THE M. A. C. RECORD

VOL. XXII.

EAST LANSING, MICHIGAN, TUESDAY, NOVEMBER 7, 1916.

NO. 7

TWO-YEAR SHORT COURSE ENROLLS 139.

The total enrollment for the two-year short course in agriculture which began last week, was on Friday 139. Of these number 52 are taking the second year work and the authorities are gratified that such a large number returned.

The new students are of high grade, many of them having had some work in colleges before. One has spent three years at the University of Michigan and one comes from Wisconsin. Others are from military academies and a larger portion are high school graduates.

125 ALUMNI ATTEND BANQUET AT GRAND RAPIDS.

PROF. FRENCH ACTS AS TOASTMASTER.

Never before did M. A. C. teachers congregate in such numbers and with such fine cordiality as at the banquet held at the Chamber of Commerce, Grand Rapids, last Friday noon, at the occasion of the State Teachers' Meeting. A grand total of 125 sat down to the noon meal and the room was filled—filled with that M. A. C. spirit which seemed to bubble over in all directions.

Several of the Grand Rapids alumni were present to extend the glad hand of welcome to the teachers. "Chet" Spaulding, as yell master, and Prof. French, with his never-failing word and smile in the right place, aided and abetted in the good cheer. Guests from the College were Dr. F. S. Kedzie, Dr. J. L. Snyder and C. S. Langdon. The Hon. R. D. Graham of the State Board of Agriculture was also present.

The toast program was in charge of Prof. French. C. S. Langdon responded to "The Record;" Minnie Johnson Starr gave a very artistic toast on "The Practical Application of Domestic Science;" President Kedzie responded to "The Spirit of M. A. C.," and some informal remarks were made by Mr. Graham.

Others than those mentioned above at the gathering were: Chas. W. Garfield, '70; Eva D. McBain, '79; Jo-

seph E. Coulter, '82; John W. Matthews, '85; Dora Kennedy Matthews (U. of M., '87); E. P. Clarke, '83; Elmer B. Hale, '93; F. J. Bonesteel, '91; C. J. Barnum, '94; D. S. Cole, '93; Miss Dora Cole; John F. Nellist, '96; Clara Waterman Nellist, '02; R. J. Baldwin, '04; Sophia Southwick, '05; E. E. Gallup, '06; E. L. Grover, '07; Leta Hyde Keller, '09; Wilhelmina Bates Overstreet, '10; Florence L. Hall, '09; J. O. Linton, '09; Marjorie Bird Coplan, '11; Hazel Lamoreaux Lynch, '13; J. DeKoning, '11; R. S. Linton, '16; G. C. White, '11; Margaret Kedzie Perkins, '11; Herbert J. Sheldon, '14; Arthur D. Wolf, '13; A. L. Birdsall, '14; F. H. Mueller, '14; Mary Darrah Mueller, '15; Melvin A. Russell, '14; J. Pomeroy Munson and Mrs. Munson, short course '99; Paul J. Rood, '16; Mrs. Rood; William J. Atchison, '16; S. A. Boatman, '16; C. M. Loesel, '16; Glenn I. Hobbs, '16; Louis S. Wells, '16; Leo R. Stanley, '16; Anna B. Cowles, '15; Don P. Toland, '14; Keats K. Vining, '13; Mrs. Vining; E. C. Lindemann, '11; H. G. Smith, U. of M., '11; V. J. Gibbs, '11; Mrs. Gibbs; C. B. Waters, '16; W. E. McCarthy, '15; R. N. Kebler, '14; Janet Renwick, '14; Vera Hyde, '12; Madge Lamoreaux, '13; Eva Lombard Hanley, '13; Russell F. Valteau, '16; E. Burnette More, '16; Lucius D. Sears, '16; S. S. Smith, '12; M. Louise Clawson, '13; Walter A. Wood, '12; Harry G. Taft, '12; Clara G. Rogers, '14; Clara M. Waldron, '13; Lila M. Corbett; Luie H. Ball, '13; Dorothy Lewis, '16; Lydia Croninger, '16; Ruth Williams, '16; Helen Petri, '16; Amanda Eisenlohr, '16; Lenore L. Nixon, '14; Isabelle Brewer, '14; Mrs. L. J. Reed, '14; L. J. Reed, '13; J. A. Bennett, '15; Ezra Levin, '14; Roy E. Decker, '15; M. J. Paine, '14; L. S. Aseltine, '15; Karl H. Miller, '15; O. C. Cobb, '14; Theodora Hollinger, '15; Grace H. Hitchcock, '15; Elsie Johnson, '16; Pauline Coppens, '16; Elda Robb, '16; Marshall H. Shearer, '16; Lillie Thomason, '16; C. M. McCrary, '16; Ray H. Storm, '14.

COUNTY Y. M. C. A. LEADERS MEET AT COLLEGE.

MICHIGAN LEADS IN COUNTY ORGANIZATION.

M. A. C. was host last Friday and Saturday to the county Y. M. C. A. leaders of the state and others interested in the work. At the present time this work in Michigan has been developed much farther than in any other state. A total of 19 counties are organized for the work. The states coming next in number are New York, with eight, and Wisconsin, with seven.

A banquet was held Friday evening and was attended by students and members of the faculty in addition to the secretaries. C. L. Rowe, state county work man, acted as toastmaster, and responses were made as follows: Physical Training, C. F. Angell, Ionia county; County Y. M. C. A. an Important Factor in Bringing the Rural Community to Its Own, Prof. W. H. French; County Y. M. C. A. At Work, Walter Terpinning, Branch county; E. T. May, Sanilac county; J. W. Nicholson, field agent for the college; L. A. Buell, state Y. M. C. A. secretary.

County work began in Michigan 13 years ago in Hillsdale, C. L. Rowe, the present leader of the men, being the pioneer. One of the men developed by him is O. O. Stanchfield, now a worker in India, and a man who has attracted the attention of the English government to that extent that they are giving much financial support to him, and asking for more of his type.

Don. Heffley, the Y. M. C. A. secretary at M. A. C., feels that this college is peculiarly adapted to train men for this county work. And at the present time there are five or six students who are thinking very strongly of entering this field.

The organized counties in Michigan are: Oakland, Clinton, Lenawee, St. Joseph, St. Clair, Huron, Barry, Hillsdale, Branch, Allegan, Iron, Houghton, Charlevoix, Montcalm, Gratiot, Sanilac, Calhoun, Eaton and Ionia.

A straw vote taken among the students at M. A. C. last week showed Hughes to be a favorite by a considerable margin.

STATEMENTS WORTH STUDYING.

The following statements, made by various alumni secretaries at the recent national conference, are valuable in showing the trend of alumni thought and activity at the educational institutions represented.

Intercollegiate athletics do more to keep the alumni in touch with the University than any other thing. There are several different elements in the alumni body. Every policy advocated by the alumni does not make for good athletics.—*McLaughlin, of Brown University.*

We have cut off intercollegiate baseball because it was such a hard thing to handle. Last year we pushed intramural baseball and had four times as many students playing and drew larger crowds. It is very easy to exaggerate the value of athletics as an advertising medium.—*Johnson, of Minnesota.*

For the alumni association that does not have dues the first person needed is the grave digger. Our local associations often invite in to their meeting the principal of the high school where they are located. The clubs also get in touch with the brightest high school men and get them coming our way. We always plan to have strong clubs where legislators reside and this may not be unrelated to the fact that we get over three million dollars a year from the legislature. We always aim to see that our local meetings are well written up in the newspapers. Intramural athletics have gone forward at Illinois. We have had to cut down the acreage of the campus proper to take care of gridirons and diamonds.—*Scott, University of Illinois.*

At Yale we have recently changed completely our system of athletic control. It has been taken from the students and given to a corporate body composed of faculty and alumni. Our coaches are not selected primarily for their technical coaching ability but for their character and personality. Our team is built up on rational grounds. The major part of our money goes for intramural athletics. We have had great success with our alumni univer-

sity day. This occurs on Washington's birthday, which is not a holiday with us, and at that time we get the alumni to come back and visit the institution in its working clothes. In the forenoon they attend the regular classes. In the afternoon a general meeting is held at which time some one phase of university activities is presented by members of the faculty. We have taken up this so that athletics will not over-awe all the other activities in the minds of the alumni.—*Emberce, Yale.*

Students in Columbia College, Columbia University, are organized and have a Board of Health which has done most excellent work in keeping up the health of the students. We have a university medical officer, who is in his office from 9 'till 6 every day, at which time students are privileged to consult him free of charge. Intramural football has been a great success at Columbia. We don't believe intercollegiate athletics has any positive value as an advertising medium. We have not had it, until recently, for many years, and in the last five years Columbia College has doubled its enrollment.—*Tyson, Columbia.*

Our alumni have become much interested in the housing conditions at the University. So much so, in fact, that they have contributed very largely toward the erection of dormitories. We believe in the dormitory system. Freshmen and seniors are the ones we try to take care of in dormitories. We also have a "University Day" at Cornell when we invite the alumni to return to their alma mater as a teaching institution. It seems to me that we alumni secretaries ought to devise some way of interesting the alumni in the intellectual activities of our institutions more than they now are.—*Hitchcock, of Cornell.*

M. A. C. POULTRY DEPARTMENT MAKES RECORDS.

EGGS SCORE 99 OUT OF POSSIBLE 100.

The Poultry department, under the direction of Prof. C. H. Burgess, is making some records which command the attention of poultry specialists all over the country. Prof. Burgess has eleven barred rock hens which have an average of 221 eggs for the past year. This sets the American record, and the International record is but little better than this, being 222 eggs average for 10 hens. He has a group of 60 with a record of 191 eggs each and his flock of barred rocks, consisting of 153 hens, has a record of 177. This latter is the best record ever made for a flock, even the Leghorns cannot touch it.

In his feeding operations Prof. Burgess advocates a simple ration consisting of corn, wheat, oats, bran, buttermilk and cabbage. Not only is this

efficient, as proved by the above figures, but the important point is that it contains nothing but what the ordinary farmer raises right on the farm.

That quantity alone is not what the department is striving for is evident from the recent competition at the North Carolina Agricultural College. At this contest there were entries from 48 American and Canadian colleges, and eggs from M. A. C. took second place, scoring 99 out of a possible 100, being nosed out by Purdue with a score of 99½.

M. A. C. AT STATE TEACHERS' MEETING.

For the first time in the history of the State Teachers' Association there was a section for teachers of agriculture at the meeting in Grand Rapids last week. L. R. Servis, '13, of Monroe was chairman of this section, and E. J. Smith, '15, of Blissfield, secretary. The following program was given: "School Credit for Home Project Work in Agriculture," R. N. Kehler, '14, of Hastings, and K. K. Vining, '12, Fremont; "Shall We Teach Agriculture in the High Schools of Michigan from the Vocational or the Educational Standpoint," E. E. Gallup, '06, superintendent at Monroe; "Relation of the Michigan Agricultural College to the High Schools," President F. S. Kedzie.

At the meeting of the American School Peace League, Michigan branch, Charles McKenny, '81, President of the Michigan State Normal College, Ypsilanti, gave an address on "Military Training in High Schools." E. C. Lindemann, '11, State Club Leader, addressed the Commissioners section on "Some Results of Boys' and Girls' Club Work in Michigan," and he also talked before the Rural School section on, "The Rural Teacher as a Leader in Club Work."

CONCERNING MEMORIAL TO GUY L. STEWART, '95, AND OTHER THINGS.

Editor of the M. A. C. Record:

Gently let me break the news, the \$1 is enclosed. Being thoughtful I have been waiting till after the first rush of remittances and accompanying news with idea of having more space, and running a better chance of seeing my name in print. From news items of my class such precautions have been unnecessary, either remittances are slow or news is scarce.

Down here in Southern Arkansas one M. A. C. man has a splendid monument erected to his memory. Guy L. Stewart, class of '95, was killed in a railroad accident some years ago. A granite shaft on the streets of Camden bears the following inscription: "His

life work to aid progress and promote prosperity. Erected to the Memory of Guy L. Stewart by his many friends."

An occasional M. A. C. man passes through. L. Carrier of Washington, D. C., was here last summer on work dealing with forage crops. Frequently I hear of W. S. Fields, '13, at our State University and Caldwell, '15, wears the title of Assistant State Veterinarian.

As county agent I am enjoying life and acquiring knowledge. Thriving on cooking of a finished product of M. A. C. domestic science course.

Feeling relieved, and hoping you are the same, I am, till next year.

ROBERT A. BROWN, '14.

N. B.—All hail the Domestic Science Course.

FARM GIRLS MAKE MONEY IN CANNING CLUBS.

The following report to President Kedzie from Anna B. Cowles, '15, Assistant State Club Leader, gives some idea as to the value of the work which this branch of the Extension division is doing. And to anyone who can read between the lines—and figures—it becomes apparent that the financial aspect is only one phase of the question.

"Because of your interest in the boys' and girls' club work I am taking this opportunity of sending you some of the results of the girls' club work in Osceola County. The county roundup of the boys' and girls' clubs of Osceola County was held at Reed City, October 28th. We obtained some very interesting information in regard to the canning and potato clubs. Forty-five boys completed their potato project, and each exhibited a peck of his potatoes. Eighteen girls exhibited some of their canned fruit and vegetable. The following are the figures obtained from their reports:

Number of girls in Canning Club	18
Number of quarts of fruit and vegetables canned.....	1355.5
Total value canned products..\$	544.70
Total cost canned products...	101.23
Total profit on canned products	443.47

"This was one of the best canning exhibits that I have seen in the state."

B. F. Kindig, assistant to the state entomologist of Indiana, spent some time on the campus last week. Kindig was a special student at M. A. C. in 1907-08 and 1910-11.

In the "From State to State" page of the *Independent* for October 9 there appears a fine bit of unsolicited advertising for M. A. C. in a notice of a school of instruction held at the college last summer for boys' and girls' club leaders. It was mentioned that this was the first school of its kind ever conducted in the United States.

ALUMNUS WRITES OF CONDITIONS IN PHILIPPINES.

It may be that Americans here are broader minded than the average people at home or it may be that we are just more conceited. The average American here on returning from leave is very much disgusted with the narrow viewpoint of the people at home. It may be that the fault lies with us but it is very difficult to understand what the folks at home must think of the United States in her relations with the rest of the world. It is the common opinion here that unless the United States gets over her conceited self-satisfied attitude that sooner or later we will have our national pride humbled in such a manner that we will certainly wish that we had realized and prepared for our duties as a great nation. It may be that the wealth and prosperity of the country has been based too much on national resources and has come so easily that we as a nation are fat and flabby.

The passage of the Jones bill in its present form is not regarded as anything especially serious here. The veto power of the governor general is strengthened and the army will remain to back up American prestige. It gives more elective offices to the Filipinos but does not alter affairs materially. Of course it will make a difference in the civil service, and the so-called Filipinization of the service will continue more rapidly. They have lost so many Americans of ability now that, in the opinions of many Americans, several of the bureaus have decreased greatly in efficiency. Of course things will go on the same to all outward appearances but where the changes will show the quickest will be in the treatment given the laboring classes, most of whom do not know they have any rights and are very easily imposed on. And the folks at home do not appreciate the first principles of how to squeeze the underdog, if pretty good hearsay evidence is creditable.

Of course, the whole question remains as to whether it is best for the U. S. to remain. Sometimes I doubt very much the wisdom of our attempting to remain. But when we do go we ought not to be such hypocrites as to try to make ourselves believe that the giving of independence to these people is for their own good. In my opinion it is merely giving them a change of rulers. Sometimes I doubt very much the inherent right of every people to select that form of government which they themselves seem to think they want.

Our school work starts off very nicely. We have had about five hundred enrolled and at present we have an attendance of about four hundred. We refused admission to many applicants because of lack of facilities. Our

boys seem to give satisfaction. There is a call at the office today for six more boys to go to Mindinao where we already have nearly one hundred boys. The work here has given experience of a class that I feel will be of help when I go home. I believe that this type of school gives a training for real farmers that meets an actual demand.

Mrs. Tibbs and I had planned on staying here till Oct. 1917, and then attempting to farm when we go home. Lately we have come to the conclusion that everything considered, it would be advisable to return so that we arrive in the states in June. That will give us an opportunity to get ourselves adjusted and be located when schools open in Sept. Just what work I will attempt to enter is uncertain and will depend largely on circumstances.

Nearly five years over here has caused me to forget a lot of the technical material that I learned at M. A. C. While a great deal of the work here has been different, yet there is much of the work which is similar, that in many respects I am in touch with a lot of the work at home. We receive a good supply of the Department of Agriculture bulletins, many of the state publications, the Experiment Station Record and the Journal of Agricultural Research. While I may not make an exhaustive study of all of this material I am not as far behind the times as it would be possible for me to get. According to our present plans, as we consider them at present, I would endeavor to attend the M. A. C. summer session next year unless it seemed more advisable to brush up on field work under states conditions.

J. H. TIBBS.

Munoz, Nueva Ecija, P. I.

(Mr. Tibbs graduated from M. A. C. in 1912 and Mrs. Tibbs, Hannah Williamson, in 1911. Both are teaching in the public school.)

BOUQUETS.

"I regard the Record as the best paper of its class I have ever seen at carrying out its particular plan of letting the old boys know what is going on in connection with the College."

"The Record costs the least of any of my entertainments and yet I enjoy it the most."
SUBSCRIBER.

Notwithstanding the fact that M. A. C. hens laid 17,193 eggs this last year there has been no appreciable flurry in the egg market, even in the vicinity of East Lansing.

M. A. C. AND U. OF S. DAK. BATTLE TIE GAME, 3-3.

HUEBEL'S TOE SAVES GAME FOR
FARMERS.

In the closing minutes of play at Vermillion, S. Dakota, Saturday, Huebel drop-kicked a goal from the thirty-yard line and thus saved the Michigan Aggies from defeat by the University of South Dakota. The final score was 3 to 3, each side getting a drop kick.

Though the Aggies didn't cross the Coyotes' goal line officially they did in reality, in the 4th quarter, Huebel taking the ball over from the one-yard line through center. But Referee Eise-man, who blew his whistle after the ball had crossed the line, allowed the Dakotans to shove Huebel back and the ball lacked six inches of a touch-down.

M. A. C.'s offense was weak, Jacks and Butler being the only consistent gainers, and the latter played only the last five minutes of the game. The shifting of Blacklock from tackle to full proved to be a failure. He hasn't had time to learn the signals and get a good idea of the game from the back-field position.

The South Dakota team gained consistently on end runs and forward passes. The ball was passed from 40 to 50 yards at a time and in the 2nd quarter the ball was taken to M. A. C.'s 15-yard line where the Farmers held for three downs. McKinnon then dropped back and kicked an easy goal for the Coyotes.

ALMA WINS FROM SCRUBS 27--6.

WESTERN NORMAL SNOWS UNDER
ALL-FRESH 77-3.

Last Saturday was not an M. A. C. day in the strict sense of the word. Coach Helmer's Alma aggregation looked the best it has this season and romped over the M. A. C. scrubs to the tune of 27 to 6. It looked as if the Aggies would come home scoreless, but near the end of the game Jewett grabbed an Alma pass on the 50-yard line and ran the length of the field for a touchdown. McCool and Warner were also bright lights for M. A. C.

The Aggie All-Fresh was completely

snowed under by Kalamazoo Normal, the final score being 77 to 3. Only once did M. A. C. get a look in and this time they advanced to Kalamazoo's 25-yard line where O'Connor booted the pigskin for a field goal. Of the freshmen Bassett at left end, Barnard at left half and O'Connor at quarter showed strong.

NEWS AND COMMENT

There seems to be a certain line west of which M. A. C. football teams ought not to venture. Two years ago Nebraska trimmed us thoroughly and the game with South Dakota Saturday was expected to be a walk-away.

Prof. Pettit has received two double apples, perfect examples of bud fusion. This state is common in some of the smaller fruits but is quite rare with apples. The tree upon which these were grown is said to produce a considerable number like them.

Call for basket ball practice went out last week and a likely bunch of candidates reported. Notwithstanding the fact that M. A. C. will be operating under the three-year rule the varsity crew will be strong, as only Ricker of last year's team graduated.

Some of the members of the College faculty are 'on their toes,' so to speak. At least this would seem to follow from the news that a faculty dancing club has been organized. The club meets once a week and the members are learning the waltz and two-step as well as the newer dancing steps.

M. A. C. students gave the football squad a rousing send-off last Thursday morning when they left the campus to entrain for Vermillion, S. Dak. The squad stopped off at Sioux City, Iowa, and indulged in light practice. The party numbered 24, composed of football players, managers and coaches.

This week the military department plans to finish up the outdoor drill work for the fall term with two regimental parades and an inspection. Next week the freshmen will drill in the armory and the upper classmen will take up regular class work. It is also planned this week to close up the company indoor target practice.

Because of contagious disease at Ypsilanti the game which was to be played at East Lansing this week Saturday between the Normal College eleven and M. A. C. All-Fresh has been called off. Hence there will be no football at M. A. C. until the Notre Dame game unless the All-Fresh and Varsity mix it up to keep the latter in training.

In her toast at the M. A. C. Teachers' Banquet at Grand Rapids last Friday, Minnie Johnson Starr, '10, recommended the establishment of a course in training for motherhood at

are all of the New Models of the

MULTIPLEX

HAMMOND TYPEWRITER

FEATURES:

Instantly Interchangeable Type

365 varieties; over 50 different languages. No bad alignment. No imperfect impressions of type. As stroke is automatic.

The Regular Multiplex

Is the standard for executives, authors, clergymen, physicians, instructors and students.

Aluminum Multiplex

The lightest and most portable of high-grade typewriters, weighing about 11½ pounds.

Mathematical Multiplex

Carrying about 150 different characters, for the writing of all algebraic equations and mathematical problems—and all other kinds of work.

Reversible Multiplex

When the writing is reversed from English.—Hebrew, Arabic, Turkish, Persian, etc. immediately adapted to English also.

Multiplex Copy-Riter

Has variable spacing of letters and many styles of type. "Your Copy is your Proof." As is the copy so will be the style of printing.

Wide Carriage Multiplex's

Writing lines from regular up to 20 inches long. All Hammonds however accommodate any width of paper.

Service

To business institutions exceeds and excels any other one class of its usage.

Beauty of Work

Is a pre-eminent feature in all of its models.

Every Model

Is fitted to accommodate our many styles of type and our great variety of languages. Two sets on a machine at once. "Just Turn The Knob" and presto, there is one or the other. Other changes on the moment.

CATALOGUES GLADLY SENT FOR THE ASKING.
NEW AND SECOND-HAND, AT ALL PRICES.

New York City, N. Y., U.S.A.

the College. For laboratory material she volunteered her small boy and suggested that there might be other alumni present who would do the same. Mrs. Starr was instrumental in starting a night course in training along this line near her home in Grand Rapids last year, and she reports a most enthusiastic class, many of the members of which were college girls.

Two high pressure water pumps designed to pump 1,700 feet of water per minute have been purchased by the state board of agriculture to provide fire protection for the buildings at the M. A. C. The pumps answer the requirements set down by the fire underwriters which recently made an inspection of the needs of the M. A. C. for adequate fire protection. A reorganization of the fire department will probably be made in the near future and other steps taken to prevent another big loss by fire similar to the one which destroyed the engineering buildings last spring with a loss of \$240,000.

Dr. Coons of the Botany department, C. W. Waid of the Horticulture department, George Brown and W. F. Raven of the Animal Husbandry department, and R. G. Hoopingarver and J. W. Weston of the Extension Division took part in the program of the State Potato Show held at Escanaba last week.

H. Muncie, specialist in bean diseases for the Botany department, was an expert witness for the United States Government at Grand Rapids, Oct. 21-28, in a suit against the Oceana Canning Co. for canning beans affected with anthracnose. The Government won the suit on the point that the disease caused the decomposition of the beans.

ALUMNI NOTES

'96.

R. L. Clute, who has been professor of horticulture in the Porto Rico College of Agriculture for some months is now back in Washington, D. C., living at the Y. M. C. A.

'07.

B. B. Clise, Jr., is with Wilson & Co., dealers in beef and provisions at Richmond, Va.

'09.

Walter Postiff, Jr., in a recent letter to Mr. Eustace, mentions having four acres of late cabbage from which, up to the first of November he had sold \$1,870 worth and believes there is enough more to make the total amount \$2,500. He is now located at Plymouth, Michigan, having bought a farm there last spring and is specializing in vegetable crops. He mentions that he markets all his crops by Republic truck in Detroit and some other prices are carrots \$1.25 a bushel, beets \$1.50, turnips \$1.50, cauliflower \$2.50.

R. C. Rudzinski, "Rud," is running a mint farm at Decatur, Mich. Mrs. Rudzinski will be remembered as Lucile Carney, with the same class.

'10.

Tom Hooper, Jr., is chief engineer of the Consumers Power Co., Battle Creek. Mrs. Hooper will be remembered as Agnes Crumb, at one time assistant librarian at M. A. C.

J. W. Chapin, Jr., is with Swift & Co., handling their fertilizers in the western half of the three lower tiers of counties in Michigan. He is living in Coldwater.

"I suggest if you want prompt action on renewals cut subscribers off short and you will hear from it. Am sticking close to the old farm these days, but have the best of intention to get up to M. A. C. some time this fall." O. C. Lawrence, Hudson.

'11.

O. H. Cleveland, Jr., is with the Western Light and Power Co., at Boulder, Colo. He writes: "Went to the U. of C. D. U game last Saturday and tried to kid myself into thinking it was the U. of M.-M. A. C. game. Unlike a popular brand of cigarettes, it failed to satisfy."

R. S. Russell is in the engineering department of the Willys-Overland Co. at Toledo, having charge of the work on the Knight motors. He lives at 2801 Monroe St. "Bob" spent a day on the campus last week.

Walter C. Maliskey, familiarly known as "Count" in his college days, who with his father has been building the East Lansing school, had both ankles and some bones in his heels broken last Friday when a cable of an elevator at the new building broke and dropped him 20 feet. He is now in the Sparrow Hospital, Lansing.

'12.

E. C. Sanford, Jr., is now with the U. S. Forest Service at Challis, Idaho.

Vera Hyde, Jr., is teaching domestic science this year at Ionia, Mich., living at 322 R St.

A. G. Bovay, Jr., is county agricultural agent in Jackson county, Minnesota, with headquarters at Lakefield.

'13.

John H. Dennis, Jr., who re-entered with '16 and graduated with '16 at U. of M., is now with the State Highway department. He has just completed a big road survey in Berrien County.

H. K. Wright, Jr., '15 v., who went with the H. K. Mulford Co. of Philadelphia last spring, is now on the road for this company. He wrote recently from Junction City, Kansas.

"I am looking forward to Nov. 18th and have followed your suggestion of putting a big red ring around the date. It's a long way from here to East Lansing, but I'll be there to see the boys put one over again as they did in the days of Exelby Hill & Co." Geo.

F. Bateson, 628 Oxford Ave., Youngstown, Ohio.

'14.

"Josh" Billings, e. is with the Goodrich Rubber Co., traveling in the western half of Michigan. He is living at the Grand Rapids Y. M. C. A.

Martin VanBuren McGill and Lela McAllister were married Thursday, October 26, in Loraine, Ohio. They are at home at the Industrial School, Lansing, where Mr. McGill has charge of the greenhouse and grounds.

'15.

F. J. Yushe, e. "Sun." is now touring the East, testing out an experimental car. He is making the Alleghenys, White Mountains and Berkshire Hills and intends to go up into Maine if the weather permits.

Herman C. Zierleyn, e. who is with the Chicago Bridge & Iron Works, is now at the Chicago office of this company in the Old Colony Bldg.

R. E. Olin, e. is still in the tool designing department of the Reo Motor Car Co., though his address has been changed to 1006 Oakland Ave.

'16.

Henry A. Jessop, a. is specializing in religious education at the Young Men's Christian Association College in Chicago this year, with the view of going into county Y. M. C. A. work in Michigan.

Garcia Ingalls, with, who spent two years at Munising in Wyman's School of the Woods, is now assistant paying teller in Hackley National Bank at Muskegon. Ingalls did a large part of the cartoon work for the 1915 Wolverine.

"My address has been changed from Battery A. Michigan F. A., Grayling, Mich., to F. A. Regt. 11th Prov. Div., El Paso, Texas. Heard with sorrow the news of the M. A. C. U. of M. game. The M. A. C. men, numbering about twenty, banqueted two U. of M. men the Saturday night of the game. All had an enjoyable evening. Sheffield, Colonel at M. A. C., now a Lieutenant, Chaddock, "Fitz," and Hutton, both football men, were present. Paul B. Barber, '12, located at Las Cruces, N. Mex., was there with his jokes and humor. Lots of hot sun and sand storms here." Earl Spencer.

Abe L. Alderman, e. is now drafting at the Reo works in Lansing, living at his home in East Lansing.

Chas. Dunphy, with '16 v. is now a veterinarian in the U. S. Army at El Paso, Texas. He writes that there is but one other veterinarian in the regiment with 800 horses and mules to look after.

L. N. Reed, e. is repairman with the Detroit United Lines, living at 254 Mt. Elliot Ave., Detroit.

Amanda Eisenlohn, h. is taking Barbara Van Heulen's ('10) place as teacher of science in the South Grand Rapids high school.

MADAME, That Indispensable Tailored Suit or Coat for Fall:

Knowing how little really good tailoring there is to be had, we have always been careful in choosing our tailored garments.

Just in this regard, we wish you would inspect the Suits and Coats we offer this fall.

When looking at them, note, for example, that the lining of every garment is built *separately* and then fitted into its garment, with *interlining at chest and back*—preserving the smart appearance of the garment as long as it is worn.

You will see here a larger choice than you might expect to find in any other store.
