## "General Manager

THESE words buzzed joyously in my ears. But as I looked about me at the mahogany and plate glass of my new office, a sudden fear gripped me. Would I be equal to my new duties; not in the sense of my mental capacity, but physically? It was a big job. It meant heavy responsibilities, constant alertness, body and mind attuned to high productive effort.

"Could I stand the strain? During the hard, ambitious years I had devoted to the interests of the Company, I knew I had overworked, and neglected myself physically.

"I could see that under this new burden of responsibility and work, less than ever was I going to be able to devote time to keeping fit. I might fail in the job if I neglected it for play—and I might fail if I stuck too closely to it.

"My contact with my fellow officers revealed them to me as men always in condition, forceful, energetic. And I resolved to ask them the secret of it. Each

of the four gave the same answer—*keep the system clear of waste matter—avoid constipation.* Every one of them was using Nujol.

"The president himself told me, 'Constipation takes more from the business world than any other disease or influence. Many times the victim does not know he has it; often when he does appreciate his condition, he tries to treat it with pills, salts, castor oil, or mineral waters—which upset the system and tend to make the constipation chronic. There is only one safe and sane treatment for constipation.

"This is the Nujol treatment, based on a new principle propounded by Sir Arbuthnot Lane, an eminent English doctor, and recommended now by physicians far and wide. Nujol merely softens the food waste so that it passes naturally out of the system. It does not cause nausea or griping, nor interfere with the day's work. I take it consistently myself, and I know it is used almost universally by prominent business men'."

## Nujol *For Constipation*

REG. U.S. PAT. OFF.

Sold by all druggists in sealed bottles bearing the Nujol trade mark.

Mail coupon for booklet "Constipation—Auto-intoxication in Adults", to Nujol Laboratories, Standard Oil Co. (New Jersey), Room C, 44 Beaver Street, New York City. (In Canada, address Nujol, 22 St. Francois Xavier Street, Montreal.)

# FEED UP!

**E**VERY dairyman knows that he must feed proportionately for the light summer period, as well as in the heavy winter months, if he wants a large flow of milk from his herd when he can sell it at a good price.

Here is the way it works out:

Suppose your price for milk is \$1.90—with an almost certain prospect of being lower when grass comes, and pastures are good.

Now, if you feed Buffalo Corn Gluten Feed mixture at a cost of about \$30.00, you can produce at least \$130.00 worth of milk from your good milkers.

If your milk price goes down—say to \$1.20—you can still get \$84.00 from the same cows and the same amount of feed.

It has been proven that if you do not feed in the summer your cows will shrink after the first flush of grass. You will not only lose the profit you might have had from them by proper feeding, but, on account of their poorer condition, your herd will not produce as much milk when you start heavy feeding again.

These are facts that should make every dairyman consider seriously his feeding problem, on a basis of cost and return, during the grass months now coming in. And then order Buffalo Corn Gluten Feed for your herd.

**Corn Products Refining Co.**  
New York Chicago

**FREE** Write for full information giving the correct mixture for feeding Buffalo Corn Gluten Feed. If your dealer cannot supply you with Buffalo Corn Gluten Feed, tell us who and where he is. Write today to Corn Products Refining Company, Feed Department, 17 Battery Place, New York City.

VOL. XXVI. No. 28.

EAST LANSING

MAY 6, 1921

THE STATE CANNERS' ASSOCIATION held their annual meeting at the college May 4 and 5, in the Agricultural building. These meetings have been held in Grand Rapids the last few years, but came here this year thru the invitation of the college. Cannerymen from all over the state and some from outside states, growers, and officers of the National Cannerymen's Association were present. M. A. C. people to take part in the program were Pres. F. S. Kedzie, "Address of Welcome;" Dean R. S. Shaw, "Work of the Experiment Station;" Dean Mary E. Sweeney, "Commercial vs. Home Canning;" Dr. C. G. Woodbury '04, Director Raw Products Research, National Cannerymen's Association, "Relation of the National Cannerymen's Association Bureau of Raw Products to the College and the Canner;" Fred L. Woodworth '08, Food and Drug Commissioner, "Address;" Colon C. Lilley '84, "Growing Peas for Canning;" Marion Lowe '18, bacteriologist Food and Drug Department, "Botulinus;" and Prof. L. R. Taft, "Picking Cherries for Canning." Among M. A. C. men attending are Howard Morgan '13 of Traverse City.

VISITING DAY for livestock men will be observed on Thursday, May 12. At this time the winter's work in experimental feeding will be brought to a close and results given out. The Animal Husbandry department is sending out special invitations to prominent livestock men in the state, county agents, and others interested to visit the college on that day. The college breeding herd of beef cows together with their calves being fitted for show purposes will be on exhibit.

A UNION SMOKER for faculty and upper-classmen was held in the Gymnasium last Thursday night. The new science course, the leaving of Coach "Potsey" Clark, the need of a stadium, and the raising of the student athletic fee were subjects upon which that was a very free discussion. Among the speakers were Dean Bissell, "Jimmie" Hasselman, Director Brewer, Norman Weil '17, Prof. Hedrick '91 and C. W. McKibbin '11. An attempt will be made by the Union to have a smoker once a term next year.

A STUDY OF THE RATE OF GROWTH of the timber on the woodlot of Mr. G. B. Horton of Fruit Ridge has been asked of the Forestry Department. Mr. Horton wishes to show that a forest plantation on valuable land is a paying proposition. Professor Chittenden and Mr. Garratt will make the study. The rate of growth in the College woodlot has been measured for the past few years. The South woodlot No. 17 which has been systematically thinned and which is in excellent growing condition is growing in volume at the rate of 6.5

per cent per year. In addition to this growth in volume the timber has been increasing in value quite rapidly during the last few years due to increasing stumpage values. The Department has been cutting the annual growth of timber in this woodlot each year and selling it for firewood in East Lansing. The river woodlot is worked as a sugar bush and it is interesting to know that the net income from the timber in woodlot 17 has exceeded the net income from the maple syrup in the river woodlot.

THE LANSING BRANCH of the society of Bacteriologists, at their meeting at the State Board of Health department Wednesday evening, heard papers read by F. W. Fabian, Zae Northrup Wyant '06 and I. Forrest Huddleson of the Bacteriology department.

THE LILACS on the south side of the library are in bloom—a little earlier than schedule, and as usual the first on the campus.

MISS EUDORA SAVAGE, Dean of Women, leaves New York on the S. S. Providence June 4, for a three months' European tour, arriving again in New York on September 4. She will visit Italy, France, the Netherlands, Belgium and England.

DELEGATES TO THE CHILD CONSERVATION CONVENTION in Lansing May 4 and 5, were entertained at tea in the parlors of the Women's Building by the East Lansing Child Conservation Chapter on Wednesday afternoon. After a short program and refreshments the 200 visiting delegates inspected the laboratories and the work being done by co-eds.

THE SIXTH ANNUAL COUNTY NORMAL DAY, for teachers and students of county normal schools, will be held at M. A. C. on May 14, under the supervision of the Boys' and Girls' Clubs department. Plans are made for the entertainment of 250 guests. The annual training school for boys' and Girls' Club leaders will be held here June 20-24, and the annual Club week for county and state champions will be July 5 to 8.

THE MONTHLY NEWS LETTER of the Washington State department of Agriculture of Olympia announces that M. L. Dean, who is chief of the horticultural division of the department has resigned his position to become field manager of the newly organized Wenatchee Fruit Growers Association. Mr. Dean was with the M. A. C. Horticultural department from 1896 to 1903. Previous to his entering the department of agriculture in the state of Washington, he held a similar position for a number of years in the state of Montana. He is widely known through the northwest for his work in horticulture and entomology.

## VIEWS AND COMMENT

A student loan fund has just been established by the Omaha Chamber of Commerce to assist needy students thru the Agricultural College of the University of Nebraska. This money is loaned to worthy students, to be repaid with a small rate of interest after the student graduates from college. A number of senior students have been aided by this fund and permitted to graduate who otherwise would not have been able to continue in school. Up to the present time only seniors have been assisted, but it is hoped that in the future, juniors, and perhaps students in even lower grades, may secure the benefits of this fund.

Such a project is worthy of the efforts of any organization, but the originating of this fund for agricultural students in the chamber of commerce of a city the size of Omaha is indeed significant. In it there is recognized the importance of agriculture and agricultural education to the future welfare of the city and of the state.

A small but very active student loan fund has existed at M. A. C. for a number of years. Because of its small size its use has been restricted to upper classmen. Alumni who have been assisted by this fund could do no greater service to the college and her future students than to give this fund a boost either individually or through organizations which might be interested, as they were in Nebraska, in higher education.

The organization of M. A. C. women into a working unit recently started in Lansing may seem to be cause for alarm to those who have the interests of the big M. A. C. Association uppermost in their thought. But the fact of the matter is that the women who are sponsoring this movement feel that alumnae can better boost for a bigger M. A. C. and support the policies of the general alumni body if they are more conversant with their own division of the college and with its big problems.

Probably no phase of education has changed so completely, nor has made more remarkable strides during the past decade, than has home economics, and for this reason if no other it is a good thing for alumnae to get together and talk over these changes and improvements. In pledging \$1000 towards the furnishing of a practice house at the college, the women want it understood that this will not in any way interfere with the big project of alumni everywhere—the Union Memorial Building. This money for the practice house must all be

earned and not subscribed, and in undertaking the task M. A. C. women have elected a method that will be most effective in bringing alumnae into a closer acquaintance with themselves and with the college.

The coming Commencement June 15 will be a full day for the M. A. C. family. Twenty classes hold reunions on that day, while twenty two college societies, some more or less aflutter on the matter of national fraternities are making plans for reunions with their alumni membership.

For some of these society alumni the day will begin early for many are planning reunion breakfasts, choosing early morn as the most appropriate time for society reunions and meetings.

Commencement exercises are at ten o'clock, and at twelve thirty the luncheon and annual meeting of the M. A. C. Association in the Armory. The annual pageant, at which the college, with her students and campus, is seen at her best will be given for alumni and students at four thirty. At six are class reunion dinners and at eight thirty, the annual cap night ceremonies.

Truly a full day and one you'll not want to miss.

DEAN BISSELL, while in Detroit Saturday, attended the noon Luncheon of the Detroit M. A. C. Club, and the meeting of Detroit Engineers in the evening.

THE SECOND STUNT DAY on Tuesday found the seniors dressed like little boys and girls. Half hose and curls, accompanied by skipping ropes and hoops, furnished the entertainment. Tho not so noisy as last week's roller skates, this week's stunt was novel, particularly since Tuesday drove down with a cold, brisk Nor'wester.

## In The Front Row

### Taber '04, McColl '90 Honored by Detroiters.

Detroit paid tribute to the ability and training of two M. A. C. engineers last Friday night when the Detroit Engineering Society elected M. W. Taber '04 as president of that organization and J. R. McColl '90 as vice-president.

The Detroit Engineering Society is the oldest professional society in Detroit as well as the most influential and it has a large membership in the city and adjacent territory. Taber has been an energetic worker in the Society and has previously held the position of Chairman of the membership committee and second vice-president of the organization. Mr. McColl is also first vice-president and chairman of the research committee of the American Society of Heating and Ventilating Engineers. Both men are active in alumni affairs, Taber being an alumni member of the Athletic Board of Control, and McColl a very energetic worker on the Plans Committee for the Union Memorial Building.

### Minnesota Selects Calrow '14 As Agricultural Education Head.

Paul Calrow '14, Director of the Agricultural department at the Fairmont, Minnesota, has just been appointed Supervisor of Agricultural Education for the state of Minnesota with headquarters at St Paul. This is a distinct honor for "Cal." He is one of the youngest men to be appointed as a state supervisor.

Since graduation Calrow worked a year for the State Dairy department of Michigan and then taught agriculture at Washburn, Wisconsin until 1916. Since that time, he has been director of agricultural school work at Fairmont. He takes up his new duties May 1, and will have his headquarters in the Minnesota Historical building on the state capitol grounds in Minnesota.

### Recognition for Meritorious Work Given C. F. Schneider '85.

The long and efficient service of Charles F. Schneider '85, veteran weather man came into the lime light through an article in last Sunday's Detroit Free Press. Mr. Schneider has served thirty-six years as meteorologist, practically all of the time having been spent at Michigan stations. Quoting from the Detroit Free Press:

Since he entered the weather business he has seen nine presidential terms come and go and has started on his tenth. He is under civil service and his friends say he deservedly holds his job on his merits.

It was 36 years ago that Schneider entered the training school at Fort Myer, Va., just after Grover Cleveland, the first democratic

president after the civil war, was inaugurated for his first term. He became first assistant of the Detroit station in 1888 and was ordered to Keokuk, Ia., in 1890, as relief man. Back to Detroit he went a few months later and then, in 1895, he was put in charge of the Michigan section and established headquarters at Lansing, where he remained until early in 1903, when that station was closed and he came to Grand Rapids to open the first station here, and which is weather bureau headquarters for the entire state.

### Lansing Alumnae Pledge Earnings for Practice House.

M. A. C. women of Lansing and East Lansing, at their second meeting May 3 at the Y. W. C. A. in Lansing, pledged themselves to earn \$1000 before next fall to help furnish a practice house at the college, where a small group of girls may live under home conditions and work out home problems. \$1500 is the amount which the home economics department believes will furnish a house comfortably. Other institutions similar to M. A. C. have such practice houses where they have been able to work out in home size groups all the problems with which the ordinary home is confronted.

The women have been divided into groups, with a chairman for each group. In Lansing the chairmen appointed were Martha Pratt '10, Phila Smith Pratt '12, and Bess Howe Geogley '12, and the East Lansing girls will have as their leaders Blanche McNaughton Reeves '18 and Katherine Crane Cox '17. Plans are already being laid to devise schemes to earn this amount. The only condition governing the securing of money is that all of it must be earned by the groups and none of it shall come from individual contributions.

Dean Mary Sweeney explained the advantages which come from a practice house after her three years' experience with one at the University of Kentucky, and Mrs Louise Campbell, State Leader of Home Demonstration Agents, emphasized the value to the home-keepers of the state, of a house of this kind where the problems of the ordinary housewife may be solved

## Facts On The New Course, Condensed For Alumni.

*By Prof. E. H. Ryder, Member of the Science Course Committee.*

A Summary of an Address Given before the Central Michigan Alumni at their Noonday Luncheon Monday, April 18, 1921.

A few years ago the inducements for pursuing a college course were to prepare for a very few special fields such as law, teaching and the ministry. He who did not care for these might find his place in the Liberal Arts course where training in language, literature and history predominated. Today as a result of the development of science and industry, a multitude of courses have been added to the college curriculum in response to the demands of the times with the result that the young man or woman who hopes to attain the most desirable success in any one of a great many callings must secure college training. So varied are the requirements for these particular life activities that it seems imperative upon college faculties to enable students a large measure of liberty in the selection of the courses to be pursued. Since no one absolutely fixed combination of subjects, however good per se, can give satisfaction. With this fundamental view of college functions in mind the committee set about the project of drafting a new course.

Our efforts were directed by certain other very definite and clearly defined policies to which we adhered with unerring and insistent purpose. *First*, that such course of study must possess as its content those subjects which are fundamental to M. A. C. We recognized no necessity for going out into the highways to bring in something new, but simply directed our efforts to the rearranging of our existing courses in sciences, and developing the work of the various existing departments as the needs of the particular cases seemed to demand.

*Second*, that the new course should be one which should consist of applied science—applied to the lines of M. A. C. viz. Agriculture, Engineering, Home Economics, Veterinary Medicine. Indeed, we hope that no student will pursue this course to its end without devoting some portion of his time to the technical subjects of one or more of the other divisions. *Third*, that the student shall have large liberty in the choice of his subjects. While we must direct his efforts toward an acceptable objective he may, subject to wise counsel and direction of department heads and dean, arrange his subject matter according to his individual tastes and desires to just that degree which is consistent with the best achievement of his purpose or ultimate aim.

In addition to embodying in its curriculum a liberal amount of drawing and work in psychology, the course announces a new and untried field in the five terms devoted to

physical education. This offering rests not alone upon the college interest in this line of work but also upon the need created by recent legislation for teachers for the public schools where such work must be done in the near future. It was felt that M. A. C. ought to take high place in the development of this new expression in education.

A few details make clearer the application of the new course.

1. The student pursues a fixed course as a freshman. One year each of Chemistry, English, Mathematics and Science or Language.

2. As a sophomore he may select 50% of his work from the various sciences and the balance from language, economics, drawing, history.

3. As a junior, he chooses a major—Bacteriology, Botany, Chemistry, Entomology, at present—with twenty to thirty credits for each year—junior and senior; also a minor from some one department with ten to fifteen credits per year. The balance of his credits he selects from the general field of electives which is liberally supplied by the various departments. It is evident that beginning with the sophomore year the student is permitted to exercise his individual desires, and equally clear that provision is made to keep him within sane bounds by protecting him from becoming a "browser."

It is sincerely hoped that this new course may meet the need of a considerable number of young people who otherwise would have no scholastic interest in M. A. C. and thereby enable the college to perform a larger service to the commonwealth.

The speaker suggests that alumni consult the outgoing college catalogue in the light of these remarks, which would enable them to attain a complete detailed idea of the course.

**Friday May 13 is the 64th anniversary of the dedication of Alma Mater. How will your local group of sons and daughters celebrate this occasion?**

**DEMONSTRATION WORK** with certified Michigan potato seed is being started in Indiana, Illinois, Ohio and Iowa, according to H. C. Moore, extension specialist. The object is to compare Michigan certified seed with potatoes grown in the other states, also to open markets out of the state for Michigan growers. The work is being done by the Potato Growers' Association of which H. C. Moore is Secretary, thru cooperation with D. L. Hagerman '13, agriculturist for the G. R. and I. Railroad, the Michigan Potato Growers' Exchange, county agents and the college.

### An Item for the "Old Boys."

Of interest to the "old boys" of the M. A. C. family is the following clipping from the Washington Post of a recent date headed "Flower Fairyland." David G. Fairchild is the youngest son of George T. Fairchild who held the chair of English literature at M. A. C. from 1866 to 1879.

"Blossoming quince, cherry and other trees from the Flowery kingdom on the property of Dr. David Fairchild, chief of the bureau of plant industry, Agricultural Department, are attracting much attention. It is said by numerous horticulturists that his display

eclipses anything of its kind in this section.

His property, known as "in the Woods," is located about one mile north of Chevy Chase Lake, and sightseers are welcomed while the blossoms are so attractive. A Japanese cherry tree, its leaves hidden by a mass of olive green blossoms, is regarded as being particularly attractive.

Numerous varieties of Japanese trees are planted here and there on the fifty-acre tract, and through the wooded portions of the ground are thousands of jonquils and narcissus flowers that are found in the woods in Japan."

## MEMORIAL UNION BUILDING NEWS

### Many Colleges, Recognizing Need, Select Union Buildings As Memorials.

At the annual conference of the Association of Alumni Secretaries held last spring at the University of Michigan, A. M. Souby, alumni secretary at Vanderbilt University, Nashville, Tennessee, presented the results of a most interesting survey of proposed college memorials. The investigation covered 135 of the foremost colleges and universities in the United States and of these, ninety-five were contemplating some type of memorial to their men. These proposed memorials ranged all the way from tree plantings to million-dollar structures.

Popular among the memorials of lesser expense appear bronze tablets, memorial volumes of the college war history, chapel organs, flag staffs, chimes, clock towers, and chair endowments in various subjects. It will be of interest to our alumni to know that the majority of memorial structures of any size are Union or community center buildings. M. A. C. was among the very first to select this type of memorial but since the survey was made, a number of other colleges and universities have elected Union buildings.

The predominance of campus center memorials in the list of representative colleges and universities given below will be of interest. In this list the type of memorial structure selected is given, the approximate cost, and the sources of funds with which the structures will be built.

Bowdoin College, Maine; Union Building; \$100,000; presumably by alumni.

Univ. of California; dedication of rooms in Students' Union; alumni and students.

Univ. of Colorado; Social Center Building; \$150,000; alumni, students, and faculty.

Cornell University; probably a building; cost not determined; special campaign.

Georgia School of Technology; Union Building or Gymnasium; cost not determined; alumni, students, faculty, friends.

Univ. of Kansas, Lawrence; Union Building; \$1,000,000; alumni, students, faculty, friends.

Univ. of Iowa; Memorial Union Building; \$1,000,000; alumni, students, faculty, friends.

Lehigh University; building with central memorial hall and tower; \$500,000; alumni.

Marietta College, Ohio; building or gymnasium; cost not determined; alumni.

Mass. Agr. College; Memorial Union Building; \$150,000; alumni.

Univ. of Mississippi; Memorial Building; \$150,000; alumni, students, faculty, friends.

Univ. of Missouri; Union Memorial Building; \$500,000; alumni, students, friends.

Univ. of N. Carolina; none in prospect, probably a memorial chapel.

Purdue University; Student Union Building; \$500,000; alumni, students, faculty, friends.

Princeton Univ.; Memorial Hall; \$50,000 to \$75,000; contributions.

Univ. of S. Carolina; University memorial building to be placed on campus; \$500,000; popular subscription.

Stanford University; Alumni Memorial Hall; \$250,000; alumni, students, friends.

Univ. of Tennessee; a memorial auditorium; \$150,000 to \$175,000; alumni, students.

Trinity College; probably a memorial gymnasium (not strictly official); \$300,000; alumni, friends.

Union College, Schenectady; Memorial Chapel; \$200,000; alumni, students, friends.

Univ. of Vermont; Student Union Building; \$250,000; alumni, friends.

Vanderbilt Univ.; Memorial Union Building; \$400,000; alumni, students, faculty, friends.

Washburn College, Kansas; Student Union Building; \$25,000 (plus other funds); alumni, students.

Univ. of Wisconsin; Memorial Union Building; \$1,000,000; faculty, students, alumni, friends.

## ATHLETICS

### DePauw Goose Egged 6-0. Third Victory for Aggies.

Saturday afternoon, in the third game of the season M. A. C. blanked DePauw, 6 to 0, in this way disposing of the hardest opponent they have had this spring.

Bill Johnson, the big sophomore hurler, started the game for the Aggies and held the Hoosier Methodists to two hits during the six innings in which he worked. "Zip" Kuhn relieved him in the seventh and allowed a like number of hits during the remainder of the game.

Only once during the game were the visitors at all menacing, this in the sixth inning.

Among the bidders for hitting honors in Saturday's game, Fullen stands high. In the third inning, McMillan bumped out a Texas leaguer, and just set himself to continue around the path, when Fullen connected with the ball for a blow which sent it far out along the right field line. With about two bounces the ball went out of the field, and the second-sacker romped across the plate at McMillan's heels.

Bills fought a hard fight for his team but was unable to run the trick without better support. In addition to a constant delivery, he carried a mighty stick to East Lansing with him, and out of three legal times at bat, he registered a double, a single, and a trip to first on an error.

McMillan continued to increase his average with two hits in the game, while Oas and Brown each equalled this mark. Fullen and Pacynski were responsible for the remaining bingles of the Aggies.

But one game will be played by the Green and White squad at East Lansing this week. "Potsy" Clark's athletes encounter Valparaiso on their own field Thursday afternoon, and then journey to Orchard Lake and Oberlin, Ohio, for games to be played Friday and Saturday.

Score by innings:

	1	2	3	4	5	6	7	8	9	T
DePauw	0	0	0	0	0	0	0	0	0	0
Aggies	0	0	2	1	3	0	0	0	x	6

Stolen bases—Pacynski, McMillan, Durnell.

Two-base hit—Bills. Home run—Fullen. Double plays—Carr to Brown to McMillan, Willman to Fullen. Base hits—Off Johnson 2; off Kuhn 2; off Bills 8. Struck out—By Johnson 4; by Kuhn 2; by Bills 3. Bases on balls—Off Johnson 3; off Kuhn 0; off Bills 3. Hit batsman—Johnson 2. Umpire—Green.

### Twenty Track Men to Compete With Kazoo Normal

Twenty members of the Michigan Aggie track squad will be taken to Kalamazoo next Saturday to compete in the first meet of the season for the Green and White, a dual meet

with Western State Normal. The following Saturday the Aggie cinder path athletes will compete against Notre Dame in a meet on the Aggie field.

On paper the Aggies have a well-balanced squad, their greatest lack being in the matter of hurdlers. It is possible that Captain Ernst may run the hurdles in addition to the quarter-mile and the 220-yard dash at Kalamazoo, although this is not probable.

In the distance and middle-distance events, the Green and White should be well taken care of while the work of Ernst in the quarter-mile can be depended upon to hold up the Aggies' end in this number. With Thurston, Adolph, Brendel, Green and several others to do the mile, half-mile, and two-mile journeys. The make-up of the mile relay team has not yet been decided upon, but the men composing it will be picked from among the 20 who have been named for the trip. The probable Aggie entry list is as follows:

100-yard dash, Herdell, Brady and Pollock; 220-yard dash, Ernst and Pollock; 440-yard run, Ernst and Perry; half mile run, Brendel and Green; mile run, Thurston, Hertsuch and Houston; two-mile run, Adolph, Nesman and Bagley.

Pole vault, Brooker; high jump, Atkins and Carver; broad jump, Carver and Perry; discus, Fessenden and Weaver; javelin, Schwei and Weaver; shot put, Fessenden and Schwei.

### With The Alumni Clubs.

### Western Pennsylvania Will Organize May 13.

Western Pennsylvania Aggies are tired of sticking it out alone and have definitely decided that they will get together and get acquainted. Accordingly, they have named Friday, May 13, for an organization meeting, at which they will celebrate the dedication of Alma Mater at the University Club, Pittsburgh, at 7:15. Announcements are being sent to adjoining Aggies in Ohio, West Virginia, and Maryland as well as the western Pennsylvanians. W. M. Hallock '14 (with) 436 Oliver Building, Pittsburgh, is chief organizer and is taking charge of the arrangements. Folks who are in car shot of the Pittsburghers should get in touch with Hallock at once and get their names down for a ticket for the May 13 celebration.

### Central Michiganites Urged to "Know Your College."

Thirty-eight attended the noon luncheon at the Elks Temple on Monday May 2, with eight girls. A strike in the kitchen transposed the order of things but did not interfere with the good time. Rolls and pie constituted the first course, the program the second, finishing up with dinner. A. L. Bibbins '15 was the

speaker. "Bib" took for his slogan "Know your Alma Mater," and emphasized the duty of every alumnus to know some of the outstanding things which M. A. C. has done and be able to talk about them.

### Chicago Association News

Announcement extraordinary!! Grace Bryant Taggart and Van Taggart of 5478 University Ave., Chgo. wish to announce the arrival of Ralf Scott Taggart on Saturday, April 30th. If any other Ass'n can beat that for this week, we'll have to be shown.

The selectmen and city fathers of the Chgo. Ags or Eggs, as our Semetic friends say, once more assembled on Apr. 28th, the main attraction being a costumed toe-dance by Messrs. Francis Andrews and Frenchy Barrows. The term "messers" is used advisedly. Dave Peppard appeared with a disposition as sour as the inside of a motorman's glove, claiming that we had besmirched his good name in our last issue. Those assembled took a vote and sustained the scribe in his crusade for clean thought. However, in the near future, an issue of our column will be turned over to Kid Peppard, and the old boy can just more than get even.

The only challenge received in answer to our Commencement offer is from the worthy Prof. Bibbins who wants to stage a good snappy match-scratching contest. More power to you!!

Larry Archer continues to whittle away slowly at the home stakes, preparatory to going to Colorado. The large Scandanavian expects to run up to East Lansing about May 12th, but due to the irregularity of the freight schedules, the exact hour of arrival cannot be given out. Members of the band please note!!

Friday, May 13 will be celebrated by the Chgo branch of the "Secret Order of Barn Yard Terrors" at the "Black Cat Inn." This is on the top floor of the Pullman Building situated at Michigan Blvd. at Adams St. Our committee on crime assures us that we will have ample police protection and a good time will very likely be had by all.

Aside from the above, the membership has been living a very quiet life. Some trouble was reported in the Henry home, till we explained to Pat that the slogan "1921 will reward fighters" didn't apply to domestic warfare. Scribe.

### Clinton County Climbs On Wagon With the Live Ones.

Some of Clinton County's livest alumni met at St. Johns on April 28 to organize an association. Dr. Ward Giltner of the Bacteriology department talked to them about the new courses at the college. Those present were Guy H. Frace '95, E. G. Hulse '11, R. W. Sleight '15, Bernice Beckwith Sleight '15, H. V. Kittle '16, Glenn Osgood '17, George W. Beckwith '17, Mrs. George Beckwith, Boyd

Rainey '19, Levi A. Blakeslee '19, Francis Halsey '20, Claude Pope '20, and Norena Weller w'24. On May 10 they are planning another meeting with a program and some eats. Some one from the college will meet with them.

### Detroiters' Column

The luncheon last week was a humdinger, even tho Anne wasn't there to serve the hot biscuits. Eli Middlemiss starred as a bus boy. We had quite a gathering of celebrities. Norm Weil was the first to arrive and was closely followed by Dean Bissell and J. R. McColl. Norm gave, as he always does, a very interesting talk on Aggie athletics, and appealed very strongly for help from the alumni in getting material into the school from which to build winning teams. Jim Fiske was unanimously chosen to head the Varsity Club alumni of Detroit, and with such an able organizer at the head, the Varsity men in town ought to do considerable toward getting the right men steered toward Michigan Aggie.

Dean Bissell handed out some of his dry humor and Mr. McColl gave a short talk.

Among the new faces were "Pat" Peterson, D. G. Brown, with his famous smile, "Sun" Yukse, Bill Cheettam of Fall River, Mass., "Father" Baxter, Ted England, and "Dickey" Dickinson. Dicky started right in with some of his stories and kept his end of the table in an uproar. Suppose when Red Kenyon gets back from his fishing trip he'll be able to outdo even Dicky when it comes to telling 'em.

Jim Fiske has completed his arrangements for the membership campaign and will shortly have a committee from each class out rounding up the delinquents. Better send your check to the treasurer before he gets to you, because no alibis will be accepted, nothing but five simoleons. The club is free of debt now, but we need money for coming events, and Jim is out for blood. Which class will show 100% members first?

Mel Taber was introduced at the luncheon as the newly elected president of the Detroit Engineering Society. Another Aggie poles the pill for a homer!

—S. B. L. '17.

### Ionia County Aggies to Celebrate Dedication Day.

Following their decision at their organization meeting last December, the Ionia County M. A. C. Association will hold their second meeting at the Hotel Belding, in the silk city on Friday evening, May 13, at 6:30. They will celebrate the dedication of Alma Mater with a dinner and an appropriate "speech, song, and story" program.

Professor Chapman of the Physics department will be the representative from the College. Mrs. Marie Belliss Johnson '99, R. 1, Belding is in charge of the local arrangements, and the announcement sent out by

# The M. A. C. RECORD

ESTABLISHED IN 1896

**M. A. C. Cannot Live on Her Past—What Will You Do for Her Future?**

Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

Published every Friday during the College Year by the Michigan Agricultural College Association.

H. E. Thomas, '85, Lansing	Pres.
H. B. Gunnison, '00, Detroit	Vice Pres.
J. H. Prost, '04, Chicago	Treas.
C. W. McKibbin, '11, East Lansing	Sec'y and Editor
May E. Foley, '18	Ass't Sec'y

Members of Executive Committee.

Elected at Large:

C. S. Langdon, '11, Hubbardston.

A. C. Anderson, '06, Flint.

Mrs. Helen Esselstyn Wood, '00, Lansing.

MEMBERSHIP IN THE M. A. C. ASSOCIATION which includes subscription to the Record, \$2.50 PER YEAR.

Make Remittances payable to the M. A. C. Association.

Unless members request a discontinuance it will be assumed that a renewal of membership is desired.

President Powell '20 invites all Ionia County Aggies to "board the Pere Marquette or get out the Ford or get there some way and bring some other graduate along."

## Calhoun Aggies to Hear Dean Sweeney on Dedication Day.

Alumni in Calhoun County will celebrate the sixty-fourth anniversary of their Alma Mater with a meeting in Battle Creek on May 13th. After a supper at Y. W. C. A. at 6:30 eastern time, the committee in charge promises a real live M. A. C. program. Dean Mary E. Sweeney of the Home Economics Division of M. A. C. will bring a message from the college. Graduates and former students in Calhoun County who don't want to miss a real Aggie treat should get their names in to Nenna Dunlap '19 just as soon as possible.

## Buffalo In The Lime Light.

All over but the shouting. The get-together and banquet held by the newly formed Buffalo-M. A. C. Association Wednesday evening at the Ellicott Club, was the peppiest and liveliest session of Michigan Aggie endeavor ever staged in this section of the Empire State. Dr. E. A. Smith '81 came all the way from Olean to show us that the "old timers" never forget their Alma Mater.

After everyone had become acquainted and imbued with enthusiasm, the "lunch" adjourned to the scene of action where "eats" such as Club D never saw or the Blackstone will ever see, were enjoyed by all. After "Dick" Everett had pushed the finger bowl across the table to Whalen, thus signifying the repast was over, "Pink" arose to do his turn as toastmaster.

The snappy little talks by Dr. Smith, Saford, Ryther, Backus and Hallock brought back fond memories of campus days and pranks almost since forgotten. "Tommy" McAuliffe was unanimously chosen Chairman until the next meeting when a permanent President will be elected. The Secretary-Treasurer "job" was given to Abel '17, who promised to give the activities of the association as much publicity as possible.

The next meeting will be held Wednesday May 25th. Time and place to be published in the Record later. The following came thru for the price of admission: Dr. A. E. Smith '81 Olean; E. P. Safford '91 Silver Creek; Dr. W. M. Backus '99 Buffalo; E. D. Hallock '10 Buffalo; C. G. Ryther '12 Buffalo; John J. Harris '12 Niagara Falls; C. W. Knapp '12 Niagara Falls; Sherman Taylor '13 Niagara Falls; Arthur W. Koester w'14 Buffalo; F. W. Whalen '17 Buffalo; Herbert Abel '17 Buffalo; Donald Bennett '18 Buffalo; Harold S. Everett w'18 Buffalo; George Henshaw '17 Oakfield; R. L. McGaw '19 Buffalo; T. P. McAuliffe w'19 Buffalo; C. E. Maxwell w'19 Buffalo.

H. V. Abel '17—Sec'y-Treas.

## MARRIAGES

Daniel Leo Mead '17 and Miss Mary Alice Ducey of Grand Rapids were married at St. Andrews' Cathedral in Grand Rapids on April 21. They are living at 632 Pleasant St. S. E.

## CLASS NOTES

'71

Don't forget the golden anniversary of '71.

'75, '76, '77, '78

The big day is June 15. You'll go home feeling years younger.

'81

Carlton Rollin Dart, Civil Engineer, 706 Greenleaf Ave., Wilmette, Ill., sends greetings to the class that's fit, fat and forty June 15.

'91

Thirtieth anniversary for '91. W. O. Hedrick is making big plans for the home-coming, June 15.

'95

W. C. Bagley, Professor of Education in Teachers' College, Columbia University, has moved from Pleasantville, New York, to R. R. No. 12, Westport, Connecticut.

'96

A silver anniversary comes but once. '96 celebrates her's on June 15.

'05

E. J. Gurnison asks to have his Record address changed to 224 N. Desplaines Ave., Chicago. "Still busy," he writes, "and wishing all good things for M. A. C."

'11

Looks as though Grand Rapids leaveners would all be round the board when the birthday cake is cut. Winnie Felton Duthies writes "You' don't need to plan on a nurse to care for our kids for we (Herb and me) are coming kidless, prepared for a real good old time. Herb says if there is going to be a 1911 show, we're in on it. I guess I have Marge and Holden Perkins on the way and "Benny" Porter and De Koning. Herb can urge. As for Mary Pennington and "Jack" Knecht they need no urging. They are coming."

F. C. Wilson "Pud" is one of the members of the recently organized firm of Gardiner, Baxter & Wilson, Logging and Forest Engineers, 513 Pacific Building, Vancouver, B. C. "The Association of Professional Engineers of British Columbia incorporated," he says, "and under a recent act has recognized forest engineering, and Gardiner and I were the first two and so far the only ones admitted. Baxter has been admitted as a logging engineer so we are all R. P. E.'s now. Concerning the reunion, you know that June is a poor month for 'timber-beasts' to take a vacation, so you will find a few of the foresters missing. Why not get letters from those who cannot be there and interview those who are there and compile a circular, so we can all get the news concerning each other?"

Zelin Goodell gets the blue ribbon for quick action. An automobile insured in the Aetna Insurance Co. of which he is District Manager, burned near Lansing last week. The fire occurred at 11 a. m. At 11:30 adjusters paid the loss, at 2 p. m. a new car was ordered, and at 3 it was insured. Any tier beat that? Of course "Zee" is on the reunion committee.

'13

Don't let those '13ers on the campus and in Lansing who are making big plans for the home-coming on June 15 do it all in vain.

J. A. McClintock, Plant Physiologist at the Georgia Experiment Station, has recently prepared a bulletin on "Tomato Wilt," which is being sent out from the station as Bulletin No. 138.

R. G. Chamberlain asks to be addressed care of

Motor Cartage Co., 3745-51 S. Halstead St., Chicago. He has been located in Milwaukee.

'14

Don Francisco's new business address since May 1 is care of Lord & Thomas, 724 S. Spring St., Los Angeles. His home address remains the same, 556 S. Catalina Ave., Pasadena.

'15

If you have not returned that questionnaire, the reunion committee would like to have it.

'16

'16ers did you see the Program of Commencement Week in last week's Record? Isn't it a blinger? Of course it didn't tell what our plans are but the committees are working hard on them. Try to come back for the whole show. Ayesha Raven Laidlaw says she will be back if she has to sell her old shoes to get the dough. They will mighty nigh bring enough to finance the trip too, the way shoes

are selling these days. Lewis Wells says that only prevention on the part of Providence will keep him home. That's the proper spirit Lewie. That's the only excuse we can except. Ruth Hurd Snyder says, "Let's have plenty of class festivities outside of the general program." We are with you on that score Ruth and we know the program committee is too. George Pellett says his store over at Mt. Morris will be closed for inventory that week.

G. Ray Warren has moved again, tho he is still with the Food Products Inspection Service of the U. S. Bureau of Markets. His address for the present is 308 Bourse Building, Philadelphia, Pa.

'17

Charles Donnelly lives at 3800 Virginia Park, Detroit.

Delbert Prillerman writes from Institute, W. Virginia, "I am still at the West Virginia Collegiate Institute in the Department of Chemistry and have no changes to report except that I was married to Miss Amelia B. Cook of Cleveland, Ohio, on June 24, 1922. I get pretty lonesome down here for M. A. C. men, I haven't seen one since I was in Cleveland last summer. The only thing that keeps me going is reading in the Record about M. A. C. men whom I knew while in school. I stand always ready and willing to pull with the M. A. C. Association for a better and greater Michigan Agricultural College."

'18

William DeYoung, in Soil Survey work, University of Missouri, writes, "The Soil Survey season has again opened up, and at present writing I am located at Polo. H. V. Jordan '18 is working with me. Our work in this county will probably be completed in about six weeks. Hope the Memorial Fund is growing to such a size that work on the building can be started soon. Missouri recently made a successful drive for a similar fund."

Glen Blades, District Sales Manager for the North American Fruit Exchange, reads his Record at 321 Cutler Building, Rochester, N. Y.

Holmes Froelich, President of the Flint Club, and Mrs. Froelich (Bernita Weese w'20) have moved to 130 W. Dayton St., Flint.

Harvey Schnur is a salesman with the Fuller Brush Co., of Saginaw, and is located at 602 State St., Petoskey.

Clayton Wells (with) is still in the insurance business, but has been transferred to Dallas, Texas, 1313 Great Southern Life Building.

Dr. E. G. Baxter is veterinarian at Webster, Monroe County, N. Y., and has a good practice.

J. H. Harman has recently been honored by being placed in charge of the U. S. Entomological Laboratory for eastern New York. Mail will reach him at 306 Chawh Ave., Scotia, N. Y.

'19

This is Bill Thies. Watch his smoke. He is chairman of the general arrangements committee of the '19ers reunion this year in June and has already begun to make things hum. Altho plumb full of ideas, he desires suggestions from other members of the class. Bill says the Campus Cop has agreed to clear off the campus and make room for the '19ers. Make reservations early.

'20

The "baby" class, tho young, is large for its age, and expects to make itself heard at the Commencement reunions, June 15.

Earl R. Kehn, Rockwell, Iowa, R. R. No. 2, was married in November, 1919, and is farming just outside Rockwell and 11 miles from Mason City.

"Big John" Hammes of football fame, who has been connected with the Seed Department of the Michigan Farm Bureau, is now connected with the Upper Peninsula Experiment Station of the College, at Chatham.

Florine Folks has had to give up teaching and return to her home in Hanover. She broke her arm on January 8 and it did not knit properly, so it was necessary for her to go to Ann Arbor about the middle of April and have an operation. The doctors made an inlaid graft and put the arm in a plaster cast. She hopes now to be able to get back for the reunion in June.

Hester Schraivesande Belknap lives at Woodcliff Park, E. Grand Rapids.

'21

Lee J. Rothgery, Resident Engineer for Huron County, may be addressed at the Hotel Morrow, Bad Axe.

Ralph Yeatter is farming at Colon. Raymond Jessup and Mrs. Jessup (Ruth King w'21) are living in Walkerville, Canada, where Jessup is superintendent of the Ice Cream department for Walker & Son, 214 Windermere Rd.

Howard Eddy is Road Construction Engineer for the State Highway at Ionia.

## Chin Golf! Out in 38—and coming easy!

DO you play Chin Golf? It is the latest popular game. Play it Winter or Summer; at home or at your club.

Chin Golf is not a 19th hole proposition—nothing like stove baseball or conversational tennis, but a regular indoor sport.

Any man who shaves himself can play it. Count your razor strokes when you shave, and see how low a score you can

make. It puts fun and friendly rivalry into shaving.

If you are a golfer, you will get the idea at once; but, even if you never have schlauffed with a driver, nicked with a niblick, or been bunkered, you may be a winner at Chin Golf.

You are sure to like the course and have a good score if you use Colgate's "Handy Grip" Shaving Stick.

Fill out the attached coupon, mail it to us, with 10c in stamps, and we will send you a "Handy Grip," containing a trial size Colgate Shaving Stick. Also we will send you, free, a score card, the rules for playing Chin Golf, and a screamingly funny picture made especially for Colgate & Co. by Briggs, the famous cartoonist.

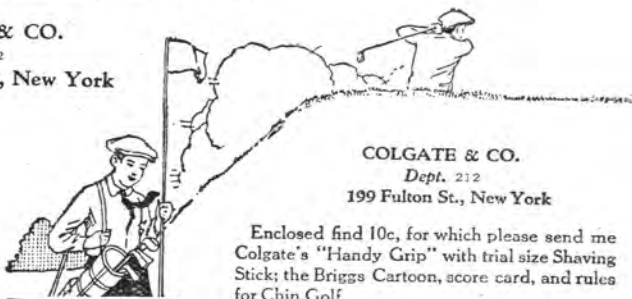

The picture is on heavy paper, suitable for framing or tacking up in locker rooms. It will help you to start every day with a round of fun.

*"And then he took up Chin Golf"*

Sylphon Thermostatic Regulator for Case Tractors

## Satisfactory Kerosene Operation

**F**OR AN engine to operate successfully on kerosene, provision must be made not only for pre-heating the fuel mixture, but also for quickly warming the engine and maintaining it at a uniform temperature. It is only in this way that *complete* combustion of kerosene is assured.

In Case Kerosene Tractors a manifold heater, utilizing the heat from the engine exhaust, warms to the right temperature the air that is mixed with the kerosene before it is drawn into the cylinders.

The temperature of Case 10-18 and 15-27 H. P. engines is controlled by a Sylphon Thermostat. This device regulates the cooling system circulation in such a way as to use only a small volume of water while the engine is warming up. It automatically throws into circulation the entire cooling system when the engine has reached the proper temperature. This insures quick heating of the engine, maintains uniform temperature, and reduces to a minimum the chances for raw fuel passing by the pistons and diluting the oil in the crank case. The Thermostatic regulator requires very little attention.

Case Kerosene Tractors are designed to operate economically on kerosene and other low grade fuels.

**J. I. Case Threshing Machine Company**
