THE M. A. C. RECORD

VOL. XXV.

EAST LANSING, MICHIGAN, DECEMBER 19, 1910.

NO. 13

THE H. C. OF L., it would seem, is still a stranger on the campus. Club A, in Wells, which feeds 400, the only men's club on the campus, proved that M. A. C. is still an inexpensive place to live, when it announced its rates at \$3.96 a week for the past term. Club F, operated by Mrs. Eastman at the College Cottage for girls, did even better with a weekly rate of \$3.56. Club C, which is the club at the Women's building, came next with \$4.16, while the most expensive board, which fell below the general estimate given at the beginning of the term, was only \$4.97 for the Senior House. The higher rate here is due to the small number of girls and the high overhead expense.

PLANS ARE ALREADY UNDER WAY for a big interscholastic band tournament, in which high schools from all over the state will participate, to be held at M. A. C. some time during the spring term. This tournament should bring students from a large number of high schools to the college, and result in favorable advertising for M. A. C. Rewards for the winning organizations will be decided upon later.

THE MEETING of extension specialists and county agents which was to have been held in Pontiac, Michigan, December 8 to 11, was held, but because of lack of hotel accommodations it was necessary to change the place of meeting to Clarkston, a summer resort twelve miles away. One of the summer hotels there was opened up, and C. B. Cook, '88, with the ingenuity which is part of a county agent's qualifications, established a private bus line and transferred all representatives to Clarkston.

THE WILLIAM RIKER JOHNSON Post has been presented with a large photograph of William R. Johnson, '12, of Hadley, Mich., for which the post was named. Mrs. Chas. P. Johnson, mother of William Johnson, visited the campus a few days ago, and brought the picture with her.

THE RUMOR that has been going the rounds of the campus for several weeks that Wells Hall was to be turned into a dormitory for girls next year, is entirely without foundation, according to President Kedzie. Several societies now in Wells Hall and fearful of the truth of the rumor have bought or are contemplating securing off-campus society houses.

THE WILLIAM RIKER JOHNSON Post of the American Legion at East Lansing, of which W. H. Thies, '19, is post commander, entertained the Lansing Post at a smoker last week. Music by the M. A. C. band, stunts,

boxing and wrestling featured the smoker. Wallace S. Beden, '16, commander of the Lansing post, gave a splendid talk on Americanism and American Legionism.

FOLLOWING THE SOUTH DAKOTA victory at the time of the Annual Home-Coming, the judilant victors, after rushing all the picture shows and indulging in parades and bon fires, decided to take some little souvenirs home. A bill for \$142.92 has recently been presented to the college by the Lansing street car company. Some of the items mentioned are 532 free rides, celluloid rings and straps. The bill will probably be paid by the classes.

THE MARRIED STUDENTS' Association, which for many years flourished on the campus, has been revived again.

THE CAMPUS CLUB, which for so many years satisfied the inner wants of hundreds of undergraduates on the campus, serves its last meal at the end of this school term. The house has been leased by the Trimoria Literary Society for a year and a half. The Trimorias will take possession at the beginning of the new year.

THE STATE VETERINARY Association will hold its annual meeting at the college during Farmers' Week, February 2-6. Dr. J. A. Kiernam, chief of the Tuberculosis Eradication of the Department of Animal Industry of the United States Department of Agriculture will be one of the principal speakers. He will also give an address on Thursday afternoon at the general Farmers' Week program, on "The Livestock Situation as it is Today."

ALPHA ZETA, honorary, agricultural fraternity, initiated five new men last Wednesday, December 10. A banquet and program at the Wildwood in the evening closed the initiation. The initiates were W. C. Boman, '20, Flushing, Mich.; C. O. DeVries, '20, East Lansing; R. E. Trippensee, '20, St. Charles, Mich.; A. M. Estes, '20, Colon, Mich., and T. S. Blair, '21, Harrisburg, Pa. The special feature of the evening was a talk given by Prof. French on the ideals of Alpha Zeta.

THE MEMBERS of this year's football eleven and the substitutes with their guests were given a formal dinner dance at the Hotel Downey in Lansing on Friday evening, December 12, by the athletic association. The captains of the class teams were also among the guests. A very unique five course "football" dinner was served, and dancing interspersed the courses and followed until eleven o'clock.

"ARE THE SMOKES being passed for the last time?" was probably the question uppermost in the minds of the members of the State Board of Agriculture when they met in the president's office for the last session of the year on Wednesday of this week. In January a woman will be one of their number, and smoking will be taboo. Mrs. Dora Stockman grange lecturer and well known rural worker, and L. Whitney Watkins, '93, will occupy the chairs of Robert D. Graham of Grand Rapids, and Alfred J. Doherty of Clare, retiring members, at the next meeting.

THE HOUSING SITUATION will probably be the biggest problem which the college will have to solve during Farmers' Week in February. With East Lansing homes taxed almost to their capacity and a new influx of short course students expected next term, some special arrangements are being planned to take care of the winter week visitors. Ashley M. Berridge, '12, director of short courses, has this matter in charge and he has assured the various organizations which have been invited to come to the campus for their meetings that they will be taken care of.

A SUNDAY AFTERNOON concert was enjoyed by an appreciative audience that completely filled the armory. New selections and old familiar airs alike were enjoyed from the band and the vocal selections, something of an innovation, were especially well received. Prof. Taylor gave a short talk on music and the musical work that the college is doing.

THE HONORARY Forestry Fraternity, Xi Sigma Pi, held its fall initiation early this week. B. H. Bentley, '20, Ceresco, Mich., R. P. Maloney, '21, Linden, Mich., and Paul L. Ginter, '21, New Carlisle, Ind., were the men honored. The Beta Chapter of this national fraternity was organized at M. A. C. in 1916, and since then it has done much to promote a high standard of scholarship in forestry.

THE EAST LANSING Business Men's Association held a business meeting and banquet at the Masonic Temple in East Lansing on Thursday, December 11. Everybody aired his pet views on the best methods of developing East Lansing, and paid 44 cents for the banquet. Nevertheless an unusual interest was manifest and a constructive program, well drawn, of community development was resolved upon. Luther H. Baker, '93, was elected president of the Association for the coming year.

FRIDAY, DECEMBER 19, 1919.

ATTENDANCE.

Many questions have been asked by alumni and friends of the college concerning the enrollment. Some think our enrollment very encouraging, and others wonder why it is not larger, considering the revived interest in education all over the country and the increased attendance in many institutions of learning. At the meeting of the East Lansing Business Men last week the question was discussed, and a variety of opinions expressed. Some attributed it partly to the fact that our accommodations here are insufficient and prospective students were doubtful of places in which to live.

In the opinion of many, conditions which developed during the war have a marked influence. To a large extent, army training has been along engineering lines. Often the engineers were the men who did many of the big things. They laid out the camps, installed the water, sewage and electric lighting systems, developed and controlled communications, manned the railroads, and operated the artillery, both light and heavy. A knowledge of mathematics was essential in almost every division of the army. And now possibly as a result the pendulum is swinging towards an engineering education. This is evidenced at M. A. C. with the largest freshman engineering enrollment in the history of the college, completely outnumbering the agricultural enrollment. Naturally a large number of prospective students who were unacquainted with our engineering facilities would consider other schools in preference to an agricultural college, and our usual quota would be lessened accordingly.

It is generally acknowledged by thinking people everywhere that the scarcity of labor and high prices now obtained for farm produce have kept a great many young men on the farms,

who might enter college or seek other fields. Since a large percentage of the young men entering M. A. C. come from the rural communities, our enrollment would again be affected, while a strictly engineering school, a medical school, a literary or law school that does not draw its students largely from the rural population would not have these national economic conditions reflected in its enrollment.

But whatever the reasons, logical or otherwise, the fact remains that the attendance is several hundred less than that previous to the war. The point about attendance that really demands the attention of alumni is the opportunity that is indicated for alumni service in building it up.

* * *

The next issue will be of January 9. In the meantime may we wish you, the members of the M. A. C. Association, a jolly Christmas and a right merry New Year.

ARTHUR J. ANDERSON '05.

At the old farm home near New Era, Oceana county, Michigan, on December 9th, Arthur J. Anderson, '05, passed into the Great Beyond at the comparatively early age of 41 years.

It has been known for some time to relatives and friends of Mr. Anderson that he was afflicted with an intestinal trouble, a remedy for which the best medical skill available gave little encouragement. Nevertheless the sudden death comes as a great shock, not only to his immediate family, but also to his wide circle of friends and acquaintances.

To the men and women who knew "Andy" in college, the tidings of his death will bring surprise and regret and arouse the memories and the universal love and affection in which he was held for he was one of the most likeable men. Among college students it is comparatively easy for those who desire to force themselves into prominence in collegiate matters and to receive the cheers and plaudits of their fellows; few ever win their love; but Mr. Anderson won the love and kept it, not only through his college course but through the years.

Up to the time of his graduation he was considered one of the best all-around students to whom the institution had granted a diploma. He was a member of the Union Literary Society.

Soon after his graduation he accepted the position of associate editor of the Ohio Farmer, owned by the Lawrence Publishing Company, with offices in Cleveland. In the spring of 1909 he was appointed to the position of editor of the Pennsylvania Farmer, with the same company, making his home in Philadelphia, where he remained until the fatal malady manifested itself which hastened his death.

He was considered by his employers one of the ablest and best men and

they used every means respect, affection and sympathy could suggest to alleviate his sufferings and prolong his useful life. As a mark of respect to his memory, the company was represented at the funeral by two of Mr. Anderson's associates in the Philadelphia office. The minister of the Methodist church to which Mr. Anderson belonged was sent from Philadelphia by the congregation to conduct the funeral services which were attended by a large circle of friends and neighbors. Mr. Gunson represented the college at the funeral.

A widow and two children survive him. A man who was not only able, but good and true has passed on. His absence will be keenly felt by all who knew him and are richer for having had that privilege. —T. G.

RALPH TAYLOR.

Ralph E. Taylor, a special student at M. A. C. in 1905-06, died at San Francisco, California, on September 17, after suffering for several months with complications which baffled his physicians.

J. N. Bidwell, '10, writes that he had the pleasure of working with Taylor at the State Highway Office at Dunsmuir, Calif., during the last few months of his active life. "It was indeed a pleasure," he adds, "to be with one so big-hearted and broad. He was the most consistently conscientious engineer I have ever known."

He leaves a wife and two children, and was a brother of L. H. Taylor, "Tilly," '01.

MISSOURI ALUMNI TO GATHER.

The following announcement comes from the University of Missouri, Columbia:

"On Monday, December 22, at four o'clock p. m., there will be a meeting of the M. A. C. alumni, in room 116 Agricultural Hall. Matters of importance and interest will be taken up.

"Do not forget the time, and do not forget to be prompt."

M. A. C. alumni at Missouri University have known for some time that their "numbers were legion" and are making this attempt to round up and "get a count" on the Michigan Aggies in and about Columbia.

CENTRAL MICHIGAN ASSOCIATION TO HAVE BI-MONTHLY LUNCHEONS.

Officers of the Central Michigan M. A. C. Association are making arrangements during the holidays so that they may hold noonday luncheons beginning early in January. Under the plan proposed the luncheons will be held at the Kerns Hotel or some central cafeteria or restaurant twice a month. It will probably be arranged for cafeteria style so that the gatherings can be flexible and no cer-

tain number have to be guaranteed. It is intended to provide a means of reacquaintance of M. A. C. men in Lansing and vicinity for the purpose of closer co-operation and organization in the interests of alma mater.

Prof. E. H. Ryder of the history department furnished the gasoline and Utter's dray furnished the means of transportation, and each of the co-eds in the building gave a small amount of money. Santa Claus was present and gave each child a toy and some article of warm clothing, such as mit-

tens and caps, from the beautifully decorated Christmas tree. A program and stories with plenty of candy and supper kept the little tots busy until eight o'clock. Mrs. Linda Landon, who was a guest, said it was the most beautiful thing the girls had ever done.

A HEAVY GRID SCHEDULE BEING ARRANGED FOR 1920.

Michigan, Wisconsin, Penn State, Illinois, and Nebraska Are Probable Adversaries.

What Director Brewer terms the "best and most representative football schedule we have ever had" is now in the making for the 1920 season at the athletic office. Considering that M. A. C. has had offers from six of the western conference teams known in sport circles as the Big Ten one can scarcely help accepting the director's views.

Never before have the Aggies been so much in demand as they are this year. Requests have been received from more than 20 of the leading universities and colleges of the country asking for dates on the list of next season's games. Besides the six conference colleges such schools as Penn State and Syracuse in the East and Creighton in the west are more than willing to book the Aggies for games.

The Michigan game this year will probably be played October 16. However, with the number of big games offered the Big Green for next year, the Michigan affair will not hold such an important place in 1920 as it has in former years, and the schedule will not be robbed of its kick after the game with the Yostmen has gone down in history. As in the past few years, it is probable that the battle will be staged on Ferry Field.

Conference Games Rank High.

Among the first games for which arrangements have been practically completed is one with Wisconsin, to be played at Madison, October 9. This will be the first big game of the season and will follow practice games with two of the foremost secondary colleges of the state, probably Kalamazoo college and Albion.

The game with Wisconsin is counted as one of the very best which could possibly be scheduled for the Big Green. In former relations the two institutions have met each other on an equal footing and nothing has ever disturbed the friendly rivalry with which they have played. In addition to this, Director Brewer is a Wisconsin man, being not only a graduate but also a former member of the athletic department of the university.

In completing the schedule, all non-conference colleges are being held off until parley with members of the Big Ten is concluded. In addition to Wisconsin and Michigan, it is hoped that

three other conference teams can be met. Among those who have displayed most interest in the prospects of games are Illinois, Northwestern, Purdue and Indiana. Both Zupke of Illinois and Stiehm of Indiana have been keeping up a running fire of correspondence relative to the possibilities of signing papers, and there is every reason to believe that Purdue is looking with favor on another meeting with the Aggies.

Intersectional Chances Many.

There is no lack of colleges in the east and west from which opponents can be picked for one or more intersectional games. Creighton, one of the strongest teams in the west, is anxious to get the Big Green for the big game of the season in Omaha. Omaha has no rival as a football city in the west, and the offer to the Aggies of the year's feature battle would seem to indicate that the latter stand high in the opinion of the gridmen in that part of the country.

St. Louis University and the University of Nebraska are the other big bidders of the west. In the east, Syracuse, Washington and Jefferson and Penn State hold forth as the best bets. Because of the former meeting with Penn State, that college holds high place among the three, although either of the other two would form big attractions for a game at East Lansing.

For the Thanksgiving day game, the University of Cincinnati, Wabash and DePauw are all making offers. Cincinnati is calling for a game to be played in its new stadium, the biggest in the west, while both Hoosier colleges want to meet the Aggies at Indianapolis on Turkey day. Incidentally, very few cities rank Indianapolis in football interest, and a game there never fails to fill the stands of Washington park.

Protect Loyal Fans.

In completing the bill, Director Brewer has the student body of the college and the loyal supporters of Lansing and East Lansing foremost in his mind. Realizing that the greatest pleasure of the fans comes from actually seeing the games, rather than from reading about them, he is determined to get the very best teams available for games on the Aggie field.

MICHIGAN AGGIE WEEK EVERYWHERE.
The Union Memorial Building.

An undertaking of Graduates and Former Students as a Living Memorial to Forty-Two of Our Men Who Did Not Stop to Consider "The Cost."

BASKETEERS TO PLAY BEFORE GEN'L PERSHING THIS WEEK.

The Aggie basketball squad is being divided this week in order to play two games Friday night, one of which is at Camp Custer before General Pershing. The Camp Custer game is a part of an entertainment prepared especially for General Pershing who is visiting the camp on that date.

The other half of the squad is being drilled for a game with the Detroit Athletic Club in that city.

Gilkey and Heasley, forwards, Wilson, center, and Kurtz and Bos, guards, were on the team which will in all probability meet the Detroit Athletic club, Higbee, Palm, Jack Foster, Garret and Robinson, made up the other team, the one which is due to appear before General Pershing at Battle Creek.

While the grooming is being speeded up because of the games with the Detroit Athletic club and Camp Custer, Coach Gauthier has in reality fixed his gaze on the battle with Chicago University, to be staged on the Aggie floor New Year's eve. The Maroons, always among the strongest basketekers in the country, are touted as "unusually fast and accurate this year, and a win over them would give Aggie stock quite a boost in court circles.

GIRLS ENTERTAIN BRICK YARD CHILDREN.

The Y. W. C. A., Omicron Nu and the Sphinx Society, assisted by all the girls in the Women's building, gave a Christmas party for the brick yard children last Sunday afternoon, in the parlors. Thirty-five children between the ages of 3 and 8 were present.

BOXING MAY BECOME MAJOR SPOKT.

A system is now under consideration by athletic directors whereby boxing will be made a major sport at the college. In case the plan is adopted, champions in the various classes will be given monogram sweaters instead of fobs as in previous years.

This action will come as a result of the increased importance which the ring game has assumed at the college this year. According to Director Brewer and Coach Grover, this importance is due largely to popularity of boxing in army and navy circles during the war. For several years many of the large eastern colleges and universities have rated it among their major sports, but mid-western institutions have been slower in putting the ring game on a par with football, baseball, basketball and track.

Early this fall, a regular boxing class was formed to meet twice a week under Coach Grover. At that time the enrollment was slightly over 50. Now the size of the class is rapidly nearing the century mark and it is predicted that after Christmas it will increase to well over that number.

Many of the college pugs are not confining their activities to the semi-weekly meetings, however. They are taking on the same sort of training schedules used by professional glove artists and are doing a turn in the gym every day.

ASS'T COACH "FRIM" '17, ILL.

L. L. Frimodig, '17, has been very ill at the Edward Sparrow Hospital in Lansing, following an operation for appendicitis last Thursday, December 12. The attack came upon him suddenly, and it is the verdict of the doctors that the operation was performed none too soon. "Frim" is the coach who developed the winning All-Fresh team this year, and will be remembered as holding the record among M. A. C. men for letters won. He played basketball and football throughout his college career.

Complications followed the operation, but he is now resting comfortably and it is hoped that he will be able to get back on the floor early in the winter term. In the meantime Johnnie Barr, '21, is directing the work of the yearling basketball tossers.

WEDDINGS.

THOMPSON-MACEACHRON.

William Darius Thompson, '17, and Miss Harriet MacEachron were married on November 25 at the home of the bride's parents, at Waterloo, Iowa. Thompson just recently returned from overseas, where he was a major in the First Division, and was one of the M. A. C. men to receive a D. S. C. The Thompsons will live at Port Huron.

MASON-McCONCHIE.

Arthur C. Mason, '13, and Miss Mary McConchie of Paris, Illinois, were married on October 14. They are at home to M. A. C. friends at 327 18th St., Miami, Florida.

WEEKLY AND MONTHLY LUNCHEONS.

Any associations holding weekly or monthly lunch meetings are invited to announce them here. Is your local association alive? Is it so situated as to be able to arrange for this sort of an M. A. C. gathering? If it is we want your name and your time and place in this column.

Detroit—Wednesday noons, Dining Room 4, Board of Commerce.

Lansing—To be announced later.

Class Notes

'89.

E. H. Bradner, 1423 O street, Sacramento, Calif., continues to carry on his work as Christian Science practitioner.

'87.

E. C. McKee, Rialto, Calif., is continuing in fruit raising and grows lemons and oranges.

E. W. Redman, civil engineer and farmer, Ithaca, Mich., visited the college last week.

'95.

M. W. Fulton, orchardist at Cherry Run, West Virginia, manages to keep busy. Besides his work in fruit growing, he is president of the Appalachian Fruit Growers, a co-operative marketing association with main office at Hagerstown, Maryland, a member of the school board, president of the County Sunday School association, superintendent of a Sunday school, and attendance officer for the schools of the district. His brother, S. H. Fulton, '97, has just completed an automobile trip across the continent. Accompanied by his family he made the trip in a leisurely way, taking seven weeks to cover the 3,100 miles. He is now located for the winter at Corona, Calif.

'99.

Macy H. Lapham of Berkeley, Calif., has been made inspector for the Western Division, Soil Survey, U. S. Department of Agriculture, with headquarters at 208-09 Federal Building. "Territory extends from Pacific Coast to Great Plains," he writes. "More or less acquainted with soil and agricultural conditions in western states. Glad to extend any information at hand to M. A. C.-ites seeking information or locations in the west. No charges, (all paid for by the government) (at same rates as before the war). Always on the job. No strikes."

'01.

L. H. Taylor, "Tilly," who was a captain with the 42d Engineers, A. E. F., is back in Dunsmuir, Calif., with the State Highway department, as construction superintendent.

C. A. McCue, besides his regular every-day job as professor of horticulture at Delaware College and horticulturist for the Delaware Agricultural Experiment Station, is master of Newark Grange, a director of Newark Y. M. C. A., on the finance committee of the Delaware State Grange, and just retired from the board of education after six years' service. "Frank Warren, '98, of Warren Moore Co., contractors, Philadelphia, he writes," has just won a big million dollar contract in Newark, N. J., having but three days

to prepare his bid, while his competitors had weeks. We think down here that Frank is 'some pumpkins' in the contracting world." And he adds that L. S. Munson, '97, with the Dupont Co., Wilmington, Delaware, is making good with a vengeance. He has charge of a large section of the dye works at Deepwater, N. J.

'03.

C. B. Rose, 785 20th Ave., East Moline, Illinois, is works manager for the tractor division of the Moline Plow Co., of Moline.

F. M. Morrison is teaching vocational training in the Norfolk, Virginia public schools for the third year, and with a substantial increase in salary. It is pleasure each week, he says, to look over the Record to know what is doing. He hopes to be able to visit the dear old campus soon, but will miss Old Wells and College Hall.

'04.

Mrs. E. J. Kunze (Grace Taft) is living at 306 Atherton St., State College, Pa., where Mr. Kunze, who was assistant professor in mechanical engineering at M. A. C. from 1910 to 1914, is now professor of industrial engineering. She writes that Prof. Hugo Diemer, who was connected with the M. E. department at M. A. C. in 1901, and has been for several years professor of industrial engineering at Penn State, is now engaged in commercial work in New Haven, Conn.

'07.

W. H. Bidwell (with) is still at Loomis, Placer County, Calif., R. R. No. 38, building up his ranch (fruit and poultry) and carrying a side line of building and contracting, which has grown to about the limit of what he can handle.

Daniel H. Ellis, 616 Owen St., Saginaw, Michigan, who was city superintendent of parks for twelve years, has been in private work as landscape gardener since spring, and has found enough work to keep himself and several men busy.

Wilfred S. Townner (with) a lieutenant in the quartermasters' Corps, A. E. F., is now district sales manager for Fringle and Matthews, and is living at 18 Fulton St. W., Grand Rapids, Mich.

'09.

Justin H. Kline received his discharge from the Marine Corps on November 24, and on November 29 was married to Miss Orpha E. Bingham of Jackson, Mich. Temporarily, he is at the U. S. Government Hospital, 47th St. and Drexel Bld., Chicago.

Nelson McCullough is at Libby, Montana.

'10.

J. N. Bidwell, Box 536, Susanville, Calif., has been associated with the good roads movement for several years mostly with the California Highway Commission as construction engineer on permanent state highways. This year he has been assigned to construction of the summit unit of highway connecting Reno and Honey Lake Valley, Nevada, with Sacramento Valley at Red Bluff, Calif. Mrs. Bidwell and their boy, Jack, are fine and enjoy the high mountains, 4,000 to 6,000 elevation.

J. Conley DeCamp has recently been promoted to deputy supervisor of the Gallatin National Forest of Montana, with headquarters at Bozeman. The forest extends through to the Yellowstone National Park, and Bozeman is on one of the scenic automobile highways into the park. He is always glad to meet M. A. C. people or to furnish information on tourist facilities. DeCamp writes that he hopes to get away for Christmas for a quick trip east and adds that he wants to get married. We are unable to figure out whether he expects to get married, hopes to get sufficient courage to propose, or considers the eastern girls best, and is coming back to look one up. Anyway, we wish him luck.

'11.

Dr. Walter F. Mosher (with), a physician at the Submarine base at San Pedro, Calif., was discharged last spring, and is now at Hollville, Calif.
 Harry Taft is now at Allegan, Mich.
 Leo R. Himmelberger is city bacteriologist for Flint, Michigan.
 Earl G. Forbes, 320 Forest Drive, is locating engineer for the State Highway Department of Idaho, at Coeur D'Alene.

'12.

Valentine Buckham of Kalamazoo, Mich., R. F. D. No. 9, visited the college the first of the week.

Donald W. McKim of Lansing, a corporal in the 85th Division, 310th Ammunition Train, was discharged in June, 1919. He was on his way to the front when the armistice was signed, and was then attached to the First Army Ordnance and did demobilization work in the Argonne Forest until February, 1919.

F. H. McDermid of Battle Creek, Mich., R. R. No. 1, was married last May to Myrtle Hewitt. He is in the fruit growing business and built a new house from the proceeds of last year's apple crop. "Hope the dormitories will be replaced at M. A. C.," he says, "They are the best expression of student life and keep out the tendency to form cliques in college life."

B. W. Harvey, formerly in the service, is now in Detroit at 1090 Virginia Park.

Ed R. Bender, an instructor in the high school at Lewistown, Montana, is living at 505 7th avenue. In a letter to friends at the college he writes, "Perhaps you knew that I spent the summer of 1918 at the University of Minnesota and the University of Chicago studying agriculture and botany. I lived in frat houses in both places too. The men at the house in St. Paul were real scholars and gentlemen, and the ones in Chicago were good poker players. This last summer I spent in Peoria, Ill., five weeks in Bradley Institute studying architecture and five weeks in an architect's office helping to design a million dollar feed mill for the American Milling Co."

Charles B. Baker, who for several years has been with the forest service, first at Kalispell, Montana, and since at Libby, has just come back to Michigan, where he will begin farming at Bancroft. He visited the college on December 11.

Valentine Buckham, Kalamazoo, Michigan, R. R. No. 9, was a campus visitor last week.

'13.

E. H. Collins, civil engineer, and captain of the Coast Artillery, later with the power company at Sault Ste. Marie, has gone to spend the winter with his brother at 6021 3d avenue, N. E., Seattle, Washington. He visited the college on December 10 en route west.

B. C. McCurdy is assistant engineer with the Morgan Engineering Co., at Turrell, Kansas.

L. W. Dunn of Three Rivers, Mich., assistant production manager for Fairbanks Morse, was a college visitor last week.

John F. Morlock, who was overseas with the 85th Division as a lieutenant in the 340th Infantry, was discharged July 24, 1919, and is now at his home at St. Joseph, Michigan.

'14.

Roy F. Irvin and Mrs. Irvin (Alice N. Wood, '14), formerly of New Brunswick, N. J., are now living in Detroit at 671 Lothrop Ave. Irvin is manager of the house organ department of the Wm. N. Albee Company, and his chief duty is to edit the Oakland Sales News, a semi-monthly newspaper for Oakland dealers everywhere. He also writes copy on other accounts. They write that Patricia Ruth Irvin is now a big girl, over four years old, whose chief interest in copy and advertisements indicates her tendency to follow her dad's profession.

sell, Mass.

John Carl Alderdyce, 16 Edward St.,
H. P., Detroit, is an engineer with the
Concrete Steel Fireproofing Co.

Charles L. Merwin is a civil engi-
neer with the department of public
works for the city of Detroit, and is
living at 550 LaSalle Garden.

Alexander Tolchan is living at 2989
Grand Boulevard, Detroit, and is as-
sistant general manager of the Little
Wonder Stove Co.

R. P. Norman, formerly of Bon Ami,
Louisiana, is now at L'Anse, Michigan,
Baraga county.

Gerald H. Mains, formerly of Wash-
ington, D. C., is now in Boston, where
he is taking a course in electrochemi-
cal engineering, having been awarded
a scholarship by the Massachusetts
Institute of Technology. He is living
at 18 Madison St., Somerville, Mass.,
which is a part of greater Boston.

Agnes Stover Smith, formerly of
Fenton, Michigan, is now at Flint, R.
R. No. 1.

R. S. Bishop is a grain dealer at Al-
mont, Michigan.

A letter from Ralph I. Coryell, Bir-
mingham, tells us that his father, R.
J. Coryell, '84, is at present in Gladwin
county, furthering the work of the
Michigan State Farm Bureau. He re-
ports favorably of their work in that
district, the average enrollment run-
ning about 90 per cent. He adds that
he met a number of M. A. C. people at
the State Horticultural meeting in De-
troit, among them being H. K. Beebe,
'14, and Taylor, '11, who are both with
the General Motors Corporation, Boyer
Bldg.

'15.

W. R. Reiterman, who has been in
Cashmere, Washington, for some time,
is now back in Sturgis, Mich.

Arthur L. Sayles, a civil engineer
with the New York Central Railway,
is living at 326 Spitzer Building, To-
ledo, Ohio.

H. W. Hulbert, assistant professor
of farm crops at the University of
Idaho, is in charge of forage crop in-
vestigations.

Richard E. Decker, 1785 Hamilton
Blvd., Detroit, is an engineer with the
Kerr Machinery Co.

Hazel Mundy Wayne is working in
the sales department at the Champion
Ignition Co., Flint, and enjoys her
work. Now and then she sees an M.
A. C. person, and would be mighty
glad to have any who are in the city
call on her at 913 Root St.

'16.

J. P. Smith, who was overseas with
the 21st Engineers, was discharged
early in the summer and is now in
Honolulu, T. H., as assistant engineer
for the Truscon Steel Co. of Youngs-
town, Ohio. He was in the employ
of this concern before entering the
service.

Carl B. Waters is married and is
teaching agriculture in Antwerp, Ohio.
Will S. Cooley is at 5111 Kimbark
St., Chicago.

L. Henry Gork, landscape gardener
for Grand Rapids, Michigan, was a
caller at the M. A. C. Association office
on December 6.

Harry A. Goss, who is still in the
service at Ft. Sheridan, was a campus
visitor on December 6.

Henry A. Jessop is with the Ham-
mond, Standish & Co., Detroit, and is
living at 680 Lothrop St.

C. P. Pressley, formerly in the ser-
vice, is now county agricultural agent
for Schoolcraft Co., Manistique, Mich.

Alice E. Smallegan is temporarily
employed at the Sparrow Hospital at
Lansing, as dietician.

A. B. Robinette, who is farming
near Grand Rapids, R. R. No. 4, was
a college visitor recently.

Burton W. Householder (with) who
formerly had charge of the Upper
Peninsula of Michigan experiment sta-
tion, has been manager of the Whit-
ney Farms for the National Pole Co.,
at Whitney, Menominee County, Michi-
gan, since early summer.

W. K. Makemson, 3309 13th St., N.

NOTE:
We want the public to understand that our plows are NOT the Case plows made by the J. I. Case Plow Works Co.

Why You Should Choose Machinery Built by the J. I. Case Threshing Machine Company, Bearing the Famous Old Trade Mark of the Eagle on the Globe.

If you could be here in Racine, and could spend a week going through our great shops, you would learn some things that would open your eyes to the superiority of the entire line of machinery we manufacture.

Because of our great output, we are able to buy better quality of steel for the same price that lower grades of steel would cost in smaller quantities. This means greater strength and longer service to you.

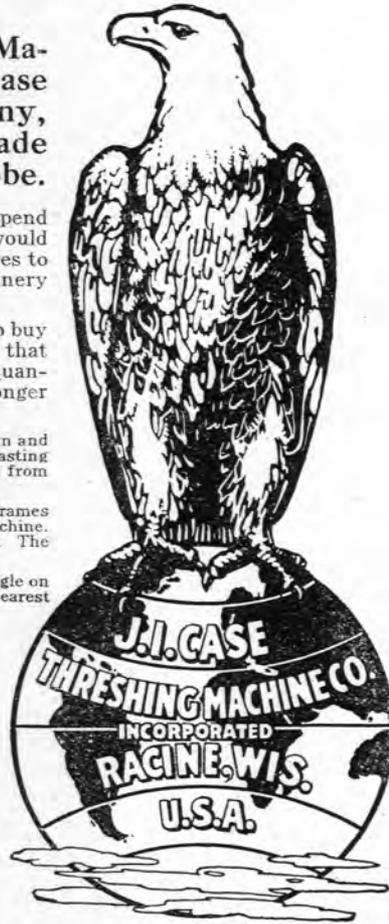

Because of unusual manufacturing facilities, we can and do use drop forgings in hundreds of places where a casting might "get by" — and might break. We protect you from taking the chance.

Holes for bearings in Case Kerosene Tractor main frames are bored and reamed in one operation by a special machine. Bearings can never shift from their proper positions. The frame can never twist or warp.

Case machinery, bearing the trade mark of the Eagle on the Globe has many other advantages. Ask the nearest Case dealer to point them out to you on

- Kerosene Tractors Steam Tractors
- Threshers
- Steam Rollers Baling Presses
- Silo Fillers
- Rock Crushers Road Graders
- Grand Detour Plows

J. I. CASE THRESHING MACHINE COMPANY, Inc.
Dep't CH-12, RACINE, WIS., U. S. A.
Making Superior Farm Machinery since 1842

Look for the EAGLE. Our Trade Mark

To avoid confusion, the J. I. CASE THRESHING MACHINE COMPANY desires to have it known that it is not now and never has been interested in, or in any way connected or affiliated with the J. I. Case Plow Works, or the Wallis Tractor Company, or the J. I. Case Plow Works Co.
