subscription. It seems to me that a great improvement has been made in the RECORD within the past few years, and in our home it is always read with much interest. A paper of this kind, however, cannot render the service it should without the hearty co-operation of all those who are interested in the future welfare of their Alma Mater. The RECORD needs more than a dollar from each subscriber each year. It needs something it can publish concerning the movements of us all, and it would be a splendid thing if each member of the Association would write one or two letters each year to the RECORD, giving all news at hand concerning M. A. C. men. It is hardly consistent for me to talk this way, for I have contributed nothing to the success which this paper has already at-

tained, but the statement is nevertheless true.

At the twenty-fifth anniversary of the Babcock test, which was celebrated here not long ago by the holding of an appropriate exposition showing the development of the dairy industry in Wisconsin during the past 25 years, a number of M. A. C. men played important parts. In the first place the exposition was held in the live stock pavilion which has the distinction of being the finest in the country, and which is a part of the equipment of the animal husbandry department, of which Prof. George C. Humphrey, '01, is the head. Aside from numerous diagrams and charts showing the development of the dairy cow, this department placed on exhibit, in a large refrigerator built especially for the purpose, a dressed beef—the finest steer the college had on hand. This was cut up to show how the various cuts should look, and was placed along beside similar cuts from a poorly bred and poorly fed animal. Prof. Humphrey is doing an excellent work, and is recognized by all stockmen as being at the head of the live stock industry of the state.

"The Horticultural department, of which Prof. J. G. Moore, '03, is the head, had a very interesting and attractive exhibit. It was to represent an ideal dairy farmstead in miniature, with the proper arrangement of buildings, fields, drives, orchard, garden, etc. The grass was growing, the trees were green, and cattle were grazing in the meadow, as in real life. Another exhibit was of the standard varieties of potatoes being grown in Wisconsin. Prof. Moore has developed a large and very efficient department, and has greatly assisted in the development of an industry in a state not generally considered as being well adapted to fruit raising.

"The central feature of the display of the Soils department was the exhibit prepared by the soil survey, in which your humble servant is interested. The centerpiece was a general soil map of the state, 10x12 feet. This map was based upon the work of the soil survey which has covered 67 per cent. of Wisconsin. The 110 types of soil thus far mapped were grouped into 18 classes, each of which was shown on the large map by a separate color. Three foot column samples of soil together with typical enlarged country views represented the various soil groups. These soil samples and views were connected by ribbons with the portions of the map where each kind of soil is found. It is the plan to extend this survey until every county in the state is supplied with a detailed soil map.

"An exhibit of grains was made by the Experiment Association of the state, and also by various counties. Our friend Prof. D. S. Bullock, '02, professor of agriculture at the Marinette County Training School, went

home with a whole armful of prizes. It is of interest to know that the Marinette county branch of the Wisconsin Experiment Association has the largest membership of any county in the state, and this due largely to the untiring efforts of Mr. Bullock. He is doing considerable extension work, aside from his regular work in the school, which would take all of the time of an ordinary man, and besides this he also does the work of a county agent, so it will be seen that "Solomon" is too busy to get into any mischief.

"Max Gardner, '12, is now assistant in plant pathology at the U. of W. Charles Fry, '12, is assistant in biology. Joseph Weber, with '16, is a sophomore in engineering. Ernest Taylor, '12, who was in the Philippines for two years, is now teaching agriculture in the high school at Baraboo, Wis. H. V. Geib, '12, is taking work towards his Master's Degree in the College of Agriculture, preparatory to taking up the teaching of agriculture.

"Mr. Sidney Johnson, '03 is building superintendent and contractor, and as building operations in Madison are very active, Mr. Johnson is establishing himself in a growing and profitable business. Mr. P. S. Rose, '09, is directing the publication of the American Thresherman.

"It will thus be seen that M. A. C. is well represented here. There are doubtless many others with whom the writer is not acquainted. Let those not mentioned speak up.

"Very truly yours,

"W. J. GEIB, '02,

"Soils Dept., U. W., Madison, Wis."

## WHAT ALUMNI THINK OF THE NEW COMMENCE- MENT PLAN.

"I think Dr. Kedzie's new idea for Commencement is an excellent one, and tho this is not '15's regular year for reunion, I shall try and be present in June. I can't seem to 'get away' from an intense interest in affairs at the College.

"G. K. FISHER, '15,

"Interlochen, Mich."

"The new arrangement for Commencement is a capital idea and will, I am sure, tend to make the Alumni reunions more successful.

"EARL P. ROBINSON, '07,

"Saginaw, Mich."

The Dairy Seminar had the pleasure of listening to a very interesting talk on "Pasteurization" by Mr. Meltzer last Wednesday evening. It was shown that pasteurization makes a desirable finished product as to flavor, consistency, and keeping qualities, and that a more uniform product can be manufactured.

## BASEBALL PROSPECTS.

With the opening of the baseball schedule less than four weeks away, considerable interest obtains now in what early season practice it is possible to hold. The battery men have been loosening up in the judging pavilion for some time and last Saturday a general call was given. The feeling is prevalent on the campus that M. A. C. ought to turn out a winning team this spring, Bibbins being the only important man in last year's team to be lost by graduation.

"Chief" Fuller, a veteran on third base, will be able to fill Bibbins' shoes acceptable, it is believed, and besides him the following regulars will be on duty: Fick, shortstop; Dean Williams, second base; Frimodig, first base; Clark or Hood, third; Thomas, center field; McWilliams, left field, and Brown, Springer, LaFever and Tomlinson of last year's twirling squad for the mound. Among the new men who have been trying out for pitcher, Hinkle, Myers, McCool and Quattlebaum seem to be the cream. A new man, Lemont, shows up well as substitute catcher and Huebel and Osborne have made bids for infield positions.

Eleven of the 18 games scheduled are to be played at home. One date, May 6th, has not as yet been filled. The team will take one good trip away from home, meeting four good teams in Western New York. The schedule is as follows:

- April 15—Olivet at East Lansing.  
 " 21—Marshall College at East Lansing.  
 " 22—Alma at East Lansing.  
 " 26—Western State Normal at East Lansing.  
 " 29—Notre Dame at South Bend.  
 May 3—Kalamazoo College at East Lansing.  
 " 5—Syracuse at East Lansing.  
 " 12—Wabash at East Lansing.  
 " 13—Wabash at East Lansing.  
 " 17—Niagara University at Niagara Falls.  
 " 18—Buffalo Univ. at Buffalo.  
 " 19—Rochester Univ. at Rochester.  
 " 20—Syracuse Univ. at Syracuse.  
 " 23—Niagara Univ. at East Lansing.  
 " 27—Univ. of Michigan at East Lansing.  
 June 1—Notre Dame at E. Lansing.  
 " 9—U. of M. at Ann Arbor.  
 " 10—U. of M. at Ann Arbor.

The annual Ero Alphan winter term dinner dance was held last Saturday night at the Lansing Women's Club House, Mrs. Peppard and Mr. and Mrs. W. C. Geagly acting as patrons. Alumni who returned for the party were: Rose Cornell, Lenna Whitlock Keith, Winifred Bell Carter, Peggie Holbrook Hartsuch, Marguerite Graham, and Eleanor Chadwick.

## NEWS AND COMMENT

Prof. Fred Killeen, assisted by Miss Lyla Edgerton and Miss Doris Rogers, will give a Faculty recital this Tuesday evening in the parlors of the Woman's Building.

Niles Hagelshaw, of Union City is, for the second time, state champion poultry grower in the Boys' and Girls' Club contests. A year ago he started out with 185 hens and five roosters, upon which he set a value of \$120. On these he has realized a net profit of \$97, and in addition has left a stock of poultry equal in value to his original capital.

The M. A. C. Varsity Club held a dancing party in the Armory last Friday night. The room was very prettily decorated in green and white with bunting, white flowers, and long festoons of smilax. The affair was strictly formal. The Lyric orchestra played the program and the patrons were Coach and Mrs. Macklin, President and Mrs. Kedzie and Dean and Mrs. Bisseeil.

A special carload of co-eds making up the class in institutional management visited Battle Creek last week where they were royally instructed and entertained at the Battle Creek Sanitarium. This was one of a number of trips taken during the term by this class as a part of the course. Prof. Edmonds and Instructors Clara Morris and Edna Garvin accompanied the girls.

Beethoven occupied the premier place in last Friday's Student Recital, though Leschitzky, several of whose pieces occupied the latter half of the program, was not much eclipsed. Special mention should be made of the two papers, "Haydn, Mozart and Beethoven," by Miss Helen Edison, and "Theodore Leschetizky," by Miss Ruth Williams, both of which added not a little to the proper understanding and better appreciation of the program.

'06.

"Glendale, Cal.,  
 "210 W. 2d St.

"You may be sure that I am still interested in M. A. C. and in the Record. I am especially interested in the alumni notes, and the first thing I look for in the Record is the '06 notes. I have been in California for the past 17 months, and business conditions have been very bad, but I am holding my own and the future is looking very bright. Business is picking up, and I believe we are to see some good times. I would not advise any of the boys to come west if they expect to make a fortune, unless they have a small fortune to begin with. I see some of the fellows occasionally, and expect to see a number of them at the meeting in Los Angeles, March 14th, which is the third annual reunion of the Association. E. KENRICK."

## HOTEL HEADQUARTERS

FOR M. A. C. PEOPLE

HOTEL STATLER  
 Detroit

800 rooms—800 baths.  
 400 rooms (with shower bath) at \$1.50 and \$2.00 a day. Club breakfasts. Grand Circus Park, between Washington Boulevard and Bagley Avenue.

## ALUMNI NOTES

"Dear Editor:

"I see by the Record it is the right thing to have M. A. C. reunions this winter but they are nil in this neck of the woods. I see my brother, J. D. Stannard, of '76, and E. H. Hunt, '77, who is spending this year down here, occasionally. This is a small number but when 'two or three gather together' in M. A. C.'s name (that must be a reunion. J. D. Stannard has a 40-acre ranch six miles north of here. I am trying to hold down 5 acres. By standing in the middle of it, I keep it from tipping up.

"Very sincerely,

"G. L. STANNARD,  
"Phoenix, Ariz."

'78.

The city of Lansing was in gala attire last Thursday evening when the new \$75,000 auditorium, a gift of W. K. Prudden, was officially turned over to the people. The new building, which is copied from the Scalla theater of Milan, Italy, is remarkable in many ways. By an octagonal construction every seat in the galleries and main floor directly faces the stage with no obstructions of any kind. It has a capacity of 2,500 seats and a thousand more chairs can be easily put in.

'79.

C. W. Gammon deals in securities at 1 Madison Ave., New York, and lives at 39 W. 39th St.

'82.

Gaylord W. Thompson is a wholesale grain merchant at Modesto, Cal.

'87.

Harkness L. Chapin (a) is in the real estate business at 408 Chamber of Commerce Bldg., Portland, Oregon. He has two boys and four girls. The oldest boy graduated from Cornell last June, and the oldest girl is a sophomore at Oregon University.

'89.

Lemuel Churchill (a) is farming at Weiser, Idaho.

'91.

William J. Breese (m) is a structural steel draftsman at Los Angeles, Cal., living at 1153 Fedora St.

'93.

Harry M. Goss (a) is assistant secretary of the Presidio Young Men's Christian Association, Presidio, Cal.

'95.

"Josh" Parish of Allen, Mich., writes that he has his satchel packed for East Lansing for June 12th, and that he is going to write the rest of his class about the reunion.

'97.

Wm. S. Howland (a) is county auditor for Ashtabula county, Jefferson, Ohio. In reminiscing he says that football put him in bed ten years.

'99.

G. N. Gould, attorney at Harbor Springs, Mich., sends the following item: "Thorn Swift, '99, is on an extended business trip to the Pacific coast, in the interest of the Ottawa Lumber Co. of Harbor Springs, Mich., of which concern he is president.

'02.

Fred C. Fox is a contractor and builder at Gaylord, Mich.

'03.

Olney J. Dean (e) has the sales agency for eastern manufacturing and engineering business; address, 19 S. LaSalle St., Chicago. Dean lives at Western Springs, Ill.

'05.

Sophie I. Southwick is teaching at Ludington, Mich.

Fred S. Dunks (a) is farming at Union City, Mich.

Bon Bennett (Mrs. Harry French) lives at 2052 College Ave., Indianapolis, Ind.

Clarence A. Stimpson (e) sends his address as Mackinaw, Mich., but for the benefit of his friends does not vouchsafe what he is doing.

'08.

Frank B. Wilson (a) is a farmer at R. F. D. 5, Phoenix Ariz. Wilson was the first member of the Student Council at M. A. C.

M. R. Allen and Miss Marie Mackee were married on Feb. 8th, 1916, at Ironton, Ohio. They are making their home at Alma, Mich., where Allen is assistant superintendent of the sugar plant of the Michigan Sugar Co. According to one of his friends, Allen has made very good since leaving M. A. C.

'09.

Born, to Mr. and Mrs. L. C. Smith of Lansing, on February 28th, a son, Clark Chase. Smith is deputy state highway commissioner.

Shirley Gardner Frazer and Lieut. W. D. Frazer left Lansing last week for Fort Barry, San Francisco, where Lieut. Frazer has been detailed.

Born, to Mr. and Mrs. B. H. Anibal (e) of Highland Park, a daughter, Eleanor Christine, on Jan. 12th. Anibal writes that she is already beginning her fight for a place at the 1919 reunion.

'10.

James G. Winsor (e) is engineer at 333 Woodbridge St. E., Detroit, Mich.

"Meadville, Pa., March 6, 1916.

"M. A. C. Record:

"Are you prepared for the shock? Am enclosing my check for \$2, and shall never hesitate so long again. I could not get along without the Record, although it could be better if '10 would come out of retirement oftener. Glad to hear from Minnie Johnson and Harry Frazer in the last issue, but, as I recall, there were more of us. I was sorry I could not meet the bunch

at Cleveland. Believe I could enjoy hearing Prof. Vedder talk on something not pertaining to 'Bridges.' Heard Saturday they expect to take Bob Bell ('05) home from the hospital this week, and we are all hoping for his complete recovery. As you know, I joined forces with the Studebaker Corporation when I finished school, and to date I have no cause to regret it. My only duty is to decorate these Pennsylvania mountains with Studebaker automobiles, and that is not so hard as it might seem. If the factories can fill the orders now on hand, I will have my yearly allotment taken care of, and April, May, and June yet to come. Saw 'Curly' Jacobs, '09, at the Cleveland automobile show, but seldom see an M. A. C. man down here in the woods. This coal, oil and gas territory is fine when one gets used to it. I would like to hear from 'Red' Hobbs. I blame him for making me go to work to pay back money I borrowed from him when we were living together in Detroit. B. F. Moulton and myself will be at the Pittsburgh show, Motor Square Garden, March 18th to 25th, and would like to see any of the fellows who happen to be in Pittsburgh at that time. Hoping to see the RECORD continue to improve as it has of late, I am,

"With best regards,

"C. C. LEMMON."

'11.

J. A. Blust (e) is teaching at Masinasin, Alberta, Canada.

'12.

Horace V. Geib (a) is taking post graduate work at the University of Wisconsin.

According to a recent clipping from the Post-Standard of Syracuse, N. Y. "S. A. Martin, manager of the Onodaga Farm Bureau, is enthusiastic over the development of Onodaga county during the past three years and is optimistic as to the future." To everyone who knew "Stan" this phrase is a good description, for he was always enthusiastic and aggressive. His address is R. F. D. 1, East Syracuse, N. Y.

F. A. Stone (e), who is with the Illinois Central R. R. Co., writes from West Point, Ky.: "I have been marooned in Kentucky for the last six months with only an occasional trip to Chicago to make me remember that there are other things to eat except soda biscuits and corn bread. The latter two seem the main products of this part of Kentucky, at least. On my last trip to Chicago I met Earl Webb. He said that he was about the only M. A. C. man left with the American Bridge Co. at Gary. That is quite unusual as at one time they had a total of eleven, including myself. S. Fred Knight, '09, has been promoted to better things with the Mead Morrison Manufacturing Co. of Chicago, and is now in Pittsburgh on a business trip. As evidence of his material success he has recently purchased one of the lat-

est model touring cars in which to enjoy his spare moments."

'13.

Richard A. Colgan, Jr. (f) is timber engineer and consulting forester at Mill Valley, Cal.

George H. Doan (e) is in the electrical engineering department of the Detroit Edison Co., and lives at 1024 Berwick Ave., Detroit, Mich.

'14.

W. L. Mason (e) is engineer in the valuation department of the Illinois Central R. R., with address 2036 Warren Ave., Chicago, Ill.

'15.

Mildred Farwell, who is teaching at Tekonsha, was back for the Ero Alphan party Saturday night.

Albert Ringold (a) is in the nursery and landscape gardening game at 940 Marquette Bldg., Chicago, Ill.

### ALUMNI LUNCHEONS.

CHICAGO.

Every Wednesday at 12:30 p. m. the M. A. C. Association of Chicago holds a luncheon at the New Morrison Hotel, Clark and Griswold Sts. Any M. A. C. men who happen to be in Chicago at this time will find some friends here and a hearty welcome.

E. E. Down (a) began work March 1st as assistant and foreman in the farm crops experiment station at the college.

B. B. Adams (a) instructor in agronomy at the Winona College of Agriculture at Winona Lake, Ind., spent last week-end at M. A. C.
