Vol. XXV. July 19, 1920. No. 16.

Mid-Summer Number.

THE M. A. C. RECORD

Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

Published every Friday during the College Year by the Michigan Agricultural College Association.

H. E. Thomas, '85, Lansing - President
H. B. Gunnison, '00, Detroit, Vice President
J. H. Prost, '04, Chicago - Treasurer
C. W. McKibbin, '11, Lansing, Secretary and Editor
May E. Foley, '18 - Assistant Secretary
Members of Executive Committee.
Elected at Large:
C. S. Langdon, '11, Hubbardston.
A. C. Anderson, '06, Flint.
Mrs. Helen Esselstyn Wood, '09, Lansing.

MEMBERSHIP IN THE M. A. C. ASSOCIATION which includes subscription to the Record, \$2.00 PER YEAR. Make Remittances payable to the M. A. C. Association. Unless members request a discontinuance it will be assumed that a renewal of membership is desired.

M. A. C. ASSOCIATIONS.

THE M. A. C. RECORD.

THE COLLEGE LATCHSTRING will be out to farm people at the Midsummer Farmers' day on August 7. This is a combination of the Wheat and Soils days held in previous years at the college, and the business meeting will be a general one, including consideration of farm crops and soils subjects. Business and pleasure will be mixed in equal proportion, and preparations for the entertainment of a great crowd of rural visitors are going forward. Every effort is being made to make the day the biggest summer meeting of its kind in the history of Michigan agriculture. County agents are organizing automobile caravans from their particular communities. Speakers of local and national reputation will address the business meeting, among these being Brother Leo, manager of the farm at Notre Dame University. Brother Leo has a wide reputation as a farm management authority and is a specialist in the improvement of depleted soils. The morning will be given over to the inspection of the college plant and more than 100 acres of test plats. More than 80 soil tests are being carried on through the state, and the results of these will be brought to the meeting. L. Whitney Watkins, '93, will be general chairman of the business meeting, and Dr. M. M. McCool of the Soils department, and Prof. J. F. Cox, of the Crops department, will present special phases of their work; and J. W. Nicolson, '15, will represent the Michigan Farm Bureau. Men, women, and children from rural communities from all over the state are invited to come, and special matters of interest and entertainment will be provided for everyone.

J. B. HASSELMAN, of the college Publicity department, attended a meeting of the American Association of Agricultural College Editors at Amherst, Mass., on June 30 and July 1 and 2. Delegates were present from all agricultural colleges in the United States. College, experiment and extension publicity problems were discussed. The chief address of the meeting was given by Ray Stannard Baker, '89, on the problems which confronted him as special press representative for the United States at the Peace Conference. He exhibited the seals of the five American signers of the Treaty of Peace.

"THIS CONFERENCE is one of the best church gatherings of its kind in the country," said Dr. W. W. Diehl, '87, of the conference of rural pastors July 6 to 16. That the rural church of the country must undergo broad readjustment in order to fit itself for leadership of the new economic and social life of the country districts, was the dominant thought in the minds of the 150 delegates in attendance.

THE APIARY DEPARTMENT at the college has charge of the program for the Michigan Beekeepers Association at its summer meeting at Boyne City on July 28 and 29. The location of Boyne City in the heart of the raspberry and milkweed territory of northern Michigan makes it an unusually appropriate place for a summer meeting. Inspection of neighboring apiaries, and addresses by prominent local and national bee men will be included in the program. B. F. Kindig (with '09) and R. H. Kelty, '19, both of the Apiary department, will appear on the program.

M. A. C. WAS REPRESENTED at the Great Lakes-St. Lawrence Tidewater Congress at the Detroit Board of Congress, July 22-24. The official delegates appointed by the State Board of Agriculture from the college were L. Whitney Watkins, '93, Dean R. S. Shaw, Dean G. W. Bissell, and I. Roy Waterbury. Five hundred delegates representing all parts of the United States from the Pacific Coast to the Atlantic, and from the gulf to Maine, with a good number from Canada, made up the assembly. According to Dean Shaw, all were of the unanimous opinion that the proposed channel to be built through the Lachine Rapids in the St. Lawrence, to allow ocean liners to come down to the Great Lakes, would be of unestimated benefit to all parts of the country. Experts at the convention seemed agreed that the greatest ills of our country today are due to lack of transportation facilities. The railroads, it was brought out, will not be able to take care of our present bulk of business normally before three years and by that time business will probably be greatly increased. Dean Shaw was particularly impressed by the splendid spirit of co-operation among the representatives from all parts of the country and the utter disregard of the fact that enormous sums of money would necessarily be spent by the United States on Canadian possessions. The two big problems presented were the necessity of enlarging the St. Lawrence at Lachine Rapids to permit the entry of ocean liners, and the enlarging of some of the harbors on the lakes.

DR. MARION LEROY BURTON, formerly president of the University of Minnesota, began his duties as fifth president of the University of Michigan on July 1.

THE ROTARY CLUB of Lansing held its regular meeting with a picnic dinner at M. A. C. on Friday, July 2.

EAST LANSING is having a six weeks' daily vacation Bible school, which has had an average attendance of 130. This is one of ten schools being conducted in Lansing and East Lansing.

DISCOVERY THAT LARGE areas of land in Berrien county are underlaid at a depth of about three feet with high limestone bearing materials, is reported by Dr. M. M. McCool of the Soils department. This subsoil is of tremendous value to plants whose roots penetrate deeply, such as fruit trees and alfalfa, and accounts for the longer duration of alfalfa on such soils. These important findings are the result of soil survey work started recently in Berrien county. The soils section of the experiment station at the college, and the U. S. Department of Agriculture are co-operating on the soil survey work under a mutual agreement which obligates these two organizations to complete the classification and mapping of the entire state. The survey which was begun in Berrien county, will be taken up later in the season in northwestern Michigan, and be extended to the rest of the state as rapidly as possible. The composition of the subsoils is being determined to a depth of at least four feet, and maps will be made which will enable landowners to know exactly which areas are suitable for certain crops.

INDICATIONS POINT to a record-breaking enrollment in the freshman class this fall, if interest is any criterion. The number of applications for enrollment to date is larger by 50 than at the same time last year. And in addition to individual applications, a number of superintendents throughout the state have sent for several applications each, to be filled out by students in their schools.

EAST LANSING is having a community picnic tonight on the college picnic grounds. East Lansing residents, summer school students, faculty and everyone connected with the college or East Lansing is invited to be present. A picnic supper will be served and afterwards community games of all kinds will furnish amusement.

THE PRESIDENT'S OFFICE at the college has prepared for distribution a series of attractive little pamphlets for the departments of forestry, agriculture, engineering, veterinary science and athletics, and some on home economics are in the process of printing. These may be obtained by writing either the president's office or the M. A. C. Association office, if any former students know prospective students interested in any particular department.

PROF. R. H. PETTIT of the Entomology department will leave August 1 for a trip to Florida, by automobile, returning just before Christmas. He will combine business with pleasure and will collect specimens en route, and while in the south. He will make his headquarters at Miami, and will visit Charles Mosher (with '07) who has charge of the Miami aquarium, one of the largest in the world.

REPRESENTATIVES to the number of 300 from the State Farm Bureaus of the middle western states met at the college Tuesday and Wednesday of this week. The meeting was arranged entirely by the Michigan Farm Bureau with headquarters at Lansing, and held at the college because of accommodations. Marketing problems were discussed and the advisability of organizing a sectional elevator exchange along the lines of the one recently organized in Michigan, was considered.

GRASSHOPPERS have been more troublesome in Michigan this summer than for many seasons in the past, and the Entomology department has been besieged with letters asking for instructions to get rid of the pests.

GRANGE MEMBERS and friends from central Michigan held a rally at the college on July 3. An inspection of the buildings and campus was made in the morning, and after a picnic dinner, a program and sports occupied the afternoon. Mrs. Dora Stockman of the State Board of Agriculture had the program in charge. Dancing in the armory, baseball games, swimming in the pool, and games for the children formed the recreation.

EVENT AND COMMENT.

In accordance with the action taken by the M. A. C. Association at Commencement time in recommending that the central office of the association lay plans to increase the enrollment by working with former students, President Thomas has appointed a committee to solicit the co-operation and support of the State Board of Agriculture. This committee consists of L. T. Clark, '04, of Detroit, E. E. Gallup, '12, of East Lansing, and George Gauthier, '14, of Bay City. The resolutions embody the suggestion that new students may best be reached through the former students in various localities, working through and assisted by the East Lansing office.

Along with other actions taken by the alumni at the Commencement reunion, these resolutions signify the renewed interest which the alumni are taking in the college, and the realization that each alumnus owes it to his Alma Mater to bring her advantages before the young people of the state and surrounding states. Every alumnus should appoint himself a committee of one to get behind any and all movements for the betterment and growth of M. A. C.

* * *

A college open all the year around is almost a reality at M. A. C. This year August will be practically the only dull month on the campus. With summer school and

its accompanying activities, special conferences which have been in session ever since the close of the regular college year, and picnics of various organizations, the campus has been as lively as at any time during the college year. Educational institutions are expensive plants operated at the expense of the taxpayers, and good business sense would dictate that they have the maximum amount of use and give maximum service during the entire year. No educational institution exists simply for the benefit of the regular students who attend and graduate, and the farther it extends its activities and benefits into the surrounding communities, the more excuse it has for existing. The ideal college of the future will be the one which keeps its doors open to the public the year around, and gets from its equipment the maximum of efficiency as does a paying industrial concern.

We are prone to measure our accomplishments by the number of graduates we turn out each June, but the winter short courses, summer courses, special weeks, conferences, extension work and organizations which are mothered and encouraged by the college, spread the doctrine of education in a way not possible to estimate.

WITH THE ALUMNI CLUBS.

M. A. C. CLUB LUNCHEONS.

Detroit—Every Friday noon at 12:30, Fellowship Club, 70 Washington Blvd.

Chicago—First and third Fridays of every month at 12:15, Inter-collegiate Club, 16 W. Jackson Blvd.

Lansing—Second and fourth Mondays of every month, 12:15, Hotel Kerns.

UPPER PENINSULA ASSOCIATION MEETS.

The Upper Peninsula M. A. C. Association will hold a meeting at Au Train Falls, near Chatham on August 11. A big feed at 5:30 will be followed by a program and pep meeting. A representative from the college will be present and views of the campus will be shown. This meeting is held in connection with the upper peninsula farmers' meeting, extension conference and boys' club week held at Chatham on August 10, 11 and 12, and a good attendance is expected.

FLINT FOLKS PICNIC.

The Flint M. A. C. Association has planned an old-fashioned basket picnic on Saturday afternoon, August 14, on the farm of Ivan Parsons near Grand Blanc. It is requested that everybody meet at the Flint High School grounds between 2:30 and 3:00 o'clock sharp, and in order that transportation may be provided for all, will those having room in their machines kindly phone Sid S. Smith at the court house, phone 1902,

or address a card to Genesee County Farm Bureau, court house, Flint.

Wear your old clothes as Ivan is considering providing a greased pig, and there will be other sports for the children and grown-ups. Bring your baseball equipment and paraphernalia. There will be indoor baseball for the ladies. Talk this up among the alumni and plan to turn out and make this a genuine M. A. C. day. There will be quantities of eats for the bachelors and widowers who cannot conveniently arrange to bring a lunch. Reserve the date, August 14. D. D. Stone, '13, Holmes Froelick, '18, Committee.

SOUTH HAVEN ASSOCIATION FORMED.

Tuesday evening, June 22, twenty-five M. A. C. friends met at the home of Mr. and Mrs. George Chatfield near South Haven, and formed an M. A. C. Association with the following officers: Floyd M. Barden, '08, president, and Virginia Flory, '20, secretary. The Association is making big plans to interest all young people of the community in M. A. C., and keep alive the spirit of her former students.

SUMMER ACTIVITIES.

In spite of the fact that most of the regular students are gone, and profs and college officials are supposed to be taking life easy, the campus has been a lively place since the close of the regular college work on June 20. Summer school sessions, conferences, special organization meetings and picnics almost every day have made the college grounds and buildings anything but quiet.

The enrollment of summer school totaled 320, with 254 men and 66 women. An interesting feature of this year's attendance is the group of men from the ranks of public school teachers who are pursuing work in agriculture to qualify under the Smith-Hughes laws to teach agricultural subjects. Mathematics seems to be the most popular subject taught with an enrollment of 85, with chemistry a close second.

HOME ECONOMICS CONFERENCE.

Teachers, extension workers and housewives met for a women's conference in the Women's building, June 28-July 2. An unusual phase of the week's work was a series of talks on citizenship by Prof. Mary Hendricks of the history department. Mrs. Mary Rose, of Teacher's College, Columbia, and author of "Feeding the Family" and other food books, and a national authority on child feeding, gave some of the latest developments in child feeding. Miss Laura I. Baldt of the department of textiles and clothing of Teachers' College, Columbia, talked on "Clothing for Children" and exhibited a variety of children's garments. A

good many former M. A. C. students were back for the conference.

EXTENSION CONFERENCES.

Club Meetings—

Lower peninsula state and county club champions to the number of 104 met at the college June 21-25 for the second annual club week. Twenty-five counties were represented. Classes were provided in cooking, sewing, art work, home nursing, field crops, livestock, poultry and gardening. The boys were housed in Wells and the girls in Abbey. Recreation included movies in the armory, games and swimming in the gym, a picnic at Pinetum, and a most enthusiastic banquet at Club C on the evening of the 24th, complimentary by the State Board of Agriculture. On Friday morning a special car took them to the capitol, where they met the superintendent of public instruction and Governor Sleeper. The upper peninsula meetings will be held at Marquette for the girls on July 26, and at Chatham for the boys on August 11-12.

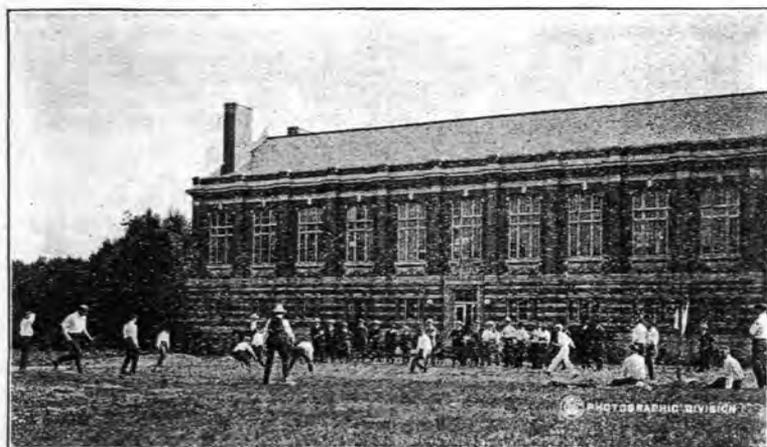

Sixty paid and volunteer club leaders met for the Fifth Annual Club Leaders Conference July 6-10. George E. Farrell and Miss Gertrude Warren of the national office at Washington appeared on the program. Recreation was in charge of Director Brewer and Miss Hannah Vaughan, director of community play for the Michigan Community Council Commission. M. A. C. people attending the conference were Ray A. Turner, '09, State Club Leader; Barbara Van Heulen, '10, A. G. Kettunen, '17, Elda Robb, '16, and W. A. Anderson, '17, assistant state club leaders; Glenn Stewart, '17, club leader for Wayne county; E. F. Lyons, '17, of Washtenaw county; B. O. Hagerman, with '19, Houghton county; A. L. Strang, '18, Saginaw; Ralph Tenney, '19, Eaton, and Stephana Butler, with '21, Macomb.

Women's Meeting—

All women extension workers of the state attended the semi-annual conference June 23-26, and some of them stayed for the home economics meetings the following week. Organization and special problems were taken up. Edna Smith, '03, home management specialist, and Coral Havens, with '00, food specialist, gave work along their particular lines. J. B. Hasselman of the publicity department, presented phases of publicity work peculiar to extension workers, and Wilson Newlon, '17, of the poultry department, gave a culling demonstration and other poultry work. M. A. C. girls doing home demonstration work in the counties, attending the conference were: Bernice Woodworth, '17, Grace Hitchcock, '15, Helen Pratt, '16, Blanche Clark, with '12, and Clara Waldron, '13, and Amelia Potts, '12, assistant state leader for the upper peninsula.

ELEVATOR EXCHANGE ORGANIZATION.

Delegates from 100 co-operative elevators and associations met at M. A. C. on June 29-30 and organized the Michigan State Farm Bureau Elevator exchange. Forty-three co-operative elevators joined the federation. They will co-operate with the state Farm Bureau, and have their own board of control, with offices at Lansing. L. Whitney Watkins, '93, was elected one of the members of the Board of control. County agents in attendance were L. V. Benjamin, '20, Baraga; C. L. Nash, '09, Branch; Paul Jamieson, '18, Calhoun; C. M. Kidman, '17, Cass; I. B. McMurty, '17, Cheboygan; E. L. Kunze, '14, Chippewa; H. V. Kittle, '17, Clinton; K. H. Miller, '15, Dickinson; Roy E. Decker, '15, Eaton; Sidney S. Smith, '12, Genesee; D. C. Long, '17, Iron; C. V. Ballard, '12, Jackson; Roswell

Rural Ministers at Play.

Carr, '08, Kent; L. T. Bishop, '15, Lapeer; Ralph Carr, '08, Lenawee; Fred Dunks, '05, Livingston; Carl Knopf, '11, Manistee; L. R. Walker, '15, Marquette; Chris Bemis, '15, Mason; Irving Kirshman, '14, Menominee; H. L. Barnum, '15, Missaukee; Gifford Patch, '16, Mt. Clemens; C. B. Cook, '88, Oakland; Wm. F. Johnston, '91, Wexford. Other M. A. C. men here for the meeting were Bernie Beach, '15, of the Oakland County Farm Bureau; D. C. McMillan, with '10, and G. W. Putnam, P. G. 1617, of the Upper Peninsula experiment station; J. Wade Weston, '14, Upper Peninsula leader of county agents.

This Elevator Exchange just completed constitutes the first of its kind in the United States, as was also the Michigan Potato Growers' Exchange, organized on the same lines.

MINISTERS' CONFERENCE.

One hundred fifty rural ministers gathered at the sixth annual conference from July 6 to 16. Most of them stayed through the entire meeting, which was probably the best that has ever been held, both from the standpoint of strength of program presented and interest shown. Dr. W. W. Diehl, '87, rural director of the Methodist Episcopal church for the state, was present throughout the conference and took a prominent part in the program. Speakers of national reputation were Dr. Warren M. Wilson of New York City, well known pioneer and leader in rural sociology, Dr. A. E. Ross of the University of Wisconsin, and Dr. George Elliott of Detroit. Dr. Eben Mumford, state leader of county agents, gave a series of lectures on "Agriculture and Rural Life." Prof. W. W. Johnston of the English department, lectured upon "Recent Tendencies in Literature," and Prof. C. S. Dunsford of the Economics department presented some economic and industrial problems of the day.

Before leaving the conference, the delegates passed a series of resolutions expressing their appreciation of the work presented, and of the interest and hospitable spirit shown by the college staff, and especially Prof. E. H. Ryder, dean of the summer school.

TEACHERS OF AGRICULTURE MEET.

This week, July 26-30, teachers of agriculture from all over the state are present on the campus for a special program which has been arranged for their benefit. This consists of class room instruction in drawing, the handling of the gas engine, and work along lines of manual training, also crops, insect pests, and soils work. Most of the men attending are our own graduates who have gone into the work of teaching and through their experiences find the need of coming back for special instruction of this nature.

Send A Freshman This Fall.

MARRIAGES.

WOOD-MOORE.

Irma Moore, '19, and Warren W. Wood, "Deac," '18, were married in Detroit on June 14. They are temporarily located in East Lansing.

MORAN-SMITH.

Orene Smith, '17, and Fred Moran, '15, were married on June 22. They will live in Chateau, Montana, where Moran is practicing veterinary medicine.

TRUE-MILLS.

Frank Lathrop True, '11, and Miss Edith Blanche Mills were married on June 26 at the home of the bride's parents at Royal Oak. Mr. and Mrs. True will live at 160 Liberty St., Pontiac.

MOSHER-PERROTT.

Roscoe Mosher, '20, and Miss Louise Perrott, both of Lansing, were married at the bride's home, on June 30.

CARDWELL-HEYING.

Irwin Luther Cardwell, '14, of Imlay City, and Mabelle Agatha Heying were married on June 30, at the home of the bride's parents in Stockbridge. They will live on the home farm of the groom.

TREBILCOCK-ANDERSON.

Laura Mae Trebilcock, '15, of Princeton, and John U. Anderson of Champion were married on July 9. They will make their home in Lansing.

FROELICH-WEESE.

Bernita Weese, with '20, of Imlay City, and Holmes Froelich, '18, were married at the bride's home on July 16.

CARNEY-HAEFNER.

Eileen Carney, '18, and D. Clyde Haefner were married on May 31. They are living at 173 Buena Vista W., Detroit, where Mr. Haefner is a bond broker.

ODE-SWARTZ.

Francis Ode, '18, and Miss Minnie Swartz of Marlette were married on January 1, 1920.

FROM FOLKS YOU KNOW.

Washington, D. C., May 20, 1920.

Dear Mr. McKibbin:

Enclosed you will find my check for the first payment on my pledge to the building. I am very glad to see the fund growing so nicely. It is to be hoped that practically all the old students of the college will contribute something. Undoubtedly many feel much as I did that if they could not give an amount that would be quite a substantial assistance to the project they would prefer not to show how poor they were. The success of a thing of this kind comes largely from the fact that it is an expression of the sentiment of all the students,

past and present, graduates or "with" who have enjoyed the helpful instruction and culture of M. A. C.

The recent action of the Board in regard to the salaries of the teaching staff at the college is I believe one of the biggest things that has happened to the college for many years. Splendid buildings filled with half-paid teachers is a sad reflection on the judgment of any district, town or state and I really believe that the time is approaching when our people will insist that the best men and women in any line of work shall be selected and thus honored by being the teachers of the young.

—E. N. Bates, '06.

Chicago, May 20, 1920.

Dear Mac:

I'll begin by saying that I am ashamed of myself, etc. I just read a line from the Chicago Alumni Association calling all members down for not taking more interest in the college and as I am one of the worst offenders I've taken it much to heart.

I received your copy of the Record and learn for the first time of the drive for funds to build the Memorial Building. Of course I want to help and if I can find out more about it I will add my bit.

It is not necessary for me to add that I think M. A. C. the best college in the world and that I found just what I wanted during my five years there. I do wish that we could blow our horn a little more and let people outside the state know what a splendid place it is to study the kind of work done there. I spent an hour this morning talking to a young man that has made up his mind to go to Iowa to study agriculture, telling him that M. A. C. offered as much or more than any school in the country. I do not know why it is but all of the state universities in this section of the country seem to be more in the minds of the young men than M. A. C.

I am temporarily in the law business in this city. My home address is 441 Belmont Ave. I cannot make up my mind as to a permanent location but I may decide some day and settle down for life.

It is a lot of pleasure for me to see and talk with some of the old bunch and if any of them see this address and want to do me a big favor they will drop in and tell me a few live yarns. Kindly remember me to the faculty and any of the people that know me. The Record office always has my good will and best wishes.

Very truly yours,

—Earl C. Douglas, '13.

Elizabethtown, Ill., June 5, 1920.

Dear Sir:

Enclosed find check to cover second installment toward building fund.

I note from your letter a third floor is to be added for benefit of alumni. Good! May I suggest that actual building of this memorial be not rushed? That is, let us have full opportunity to thoroughly thresh out all details and know exactly what we want first. This is the first big attempt to combine all interests and concentrate them on a single M. A. C. objective. Now there are, I have no doubt, many men similar to myself who have casually glanced at the proposed sketch and thought no more of it, albeit we sent in our money. I have been thinking more and more of it lately, however, and this question arises in my mind: "Is a building to cost \$200,000 sufficient memorial and will it adequately express M. A. C.'s feeling while at the same time encompass the needs of the college?" Therefore, I am glad to see the suggestion in your letter that we may push on to \$300,000 or more.

When I saw the first suggested plan the

objection at once arose that there was no provision made for returning alumni.

Let us make this building more than a memorial, or perhaps I should say a better memorial than merely a building. Let it be a place alumni may know is always open for them as headquarters, a club where they can go and feel at home.

Let us take a little more time and be sure of what we want. We have raised you tell me \$150,000 in less than a year. Let us go back to those who have subscribed already as well as those who so far have been unable to do so and ask them for more. Let us make it at least a half million, and in order to do so give more time for pledges to be paid.

I will kick in with my extra if—well there are no ifs. I'll come in anyway. Come on now, M. A. C. Call me.

Yours,

J. R. Thoenen, '09.

P. S.—I know '09 would never be satisfied with less than a half million.

SERIOUS BUSINESS—AND HOW IT WAS DONE—MINUTES OF THE MEETING OF EXECUTIVE COMMITTEE.

Held in the Lecture Room of the Gymnasium, Tuesday evening, June 15.

President Prudden called the meeting to order.

Those present were: A. C. MacKinnon, '95, General Executive Committee; C. C. Ford, '04, Chicago Association; J. R. McColl, '90, Plans Committee; S. F. Edwards, '99, Central Michigan Association; L. T. Clark, '04, M. W. Tabor, '04, H. B. Gunnison, '00, Detroit Club; E. E. Hotchin, '12, D. L. Porter, Central Michigan Association; E. E. Pagelsen, '89, General Executive Committee; E. W. Ranney, '00, Vice President; G. H. Collingwood, '11, Western New York Association; L. W. Watkins, '93, Jackson County Association; C. W. McKibbin, '11, Secretary.

Mr. McColl reported for the Union Memorial Building plans committee. He presented sketch plans for the building. He said we must determine what uses are to be and we must have suggestive criticism. Asked that committee be made five men instead of three. Suggested that chairman be Professor Hedrick, a man who has been on the grounds and in close touch with colleges and uses. Suggested that a supervising architect who has had experience in Union Buildings be employed to work with the college architect.

Motion by McColl, seconded by Pagelsen, that committee be increased to five instead of three and that Professor Hedrick be made chairman of committee. Carried.

The president called for an expression of all present on suggestion of McColl that supervisory architect be employed who would be especially experienced in buildings of this type. All expressed themselves in favor.

Gunnison presented following resolution from Detroit Club:

That Mr. Gunnison advise the Memorial Hall Building Committee at Commencement time that it is the sentiment of the M. A. C. Club of Detroit that the committee secure at least three competitive sketches from different architects covering the M. A. C. Union Memorial Building, and that the proposition of securing a considerably greater sum of money for it be carefully considered before final plans are completed.

Ranney raised the question of how we can fittingly express the memorial idea in the building.

Mr. Clark next presented the following resolution regarding dormitories:

Be it resolved, that the M. A. C. Club of Detroit is strongly opposed to any movement tending toward the removal of men from the

dormitories at M. A. C. and be it further resolved that the Club favors the promotion of some plan which will require that all freshmen be housed in dormitories under proper supervision and that the necessary provisions be made therefor.

Moved by Hedrick, seconded by Ranney, that it be adopted and referred to resolution committee for incorporation in their report.

Mr. Clark presented the following resolution regarding National Fraternities:

Be it resolved, that the M. A. C. Club of Detroit desires to go on record as strongly favoring the lifting of the ban against National Fraternities at the Michigan Agricultural College.

Motion by Hedrick, seconded by Pagelsen, that action of the faculty in recommendation to State Board of Agriculture that the ban on National Fraternities be lifted under suitable conditions, be endorsed and included in resolutions of the resolutions committee. Carried.

Mr. Clark brought up Campus Circle plan and presented the following resolution:

Resolved, that it is the sentiment of the M. A. C. Club of Detroit that the ideas involved in the Kennedy Campus Circle proposition are so little understood by the average alumnus that it would be unwise to adopt it at least at the present time. Be it further resolved that instead the Club favors some method of enlightening the alumni regarding the campus development plan which has been accepted by the State Board of Agriculture with the understanding that in the meantime no new buildings be placed on the sites of Old College Hall and Williams Hall.

Mr. Ford speaking for Chicago asked that Mr. Kennedy and P. B. Woodworth be given an opportunity to express the Circle plan to the alumni. Motion was made by Collingwood and seconded by Ford that Mr. Kennedy and Mr. Woodworth be given time at tomorrow's meeting to present circular plan of campus to alumni, but that no vote or expression be given by alumni present until all other plans have been considered.

Professor Hedrick presented, from Central Michigan Association, resolutions following:

Resolved, that the secretary of the M. A. C. Association establish in his office a system for bringing the superior advantages of M. A. C. to the present attention of prospective college students. This to include the possible employment of a field secretary and the interesting of alumni in furthering the object.

Resolved, that the M. A. C. Alumni Association solicit the State Board of Agriculture for an appropriation to carry out the work of the Alumni Office in bringing students to M. A. C., and that a committee of three be appointed to handle the matter.

Resolved that due to increase in the cost of printing, paper, and office administration, that the M. A. C. Alumni dues be raised from \$2.00 per year to \$2.50 per year.

Moved by Hotchin, supported by Edwards, and adopted that these resolutions be presented to the resolutions committee for incorporation in resolutions to be presented to the meeting tomorrow.

The secretary then presented the following report:

Financial Statement.

June 13, 1919, to June 13, 1920.

Balance on hand June 13, 1919	-----	\$ 379.52

We have this from Jay D. Stannard, Scottsville, Stage, Phoenix, Arizona. "After fifteen years' work with the government along Irrigation lines, in two departments, which has taken me into nearly all of the irrigated states of the west, I am now helping the Stannards (there are 4 of us together, wife and two sons, Carlos and Cedric) to develop a citrus plantation in the Salt River Valley of Arizona. Within three or four years we hope to be able to hand our friends really and truly lemons. Our latch string will always be out to any of the M. A. C. fellows that may happen to wander out to this part of the country."

'87.
Rev. W. W. Diehl was granted the degree of Doctor of Divinity by Albion college at Commencement time.

'89.
A. G. Wilson, proprietor of Hillsdale County Abstract office, Hillsdale, sends greetings.

'92.
B. W. Peet of Ypsilanti has joined our M. A. C. Association family.

service, as zone supply officer in the U. S. Army, Boston, Mass.

'11.
Jack de Konig of Grand Rapids was a college visitor on July 3.

Robert E. Marsh of the Michigan State police has been made commanding officer of the force with the rank of major. The state constabulary has its headquarters on the old Woodbury property belonging to the college, about a quarter of a mile south of the old White Elephant site.

Deville Wood, Sandakan, British North Borneo, has been acting post conservator during the past year. He expects to get home next Christmas, or at least in time for the big 1921 reunion of eleveners.

'12.
F. H. and Mrs. McDermid, Battle Creek, R. R. No. 1, announce the birth of a son, Lloyd Fiske, on June 1, 1920, weight 10 pounds.

'13.
Harold H. Borgman (with), 191 Hill avenue, Highland Park, announces the arrival at the Borgman home of an 8½-pound girl, but does not give us the date.

'14.
Truman G. and Mrs. Yuncker (Ethel Claf-

lin) are the proud parents of a 9½-pound daughter, Betty Jane Clafin, born on June 7.

The M. A. C. class of 1941 has a new candidate in the person of Rita Joyce Purmell, born May 20. Her father, D. M. Purmell, is superintendent of the Baron de Hirsch Agricultural School Farm, comprising 500 acres in Westchester county, N. Y. His address is Peekskill.

'15.
Victor C. Vaughan of Walkerville was a campus visitor on July 8.

Clarence B. Maloney may be addressed at Box 8, Covina, California, where he is located on a ranch.

'16.
Carol Davis has just returned from Columbia University, New York City, where she has completed a post graduate course and received an M. S. degree. She will be located at 109 Odette St., Flint during the summer.

Henry Davies, Escanaba, sends these interesting items, "In January I was appointed acting district engineer in District No. 3, which comprises the entire upper peninsula. On July 1 the handle of said name was removed and I am now district engineer in charge of road and bridge work in the northern peninsula. T. B. Dimmick, '16, is my assistant in road work, and H. A. Morse, '17, has charge of bridge work. L. J. Rothgery '21, is working as resident engineer in Chippewa county in the east end of the peninsula, having charge of 18 miles of road construction, also two trunk line bridges. L. D. Abbey is assistant to Rothgery. E. I. Mattson, '22, is inspector on bridge work, and located in Ontonagon county. W. K. Willman, '18, is also inspector on bridge work, being located in Delta county. T. L. Jackson, '16 is county engineer for Mackinaw county. All the men on our force are planning to attend the Upper Peninsula M. A. C. Association meeting at Au Train Falls on August 11."

'17.
C. R. Crozier, "Rusty," and Mrs. Crozier (Dorothy Lillie) of Grand Rapids are announcing the birth of a daughter, July Ellen, on July 4.

Clarence MacKenzie and Mrs. Mackenzie (Lois Blodgett) have bought a home at 1133

Relieve Shortage of Farm Help!

GOOD farm help is scarce. Conserve it by making the most of what man-power you have.

A Case Kerosene Tractor and the properly related size of Grand Detour Plow makes farm help more efficient—more productive,—and less costly in proportion to the results accomplished.

Just consider the advantages of having one of these outfits on your own farm. Don't forget the importance of being able to do your plowing rapidly when the soil is in the most favorable condition. Then consult the nearest Case dealer.

Remember, Case Kerosene Tractors and Grand Detour Plows are both built by the J. I. Case Threshing Machine Co., and give best possible results when used together.

Write for catalogs showing our great line of Power Farming Machinery.

The Service of an Electrical Research Laboratory

The research facilities of the General Electric Company are an asset of world-wide importance, as recent war work has so clearly demonstrated. Their advantages in pursuits of peace made them of inestimable value in time of war.

A most interesting story tells of the devices evolved which substantially aided in solving one of the most pressing problems of the war—the submarine menace. Fanciful, but no less real, were the results attained in radio communication which enabled an aviator to control a fleet of flying battleships, and made possible the sending, without a wire, history-making messages and orders to ships at sea. Scarcely less important was the X ray tube, specially designed for field hospital use and a notable contribution to the military surgical service. And many other products, for both combatant and industrial use, did their full share in securing the victory.

In the laboratories are employed highly trained physicists, chemists, metallurgists and engineers, some of whom are experts of international reputation. These men are working not only to convert the resources of Nature to be of service to man, but to increase the usefulness of electricity in every line of endeavor. Their achievements benefit every individual wherever electricity is used.

Scientific research works hand in hand with the development of new devices, more efficient apparatus and processes of manufacture. It results in the discovery of better and more useful materials and ultimately in making happier and more livable the life of all mankind.

Booklet, Y-863, describing the company's plants, will be mailed upon request. Address Desk 37

Some of the General Electric Company's Research Activities During the War:

Submarine detection devices
 X-ray tube for medical service
 Radio telephone and telegraph
 Electric welding and applications
 Searchlights for the Army and Navy
 Electric furnaces for gun shrinkage
 Magneto insulation for air service
 Detonators for submarine mines
 Incendiary and smoke bombs
 Fixation of nitrogen
 Substitutes for materials
