LOCAL NEWS.

Dr. Kedzie is in Grand Haven.

The Shakspeare Club met at Prof. Holdsworth's last night and finished reading "The Rivals." The Club adjourned until May 25 to meet at Dr. Kedzie's home.

Last Monday was the day set for the Olivet nine to play the Albions but the rain prevented the game. We all hope for a pleasant day Saturday. Besides the games mentioned in the last issue there will also be a tennis game between M. A. C. and Olivet.

There was a collision between a horse with a buck board and J. R. Potter with a bicycle yesterday; the result was a sandwich with the horse in the middle. No damage save a broken thill.

Much indignation is expressed by those who have admired our lawns.

Meterological Data.

The new anemometer for the Chemical Laboratory has arrived. The cups are made of aluminum; it is a beauty.

In April we had only two inches of rain, all ready we have had more than that so far in May.

Found— a new use for soil thermometers.
