VOL. XXV.

EAST LANSING, MICHIGAN, JANUARY 23, 1920.

NO. 16

ELIDA YAKELEY left last week for a rather extended trip into warmer climates. She sailed from New York on the Philadelphia on Saturday, January 19, for Porto Rico. She was uncertain as to just how long she would stay there or where she would go, as reservations are hard to get and usually have to be arranged for in advance, but she hopes to visit the British West Indies before her return. She will probably be gone until about March 1st.

THE GLEE CLUB plans for the annual trip during spring vacation are well under way. The club will carry about 24 men, also eight men of the recently organized Mandolin-Guitar club, a reader, and Director Taylor.

NEW BLEACHERS have been purchased by the athletic department to accommodate the large crowds which attend the basketball games. The new bleachers will be placed at the east end of the gymnasium floor and will be used by the co-eds. This will permit the use of chairs along the side lines for reserved seats, and gives a seating capacity of 2,000.

EVERYONE ON THE CAMPUS is co-operating to help in Farmers' and Housewives' Week preparations, for February 2-6. Most of the departments will have exhibits, and the college will be turned over to the visitors. The music department is training the band, Glee Club, and Mandolin Club to assist in various entertainments; East Lansing homes and boarding clubs will be thrown open; and no efforts are being spared to make the week an unprecedented success.

PRESIDENT KEDZIE returned to his duties last week after a ten days' illness following an operation on his nose.

A PETITION SIGNED BY 100 MEMBERS of the faculty was presented at the State Board meeting this week, asking for increases in salaries. No definite amounts were asked for, simply a formal request that the state board look into the situation make such increases in the salaries of the instructional staff of the college as is made necessary by the greatly increased cost of living.

ABOUT SEVENTY HIGH SCHOOL superintendents throughout Michigan have been sent a questionnaire by Prof. Taylor, director of the department of music, relative to entering a band in the big tournament which is to be held at M. A. C. on the day of the interscholastic class meet. This questionnaire merely seeks information as

to the size and length of organization of the various high school bands, and asks of each school whether or not it will enter its organization in the tournament. It is expected that the plan will meet with approval by a large number of schools.

ONE NEW STREET-CAR TRAIN of two cars, a double powered motor car and trailer was put into service on the East Michigan avenue line Tuesday morning. Two more trains of identical kind are now being completed for the company and will be in city service here as soon as they are equipped, probably some time within the next 60 days. This new train will actually seat 150 people comfortably. The motor car is about 10 feet longer than the largest old cars in service here, with four motors instead of two. Passengers enter and leave at the front of both the motor car and the trailer, rear doors, which are for emergency use, being manipulated from the front by the motorman or conductor. On the motor car the seating is along the sides and rear end with a roomy floor space in the middle for its entire length. The new equipment is heralded with joy by college folk who have been suffering with other winter discomforts that of intermittent service and overcrowded cars.

THERE IS ONE ALUMNUS in East Lansing who is collecting real facts on affairs of college faculty and alumni in East Lansing. He is George Ewing, "Buck," '92. "Buck" is the official census taker for the city and has the job well toward completion.

DIRECTOR BREWER attended the first annual meeting of the State Council of Physical Education at Ann Arbor January 15-16. The council was composed of directors of physical training in colleges, schools, and other organizations in Michigan. Mr. Brewer gave two addresses before the assembly, one on "Sportsmanship in Intercollegiate Athletics," and the other on "Physical Training in Colleges, Schools, and Other Organizations Throughout Michigan."

J. W. NICOLSON, '15, extension specialist at the college, and secretary of the State Crop Improvement Association, gave an address last week before the Indiana Corn Improvement Association as a part of Purdue Farmers' Week program.

DEMANDING COST OF PRODUCTION figures for the farm industry and holding business organization as the surest way of obtaining the ends they seek, the Michigan Live Stock Breed-

ers and Feeders Association which met at the college last week, went on record as supporting the Michigan Farm Bureau and expressed the belief that its organization would meet many of the farmers' problems. In the new election of officers, George A. Brown, '07, of the Animal Husbandry department of the college, was elected secretary, and W. E. J. Edwards, also of the animal husbandry department, assistant secretary.

THE PAINTING, "The Marshes," which was presented to the college by Samuel Kennedy, '01, last spring, has been placed in the reading room of the library.

THE EAST LANSING Weather Bureau is just beginning a service which will report to the public the condition of Michigan highways. D. A. Seeley, '98, in charge of the weather bureau station, is now making a survey of highways leading out of Lansing and of trunk roads to Detroit, Chicago and other places. Government franked cards will be sent out, asking for reports of conditions of roads in the vicinity of the one reporting. Bad places or detours are especially asked to be reported. The information obtained will be tabulated and prepared for publication, to be sent out over the state as a weather bureau road reporting service.

AT A RECENT MEETING of the national fair associations in Chicago fair secretaries from all over the country decided that the interest in sports aroused among the soldiers during the war makes it imperative that sporting events be given greater consideration in their coming expositions. Athletic contests are to be a feature of Michigan's next state fair.

TWO NEW INSTRUCTORS have been secured for the department of mathematics. V. G. Grove is a graduate of Olivet and the University of Kentucky and comes here from Cornell, where he has been doing graduate work. C. T. Bumer, a graduate of Dennison, comes to M. A. C. from Salem College, W. Va., where he was head of the department of mathematics.

DON F. JONES, '16, of Saranac, returned to the college at the beginning of winter term as an instructor in the mechanical engineering department. He has been employed at the Olds Motor Works since his return from overseas service. He was a first lieutenant in the motor transportations corps, and while at Langres, France, was awarded a citation by General Pershing for meritorious and conspicuous service.

THE M. A. C. RECORD

Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

Published every Friday during the College Year by the Michigan Agricultural College Association.

W. K. Prudden, '78, Lansing, President
E. W. Ranney, '00, Greenville, Vice President
H. H. Musselman, '08, East Lansing, Treasurer

Make Remittances payable to the M. A. C. Association.

Unless members request a discontinuance it will be assumed that a renewal of membership is desired.

FRIDAY, JANUARY 23, 1920.

"THE WAGE UP OR THE QUALITY DOWN."

The resignation of Marion L. Burton, president of Minnesota University to accept the presidency of the University of Michigan, is only another example of the loss of a big man because of small salaries and shortage of funds. Of course we congratulate the University of Michigan upon the addition of such an able man to its staff, but the smaller school with limited resources has to suffer. And this is a common occurrence all over the nation in our schools and colleges. Not only are the larger educational institutions taking the able educators away from the smaller ones, but more regrettable still, many valuable men and women are leaving the educational field entirely because of the inducements of industry and business.

This is most forcibly brought to our attention in the resignation of Hugh P. Baker, M. A. C. '01, who has been dean of the School of Forestry at Syracuse for eight years. Under his leadership the school has developed from a small department into the leading technical institution of forestry in the country. He has now resigned to become executive secretary of the American Paper and Pulp Association at a salary which is just double what he is receiving now. While it is undoubtedly true that he was influenced in his decision by the fact that the forestry profession will probably receive as great, if not greater benefits from his association with this big forestry industry, it is also true that any man would naturally be influenced in making a change with such a flattering inducement in salary increase.

And these are only two instances out of hundreds that might be cited.

Many capable men and women are remaining in educational work today on entirely insufficient salaries because their hearts and souls are in it, and they are sacrificing for themselves and their families not only the luxuries of life, but many of the necessities. An article written for the Saturday Evening Post by the wife of one of the most prominent members of the Cornell University faculty, appeared in the December issue, and is enlightening, to say the least.

She says in part, "Yes, the professor's wife loves the academic atmosphere—even as he—but it does not pay the bills. It is hard to believe that the dream of higher salaries for college teachers may at last come true. It is such an old dream to us. Twenty years ago it was not so bad. We had learned to sacrifice the luxuries enjoyed by men in other fields, men who had had a training equivalent to that of our husbands. We were resigned to a special philosophy for professors' families, namely that any sacrifice is worth while that makes it possible to live in the midst of the youth that we love to watch develop through four years, and that we love to give our blessing as it sets forth for the conquest of the world. In those days it was only the question of the sacrifice of luxuries. We had to console our children with explanations of why they could not have ponies like the merchant's children next door; why we could not go to the seashore like the lawyer's and architect's families—but today in the homes of the professors who are not privately endowed, it is not merely the luxuries and comforts that must be sacrificed. It is what have become necessities to a faculty home that counts in student life. Many of the professors' wives have been their husbands' friends in college and mean as much to the development of character in the students through meeting them socially as the professors mean in the intellectual development." But nowadays, she points out, the faculty wife has little time or strength to play the part of hostess to her husband's students because of the additional home work which she must perform to make up for the deficiency in her husband's salary. And many professors' wives, she asserts, are doing clerical work, sewing, writing, keeping roomers and boarders to supplement their husbands' slender salaries.

"In short," she continues, "the professor's wife is fighting a brave but losing fight to keep up the professor's courage and to enable him to stay in the work he loves and could do with his old enthusiasm were it not that what his family shall eat and where-withal it shall be clothed so deeply concern him that he can no longer give his best self to his studies and his students.

"The professor's wage must go up unless his quality is to go down, and the young man entering the faculties

must take the vows of poverty and celibacy or adopt the policy of the bankrupt aristocracy of Europe in search of wealth rather than love in marriage."

RUDOLPH T. LEKSTRUM '17.

News has been received from his mother, Mrs. Elizabeth Lekstrum of Sparta, Michigan, that Rudolph Theodore Lekstrum, with '17, died from wounds received in action on October 19, 1918. Corporal Lekstrum was a member of Co. A, 78th Field Bn. of the 32d Division.

The details of his death are pictured very clearly in the following account by one of his comrades:

On Oct. 12th, 1918, about 12:30 p. m., the 127th Inf. Reg. Hq. and Radio moved from the town of Gesnes to a point about 3 kilometers south between Gesnes and Romagne. After we had communication established, we went looking for some old blankets or something to cover up the set and lamps from view of the enemy's planes. The station was on top of a hill. After Sgt. Strand and I got back, we ate a lunch which we got from a kitchen a short distance from us. We were about to have a drink of coffee, when a shell (155) hit about five feet from where we were standing. Sgt. Strand was on my right and Cpl. Lekstrum was on my left, both about three feet away from me. When I got up Sgt. Strand was lying about 14 feet from me, being seriously wounded in his side. I looked around but could not see Cpl. Lekstrum. He had gotten up and was about 100 feet or more down the hill. I didn't know he was hurt until Co. C men came up and told me that he was seriously wounded in his side

and hip, and that they were giving him first aid. This happened at 4 p. m. Oct. 12th, 1918, about three kilometers south of Gesnes, between Gesnes and Romagne. We took both boys to the first aid station and they were sent to the hospital about 4:45 p. m.

Corporal Lekstrum spent two years at M. A. C. having entered the engineering division in 1913. Soon after leaving college, he enlisted in the Ypsilanti Company of the Michigan National Guard and served with that organization when it later became part of the 32d Division. He had previously served in Battery A of the Michigan Field Artillery.

ROBERT E. MORROW '98.

Mr. Robert E. Morrow, '98, died at his home in Central Lake of heart failure last week. Having been actively engaged in his county activities right up to the time of the attack, Mr. Morrow's death was extremely sudden.

He was one of the most prominent alumni in Northern Michigan and has always been extremely loyal to the college. He was chairman of the Union Memorial Building Campaign for Antrim and Kalkaska counties.

Soon after leaving college, Mr. Morrow was a teacher and farmer at Atwood, Michigan, and later became manager of the creamery there. At the time of his death he was county treasurer of Antrim county, having held that position for several terms. He was credited as one of the most successful farmers in the county. He has a two-hundred acre farm at Central Lake, Michigan, stocked with registered Holsteins.

"His public and private life was of the highest character," writes an associate, "he was always on the right side of every forward movement and very highly thought of in this section of Michigan."

CAMPAIGN "SLANTS."

"I am writing a letter to every man in this district and it looks now as though there would be three or four alumni gatherings at least. We have got about \$2,000 without trying as yet."—Ray Stannard Baker, '89.

"I am enclosing subscription for the Union Memorial Building Fund. If, after several months you find it necessary for each of us to do more, kindly advise and I will see what can be done at that time. I am very much in favor of this proposition and want to do all I am able."—H. L. Brunger, '02.

"Enclosed please find —. I was there in the stump age of '64 and '65. Would like to do more but there are so many calls. I wish you success."—H. B. Eaton, '69.

H. B. Gunnison, '00, has been selected by the Board of Directors of

the Detroit M. A. C. Club as campaign director for Detroit, including the counties of Oakland, Macomb, Wayne and Monroe.

"Enclosed find a ten dollar bill for M. A. C. Union Memorial Building as my Christmas gift to my Alma Mater. Wishing you a prosperous year and more loyal M. A. C. men and women"—M. S. Tarpinian, '17.

("Tarp" had previously sent in a subscription. This was just a "Christmas gift.")

ADDITIONS TO THE UNION MEMORIAL BUILDING COMMITTEES.

Calhoun—Thomas Hooper, '10, Consumers Power Co., Battle Creek, Mich.
Oceana—H. C. Salisbury, '06, Hart, Mich.

OHIO.

Group 2.—E. R. Trangmar, '17, First Nat'l Bank Bldg., Cincinnati.
Group 9.—W. W. Wells, '00, Clyde, Ohio, Chairman.

THE CAMPAIGN DIRECTORS.

Ellis W. Ranney '00, Director of the Memorial Building Drive in Michigan.

One of his best friends tells Mr. Ranney's life history in this manner: Born, Belding, Mich., Feb. 23, 1878. Graduated, Belding H. S., 1896. Graduated M. A. C., 1900.

Married "Tussie" A. Bristol, Oct. 17, 1900, at Almont, Mich.; has five children, one of whom, Mary Emily, is at M. A. C. now (a freshman).

Vice President and Treasurer Ranney Refrigerator Co.; treasurer Moore Plow and Implement Co.; director Michigan Motor Garment Co., all of

Greenville; part owner of a dairy farm at Belding, Michigan.

Chairman Montcalm county war board; chairman Montcalm county Y. M. C. A. committee; president Greenville school board (9th year); member board of trustees Ionia State Hospital, Ionia, Mich.; works like H— every day.

ALUMNI MEETINGS.

Washington, D. C.

The annual meeting of M. A. C. alumni of Washington, D. C., is to be held Saturday night, February 7. Arrangements are being made for a big affair, a regular after-the-war reunion of all of the Washingtonian Aggies.

Pres. Clay Tallman, '95, Commissioner of the General Land Office, and president of the Washington Association, is making the general arrangements for the rally.

Athletic Director Brewer has been asked to attend the meeting and will represent the college there as will also W. K. Prudden, '78, president of the general Association.

Chicago.

The Edgewater Beach Hotel has been selected by Chicago alumni as the place for their banquet on Saturday evening, February 7. A member of the committee reports, "To a man, all favored the Edgewater Beach Hotel. This decision was arrived at because it is the finest and best hotel in the United States. They will furnish the best of food, good for those who love food. They furnish with the food the highest class music, a fifteen-piece orchestra good for those who love music. They will permit us to dance all night. It can be reached by the Northwestern Elevated Edgewater Station. There are lounging rooms in which to reminisce, cozy corners in which to spoon, wet goods in every locker, and—well—it will recall for lots of us the good old college days."

On Saturday, January 17, the following Chicago M. A. C. men gathered for a luncheon at the Hamilton Club to lay plans for the Memorial Building drive: W. R. Rummler, '86, Wm. P. Hawley, '92, H. R. Smith, '95, Will D. Hurd, '99, Dennis Smith, '02, Harry Ruppert, '04, J. H. Frost, '04, R. E. Bell, '05, John Bowditch, '07, J. W. Fisher, '14, D. E. Barman, '14, H. P. Henry, '15, D. D. Henry, '15, Van Cleve Taggart, '16, C. Ditrich, '17, D. L. Peppard, '17.

Milwaukee.

The date for the Milwaukee meeting is Tuesday evening, February 10. The meeting is set at that date so that there will be ample time to follow up the absent ones before the end of the week of the drive.

This from Pres. Davidson: "Milwaukee plans on showing up any equal

number of alumni in the Union Memorial Building campaign. Some of us have always said that we ought to be asked to do something for the old school, and here is the best chance we will ever have. We are going out after a subscription from every single one of our people and are going to get it or know the reason why."

Grand Rapids.

Grand Rapids graduates and former students are planning a luncheon Tuesday evening, January 27, at which time Director Ranney, '00, of Greenville, will present the Memorial Building drive and the campaign plans. R. G. Carr, '08, has been very successful in his Farm Bureau Drive in Kent county and is going to use his experience gained in this to carry over the Memorial Building campaign in his district. He has the assistance of a very capable group of officers headed by Mrs. Alta Lawson Littell.

Portland, Oregon.

Alumni in the far west in the vicinity of Portland, Ore., are making plans for their annual meeting which is always held on Washington's Birthday, February 22. In view of the Union Memorial Building drive, it is possible that their meeting may be held earlier. However, so far, no information has been received of any change in the long established date of the annual gathering.

Detroit.

The annual meeting of the Detroit Club has been postponed four weeks. The meeting, which was to have been held according to regular schedule early in February, has been set along so as to leave everything open for the Memorial drive.

Tentative plans are now being considered for a meeting previous to the drive week which may be held on Saturday night, February 7. An attempt is being made to secure Kenyon L. Butterfield, '91, Pres. of Mass. Agricultural College, to address the meeting. Pres. Butterfield will be in Michigan during that week on account of his several appearances on the College Farmers' Week program.

Owosso.

Shiawassee County Aggies are planning on a gathering Saturday evening, February 7, for the purpose of perfecting an organization of M. A. C. alumni and former students. H. E. Dennison, '11, is in charge of the local arrangements and A. B. Cook, Jr., '93, campaign chairman for the county, is assisting him. The Shiawassee County M. A. C. people have never had an M. A. C. organization, although there have been a number of very energetic and enthusiastic Aggies in Owosso and vicinity.

NEW MEMBERS OF THE STATE BOARD OF AGRICULTURE.

Two new members took their seats in the State Board of Agriculture at the January meeting held Wednesday of this week. The receiving of these two members in the Board is being greeted with pleasure by alumni and friends of the college because of the liberal element which it is felt these two progressives, both successful agriculturalists, will inject into the policies of the new board.

One an alumnus, the other long associated with the college as an agricultural worker, the feeling prevails that alumni interests as well as those of Michigan farmers will be championed by the two entering members.

MRS. DORA STOCKMAN.

For the first time in the history of the college, a woman met as one of the members of the State Board of Agriculture on Wednesday of this week. Mrs. Dora Stockman of Lansing is not only the first woman member of Michigan State Board, but the first woman to go upon the State Board of Agriculture in the nation, and the first woman in Michigan history to be chosen to a state office of any sort by vote of its entire electorate.

In the choice of Mrs. Stockman the people made no mistake. Reared on a farm, and having spent the greater part of her life on one, she appreciates the problems and needs of the farm people. As lecturer of the State Grange she has talked in practically every locality of the state, has been entertained in hundreds of homes, and has kept her finger on the pulse of rural sentiment. Not only this, but she is an authority on food questions and balanced rations for human be-

ings, and all the outstanding features for which the home economics department of the college stands. As a young woman, she regained her health through following the principles of right food and simple living, and since then she has been an enthusiastic student and advocate of all the ideals and doctrines of home economics authorities. Better babies and better homes through better feeding—this may be said to be the outstanding doctrine of her life.

"We recognize the splendid leadership of the Michigan Agricultural College," she says, "its educational opportunities for education and investigation, and the 300,000 organized farm folks of Michigan stand ready to cooperate with the Michigan Agricultural College to help make Michigan the best state of the best nation the world has ever seen."

L. WHITNEY WATKINS '93.

L. Whitney Watkins, '93, began his new term as a member of the State Board of Agriculture on January 1, and met with the Board on Wednesday of this week. He served on the Board from 1899 until 1905, and his return is being welcomed by alumni and all friends of the institution. As an alumnus, he is well awake to the needs of the institution, and his ability to get things done may be counted upon for service to M. A. C.

During his former connection with the State Board, he brought things to pass that demonstrated his regard for Alma Mater. He was chairman of the committee on military and athletic work and was instrumental in inaugurating and developing the present athletic department. He was responsible for the purchase of the land across the river for the athletic field,

and was also responsible for securing for M. A. C. the services of Director G. L. Brewer, who was then athletic coach for Albion college. These facts are of considerable importance when we realize that in '99, when Mr. Watkins became a member of the State Board, M. A. C. had no athletic department and no regular coach. When he graduated in '93 no football or basketball game had ever been played at M. A. C.

Mr. Watkins is a 1,000-acre farmer of Jackson county and the third generation of the family on his farm. While in college he was an Olympic and captain of his class baseball team for two years, 'varsity baseball manager for one year, captain of Company A of the Cadet Corps, and a member of the M. A. C. boxing team. He specialized as a student in general agriculture, horticulture, and natural history.

His standing among Michigan farmers is attested by the offer they recently made him to become their candidate for governor. He did not accept, however, because of the ill health of Mrs. Watkins.

INDIANA WINS BASKET GAME BY ONE POINT.

By means of a basket made from the center of the floor two seconds before the firing of the final gun, the Indiana university team nosed out a victory over the Aggies in the East Lansing gym last night, score 20 to 19. Five seconds before the end of the game time was taken out for Higbie and at this time the Big Green was leading with a single point for a margin. When play was resumed, the ball was taken into Indiana territory, but the Hoosiers intercepted a pass and carried the ball to mid court from which uncertain point Jeffries threw for the goal and won the game.

At the end of the first half, Indiana was leading by five points, the score being 9 to 4. A basket made shortly after the opening of the last period increased the Hoosier lead to seven points. At this time the gymnasium lighting system ceased to function and time was taken out, about 30 minutes to put them back into operation.

When the game was again started the Aggies began a drive which brought the teams even up at 14 points. A field goal by Heasley gave the Aggies a lead, which was taken from them soon by a counter on Dean's part. Higbie then began a series of successful free throws which managed to keep the Aggies in the lead, or at the worst even with their opponents until time was taken out just before the close of the game.

From all standpoints the game will probably go down in the books as the best ever played on the East Lansing court. Indiana was an unusually

strong opponent, but the Aggies played every bit as good a game as that exhibited by the Crimson-clad athletes. To hold the team which has exceptionally good chances of taking conference honors to a one point lead was a feat which required basketball ability of the first order.

Playing out of his position, but with all the speed and fight that usually characterizes his work at forward, Chuck Higbie stood out as the leading light of the battle. His performance in counting nine out of 12 free throws, and of getting those in the latter part of the game when the chances of a victory seemed to hinge on the success of those throws, was as pretty a bit of basketball as could be wished for. A crowd which packed the gymnasium saw the game. Every seat in the stands and reserved sec-

tions was taken, and many fans saw the battle from various positions on the apparatus around the side of the court.

Summary:

| | |
|------------------------|--------------|
| M. A. C. (19) | Indiana (20) |
| Heasley L.F..... | Schuler |
| Gilkey L.F..... | Williams |
| Higbie C..... | Rhea |
| Kurtz R.G..... | Dobbins |
| Garratt L.G..... | Byrum |

Score end of first half, M. A. C. 4, Indiana 9; field goals, M. A. C., Gilkey 2, Higbie, Kurtz, Heasley; Indiana, Schuler, Williams 2, Rhea 2, Byrum, Dean, Jeffries; free throws, Higbie, 9 out of 12; Williams 2 out of 8, Dean, 2 out of 4.

The Aggie five is having a big week this week meeting Kalamazoo college here Jan. 21 and Notre Dame Saturday, Jan. 24, in the gymnasium.

UNION MEMORIAL BUILDING.

The Program of M. A. C. Alumni for a Memorial to M. A. C. Heroes. HERE IT IS.

A fitting and worthy memorial for all the sons and daughters of the Michigan Agricultural College who served and particularly for those forty-two who can never return.

This memorial to be a building that will serve daily just as those boys served, and that will perform a real function in the future life of M. A. C.

This building to be the center of the social and community life of students, alumni, faculty and friends of M. A. C. with meeting halls, club rooms, cafe, dining room and social center rooms for students, alumni and faculty.

In this building is to be preserved in marble or bronze all the names of those who served in the greatest crusade of history, with special memorials, memorial rooms, etc., for each of the thirty-seven who have given their lives "in Flanders fields."

This memorial — Union Memorial Building we shall call it—is to be erected with funds raised by popular subscription from alumni and friends of M. A. C. and is to cost \$150,000 or more.

The history of the war has not been completed until the heroic sons are honored with a living memorial; one's life has not been completed until he does something for posterity which will live after he is gone.

There is no higher patriotism than to help perpetuate the memory of those heroic dead who did not stop to ask the cost; there is no surer immortality than the immortality of service; there is no greater service one can render to the M. A. C. of today and the M. A. C. of tomorrow than to help supply the greatest present need of M. A. C.—a building to

be the center of the social life of students, alumni, and faculty.

M. A. C.'s record in the war has been too great for her alumni to fail now in this final act of that momentous drama. The erection of a memorial to those heroic sons of M. A. C. is second only in its patriotic appeal to the various civilian campaigns during the war.

There can be no greater inspiration to future generations of students than this living memorial to heroism and loyalty.

Plans are under way at practically all universities to erect memorials. Many of them—those that do not already have such a building—are planning a memorial union building similar to the one we are going to erect in honor of M. A. C. heroes. M. A. C. has long needed a general union building combining the many features planned for this alumni memorial hall.

Two general comments are heard on this Memorial:

(1) Alumni who were not in active service say they are ready to do anything to perpetuate the record of those who served and the memory of those who fell.

(2) Alumni who were in active service say they will go the limit to show their devotion to those who have heard their taps eternal and sleep upon the field of honor.

Every former student of M. A. C. will have to help if this plan succeeds. It is going to succeed; we know too well the boys and girls whom M. A. C. has given to the world.

This is an alumni movement, started by the alumni, and with the aid

and co-operation of all the friends of the college, the alumni will put it over.

This is the first big project M. A. C. alumni have ever undertaken.

It cannot fail. Not in our life time will there be another movement such as this, no such opportunity to render such a distinct, unique patriotic service.

Are you ready to do your part in this movement? Will you work and give? What will you do?

HUGH P. BAKER '01, LEAVES SYRACUSE.

Dr. Hugh P. Baker, '01, Dean of the School of Forestry of Syracuse University, resigned on January 10, to become executive secretary of the American Paper and Pulp Association, the parent organization of one of America's greatest industries.

As head of the New York State College of Forestry, Dean Baker has been instrumental during his eight years with the institution in developing the school from a small department into the leading technical institution of forestry in the country. This new position carries with it a salary which is double his present salary with an opportunity of carrying the profession of forestry into a great industrial organization which will make his services as a forester of greater value to the profession. In his letter of resignation he stated that he felt he had come to the end of his work in Syracuse and that this new position offered opportunities in the way of development which he could not see in the old. "The salary," he says, "will probably not mean much more in New York than the salary which was paid me here," but it is significant of the trend of opinion that an article in a Syracuse paper states, "The retirement of Dr. Baker is another evidence of the need for higher salaries in the educational field, to hold the school system up to American standards."

An editorial in another paper shows the type of the man and the high regard in which he was held. "Dean Hugh P. Baker will leave the State College of Forestry after all," it says. "He rejected one offer to enter the wood working industry; a second offer was too tempting to be rejected. We have no heart to find fault with the dean for leaving the institution, which through his efforts has grown so great, when opportunity beckons so insistently. Syracusans, who have felt the stimulating influence of Dean Baker's energized enthusiasm, will deeply regret the change in employment which may mean his permanent removal. He has been one of our most treasured of human assets and we don't at all like to lose him. We shall all, however, wish him success in the business he now undertakes, in a field familiar to him, with complete confidence that success he will deserve and gain."

GENERAL PROGRAM FARMERS' WEEK.

Everything is set for the biggest Farmers' Week in the history of the college, February 2-6.

All meetings and forenoon programs, except where differently specified, will be held in the Agricultural building, with the exception of those for women. These will take place in the Women's Building. Afternoon and evening programs will be presented in the gymnasium. Registration booth and guides will be on hand at the depots and People's Church at East Lansing. Lists of available rooms will also be on file at these places.

Each evening program will have one speaker following moving pictures and travelogues by Dean Alfred Vivian of Ohio State University. The mornings will be devoted to meetings of the various associations. The principal speakers follow:

Monday evening, Feb. 2, Cecil Roberts, well known English poet; Tuesday afternoon, Feb. 3, Dr. H. C. Taylor, Chief of Bureau of Farm Management, Washington, D. C.; evening, Dr. Kenyon L. Butterfield, '91, President of Massachusetts Agricultural College; Wednesday afternoon, Feb. 4, Henrietta W. Calvin, Bureau of Education, Washington, D. C.; evening, Rural Play Demonstration, "Just Plain Jones"; Thursday noon, Feb. 5, 12:15, Alumni banquet at East Lansing Masonic Temple; afternoon, Dr. C. V. McCollum, John Hopkins University; evening, Frank O. Lowden, Governor Illinois; Friday afternoon, Feb. 6, A. F. Lever, Member Federal Farm Loan Board.

The college band will give a concert at the beginning of each afternoon program, and the entire program will be interspersed with community singing and solos.

MARRIAGES.

PINO-ARMSTRONG.

Miss Eugenie Armstrong, '17, and Austin Pino, '17, were united in marriage on December 20, at the home of the bride's parents, Mr. and Mrs. Charles Armstrong of East Lansing. Mrs. Pino was an instructor in the mathematics department of the college during the fall term, and the groom was recently transferred to Detroit as inspector of perishable foods for the United States Bureau of Markets. The

Pinos will live in Detroit at 216 Hogarth Ave. Emerson Armstrong, '11, brother of the bride, was present.

DECAMP-DODD.

John Conley DeCamp, '10, was married to Miss Agnes Dodd, daughter of Mr. and Mrs. Arthur L. Dodd, of Charles City, Iowa, on December 27. The DeCamps will live at Bozeman, Montana, where he is deputy forest supervisor on the Gallatin National Range.

MACKENZIE-BLODGETT.

Clarence S. MacKenzie, '17, and Lois Blodgett, '17, were married December 30 at the home of the bride's parents, Horace E. Blodgett (with '84) and Mrs. Blodgett, of Gaylord, Michigan. They have both been employed at the State Highway Department at Lansing, and will live at 523 N. Walnut street.

WHAT THE DEPARTMENTS ARE DOING.

EDITOR'S NOTE.—We have had requests from time to time to furnish information about the different departments. The first of the series follows on the New Engineering Department by Dean Bissell. Other articles will follow from time to time. We will appreciate any suggestions or comments.

The New Engineering Course.

All engineering students take a prescribed course to the end of the freshman year. From this point some election of technical and professional studies permits students to follow individual inclinations towards special lines of engineering work, but fully one-third of the work of the last three years is taken in common by all engineering students.

In the sophomore year the following group electives are available:

In engineering chemistry, organic chemistry and quantitative analysis.

In civil engineering, advanced surveying, cement and concrete and bacteriology.

In electrical and mechanical engineering, forge work and heat treatment of steel and foundry work and foundry technology.

In the junior year the specialization on general basis is continued:

In engineering chemistry, industrial hygiene, inorganic and organic technology, physical chemistry and metallurgy.

In civil engineering, drawing, topographical mapping and surveying, drainage, sewerage, railroad surveying, astronomy and reinforced cement.

In electrical engineering, electrical measurements, storage batteries and dynamo electric machinery.

In mechanical engineering, shop practice, kinematics and machine design, heat engines and electric automotive applications.

In the senior year the student in—
Engineering chemistry, has special work in geology, advanced technology, industrial chemistry, pyrometry and the chemistry of fuels and non-ferrous metals.

Civil engineering, in addition to foundation courses in graphics, bridge analysis and design, roads and pavements; may elect special work in structural engineering, in highway engineering, in hydraulic engineering, and in sanitary engineering.

Electrical engineering, may emphasize electric power development, transmission and distribution, electric communication, illumination and design.

Mechanical engineering, will find opportunity to do special work in automotive, steam power or industrial engineering.

All students in the first two years have work in drawing, machine design, shop work, surveying, mathematics, chemistry, physics and English; and in the last two years in applied mechanics, electrical and engineering laboratory, steam engineering, etc.

The business, commercial and ethical features of engineering practice are emphasized in all of the technical and professional work, especially in the courses in specifications and contracts, engineering accounting and economics. The last named is optional with English and French in the senior year.

Non-resident lecturers and inspection trips to engineering and manufacturing centers serve to connect the students with engineering practice and spirit. Graduates who "make good" may, under conditions stated elsewhere in the college catalog, apply for and receive professional degrees.

RESOLUTIONS.

Whereas, Almighty God has taken from this world the life of the mother of our brother, Henry A. Fellows; be it

Resolved, That the members of the Trimouira Literary Society extend to the bereaved family our sincere and heartfelt sympathy and further; be it

Resolved, That these resolutions be published in the Holcad and M. A. C. Record, entered in the records of the society and sent to the bereaved family. Signed, C. H. Currie, A. M. Hoppestead, R. W. Noddins, Committee.

Recent Visitors on the Campus.

'18—C. J. Overmeyer, Yuma, Arizona; William DeYoung, U. of Mo., Columbia, Mo.; Morgan Henika, 66 Benjamin Ave. N. Grand Rapids, Mich.; Howard C. Abbott, Lansing, Mich.

'19—Harold F. Thayer, Menominee, Mich.

Class Notes

'74.
F. E. Palmer (with) is president of the Central State Bank at Jackson.

'87.
T. A. Taylor is living at 1496 N. Michigan Ave., Saginaw.

'89.
T. N. Clark, auditor of income tax, U. S. Treasury, Washington, D. C., is living at 4012 Third Ave.

'77.
George Faxon (with) lives at Lyons, Ionia county.

'92.
We have just discovered three '92 men in Ionia county, Ben Smith at Portland, Herbert Waldron at Ionia, and Major J. W. Dunn, who is living in Ionia.

H. B. Fuller is with the North Dakota Agricultural College as county agent leader, and lives at 1118 13th St., Fargo.

'93.
A. T. Stevens, who has been connected with the Connecticut Agricultural College at Storrs for thirteen years, is now head of the gardening department. He has charge of all small fruits and vegetables. He says they have a course in Conversation Horticulture which should be a winner for Michigan.

'97.
Dr. J. W. Rigerink, formerly of Freeport, has moved to Grand Rapids where he is associated with Dr. Northrup in the Metz Building, practice being limited to internal medicine. The Rigerinks are living at 1302 Franklin St. Their youngest daughter Gene, seven months old, is planning on entering M. A. C. in the future.

'02.
Mrs. J. Fred Baker (Bessie Buskirk) who formerly lived in Hopkins, has moved to Wayland.

Frances W. Sly, who was at Valley City, N. Dakota, has moved to 427 S. Figueroa St., Walgrove Apts., Los Angeles, Calif. She is going to take a short vacation and see if she can find a warmer climate than Dakota.

'04.
Robert J. Baldwin, extension director at the college, and Mrs. Baldwin (Bertha Van Orden, '14) are proud to announce the birth of a second daughter on December 30.

'06.
Ernest R. Graham (with) is now living at Crosswell, where he is farming.

'07.
Herbert R. Beckwith, 930 Riverside Drive, South Bend, Indiana, is with the sales department of the Oliver Chilled Plow Works.

'08.
Mabel Mosher, chemist with the Portland Flour Mills, is living at the Campbell Hotel, 23d and Hoyt Sts.,

 sell, Mass.

Portland, Oregon. This is a large
 concern, controlling ten mills in Ore-
 gon and Washington and she finds her
 work very interesting. She spent
 Thanksgiving with Blanch Bair, '10,
 and Belle Alger, '13, and had Christ-
 mas dinner at the home of Verne
 Gongwer, '08. Other M. A. C. people
 she has met are L. C. Thomas (with
 '04), James L. Shaw, '10, K. B. Ste-
 vens, '06, Mrs. G. N. Eastman (Faye
 Wheeler, '99), Clare Perry, '18, and
 Mr. and Mrs. (May Bartlett) Kuenzel,
 '14.

'09.

Bessie McCormick Taylor lives at
 511 George St., Midland.
 B. S. Brown is teaching vocational
 agriculture and junior college work
 at Pomona, Calif.

'10.

E. L. Rodegeb, county agent at
 Willmar, Minn., lives at 908 Becker
 Ave. W.

'11.

E. C. Lindeman, '11, who has been
 at the Y. M. C. A. college at Chicago,
 has resigned and accepted a position
 as head of the department of sociology
 and economics at the University of N.
 Carolina, located at Greensboro, N. C.
 Carl H. Taylor (with), 88 E. Con-
 gress St., Detroit, is in the engineer-
 ing and layout department of the Gen-
 eral Motors Corporation.

E. E. Wallace is now living at 28
 Northwestern Ave., Detroit.

'12.

Bob Burns who was teaching at
 Northwestern High, Detroit, has ac-
 cepted a position as head of the cost
 department for the public utilities
 commission with headquarters at De-
 troit. "Red" Harris is chief engineer
 of the commission.

Russell A. Warner, Washington, D.
 C., has asked to have his address
 changed to 541 21st St.

C. Earl Webb and Mrs. Webb (Er-
 nestine Earle, with '14) had added to
 their family July 27, 1919, another
 promising M. A. C. student, Margaret
 Webb. The Webbs live at 524 Mon-
 roe St., where he is still connected
 with the American Bridge Co. "Other
 M. A. C. men here at present," he says,
 "are J. A. and A. M. Frazer, '03, F. E.
 Burrell, '15, and V. R. Cooledge, '17.
 Mamie Knickerbocker, '13, is teaching
 in our high school."

LeRoy L. Jones, extension poultry-
 man at Purdue, is now living at 318
 Waldron St., Lafayette, Ind.

A. B. Shuart, 314 Bingham St., Lan-
 sing, formerly with the Dominion
 Drop Forge Co. of Walkerville, Ont.,
 is now superintendent and general
 manager of the Federal Forge Co., a
 newly formed Lansing industry.

Dr. Walter Mosher (with) of Holt-
 ville, Calif., recently created quite a
 sensation on the Mexican border, ac-
 cording to a Holtville paper, which is
 in part as follows: "Dr. Mosher had
 an emergency call for a Mexican fam-
 ily, and decided to do without the
 formality of a passport in crossing
 the border. He left his machine on
 the line and walked several miles to
 visit a sick woman. A member of the
 border patrol finding the machine,
 started to investigate. He waited for
 some time for some one to show up,
 and finally notified the customs offi-
 cers and police department of Calexico.
 After several hours of 'watch-
 ful waiting' the customs officers were
 awarded when Dr. Mosher came tramp-
 ing toward the border from the Mexi-
 can side. The doctor of course had
 to make explanations, and the cus-
 toms officers at last decided that this
 'emergency' call was no breach of bor-
 der regulations."

'13.

Arthur D. Wolf is associated with
 his father in the lumber business and
 lives at 553 Terrace Ave., Grand Rap-
 ids.
