# THE M. A. C. RECORD

VOL. XXV.

EAST LANSING, MICHIGAN, DECEMBER 5, 1910.

NO. 11

Dr. W. W. Diehl, '87, Rural Field Agent for the Methodist Episcopal Church in Michigan, is now giving a series of ten lectures one each day to Juniors and Seniors, on problems of community service. This course is under the auspices of the College Y. M. C. A. and is a new venture this year, to train young men for community leaders. After Dr. Diehl has finished his outline addresses, the work will be continued for ten weeks under the direction of Rev. Behrens, student pastor, assisted by various professors on the college staff.

THE STUDENT PETITION that a fee of one dollar a year be added to the regular fees of all four-year students for the financing of the M. A. C. Union social entertainments, was passed upon favorably by the State Board of Agriculture at its November meeting. The surplus which is left over at the end of the year will be set aside as a budget for the upkeep of the Union Memorial Building.

THE SECOND LIBERAL ARTS number will be given at the Armory on Sunday afternoon at 3:30, when Dr. Ralph Dennis of Northwestern University will speak on "Society and Bolshevism." Dr. Dennis was formerly an American vice consul at Moscow, and spent a number of years in Russia.

A SPECIAL SHORT COURSE in Cow Testing and Dairy Barn Management, which will run from December 1 to December 12, will be included this year for the first time among the winter courses in agriculture at the Michigan Agricultural College. The course was planned to meet the ever increasing demand for men and women who are adequately trained for cow testing work, and for those who are engaged in the production of A. R. O. dairy animals. The work of the course will include a special study of animal breeding, feeding, Babcock testing, livestock judging, dairy barn management, and advanced registry and cow testing. A. C. Anderson, '06, professor of dairy husbandry at the college; "Jimmy" Waldron, '10, J. E. Burnett, '15, and F. T. Riddel, '13, have charge of the classes. L. L. Frimodig, "Frim," will give the short course men special gymnasium work.

AS THE RESULT of a bet made early in the fall, two Ag students, A. D. Smith of Detroit, and W. Ward, of Owosso, both Sophomores, smashed all previous records last week when they "footed it" from East Lansing to Detroit in a little less than 36 hours. They left East Lansing at 10:10 a. m., and reached Detroit at 9:15 p. m. the next day, stopping over night in How-

ell. They had to refuse 22 auto rides on the way in order to win the bet. While it is reported that they have been busy nursing sore muscles and making up classes missed since their return, nevertheless they have established a record which will no doubt stand for some time.

THE ANNUAL BAZAAR of the People's Church at East Lansing, held Friday, November 21, was a decided success, financially and otherwise. The proceeds of the booths and the dinner amounted to \$325, which will be used to help defray the general expenses of the church.

ALTHOUGH THE COAL situation is a serious one in most parts of the country, the college has enough on hand to last during the cold weather. About 4,000 tons are now piled in the college coal yard, and another shipment is expected in a few days.

THE FIRST REAL SNOW of the winter fell on the campus last Sunday, and the very decided fall in temperature and occasional flurries since have kept the ground well covered to the depth of about two inches all week.

THERE IS SOME AGITATION on the campus to shorten the classes and make the school session from 8 to 4:20, as in pre-war times. During the war, when the terms were shortened, five minutes was added to each class period, making the daily session from 8 to 5.

BAND CONCERTS, like those of olden times, will be begun again at the college this winter. The first one will be given on Sunday, November 7, at the armory. Some new and difficult selections are being rehearsed, and these will be interspersed with the old familiar airs, without which no band gathering is complete. The voice department will assist with solos and quartet numbers.

THE TERRIFIC WIND STORM, last Saturday night, which played such havoc all over southern Michigan, failed to do any great damage at the college, though lights all over the Capitol City and East Lansing did go out, and the guests at several parties in progress on the campus enjoyed some old-fashioned "moonlight" dances, without the moon.

EIGHT DELEGATES from the college attended the fortieth annual Y. M. C. A. conference of North America at Detroit, November 19 to 22. The student body was represented by Floyd Spencer, '20, of Kibbie; Arthur Tobey, '21, of Freesoil; Vernon Ward, '20, of Hillsdale; and Stewart Farr, '22; Rev. N.

A. McCune, '01, of the People's Church, Dr. Ward Giltner of the bacteriology department, Secretary E. V. Hartman of the Y. M. C. A., and Prof. C. W. Chapman of the physics department also attended. Nearly every country in the world was represented by delegates or speakers, and 4,400 was the average daily attendance.

"BROWNIE" SPRINGER was unanimously elected by the Varsity eleven as next year's captain. "Brownie" is the wiry little quarterback, who by quick thought and action, pulled the team out of more than one tight place this season. No other man on this year's squad made any more emergency plays, or worked more consistently. Springer entered with the class of '18, but left college before his senior year to go into the service with the 125th Infantry, 32d Division. He saw service overseas, and reentered college this fall.

THE EUSTACE HOUSE, which was moved onto Grand River avenue, facing the People's Church, is now about ready for occupancy by the music department. The interior of the building has been remodelled, with one large room for recitals and several small practice rooms, besides Director Taylor's office. Apparently there is no fault to find with the interior, but much comment has been raised as to the exact color of its outside garb. Perhaps a chocolate-red would express it better than anything else, and students have hopefully remarked that it may have a new coat.

MISS SAVAGE, Dean of Women, assisted by several other members of the faculty, has arranged for a series of informal college dancing parties to be held at various times throughout the winter term, and for the balance of this term. These will be in the nature of a dancing school and assembly. The first of the series was held last Friday night in the new gym and over 200 attended. Mrs. Master of Lansing, teacher of both aesthetic and social dancing, gives instruction from 7 to 8, to those who cannot dance or wish to improve, and afterwards chaperons the students for several hours' dancing. A very nominal fee, not to exceed 25 cents, is charged to cover the expenses of the instructor and orchestra.

AN ADJUSTMENT has been agreed upon between Michigan Agricultural College and the Michigan state police by which the constabulary turn back to the college 70 of the 96 acres which they have been using. This leaves for use of the constabulary the barracks and other buildings and 26 acres of land.

# THE M. A. C. RECORD

Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

## A COMMENT ON THE DEAN OF MEN SUGGESTION.

Following a recent editorial in the Record citing a need for a Dean of Men, there has been received the following letter from A. C. Burnham, '93, of Chicago. Mr. Burnham is a man of wide experience in educational matters. As President of the American Extension University, he has come in contact with thousands of young and middle-aged men who are just "finding themselves" and planning their lives.

"Regarding your plan to have a 'Dean of Men' at M. A. C., I hope it will be done. Why not spend a little more money and get a real advisor for the students—one who would be absolutely independent of all departments and have no bias, and who would have the background of training necessary in economics, psychology, personal administration, business experience, social philosophy, and freedom from other college influences, and be of the right age necessary to give unbiased and wise advice to students in really planning their lives—where they are uncertain?"

"At least fifty per cent of men and women also, probably, who leave M. A. C. whether graduates or not, leave with no definite plan or purpose in life—or if with a purpose, then one that is ill-conceived. It takes them ten to twenty years to 'find themselves.' This is not necessary and should not be permitted to continue. It is a reflection on any college that it makes no aggressive or determined effort to develop a definite life purpose in its individual students that has any remote relation to the facts of the particular case.

"By the very nature of things, the student cannot as a general rule get this advice from the head of, or others

in the department in which he happens to be studying. The more natural ability and versatility the student has, the more difficult as a rule, is his problem. Here is a great waste. The right sort of a 'Dean of Men' might do a great deal along these lines. This Dean of Men should give just one course regularly—a course in 'Life Philosophy' and all students should be required to take that course. What do you say?"

The dean of men idea is not a new one by any means. At a number of colleges and universities it is proving a most valuable addition to their instructional and character moulding forces.

## J. E. TARBELL w. '97.

Major J. E. Tarbell died on November 14, at his home in Fresno, California, of pneumonic influenza, after a very short illness. Mr. Tarbell entered M. A. C. in 1893, but did not graduate. Later he received his degree from the University of Michigan. He was among the first group of teachers who went to the Philippines. He remained in the Philippines for ten years and took a prominent part in installing the splendid educational system of the islands. During the Philippine War he enlisted in the service, and rose to the rank of major. He was afterwards sent to the Orient and to Porto Rico by the government.

When the United States entered the World War, he was detailed as an officer in charge to conduct a large detachment of Czecho-Slovaks and Italian troops across the United States, en route from Siberia to Europe. For this service he was given a distinguished service medal by the king of Italy.

At the time of his death Major Tarbell was teaching Spanish in the Fresno high school. He is survived by a wife and two sons, Dan, aged 7, and Willard, aged 5.

## REGIONAL ORGANIZATION FOR BUILDING CAMPAIGN COMPLETE.

Through the appointment of Harry A. Schuyler, '13, of Lefingwell Rancho, Whittier, Cal., and J. H. Prost, '04, of the International Harvester Co., of Chicago, as Regional Campaign Directors, the framework for the personal campaign for the Memorial Building was completed. Mr. Schuyler's appointment was made early in November and Mr. Prost was named last week by President Prudden.

Schuyler is to direct the campaign in California, Nevada, and Arizona, and J. H. Prost will preside over the territory of Illinois and Wisconsin.

Regional Directors are working up their own organizations in their districts and selecting their local committees. An allotment based upon the number of M. A. C. men and women in the territory and the conditions in-

fluencing their ability to give, has been fixed for each territory. The organizations are being perfected preparatory to the real drive which will begin after the holidays.

## PRES. PRUDDEN APPOINTS PLANS COMMITTEE FOR MEMORIAL BUILDING.

Pursuant to the action of the executive committee of the M. A. C. Association authorizing the appointment of the committee of three to be known as a "Plans and Specifications Committee" for the Union Memorial Building, President W. K. Prudden, '78, made known his selection last week.

The committee is to be composed of Horace Thomas, '01, Chief Engineer of the Reo Motor Co., Mrs. E. W. Ranney, '99 (Theresa Bristol), of Greenville, and J. R. McColl, '90, of the firm of Ammerman, McColl, and Anderson, Heating Engineers of Detroit.

Mr. Thomas, chairman of the committee, was one of those chiefly interested in the establishment of the Club House and social center of the Reo Motor Car Co., and has been active in its management and development. He is acquainted with the problems and needs of the social and community center as it has been worked out for the Reo Co., besides being an experienced engineer and builder.

Mrs. Ranney has a daughter in college now and is keeping in touch with the present day needs of the girls of the college. J. R. McColl of Detroit has won distinction as an engineer in detail construction work and expects to spend considerable time during next year in Lansing in connection with the construction of the new state office building, the heating and ventilation for which his company are contractors.

This committee has also been empowered to represent alumni in conference with the State Board of Agriculture to secure a suitable site for the building. The executive committee made the suggestion that the building be located "on the campus not far from the main street and preferably on the site known as Dr. Beal's residence, now occupied by Dr. Bessey."

## DETROIT CLUB ENTERTAINS FOOTBALL TEAM.

The Aggie football team and Director Brewer were the guests of the Detroit M. A. C. Club at an elaborate dinner served in the Elks Temple Saturday night, November 29.

About seventy-five enthusiastic members of the Detroit Club were the hosts of the evening and royally entertained members of the football squad at the affair which has become established as an annual celebration. While the cyclonic storm that struck Detroit Saturday night and wrought

such havoc in and about the city deterred many from coming, it did not interfere with the loyalty and pep of those who were anxious to show their appreciation of the team, even though this season has not been an entirely successful one from the standpoint of games won.

President Gunnison, '00, of the Detroit Club, acting as chairman, called on Director Brewer who introduced each member of the squad. E. N. Pagelsen, '89, E. W. Ranney, '00, of Greenville, "Eddie" Gunnison, '05, and Secretary McKibbin were called upon for short talks. By far the spiciest part of the program and that contributing most to the entertainment of the guests were the vaudeville features which were interspersed during the banquet and the program of talks.

### AGGIES CLOSING GAME 7-7 WITH WABASH.

In a freak game in which Wabash was practically at all times on the defensive, Michigan Aggies and the Little Giants played to a 7 to 7 tie, on Aggie field Thanksgiving afternoon. Throughout the whole game until the last few minutes every play was in Wabash territory. Wabash scored when Etter, starting from his own 35-yard line ran 65 yards for a touchdown.

Soon after the kickoff which followed the touchdown, Bassett broke through all opposing defense and covered 25 yards for the Aggie marker. This run, though much shorter than that made by Etter, was through a field thick with Scarlet-clad players and was easily the prettiest feature of the game.

From the start until the last few minutes it looked like an Aggie victory at all times, and when the teams took the field for the last half, every Aggie adherent was confident that at least two touchdowns would be made by the Big Green in the remaining periods. Wabash made first down only three times, the first coming when Etter ran for the touchdown, the second when the Aggies were penalized for offside play, and the third, the only one earned, when there was less than five minutes of the game left.

Unable to gain, the Little Giants were forced to kick, and the Aggies again took up the march. This process was repeated again and again throughout the first quarter and during the first half of the second quarter. Once in the territory from which they should have scored, however, they were unable to find the combination which would carry the pigskin over the line.

On two occasions, the ball was carried to the Wabash one-yard line. Loads of credit goes to the Little Giants for the way they fought and held here for the Big Green clashes were stopped without gain and Wab-

ash was saved from defeat.

Hammes and Bassett played wonderful football every step of the way. Bassett displayed greater broken field ability than at any other time during the season while Hammes crashed into the line for gains that frequently netted 12 and 15 yards. The field, slippery with snow, seemed to be no hindrance to them, for they charged and dodged with worlds of speed and many times carried tacklers with them one to two yards before stopping.

Cold weather failed to put a damper on the enthusiasm of Aggie fans for the stands carried what was almost a capacity crowd. Heavy coats and blankets kept the cold wind at bay, while cheering helped in the battle against the elements.

The Aggie band, diminished in size but undaunted, took the field about 2:15 and marched down the field in open formation. Between halves, the musicians were led in a tour of the quarter-mile track, to keep from freezing stiff while dispensing harmony.

Five men including the captain lined up for their last inter-collegiate games: Coryell, Vandervoort, Archer and Franson being the others. Brownie Springer was in uniform, but injuries received in the Notre Dame game would not permit him to play.

### BASKETBALL STARTING THIS WEEK.

Basket tossers at Michigan Aggie were out for the first regular workout of the practice season this week. Although, for the past month, at least two nights out of every week have been spent on the court by a large number of Varsity candidates, the hard sessions were reserved until the close of the football season. Many of the gridders will be strong contenders for positions on the team, and a large share of these men were in uniform last night.

Negotiations have been closed for a game with Chicago University to be played in the Aggie gym on New Year's Eve. This game adds to the list of big games to be played on the college court, and it will be one of

the most attractive games on the schedule.

The Big Green has an eye peeled for this game, and although several practice tilts are scheduled to come before it, all work during the month will be directed towards winning this game. This increases the work of the men trying for positions for everyone who lands the chance to play this game, will have to have shown real ability. It will mean fast conditioning, and long workouts for every likely candidate.

On Monday and Thursday of this week the schedule arranged by Coach Gauthier called for practice from 7 to 9 o'clock in the evening, while on Tuesday and Wednesday, the tossers are slated to work from 5 until 6 o'clock. It is probable that in a short time all sessions will be held in the afternoon.

The entire workout showed the need of a lot of hard practice, but at the same time displayed lots of unusually good material. On this wealth of material, Coach Gauthier bases the belief that one of the best fives which ever represented the college will be turned out.

### OVERSEAS EXPERIENCE OF F. B. MUMFORD '91.

In February, 1919, F. B. Mumford, '91, Dean and Director of the Agricultural Experiment Station at the University of Missouri, was appointed by the French Institute in the United States as a member of the "Mission Americaine de Rapprochement." A brief account of the aims and accomplishments of the mission is given below in Dr. Mumford's own words:

"Other members of the Mission were Hon. McDougall Hawkes, Bridge and Tunnel Commissioner of the State of New York; Monsieur Rene de Sallier de Pin, Mining Engineer, New York City; Dr. Arthur Gordon Webster, Professor and Director of Physics Laboratory, Clark University; Prof. Henry Alfred Todd, Professor of Romance Philology, Columbia University, New York; Dr. Arthur W. Wells, representing the United States Department of Commerce; Dean Charles H. Haskins, Dean of Graduate School of Harvard University; and Monsieur Jean Vergnolle, President de l'Alliance France-Louisianaise pour l'enseignement du Francais, New Orleans.

"The object of this mission was, among others, to bring about more cordial relations between the French and American people, particularly in respect to encouraging American students to register in French universities and to encourage French students to register in American universities, to encourage the importation of French commodities into the United States and facilitate the exportation of American products to France and to discover other means of improving

the commercial, political and social relations between France and the United States. The mission was organized at the request of Mr. Maurice Damour, a representative of the French officials interested in this project.

"The mission landed at Le Havre where it was met by a deputation of French officials and for the following sixty days we were conducted through France by Mr. Damour. The itinerary included the cities of Rouen, Paris, Bordeaux, Toulouse, Montpellier, Marseille, Nîmes, Arles, Grenoble, Lyon, Aubosson and Limoges and other smaller cities and towns. The mission was received everywhere with the greatest courtesy and evidence of friendship for the American government. The impression of our mission was that France was grateful for the assistance rendered to her by America and that she was ready to do everything in her power to continue cordial relations with this government.

"The French University officials were much interested in the subject of the exchange of American and French students and professors. Conferences were held with a number of the administrative officers of the leading universities and tentative plans were formulated. There was organized in Paris an office or bureau which has to do with this important matter. Monsieur Firman Roz, 96 Blvd. Raspail, Paris, is in charge of this matter and American students interested should write directly to him.

The institutions devoted to instruction in Agriculture were greatly disorganized as a result of the war but had already begun to recover rapidly and in many cases were giving instruction to considerable numbers of students. We found large numbers of American students in all the universities and these men had given a good account of themselves.

"The agricultural industry in France seems to be the only one that has entirely recovered and the French farmer is perhaps more prosperous today than ever before in his history. The agricultural people are working industriously and successfully toward supplying the food and clothing needs of the Republic. The most important agricultural industry in France is vine growing and wine making. There is little prospect of prohibition in France although I discovered a prohibition organization with offices in Paris.

"The mission was entertained officially by the Municipalities, the chambers of commerce and the universities in the cities which it visited. The French people know how to entertain.

"Incident to the trip the mission was permitted to enjoy many delightful and unusual experiences. At Arles, in Southern France, the mission was officially entertained as the guests of honor at a bull fight in an old Roman arena with a capacity of 10,000 people. There were 5,000 peo-

ple present. At the same city the mission was taken for a boat journey on the Rhone river with the intention of proceeding some distance into the Mediterranean Sea but the party was wrecked on some obstruction in the river and was compelled to land in a swamp. An experience which will long be remembered by the members of this mission was a ride across country in French army automobiles from Lyon to Limoges, stopping en route at the principal watering places in the French mountain region.

"There is no question but that France is looking toward America for financial and moral support in the gigantic task of reconstruction. The high regard of the French people generally for the American government and American officials was unmistakable. Almost every city and town in France has an important square or street named after President Wilson. I believe I am correct in saying that every member of the mission was heartily in favor of the League of Nations and in full accord with the general principle that America has definite moral obligations to the free nations of the earth.

#### FRESHMEN COMPLETE SUCCESSFUL SEASON.

By humbling Detroit Junior college under a 24 to 0 score, Thanksgiving, the Aggie All-Fresh put the finishing touches on a most successful season. The Yearlings this season developed into a machine that was considered the finest Fresh aggregation ever known at the college. Of the five games played, the only one lost was to Notre Dame All-Fresh.

At Detroit, they had their opponents stopped from the very start and toyed with them throughout the game. Several times during the forepart of the game, they were within the Detroit one-yard line, but they did not score until the fourth quarter when four touchdowns were put over.

Two of these were credited to Johnson, the speedy full back, who has played a wonderful game all season. Brady and MacMillan took the others across. Detroit was never within the All-Fresh 25-yard mark.

With practically every one of the Yearling squad certain to be eligible next year, some fine material is assured the Varsity. The entire backfield with a little more coaching looks like a sure-fire proposition while ends and linemen will be on the job to try for the positions left vacant by the men of this year's varsity who have finished their grid careers.

#### FERONIAN ALUMNAE.

Lansing and East Lansing alumnae of the Feronian Society gave a supper honoring the active girls at the home of Margaret Barrows on the campus Wednesday evening, December 3.

#### SOME MONEY RAISING UNDERTAKINGS OF COLLEGE ALUMNI.

Brown University is to raise three million for increases of salaries and for maintenance. Tuition will be raised from \$175 to \$200.

Nine Wisconsin colleges, representing both the Catholic Church and several Protestant denominations, have formed an organization called the Wisconsin Colleges Associated, and organized a campaign to raise \$5,000,000 at once and eventually something over \$20,000,000 for endowment and rehabilitation. The money received will be divided among them in proportion to their student hours.

Syracuse University is raising money for a Women's Dormitory. At the Syracuse-Colgate game, Syracuse girls went among the crowds selling "hot dog" sandwiches, peanuts and candy to help in the project.

Princeton is planning an elaborate reorganization of her Engineering School, for which three millions is asked for in the Endowment Fund Campaign.

Harvard is raising fifteen million for the Harvard Endowment Fund a large proportion of which is to go for increases in salaries.

Wisconsin will erect a Memorial Union Building as a tribute to its members who served in the war. A campaign has begun to raise \$750,000 for this purpose.

Massachusetts Agricultural College, Amherst, is raising \$100,000 for a Union Memorial Building to commemorate the sacrifice of Massachusetts Agricultural College men in the war.

Vanderbilt launched a campaign for \$250,000 for a Union Building and Memorial last spring and practically the entire amount has been raised.

Leland Stanford is from now on to charge a tuition of \$120 a year. Faculty salaries have been advanced to the following scale: Instructors, \$1,800 to \$2,400; assistant professors, \$2,500 to \$3,000; assistant professors, \$3,250 to \$4,000; professors, \$4,500 to \$7,000.

#### WEDDINGS.

##### SMITH-ALLEN.

Edith Smith (with '17) of Haslett, Michigan, and Robert Allen were married at the home of the bride on Saturday, November 1. They have purchased a farm near Williamston, where they will move early in the spring.

##### HILLIKER-ZANDER.

Ella Louise Hilliker, '17, of Grand Ledge, Michigan, and Edwin Earl Zander of Three Rivers, were married at the bride's home on September 10. They will make their home in Pigeon, where Mrs. Zander taught since graduation, and where Mr. Zander has a responsible position with the Eddy Paper Co.

## Alumni Notes

'84.

Clarence E. Smith of Waukegan, Illinois, will spend the winter in the south.

'97.

Charles F. Hermann, of Minneapolis, Minnesota, with Mrs. Hermann, visited the college last week, while in Lansing on a visit with friends and relatives.

G. A. Parker, 1243 Carlton Road E., Cleveland, Ohio, is still sales engineer for the C. O. Bartlett & Snow Co.

'98.

Oliver R. Austin (with) since his return from overseas, where he was a surgeon in the 12th Field Artillery, has resumed his practice as physician and surgeon at Aberdeen, Washington.

'00.

H. Eugene Price and Mrs. Price of 602 E. Chapin St., Cadillac, Michigan, were campus callers last week.

'02.

C. I. Brunger is specializing in Holstein cattle at Grand Ledge, Mich.

D. S. Bullock is in the extension department of the University of Wisconsin, and is living at 1713 Hoyt, Madison.

'03.

W. M. Brown, vice-president of the Brown-Hutchinson Iron Works, has moved from 91 Meldrum Ave., Detroit, to 531 Clay Ave.

'06.

Harry Hogue "Senator" (with) is sheriff of Berrien county, Michigan, and has his headquarters at St. Joseph.

'07.

C. B. Peck, associate editor of the Railway Age at East Orange, N. J., has been transferred to Chicago, with offices in the Transportation Building.

'08.

E. S. Martin of Ambler, Pa., has moved to Pittsburg, and is living at 3606 Davison St.

Mr. and Mrs. (Florence Barlow) Floyd A. Gregory announce the birth of a daughter at their home at Priest River, Idaho, on September 19.

George W. Symes (with) who was overseas with the 85th Division, was discharged early in the summer, and is now at his home in Bancroft, Mich.

Mr. and Mrs. (Amy Hurlburt) John T. Fowler, of Pontiac, Mich., wish to announce the arrival of their third son, October 21. The young man will respond to the name of Thomas Richard.

'11.

Dr. and Mrs. Fred J. Dingler (with) of Seattle, Oregon, announce the arrival of a daughter, Edna Mae, on October 19th.

Leslie LaVerne, Urch, recently discharged from the service, is a real estate salesman with the Harger Real Estate Co., Pontiac, and is living at 396 Vicksburg Ave., Detroit.

Fred J. Richards is in the works engineers' office of the Buick Motor Co., Flint, Mich.

Ray C. Edwards and Mrs. Edwards (Anna Thompson, with '10) announce the arrival of a son, Ray Carroll, on October 25. They are living at Arcadia, Michigan, where Edwards is a member of the firm of Edwards Brothers, dealers in hardware supplies, auto tires and farm machinery.

'12.

Nels Hansen is at Williamsport, Pa., as building superintendent for the J. K. Mosser Co., a branch of Armour and Co., of Chicago, which concern he has been with for several years.

C. R. Gifford of Davison, Michigan, is tests engineer for the Peoples Power Co., at Moline, Illinois.

Josephine Hart is again teaching household arts in the Lincoln high school at Seattle, Washington.

sell, Mass.

#### '13.

W. S. Fields is pathological inspec-  
tor for the Federal Horticultural  
Board at Washington, D. C.

"Freddie" Bush has been discharged  
from the navy, and is with the post  
office department in Detroit.

J. S. Sibley was discharged from a  
hospital in the west on August 12th,  
after eighteen months' service in the  
Signal Corps cantonment. He was  
married a year ago to Frances Pol-  
lock while at Vancouver Barracks,  
Washington. He is now back in Pon-  
tiac as a member of the firm of J. L.  
Sibley & Co., dealers in wood, coal and  
coke.

#### '14.

Charles Williams (with), who has  
been in the engineering department of  
the Buick Motor Co. at Flint for sev-  
eral years, has recently accepted a po-  
sition as efficiency engineer with the  
Sampson Motor Co., at Jamesville,  
Wisconsin. This concern is a branch  
of the General Motors Co. and manu-  
factures nine passenger touring cars  
and trucks.

Paul E. Kuenzel and Mrs. Kuenzel  
(Mae Bartlett, '14), formerly of Cobre,  
Nevada, are living at 502 E. 56th St.,  
N. Portland, Oregon. Mr. Kuenzel is  
with the U. S. Forest Service.

An infant son, Richard David, came  
to live with George E. and Mrs. (Eve-  
lyn Harbottle) Gauthier Sunday, No-  
vember 29.

#### '15.

B. B. and Mrs. Adams (Mildred Far-  
well) announce the birth of a nine  
and a half pound daughter, Anne Far-  
well, on November 20. The Adams live  
at Rockville, Indiana, where he is  
county agricultural agent.

"Pat" Henry is vice president of the  
Fry Brokerage Co., distributors of  
fruit and vegetable products, 192 N.  
Clark St., Chicago. "Van" Taggart,  
'16, is secretary. They represent most  
large shippers for Florida and Cali-  
fornia.

#### '16.

Can anyone tell us of the present  
addresses of S. D. Semenow, C. E. Mil-  
ler, and Alice E. Smallegan, all of '16?  
James M. Johnson, Jr., and Mrs.  
Johnson (Pauline Haynes, with '19) are  
living at 693 Lothrop Ave., Detroit,  
where he is assistant superintendent  
of the Automatic Products Co.

Oscar S. Shields, 719 Hancock St.,  
Brooklyn, N. Y., is still with the Bor-  
den's Farm Products Co., as dairy bac-  
teriologist. He has a son 2½ years  
old who is getting ready to be an M.  
A. C. yelmaster. His father says, "He  
can certainly cheer for the dear old  
M. A. C." And he adds that the doors  
of their home are forever open to any  
M. A. C. alumnus who happens to be  
in New York.

Rose Hogue is in charge of the  
home economics department of the  
Central State Normal, at Mt. Clemens,  
Michigan, and is living at 1010 S.  
Main St.

#### '17.

Carl M. Kidman, Onaway, Michigan,  
is "still doing county agent work in  
Presque Isle county, the garden spot  
of Northern Michigan." He says he  
did his "bit" by sending three new  
students to "good old M. A. C." this  
fall.

G. H. Gillespie is assistant patholo-  
gist in the U. S. Department of Agri-  
culture, Office of Cereal Investigations,  
Washington, D. C.

Henry N. Putnam, since his return  
from the service, has been engaged in  
blister rust control work for the Bu-  
reau of Plant Industry, Washington,  
D. C., and is stationed at the Univer-  
sity at Berkeley, Calif.

Daniel Gower is now located at  
Farmington, N. Mexico, where he is  
employed in his father's apple orch-  
ard.

G. M. Glidden, since August 1, has  
been acting general manager of the  
Central Service Co., El Campo, Texas.  
They furnish electricity, city water,  
and ice for El Campo, a city of 3,000.

## A Gateway—Electrical

ONLY a forty-foot gateway bounded by two brick pilasters and ornamental lamps, but unlike any other gateway in the entire world.

For back of it is the General Electric Company's main office building, accommodating 2300 employees. And just next door is its laboratory with the best equipment for testing, standardizing and research at the command of capable engineers. Then down the street—a mile long—are other buildings where everything electrical, from the smallest lamp socket to the huge turbines for electrically propelled battle-ships, is made by the 20,000 electrical workers who daily stream through.

What a story this gate would tell, if it could, of the leaders of the electrical industry and business, of ambassadors from other institutions and from foreign lands.

The story would be the history of electric lighting, electric transportation, electric industries and electricity in the home.

This gateway, as well as the research, engineering, manufacturing and commercial resources back of it, is open to all who are working for the betterment of the electrical industry.

*Illustrated bulletin, Y-863, describing the company's several plants, will be mailed upon request. Address General Electric Company, Desk 43, Schenectady, N. Y.*
