THE M. A. C. RECORD

VOL. XXIII.

EAST LANSING, MICHIGAN, FRIDAY JUNE 1, 1918.

NO. 33

LIEUT. COMMANDER C. B. LUNDY '01 SUPERINTENDENT HARVARD U. NAVAL SCHOOL.

Lieutenant Commander C. B. Lundy with '01, N. N. V., formerly on the U. S. S. Pennsylvania, has just been transferred from sea duty to become superintendent of the Harvard Naval Officers Training School, at Cambridge, Mass. It is understood that it is the first time that an American naval officer has held the position of superintendent of the Harvard school. Certainly it is an unusual honor for an M. A. C. man. We let Lieutenant Lundy tell the story.

"A month ago I was transferred from sea duty to this station to take charge of the training of officers for the navy. This school was established just after the declaration of war, and has turned out 181 officers, which combined with the special officers that Annapolis has been graduating, has helped to make up the deficiency of officers in the fleet. I will graduate 150 here next month and am at present making arrangements with Harvard University so that I can graduate at least 200 officers every two months. Practically all the men of the school are college men and the present average age is twenty-three years. They are chosen for this school by a Selection Board and are a very exceptional group of men."

SCOTT LILLY, '07, PARTNER IN NEW ENGINEERING FIRM.

The announcement has just been received of the formation of a partnership of Scott B. Lilly, formerly assistant plant engineer of the Merchant Shipbuilding Co. and the Chester Shipbuilding Co. at Chester, Pa., with Carrol Beale, formerly chief designer for both of these companies. The new firm is organized for the purpose of conducting a general engineering business, specializing in the design and construction of shipyard plants, ship terminals, industrial and housing developments. The firm is to be known as Beale & Lilly, Engineers. They will be located at 1011 Chestnut St., Philadelphia.

SEND A FRESHMAN NEXT FALL.

DEAN GEORGE L. WHITE GOES TO CORNELL.

Miss Georgia L. White, dean of the division of Home Economics, has resigned her position at M. A. C. to become advisor of women at Cornell University, a position corresponding to that of dean of women. Miss White will leave the college in September to take up her new work at Cornell.

Dean White came to M. A. C. as dean of home economics in 1914 and during the time of her administration has brought about many changes and a vast improvement in the methods of the home economics division. She has made a great many friends while at M. A. C., being especially well liked and very popular among the girl students.

The call to Cornell besides offering larger fields and responsibilities contained a particular appeal to Miss White in that it came from her Alma Mater. She received both her undergraduate degree and her doctor's degree from that institution. Out Michigan, her sphere of influence here being state wide. Much of her time during the past year has been spent in war emergency work for Michigan. She is one of the three women of the Michigan Women's War Board appointed by the governor, is one of the vice presidents of the Women's Committee of the Council of National Defense for Michigan, chairman of the food administration section of that body and Home Economics Director for Michigan under the Federal Food Administration.

Her successor at M. A. C. has not been selected.

TWO LITERARY SOCIETIES UNITE.

A combination of the Ionian and Eunomian literary societies, in which the Ionians merged their organization into the Eunomian society, took place with a formal initiation of the former Sunday, May 19. The society rooms formerly held by the Ionians in Wells Hall have been given up and the society has moved into the Eunomian house. So far as known, this is the first time that two distinct societies have combined under one name. The object is to strengthen the ranks so

as to be able to tide over anticipated "lean years" in college attendance. The decreasing numbers of men and students present a difficult situation for literary societies with society houses.

The seventeen active members of the Ionians were initiated into the Eunomian society, and it is announced that alumni of the former Ionians who wish to, will become members of the Eunomians with the active members.

SUMMER SCHOOL PROGRAM COMPLETE.

A complete announcement of the Summer School has just been issued which gives in detail the program for the college summer session. The outstanding feature of the Summer School announcement is the number of special war courses and activities in connection with the preparation of teachers for emergency work. Registration for the summer courses is on June 24, class work beginning in the morning of June 25. The session ends August 2.

Prof. Ryder, director of the summer session, says that the inquiries that have come in thus far regarding M. A. C.'s Summer School indicate that the attendance will be the largest that we have ever had.

FARM SITUATION ANALYZED BY LOUIS A. BREGGER, '88.

The Bangor Advance has recently printed a serial story of the war, a considerable section of which is from the pen of Louis A. Bregger, '88.

The part written by Mr. Bregger tells in a very graphic way of the farmers' problems during the war and his relation to the war's successful prosecution. As a climax in the novel he chronicles the activities of America in legislation and popular thought and the methods used in solving the nation's difficulties which finally carry us beyond the crisis and bring the war to a successful close. His treatment of the farm situation in 1918 is very instructive. Portions of the story were read before the Bangor and Arlington farmers' clubs. The RECORD regrets lack of space to print parts of Mr. Bregger's work.

THE M. A. C. RECORD

Published every Friday during the College Year by the Michigan Agricultural College Association.

Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

MEMBERSHIP IN THE M. A. C. ASSOCIATION WHICH INCLUDES SUBSCRIPTION TO THE RECORD, \$2.00 PER YEAR.

Memberships may be paid for by P. O. Money Order, Draft, or Personal Check.

MAKE THEM PAYABLE TO THE M. A. C. ASSOCIATION.

FRIDAY JUNE 1, 1918.

THE COMMENCEMENT ADDRESS.

It is rare that M. A. C. has the opportunity to hear such a scholarly discourse and such a beautiful word picture of the philosophy of life as the commencement audience was favored with by Dr. Bailey, '82. After it Judge Collingwood, '85, was heard to remark "Of the one hundred of us who are laborers, five get to be artisans but only one attains the artist and Dr. Bailey is clearly M. A. C.'s artist." The comment was so apt that the Judge was immediately qualified as one of the artisans.

Rarely has any graduating class been given such a parting message. The charge direct from the heart of M. A. C.'s foremost agriculturalist and philosopher, given without notes and extemporaneously was a veritable gem. We envy the class of 1918 that they above others should be given such a parting gift, such a speeding message from the college by one of her own graduates, who has developed such a beautiful philosophy of life.

* * *

FURNISHING COLLEGE HALL.

Alumni returning for commencement were gratified to see the progress being made on the restoration of College Hall and much interest was manifested in the plans for its rebuilding as a home for the Union. An early issue of the RECORD will give the detail floor plans for the building and a complete description of the proposed alterations.

Everyone viewing the status of the work agreed that the campaign for the raising of funds to properly furnish the building should be started at once, and one of the most important actions of the meeting of the association was the launching of the furnishing fund campaign through clearing the way for action for the present College Hall committee. Professor Anderson, '06, has been appointed by Chairman Haigh as head of the sub-committee on the canvass for subscrip-

tions and W. O. Hedrick, '91, has been made treasurer of the funds. The campaign plans are now being laid out.

It is expected that the building may be completed for use by the first of the year and it is hoped that the amount to amply furnish the old hall from basement to rafters will be available by the first of October.

It would be deplorable indeed to have old College Hall stand before us restored and lack for an instant the furnishing it deserves and that we owe it.

M. A. C.'s GRAND OLD MAN.

Dr. Beal's annual pilgrimage to the campus of his framing, on commencement affords every M. A. C. resident the keenest pleasure and from the doctor's interest in us we know the enjoyment is mutual. This year he made the trip alone from Amherst, Mass. In his eighty-fifth year, as alert and keen and spry as at sixty, he brought the college some new ideas.

As usual he gave the campus a thorough inspection and gave many helpful hints to its caretakers. His chief criticism and one that would scarcely gain credence should it come from any other than Dr. Beal was that in many parts of the campus the trees were becoming too thick and should be thinned.

We know that time and distance from the campus will never dim Dr. Beal's affection for M. A. C.—a love born of creation and deepened in long associations, and we hope that for many commencement seasons in the future we may welcome M. A. C.'s Grand Old Man.

* * *

TRAINING SOLDIERS.

As we receive the National Army men into our midst and round the turn from a school of reserve officers training to a soldiers proving ground, we find that the Wisconsin soldiers have brought us something. Their day is measured by bugle calls, a mark of soldiering more intense than M. A. C. has ever had. It is difficult to become accustomed to their violation of the old tradition of no smoking on the campus. Yet this is one of the soldier's joys, his privilege and one that we would not deprive him of—one that we would not want one of our own soldier sons deprived of in a similar circumstance.

But more than all other things, the Wisconsin soldier is emphasizing upon the minds of M. A. C. people, our former rather hazy realization, that M. A. C. is training soldiers—has always been training soldiers—that she is not so very far back of the front line trenches and that she has a direct and a very important connection with them.

* * *

ADVERTISING.

The resolution with respect to the college's advertising her facilities, passed by the M. A. C. Association at the annual meeting was timely and of

merit. Any institution with something to sell that the people want and need, spends money to advertise because as a business proposition it pays. M. A. C. has something that Michigan people want and need. The college is furnishing a commodity that the country needs. If we are going to sell it we must advertise it.

The passing of the resolution urging the college to advertise increases our obligation as alumni to advertise M. A. C. in personal contact with prospective students and assist in keeping the college filled.

Send a freshman next fall.

* * *

THE UNION PICNIC.

Again the college family had an opportunity to get together in a social way at the Union picnic on the college picnic grounds the Friday evening before Commencement week. The Union arranged the picnic as a farewell to the seniors, and intend that it shall be added to the meager program of annual all-college social affairs. A picnic on the campus about that time in the spring term is very enjoyable and we sincerely hope that it will become an annual event. Certainly this first attempt at a college picnic was sufficiently successful to warrant its being repeated. The cementing and unifying powers of these all-M. A. C. social gatherings promoted by the Union cannot be underestimated.

* * *

THE RECORDS DURING SUMMER.

It is the intention of the editor to publish the RECORD once a month during the summer, chiefly for the benefit of the men in service, to keep them in touch with the college and themselves. There was no issue last week because of commencement and the attending alumni activities. The next issues will come forth about July 1, August 1 and September 1, we hope.

CLIMATE STUDY BY D. A. SEELEY '98 IN STATE BOARD REPORT.

The annual report of the State Board of Agriculture for the year 1917 has recently come from the press and is now being distributed. Besides reports from each college department and bulletins of the college experiment station the report contains a very interesting article entitled, "The Climate of Michigan and its Relation to Agriculture," by Dewey A. Seeley, '98, who is in charge of the East Lansing weather bureau. The work is Seeley's thesis for the degree of Master of Science which was granted him last commencement time. The thesis is divided into three parts, the first of which treats of climate in general and the factors controlling climate; the second, the climate of Michigan with summaries of meteorological records, and part three, the relation of the climate to agriculture in the state. This chapter is treated from

the angle of the crop requirements and how they are met by temperature, precipitation, cloudiness, wind and humidity. The report also contains the annual report of the state society of agriculture.

M. A. C. SENIORS IN HORTICULTURE HONOR DR. BAILEY.

The Senior students in Horticulture or at least that portion of the class that was able to be present at the graduating exercises to hear Dean Bailey's address, gathered at the Grill Room of the Downey House for a banquet to honor the greatest horticulturist of the present day and a former professor of horticulture at M. A. C. The presence of Hon. Charles W. Garfield and Mr. James Satterlee, also alumni and former teachers of horticulture at M. A. C., combined to make the affair an unusual privilege for the graduates in horticulture. During the banquet, which was informal in every way, Dr. Bailey and Mr. Garfield talked at length of the early days at M. A. C. and of their experiences along horticultural lines. It was a unique coincidence that Mr. Garfield, who graced one end of the table with Dr. Bailey at the opposite end, should have been the one who was responsible for inducing Dr. Bailey to enter M. A. C. as a student. Mr. Garfield read a poem which was delivered by Dr. Bailey before the State Pomological society in 1873 when he was a lad of fifteen years.

Dr. Bailey, in a very informal and pleasing manner, told of his travels through China and of the work that he is doing at the present time; also of that which he hopes to accomplish in the near future.

The banquet was terminated with short inspiring addresses by Dr. Bailey and Mr. Garfield. The members of the Senior class feel that this unexpected privilege of meeting and hearing such illustrious and successful men in horticulture was a treat that they will carry with them as a happy remembrance of the termination of their college work.

MICHIGAN WINNER SECOND TIME.

In the last out of town game of the season M. A. C. lost to Michigan by a score of 5 to 2. DeMond allowed but five hits in the entire game and M. A. C. was able to knock out more hits than the Wolverines, but lost through costly errors. The score by innings:

	1	2	3	4	5	6	7	8	9
M. A. C.	0	0	0	0	0	0	1	0	1
Michigan	0	0	3	0	0	0	2		5

The baseball season as a whole has been a very successful one, considering the problems that confronted Director Brewer at its beginning. We have won seven games and lost five.

In connection, the little object lesson in optimism and persistence from the director, is worthy of mention.

M. A. C. WINNER IN INTER-COLLEGIATE TRACK MEET.

The Michigan Intercollegiate track

meet which was held on college field May 18 was easily won by M. A. C. track men. Only six colleges were entered. The scores were: M. A. C. 48½; Western Normal, 38¼; M. A. C. All Fresh, 30 1/3; Kalamazoo College, 14½; Michigan State Normal, 14; Detroit Junior College, 12; Hillsdale College, 7 7/12.

DR. LIBERTY HYDE BAILEY, '82.

DR. BAILEY'S MESSAGE TO THE GRADUATING CLASS.

The following is that part of Dr. Bailey's commencement address which was given directly to the graduating class. Inasmuch as they came right from the heart, extemporaneously, without notes, the remarks reported below may not be word for word as Dr. Bailey gave them but approximate the spoken sentences as closely as he was able to reconstruct them afterward.

My Young Friends of the Graduating Class:

Thirty-six years ago, I stood in this college as you stand today—I stood at the threshold of life. Therefore may I speak to you as an older brother.

From green fields and deep woods and blossoming orchards I had come into this college, a college then just turning into its manhood—into its twenty-first year. Yet very old it

seemed to me, and very perfect were its ideas. All my life have I taken these ideas with me, not as one wears one's clothing but as one is unconscious of one's blood and bone. Blessed were those years.

To this college I came full of the feeling of the mystery, and divinity of life. The world was wonderful. My four years under able and devoted teachers deepened and broadened this feeling. These teachers gave the meaning. Every lesson in a book, every statement by a teacher, every animal and plant, every reaction in a laboratory, was not only a fact—it was a magic.

Now the years have come and gone. The mysteries are mysteries still and magic is abroad on the earth. No mystery have I solved, no magic have I analyzed; but they have assembled themselves into my life as a vast com-

forting unity and on them I base a philosophy. They are worth while to me.

You have had greater privileges than I. You have dug deeper, you have gone farther; you have more facts and greater treasure; therefore, have you also greater responsibility. You will do better. Yet facts do not make life. Facts alone have never won a victory on the field of battle; they have never elevated any man above himself; they have never unchained a soul.

One who liveth for facts alone liveth for the present. The night cometh, and there is no day. I beseech you to find the sentiment and the feeling of life and carry it with you. Lose ye not faith in the earth, faith in your fellows, faith in the destiny of created things.

I adjure you to add to the usual moralities one other: Add the faith of the trust in the goodness of the world. A sour, dejected, apprehensive habit of life is verily a greater sin than some of the so-called moral lapses. It is more subtle in its suggestions, more contagious, more impressed on family and friends, farther spread into unknown places. It affects more people. As you live, so will you finish.

Sweet is this 23rd day of the May. It is a kindly season. Take it with you all your lives—the hope of the fields, the balm of the winds, the confidence of the ground, the joy of life. Do not be afraid to live.

As nature is not one month but a sum of all the months, so is life not one month or one experience. Add your May to your June, your June to your July, your July to your August. When the winter cometh, it will contain the sum of life.

Make for yourselves a sweet philosophy of life; yet let it be strong enough to carry you over. The spirit of May is a kindly spirit, yet it bath its thunders and its lightnings and its great winds. Be ye stout and strong and yet be ye trustful.

Now, therefore go! Go ye forth into the May; fear ye not December.

ALUMNI LUNCHEON LARGE- LY ATTENDED

College Hall Furnishing Campaign
Launched at Annual Meeting of
the M. A. C. Association.

The annual commencement alumni luncheon and meeting of the M. A. C. Association was held Thursday noon in the dining room of the Woman's building. Three hundred ten alumni, faculty and friends of M. A. C. sat down to the splendid luncheon prepared by Club C and served by junior college girls. Nearly twenty-five more attended than preparations had been made for, so that an overflow crowd participated in a buffet style luncheon in the parlors of the Woman's build-

ing and were served by ladies of the home economics and home economics extension departments.

President Kedzie called on Rev. McCune, '01, for the invocation. Music was furnished during the luncheon by an orchestra led by Mr. Abel, and Mary Allen, '09, sang several solos between courses. The meal was an entirely wheatless one and the printed menus included receipts for the wheatless bread and angel food cake prepared by the home economics department. There was also at each place a mimeographed sheet intended to show alumni and friends of M. A. C. that the College is in the war. It contained brief statements of the war work which each college department is accomplishing.

Following the dinner Henry Haigh, '74, took charge of affairs in the absence of President Prudden, '78, whose duties as coal administrator had called him elsewhere. Chairman Haigh spiced the meeting with his ready wit. The diners adjourned to the parlors of the building, where the annual meeting of the M. A. C. Association was called to order. President Kedzie gave the alumni welcome and greetings from the college and commented upon the large number who had returned for commencement. He said that it had made its impression upon the student body. He remarked of the work that the college was doing and said that in such times as these there must be many changes in the curriculum of an institution such as M. A. C., and that it is the will of the college administration that M. A. C.'s curriculum shall fit the times. That the changes which are being made and will be made in the future are those that in their opinion will be for the best.

Dr. Bailey, '82, as the guest of honor at the meeting, expressed his pleasure at returning to his alma mater. The college, he said, is the oldest land grant institution in the United States and yet is always new, since through the foresight of its directors it is ways being made over to fit new and changing conditions. He said that there were two outstanding lessons which M. A. C. had taught him and which seemed to be embodied in the spirit of the college: First, be sure of the things you know; second, then go and use them for the world and for the benefit of others. He added that after leaving M. A. C. he had always had the feeling of a missionary.

Dr. Beal, whose annual commencement sojourn to M. A. C. is looked forward to each year by his many college friends and admirers, was also an honored guest of the occasion.

When Dr. Beal was called upon he arose and after prolonged applause remarked: "I stand before you the fiery and eloquent Dr. Beal." He told of the early days at M. A. C. and how when he had first come to teach botany in 1870 he had held, as he expressed it, "not only the chair of that

science but a whole settee." Dr. Beal prepared a history of his class at the University of Michigan and brought up the desirability of having some member of each of the older classes that have graduated from M. A. C. prepare a history of their members that would be printed and made available for distribution. In closing Dr. Beal brought out the fact that many M. A. C. alumni and even those directly connected with the institution do not appreciate the war work that the college departments are doing and the efforts that all are making to serve the nation in a greater capacity. After commenting upon the wonderful growth of the college he closed with the remark "From opposition the college has grown to its present great size."

Prof. W. O. Hedrick, '91, then brought before the Association the principal business of the meeting and told of the M. A. C. Union and the restoration of College Hall as its home. He recalled the pledge that the alumni organization had made that after the building was completed the alumni would stand responsible for its proper furnishing. He closed his remarks with the motion that the present alumni advisory committee on the rebuilding of College Hall, composed of Haigh, '74, Rogers, '83, Anderson, '06, and McKibbin, '11, be authorized to extend and continue their duties as the College Hall committee and take charge of the campaign for the raising of funds to furnish and equip the building as a home for the Union, and further that they be authorized to call on others to assist in the campaign. This motion was carried. J. D. Towar, '85, remarked that his class had some funds "which had never been spent, by the class at any rate," and that he would see that this was turned in to the College Hall furnishing fund. He further suggested that similar funds might now be held by other classes which would gladly turn them in to this project.

Chas. W. Garfield, '70, then read the report of the resolutions committee and moved that the resolutions be adopted and recorded "as the mind and heart of the M. A. C. Association." The resolutions are printed in another column.

The nominations committee, consisting of A. C. Anderson, '06, C. S. Langdon, '11, James Troop, '78, Mary Allen, '09, and A. N. Bateman, '02, presented its report which was acted upon with a unanimous electing vote. The officers for the coming year are, president, W. K. Prudden, '78; vice president, Ellis W. Ranney, '00; secretary, C. W. McKibbin, '11; treasurer, H. H. Musselman, '08. Members of the executive committee at large are A. C. MacKinnon, with '95; Anna Cowles, '15; Alexander MacVittie, '11.

Mary Allen, '09, sang a solo and then led in singing of Alma Mater, which brought to a close a very successful and enjoyable meeting.

COMMENCEMENT AND REUNIONS.

Four weeks earlier than the usual commencement, with a greatly depleted graduating class and in the midst of strenuous war times, this year's commencement was again unusual and brought a great surprise in the numbers of alumni who returned for the reunions. Considerably over two hundred registered at the alumni headquarters in the new gymnasium, attended the exercises, and read the commencement slogan, "Send Us a Freshman Next Fall."

Informal Alumni Supper.

Alumni activities started with the informal supper Wednesday night in the basement of the People's Church in East Lansing, served by the Misses Smith, formerly of the Wildwood. One hundred ten attended the informal get-together and meeting of the M. A. C. Association, presided over by President Prudden, '78. W. O. Hedrick, '91, gave a brief report on the M. A. C. Union, which the Association sponsored and brought into being. A description of the plans for the remodeling of College Hall as a home for the Union was given by A. C. Anderson, '06. Nominations and resolution committees were appointed and the meeting adjourned with songs led by Mary Allen, '09.

Gymnasium Dedication.

Wednesday evening, a thousand M. A. C. enthusiasts, students, faculty, alumni including many former athletes, and friends from Lansing and East Lansing gathered to inspect the new gymnasium and witness its formal dedication. Former athletes sat in a special section reserved for them. The keys of the building were presented by Hon. Robert D. Graham of the State Board and were accepted with short speeches by President Kedzie and Director Brewer.

Rex Wilcox, '18, president of the student council, spoke the felicitations of the student body and was followed by former athletes, E. W. Ranney, '00, and W. K. Prudden, '78, who told of M. A. C. athletes and athletics during their time in college. An address on physical preparedness was given by Major Rolph Duff of the governor's staff. An informal reception and an M. A. C. Union dance followed the program.

Commencement.

Commencement for the class of 1918 was, we venture to say, the most unusual graduation exercises in the history of the college. Of the senior class of 143, half the number of last year's graduating class, less than a hundred sat in cap and gown before the platform. Numerous vacant chairs in the senior section marked the absence of men answering the nation's call for liberators of a world and gone to fight for diplomas in Uncle

Sam's college of war. It was the first commencement to be held in the new college auditorium in the gymnasium. But more unusual than all of these was the commencement address by Dr. Liberty Hyde Bailey, '82, one of M. A. C.'s own graduates and probably her greatest agriculturalist and philosopher.

At ten o'clock Thursday morning, gathering in front of Dr. Bessey's residence and preceded by the band and followed by the faculty, the senior class marched across the drill ground to the gymnasium. The shortness of the line of caps and gowns recalled classes of eight and nine years back.

The program follows:

(a) Andantino (Lenare); (b) Canonetta (d'Ambrosio) Matinee Musical Quintet.

Invocation, Rev. N. A. McCune, '01.

(a) Lovely Spring (Coenen); (b) The Bells (Denza) Solo Soprano and Chorus, Mrs. Esther Phillips-Toy, and M. A. C. Girls' Glee Club, Miss Louise Freyhofer, Director.

Address, "What is Democracy," Dr. Liberty H. Bailey, Class of 1882, Ithaca, N. Y.

(a) In the Arbor (Didier); (b) Peasants' Dance (German) Matinee Musical Quintet.

Conferring of Degrees, by President Kedzie.

Benediction.

It is deeply regretted that the RECORD's limited space will not permit of printing more of Dr. Bailey's address. His message to the class and selected paragraphs from his discourse are being printed in other columns.

Reunions.

To the class of '78 celebrating their fortieth anniversary C. C. Georgeson, director of the Alaska Agricultural Experiment Station at Sitka, Alaska, sent the following telegram to his classmates in reunion on the campus: Sitka, Alaska.

To the Class of '78:

Warmest greetings. Sorry I am not with you. The snows of forty winters, twenty of them in Alaska, have not chilled my affection for my class and for my Alma Mater. My pride in both grows year by year. Come to Alaska for your vacations. Scenery, hunting and fishing unsurpassed. C. C. Georgeson.

Several similar greetings were sent other classes from members unable to attend reunions.

The classes of '06, '07, and '08 celebrated their reunion with a supper Thursday evening in the People's Church. Those attending were: Earl P. Robinson, '07; Earle Towne, '07; R. S. Hudson, '07; Geo. A. Brown, '07; Walter Warden, '07; A. J. Carpenter, '07; Josephine M. Carpenter, '08; Philip J. Baker, '08; Mrs. Philip J. Baker, Mrs. Agnes Hunt Cade, C. Marshall Cade, '07; Zoe Northrup, '06;

Mabel Mosher, '08; Mrs. Anne Musselman, Harry H. H. Musselman, '08; George H. M. Vannel, '08; Myrta Severance Barden, '09; F. M. Barden, '08; W. W. Hitchcock, '07; E. L. Grover, '07; A. C. Anderson, '06.

A dozen or more of the '16 class celebrating their first reunion had supper together in the College Cafe.

Alumni attending the class reunions are given in the lists of those registering by classes and printed elsewhere in this number.

Cap Night.

A pleasing feature of the commencement week programs of the past two years has been their establishment before the close of college so that alumni and others coming for commencement may see the college in full swing and take part in the student term end customs, particularly "cap night."

The usual procession headed by the band, or rather what is left of it, started from Williams Hall about dusk Thursday evening, gathering into its column the alumni contingent at the library and the seniors at the women's building. With a few less fire works (these are war times) but with as much noise as usual, the parade moved to the "hollow." Here was the usual fire of course, but not built this year for the purpose of consuming freshman lids, for on this cap night a big box beside the fire received the little brown caps and will convey them to the Belgian Relief organization for a useful purpose.

Cap Night speakers were N. L. Reed, '19, who acted as master of ceremonies, Clarence E. Holmes, '93, President DeMond of the graduating class, and R. B. Huxtable, next year's senior president.

Olney, Clinton Beem; *Olney, Jesse Francis.

ADVANCED DEGREES.

Makemson, Walter Kenneth, M. S.; Wright, Ivan, M. S.; Wheeting, Lawrence Clifford, M. S.

REPORT OF THE COMMITTEE ON RESOLUTIONS.

Submitted to The M. A. C. Association at the Annual Meeting May 23.

Ladies and Gentlemen:

Your committee charged with the responsibility of presenting a statement to be acted upon at this anniversary, beg to submit the following:

In voicing the dominant note of this anniversary gathering unquestionably all of us can unite in saying that it is not simply patriotism but service,—the type of service which fosters the idea of universality in the world.

We are now passing through the birth pains of this ideal but living in

Senior Class Officers

R. J. DeMond,
President.

Gladys A. Harker,
Vice-President.

W. M. Coulter,
Treasurer.

Merle Chubb,
Secretary.

the hope, the prayer, the expectancy that the lines of agony will be effaced in the fruition of succeeding epochs.

As we return to this wonderful campus we are more deeply impressed than ever by its beauty and each recurring reunion adds to the love of it which was born in our delightful, under-graduate captivity. We are grateful for the preservation of the trees with marked individuality, and the groups of trees, which in their development, do not entirely lose their reminiscent value.

We have a joyful pride in the completion of the new gymnasium, which is a physical manifestation of the recognition of the value of a balanced training for the responsibilities of a life of service.

We are proud of the persistent endeavors of the little group of members of this association through whose activities, the governing board of this college, was impressed with the great value to the institution of preserving, in some useful capacity, the first college building in America erected in the interest of agriculture and the mechanic arts; and we desire to express to the Board of Agriculture our warmest gratitude for its generous appreciation of our contention in providing so fully for the rehabilitation of the structure and the preservation of its strength and rugged beauty, which have impressed every student enjoying the privileges of life in this campus for over sixty years.

As an expression of our recognition of this cordial co-operation of the Board of Agriculture, we renew our pledge to render our share of material assistance in the proper equipment of the building for the appropriate service to which it will be dedicated.

We desire to express loyalty to the promoters of the College Union which has for its purpose the co-ordination of under graduate life with the helpful life of our association in the maintenance of college spirit and oneness of effort to utilize, conserve and increase all possible co-operative elements in the aim to make our college home of the highest possible service to the members of its family and the State.

We desire with reverence, affection and patriotic devotion to voice our sense of pride in the honor roll of a thousand names of M. A. C. men who have pledged their service and their lives in the cause of world democracy which our country has espoused, and we who cannot serve in the trenches, in the air, on the sea and under the sea, pledge the best that is in us, guided by a spirit of self sacrifice, in supporting and comforting them and caring for their loved ones.

We rejoice in the spirit of our college which has risen to the rapidly developing needs of our country in equipping men for efficient service in this war and in opening its facilities for this patriotic purpose without regard to State lines, and having the

single purpose in view to do our bit in winning quickly and successfully this war against the autocracy which refuses to recognize the brotherhood of man.

SUPPLEMENTARY RESOLUTION.

Resolved, As the sense of this Association that in these times, when so much is bound up in the equipment, energies, and efficiency of the girls and boys who are now receiving their school training and preparing for the solution of problems of greater moment, than have been known in any epoch on the world's history. *That the College should be unremitting in its mode of advertising the facilities of the college to prepare men and women for their obligations and so fill our ranks to the limit of our capacity.*

AGGRESSIVE ADVERTISING IN THIS EMERGENCY IS A LEGITIMATE WAR MEASURE.

Respectfully submitted,
Chas. W. Garfield, '70.
Bess Frazer, '11.
Dewey A. Seeley, '98.
N. A. McCune, '01.
John Matthews, '85.
Committee on Resolutions.

SEND A FRESHMAN NEXT FALL.

SELECTED PARAGRAPHS FROM DR. BAILEY'S COMMENCEMENT ADDRESS 'WHAT IS DEMOCRACY?'

"Democracy is unhindered of tradition. It looks to the past for lessons, yet is always ready to break with the past. It never grows old.

"On the planet we live. From the earth we come; to the earth we return. Our relations to the earth determine not only our sustenance but our institutions. The land is the seed-bed of society. As we provide to mankind access to the earth, so do we cast the fashion of civilization.

"Democracy is an upward and onward movement, deriving its force from the co-operation of individual souls. It is the ladder of civilization, whereby men express themselves in their own names. The ladder rests on the ground.

"I have said that democracy rests on the conditions of daily living. Our situations are primarily those of the planet on which we subsist. The care of the planet conditions our subsistence. Many persons and classes of persons are directly delegated to the care of the planet, but there is practically only one range of people that lives day by day in actual contact of subsistence with the earth. This range is the farmer. I shall not gain popular hearing when I say that the farmer is the fundamental fact in democracy, yet before this body of teachers and students in a college of agriculture I must speak the truth. He is the fundamental fact not merely

because he produces supplies, but because to him is delegated the keepership of the earth, and to him are we to look for the interpretation of the earth in our civic relations. This is a deeper and much more fundamental relationship than the contribution of any extent of organization, however perfect in its constitution, which is concerned primarily with class interests.

"Just now we hear much about the farmer's attitude toward the great affairs confronting us. There is considerable criticism. All the criticisms I have heard are projected from the point of view of class organization or industrial organization. Yet the farmer must be judged by the place he occupies. Let me give you a formula:

"The farmer is part of his environment, matching himself into his background, perhaps unconsciously, much as a bird is matched, or a tree, or a quadruped. His plan of operation, his farm-management, is an expression of his situation in nature; he has worked it out because it fits. He cannot shift it radically to meet the advice of any other person. As he himself develops in ability, he will modify his plan of operation so far as he can, but the plan always must fit his place in the environment; no great change is possible unless his natural conditions change; he does not make his conditions. The farmer exemplifies, in the human range, what the naturalist knows as "adaptation." His situation does not admit of compromise, and therefore it may not be understood by teachers, publicists, officials, and others.

"Then can there be no Prussian theory of a governing class and a governed, one superior by birth and divine endowment, which theory is the antipode of democracy however much such a dominating class may contribute to what for the moment we call "efficiency." The most pathetic figure in the world today is the Kaiser rushing from front to front with his blasphemy and his bombast. It is dangerous to trust so much divinity to one man, and particularly to a man who exhibits none of the humility of a divine mission.

"Democracy rests on you and on me, not on the man who holds office.

"This demands the highest personal development of every citizen, of every age and in every range. It means popular education. In particular does it mean vivid education in the rural range, which lies so close to the foundations; and this agricultural education shall be not alone technical but socially informative and constructive.

"Education should produce positive citizens. One of the dead-weights of democracy is the negative man, who has no convictions, or if he has them, who is unwilling to uncover them. The most dangerous selfishness is the selfishness of knowledge. And yet our technical institutions tend to produce such men—those who acquire

knowledge, perhaps at public expense, and then sit on it. This is just as deplorable as the habit of the commercial man who accumulates gain and then pockets it.

"You tell me these things are far away; yet as no man liveth to himself alone so no man liveth to the present alone. They say that I live in Utopia; this statement is interesting but not important. No, I do not live in Utopia; I live in a far better land: I live in hope.

"Verily, the rural phase must be considered as a primary condition in any democracy worthy the name. We cannot have a democracy of cities alone, nor do we want to attempt one of the open country alone. These Land Grant Colleges are largely responsible for the facts underlying the rural regions of our democracy. Their place is of fundamental importance. They give us knowledge; they should also develop wisdom.

"It is the truth that shall make you free."

MOTOR MECHANICS CONTINGENT SETTLES DOWN TO TRAINING.

The 500 Wisconsin national army men taking special courses in motor mechanics have established themselves upon the campus and are well started in the routine work of a soldier. The contingent has been divided into two companies, A and B, one with headquarters in the old bath house adjoining the Armory and the other in the second floor of the engineering building. The men upon their arrival were placed in three weeks' quarantine which confines them to bounds extending from the agricultural building to the library thence west to the drill grounds, and to the river, which forms the southern boundary.

Every attempt is being made by college people to entertain the men here and make their stay at M. A. C. a pleasant and enjoyable one. The Y. M. C. A. rooms in Williams Hall, which have been opened for their use, are being remodeled as far as facilities are concerned by Secretary Don Hefley to make them serve the men as an army Y. hut. Mrs. Landon has opened the library from 7 to 9 every evening and from 1 to 6 Sundays and has secured for them a number of Wisconsin papers. These papers are being sent gratis by their editors from the communities from which the Wisconsin men come. Religious meetings are being held every Sunday afternoon within the quarantine limits by Reverend McCune, '01, of the People's Church.

However, for entertainment the men scarcely need outside assistance for exceptionally good vocal talent has appeared among the ranks. Several soloists of unusual ability, a quartet, instrumentalists, and a monologue artist spring from the crowd to en-

tertain the men on the campus every evening. During commencement week Mary Allen, '09, pleased the men during their evening leisure with her singing.

On Memorial day a number of Lansing women entertained the Wisconsin soldiers with a "canteen supper" served on the drill ground at five o'clock. The supper and the girls that served it made considerable of a hit with the motor mechanics.

Uniforms and equipment for the contingent are expected soon. The men are especially pleased with the campus and their quarters here and are very appreciative of the courtesies being shown them by the college. They are a splendid looking crowd and are taking the regular army routine and drill and their work in the shops enthusiastically.

DETROITERS RESUME WEEKLY LUNCHEONS.

The Detroit M. A. C. Association has resumed the weekly luncheon for Detroit M. A. C. folks and Secretary Kenyon wishes it announced that they will be held regularly on Wednesday noons at the Board of Commerce dining room at 12:15. An urgent invitation is extended to all Detroit Aggies, as well as to M. A. C. visitors out of the city, to meet with the Detroit crowd.

SEND A FRESHMAN NEXT FALL.

WEDDINGS.

ELDRIDGE-ARRAUGH.

The wedding of Edward M. Eldridge, '18, and Miss Esther Mae Arraugh, of Lansing, occurred at the bride's home Saturday evening, May 25. Edward Kinney, '15, was best man. The Eldridge's will be at home in Jackson, where Eldridge has just taken a position as supervisor of the city war gardens.

CALDWELL-MOORE.

The marriage of 1st Lieut. George L. Caldwell, '15, to Miss Juanita Moore, of Fayetteville, Ark., took place at the bride's home May 13. Lieutenant Caldwell is in the veterinary corps of the army and is now located at the sub dispensary of the 14th F. A., Ft. Sill, Okla.

REEVES-MACNAUGHTON.

Merritt Reeves, with '19, and Miss Blanche MacNaughton, '18, were married the Friday afternoon after commencement at the bride's home in Grand Rapids. A number of friends from Lansing and East Lansing attended the wedding. Reeves is in the naval reserves and is now stationed at Philadelphia. Mrs. Reeves expects to teach at Flint during the coming year.

R. J. JOHNSON, '16, WOUNDED IN FRANCE WRITES OF 'SCRAPS' WITH BOCHES'.

The following letter written to Prof. Chittenden by R. J. Johnson, '16, indicates that M. A. C. men are scattered along the Western front and in the thick of the fighting there. It is only through such communications as these that the war is brought home to us. Without doubt dozens of M. A. C. men are right now taking part in the front lines to help stem the present Hun offensive.

Johnson is a corporal in Co. B, 29th Engineers, Sec. F, Army Eng. School, A. P. O. 714, American E. F., France.

It is quite a coincidence that Johnson and Ginter, '19, should have been wounded about the same time and find each other in the same hospital.

"After proceeding to our base and becoming located there, I was chosen together with my friend (an Alaskan) to report to British Expeditionary Forces for instruction in a certain field. Receiving said material we became actively engaged at our work. In a certain field following a series of battles after battles, we became involved in a particular scrap with the "Boche." After four exciting days and nights of modern warfare in front line trenches, the turning point took place. The question resolved itself into being taken prisoner or escape. In following orders to drop back to a new position, I received a ping from a machine gun through the left forearm. They do hit with terrific force. As reminders, one nipped my ear and richoted off my steel helmet, another went through my ammunition belt. But as luck would have it, today I am here at this American hospital alive to tell the tale. The pain of being wounded is one of the real trials of this modern war. To my surprise I met Paul Ginter (Forester), '19 I believe, in this hospital. He is with Engineer troops and had had a share in the sport as well. He received a rifle bullet through the hand and one through the jaw. He is getting around splendidly and we see each other and go strolling every day. I am certainly happy over being so fortunate as to meet a brother forester of M. A. C. here. We are both comfortable and will be in active service again in, I should say, two months. Received my wound on March 31 and Paul on or near the same date.

I recently received a few Records from Olson here in France. He is now expert Gardener in the government service. See Tip Hodgkins was a survivor of the Tuscania as well as Hausherr, I believe.

My brother writes that he is interested in his work somewhere in France. He is fortunate in having E. C. Sanford, Skeels, Cook, Billings, Klassell, Putnam, Gilchrist all in the same regiment. M. A. C. surely has

contributed her quota for the war thus far. Ofttimes I feel I could have greatly bettered myself had I enlisted in a forestry regiment, but I was inclined to be nearer the front and besides did not quite understand the opportunities offered in forestry lines at the time of my enlistment. As I account for my old '16 classmates all are indeed well represented in our country's service."

AMONG THOSE PRESENT WERE.

The following is a list by classes of all those alumni and former students attending commencement and reunions who registered at the alumni headquarters in the new gymnasium.

- '61—George W. Haigh (with).
- '67—H. H. Jennison.
- '69—Richard Haigh, J. H. Moores, James Satterlee.
- '70—Chas. W. Garfield, A. H. Phinney.
- '74—Henry A. Haigh.
- '75—B. A. Nevins.
- '77—F. S. Kedzie.
- '78—W. K. Prudden, J. Troop, E. O. Ladd.
- '82—J. E. Coulter, Alice W. Coulter, W. T. Langley, W. E. Hale, E. D. Millis, L. H. Bailey.
- '83—Jay M. Smith, Frank F. Rogers.
- '84—W. A. Dohany.

'85—J. D. Towar, J. W. Matthews, L. G. Palmer, C. B. Collingwood.

'86—Jennie Towar Woodard.

'87—W. C. Sanson, Frank R. Smith, George J. Hume.

'88—D. P. Yerkes, Louis A. Bregger, John C. Stafford, B. B. Smith.

'89—E. W. Pagelsen.

'90—J. W. Toan, J. R. McColl, Nettie McCurdy Hume (with).

'91—A. F. Gordon, W. O. Hedrick, W. F. Johnston.

'92—G. E. "Buck" Ewing, Dor N. Stowell, A. N. Bateman.

'93—A. F. Bain, L. H. Baker, A. B. Cook, Ed Peters, Herbert F. Palmer.

'94—M. F. Loomis.

'95—A. C. MacKinnon, Chace Newman.

'98—D. A. Seeley, Pearl K. Plant, R. J. Robb, Fred L. Woodworth.

'99—Mrs. E. W. Ranney, S. F. Edwards.

'00—W. T. Parks "Deacon," Geo. B. Wells, E. W. Ranney, Coral Havens, Arthur Lyon.

'01—Tod J. Leavitt, C. W. Christopher, Gertrude Lowe Woodworth.

'02—H. L. Mills.

'03—Elsie M. Shoesmith.

'04—Tie Bowerman Edwards, R. J. Baldwin, F. H. Sanford, Grace T. Kunze.

'05—A. D. Peters, Emma B. Morrison, W. P. Robinson, Helen D. Morgan, Mrs. H. J. Mastenbrook.

'06—A. C. Anderson, Zae Northrup, W. E. Morgan.

'07—Walter Warden, Helen Ashley Hill, E. L. Grover, Earl P. Robinson, M. F. Johnson, F. C. Jenison, A. J. Carpenter, Geo. A. Brown, H. B. Weeks.

'08—H. H. Musselman, Frank B. Wilson, F. M. Barden, Ward H. Parker, Mabel Mosher, Josephine Carpenter, G. H. McVannel.

'09—Mary M. Allen, C. G. Burroughs, Kate Clark Perry, Leslie H. Belknap, Myrta Severance Borden, Gerald H. Allen, Frank E. Wood, Helen Esselstyn Wood, C. H. Spurway, Lucile Carney Rudzinski, Blanche Clark (Sp. with).

'10—Bert Shedd, O. L. Snow, J. A. Waldron, Barbara Van Huelen.

'11—A. MacVittie, I. J. Cortright, Jim Hays, C. S. Langdon, Betty Palm, Ralph Scott, Alice Jeffry Kirby.

'12—C. H. Dickinson, Mrs. C. H. Dickinson (Frances Mosley), Harriet Weston Allen, Lutie Robinson Gunson, Earle E. Hotchin, R. D. Coulter (with), C. F. Barnum, Ruth Mead McKibbin R. G. Kirby.

'13—H. G. Clothier, Hazel Powell Publow, F. E. Andrews, Ruth A. Brunsbach, Geo. F. Pingel (with), C. H. Hall.

'14—Agnes Stover Smith, Bessie Andrews Hays, Lorena Fuller Beach, John W. Longnecker, Norman M.

The Union Picnic at the Picnic Grounds Just West of the Arboretum.

The college picnic arranged by the M. A. C. Union as a farewell college function to the departing seniors was attended by nearly seven hundred students, faculty and alumni. The picnic was served cafeteria style, the crowd at the right in the picture being lined up before the serving table. Following the supper were games and sports for faculty and students arranged by Director Brewer. They included medicine ball, flag relays and a tug of war between students and faculty, fifteen on a side, won by the latter.

Spencer, Mabel Tussing Barron, Bertha Van Orden Baldwin, Henry L. Publow, G. E. Gauthier, E. C. Volz, Clara G. Rogers, V. A. Freeman, L. P. Dendel.

'15—F. E. Burrell, B. F. Beach, Ardie Strong Boucher, Addie Gladden, G. E. Julian, J. W. Nicolson, Anna B. Cowles, W. B. Cathcart.

'16—Mrs. Ruth Price Massie, W. B. Massie, Ethel Taft, Ethel M. Casterton, H. J. Webber, Leo J. Hughes, A. L. Alderman, Fred A. Thompson, G. R. Bogan, R. E. Matteson, Ruth Hurd, Helen Petrie, Wm. Murphy, Karl MacDonald, Grace P. McKinley, W. M. Buell.

'17—Alton M. Porter, Edna Tussing Vandenburg, Lou E. Butler, Josephine Fry Nicolson, Leola Lewis, Glen O. Stewart, Louise Halladay Carpenter, Wayne Carpenter, R. P. Kelley, H. J. Knowlton, Eugenie Armstrong, C. J. Seidel.

Make your vacation a profitable one. Write for our proposition to students for work in Michigan. Congenial employment representing best selling farm magazine in the country. Liberal commissions and bonuses. Good territory guaranteed. First applications will receive consideration. Rural Publishing Co., Mt. Clemens, Mich.

About the Campus

The Olympics defeated the Orphics in the final inter-society baseball league and landed the trophy cup offered by the athletic department.

The Atheneums won the inter-society relay race in the finals which were run last Tuesday night. The Ionian runners actually crossed the line first but they lost the cup through the disqualifying of one of their team for overlapping.

The Alpha Zeta fraternity initiated five members of the class of 1919, and one member of the faculty into honorary membership, just before the close of the term. Dr. Bessey, professor of botany, is the honorary member received. The other initiates were E. J. Lindsay, J. H. Hammes, J. W. Simms, R. H. Kelty and J. H. Snyder. A banquet was served at the Wildwood following the initiation.

J. Frank Morgan, formerly of the bacteriology department, now a first lieutenant in the sanitary corps, has just been transferred to the base hospital at Camp Kearney, Calif. He writes of having seen Louis D. Remington, with '87, now a captain in the medical reserve corps.

George R. Gage, M. S., '15, formerly graduate assistant in botany, is now

an aviation cadet at Park Field, Memphis, Tenn.

DR. STRAUSS' BOOK PRESENTED TO LIBRARY.

An unusual book entitled "Diseases in Milk—The Remedy—Pasteurization," a compilation of the great life work of Nathan Strauss by his wife, Lina Gutherz Straus, has just been received by Mrs. Landon, librarian. It is through the courtesy of Mrs. Strauss that this book is available for the use of the students of M. A. C. Dr. Giltner, head of the bacteriology department, in commenting upon the volume, says:

"We would recommend that every student interested in the great campaign for the saving of babies should study this book. Probably to Mr. Strauss more than to any other man, do the babies of the large cities owe their existence."

CORRESPONDENCE.

From Geo. R. Wheeler, '14.

I am enclosing a check for \$2.00 to

WITH THE COLORS

TO M. A. C. MEN IN SERVICE.

An expression of the sentiment of the M. A. C. Association toward our men with the colors, a resolution passed at the annual meeting May 23.

We desire with reverence, affection and patriotic devotion to voice our sense of pride in the honor roll of a thousand names of M. A. C. men who have pledged their service and their lives in the cause of world democracy which our Country has espoused, and we who cannot serve in the trenches, in the air, on the sea and under the sea, pledge the best that is in us, guided by a spirit of self sacrifice, in supporting and comforting them and caring for their loved ones.

From P. V. Tower, '16, Scout and Gas Corp., 1st Bn. Hdqtrs. Co., 119 F. A., American E. F.

"You may be interested to know that M. A. C. has men on the firing line from one end to the other and each man you may be sure is performing in a worthy manner. While I cannot write as spicy a letter as 'Jake' Johnson, '16 F., or Paul Ginter, '19, and many others, yet I can at least tell you of the conditions in our camps here. We are well supplied with the necessities of life and a few luxuries. The moral conditions are splendid and the men have surprised everyone in the way they pass up the things forbidden. The temptations are fewer than in the States and the discipline is very strict.

"The weather is cold and very damp as it rains most any time of the day

pay my rent on College Hall for another year and incidentally to make it possible for me to read the RECORD for that length of time.

Please change my address from 1100 S. Main St., Mt. Pleasant, to Mt. Pleasant R. F. D. No. 6. As the changed address indicates, I have severed my connection with Central State Normal and gone actively to farming.

I am also trying to help the cause along by acting as secretary of the Isabella County Farm Bureau. H. D. Carbus, '15, was recently elected our county agent and is getting his summer's campaign well under way.

Gifford Patch, Jr., '16, who has been teaching science in the Mt. Pleasant High School, has recently accepted the job of county agent for Montcalm county and has moved to Greenville.

The Extension Department has taken three county agents from Mt. Pleasant this spring. Gifford Patch, Jr., '16, Montcalm county; W. T. Bandeen (with '08 or '09), Midland county, and P. P. Pape, who goes to Clinton county.

here. The mud is sometimes very deep and sticky, but we are well clothed and somehow enjoy it all because we know we are going to win. It makes better men of us all. Some are learning how to appreciate home."

* SEND A FRESHMAN NEXT FALL *

From Lytton Calrow, '18, Unit A, 1st Bat., 4th O. T. S., Camp Grant, Ill.

"We came out to camp Tuesday and spent three hours chasing around after Karl Fisher, '15. His address was changed from the one in the pamphlet and that led us over to the colored section of camp and, believe me, that's a dark portion. Everywhere we passed the privates yelled out 'You'll like it,' thinking we were drafted. When we came to the 'dark portion' they would say 'You all like it.'

"What we find difficult is absolute discipline, inspection of bunks and clothes daily, etc. I wish that more of this could be enforced at school, especially the salute, and it would be clear sailing.

"There are about 92 men in our unit and out of these only 25 of us are not regular national army men of seven months' experience, so you see we will have to step lively.

"During rest periods everyone picks up a manual of some kind and studies or wiggles, etc. We cannot afford to give much time to anything else as only 50 per cent of us will get commissions."

CORP. A. L. BIBBINS, '15.

In letters to his mother "Bib" writes "I am happy to be here and in shape to go ahead and do my part in the war. The insignificant life that I left looks all the more insignificant in comparison to the big, broad life I now am in. This is living and a fellow is lucky to be in it if he can only look at it in that light. I am the happiest I ever have been."

Bibbins writes the following to President Kedzie:

"I have been elected to utilize the evening in writing you concerning the activities of the M. A. C. quota in our company.

We are the 375th company of the 409th Motor Train and are gallantly led by First Lt. Knapp, yes, no other than "Hockey" Knapp, M. A. C. '12. All the men of the organization swear by him and largely because of the excellent spirit existing we have already won a place among the "top-notch" troops in France. In the ranks we have "Chi" Fick, Ralph Dodge, and myself; so you see that the Aggies are well represented, numerically at least.

We are all well and "having the time of our lives." None of us would be anywhere else at this time for we are mighty pleased to be doing something of direct value for the cause.

Undoubtedly the boys are all "primed up" for their annual games. Let it be known that M. A. C. is being represented upon the baseball field here too. During the few warm days, with which we have been blessed, our company has organized a team—in fact we have been the "champs" of every place that we have stayed at. We are recent arrivals at our present location and, naturally, were called upon to prove our worth.

We crossed bats with the champions, an artillery team. After Dodge had made them swing their bats in vain, Fick had given them a few "thrillers" and Lt. Knapp had made a "circus catch" in the outfield the score stood 15 to 1 in our favor. It seemed just like college days to get behind the plate with "Dodgie" "whiffing 'em out" and throwing down to Fick; however, the surroundings were much different and, also, in those days we didn't have to consider the German activities when arranging for a game.

We just finished a five-hundred mile trip, leaving on a few hours notice and stopping without any notice at all. That is characteristic with our branch of the service. One never knows where he will be by night nor how long he will stay when he arrives.

One very amusing incident occurred on our last long trip. We stopped one dark and rainy night at the edge of a small city. After our 9 o'clock supper, Dodge, Fick and I sought our night's lodging in a building near by. We had a nice smooth stone floor for a bed but it was dry and were soon in slumberland, all huddled together "like pigs in a storm." When we awoke in the morning, we surely enjoyed a hearty laugh. Perhaps you will echo the laugh as I tell you we had used for our hotel the main building of an agricultural academy. We thought it quite a coincidence of life's possibilities—that three Agricultural graduates should ever be connected with a similar institution in such a manner. I wish to make known a decision that we reached, namely: If war should ever be on our own American soil that the "Ag" building at M. A. C. should be equipped with three bunks the same to be stationed in the lower hall to care for any wandering soldier lads who might be journeying through. We trust that you will take this matter up at the next Board meeting.

Being students of agriculture, we have closely watched the rural conditions in France, and already have many interesting comparisons to make with Michigan agriculture. Of course the Michigan farmer is farther advanced in most ways but there are many lessons that may be learned from the French tillers of the soil.

One thing we are certain. That is the great educational advantage of the American youth. France is doing her best to keep her schools open but the attendance is small for it's the women and school children who are supporting and keeping those of eighteen years, and over, up at the front. The colleges that we have seen would scarcely be recognized as such. For, instead of a gay student body on the campus one sees sick and wounded. Perhaps many of the buildings are used as store-houses containing supplies for the army. The students are elsewhere—either at the front or accounted for by some mother in mourn-

ing. It is hard to think of gay M. A. C. in such a light and we all must do our best now to prevent the possibility of such an occurrence. I wish you all could see the Y. M. C. A. we have here. You surely would feel mighty pleased that the 'old school came across' in the support of the army 'Y.' Too much credit cannot be given this organization. Even where we are now located we have an excellent "Y." In fact I now am in the hut beside a log fire. In an adjoining room the boys are playing checkers, cards, etc., with a French class reciting at the opposite end. The American people will receive their real thanks for the "Y" and Red Cross when the boys come back home. Speaking of returning, no one knows when that day will be. The main thing is that many are here and many more must and will come—then when it's all over we will return to a new America and a new world.

We all send our best wishes to the faculty, student body, and alumni and hope that many will have both the time and inclination to write, for mail time is even better than meal time.

Prof. Cox was going to send me six pounds each of Rosen Rye, Red Rock Wheat, and Winter Barley for experimental purposes. It is necessary that my commanding officer O. K. these shipments before they will be forwarded from the army postoffice. Will you kindly ask Prof. Cox to hold up these grains until he has received the proper papers from me?

The army has an agricultural regiment now and I have the opportunity to co-operate and have these strains given a good test under typical French conditions."

WAR SERVICE LIST.

PROMOTIONS.

Harvey C. Schall, '12, Lieut. A. S. S. R. C., Wilbur Wright Camp, Fairfield, Ohio.

T. G. Shilson, with '14, 1st Lieut. Co. F, 340th Inf., Camp Custer.

Wm. C. Keck, '17, 1st Lieut. V. C. N. A., 3d Div., Hdq. Meat & Milk Inspection, American E. F., France.

R. B. Kellogg, Jr., with '14, Junior Lieut. U. S. S. Iowa, care Postmaster, New York, N. Y.

'85.
Judge C. B. Collingwood recently demonstrated his patriotic tendencies by making one of the conditions of probation of a violator of the liquor law that of purchasing a liberty bond out of his wages. The probation charge requires that when one liberty bond has been purchased the probationer is to buy another and keep up the good work for the full two-year period.

'93.
R. C. Bristol is with the Parker Rustproof Co., in Detroit, and lives at 156 Tuxedo Ave.

'94.
Cecil J. Barnum is commissioner of schools in Gladwin county, Gladwin, Mich., and "trying to do my part to back the boys at the front."

At the time of publishing our last list of men in service there were several inquiries as to the location of Robert S. Welsh. It has just been learned from the Adjutant General's office that Welsh is now a colonel in Field Artillery, National Army, and is stationed with the 314th F. A., Camp Lee, Va.

'00.
James A. Stockwell (with) is a second lieutenant with the 341st Inf., Camp Grant, Rockford, Ill.

ican E. F. France. Capt. Curtis recently sent us a copy of the Oolala Times, the journal of the 17th Engineers. The Oolala Times is one of the snappiest and most interesting trench newspapers we have seen and besides carrying general regimental news it has a column for each individual company. From the amount of baseball news it would seem that the American Expeditionary Forces are not lacking for sport over there.

'03.

A. R. Carter, "Nick," is county superintendent of highways with headquarters at Rockford, Ill.

'04.

George E. Martin is chief engineer with the Velie Motors Corporation, Moline, Ill., and is living at 1807 18th Ave. there.

'06.

C. A. Willson is animal husbandman and chief of the department of animal husbandry at the University of Tennessee.

'07.

Eugene Robinson (with) is a major in field infantry, regular army, and is now on duty with the 58th Inf., American Expeditionary Forces, France. A part of Major Robinson's organization was aboard the ill-fated Moldavia, the ship recently torpedoed in the English Channel, but reports indicate that the 58 men who were lost were privates and non-commissioned officers.

A nine-pound son, Maurice Arthur, arrived at the home of Prof. and Mrs. Maurice F. Johnson, May 23. "Johnnie" says that the youngster came for the reunion of dad's class but was a little late for the commencement exercises.

'08.

R. H. Gilbert is acting as purchasing agent for the DePree Chemical Co., pharmaceutical chemists, Chicago, Ill., makers of San-Tox products. His home address is 6830A Ridgeland.

Arthur R. Wilcox has been transferred from the Santiam Forest to the Whitman Forest in eastern Oregon with headquarters at Austin. His work there is on yellow pine timber sales.

'09.

Bertha Cameron has moved from 295 Waterloo St. to 169 Baldwin Ave., Detroit.

Karl E. Hoppman is in the Engineers R. O. T. C., Camp Lee, Va., Building 4006.

'11.

A son, John Gordon, arrived at the home of Mr. and Mrs. Zelin C. Goodell, Lansing, May 24.

In the list of purchasers of Ford farm tractors in Ingham county who bought machines through the Michigan War Preparedness Board is the name of Harry E. Saier, seedsman and florist in Lansing.

Edmund C. Sauve is in charge of the gas engine works of the agricultural engineering department of the University of Wisconsin. He is now instructing engine and automobile me-

chanics who are enlisted in the government service. He is living at 121 S. Hamilton Ave., Madison, Wis.

'13.

J. S. Sibley is with the 4th Prov. Squadron, A. S. S. C., Vancouver, Wash.

Earl H. Meyer is a first lieutenant in Co. D, 113th Engineers, Camp Shelby, Miss.

Eugene C. Spraker received his promotion from second lieutenant to first lieutenant April 19. Spraker is aide-de-camp to Gen. Louis C. Covell, Headquarters, 63d Inf. Brigade, A. P. O. 734, Amer. Exped. Forces.

E. C. Keifer, who has been instructor in mathematics at the college has resigned to accept a position as inspector of mills and elevators with the Michigan Millers' Fire Insurance Co. of Lansing. His work will begin July 1. The Kiefers will soon move from East Lansing to Lansing.

'14.

H. F. Rook is in the U. S. Engineer's office, Federal Bldg., Detroit, Mich.

Marion Sly will very soon enter the Cincinnati General Hospital to begin training as a nurse. Miss Sly has been teaching the past year in the schools at Sandusky, Ohio.

James T. Seibert is regimental supply sergeant of the 340th Infantry and is also an officer candidate, having been recommended for a commission from the third officers' school.

Floyd A. Nagler who is a student of aviation has been assigned to meteorological studies and is now with the Meteor. Sec., Texas A. and M. college, College Station, Tex.

Mrs. W. R. Cartwright (Jessie M. Whitney) is living at Milton Terrace, Cuyahoga Falls, Ohio. Her husband is assistant sales manager of the Firestone Truck Co., of Akron, Ohio. They were married in April, 1917.

E. C. Pinney was a college caller May 16 and incidentally mentioned the arrival of David Charles Pinney, an eight pound boy on April 26. The Pinneys are living at Lapeer. He is in the extension department of the Kentucky Tobacco Products Co.

J. H. Kenyon (with), acting secretary of the Detroit alumni organization is engaged in the life insurance business with the Mutual Benefit Life Insurance Co. of Newark and has completed his fifth year as their representative. He may be addressed at 80 Griswold St.

Margaret Pratt who has been teaching English in the Lansing high school has resigned her position there and on June 15 enters an Ann Arbor hospital to begin training as a student dietitian. The training covers three months and leads to registry as a dietitian.

Howard C. Morgan of Traverse City called on the campus May 19. Morgan is vice president of the firm of John C. Morgan & Co. of Traverse City, which is one of the three or

four firms in the country manufacturing flour from potatoes. Morgan's firm is just getting the new project under way and is turning out a very good grade of potato flour. They are milling some 1,500 bushels of potatoes a day and receiving about eight pounds of flour to the bushel. Morgan attended the Union picnic. His trip to M. A. C. was in connection with potato flour manufacturing.

S. M. Dean, with the General Electric Co., Schenectady, N. Y., writes: "It might be of passing interest to some of the many old friends to know that there arrived here on Nov. 16th last a little home economics hopeful (approximately) M. A. C. 1936—Harriet Emily, by name. The scene of my labors has changed since last I wrote and I am now in the power and mining department of the General Electric and enjoying work tremendously. I am in the resale section of the commercial department. One has to be in the game to appreciate the great diversity and tremendous volume of material Uncle Sam urgently needs to carry on the work essential to the war. In the effort to meet these needs our factories are crowded to bursting."

'15.

Geo. F. Kinzing is now county agent of Schoolcraft county with headquarters at Manistique.

Grand Ave. E., Highland Park, to 179 Beresford Ave. She is teaching in the Highland Park schools.

Ralph E. Dinan is a special inspector of ordnance in the Ordnance Department of the navy. At present he is at 928 Cass Ave., Detroit.

Geo. W. Green, who has been in the extension service of the University of Saskatchewan, Saskatoon, is attending ground school for aviation at Cornell and may be addressed U. S. S. M. A., Cornell, Ithaca, N. Y.

The annual report of the Department of Public Health of Jackson contains four pages of concise information on the activities of the food and milk inspector, E. Lynne Underwood. Mr. Underwood was a visitor in East Lansing, May 19, stopping for a couple of days with Mr. Brundage of the chemistry department.

'16.

A. H. Alzenhoffer has just accepted the position on the staff of Cooley & Marvin Co., industrial engineers of Boston, Mass. He writes: "Mrs. Atzenhoffer (Marion Leonard, '15) and I are enjoying living in the east." The Atzenhoffers are living at 35 Glazier St., Gardner, Mass.

R. B. Jackson, "Duke," who has been assistant city sanitary engineer for Jackson, Mich., has just accepted a position with the city of Akron, Ohio, as junior engineer in the city engineer's office. He is to have charge of the sewer survey in a district of the city. It is reported that the new position brings with it a considerable increase in salary.

'17.

Herbert Abel is with the Fry Brokerage Co., distributors of fruit and vegetable products at 192 N. Clark St., Chicago. He is engaged in the capacity of perishable fruit inspector. He is rooming with A. B. Love, '17, at 4205 Grand Blvd., and says that "We aim to have open house for any M. A. C. men who visit the windy city." He recently passed a civil service examination for a position in the bureau of markets.

Myron S. Strong (with) completed the government seed corn inspection work May 10 and with Mrs. Strong moved to a farm in Georgetown, Del., where he may now be addressed.

Normal O. Weil has just been assigned to a chemistry class at the Army Medical School, Washington, D. C., and writes: "Will soon find out how much of Uncle Frank's subject I forgot or never knew. I met Art Cull, '20, and Harold Bauer, '20, today. Tarpinian, '17, was out to see me while I was in the hospital." Weil is located at 420 2d St., N. W., Washington, D. C.

'18.

Arnot Lewis and Marion Grettenberger have accepted positions with the Chemical Experiment Station at the college as analytical chemists and will work on the analysis of foods, soils and fertilizers. Miss Lewis begins June 1 and Miss Grettenberger on Sept. 1.

SPRING DAYS ARE NOT FAR AWAY

AND

SPRING STYLES ARE ALREADY HERE

We have a store full of merchandise bought many months ago and priced at figures which means retailing today at prices very close to present wholesale prices. It means economy to purchase now—anticipate your wants—spend freely and wisely—but do not hoard. Save your nickels and pennies for Thrift Stamps and keep your money in circulation. Buy goods at home and save railroad transportation. Conserve your energies—concentrate your buying. CONCENTRATION IS CONSERVATION. It increases your opportunities in "bigger" savings in many ways. Right here, we show what we can do for you with more variety, larger assortments, and the best brands of Ready-to-Wear Silks, Underwear, Gloves, Hosiery, etc.
