

MICHIGAN STATE UNIVERSITY EAST LANSING

---

OFFICE OF THE DEAN OF INTERNATIONAL PROGRAMS

December 31, 1962

Dr Iwao Ishino  
Sociology and Anthropology  
Campus

Dear Dr Ishino

This letter answers the list of questions which you gave me last week in our discussion concerning your assignment as a regular staff member to the Okinawa project for a two-year tour effective April 1, 1963.

Funds are available to purchase about \$200 worth of training aids and audio-visual materials which you require for instructing at the University of the Ryukyus.

Regarding housing allowances, a Department of the Army official stated that a budget amendment will be made to the Okinawa contract by February 1963 authorizing this allowance for regular staff members. Dean Taggart's policy is that such tours of duty are based on a no gain-no loss policy, and I am certain that arrangements will be made to cover the house rental cost.

The Okinawa contract states that the Department of the Army will furnish medical care, post exchange and commissary privileges for instructor personnel and their authorized dependents. The contract also provides for shipment by ocean freight of a privately owned automobile.

A total of 4500 pounds gross of household effects, books and other items required by an instructor will be packed and shipped via surface and ocean transportation. This 4500 pounds is to include the professional materials that an instructor wishes to take with him. Should you not be able to include all of your instructional material in the overall total, about 200 pounds can be shipped under another part of the contract that is quite limited in funds.

Dr King told me of your discussion with Dean Taggart, Dr Smuckler and him regarding a graduate research assistant. This assistant will probably be approved after you have arrived in Okinawa and determined the extent of his work. If there is no one available who would qualify for his doctorate degree and thus come under the Ford Foundation funds, it is possible that an assistant can be programmed for a year, starting in late summer of 1963, as a junior regular staff member, supported by Okinawa project funds.

Dr Iwao Ishino  
12/31/62 p 2

The Okinawa contract prescribes that necessary secretarial services will be provided by the US Civil Administrator of the Ryukyu Islands. Should this secretarial service be insufficient, funds are available to hire interpreters and other academic program assistants. This latter fund could pay for secretarial help. In addition, it is possible for you to send a limited number of Voicewriter discs back to our office for transcription-- a procedure which has been used by Dr Hatch. It is considered that research secretarial assistance can be provided for you from one of these three methods.

If agreeable to you, an annual salary of \$14,500 will be proposed to the Board of Trustees for your overseas pay. This overseas base salary was computed by annualizing your academic salary and adding an incentive increment.

Should you have further questions concerning the above answers, or desire other information, please contact me. In addition, I would appreciate a statement from you accepting this assignment so that necessary processing can be started.

Sincerely

  
Miller O Perry  
Assistant to the Dean

Mr. E. O. Peterson  
Cashier  
University Business Office  
Campus

Dear Mr. Peterson:

Dr. Iwao Ishino plans to travel to Okinawa early in June 1963 for a two-year tour of duty as a staff member of our Ryukyuan project. In this connection it is requested that he be provided a travel advance in the amount of \$1,000 which is repayable by the deduction from his salary of 1/3 of the advance during each of the three months following the month that he receives the advance. The advance will be on a non-interest basis.

Your assistance in this request is appreciated.

Sincerely,

  
Miller O. Perry  
Assistant to the Dean

Mr. Miller O. Perry  
Assistant to the Dean  
International Programs  
Campus

Dear Mr. Perry:

I don't know whether it makes any difference or not, but I notice a few factual errors in your letter to Colonel Harbison, dated April 15, a carbon copy of which I just received. Just for the record, I want to call your attention to these details:

a) I don't wish to stop over in Hawaii because it "includes some of the best known Asian and American scholars in the social sciences"--we have better ones at Michigan State University. I wish to go there because the East-West Center has a monopoly on both the books and scholars concerned with the study of Okinawan culture.

b) I have taught and done research at Ohio State University for nearly five years--not two years as you have put it. I was there from 1951 to 1956.

sj

Sincerely yours,

Iwao Ishino

April 16, 1963

Colonel Joseph S. Harbison  
Office of the Chief of Civil Affairs  
U.S. Department of the Army  
Washington 25, D.C.

Dear Colonel Harbison:

Dr. Iwao Ishino has completed plans for his trip to Okinawa. He will leave here with his family on June 10 and fly to Los Angeles where he will spend about five days advance leave with his relatives. Then on June 17 he will report to Travis Air Force Base for MATS transportation to Okinawa. I have advised him to spend about one hour at Fort Mason in order to check on the arrival of his household goods and the transport that they will be placed in for out shipment to Naha.

Dr. Ishino has asked for a three day stop over in Hawaii to confer at the East-West Center located on the campus of the University of Honolulu. This center has grown tremendously in the past year and now includes some of the best known Asian and American scholars in the social sciences. Dr. Ishino feels that a visit with some of them would assist him in his consultant and research advisory work which he will perform at the University of the Ryukyus. I believe that this visit is a very desirable feature to include in his trip too.

Mrs. Mary Ishino and their children will wait for their MATS flight instructions at the residence of Mr. S. Kobayashi, 1730 Martha Lane, Santa Anna, phone Kimberley 2-2225. Their four children are: Marilyn Janice (age 15), Catherine Jo (age 11), Ellen Susan (age 9), and Tomi Ruth (age 1). Dr. Ishino was born in San Diego, California on March 10, 1921 and Mrs. Ishino was born in Stanton, California on February 22, 1923.

Dr. Ishino earned his M.A. degree at Harvard University in 1953 and his Ph.D. degree at Harvard in 1954. Prior to accepting an assistant professorship here at MSU in 1956, he was employed as a research associate and assistant professor of Sociology and Anthropology at Ohio State University for two years.

Dr. Ishino was a social science analyst in the Office of War Information, Washington, D.C. from 1944 to 1946, and held the same title with the Allied Occupation Forces in Japan in 1949-1951.

April 16, 1963

He was appointed associate professor of Sociology and Anthropology at MSU on July 1, 1958, and was promoted to professor of Sociology and Anthropology, July 1, 1962. Dr. Ishino had a one year Fulbright lectureship at Tokyo University starting September 1958. In addition to his instructional assignment with the Department of Sociology and Anthropology, Dr. Ishino is employed part time in MSU's Institute for Community Development.

If you will send the travel orders for Dr. Ishino and family to me, I will give them to him.

Sincerely,

Miller O. Perry  
Assistant to the Dean

May 9, 1963

Dear Mary and Iwas:

I really do not know how  
to thank you for all that you  
did for me. Those are un-  
forgettable days, indeed.

I was extremely happy to  
be with your daughters too.  
How I miss them!

One thing which breaks my  
heart is that by my utter  
carelessness, I opened  
the camera loaded with  
the film taken in your  
place.

I wonder if I may beg  
you for your family picture.

I am so anxious to have  
it, that I find myself  
very impatient.

While I know that I shall  
be able to see you again  
in Tokyo, I would appreciate  
your visiting my family  
in case you have time,  
not necessarily this time.  
I'm sure they'll be thrilled  
to see you all again.

As ever,

George

P.S. I would also appreciate  
you having some one sent  
materials including glossy  
prints of the campus with  
which I may write about  
Michigan State University.

Tomoko Yamada

March 29 '63  
Tokyo

Dear Mr. Ishino.

You'll be much surprised to receive this letter from a stranger, and that from Japan.

I hope you'll remember the man called Yoshitiko Yamada whose pen-name is Minoru Kida, whom you visited before at Ongata Village. He is my father.

I have a great favour to ask of you. To be honest with you, I would like to go to America to study American literature and American History. I love studies. When I asked my father whether I may go to America to study because I had an admission of Blue Mountain College. He said, "It's all right to go to America to study, but I don't agree with you in college, Blue Mountain College." So he taught me your name and address. I wish I could enter

Michigan State University. I haven't had any sponsor in America. I'm afraid that if my father can pay all the money I need in the University or not.

I'm so sorry to trouble you, but I hope you'll help me to study in your University.

I'll introduce myself to you. I'm twenty years old who is engaged in Mikimoto Pearls Inc. I love studies, so I study English, mathematics Japanese history etc at home after I finish my work at the office. I left the Mukogata High School in 1961.

I haven't had the admission of the University, so I'll write to Admission Professor at Michigan State University.

I'll promise you that I'll study as hard as possible if I can enter this University.

Would you mind helping me to study at your nice University?

I'm looking forward to  
your nice letter.

Sincerely Yours.

Tomoko Yamada

P.S. I'll enclose my photo..

May 14, 1963

Dr. I. Ishino  
Department of Sociology  
and Anthropology  
Michigan State University  
East Lansing, Michigan

Dear Iwao:

It is a hot muggy afternoon and I find it difficult to stay awake to read so I'll get a few other things accomplished. I am giving an exam to my 5 o'clock class today so I have to stay around school.

By the time this letter reaches East Lansing I imagine you will be home again and will not have much time left around here. I'll try to remember the things we discussed in Marquette now and hope that this letter doesn't arrive too late.

First of all I will be teaching a course in Introductory Anthropology next fall and you mentioned that you have some notes that you could let me have. This summer and spring semester I will be teaching a 500 level course in the Family and in the spring semester I will also be teaching Culture and Personality again. Any notes or material which you might have for these two courses would help a great deal and be very much appreciated.

I also wanted to know what State is using for an Introductory Anthropology text and what you might suggest. I just received a copy of Bohannan's Social Anthropology a few days ago and it looks pretty good to me if used along with a few other readings or smaller books.

Would you please check on where I can order those models of Neanderthal man, and the others, like you had in your office. Your secretary was supposed to check on it for me one time before I left so she may have it written down.

Anything that you have for me you could put in boxes and leave them with Rodger Rice in Dr. Beegles' office. I have written him asking him to keep them there until I can pick them up after school is out.

I didn't want to take up extra time on the phone to tell you this, but I did receive a letter from my mother today asking if I still had that set of World Book. My brother and his fiancée are both graduating from college and will be teaching after their marriage this summer. My family wants to give them that set for a combination graduation-wedding present.

Just to make sure this letter doesn't get delayed in our mail room or yours I will probably put a special delivery stamp on it.

Thank you in advance for any assistance you can give me for those courses.

I don't believe I mentioned when you were up here that Carl Graffunder had applied for a position which we thought we would have in our department. The legislature didn't come through, as you no doubt know, so we will not be able to add anyone for next year.

Best wishes on your project in Okinawa.

Sincerely,

A handwritten signature in blue ink that reads "Paul". The script is cursive and fluid.

DEPARTMENT OF ANTHROPOLOGY

May 21, 1963

Dr. Iwao Ishino  
Department of Anthropology  
Michigan State University  
East Lansing, Michigan

Dear Dr. Ishino,

In accordance with our preliminary conversations at the Detroit C.S.A.S. meetings, May 16-18, I write to confirm that I would indeed be interested in the preparation of a special issue based on the papers given in the symposium entitled "Theta Culture". As you know I managed to mention this to one or two of the others and they If I may then make the following suggestions:

- 1) The projected issue would be for April, 1964. Copy should then be in my hands by approximately February 15.
- 2) My space will allow only a maximum of seven articles - maximum length 5000 words - or six articles - maximum length 6000 words.
- 3) I would prefer these in proper article form, foot notes, bibliography etc. following our format which is the same as that of the American Anthropologist. I say this rather than having two or three basic articles with comments on them.
- 4) Presumably you and your colleagues will thrash out some agreement on a conceptual term, whether it is "Theta Culture" or some other. To my mind, the term Theta Culture is eminently neutral but not exactly descriptive.

I was not able to contact Eric Wolfe at Detroit but hope that he might be included in your list of contributors. Since I shall be away the whole summer I would much appreciate it if you as President of that symposium would take the initial steps in arranging the special issue. Naturally, we should look after the final business of editing but I would prefer that the papers be channelled through you.

With best wishes for your future field trip. It was a pleasure to meet you at Detroit.

Yours,

*Michael Kenny*

Dr. James N. Morgan  
Program Director  
The University of Michigan  
Survey Research Center  
Ann Arbor, Michigan

Dear Dr. Morgan:

Thanks for passing on the information regarding your plans for an international design conference. I am leaving for Okinawa around the 17th of June and hope to do some studies on time allocation. If in the course of this activity I find someone who might be able to attend your design conference, I will write you about him. Meanwhile, I would be happy to be kept up-to-date regarding your activities.

I have briefly scanned your book on Income and Welfare and find it fascinating. It seems to suggest a number of ways in which the Ryukyuan economy might be examined. Perhaps I may be able to get someone there to obtain some data in terms of your schema.

Thanks again for the information.

Sincerely yours,

Iwao Ishino  
Professor of Sociology and Anthropology

ANN ARBOR, MICHIGAN

A DIVISION OF THE  
INSTITUTE FOR SOCIAL RESEARCH

May 17, 1963

Professor Iawo Ishino  
Department of Anthropology  
Michigan State University  
East Lansing, Michigan

Dear Professor Ishino:

You may have heard that we have a grant from Carnegie for a survey in this country dealing with certain types of individual economic behavior (including productive use of time) that contribute to economic growth. The study is to be preceded by an international design conference to help reduce the extent to which it is culture-bound.

In addition we are hoping to be able to provide some internship training in the course of the study for people from other countries who want to start a program of survey research in their own countries. If they replicated part of the original study that would be fine, but our major concern was to provide the training, not to engage in a series of studies in various countries.

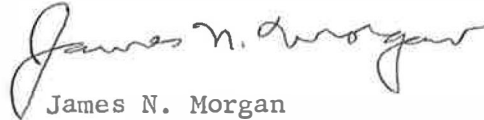

I'm writing to you, just before you go to Okinawa I gather, at the suggestion of Phil Hauser and others, to ask that you stay alert to possible people either to attend the design conference, or to spend a year here learning the techniques of large-scale sample surveys devoted to questions of why as well as what. We do not have financing for the training part, and would like to restrict it to a few countries with several people from each, so that they might form a team when they returned. We are also aware of the tendency for trained specialists to be drawn into government policy tasks and feel it necessary to allow for such attrition.

You may also have some suggestions about methods of studying the use of time. Our interest is in economic behavior in a broad sense, so that we are concerned mostly with economic categories (working for others, working for self producing for own consumption, etc.). We are also interested in planning, concern for education of children, and willingness to accept new ways of earning an income or spending it. We make some preliminary steps in analyzing some of this in the book Income and Welfare in the United States (McGraw Hill, 1962).

May 17, 1963

We'd appreciate any advice you can give us. We have postponed the program hoping that by spring 1964 we might locate some potential trainees and some financing for them. The study in this country would then be done in the winter of 1964-65 starting with the design conference.

Sincerely yours,

A handwritten signature in cursive script, reading "James N. Morgan".

DEPARTMENT OF SOCIOLOGY | ANTHROPOLOGY

May 20, 1963

Iwao Ishino  
Department of Sociology-Anthropology  
Michigan State University  
East Lansing, Michigan

Dear Iwao (and John):

I am very anxious to get absolutely straight on your argument. I confess that I didn't follow the paper as well as I should have the other morning. I want to footnote your ideas in this thing I am working on for publication in Dore's conference book and your whole presentation could be vital to the section of the paper on changes in farming pattern.

Now, are you (1) saying that the economic difficulties of small-scale farming are being met by various forms of cooperative and communicative interaction ("reticulated networks")? And if you are, (2) just how many or to what degree can the economic pressures be so met? (E.g., the smallest farms are disappearing which might suggest that there is a limit.) (3) Are the corporative enterprises being set up among several farmers an example of the reticulated networks or is this something else again? (4) What of the part-time farmers, which, according to the reports, now constitute over 60% of all Japanese farmers? Is this pattern of suitcase and weekend farming, which seems to be mushrooming, implicated in your reticulated systems? Or is this still another and different way of meeting the economic difficulties of small-scale farming? (5) Is there a traditional element in the growth of reticulated networks? That is, is it building on traditional cooperative patterns; on kinship ties? Is it possibly a way of "saving" traditional rural social organization and still accommodate economic change?

I would really appreciate a letter on this. Good to see you both. I got home last night, and slept for 10 hours. Spent Sunday mowing my lawn and generally puttering around, trying to unwind.

Under separate cover I am sending you my latest memoranda on the study. I am especially anxious to get your comments on the "risk and rationality" piece.

Cordially,

John W. Bennett

Dear Iwao,

Would you kindly send my manuscript on Japan's  
New Middle Class on to Bob Blood, <sup>Soc Dept. U of Mich.</sup> He will start writing  
up his materials from his research in early June and  
would like to take a look at my manuscript. If you've  
any comments, I'd very much appreciate hearing them.  
I've revised it some since this draft and it should be  
ready in page proofs by July 1. Hurrah.

Best wishes,

Ez

June 3, 1963

Professor Edward W. Weidner  
Vice-Chancellor  
East-West Center  
University of Hawaii  
Honolulu, Hawaii

Dear Ed,

I have been assigned to the MSU group in Okinawa beginning this month. On the way there, on or about July 18, I would like to spend two days with your colleagues who have worked in the Ryukyus. I have mentioned the possibility of this visit to William Lebra when I saw him at the Asian Studies Association meeting in Philadelphia. This letter is to inform you that I will be visiting your campus and that I would appreciate whatever your office can do to inform your Ryukyuan scholars that I would like an hour or so of their time during my visit.

Sincerely yours,

Iwao Ishino  
Professor of Sociology and Anthropology

II/ks

P.S. I just saw Bob Horwitz in the hall. He says, "Hi."

June 3, 1963

Dr. George Won  
Department of Sociology  
University of Hawaii  
Honolulu, Hawaii

Dear George:

No doubt Steve Deutsch has written you about my visiting Hawaii for a few days on the way over to Okinawa. This letter is to confirm this grapevine news.

I hope you will be able to set aside an hour or so from your schedule so that we can talk. The present plan calls for my arrival in Honolulu sometime on the 18th June via MATS. My schedule while there is uncertain, except that I am writing to Dr. William Lebra there asking him to set up some appointments for me with regard to Ryukyuan scholars. If you could call him and find out what he has in mind, you might get a better idea when it would be possible for you and me to get together. I would also like to see your brother-in-law Dave and your sister again.

Sincerely yours

Iwao Ishino  
Professor of Sociology and Anthropology

II/10

July 2, 1963

Dean Louis L. McQuitty  
College of Social Science  
205 Berkey Hall  
Campus

Dear Dean McQuitty:

I would like to recommend that changes be made in the guidance committee members of Rolf H. Schulze, #167113.

The committee formerly consisted of:

Dr. F. B. Walsanen, Chairman  
Dr. J. W. Artis  
Dr. J. A. Beagle  
Dr. C. L. Loomis  
Dr. I. Ishino

Dr. Ishino left for Japan, on leave, and therefore I recommend that James B. McKee take his place on the committee.

The committee will then be as follows:

Dr. F. B. Walsanen, Chairman  
Dr. J. W. Artis  
Dr. J. A. Beagle  
Dr. C. L. Loomis  
Dr. J. B. McKee

Thank you.

Sincerely,

John Useem  
Chairman

JU/cw

cc: Dr. I. Ishino ✓  
Dr. J. B. McKee

July 10, 1963

Dear Dan:

I have been meaning to write you since I have arrived here, but have put it off because I have been in a very serious state of cultural shock. I didn't want to write anything that I would be sorry for later on. It seems that I'm back on keel, but you'll have to judge for yourself.

In many ways this should be an exciting place to do some scholarly work. The place is literally a boom town ~~that~~ with changes taking place overnight. It has much of the feeling Tokyo had in 1949, a willingness to let bygones be bygones and to start out a new life, uncertain as that might be. To document and to research these changes would be a fascinating ~~man~~ exercise. But, under present administrative arrangements that MSU has with the university, I doubt that this could be done efficiently or without heartaches. The language problem is extremely grave. Misunderstandings of all kinds abound. For this reason, I have not yet approached Dean King about you. At this point I could not in good conscience urge anyone, even Jack Donoghue, to ~~come~~ here. In fact I would discourage them from coming here. The people in the International Programs office have their heads in the clouds. They don't really know what's going on here.

I'm sorry to have to give you this disappointing news, but that is the way I size up the situation at the present time.

Say, I've heard indirectly that you ran into some trouble with the Rambler. Give me the details, will you? ... If it makes any difference, I just ~~just~~ bought a 1956 Ford for \$520.

How's your thesis coming along? Any success in finding a house?

July 10, 1963

Dear Jack:

I've been in a deep state of cultural shock, so much so that I couldn't bring myself to writing letters. I believe I'm pulling out of it now, so here goes on some news from Okinawa.

I was simply amazed at the degree of change that has taken place since the last time I was here, ~~approximately~~ about 12 years ago. A war-ravaged town 12 years ago is now bustling ~~with~~ with construction works, highway development and boom-town entertainment including the usual cat houses. The municipal services are, as might be expected, haphazard and unreliable. The quality and variety of food available is good. Luxury items from tobacco, liquor, and antibiotics to TV, fancy dress and quality autos are everywhere evident. In the countryside new technology and new crops are ~~indeed~~ being introduced by methods which no one quite understands. In the cities labor unions are being organized and they are beginning to show their mettle. They just finished their strike with the ~~main~~ bus company.

Behind all this hustle-and-bustle is evident a great deal of anomie. I haven't gathered any statistics on health, divorce and other kinds of symptom but I suspect these would be quite revealing. Politics and politicking for the sake of politicking is the norm for the day. Petty gambling goes on as usual and I suspect that among the elite, especially <sup>when</sup> their fraus, leisure is spent in such activities. Among the working classes I find a good deal of the entrepreneurial spirit, to use Hagen's notions.

Nevertheless this is an underdeveloped country and it has most or all of the symptoms ~~of~~ that the textbooks say such a country should have. From my standpoint, however, this is a terribly frustrating place to work with the role that I have in this MSU outfit. I would not advise any scholar to come out here under such auspices. In a later letter I shall give the details.

Meanwhile, I am wondering if you could do me a favor. Could you sound out John Useem for me to see what he has in mind about this Ohio State thing. I have not answered Ohio State yet. I've ~~been hoping~~ been hoping to have some kind of letter from him giving me a vote of confidence. At this point, since I have not had a letter from him, I can only think that he doesn't give a damn whether I go to Ohio State or not. Confidentially, I am inclined to stay at Michigan State because this would mean less of an adjustment problem for the family when I return Stateside. But with no letters from anybody—including you—from MSU, I'm not certain of anything. Meanwhile, don't get panicky about leaving MSU!

Please give my love to Mary, Ed and Mary, Stew and Ruth, Bernie and Rita, Moreau and Eleanor, Chas, etc. etc.

July 11, 1963

Dear Stew:

Excuse the long absence from the channels of communications flow. But I've been in bad state of cultural shock. It was rather funny to watch my own behavior in this. I arrived here on June 21 and immediately find that my colleagues scattering to the winds—one MSU man goes to the States; another goes to Taiwan; and the third and last one is around but never in the office—out of touch. I didn't get much help from them in finding my way around. This military base is a most complicated affair with the left hand not knowing or caring what the right hand does. But back to my case of cultural shock. I deliberately tried to restrict ~~any~~ ~~contact~~ contact with new people; I deliberately went to the same places to eat; I deliberately set a pattern of daily behavior and didn't deviate from it; I deliberately went to see American movies three or four nights in a row; I deliberately avoided listening to Japanese broadcasts on the radio—I listened only to English broadcasts. As I look upon it now, this was a systematic attempt to avoid new information coming into my neural networks—hence cultural shock is due to a condition of information overload. When a person finds himself in a new cultural environment, he is so overwhelmed with the mass of new information coming at him that he cannot adequately assess and store this knowledge. Thus information overload, the cultural shock being one of its particular varieties.

Enough of this. Let me change the subject to what you and I have discussed very seriously before we left. I have been in a communications blackout since leaving East Lansing. I have not had a single message from anyone, not even Jack D., and I have been forced to mull over the Ohio State invitation without any information as to what has taken place regarding this issue at MSU since June 11. Neither have I been able to communicate effectively with ~~my~~ Mary I., who is still in California (There has been a delay in her coming here—a normal delay if you do things the army way). Letters take a week sometimes to get to California. What's the scoop with the new Director of the Institute? Any changes in policy? What's happening to the Tree Project? (In this instance, I feel lost because my notes on the Project ~~is~~ still in shipment; note that it is exactly two months since I left East Lansing).

Cordially,

OFFICE OF DEAN OF INTERNATIONAL PROGRAMS

July 11, 1963

Dr. Iwao Ishino  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao:

Your family is scheduled to fly from Travis next Wednesday, July 17. So I hope that they arrive by July 21st--your requested date of delivery. I have learned one lesson from your experience and that is not to have a staff member request air transportation for his family from USCAR. Since D/A has some space allocated, we stand a better chance to get the space from it, and to only ask USCAR to send the cable that housing is available. Of course, when the U of R apartments are constructed, concurrent travel will be available and our problems will be lessened. And in closing this paragraph, I feel that D/A did quite well since the house you selected is available for occupancy July 13th and your family departs four days later.

Now to answer your July 2 letter. I did know of your Ohio State offer about two weeks ago, and I have seen a copy of the Useem-Hunter counter-offer to you. Our D/A-MSU contract calls for a staff member to serve a nine month minimum period overseas to be eligible for dependent logistical support and transportation. Thus, there would be no cost to you to return with your family to the States after that nine month period. Howard Grider states that MSU's policy generally has been to charge the staff member if he returns in a shorter period unless illness or some other equivalent reason is explained.

Your second question concerned salary adjustment. I believe the Useem-Hunter letter covered that point since it stated that your campus salary would be annualized at \$14,000. Since the incentive increment of 10 per cent should be added to your annual salary, your overseas base salary would be changed to \$15,400 plus the salary augmentation \$1,250 for the period July 1 to May 30, 1963. The letter stating the proposal would commence in the fall 1963, so I will prepare a change of status recommendation effective September 1, if you agree to the offer. I believe our account can support your salary increase.

I appreciate your observations about your colleagues. Having never met any of the USCAR, U of R, or GRI members, I am a bit in the dark about some of our specific projects and possible personal reactions. Now that Jim Ney has visited us, I have met all of the group except Henry Nakasone.

Dr. Iwao Ishino

Page 2

July 11, 1963

Your work with the \$50,000 research program should be most interesting and provide another interest for you in addition to your consultant work in teaching in your field. Jim Ney stated that USCAR might have some reservations about the policies and procedures that were recommended as a point of departure for U of R, your group and USCAR consideration. No doubt by now you have encountered some of these objections and are proceeding to set up a revised solution acceptable to both parties.

I will not answer your 10:35 P.M. letter of July 2 since I feel we have solved the problem presented. I talked to Mrs. Ishino about an hour ago. All are well in your family and eager to join you overseas. I told her to keep account of bus and taxi fares on her trip and that if you would send the dates, places, and costs to me, I would make out a supplementary travel voucher and have the check deposited in your account. To expedite the voucher, please sign and return the enclosed blank one and I will use it for the extra travel costs. Will sign off that I consider you the friendly American and that I trust you will not remain lonely much longer.

Sincerely,

  
Miller O. Perry  
Assistant to the Dean

July 26, 1963

Dear Twao and Mary,

First of all I want to apologize about the long period of non-writing. This will become more clear as this letter goes along. Second apology and third is the typewriter that I am using. The "I" seems to be the worst part of it. I am at home with my own typewriter and this is the problem. I hope that all your culture shock is over now that Mary and the kids are with you. What kind of housing arrangements do you have? Have things become better? Needless to say all of us here are most happy that you made a decision to stay at MSU. I did not write to you at that time because of all the misunderstandings, mainly yours, Oyabun, as I understand it. At any rate, you know how I feel about your decision to come back here. I suppose that the next problem will be how long you stay in Okinawa. And then, if you will go to the East-West Center. Twao.....a major question.....can we use tapes with you????? If so, Stu, Ed and myself would be able to communicate with you much more often.

Please let us know about this!!!!

I will now ~~refer~~ inform you about a number of facts and problems on which I will expand by tape, if you can receive them.

(PERSONAL)

1) Publications: Usseems and myself will appear in the next HUMAN ORGANIZATION, I will be in the next (or after next) CURRENT ANTHRO. , I sent the "Large vs. Small" paper to Bill White of HUM ORG.....he seems interested; The Bennett Ishino Book ran into problems which, as I understand it, are now resolved.

*we have plans for photo and others!!!*

2) I will get this typewriter fixed, especially if you are not equipped to take tapes.

3) Dave Lewis passed his PhD. orals..... I thought his thesis was miserable and voiced my opinions, but it is all over. Imagine proving with all that jazzy statistical stuff things we already know. More about this, if we start tapes.

33) Carl Jantzen is doing a terrific job on his thesis. Really Twao, it is good. He surprises all of us. As soon as I get a copy of it, I will send one on to you. I just finished it today, so I am particularly impressed. I think it is a real contribution.....survey of literature, attempt to use, and results. I will tape more on this.

4) Dan has finished his thesis. It is a combination of information, village-nation linkages, reticulated organization and community development. I think it is quite good for an MA thesis. We will send you a copy. Dan (we hope) has an HEW grant for next year and will not teach at Community college, but rather, finish all his requirements for the PhD. If he does not get the grant he will borrow the money to complete the work. We are putting in for a Fulbright Grant for him for 1964.

MICHIGAN STATE UNIVERSITY

OF AGRICULTURE AND APPLIED SCIENCE • EAST LANSING

THE BASIC COLLEGE • DEPARTMENT OF COMMUNICATION SKILLS

Also excuse paper... This is scrap paper Mary picked up for Chinese character study.

5) Michiko Suzuki successfully passed her MA. This was a plan A. She did a good job. Will be leaving for Japan in the next few days. She is with NHK, you know.

6) Naeem Butt has really goofed. May never get a degree. Naer did a great job and got a plan B. Suwana; and Sun;it are still with us.....they are fantast; c.

7) We are getting a terrific response on our training program. Indonesia, Philippines, Thailand, Taiwan ~~and~~ thus far have sent us ten (we expect ten more) We have had real good feedback from both Washington and the countries. This summer we entertained people from P.T, Nyasaland, etc.

8) Our research grant has not been renewed, but ~~extended~~ extended. I will have to use tapes to tell you about the problems involved in this, especially the breakdown in relations between Bernie and myself. He wanted a summer salary and I wanted research funds on the same grant.. I have to talk this one to you.

8) Taggart made his report to the Ford Foundation and was embarrassed because he could not believe that Ishino and Donoghue could do so much on only \$11,000. I called him today to assure him that everything, except our field work, was a result of the Ford grant. He was stupified; even called McQuitty to express his disbelief in two guys doing so much on so little. John U. was proud of us., as was McQuitty.

9. Carl Jantzen is going to ~~Knox~~ ~~Max~~ Miami Un.v. in Ohio; Han; has offers from several places including SUU. Will let you know where he finally ends up/ Joe Spielberg and Larry Sneden ended up with honors in anthropology in the qualifications; Dave Winter passed everything and is now teaching 271 in the 2nd part of the summer quarter with 200 students.

10) Ralph Nicholas has arrived on campus...a helluva nice guy... I have not seen him too much because of the foreign visitors and the next para. Bernie and Herb have been telling him what a terrible place this is. Herb has been going wild lately. (He is a ~~scholar~~ scholar) (I can't even spell it) However, in his talks with me (and this may all be garbage) he assures me that he is eager to return to MSU. I ~~will~~ have to tell you more about this also on tapes. *will*

11) Ed, Stu, and myself have started a research project in Olivet. It is really exciting..... more about this also on tapes, if we can do it....

12) Mary and I send our best regards to you and the kids....hope everything turns out ok.....

*Jack*

LONG BEACH STATE COLLEGE

LONG BEACH 4, CALIFORNIA

DEPARTMENT OF ANTHROPOLOGY

July 30, 1963

Dr. Iwao Ishino  
University Cooperative Program  
Michigan State University  
USCAR APO 48  
San Francisco, California

Dear Iwao,

I was very pleased to receive your letter. We too were sorry that you could not spend more time with us. We have been so busy we have not checked to see if your family is still in Santa Ana. However, we plan to do so soon.

We will be interested to learn more of your research work there in Okinawa from time to time.

I appreciate very much receiving the Fellowship Nomination blank for the A.A.A.S. I was made a Fellow of the American Anthropological Association last May. This should help in my acceptance by the A.A.A.S. Since I will be up for consideration for promotion this fall at Long Beach State College, if I could receive this fellowship nomination by that time, it might be a favorable factor. I will appreciate what you can do for me.

Again thanking you much for your continued kindness.

Sincerely,

R. Clyde McCone

RCM:avm

# American Association for the Advancement of Science

1515 Massachusetts Avenue, N. W., Washington 5, D. C.

## FELLOWSHIP NOMINATION

(For instructions, see the reverse of this sheet. An additional sheet may be attached if necessary.)

Note—The following blanks should be filled in by one of the Fellows making the nomination and forwarded to the office of the Associate Administrative Secretary.

Date July 30, 1963

Name of nominee R. Clyde McCone

Address of nominee Anthropology Dept., Long Beach State College, Long Beach, Calif.

Branches of science in which nominee has worked Anthropology (ethnological theory, history, and research)

Major positions held Instructor, South Dak. State College; Instructor, Michigan State University, Assistant Professor, Long Beach State College.

College and university degrees, with years and institutions PhD--Michigan State Univ--1961  
M.S.--South Dakota State College--1956; B.A. Wessington Springs Col--1946

Does the nominee already hold the indicated grade of membership in any of the organizations listed on the reverse of this page, and, if so, which one(s)? Yes. Fellow of American Anthropological Association.

List other scientific organizations of which the nominee is a member Society for Applied Anthropology, American Sociological Association.

Nominated by three AAAS Fellows, currently active (dues paid), whose signatures are below:

(Name, please sign and print)

(Address)

(Name, please sign and print)

(Address)

(Name, please sign and print)

(Address)

State any additional reasons why the nominee is eligible for election as a Fellow

Validated by:

## FELLOWSHIP DEFINED

Members are eligible to nomination for fellowship if they have contributed to the advancement of science either by the publication of original research or in other significant manner. The phrase "the publication of original research" implies more than the publication of a dissertation for the doctorate, and it is the intention to admit members to fellowship on the basis of publication only after they have shown more evidence of productiveness than the attainment of the doctorate. The phrase "or in other significant manner" is meant to include advanced teaching and the guiding of research, important patents, holding office in scientific societies, and the accomplishment of important work not shown by publications, as in engineering or in the fields of applied science.

Nomination for election to fellowship may be made by any three Fellows or by the executive officer or by the section committee in whose field the nominee's scientific work mainly lies.

If a Fellow discontinues his membership and subsequently rejoins the Association he shall automatically again become a Fellow from the time of rejoining, without another election.

## INFORMATION REGARDING FELLOWSHIP NOMINATIONS

Nominations for fellowship may be made at any time by any three Fellows of the Association.

A person who holds the indicated class of membership in one or more of the following societies is deemed to have met the requirements of, and is eligible for automatic election as, a Fellow of the AAAS:

Acoustical Society of America (Fellows)  
Agricultural Institute of Canada (Fellows)  
American Academy of Arts and Sciences (Members)  
American Academy of Ophthalmology and Otolaryngology (Members)  
American Anthropological Association (Fellows)  
American Association of Anatomists (Members)  
American Association of Immunologists (Members)  
American Association of Pathologists and Bacteriologists (Members)  
American Association of Petroleum Geologists (Active Members)  
American Astronomical Society (Members)  
American Educational Research Association (Members)  
American Epidemiological Society (Members)  
American Geographical Society (Honorary Members)  
American Institute of Chemical Engineers (Active Members)  
American Institute of Chemists (Fellows)  
American Institute of Industrial Engineers (Fellows)  
American Institute of Mining, Metallurgical and Petroleum Engineers (Members)  
American Institute of Nutrition (Members)  
American Meteorological Society (Professional Members)  
American Ornithologists' Union (Fellows)  
American Physical Society (Fellows)  
American Physiological Society (Members)  
American Psychiatric Association (Fellows)  
American Psychological Association (Fellows)

American Public Health Association (Fellows)  
American Society for Clinical Investigation (Members)  
American Society for Pharmacology and Experimental Therapeutics (Members)  
American Society of Agronomy (Fellows)  
American Society of Biological Chemists (Members)  
American Society of Civil Engineers (Associate Members and Members)  
American Society of Mechanical Engineers (Members and Fellows)  
American Society of Naturalists (Members)  
American Society of Photogrammetry (Honorary Members)  
American Society of Zoologists (Active Members)  
American Statistical Association (Fellows)  
Association of American Physicians (Members)  
Geological Society of America (Fellows)  
Institute of Electrical and Electronic Engineers (Fellows)  
Institute of Mathematical Statistics (Fellows)  
International Association for Dental Research (Members)  
National Academy of Sciences (Members)  
National Association for Research in Science Teaching (Members)  
Mineralogical Society of America (Fellows)  
Optical Society of America (Fellows)  
Paleontological Society (Members)  
Society for Experimental Biology and Medicine (Members)  
Society of Experimental Psychologists (Members)  
Society of General Physiologists (Members)

Each newly elected Fellow receives a notice of election and a certificate of fellowship.

In addition to the obligations and privileges of other members, Fellows are eligible to serve as officers, members of the Board of Directors or Council, or as elected members-at-large of section committees.

The addressograph plate used in mailing statements, notices, etc., to any member, and in printing his card for the files, bears numbers showing the year of his election to membership, the year of his election to fellowship (following the letter F), and the year he became a life member or emeritus life member (after the letter L or E). Thus M57F59L60 denotes membership since 1957, fellowship since 1959, life membership since 1960.

The addressograph plate may also bear one or two letters indicating the section or sections in which the member is interested, and the order of these letters indicates the member's preferences. Thus the letters A and D on a plate show that the member's first interest is mathematics, his second interest astronomy. Absence of all section letters indicates membership in the Association at large, without special interest in any section.

The Association is divided into the following sections: A-Mathematics, B-Physics, C-Chemistry, D-Astronomy, E-Geology and Geography, F-Zoological Sciences, G-Botanical Sciences, H-Anthropology, I-Psychology (or "J"), K-Social and Economic Sciences, L-History and Philosophy of Science, M-Engineering, N-Medical Sciences, Nd-Dentistry (or "R"), Np-Pharmaceutical Sciences (or "S"), O-Agriculture, P-Industrial Science, Q-Education, T-Information and Communication, and U-Statistics.

Iwao Ishino  
Consultant  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao,

Lewis's thesis was approved, and a copy was sent to your secretary some weeks ago to be forwarded to you. I think it came out alright. It wasn't brilliant but it was o.k. He let himself get on a hook in the exam. Jay and Jack asked him why he didn't spell out the practical implications and he let himself be trapped into agreeing that he should have spelled this out in the thesis. But I don't see that it was a serious difficulty at all. I'm anxious to hear your ideas on it once you've read it.

I spent some more of our money to pull together the Japan and Okinawa data Hank Watts analyzed.

Hope all is well with you and the family.

As ever,

Dr. A. O. Haller  
Department of Sociology and  
Anthropology

AOH:mls

July 30, 1963

Professor John Donoghue  
Department of Anthropology and Sociology  
Michigan State University  
East Lansing, Michigan

Dear Mr. Donoghue:

I'm sorry to have to trouble you again; but you were good enough to say that I could. I have not yet received the materials from Iwao Ishino (page proof and index copy) I called you about in June, nor have I been able to get any response from him in answer to appeals by airletter. If you by any chance are in communication with him, or have a better address than the San Francisco APO number, I'd much appreciate some help. The book was to have been delivered right about now — our printers are going wild! Many thanks for anything you can do for us.

Sincerely yours,

Jeanne Sinnen  
Senior Editor

Recd Aug 17, 1963

MICHIGAN STATE UNIVERSITY EAST LANSING

DEPARTMENT OF SOCIOLOGY AND ANTHROPOLOGY

August 9, 1963

Dr. Iwao Ishino  
MSU Group, USCAR  
APO 48  
San Francisco, California

Dear Dr. Ishino:

I am sorry for the delay in answering your letter of July 19 concerning pay from the Department of Sociology and Anthropology for the months of June, July, and August. As you know, it is vacation time around the University and it has taken us sometime to get the procedures worked out because of so many people being away in the various offices involved.

I am attaching a form letter which is used in the business office. If you will sign this letter and send it back to Mr. May you will be paid for the months of July and August at this time. This is for the summer pay which you as a ten month professor are entitled to receive. Ordinarily you would have the option of having this paid when you return to the Departmental payroll but because we are initiating papers to have you changed from a ten month to a twelve month effective September, 1963, the business office feels it is preferable for you to receive the July and August payment now instead of when you return.

As far as the month of June is concerned, the business office has given the opinion that we can not pay you for that month because of the fact that you went on International Programs payroll on June 1 and if we also paid you this would be double pay for that month. This is against University regulations.

We have started the Change of Status papers through on your change from ten to twelve month and also on the salary change from \$10,950. to \$14,000. It will probably take some time for the forms to go through all the channels but we will notify you as soon as we have official word back.

I hope the above explanation is satisfactory. If you have any questions, please let us know.

Sincerely,

  
John Useem  
Chairman

Approved

Duane Gibson, Director, Institute for  
Community Development

JU:er

MSU Group, USCAR  
APO 48  
San Francisco, Calif.

August 17, 1963

Dear Dr. Useem:

Thanks for your letter of August 9. I am afraid that some misunderstanding of the procedures has taken place.

May I remind you that Jay Artis, you and I have discussed the matter of my summer pay before I left East Lansing. At that time I was anticipating some difficulty so I raised the question. I asked whether or not I would be getting my Departmental pay, if I transferred to International Programs on June 1. The answer both you and Jay gave me was that, for the summer period, my pay from International Programs would be treated in the same manner as if I were teaching summer school. That is, the pay would be on an "overload basis."

Now it seems from your letter that this is not so. Whatever the reason, let me try to state the case from my point of view.

First of all, we need to separate two things: a) my pay for the academic year 1962-63; and b) my pay in 1965 when I return to Michigan State.

As for my 1962-63 pay, I would like the following taken into account. As far as I am concerned, I have completed my obligation to the University for this academic year, but the university has not yet paid me a full salary. Let me put this more concretely. Suppose I took a vacation at the end of the Spring Quarter (instead of coming to Okinawa). I then would have been paid for June, July and August without question. Similarly, if I had taught summer school, I would have been paid my June, July, and August salary in addition to the "extra" for the summer school. Or again, if I taught summer school at the University of Illinois, I would have received from Michigan State salary checks for June, July and August.

In other words, my salary checks (for June, July and August) are not contingent upon what I do after the spring quarter. Or at least that was my understanding.

Now, if the Business Office is balking because I officially transferred from Sociology to International Programs on June 1 before the end of the spring quarter, this was merely administrative convenience--so I understood.

On this matter of administrative convenience, John, you will remember that you told Miller Perry that even though June 1 was the date of transfer, you would insist on Ishino finishing the spring quarter so that he can grade the final examination papers and clean up whatever departmental duties that were necessary. Mr. Perry agreed to abide with your demands.

The fact of the matter is that I remained in the Sociology and the Institute Offices until the end of the spring quarter. I really did not begin work for the Okinawa project until June 17. (As a matter of fact I am still doing Departmental work on my own time, e.g., reading Carl Jantzen's thesis).

If the Business Office is adamant about its definition of the situation, then, I would ask it to go back and change the date of transfer to the de facto date, i.e., June 17, or at the end of the spring quarter. I realize this might even take Board action, but it is a consideration to which I am entitled, I believe. This change would reduce my International Programs salary for the month of June by more than one-half, but it would be a more accurate reflection of financial obligations.

To summarize the above, it seems that there is no disagreement that I should be paid for July and August. On the June pay, the Business Office states that none should come from the Department, while I argue that my June pay should be revised such that International Programs would pay me for June 17-30 only and that the Department give me the regular monthly check for June. Inasmuch as I have received a full month's pay for June from International Programs, this revision would involve some complicated transfer of funds from one account to another. But if this revision were to be made, I would not be penalized by some \$200 for a thing which was done for "administrative convenience."

Now let me consider the second part of this total discussion, the matter of July and August pay when I return to East Lansing in 1965. The letter you asked me to write to Mr. May contains this phrase: "I would expect to be placed on the Departmental payroll on June 1 with no pay for the following July or August."

This is good, provided that it is clearly understood: 1) that I will be full-time in the Institute of Community Development during the summer months--as per agreement during the "Ohio State negotiations"; and 2) that I will begin on the Institute's payroll at the beginning of summer term 1965.

Sincerely yours,

Iwao Ishino

OFFICE OF DEAN OF INTERNATIONAL PROGRAMS

August 26, 1963

Dr. Iwao Ishino  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao:

Your letter of August 23 arrived today. In reply to your query about a rental allowance, I started the allowance on 13 July since I understood that was the date you signed your lease and began to pay rent. However, the salary augmentation started on July 1 and I felt that that part of it prior to July 13 would take care of your BOQ costs on the post. If an auditor questioned the starting date of your rental allowance, I could show him your letter as to when you started renting. The 13 July-13 August voucher was made out 18 July and we received our file copy of the voucher back on 30 July indicating that the check had been mailed to the bank. I assume that your blue copy of the direct payment voucher and the bank deposit slip were sent to you surface mail and that you have received them by now.

I am sorry that Lansing Storage was unsatisfactory in packing you household goods. If you had any breakage or damage, send the details to me and I will contact Mr. Walt about insurance reimbursement. Perhaps a part of the problem was the time of the year when all packing firms are swamped with work. As far as I know, Dean King and others had good service from Mr. Walt. Your household goods shipment was billed at the maximum of 4,500 pounds gross.

Am interested to know how your research consultant work is getting along. I am writing Dean King that our fund can support the part-time employee at about \$50 per month.

Regards to all.

Sincerely,

*Miller*

Michigan State University  
East Lansing, Michigan

17 September 1963

Dear Miller:

The mystery of the missing \$142 rental allowance has been solved.  
Please see enclosed letter which explains what happened.

Thanks for sending the September allowance which I received today.  
I note that on this Direct Payment Voucher you have listed my bank account  
number as "74421." Actually it should read "2-74421." Will you please  
accordingly change your record? Thanks.

Sincerely yours,

Iwao Ishino  
Sociological Consultant

Mr. Miller O. Perry  
Assistant to the Dean  
International Programs  
Michigan State University  
East Lansing, Michigan

27 November 1963

Dear Miller:

In the State News of October 31 there was an article entitled, "MSU Spurs Economy." In the same issue there was another article entitled simply, "President Hannah." Both of these articles dealt with the problem of improving the image of the university in the state of Michigan.

Such types of public relations activities and information are important for MSU as well as the University of the Ryukyus. I would like to summarize some facts about the local situation here which disseminate comparable information. Such facts then will be written up and presented in the local papers. I think the public relations activities of this university can be improved considerably and I would like to contribute toward that end.

You can help me, if you will, by inquiring whether or not copies are available: (1) of President Hannah's speech mentioned in the October 31 State News and (2) of "a recent report by the Bureau of Business and Economic Research". If copies are available, both Dr. King and I would like to use them here.

Sincerely,

Iwao Ishino  
Sociological Consultant

*P.S. Dr. King, has received*

22 August 1963

Mr. Miller O. Perry  
International Programs  
Michigan State University  
East Lansing, Michigan

Dear Miller:

Thanks for sending me carbon copies of payment made to me for my dependents' travel to Okinawa and for rental allowance.

This reminds me of the fact that I have no record of having received from International Programs rental allowance for the month of July. The present Direct Payment Voucher for rental allowance covers the period 13 August to 13 September. Will you please look into ~~this~~ the July payment?

Now on the dependents' travel, I am going to test how far you will go. I am enclosing receipt for lodging (\$7.50) while my family stayed overnight at Fort Mason. Also meals en route and on the plane (they charge for meals on Pan-Am charter flights at 80 cents per person per meal) came to \$6.40. Because you do not allow for per diem, are meals and lodging allowed?

Finally, I want to tell you that our household goods arrived on August 9. I was so angry with the way Lansing Storage packed our goods that I did not want to write anything about it until I had sufficiently cooled off. I am cooled off now.

Let me itemize my complaints. 1) They did a poor job of packing. They took my valuable professional papers out of the original cartons and shoved them in-between book cartons. 2) They damaged a Dresser Base, Unfinished. They placed heavy goods on top of the dresser and warped the top and knocked out internal structural elements. Probable estimate of damage, \$20. 3) Lamp shades were packed one within the other without ~~padding~~ layers of paper, <sup>for protection.</sup> Both lamp shades were squashed. Estimate of \$5x damage. 4) Two footlockers were sent with stated weight of 54 and 34 pounds respectively. However, one of these footlockers came absolutely empty. My guess is that they left a footlocker ~~unpacked~~ in storage at East Lansing and sent instead an empty footlocker. 5) We asked for them to send us a washing machine and omit the dish washer when we were informed that we were overweight. Well, they sent us the dish washer and now we are renting a washing machine. We certainly could use that washing machine. This mistake, however, is understandable because I communicated the change by telephone, long distance from Santa Ana. 6) Mr. Walt grossly underestimated the weight of our household shipment.

This is enough, I think, to keep you from doing more important things for awhile.

Sincerely,

Iwao Ishino

Mr. Miller O. Perry  
International Programs  
Michigan State University  
East Lansing, Michigan

Dear Miller:

August 23, 1963

Thanks for sending me carbon copies of payment made for my dependents' travel and for August 13 to September 13 rental allowance. I do not understand why the period begins around the middle of the month. Why not the first of the month? Neither do I understand why I have no record of having received my rental allowance for July. As Red Buttons would say, "Strange things are happening."

Our household goods arrived on August 9. I was so angry with the way Lansing Storage packed our household goods that I did not want to write anything about it until I had cooled off sufficiently. I am calm, cool and collected now. Here are some amusing things that happened: They sent two footlockers marked with weights of 54 and 34 pounds respectively. However, one of these arrived here absolutely empty...Instead of sending the washing machine, they sent our dish washer. This is partly my fault because I telephoned the request from Santa Ana to this effect and did not have it in writing. The reason for this confusion was that I was told minutes before leaving Lansing that we were grossly over-weight. ...I must run now to an appointment. Will continue this later.

*Joan*

OFFICE OF DEAN OF INTERNATIONAL PROGRAMS

August 1, 1963

Dr. Iwao Ishino  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao:

I received your letter of July 28, 1963 today. Also in my mail was your new Life Insurance Policy which I am sending to you with this letter. It replaces your former policy in the same amount for \$20,000 and covers you during your overseas tour. When you return, you will receive a policy similar to the one you had. Just why the same insurance company cannot put a rider on your former policy defeats me but it seems this is the way it is done.

I'm glad that your family arrived in good health on July 18th. I also trust that your household goods are there by now too. I was told by the Oakland Army Terminal that they were shipped on the Steel Apprentice July 16th. Regret the bobble about the orders attached to the box.

The travel voucher for your wife and children has been prepared and a copy is attached. However, you will note that no per diem is authorized as is the case for military dependents. So the voucher amounts to the travel costs of \$7.55.

I called the Secretary in Dr. Usemb's office and inquired about your Department checks for June, July, and August. She reports that, as you suspected, they have to check with Community Development and also the Business Office and that an answer is expected Monday, August 5th. It would seem to me that since your salary was transferred to the Okinawa account June 1st that you would not receive a June check from the Department. However you should be entitled to the July and August checks as leave. Will write you again Monday when the latest returns are in.

Please don't feel sorry about asking me for administrative help-- As I told Jim Ney that is my job and if I cannot anticipate a problem then I am glad to get a note about it. Suppose that Dean King is back from the Philippines and that Henry Nakasone is feeling the rush of last minute arrangements that come with the closing month of a tour. The office has several irons in the fire with the

Dr. Iwao Ishino

OFFICE OF DEAN OF INTERNATIONAL PROGRAMS

*Recd July 22, 1963*

July 16, 1963

Dr. Iwao Ishino  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao:

I received your letter of July 11 yesterday and I am processing two requisitions this morning -- one for the Thermo-Fax overhead projector and box of transparencies, and a second for a 60 inch portable screen on a tripod. In checking with the purchasing department I find that we should get the projector later this week and I will then send it via APO to the group.

I also checked with Mr. Walt on your household goods and found that he had sent them via National Carloading Company on June 21 to San Francisco. I asked that he call National Carloading in San Francisco to see if they had delivered them to the port and when he did so, he learned that the port officials had not accepted them since we did not have a copy of your orders attached to the No. 1 crate. Mr. Walt did not know of this regulation, nor did I, and so I called the port officials yesterday afternoon and also sent a copy of your orders Airmail to them. They will have the National Carloading Company deliver your goods to the port and will ship them out promptly. Mr. Walt did learn that they did not arrive in San Francisco until this past Friday.

I don't believe that this above mix-up is going to cause you much time, but it does seem that your move is providing me with considerable background experience for future staff personnel -- a situation which I assume you do not appreciate too much. I reread my last note to you and it did seem that my first paragraph might have been a bit cryptic or sharp. However, such was not my intention and I hope you will understand it, as intended.

No doubt that lots of overseas packing is going on in Santa Anna today, and I know that your family is quite busy in their preparation for going up to San Francisco this morning so that they can fly out to be with you some time tomorrow. As I wrote you before, all were looking forward to a real safe trip. Mrs. Perry and I flew to McGuire Air Force Base in New Jersey over the fourth and saw our daughter, Susie, whom you met, leave for Nancy, France where she will be stationed with the Red Cross unit there. It was nice to see the

MICHIGAN STATE UNIVERSITY EAST LANSING

---

OFFICE OF THE DEAN OF INTERNATIONAL PROGRAMS

June 10, 1963

Dr. Iwao Ishino  
425 Berkey Hall  
Campus

Dear Dr. Ishino:

Our Okinawan contract has been amended to include the Department of State standard residence allowance for overseas government employees. The allowance in Okinawa for grade GS-13, which you are authorized, is \$1700 per year or \$142 per month.

Assuming that you will wish to rent a house comparable to Dr. Ney's and knowing that the house rental and utilities cost him \$225 per month, we propose to adjust your salary to cover the difference between the \$225 cost and the allowance of \$142, or \$83 per month. A change of status recommendation is being submitted to the MSU Board of Trustees, which will increase your salary by the amount of \$1250 for the period 1 July 1963 to 31 May 1964.

Twelve hundred fifty dollars divided by eleven months (July 1963 through May 1964) equals \$112 per month. This amount consists of two components--\$83 which when added to the rental allowance of \$142 per month equals your maximum rental cost per month of \$225, and \$29 which is the additional income tax you must pay based on the \$1300 salary increase. This tax return was computed by considering your 6 tax exemptions and the flat 10% deduction for deductible expenses which places your taxable salary in the \$8000 to \$12000 bracket with its 26% tax return requirement.

Your \$142 per month rental allowance will be paid by a direct payment voucher that we will prepare and submit to the MSU business office monthly. The business office will deposit the check in your East Lansing State Bank checking account. The salary increase of \$112 per month for 11 months will be reflected in your regular monthly pay check starting with the check for July 1963.

Sincerely,

Miller O. Perry  
Assistant to the Dean

Mr. Miller O. Perry  
International Programs  
Michigan State University  
East Lansing, Michigan

Dear Miller:

I am finally getting around to doing something about the teaching aids that you and I discussed long ago. Contrary to what Horace King led me to believe, this University is poorly equipped with teaching materials. The slide projector which you ordered recently is sorely needed.

My notes on the specific slides that I wanted to order is, of course, in my household shipment. I suppose it will take another three months for it to get here. (It is already two months since the materials were crated in East Lansing.) So this order will have to wait until the household shipment arrives.

What I could really use is an overhead projector which sells on the local market for \$220, but the list price for it in the States is somewhere around \$170. I enclose a brochure on it which gives the specifications. In addition I would like to have a moderate-sized screen to go with it. An ordinary slide projector screen would do. In addition, I would like a box of "projection transparencies" (which ~~ix~~ are described on the obverse side of the same brochure).

Sincerely,

*Swao*

~~Enc. 1~~ This request is based on a letter from you to me dated 31 Dec. 62.

OFFICE OF DEAN OF INTERNATIONAL PROGRAMS

June 18, 1963

Dr. Iwao Ishino  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao:

I checked with the Lansing Storage Company about promptly billing MSU for the packing and crating of your household effects so that we could pay for the account with Fiscal Year 1963 funds. I also asked if you had taken out any household goods transportation insurance policy for the move, and Mr. Walt replied that you believed you might take it out with another company. If you did not have time during your last minute rush to attend to it, and if you desire such coverage, I will take it out for you. The cost is \$9.63 per \$1,000 evaluation and covers any losses from East Lansing to Naha. I would recommend it since you might have some water or other type damage occur. We can pay the cost of the premium out of the insurance allowance that you are authorized. I would suggest \$5,000 coverage.

In order to repay you for the cost on your medical policies for only yourself, I am making out a Direct Payment Voucher in the amount of \$112.44 to be deposited in your local bank checking account. The refund for one year will be 12 times \$7.66=\$91.92 on your American Plan No. 5 and 12 times \$17.11=\$20.52 on your Major Medical Plan. This amount plus the \$48.15 for the shipment policy will not exceed your allowance.

Trust you had a good leave and an interesting visit to the East-West Center, and have a speedy house renting solution. Please advise right away if you desire the transportation policy.

Sincerely,

  
Miller O. Perry  
Assistant to the Dean

MOP:wfh

June 24, 1963

Mr. Miller O. Perry  
International Programs  
Michigan State University  
East Lansing, Michigan

Dear Mr. Perry:

I received my first batch of mail from CONUS today and in that batch you have inquired about my insurance needs for the shipment of household goods. I really do not know what mis-communication there was, but I thought I asked Mr. Walt's assistant to take care of that for me.

Yes, I do want to take out insurance. A \$5,000 coverage would be ok, even though my research papers and books are irreplaceable.

This letter is going in the same envelope as Dean King's, so I must hurry and finish it. I will write you later.

Regards,

Iwao Ishino

July 2, 1963 10:35 p.m.

Mr. Miller O. Perry  
International Programs  
Michigan State University  
East Lansing, Michigan

Dear Mr. Perry:

This morning I have written you about the possible delay in getting my family over here. This evening I don't think I put it forcefully enough, so I went to the telegraph and telephone office to send you a wire. The wire costs as much as a telephone call. So I called you instead.

As I have said over the phone, I am insisting that my family be here no later than July 21, which would be one month after my arrival here. As I have explained in the letter this morning, my house has been inspected, I have signed the lease, and gave the owners a deposit of \$240, including that for water and electricity. I am cleared for bringing my dependents here.

(By the way, I informed Dean King that I was ~~xxx~~ writing this kind of letter and he approved.)

I am informed by the Dependent Housing and Travel Section that under the present travel schedule they could be expected here between 15 and 30 August, perhaps.

If the army cannot bring my family here by July 21, then I suggest that MSU fly them over by commercial line, even if the funds for this must come out of the 35% overhead the university makes on the contract. I am not a civil servant; neither am I a member of the armed forces. . . I am a member of a university faculty. If the University must treat its faculty in this fashion, then, I would say the university should not enter into contracts of this kind.

I cannot understand why there was no better provision made for dependent travel, when you had plenty of time to work this out. After all I agreed to take this post in March. You remember ~~that~~ I argued for concurrent travel and was talked out of it on the basis of your statement that the delay would be a matter of two or three weeks. The present schedule is on the order of nine weeks.

I repeat: I am insisting on having my family here by July 21, even if the University has to pay for the fare.

I remain, your ugly and lonely American,

Iwao Ishino

DEAN OF INTERNATIONAL PROGRAMS

December 31, 1962

Dr Iwao Ishino  
Sociology and Anthropology  
Campus

Dear Dr Ishino

This letter answers the list of questions which you gave me last week in our discussion concerning your assignment as a regular staff member to the Okinawa project for a two-year tour effective April 1, 1963.

Funds are available to purchase about \$200 worth of training aids and audio-visual materials which you require for instructing at the University of the Ryukyus.

Regarding housing allowances, a Department of the Army official stated that a budget amendment will be made to the Okinawa contract by February 1963 authorizing this allowance for regular staff members. Dean Taggart's policy is that such tours of duty are based on a no gain-no loss policy, and I am certain that arrangements will be made to cover the house rental cost.

The Okinawa contract states that the Department of the Army will furnish medical care, post exchange and commissary privileges for instructor personnel and their authorized dependents. The contract also provides for shipment by ocean freight of a privately owned automobile.

A total of 4500 pounds gross of household effects, books and other items required by an instructor will be packed and shipped via surface and ocean transportation. This 4500 pounds is to include the professional materials that an instructor wishes to take with him. Should you not be able to include all of your instructional material in the overall total, about 200 pounds can be shipped under another part of the contract that is quite limited in funds.

Dr King told me of your discussion with Dean Taggart, Dr Smuckler and him regarding a graduate research assistant. This assistant will probably be approved after you have arrived in Okinawa and determined the extent of his work. If there is no one available who would qualify for his doctorate degree and thus come under the Ford Foundation funds, it is possible that an assistant can be programmed for a year, starting in late summer of 1963, as a junior regular staff member, supported by Okinawa project funds.

Dr Iwao Ishino  
12/31/62 p 2

The Okinawa contract prescribes that necessary secretarial services will be provided by the US Civil Administrator of the Ryukyu Islands. Should this secretarial service be insufficient, funds are available to hire interpreters and other academic program assistants. This latter fund could pay for secretarial help. In addition, it is possible for you to send a limited number of Voicewriter discs back to our office for transcription-- a procedure which has been used by Dr Hatch. It is considered that research secretarial assistance can be provided for you from one of these three methods.

If agreeable to you, an annual salary of \$14,500 will be proposed to the Board of Trustees for your overseas pay. This overseas base salary was computed by annualizing your academic salary and adding an incentive increment.

Should you have further questions concerning the above answers, or desire other information, please contact me. In addition, I would appreciate a statement from you accepting this assignment so that necessary processing can be started.

Sincerely

*Miller O. Perry*

Dear Dr. Useem:

The Office of International Programs would like to have Professor Iwao Ishino of your department as a staff member of the Okinawan project, effective April 1, 1963 for a two year assignment.

It is felt that Professor Ishino should arrive in Okinawa about the first part of April since that is the start of their school year. In addition, the Ryukyu project urgently needs a bonafide MSU faculty member who can participate in his academic role at the University.

If Professor Ishino accepts this offer and it is approved by you, his processing will be initiated at once.

Sincerely,

OFFICE OF DEAN OF INTERNATIONAL PROGRAMS

October 22, 1962

Dr. John Useem  
Sociology and Anthropology  
Campus

Dear Dr. Useem:

C  
O  
P  
Y

I am writing this letter as a follow up to our recent telephone conversations concerning plans to appoint Dr. Iwao Ishino as Chief of the MSU Project at the University of the Ryukyus. As a result of our telephone conversations we have been tentatively aiming at the end of the winter term 1963 as the effective date of this appointment, although we had talked earlier about an appointment date effective in December 1962. We are planning for Dr. Ishino's appointment to cover a two-year period at the University of the Ryukyus. Technically speaking, his appointment will be cited on the Appointment Recommendation form as extending for an indefinite period with the explanation typed in the "comments" section of the form that this appointment is for two years subject to contract extension. Our present MSU contract with the U. S. Department of the Army runs through June 30, 1964. As of now, we anticipate that interest will continue in the Ryukyus Project beyond this date and that in all likelihood this contract will be extended as it has been several times in the past. These conditions pertaining to contract dates and extensions prevail with all of our overseas projects and are in no way unique to the Ryukyus Project. Again our intention is that Dr. Ishino would be appointed for a two-year period with the MSU Ryukyus Project.

At the time the Personnel Recommendation form is prepared our office will initiate this and forward it to you and the other offices so that all of the administrative heads concerned will have an opportunity to sign the form. It will then be returned to this office for Dean Taggart's signature and subsequently forwarded to the Provost's Office for processing.

Dr. Ishino's salary during the period of his appointment will be charged to the MSU Ryukyus Project account, but for bookkeeping purposes your office will be involved in any personnel actions such as salary adjustments, etc. that may take place during his period of assignment. Dr. Ishino's salary for this assignment will be computed on the basis of his current academic salary and annualized at the rate of 25%. To this amount will be added an incentive increment including consideration for the responsibilities he will undertake as Chief of Party in this project.

Dr. John Useem  
October 22, 1962  
Page 2

Thank you for your continuing cooperation in arranging for Dr. Ishino's appointment to the Ryukyus Project. Whenever you have questions concerning this program, please feel free to call.

Sincerely,

Horace C. King  
Assistant to the Dean

Mr. Miller O. Perry  
International Programs  
Michigan State University  
East Lansing, Michigan

Dear Miller:

Your letters of 25, 26 and 27 of June arrived yesterday. Enclosed please find the insurance card filled out as instructed.

There was some confusion here regarding the "release of my household goods". When the letter from Mr. Walt arrived here, I called up the Sgt. in charge of dependent travel in USYRIS, he assured me that the instructions given ~~my~~ me earlier did not apply in my case.

About the travel for Mrs. Ishino, the same Sgt. states that I can expect my family here on Okinawa somewhere between the 15th and 30th of August. Given this information, I was much perturbed and talked with Col. Hitch, the administrative officer for USCAR about it. His attitude was, if that is the schedule, that is the schedule. I also talked to Tom King about it and said that he will try to do something about it. But so far, he has done nothing about it--I don't think he can do anything about it, either.

As for the house, I think I found a reasonably good house, although we will be crowded. The rent is still unspecified, or rather I have not been informed. The Army Engineers will inspect the house and they determine what the rent should be. However, you might be interested to know that the common practice, according to my informants, is to pay something "under the table." The house is to be vacant on July 13 when the present tenants are to be moved into base housing.

So you see, I have been cleared for bringing my family here, as far as I am concerned. The bottleneck is transportation for bringing my family. Col. Hitch said that my family could be brought here earlier than Aug. 15-30, if I wanted to bring them by commercial transportation, at my own expense.

Another thing about this late arrival is the school schedule. I'm told that the schools begin their fall quarter earlier than stateside because of the typhoons--they lose several days of school during the quarter. I'm told that they begin in the last week of August. The present schedule for the arrival of my family would mean that ~~they could~~ my children will probably be starting school late. No time for getting them settled down before starting school.

In the future, it seems that you should inform the people coming here that USCAR approval of housing is quickly obtained, but the travel during the summer months constitute the bottleneck. The arrival of a family within three weeks is much too optimistic. I've cleared everything here within six days, but it still takes two months after my arrival to get my family here, according to present schedules and according to the best information I have.

Now about another important matter. John Useem has been informed about this but I don't know whether he passed the information on to you. A week or so before leaving East Lansing, I have been offered a Marshon Professorship at Ohio State University at a salary of \$15,168 for a nine-month contract. This position has tenure, minimum of teaching and considerable freedom to work out my role in the Department. My decision to accept or not this offer will depend upon many considerations, especially what Michigan State does in the way of a counter-offer. I have instructed Ohio State that in any event I cannot accept the offer until the fall of 1964 because I am committed to the Okinawa program. They understand this and have written the offer with this proviso.

Here is the question I wish to ask you. What are my obligations to the project, if I decide to go to Ohio State? What part of the costs of transporting my family and household goods back to the US must I assume? Another question: Suppose ~~the~~ MSU decided to match the salary offered by Ohio State, Can the Okinawa project afford such an increase for the next fiscal period? If not, will I be required to pay my own expense back to MSU (by "expense", I mean the shipment of household goods and dependent travel)?

I know these questions are difficult ones, but they are important to me in order that I make a wise decision. Perhaps this matter is a surprise to you, but on second thought it seems to me that Dean Taggart was informed about this matter by John Useem several weeks ago and thus he might have relayed the information on to you.

Let me use the rest of this space to tell you something about what I have been doing. I have had several brief discussions with Dr. Bonner Crawford and got his viewpoint on the local situation. He is a very discouraged man and so his views must be taken for what they are—emotion laden. I have ~~recently~~ made a formal call on the President of the University with Dean King. I was pleased to see some rapport established between the President and Dean King. From all reports our Chief of Party is doing a much better job than his predecessor. King is doing much to change the image that Hatch left us.

Dean King has assigned me to ~~follow up on~~ this \$50,000 research program. We've met with the President this morning to ask what has been done on this matter. He has not yet assigned a university committee to determine policy on the allocation of this research fund; he did not know whether this committee should be ~~instituted~~ composed of members from each faculty or of members representing different academic disciplines. A Dean's committee meeting will discuss this matter this coming Thursday. Meanwhile, I have asked the President to send me research reports from the various departments. This will give me some idea about what has been done, and I can build on that.

Henry Nakasone is now in Taiwan, but before he left, I've had a good chance to talk with him about his activities. He seems to be well respected by the local agricultural people. He's got lots of spunk, a good sense of humor and an explicit set of goals. We've discussed at length the general problem of introducing innovations into this economy and society. Many of the problems (of diffusing new ideas about agri. technology) he faced have occurred over and over again in other countries, I've told him.

Let me close this rambling letter by stating that the opinions expressed above are for your information and to help you get some "feel" for this place. They are not written to convey gossip. As ever,

OFFICE OF DEAN OF INTERNATIONAL PROGRAMS

June 26, 1963

Dr. Iwao Ishino  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao:

I was pleased to receive your note a few minutes ago stating that you had arrived Friday noon safely at Naha. I was also glad to learn that Dr. King and the Nakasones were there to meet you. I cannot explain Ney's absence but might attribute a partial reason to the fact that he was probably making his own firm arrangements to leave about the next day. This, of course, is no excuse but could be considered in that light.

Since you have expressed your views to me so frankly, I feel that I may do the same in reply to you with reference to the University and USCAR relationships. In the first place I hope that you will meet personnel from those two groups thru scheduled visiting appointments which should be made by Dean King's office. Consequently, I can understand their absence from the airfield when you arrived. If you will permit a personal experience, and one which I feel was proper, I arrived in Saigon as the Deputy to the MAG installation and was only met by the MAG Chief of Staff. French and Vietnamese officers with whom I was to work quite closely were not at the airfield. However, I had the opportunity to meet them in formal visits which were scheduled after I arrived. I hope this is the case for you and that all will go well in the overall relations as far as our group is concerned.

I trust that by now you have been able to locate a house and that you will not have too much trouble with the bottleneck that you described which arises from the house inspection by military engineers. I would suggest that you ask Dean King's assistance in this inspection since I am sure he could call someone on the Army staff who could assist in expediting the house inspection. If there is considerable delay and you cannot get any local aid, please airmail me the details and I will forward them to Colonel Harbison in Washington requesting his assistance. However, I believe that the matter can be taken care of over there.

I would also appreciate information from you as to the time that USCAR approves your quarters so that I can start working with Colonel Harbison in order to get travel orders for your family speeded up. You may be sure that I will do what I can to have them on their way to join you.

Your visit in Hawaii sounded most interesting and I am glad that you learned so much about your special interest area in social science research from your visit there. When you get settled in abit let me know your training aid requirements and what help I can be to assist you in a doctoral research assistant project.

Sincerely,

*Miller*

Miller O. Perry  
Assistant to the Dean

PS. I received your travel voucher info later today and have completed the voucher that you signed in my office. We have requested that its amount - \$109.75 - be deposited to your checking account in the East Lansing State Bank. - Please write me your rental ~~cost~~ or house rent per month when you determine it for the lease

June 25, 1963

Dr. Iwao Ishino  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao:

I am enclosing an application form that I would appreciate your completing and returning to me by air mail. It seems that when you were transferred from the University General account to the Okinawa account for salary that such a card should have been made out so the deduction could continue under the new account.

Please fill in your beneficiary's name and relationship and change the amount if you do not desire to continue the \$20,000 coverage. Also write the date completed and sign the card.

The overseas life insurance policy costs more than the stateside coverage, however, and the contract pays for the additional charges.

Trust you had a good trip over and that your househunting was successful.

*Jim Gray arrived here in E. Lansing today. He has his papers for it going.*  
Sincerely, *and now is getting his passport.*

Dr. Iwao Ishino  
MSU Group  
USCAR, APO 48  
San Francisco, California

Dear Iwao:

Your letter of June 24 arrived this morning, and I promptly called Mr. Walt in order to take care of the insurance of your household goods shipment. He has placed a \$5,000 coverage on the move and will mail the certificate for the policy to me so that I can place it in your personal folder here in our office. He will bill us for the cost of \$50 and this will be paid from our line item for insurance.

Sincerely,

  
~~Miller O. Perry~~  
Assistant to the Dean

MOP:wfh

Dear Mr. Perry:

This letter is to inform you that I have arrived safely in Okinawa.

This place is in the midst of vigorous growth and has the sense of a boom town. Construction is going on everywhere and people are hustling, despite the hostile climate.

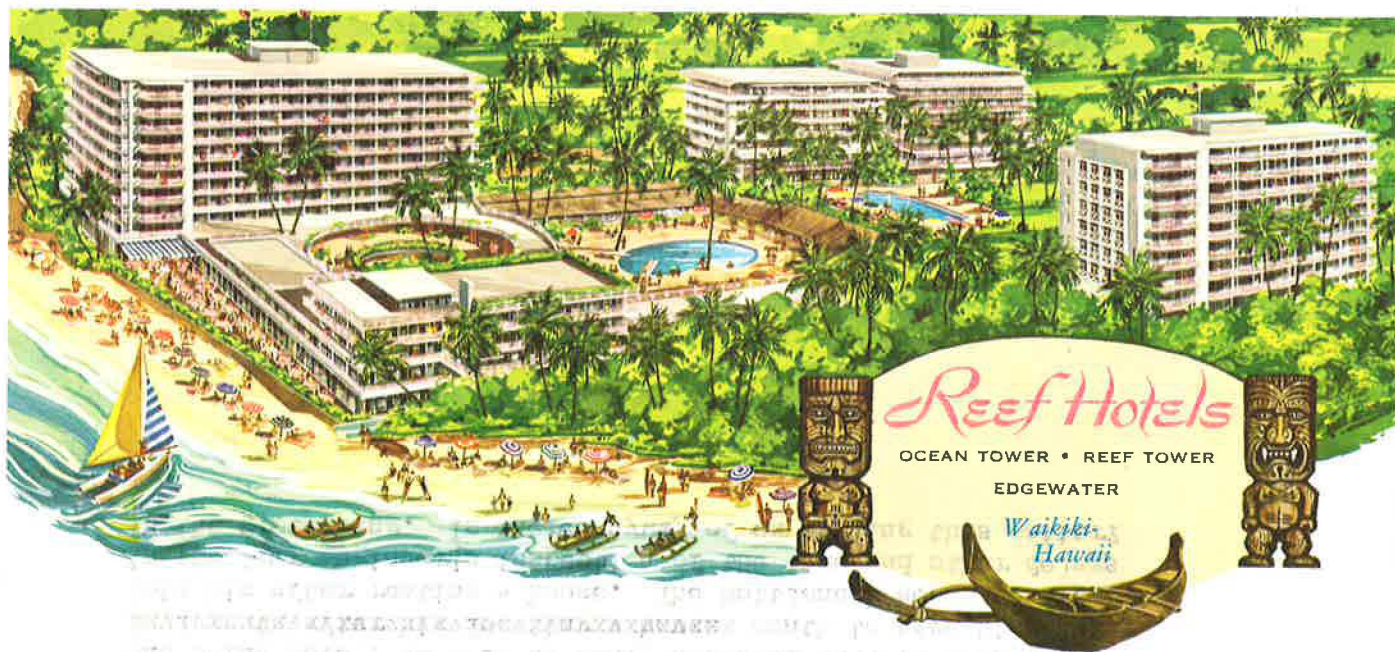

I arrived Friday around noon. I was pleased to be met by Dean King and Mr and Mrs Nakasone. But it was significant that Ney was not there ~~in person~~ and when I met him couple of hours later, he seemed tremendously preoccupied with his own problems. I think it ~~was~~ also significant that no one from the Education Section of USCAR was there to meet me. The full meaning of this I will pursue later. Finally, no one from the University of Ryukyus was represented. When I went to the University, I was not introduced to anyone ~~outside~~ outside of the small coterie of the office staff people in the MSU group. I am reporting this to you, not as an expression of my hurt feelings, but as something that ~~is~~ symbolizes the <sup>kind of relationship</sup> internal cohesion of the MSU group and the relationship of this group to the University and to the USCAR section.

Let me tell you about what has been done with regard to my housing. Henry Nakasone was kind ~~en~~ enough to take me around to various ~~housing~~ realtors. We saw many houses yesterday afternoon, none of which approached the likeness of Ney's house. His house itself is nothin. Quite frankly the situation looks very bad. There were two fairly satisfactory ones in Ney's immediate neighborhood, but they were rented by the time I went to/<sup>see</sup> the real estate agent. ~~End of letter~~

him

One thing more. I am told by Henry Nakasone that it took/one ~~full month after receiving the necessary documents~~ month to have his family join him after renting a house. The bottleneck seems to lie in the Army Engineer's inspection of the home and other delays in the processing. Is there any way of expediting this matter?

The Reef Hotels are a new and exciting development in the Waikiki area. They offer a wide range of accommodations, from small, intimate cottages to large, modern hotel buildings. The Reef Hotels are located on a beautiful beach, and they offer a variety of recreational activities, including swimming, sunbathing, and sailing. The Reef Hotels are also known for their excellent service and their beautiful views of the ocean.
