## EXTENSION WORK UNDER NEW CONTROL.

The continued growth of the extension division since its inauguration some three years ago and its recent almost mushroomlike expansion necessary to meet the burdens placed upon it by war work in production and conservation has emphasized the unwieldiness of the former governing body made up of the members of all branches of the college engaged in extension work, and has called forth a definite plan of control and administration. Hereafter all extension work will be under the control of the Extension Council with an executive extension committee of five members. As recommended by the committee and approved by the State Board the following control policy will be carried out:

The Extension Council to have the following membership:

President of College,  
Director of Extension,  
Dean of Agriculture,  
Dean of Home Economics,  
Secretary of the College, and

Heads of all college departments in which extension work is undertaken.

The first five officers named in the Extension Council shall compose the executive extension committee.

All items of expenditure in the extension budget shall have the approval of the Extension Council.

In the appointment of extension specialists, the following method shall be followed:

The head of the department in which the work is to be done shall select the candidate subject to the approval of the dean of his division and the extension director. The latter shall transmit request for appointment to the president.

Extension specialists shall be responsible to the head of the department for the subject matter taught and to the extension director through the head of the department, for the administration of work in the field.

In the establishment or revision of projects, the following method shall be followed: The head of the department concerned shall prepare project plan, or revise old project according to form established by the federal office. The project shall then be submitted to the extension director, who shall secure the approval of the dean

of the division concerned before bringing it before the Extension Council.

All extension workers whose activities extend into the fields of two or more departments, as, for example, Boys and Girls club work and the Director of Markets, shall, insofar as the nature of the project indicates, be responsible to the head of each department concerned.

## CLUB BOARD COSTS KEPT DOWN.

In face of the constant and rapid increase in the cost of living, board at the college clubs has not shown a proportionate advance, in fact weekly board costs for the past term are not greatly in excess of those of a year or so ago.

The holding down of board prices is attributed to judicious buying, more careful planning of meals, and the use of substitutes from which no one suffers and few are the wiser. Weekly averages for the past term follow:

Club A, \$3.45; Club B, \$3.71; Club C (Women's Bldg.), \$3.10; Club D, \$3.80; Club E, \$3.91; Club F (College Residence), \$2.89; Club G, \$4.29; Club H (Senior House) \$3.50.

## TWO PRE SEASON GAMES HARDEN BASKETEERS.

The two pre-season basketball contests with Detroit teams during the holidays in which M. A. C. was beaten 13 to 31 by the Y. M. O. and 22 to 32 by the University of Detroit served their purpose in bringing the new material much of which is green down to business and developing team play. Both opponents have strong teams this year and were able to show M. A. C. men real basketball.

The team showed vast improvement in the second game on the 29th with Detroit U. and were able to improve their score of the previous evening.

An attempt is being made to get a game Friday night with a Camp Custer team.

The men making the Detroit trip were: Murray, Barr, Brigham, Coleman, forwards; Higbey, center; Kurtz, Garrett, Archer and Doscher, guards.

'96.

J. E. W. Tracy is a seedman for the U. S. Department of Agriculture at Washington, D. C. His home address is 2927 Macomb St.

## COLLEGE HALL COMMITTEE MEETING.

The College Hall committee wish to let the alumni know that they are on the job and have thought well to print here the minutes of their first meeting.

The first meeting of the Alumni Advisory Committee on the rebuilding of College Hall was held in the office of Highway Commissioner Frank Rogers at Lansing at 10:30 a. m., December, 31, 1917.

All the committee with the exception of ex officio member Prudden were present, being Chairman Haigh, '74, Frank Rogers, '83, A. C. Anderson, '06, and C. W. McKibbin, '11. Mr. Sexton of the office of College Architect Bowd met with the committee and presented his sketch plans for the rebuilding of College Hall.

The committee named Mr. McKibbin as secretary of the body.

Because of the southern trip contemplated by Chairman Haigh and his probable absence from the state during the next few months Mr. Rogers was named as vice chairman to act in the absence of Mr. Haigh.

The sketch plans for the rebuilding of College Hall were then considered in detail and thoroughly discussed, both as to the division of each floor into rooms and the uses to which each room would be put.

On motion of Professor Anderson the sketch plans with the changes suggested by the committee were approved and the architect requested to prepare detailed plans and an estimate of the cost of the proposed work in time that they may, after discussion with the building committee of the State Board be presented for the consideration of the State Board of Agriculture at its next (January) meeting.

On motion of Mr. Rogers Professor Anderson and Mr. McKibbin were appointed to represent the Alumni Committee before the Building Committee of the Board and at the State Board meeting if the State Board desire it.

On motion of Mr. Rogers the committee expressed the very earnest hope that the State Board of Agriculture will be able to expedite the work and get it started in the very near future.

Adjournment subject to the call of the vice chairman.

# THE M. A. C. RECORD

Published every Friday during the College Year by the Michigan Agricultural College Association.

Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

C. W. McKIBBIN, '11, Managing Editor.

Memberships may be paid for by P. O. Money Order, Draft, or Personal Check.

MAKE THEM PAYABLE TO THE M. A. C. ASSOCIATION.

FRIDAY JANUARY 4, 1918.

## COLLEGE HALL PLANS.

It was with unusual pleasure that the members of the alumni committee viewed the sketch plans for the rearrangement of the interior of College Hall to meet the needs of the M. A. C. Union. The possibilities of the old building as a home for the Union far surpassed the expectations of every one of the committee and while all had thought and talked of the use of the structure as a Union building all expressed surprise at the ease with which the building could be remodeled for Union purposes, and were enthusiastic over the completeness of the Union home appointments when made over in accordance with the plans. Every feature of the old building fits into the new purpose with a nicety seldom encountered in such makeovers, in fact it lends itself so well to the Union building requirements that no considerable alterations of the interior are going to be necessary.

Briefly the plans thus far for the rebuilding are these: For the basement that has long been used as a storage place, a large dining room and a smaller private dining room with kitchens, store rooms, etc., have been planned. On the first floor the chapel will remain just as it is now, and the north half will be opened into a large lobby with fire place, lounging benches, etc., and will be made to serve strictly the Union idea. A writing room and small check room will also be contained on the first floor. The second story is planned entirely for offices for alumni and student organizations with the exception of a good sized rest room for ladies. All of the third floor will be opened into a ball room. The exterior of the building will of course be left as it is and throughout the interior the old style doors and window frames, moldings, etc., will undoubtedly be left or restored where necessary.

Insofar as the alumni committee are concerned the fundamental idea in the rebuilding work will be to keep intact the old College Hall of former days

with its traditions and its memories and to preserve those features of structure and workmanship which have indelibly stamped themselves in the minds of so many worshipping alumni, and at the same time by means of modern interior decoration, furnishings and appointments make it pleasant and attractive. It should by all means be made an inviting home, one that alumni and students will enjoy entering.

As soon as final plans have been completed and approved they will be printed and dwelt upon at some length in the Record.

## MATTHEW T. FOOTE WITH '74.

The death of Matthew T. Foote, with '74, occurred December 29 when he was struck by a Pere Marquette switch engine at Saginaw. Mr. Foote entered M. A. C. in 1867 and attended until '69 and then reentered for two years in '72 and '73. He had worked in Lansing for a number of years and was employed until a year ago by the Capital National Bank where he was soon to return. He is survived by a son, Ralph Foote, of Flint, and a daughter, Grace Foote, of San Jose, California.

## WILLIAM A. MCNANNEY WITH '13.

William Arthur McNanney, with '13, died at his home in Iron Mountain, Michigan, December 4. He had been in ill health for several years, death occurring rather suddenly, however, while he was spending a few days following Thanksgiving at his home where he had returned from Canton, Ohio. He was 27 years old.

Following graduation in the Iron Mountain high school he spent three years at M. A. C. with the class of '13 and was well known.

Richard Andres, the infant son of Mr. and Mrs. Paul G. Andres, with '15, died at their home in East Lansing, Dec. 28. Andres is in charge of the telegraphy course now being given and had just moved his family to East Lansing from Bessemer, Mich.

## DECEMBER ACTIONS OF THE STATE BOARD.

The December meeting of the State Board of Agriculture was held in the president's office on the 19th with President Kedzie, Messrs. Woodman, Daugherty, Graham, Beaumont and Wallace present.

Minutes of the previous meeting were approved.

Professor Anderson was authorized to employ H. E. Denison as special instructor in dairying from December 18, 1917, to March 1, 1918.

Dr. Hibbard was authorized to attend a meeting of the Botanical Society of America at Pittsburg during the holidays with allowance for transportation expenses.

The request of Robert Shepard of Mio and Frank Dolton of Bath for the purchase of small amounts of timber from college lands were referred to the secretary with power to act.

The following committee of alumni appointed by W. K. Prudden, president of the alumni association, to act in an advisory capacity with the committee on buildings and college property in connection with the rebuilding of College Hall was approved. The committee: Chairman, Henry Haigh; second member, Prof. A. C. Anderson; third member, Highway Commissioner Frank Rogers; fourth member, Association Secretary, C. W. McKibbin; ex officio member, W. K. Prudden.

A report in relation to new plans and policies of the extension department recommended by the Experiment Station Council for adoption by the Board of Agriculture was approved.

The matter of improved fire protection for the college was referred to the president and secretary for report.

The secretary was authorized to offer the following described lands to the Consumers Power Company at \$10 per acre: SE  $\frac{1}{4}$  of the NW  $\frac{1}{4}$  and the NE  $\frac{1}{4}$  of the SW  $\frac{1}{4}$  of Sec. 33, Tp. 26, N. R. 5 E.

The request of Professor Chittenden for permission for himself and Professor Sanford to attend the annual meeting of the Society of American Foresters at Pittsburg about December 28 with allowance for transportation was granted.

The president presented the resignation of research assistant, Charles W. Brown, to take effect January 1, 1918. The resignation of Mr. Brown, whose long and faithful services to the institution are very deeply appreciated, was accepted with regrets.

A communication from R. S. Hudson, farm superintendent, in relation to the sale of percheron horses and the purchase of additional stock was referred to the president and secretary for report at the next meeting.

A communication from Professor Musselman with reference to a two weeks course in gas engines and tractors with a request for an appropriation to cover expenses was presented and Mr. Musselman was requested to take the matter up with the manufacturers of tractors with a view to their furnishing free machines and men to teach their operation for a period of two weeks, the college to provide the students for this course without fee.

The request of Professor Plant for permission for himself and Mr. Emmons to attend the meeting of the Mathematical Association of America at Chicago on December 27 and 28, and the American Mathematical Society on December 28 and 29 with allowance for transportation expenses was approved.

The following recommendation of the committee of deans was adopted: viz., that the winter term close on Friday, March 15; that registration

day for the spring term be Tuesday, March 26; and that college close on Friday, May 24, commencement day to be Monday, May 27.

The following recommendations of the faculty were adopted:

Whereas, the United States government, which has for over fifty years materially assisted in the support of this institution, has been forced into a state of war with a dangerous foe, and

Whereas, it is the natural consequence that this institution should and does consider its first duty that of whole-hearted support of our federal government in its great undertaking, and

Whereas, there is a spirit of patriotic unrest pervading the younger members of the teaching force, arising from a feeling on their part that they are not sufficiently identified with the great governmental enterprises, and

Whereas, it is the firm conviction of this faculty that all the resources of the institution should be coordinated and made of greater service to the government in this emergency,

Therefore, We request that the State Board of Agriculture empower the president, to appoint a committee of the faculty to work with him and the heads of the respective divisions, in developing the following lines of co-operative emergency work for the college, viz.:

First, Organization of educational extension service for high schools, etc.

Second, Organization of teaching and research force for farmers' institutes and two-day schools.

Third, Organization of teaching and research force for coordination of college and county agent work.

Fourth, Organization of teaching and research force for service to extension specialists.

Fifth, Organization of exchange, intra and inter-departmentally, of members of teaching force.

Sixth, Organization of faculty for technical advice upon agricultural and industrial problems.

W. GILTNER,  
G. W. BISSELL,  
G. H. COONS.

The president was authorized to confer the following degrees recommended by the faculty: Ford J. Twaits, Bachelor of Science; Clinton Beem Olney, Doctor of Veterinary Medicine.

The title of Mr. C. W. Chapman was made Professor of Physics instead of Acting Professor to date from Jan. 1, 1918.

The action of the president in appointing Paul G. Andres, instructor in telegraphy, beginning Dec. 3, and Mr. N. E. Grover as assistant instructor, was approved.

The recommendation of the president for necessary funds to be appropriated for fitting up the East Lansing high school for the instruction of teachers in agriculture and home

economics as facilities in carrying out the Smith-Hughes bill was adopted.

The matter of organizing work in cooperative marketing between the U. S. Department of Agriculture and the college was referred to the president with power to act.

The position occupied by Mr. McKibbin in relation to his college duties shall be known as Alumni Recorder.

The following resignations were accepted: E. G. Amos, county agent for Manistiquette county, effective December 31; Karl Knopf, county agent for Cheboygan county, December 31; E. C. Mandenberg, extension specialist in forestry, December 31; Philip M. Hodgkins, half-time assistant in forestry, December 4; E. O. Edson, instructor in poultry husbandry, December 1; P. B. Wiltburger, instructor in entomology, January 1; R. H. Ellsworth, specialist in markets, Jan. 1.

Extension Director Baldwin's recommendation for the appointment of Clark Mason county agent for Wexford, beginning January 1, and A. C. Brown for Cheboygan county, beginning January 1, the salaries of these men to be paid from the Lever fund, the department of agriculture appropriation and county funds, was approved. Mr. Baldwin's request for the transfer of David Woodman from Alpena county to Cass county was also approved.

Mr. Robey of the extension division of the farm mechanics department was authorized to attend a meeting of the American Society of Agricultural Engineers at Chicago, December 27 to 29, with allowance of transportation expenses.

Mr. Daugherty was authorized to sign the vouchers. The expense accounts of the Board members were approved.

Adjournment.

## HOW M. A. C. IS HELPING MASSACHUSETTS.

In Stockbridge Hall at Massachusetts Agricultural College, a large crowd was assembling to hear an address; seated on the rostrum were President Butterfield, Professor Hurd and Dr. L. H. Bailey. At this point the writer should have stood up and said, "Permit me a few words, not planned for the occasion; before you are three eminent men all born and reared in Michigan and graduated from Michigan Agricultural College. See what Michigan can do for agriculture in Massachusetts—and I am the proudest one here because they were all my boys."

Some months ago when W. D. Hurd, '99, dean of extension work for Massachusetts Agricultural College wanted the right sort of woman to help, he naturally looked to see what M. A. C. had in stock. He secured Mabel C. Rogers, '10, who last week accompanied by F. F. Rogers, '83, of your State Highway Commission, and his wife,

called at our house in Amherst. By means of this call, I learned that Miss Rogers had invaded Holyoke College, 900 students, and Smith College, 2,000, and in each was teaching a small class perhaps as a starter. By what means the approach was made I did not learn but Mabel felt sure that the presidents of these colleges were keeping close watch of all her manoeuvres.

W. J. BEAL.

## MEN IN SERVICE.

The college is sending you the RECORD gratis in return for your name and address. Keep us posted of your location and send in person items for publication that the RECORD may let your friends know what you are doing.

## THE SPIRIT OF '17.

Oh, never mind the sigh when the sun rides into the sky,

We'll swing along to the lilt of a song whether we live or die;

Oh, whether we live or die is the smallest care in our life

When we follow Jer-rum, the chuckle-voiced drum, and Rootle tee Tootle, the fife.

Chorus:

Oh, chuckling old Jer-rum can make a dead pulse thrum

When the rumbling glee comes tumbling forth out of Jer-rum, the drum.

Oh, Rootle tee Tootle, the fife, is both a home and a wife,

So we'll follow Jer-rum, the chuckle-voiced drum, and Rootle tee Tootle, the fife.

Oh, far away down the track we'll trundle our little pack,

So we'll drive away care and cheerfully swear as we trundle our old knapsack;

We're going there and back with a gun, and a bomb, and a knife,

Oh' we'll follow Jer-rum, the chuckle-voiced drum, and Rootle tee Tootle, the fife.

Oh, we're on our way to the Rhine to hear old Willie whine

When we knock down his fence as a just recompense for his damned Verboten sign;

We'll flay old Willie's rind before we are through the strife

When we follow Jer-rum, the chuckle-voiced drum, and Rootle tee Tootle, the fife.

Oh, how do you like this grin? It's on its way to Berlin;

We'll sell Willie's crown to Barnum's clown as we go marching in;

Oh, wouldn't it be a sin to miss the chance of our life

To follow Jer-rum, the chuckle-voiced drum, and Rootle tee Tootle, the fife.

—A. J. Patch, '17.

## WITH THE COLORS

Nov. 29, 1917.

Dear Cliff:

Am returning the blank to you, but it contains very meager information so far as I am concerned. Begins to look like our ship is to be used as a preliminary training for gun crews for merchant and transports. Were 84 men transferred from here last Saturday to be trained as seamen gunners and were as many more brought aboard. These will be on here for a month and will then be taken off and more brought aboard.

New men stay on here long enough not to call the deck a floor, messhall a dining room, and not to say upstairs and downstairs, a call a port a window and above all not to wear pajamas or bathrobes. Also get some good training under the gun chiefs we have here. These men certainly know their business and can train a crew in short order.

Before they go away from here will do a lot of firing with sub calibre 30-30's and fire a few rounds of 3-inch ammunition. It sure is great when they start to let these loose and makes us all want to be up and at them. We are all anxiously awaiting the day when the order to go and have our guns fixed is received. That will mean that we are soon going across.

Took Fred Hobbs off the ship this morning to the hospital with acute bronchitis. The climate here is bad on the fellows and I never saw so many colds in my life. Expect there will be some serious cases of pneumonia before winter is over. Is down to about 20 above and this effects one more than below zero weather at home.

Man was lost over board from the Baltimore Tuesday night and he never had a chance in the racing tide and freezing water. Nearly the entire surface of the harbor was lighted with searchlights and were a good many boats out. Kept it up for over two hours and then gave it up.

Hope this is the information that you want and the answers are all O. K.   
 DICK SULLIVAN, '17.

### FORESTERS IN FRANCE.

Dear Editor:

A copy of the RECORD, dated Oct. 5, 1917, has recently reached us, and it surely was a welcome sight to every M. A. C. man in camp. In fact some of the men from other schools showed a great amount of interest in the first RECORD to reach us in France.

Following your suggestions on keeping an army record of all M. A. C. men who serve in this war, I am sending you the following list of those who are now enlisted with the 10th Engineers (Forestry).

Dorr Skeels, captain, Co. E, '15.

E. C. Sanford, 1st Lieut., Co. B, '12.

G. D. Cook, Sgt. 1st class, Co. A, '13.  
A. E. Klasell, private, Co. C, '15.  
H. N. Putnam, private, Co. B, '16.  
C. H. Johnson, private, Co. B, '16.  
R. W. Billings, private, Co. A, '18.  
M. F. Gilchrist, private, Co. C, '18.

Unfortunately your request for this information did not reach us until after the entire regiment had been \* \* \* \* \* (deleted by censor) all over France, and as there are no regimental records at this camp the above list was made up from memory. If there are any more to be added to the list, I'll endeavor to send them in later.

Because of censorship rules now in force it is impossible to write anything of our movement or work over here. It is probably allowable, however to say that the regiment is composed of foresters, loggers and sawmill operators, recruited by the government for the purpose of getting out timber for war use, in such a manner as to conserve the already depleted timber resources of France. We were mobilized in Washington, D. C., and in less than two months were on our way fully equipped for both military and logging purposes.

The trip across was uneventful, and although we were aboard ship for 22 days we encountered neither rough weather nor German submarines. Since disembarking we have traveled considerably and have been located in various "rest camps," but probably the most novel experience has been that of riding in French troop trains. These trains are composed for the most part of cattle cars, each car with the inscription, 40 Hommes, 8 Chevaux. Can you imagine the comfort of riding for 48 hours in a tiny toylike box car, with 40 other men? No harm done, however.

We have been in France several weeks now, in fact we are already at work on the logging. The French forests are all the result of man's handiwork and have been under scientific management for many years, and as a result we foresters are given a wonderful opportunity to study French forestry systems. We are unfortunate (?) at present in being located far from the firing line, but of course we may be changed at any time and ordered into the thick of it. At any rate, that is what most of the men are hoping for.

Personally I trust and hope that M. A. C. will have a large representation in the volunteer army of this war, and I know that all those who are in will give a good account of themselves.

Incidentally please change my address to that given below when mailing my next RECORD though I'm afraid you will have to trust me for the \$1, or take French francs in place of it.

## Mills Dry Goods Co.

Buy what you need---don't stint---  
don't be wasteful.

It sounds paradoxical, but is not.

This store has gone ahead as usual and restocked for the coming season with the necessities needful to its patrons. Prices on various things have risen, on others we have, by foresight, been able to purchase and keep the prices normal. Assortments are better than ever and this year we know you will find that the service of this store has risen another notch—**FORWARD.**

May we enjoy the pleasure of  
serving you this season?
