

The RECORD

FOOTBALL RETURNS

Michigan State College, EAST LANSING... September 1944

These Men Gave All

Raymond Kazimer Kukoski, 1940

Raymond K. Kukoski, first lieutenant in the Army Air Forces, was killed in action in the South Pacific area on March 28, 1943. Lt. Kukoski entered from Stambaugh, Michigan, and was graduated from the School of Agriculture on June 10, 1940.

Fred Niffenegger, Jr., 1940

Fred Niffenegger, Jr., captain in the Army Air Forces, was killed in an airplane accident in England on July 8, 1943. Capt. Niffenegger was enrolled in business administration during 1938-39, entering from Elk Rapids, Michigan. His wife and parents survive.

Fredrick Baxter Lorne, 1941

Ensign Frederick B. Lorne, of the Naval Air Corps, missing in action in the Pacific area since August 8, 1943, has been declared dead by the War Department. Ensign Lorne entered from Detroit and was enrolled as a junior in the School of Engineering during 1939-40.

William Clair De Cou, 1945

William C. DeCou, staff sergeant in the Army Air Forces, was killed in a bomber crash in Riverside County, California, on March 3, 1944. Sgt. DeCou was enrolled in engineering during 1941-42, entering from Hastings, Michigan.

Harry Stuart Bengry, Jr., 1941

Harry S. Bengry, Jr., second lieutenant in the Army Air Forces, was killed in action over Germany on March 6, 1944. Lt. Bengry, son of Harry S. Bengry, w'15, was graduated from the School of Science and Arts on June 14, 1941. He entered from Lansing and is survived by his wife and parents.

Paul Jones Ehmann, 1942

Paul J. Ehmann, second lieutenant in the Army Air Forces, died March 8, 1944, of wounds received in action over Germany on February 22. Lt. Ehmann was graduated from the School of Agriculture on June 13, 1942, entering from Patchogue, New York. He is survived by his parents, his wife, and a son.

Clay Underwood Bullis, 1940

Capt. Clay U. Bullis, of the Army Air Forces, was reported killed in action in the North African area on March 24, 1944. Capt. Bullis was graduated from the School of Science and Arts on June 10, 1940, entering from Portland, Michigan. He is survived by his mother; a brother, Lt. Col. Harry J. Bullis, '37; and a sister, Helen Bullis Oldt, '37.

Charles Paul DeRose, 1943

Charles P. DeRose, second lieutenant in the Army Air Forces, was killed in action over Europe on April 11, 1944. Lt. DeRose entered from Lansing and was enrolled in business administration during 1939-41. He is survived by his parents, his wife, and a daughter.

Carl George Marzke, 1936

Capt. Carl G. Marzke, of the Army Air Forces, was killed in the Mediterranean area on April 20, 1944. Capt. Marzke was graduated from business administration on June 15, 1936, entering from Lansing. He is survived by his wife, the former Blanche Hunt, w'36, and a daughter, Mary Susan. Also surviving are his parents, a sister, Dorothy, '33, and two brothers, Frederick O., '42, and Oscar T., '29.

William Graham MacKichan, 1942

William G. MacKichan, second lieutenant in the Army Air Forces, was killed in action on a mission over Germany on April 24, 1944. Lt. MacKichan, who had recently been awarded the Air Medal for exceptionally meritorious achievement, was graduated from the School of Science and Arts on June 13, 1942. He entered from East Lansing where his father, George MacKichan, and sister Margaret, '46, reside. He is also survived by his wife, the former Genevieve Pierson, w'44.

John Irwin Mathewson, 1941

John I. Mathewson, captain in the amphibious branch of the army attached to the Atlantic fleet, was killed in action in the European area on April 28, 1944. Capt. Mathewson was enrolled in the School of Science and Arts during 1937-

41, entering from Huntington Woods, Michigan. His wife and parents survive.

Hugh Even Mosher, 1938

Capt. Hugh E. Mosher, of the Army Air Forces, was killed in action in the South Pacific area on May 19, 1944. Already the recipient of the Air Medal, he was posthumously awarded a bronze oak leaf cluster to the medal. Capt. Mosher was graduated from the School of Science and Arts on June 13, 1938, entering from Lansing. He is survived by his father, his wife, and a son.

Lyman Dewayne Rieck, 1945

Lyman D. Rieck, second lieutenant in the Army Air Forces, was killed in action in Italy on June 13, 1944. Entering from Pontiac, Michigan, Lt. Rieck was enrolled in the School of Engineering during 1941-43. His wife and parents survive.

Lynn Clare Rice, 1940

Lynn C. Rice, second lieutenant in the army ordnance department, was killed in action in Italy on June 21, 1944. Lt. Rice was graduated from the School of Engineering on June 10, 1940, entering from Lansing.

Henry Richard Pattengill, 1944

H. Richard Pattengill, private in the Army, was killed in action in France on July 2, 1944. Pvt. Pattengill was enrolled in the School of Engineering and the general course during 1940-43, entering from Lansing. His mother, the former Edwina Prudden, w'10, and two brothers survive.

Kenneth Finlay McLeod, 1935

Lt. Col. Kenneth F. McLeod, of the United States Marine Corps, was killed in action on Saipan on July 4, 1944. Col. McLeod who received the Silver Star medal for bravery as a battalion commander in the attack on Tarawa, was graduated from business administration on June 10, 1935, entering from Port Huron. He is survived by his mother, his wife, and two daughters.

Basic College Department Heads

Pictured above are the new heads of the departments in the basic college. They are: left to right, Dr. S. G. Bergquist, acting head, physical science; Dr. Ben Euwema, literature and fine arts; Dr. W. R. Fee, social science; Dr. Leo A. Haak, effective living; Dr. H. H. Kimber, origin and development of civilization; Dr. C. A. Lawson, biological science; and Prof. Paul D. Bagwell, written and spoken English.

Daily Press Comments On Basic College

EDITOR'S NOTE—The following article appeared in the Sunday edition of the *Detroit News*, July 16, under the byline of Allen Shoenfield. The news story followed an interview with President Hannah who expressed his viewpoints on the basic college plan at MSC. Through the courtesy of the *Detroit News*, the article of interest to all alumni appears below.

By ALLEN SHOENFIELD

(Staff Correspondent of THE DETROIT NEWS)

Breaking sharply with accepted pedagogical theory and practice, Michigan State College has staged a revolt of such significance and magnitude that it may influence the course of higher education in the United States for generations to come.

Occasional brief reports of "reorganization" and of the creation of a "basic college" appearing to date have given little hint of the philosophy and purpose underlying the changes taking place here. But, in effect, the State has acquired a wholly new institution of learning which will open its doors for the first time on Sept. 19.

Breath-taking in its conception, the purpose is stated simply as to seem a facetious elaboration of the obvious. It

is: "The purpose of education is to educate." Yet, in the opinion of the entire faculty, the schools of the nation, not excluding their own institution, have been failing miserably at that task.

Few Fit For College

It was last March that President John A. Hannah called his faculty together to lay before them some thoughts that had been troubling him for years.

He pointed out that many freshmen could neither speak nor write forcefully or intelligently. They could not spell. Their knowledge of mathematics, history and the basic sciences was generally rudimentary. They had no conception of their place in nature or in human society. They were unprepared to become citizens in the broadest sense.

Some should never have entered college. Others would benefit by a year or two of instruction. But only one in four had sufficient capacity to graduate. And even among these, there would be many who were well grounded in some specialty and wholly uneducated outside their special fields.

A Waste of Time

Yet the college treated all alike. It acted on the assumption that all stu-

dents were created equal, intellectually; that all could be "processed" by the same machinery designed to produce the scholar, the scientist, the professional man and woman.

The results, Dr. Hannah said, were pitiable. Too often, several of the most valuable years of a student's life were wasted, not to speak of the parent's and the State's money, and the time and energies of instructors. Those who dropped out were prepared for nothing. Many who did acquire a degree later found that they were not at all suited for the careers they had fancied. Some drifted to other channels; others doggedly pursued, as mediocrities, the course they had planned.

What could be done to establish the aptitudes and abilities of the individual, to direct the youngster into paths calculated to yield the greatest satisfaction to himself and the maximum degree of usefulness to the community?

Back to Fundamentals

Dr. Hannah was critical of the century-old tendency toward free electives. He proposed nothing more than a return to first principles and to disciplined study which would give the student a broad perspective, providing him with basic information relative to the world in which he must live.

He asked each college department to name representatives from whom he would select a committee of eight. Its members would be relieved of all other

duties, and would meet daily until they felt they had something to report.

Following scores of conferences with subcommittees and informal faculty discussions, the committee, at its thirty-third meeting, approved a precise plan.

Beginning in September, every student must spend two years of study in the basic college. . . . (Students already decided on their special interests will enroll in the school offering that specialty as well as in the basic college, thereby identifying themselves with their special fields while studying the broader basic courses.)

Plan Aptitude Tests

Seven "core" courses would be offered in the basic college, at least five of which must be taken; more if a designated department of specialization demanded. Other credits would be given for studies necessary as prerequisites for the several departments of the college. Some electives would be allowed.

Aptitude and ability tests were to be given on admission and periodically during the two years.

Eighteen members of the faculty, representing all departments, were to be designated as advisers. They were to be relieved of one-half their teaching load and, to equip them for program counseling, they were to be given preliminary training in the interpretation of tests, vocational opportunities and curricula intended to prepare for those vocations.

Transfer from one intended field of specialization to another should be made easy.

Offer 2-Year Course

All students were to elect some courses intended to develop a special skill and to fit the individual for clerical work, business or employment in a trade or service organization.

A new "terminal curriculum" should be offered to students seeking two years' acquaintance with basic science and broad cultural subjects, combined with practical training for a vocation. Special "certificates of completion" should be issued to these students in lieu of the diploma awarded at the end of four or more years of study.

The comprehensive "core" courses are described as unique and have nothing in common with the so-called "survey" courses with which some institutions have sought to remedy the defects of collegiate education. The "core" courses are being devised to meet a particular need. Unlike the "survey" courses, they will not draw lecturers from other departments, each offering his own viewpoint and the result being confusion.

To Cover 7 Areas

These courses, with their objectives are listed as:

Weekly Press Comments On Basic College

EDITOR'S NOTE: The following article appeared as an editorial in the July 27 issue of the St. Johns Clinton County Republican-News. Written by Schuyler Marshall, editor and publisher of the weekly newspaper and a member of the board of directors of the Michigan Press Association, the editorial has been reprinted in other Michigan newspapers. Through the courtesy of Mr. Marshall, the editorial appears below for the benefit of MSC alumni.

NOT A HOLY COW . . .

"Breaking sharply with accepted pedagogical theory and practice, Michigan State College has staged a revolt of such significance and magnitude that it may influence the course of higher education in the United States for generations to come."

The above paragraph was the lead to a story written by Allan Shoenfield, one of the thoughtful and thorough reporters of Michigan. It was a follow-up on something that attracted but mild attention last March when President John Hannah of the East Lansing institution pointed out that many freshmen could "neither speak nor write forcibly nor intelligently." They could not spell. Their knowledge of mathematics, history or basic science was rudimentary.

On frequent occasions practical men in business and industry have expressed their convictions that the schools were not doing a thorough job of educating. For their pains they got a tolerant smile from most school heads. Education, it seemed, was a sort of "holy cow" about which they could not be expected to understand and into which they were completely incapable of offering constructive suggestions.

But . . . it is different when the same statements, better phrased and based upon years of contact with the products of the schools, come from someone like John Hannah. He is not alone. One of the top men in Cass Technical high school in Detroit recently said the same thing.

We can only conclude that such men have the courage of their convictions — that they are caring more about results than their jobs; that the change-over of 11 million young men from peacetime pursuits to war has proven something that is not flattering to the schools.

Shoenfield writes of the March meeting at which the Michigan State College faculty discussed this subject:

"The purpose of education is to educate. Yet in the opinion of the entire faculty, the schools of the nation, not excluding their own institution, have been failing miserably at that task . . . Too often, several of the most valuable years of a student's life were wasted, not to speak of the parent's and the State's money, and the time and energies of instructors. Those who dropped out were prepared for nothing. Many who did acquire a degree later found that they were not at all suited for the careers they had fancied. Some drifted to other channels; others doggedly pursued, as mediocrities, the course they had planned."

Upon these premises, President John Hannah has led a reorganization designed to correct some of the ills mentioned. Regardless of results, it is refreshing to know that there is an educator who does not hesitate to openly and honestly state his convictions — and DO SOMETHING ABOUT IT.

1. Areas of Written and Spoken English: To improve the student's ability to communicate clearly in speech and in writing and, also, to comprehend spoken and written discourse.

2. Area of Biological Science: To motivate and guide the student in the development of an active interest in his position in the biological world.

3. Area of Physical Sciences: To aid the student in a better understanding of his physical environment.

4. Area of Social Science: To familiarize the student with the origin, character

and proposed solutions of significant problems which confront man in contemporary society.

A Plan for Living

5. Area of Effective Living: To guide the student to a recognition of certain major values in more satisfying and healthful living and to provide him with scientific and practical information and experience that are helpful in achieving these values.

6. Area of the Development and Origins of Civilizations: To provide the stu-

News From Michigan State Told Briefly

dent with a better understanding of the civilization in which he lives, by familiarizing him with the history of selected world cultures that have special significance as integral units of human experience.

7. Area of Literature and Fine Arts: To develop the student's capacity to enjoy literature and the fine arts intelligently and to foster his desire to continue independently to seek such enjoyment.

Offer Basic Facts

The purpose of the several "core" courses is stated as practical training for life in organized society. Actually, Michigan State College is boldly proclaiming that it is not beneath its dignity to present basic facts relative to such subjects as "human behavior with respect to family relations and the guidance of children"; "technics of group activity and their importance in democratic society"; "sound principles and practices in the management of family economic resources"; "characteristic features of rural and urban life"; "constructive employment of leisure time in intellectual, social, artistic and physical activities"; "co-operation with persons of various backgrounds"—all of which fall within the single course, "Area of Effective Living."

(H. C. Rather, '17, former head of the department of farm crops, is the dean of the basic college.)

These Men Gave All

(Continued from Page 2)

Charles Fredrick Bostedor, 1945

Charles F. Bostedor, second lieutenant in the Army Air Forces, was killed in a plane crash near Tuscaloosa, Alabama, on July 6, 1944. Lt. Bostedor entered from Eaton Rapids and was enrolled in the School of Agriculture during 1941-43.

Donald Edward Sipple, 1942

Donald E. Sipple, first lieutenant in the Army, was killed in action in France on July 11, 1944. Entering from Cedar Springs, Michigan, Lt. Sipple was graduated from the School of Agriculture on June 13, 1942. His wife, the former Elizabeth Maloney, w'42, survives.

Darwin Earl Aten, 1943

Lt. Darwin E. Aten, post range officer at Camp Hood, Texas, was killed in an automobile accident near there on July 23, 1944. Lt. Aten was graduated from the School of Agriculture on June 12, 1943, entering from Manton, Michigan. He is survived by his parents and two brothers, Ray and Jerold, '42.

Huddleson, '25, Honored

Dr. I. Forest Huddleson, '25, internationally known Michigan State College bacteriologist, was cited recently for "outstanding research accomplishments" with brucellosis, or undulant fever, by the MSC chapter of Sigma XI, national scientific honorary society.

Dr. Huddleson is credited with the development of brucellin, a curative agent for treating undulant fever in man, and brucellergin, a skin test material for diagnosis. The college laboratories continue to be the first and only place these agents have been manufactured. Shipments of them go regularly to army camps and public health departments throughout this country and several foreign nations where undulant fever is suspected or prevalent.

More recently Dr. Huddleson perfected an immunizing agent for veterinarians and others who work with cattle, from which the disease may be contracted. He also is the author of "Brucellosis in Man and Animals", a 379-page book now in its third edition, which has attracted the attention of the medical and veterinary professions, as well as the public, to the susceptibility of human beings to brucellosis.

Form Journalism Fraternity

Theta Sigma Phi, national women's journalism honorary, formed a chapter on the Michigan State College campus, known as Alpha Psi. Heading the organization is Rosemary Howland, junior from Detroit. Other officers are Marjory Mintling, junior from Birmingham, Michigan, vice president; Barbara Denison, junior from East Lansing, secretary; Margaret Middlemiss, junior from Detroit, treasurer; and Kay Besemer, junior from Belleville, Michigan, keeper of archives.

China Gets Bulletins

Michigan State College research findings and technical studies in agriculture will play a part in the rehabilitation of China's agriculture after the war, V. R. Gardner, director of the College Experiment Station, announced.

Director Gardner explained that at the request of P. W. Tsou, United States representative of the Chinese ministry of agriculture and forestry, 12 copies of agricultural bulletins issued by the college since 1940 have been sent to him for eventual use in China's libraries. In

addition, approximately two thousand copies of 162 separate bulletins published by the college in the last four years had been forwarded to Washington for storage until after the war when they can be shipped to China.

Service Award

Brig. Gen. Charles T. Myers, of Randolph Field, Tex., presented Michigan State College with a certificate of meritorious service from the Army Air Forces Training Command in recognition of the training of 5,600 aircrew students since March last year.

General Myers lauded the MSC training program of pre-pre-flight students, which was closed throughout the country by the army at the end of June, and said that Michigan State had the largest enrollment and graduated the greatest number of aircrew men of any of the 50 colleges in the Central Flying Training Command which contributed to the program.

Chamberlain Honored

Dr. Frank W. Chamberlain, head of the department of anatomy at Michigan State College for 32 years, was honored recently by the Michigan State veterinary alumni.

In addition to his services in veterinary instruction, Dr. Chamberlain received the tribute for his contributions to the science of anatomy. His book, "Atlas of Avian Anatomy: Osteology, Arthrology, and Myology", a work which involved preparation for two decades, has just

been published by the Michigan Agricultural Experiment station. It is the only manual of its type in the field of poultry science and veterinary medicine.

A presentation of war bonds was made to Dr. Chamberlain by Dr. L. A. Wileden, of Mason, who was one of the first students taught by Dr. Chamberlain after he joined the Michigan State staff in January, 1911. He also received a bound collection of letters of appreciation from alumni.

Magazine Staff Named

Staff appointments to the M.S.C. *Veterinarian* magazine, quarterly publication of students of the School of Veterinary Medicine at Michigan State College, for the coming year were announced by Glenn Snoevenbos, Glenwood City, Wisconsin, junior, editor, and Tom Reutner, St. Louis, Missouri, junior, business manager.

Named on the editorial staff are: Josephine Browne, Fayetteville, Arkansas, sophomore, copy editor; Bernard Zeeb, Bath, Michigan, junior, make-up editor; and O. L. Smith, Dearborn, Michigan, junior, illustrations editor.

Circulation will be handled by Gerard Heyt, Grand Rapids, Michigan, senior. John Bardens, Lowell, Indiana, sophomore, will be advertising manager, and accounting manager will be Harry Blair, Danville, Indiana, sophomore.

Dr. Clyde F. Cairy, assistant professor of veterinary medicine, will continue as faculty adviser.

Alumni Head Organization

Dr. Russell A. Runnells '16, head of the department of anatomy at Michigan State College, was recently elected president of the Michigan State Veterinary Alumni Association.

Named vice president was Dr. Hollis H. Clark, '27, of Lansing. Re-elected as secretary-treasurer was Dr. Chester F. Clark, '29, of East Lansing, associate professor of animal pathology.

New Foods Course

E. L. Anthony, dean of the School of Agriculture at Michigan State College, has announced the establishment of a new course in food technology on the campus.

The new curriculum, open to students at the beginning of the fall quarter on September 19, provides training in the technical phases of dairy manufacturing, handling and processing of fruits and vegetables, selecting, storing, and processing meats, and in cereal manufacturing.

Preparation for certain kinds of food processing positions, said Dean Anthony, may be completed in four years. How-

ever, he added, students interested in the broad field of food technology should plan a five-year course leading to a master of science degree in food technology.

Students will be required to spend two summers or the equivalent of six months gaining practical experience in food processing or food manufacturing. They may enroll in the new course any quarter during the school year.

In the postwar period, Dean Anthony believes more persons will be needed with specialized training in the processing of foods, particularly in the dry and frozen food industries.

Alumni Scholarship Records

One-hundred and twenty-one students at Michigan State College on alumni scholarships during 1943-44 made a grade point average of 2.178, or slightly better than a "B". The average for all students enrolled at MSC for the same period was 1.56, or slightly more than a "C" plus.

Glen O. Stewart, director of alumni relations, stated the average for the 64 freshmen alumni scholarship winners in 1943-44 was 2.011.

The scholarships represent a waiver of the tuition and are given each year to high school graduates and post-graduate students who were scholastically in the upper third of their class. If the freshmen maintain superior grades, the grants are continued through their college course of 12 quarters.

New Department Head

Dr. C. P. Loomis

Dr. John A. Hannah, president of Michigan State College, announced the appointment of Dr. Charles P. Loomis as professor and head of the department of sociology in the School of Science and Arts.

Dr. Loomis arrived September 1 from the U. S. Department of Agriculture where he was head of the division of extension and training in the office of foreign agricultural relations in charge of sociological research and training.

Since graduating from college in 1928, Dr. Loomis, author of numerous books, bulletins, and articles, has steadily advanced to a position of prominence in the general fields of sociology and rural sociology. He has taught in various colleges and universities, among them Harvard, Heidelberg, and Konigsberg.

Dr. Loomis' research in the rural field in most of the states, in Europe, and in Latin America gives him a perspective which is rare among American rural sociologists, stated President Hannah.

Win Fellowships

The Rockefeller Foundation of New York has awarded \$16,000 in fellowships to three members of the Michigan State College English department faculty for full time studies of American and Canadian cultural history.

The recipients are A. J. M. Smith, associate professor, on leave for two years, beginning September 1, 1945, and E. P. Lawrence and R. B. Nye, assistant professors, on leave for one year, as of September 1. Their positions on the faculty will be temporarily filled, L. C. Emmons, dean of the School of Science and Arts, said.

Professor Nye recently won a \$1,000 prize from the Knopf Publishing Company for his biography of George Bancroft, a famous American historian of the 19th century. The book was published August 14.

2,386 Summer Students

Summer school enrollment at Michigan State College totaled 2,386. Of this number 1,627 were civilian students and 759 members of the Army Specialized Training Program, Army Specialized Training Reserves, and the Air Corps Enlisted Reserve Corps. The A.C.E.R.C. was established on the campus when the Pre-flight Training School was terminated, June 30.

The A. S. T. R. and A. C. E. R. C. groups follow a 59-hour week, taking such subjects as mathematics, physics, chemistry, biology, English, physical education, engineering, drawing, history, geography, and military science. Periods are divided as follows: 24 hours of classroom work, 24 hours of supervised study; five hours of military, and six hours of physical education.

Military students begin their day at 8 o'clock, carrying through until 10:30 p.m., with the exception of Saturdays, when their activities cease at 3 p.m. until 8 p.m. on Sunday. All units are housed at Abbot hall.

Women Take Men's Halls

Two dormitories at Michigan State College, formerly occupied by men students, will be housing women when the fall quarter opens on September 19. They are Mason Hall and Wells Hall. These additional living quarters are needed to house the increased enrollment of women.

In Mason Hall 440 women will be under the supervision of Mrs. Margaret Luker, hostess, and Curtis Beachum, manager of men's residence halls. Wells Hall will house 180 women. This dormitory is being refurbished and will be ready for occupancy when Freshman Week starts. The hostess for this dormitory will be announced later.

In addition to these two dormitories women will be housed in Sarah Langdon Williams Hall, Mary Mayo Hall, Louise Campbell Hall, 10 cooperative homes, 13 sorority houses, and private homes. Dean Crowe stated adequate housing facilities will be available for all women interested in enrolling at Michigan State.

133 Receive Degrees

One-hundred and thirty-three men and women completed requirements for degrees during the summer session of six weeks and summer quarter of twelve weeks. No commencement exercises were held as these students took part in the June commencement. Total number of degrees awarded for the year, 1943-44, was 690.

Lecture-Concert Programs

Michigan State College has scheduled 14 lecture-concert programs and four special music programs for the 1944-45 school year. S. E. Crowe, dean of students and director of the course, announced.

The lecture-concert series program follows: October 7, Charles L. Wagner Opera Company in "La Traviata"; October 12, C. J. Hambro, former president of the League of Nations; October 18, New York City Center Opera Company in "Gypsy Baron"; November 10, Jan Struthers; November 15, Richard Crooks and Bidu Sayao; November 22, Ruth Draper in dramatic sketches; December 5, Russian Ballet by the Ballet Theatre Company; January 13, Don Cossacks; January 24, Eliot Janeway, editor of Fortune Magazine; January 29, Minneapolis Symphony Orchestra; January 30, H. R. Knickerbocker, foreign correspondent; February 2, Guthrie McClintock, lecture on theater; February 24, Veloz and Yolando and company; and March 8, Metropolitan Quartet in selections from operas.

The special programs of music follow: November 1, William Primrose, violist; January 17, Budapest String Quartette; February 20, Erica Morini, violinist; and April 7, Artur Schnabel, pianist.

Gifts To M. S. C.

MICHIGAN State College appreciates the numerous evidences of good will toward the institution by individual citizens and by both private and public organizations. The following list of gifts shows the scope of donations made to M.S.C. during the school year 1943-44:

From Cooperative G.L.F. Mills Inc., Buffalo, New York, for Friends of the Library and aid to agricultural students.....	\$1,000
From Balshaw Manufacturing Co., Greenville, Michigan, for study of the deterioration taking place in certain fruits and vegetables while they are on display shelves of retail stores.....	\$250
From the Lake City, Michigan, chamber of commerce, toward the cost of construction of the dam at the Lake City Station.....	\$350
From the Ingham County (Michigan) Health Department, for bacteriological diagnostic work.....	\$300
From the Middle West Soil Improvement Committee of Chicago, for studies in the fertilization of corn.....	\$400
From Dr. Grace Song Line, Howell, Michigan, for developing Asiatic courses.....	\$1,000
From Houdaille-Hershey Corporation, Decatur, Illinois, for research on military problems.....	\$10,000
From Horwath and Horwath, Chicago, Illinois, for scholarship fund in the Department of Hotel Administration.....	\$300
From Franklin DeKleine, Lansing, Michigan, a lithograph press, a Washington hand press, and accessories.....	\$700
From the Institute of American Poultry Industries, to be applied to the Poultry Products Research Fund No. 238, for research in poultry.....	\$1,600
From Mr. A. Grumeretz, Battle Creek, Michigan, a U. S. savings bond.....	\$25
From Winthrop Chemical Co., New York, for research on the effect of certain compounds manufactured by the company.....	\$200
From Swift and Co., Chicago, Illinois, for research on turkey diseases and protozoan parasitic infestations.....	\$15,000
From Wallace and Tiernan Co., Inc., Newark, New Jersey, for study of the conditioning and sterilization of swimming pool waters.....	\$4,000
From Professor L. C. Plant, East Lansing, Michigan, retired head of the M.S.C. Department of Mathematics, for scholarship awards to students in mathematics.....	\$3,000
From Mrs. Thomas Gunson, East Lansing, Michigan, as a contribution to the Student Loan Fund.....	\$67.97
From the W. K. Kellogg Foundation, Battle Creek, Michigan, in cooperation with the M.S.C. Department of Education, for cooperative studies in rural education.....	\$6,300
From the late John W. Beaumont, Detroit, Michigan, his library consisting of 1,800 volumes.....	\$6,560
From the Detroit Garden Club, as a contribution to the Nettie Clark Caron Memorial Loan Fund.....	\$100
From Chi Omega Sorority Lansing-East Lansing alumnae, an award to the most worthy senior girl majoring in chemistry or an allied science.....	\$25
From the LaVerne Noyes Fund, as a contribution to the LaVerne Noyes Scholarship Account.....	\$250
From the American College of Dentists, for the continuation of studies on the inheritance factor in rat caries.....	\$500
From Babson Brothers, Chicago, Illinois, for establishing a research fellowship to study methods of cleansing and sanitizing dairy equipment.....	\$700
From the International Minerals and Chemical Corporation, Chicago, Illinois, for investigations in the nutrition of tomatoes, cucumbers, and beans.....	\$1,500
From Permutit Co., New York, New York, for investigations on water conditioning.....	\$5,000
From the W. K. Kellogg Foundation, Battle Creek, Michigan, in cooperation with the State Board of Control for Vocational Education and Michigan State College, 360 scholarships to Michigan rural youth for developing better trained and more efficient farm youth.....	\$43,200
From the Middle West Soil Improvement Committee for research on corn growth.....	\$400
From the Stauffer Chemical Company of New York City for the study of spray materials by the Department of Horticulture.....	\$250
From the Rockefeller Foundation of New York for fellowships to three members of the M.S.C. English Department faculty for research in American and Canadian cultural histories.....	\$16,000

For Gallantry in Action

Lt. Col. H. J. Bullis, '37

Early this summer the war department announced awards to several Michigan flyers of the United States Army Fifth Air Force. One of the men singled for special honors and publicized in a Saturday Evening Post article was Lt. Col. Harry J. Bullis, '37, of Portland, Michigan, who was awarded the first bronze Oak Leaf Cluster to the Silver Star. An earlier dispatch in May from the war department announced that Bullis had also received the Distinguished Flying Cross.

Capt. J. G. Hemans, Jr., '40

Captain John G. Hemans, Jr., '40, son of Mr. and Mrs. John Hemans, of Onondaga, Michigan, already the holder of the Silver Star, Air Medal, and Oak Leaf Cluster, has been awarded his second Oak Leaf Cluster in lieu of an additional Air Medal for bravery in action in July, 1943, in the South Pacific war zone.

The belated citation, which reached Capt. Hemans in Florida where he is an instructor in navigation and weather at an Army Air Force Base, explained that it was for "meritorious achievement while participating as a navigator on a bombing mission to Bougainville, Solomon Islands." During his combat service in the Pacific Capt. Hemans was shot down twice by enemy planes and once accidentally by his own planes during an engagement with the Japanese.

Lt. S. E. Trumbull, Jr., '41

Lt. S. E. Trumbull, Jr., '41, of 3526 Forest Road, Lansing, now a pilot of a North American B-25 Billy Mitchell, twin-engine bomber, was reported in the last issue of the *Record* as the recipient of an Air Medal and Oak Leaf Cluster. Since that time Lt. Trumbull has been awarded the Distinguished Flying Cross for outstanding achievement in the South Pacific.

Lt. Victor H. Beardsell, '42

Word reached the alumni office during the early summer that First Lt. Victor H. Beardsell, '42, son of Mr. and Mrs. C. H. Beardsell, of 190 Auburn Avenue, Buffalo, New York, had returned from service outside the continental United States and was temporarily living in Orlando, Florida. He entered the service July 24, 1941, and was sent overseas September 21, 1942, during which time he flew 22 missions as a pilot during his 18 months in Italy, Sicily, and Africa. The young combat veteran who wears the Air Medal with one Oak Leaf Cluster

was hospitalized after his return to the United States. His wife, the former Phyllis Murtagh, w'41, is in Orlando, Florida, with him.

Capt. Olin B. Carter, '42

An East Lansing fighter pilot, a member of the almost legendary "Air Commandos" of Col. Philip Cochran, was awarded the Distinguished Flying Cross and the Oak Leaf Cluster to the Air Medal in one-two order, it was learned recently from his parents, Mr. and Mrs. B. F. Carter, of 417 E. Grand River Avenue, East Lansing. Since the citations were awarded Captain Carter has run his total to 80 missions over combat areas of North Burma.

Lt. (jg) Marshall Dann, '42

Eighteen months of active duty in the Solomon Islands has convinced Lt. (jg) Marshall Dann, '42, former State News sports writer, of at least one thing—"I would trade the whole of the South Pacific for any block of Lansing." Dann declared during a recent visit in Lansing.

In extreme modesty he shoved his contributions toward defeating Tojo far into the background. "I have no story for you," he said, "I'm just another guy home for a 21-day leave. There are millions like me." Nevertheless, authentic reports refute his modesty, and it was learned that he had been awarded the Bronze Star for his participation in the Rendova landing in the Solomons, being awarded by Admiral William Halsey, for getting an Army Battery into action in the New Georgia area 24 hours ahead of schedule.

T/Sgt. Malcolm Hess, w'42

T/Sgt. Malcolm Hess, w'42, returned a few weeks ago to Miami Beach, Florida, from overseas duty. Sgt. Hess, a B-17 flying fortress gunner, flew 25 missions during 27 months in the European theater. He shot down three enemy planes, confirmed, and probably two more, and was awarded the Distinguished Flying Cross and the Air Medal with three Oak Leaf Clusters. He is the son of Mrs. D. D. Hess, 32 South Union street, Battle Creek, Michigan, and had completed two years in the veterinarian course before enlisting.

Lt. Robert Gibb, w'44

Lt. Robert Gibb, w'44, brother of Major James A. Gibb, Jr., w'38, (the first Lansing flyer to be awarded a Distinguished Flying Cross), has now been awarded the same decoration "for heroism and extraordinary achievements against the

Japs in the Pacific battle zone." At the same time it was learned that Lt. Gibb had become an "ace" by shooting down five Japanese planes.

Lt. James E. Fast, w'44

First Lt. James E. Fast, w'44, a bombardier on a B-17 Flying Fortress, was recently decorated with the Air Medal by order of the Commanding General, Eighth AAF. The citation accompanying the presentation of the award lauded Lt. Fast for his courage, skill and coolness displayed on his combat missions over Germany and enemy occupied Europe. He is a graduate of Mt. Clemens High School and the son of Mr. and Mrs. Lucius W. Fast, 185 S. Wilson Avenue, Mt. Clemens.

Lt. Arthur N. Rowley, w'44

Piloting a P-38 Lightning Fighter aircraft, First Lt. Robert N. Rowley, w'44, of Lansing, has been awarded the Air Medal with three Oak Leaf Clusters. He is credited with 50 missions and more than 150 hours of combat flying over Berlin, Frankfurt, Brunswick, and other German production centers. He names his ship, "Marilyn," in honor of his sister. His parents live at 1405 Prospect Street, Lansing.

Lt. Com. L. K. Greenamyre, w'28

Lt. Comdr. L. Keyes Greenamyre, w'28, with the United States Naval Air Force, who has been missing in action since the Attu invasion, has been awarded the Navy Cross for "extraordinary heroism," it was learned recently. Lt. Comdr. Greenamyre formerly lived in Lansing and after graduating at Central High School and spending one year in engineering at Michigan State, received an appointment to Annapolis. He graduated at the U. S. Naval Academy in 1929. His wife, Helen, and his mother, Mrs. Hattie Greenamyre, live in Corpus Christi, Texas.

S/Sgt. Virgil G. Adams, w'43

S/Sgt. Virgil G. Adams, w'43, son of Mr. and Mrs. Guy Adams, of 2105 North East Street, Lansing, was recently awarded the Air Medal for "meritorious achievement while participating in bombardment sessions over enemy territory." He has been flying as a nose gunner on a Liberator and completed two missions on D-Day. On a later mission to an enemy airfield in France, his No. 3 engine was shot out by flak, and he crash-landed at his home base.

Lt. Lawrence J. Hildinger, w'43

First Lt. Lawrence J. Hildinger, w'43, previously cited with the Air Medal and three Oak Leaf Clusters, was recently awarded the Distinguished Flying Cross

(Continued on Page 18)

Following Alumni Clubs

By Glen O. Stewart

In the above picture Flint Club President Henry Kowalk, '31, is shown with Dr. John A. Hannah, '23, Glen O. Stewart, '17, and Lewis Snider, '30.

Flint Club

Henry Kowalk, '31, president of the Flint M.S.C. Alumni Club, has just appointed Mrs. Amy Perry Maloney, '28, chairman of the New Student Committee, in charge of entertainment for the fall quarter. Recently plans were announced by Mrs. Maloney and her committee for a "going away" tea to be held the early part of September at the home of Mrs. Lewis Snider, '31, 2420 Norbert. This will honor all new women students from Genesee county enrolling in the freshman class at the college. Other undergraduates will also be welcomed, and the guest speaker will be Mrs. Irma Thompson Ireland, '00. She will tell of her experiences in the Philippines and other South Pacific Islands.

Grand Traverse County

As the pollen count of the ragweed increases in August a similar rise in Michigan State population occurs in the Northern counties. Thus it was evident why more than 75 people attended the annual picnic-style basket dinner at the Traverse City Shuffleboard Club on Saturday evening, August 19.

Glen O. Stewart, director of alumni relations, spoke on the Basic College and other changes affecting the college program this fall. He also showed the new sound movie, "The Campus at War for Peace." Special music was provided from the National Music Camp at Interlochen.

Assisting G. Karl Fisher, '15, general chairman, were the following: Mrs. Lowena Ludlow Murphy, '39, William Blanchard, '22, Mrs. Douglas E. Linder, '35, Erich Sleder, '36, Dell Zimmerman, '27 and Watson Fowle, '20. Douglas Linder, '33, was named president and G. Karl Fisher, secretary-treasurer.

Cleveland, Ohio

Limited hotel facilities have been no handicap to the Cleveland, Ohio, Alumni Club, according to Ray La Du, '09, secretary, who visited the college recently. He informed the alumni office that the Cleveland group was holding basket dinner meetings at the homes of various members the third Friday of each month. Mrs. Dorothy Kahres Fleming, '19, president, announces at each meeting the name of the host and hostess for the following month and this eliminates the need of circular notices. Newcomers in the Cleveland area who want to become a part of this fast-growing Michigan State Alumni Club should call the secretary, Ray La Du, in Cleveland Heights, Evergreen 3202.

Upper Peninsula

Alumni meetings at Escanaba, Marquette, and Sault Ste. Marie, usually held in August, have been postponed until later in the fall when Mr. Stewart is scheduled to meet these groups and show movies to several local high schools.

Announcement

Officers of local alumni clubs who desire speakers for fall and winter meetings should contact the alumni relations office at the college at once. The new sound movie, "The Campus at War for Peace" will be scheduled for all meetings if a 30-day notice is given.

College Gets \$15,135 in Grants

Gifts, totalling \$15,135, were accepted by the State Board of Agriculture, governing body of Michigan State college, at its summer meeting in the administration building on August 25.

A check of \$1,000 came from the Co-operative G. L. F. Mills, Inc., of Buffalo, N. Y., to be added to the scholarship fund for agricultural students. Another gift of \$6,000 was accepted from Sharpe and Dohme company for research study in the brucella laboratory. An amount of \$4,500 was accepted from the Refrigeration Research Foundation in Chicago for investigation on the use of aerosols as applied to refrigeration warehouses. Another gift of 150 books was presented to the college by Mrs. Philip J. Schaible, of East Lansing, for the Friends of the Library organization.

Additional gifts included a grant of \$1,500 from the Borden Company to be used as a scholarship known as the Borden Agricultural Award and administered by the dean of the school of agriculture. The State Board accepted a gift of \$1,200 from the 151st district of the Rotary International. The money will be used for the travel and maintenance of a South American student to be selected jointly by the college and the Rotary district through Dr. Eugene B. Elliott, state superintendent of public instruction. Efrain Ribeiro, of Lima, Peru, is recipient of the award. Mr. Ribeiro will enroll at MSC for the fall quarter. The college received \$935 from the Parke Davis company for the continuation of a graduate fellowship started several years ago by the firm.

Announce Major Appointments

The State Board, at its August meeting, also approved the following major appointments.

Heading the department of effective living in the Basic College will be Dr. Leo J. Haak, who comes from the University of Tulsa, Tulsa, Oklahoma, where he was executive secretary of the Council of Social Agencies and professor of sociology since 1938. Dr. Haak holds a doctor's degree from Harvard University. Dr. S. G. Bergquist, professor and head of the department of geology and geography at Michigan State, also becomes

(Continued on Page 12)

Bachman Drills Spartans for Opener with Kansas

Ready to move back into the national sports spotlight after a year's absence from the intercollegiate picture, the Michigan State coaching staff's first major task will be to groom a new Green and White eleven for the opening gridiron tilt with the Wildcats of Kansas State at Macklin Field on Saturday, October 14. Three other games, two of them home contests, have been scheduled to date.

Coach Charlie Bachman and his staff are optimistic about football prospects, following a month long summer practice in August at which 75 candidates participated. It was one of the largest squads ever to turn up at a summer workout and the coaches were elated over the spirit and willingness of the men. An equal or larger number of candidates are expected to report for fall practice beginning September 11.

"When one realizes that we have only about 500 men students on the campus, it shows a great interest and demand for football," said Coach Bachman. "Despite the fact that few of the men have had any college experience, they demonstrated during summer practice that they are serious about making the team and with such a fine competitive spirit I'm sure we will have a fighting team representing State this fall."

While football is "king" on the campus for the moment, MSC athletic authorities are negotiating a full-fledged sports program for 1944-45. Already seven bas-

ketball games have been booked for the coming season, and a number more are pending and await only an agreement on dates. Track, baseball, swimming, and the other varsity sports loom large in Spartan plans for this year and next, according to Athletic Director Ralph H. Young.

Four football games—three of them at home—are on the schedule to date. Director Young is hopeful that two more games will be arranged. After the Kansas State battle, the Spartans will travel to Columbia, Mo., to engage the University of Missouri, a member of the Big Six conference, along with Kansas State.

The team will play in East Lansing the following two Saturdays. On November 11, State will entertain the University of Maryland, and on November 18 the Skibos of Carnegie Tech will appear in Macklin stadium. Like Michigan State, each of these opponents will have a team composed of civilian players.

Without a letter winner back at the start of the summer practice, the team outlook zoomed the second week with the return of Morgan Gingrass, varsity fullback in 1941 and 1942. The former Marquette Graveraet High star will enroll for the fall quarter which opens later this month. He dropped out of State at the end of his junior year and since has been married and is working in a Lansing war plant.

Among the large squad in training are

10 ex-servicemen who have been honorably discharged. Several men played on the campus league last fall and a few played at State as freshmen. The bulk of the squad, however, is made up of 17-year-olds who finished high school this year. A number of these are expecting to get a draft call within a month or two. A sizeable percentage of the men 18 years of age and over are classified 4-F by selective service, and while turned down for military training because of punctured ear drums and other ailments, their defects are not the kind which make them unfit for football.

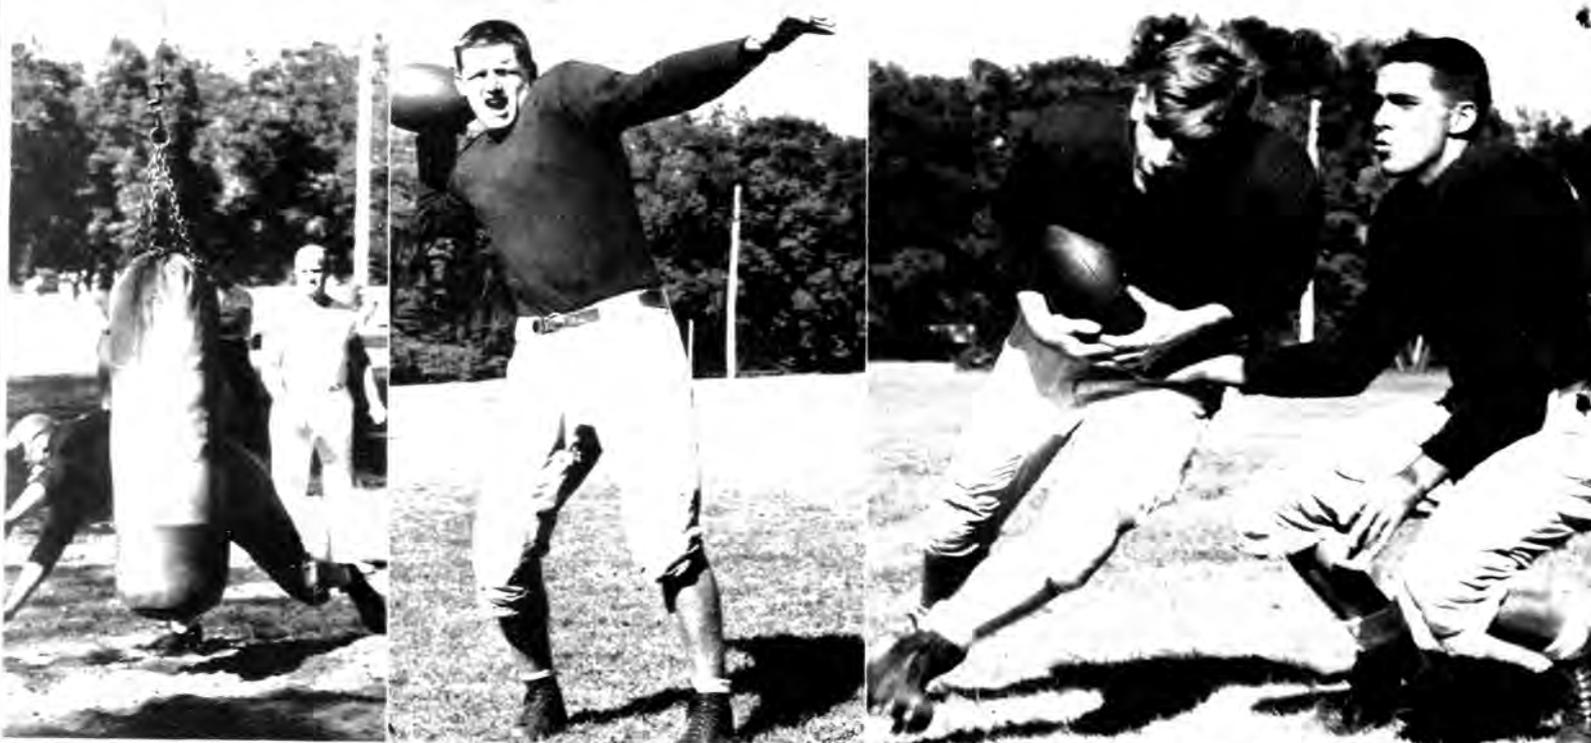

Scrimmage was a daily ration for the Spartan squad during August after the first three days of practice. Every drill stressed fundamentals, such as blocking and charging.

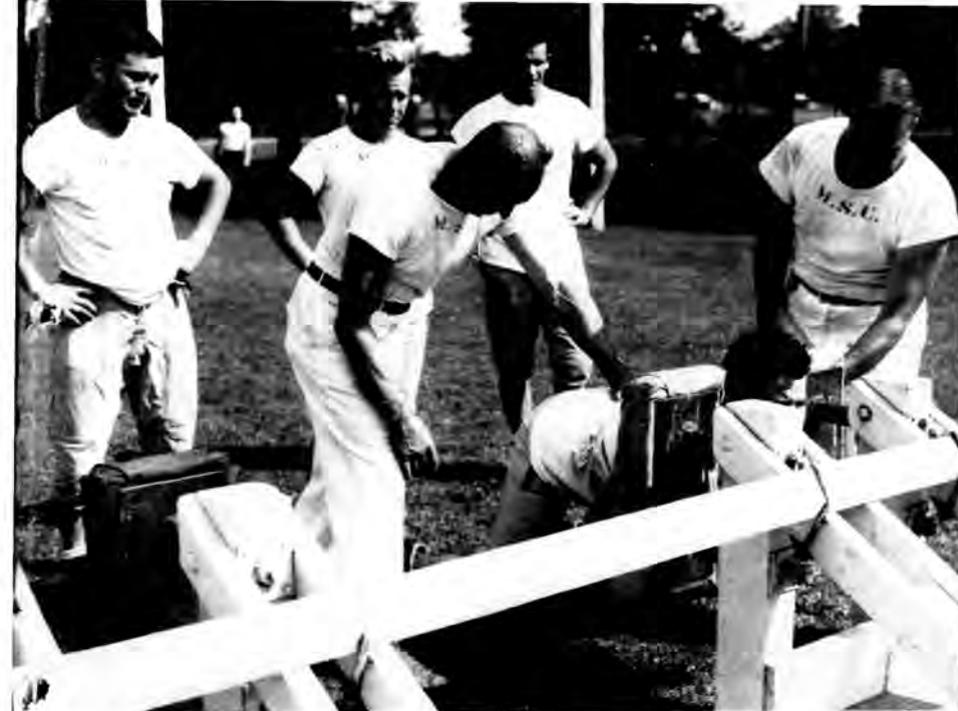

Helping Coach Bachman build the new Spartan gridiron machine are: Joe Holsinger, backfield coach; John Kobs, line coach; Karl Schlademan, coach of ends and tackles; Gordon Dahlgren, coach of guards and centers; Ben Van Alstyne, reserve coach; and Jack Heppinstall, trainer. The latter is beginning his 30th year on the MSC athletic staff.

Spartans to Play Wayne

As The Record goes to press Athletic Director Ralph H. Young reports he has scheduled a football game with Wayne University, Detroit. The contest will be played in Detroit at the University of Detroit stadium, probably in October, although the date is to be arranged. State and Wayne have met on the gridiron on six occasions, each time in East Lansing. This makes the fifth game on the 1944 MSC schedule.

Bits of action during the August practice session of 75 candidates for the new Spartan gridiron team are shown in these pictures. Left, Backfield Coach Joe Holsinger watches one of his backs hit the blocking dummy. Center, Bob Bruegger, Lansing Eastern High star halfback for two years and on the 5-A Conference honor team last season, aims a pass. At the right two members of the Flint Central High City championship eleven of last fall, Bob Schroeder, left, an end, and Glen Hatfield, a quarterback, execute an end-around play.

Linemen trying for a berth on State's new football team learned a lot about charging an opponent during summer practice in August. In the picture at the upper left, Coaches Charlie Bachman, left foreground, and John Kobs, far right, show Tackle Ellis Phillips, Sandusky High athlete, how to hit the blocking machine. Waiting their turn in the background are, left to right: Don Arnson, Muskegon; Don Anderson, Tulsa, Okla., and Harold McMacken, Howell. Upper right: a number of honorably discharged servicemen are among team candidates. Standing, left to right: Fred Aronson, Chicago, halfback; Gene Batzer, Flint, tailback; Reiner Schneider, Lansing, tackle, and Charles Ruck, Jeffersonville, Ind., guard. Seated left: Don Arnson, Muskegon, guard, and Harold McMacken, Howell, tackle.

Reserve Football Tickets Now, Frimodig Urges

Michigan State alumni and sports followers may make reservations now for football tickets for the three home games on the 1944 Spartan schedule, L. L. Frimodig, '17, assistant athletic director and head of ticket sales, has announced.

In contrast to regular procedure for ordering, no ticket application blanks will be mailed this season and gridiron followers are asked to send their requests to the MSC Athletic association. Another departure from the usual sale will be that no season tickets will be available.

"As we are entertaining only a short schedule this season, we are dispensing with the expense of sending out ticket application blanks and are depending on The Record to inform MSC alumni and our many other sports friends how they may obtain football tickets easily," said Mr. Frimodig. "Michigan State is making a comeback in the intercollegiate athletic world this year and we sincerely hope that when the 1945 season rolls around we will be able to resume normal operations in all our athletic activities."

The three home games at Macklin Field are: October 14, Kansas State; November 11, University of Maryland; and November 18, Carnegie Tech. On Saturday, November 4, the Spartans will go

to Columbia, Missouri, to play the University of Missouri.

Under this season's arrangements, reserved seats at \$2.25 each, and general admission tickets at \$1.50 each, both including the federal tax, will be sold for each game. They may be ordered singly,

When Ordering Gridiron Tickets

Please make check or draft payable to the Michigan State College Athletic Association. Home game reserved seat prices are \$2.25 each, including federal tax. Remittances also should include 10 cents for each game to cover insurance and postage fees. Reserved seats will be located in the West stands. No season tickets are available. Attach a note with payment indicating for which game, or games, tickets are wanted, and give your mailing address. The 1944 Spartans home schedule is: October 14, Kansas State; November 11, University of Maryland; November 18, Carnegie Tech. All home games will be played in Macklin Field stadium, East Lansing, at 2 p.m. (eastern war time).

or for two or three games. A service fee of 10 cents per game should be added to remittances to cover the cost of insurance and postage.

Reserved seats in the stadium will be blocked off between the 20-yard lines in the west stands. All other seats, except those set apart for students, will be available at general admission prices.

Seven Cage Tilts Scheduled to Date

The 1944-45 varsity basketball schedule is being rounded into shape and thus far Athletic Director Ralph H. Young has booked seven contests, two of them home games. A few more home appearances are being arranged.

The Jenison fieldhouse engagements scheduled to date include those with the Buckeyes of Ohio State on December 28, and the University of Kentucky Colonels on February 5. These are on a home-and-home basis, and Coach Ben Van Alstyne will take his squad to Columbus on December 9 for the Buckeye contest, and to Lexington on January 13 for the first game with Kentucky.

After Ohio State's appearance in East Lansing, the Spartan five will travel to Iowa City on January 30 to meet the University of Iowa. Toward the end of January the team will go on an eastern road trip, playing Temple University at the municipal auditorium in Buffalo on January 27, and the University of Syracuse, N. Y., on the 29th.

How You Can Use the M.S.C. Placement Service

By TOM KING
Director of Placement

Preliminary Information On Post-War Employment Plans

Please Fill Out and Return to Placement
Office, Old Music Building, Michigan
State College.

The form in the adjacent column is being printed again so that you who have not as yet returned your form will have an opportunity to do so now. It is important that you do this so that the Placement Office may be of service to you.

The function of the Placement Office at present is concerned with locating qualified personnel for war industry, government, and wartime civilian essentials. This need will likely continue for some time to exact a full quota of energy and attention. The returning men and women from the armed services and from war industry is a post-war problem that confronts the Placement Office at this time, and the solution of this problem must be as direct and practical as possible.

To get useful information for this job we are asking that you in the armed services mail to the Placement Office the form on this page with the data required, whether or not you expect to be seeking a new position. We should like to have the information whether or not you ever plan to use the Placement Office. We are sorry we cannot promise individual replies nor can we promise a job. We will, however, prepare in every possible way to meet the demands we expect will be made upon us.

We know our alumni will realize that placement is a cooperative venture. The employer offers a job requiring certain abilities, the college undertakes to indicate the person with those qualifications, the candidate chosen makes the cycle complete by his performance on the job.

Stop in while on leave or furlough. Bring in or return this form immediately. The Placement Office at Michigan State College sends greetings and promises its best efforts in your behalf.

Downs First Plane

Second Lt. Robert J. McIntosh, w'44, Army Air Forces fighter pilot now in England, recently was credited with shooting down his first German plane during an American raid in occupied France. He was a member of a fighter group which had escorted a formation of heavy bombers. His attack on the German ship occurred over a Nazi airfield which was being bombed. Fire from his .50 caliber guns completely sheared off the right wing of his foe's aircraft, after which the "Jerry" went into a spin from about 5,000 feet.

Lt. McIntosh attended MSC two years, entering in 1940 from Port Huron High school, where his parents, Mr. and Mrs. William J. McIntosh, reside at 2125 Griswold street. He was an announcer at the college station, WKAR, and at WHLS in Port Huron before entering service last year.

Promoted to Major

The promotion of Ralph Pulcifer, w'42, Lansing, from captain to major has been announced by Brig. Gen. Edmund W. Hill, commanding general, Eighth AAF, Composite Command in England.

Major Pulcifer

Major Pulcifer is serving in the Plans and Training section at the headquarters of the Eighth AAF Composite Command. He is in charge of heavy bomber training throughout this command.

Pulcifer, son of Mr. and Mrs. John W. Pulcifer, of Williamsburg, Michigan, is a veteran of many combat missions over Europe as a pilot of a B-17 Flying Fortress. He has been in the European theater of operations for 14 months and in the army for two and a half years. Before entering the army he was a salesman with the Capital City Wrecking Co., in Lansing.

Jake Speelman, '42

Jake Speelman, '42, Lansing, Michigan, who now roams somewhere in the south Pacific, recently sent a letter to Prof. B. R. Proulx, head of hotel administration,

in which he described some of his experiences with the Japs. A few excerpts from his letter follow:

"We have been out in the battle zone since January, and have patrolled every other night. Our mission is to sink barges. That we have done. . .

Speelman, '42

"We leave our base at dusk. Takes us about two hours to get up to the island where the Japs are. Then we proceed at very slow speed staying about 1½ miles off the beach. We patrol like that until about 4 a. m.,

returning to our base at dawn. We do get some sleep while underway, but very little. . . .

"After returning from patrol we have to fuel, take on water, and clean all guns and take on ammunition, so we seldom get in the sack before noon. Usually a couple of hours sleep during the afternoon is sufficient, especially when it's so hot and humid. . . .

"Even though I've lost about 15 pounds, I feel tip top. As you can well imagine I have a deep tan, and we keep in good condition playing softball and touch football when we can. Mosquitoes are plentiful as are lizards and centipedes, and we are fortunate to be living on board the boats. . . .

"Our 'hotel' facilities are super. Our shower is a homemade contraption and consists of a 50 gallon oil drum with a shower spigot attached. Rain water is collected in these same drums—they are placed under tents and canvas on shore. We are fortunate in being at this particular base in that we can nose our boats directly into the beach. This permits us having nice shade as well as being ashore most of the time. This particular island is fairly cool. However, we expect to move further up the line very soon.

As for returning to the States, I don't expect to get back much before this time next year. . . .

"We have been shelled from the beach a few times, and strafed and bombed by the Japs, the closest they came was 50 yards one night. Saw Jim Crowley, (Lt. Comdr.) a few weeks ago. He is attached to the staff of PT operations. He looks the same, a little thinner perhaps."

Commissary Officer

Promotion of WAVE Helen G. Bradford, '23, from lieutenant junior grade to lieutenant was announced recently. Lt. Bradford, a native of Grand Rapids, also has been made commissary officer of the Naval Research laboratory, Belleview, D. C., where she has been on duty the past year as an assistant.

Wave Bradford

Lt. Bradford is now the only WAVE commissary officer in the Potomac River Research Command and one of the few on duty anywhere in the country. She is in charge of the three mess halls at the laboratory serving more than 2000 men and women of the navy and 100 navy men and women in the commissary department.

John E. Kuk, '38

Buying war bonds was more than a slogan to John E. Kuk, '38. Before he was inducted

into the army at Camp Upton, N. Y., the former MSC baseball star walked into the General Electric company office at Schenectady, N. Y., where he has been employed since 1942 working on plant transportation problems, and turned over a \$750 check to his boss for a \$1,000 war bond.

Kuk, '38

"It seems to me that the one very important thing I can do is to back myself up before I go," Kuk declared. A native of Amsterdam, N. Y., Kuk played in the outfield on the varsity teams of 1937 and 1938. After graduation he was signed by the Chicago White Sox and assigned to the Dallas club of the Texas league.

First Lt. Carl J. Witkop, Jr., w'42

Late in June Mr. and Mrs. Carl J. Witkop, w'20, 1406 Pettis Street, Lansing, received word that their son, First Lt. Carl J. Witkop, Jr., w'42, had received the Silver Star for gallantry in action on the Fifth Army front in Italy. The medal was given to him by Major-General Geoffrey Keyes, commander of a Fifth Army formation.

(Continued on Page 18)

Michigan State's First Football Team—1884

Football at Michigan State College in 1884 was just starting to develop into something more than an idle hour activity. Two years before, in April, the *Speculum* remarked that "... our sports are confined to an occasional 'scrub' game of baseball or a miscellaneous kicking of the foot-ball." Most of the interest in football was centered around the various interclass contests. In June, 1884, the *Speculum* reported that "The foot-ball is again booming on the college campus but the seniors are fast losing interest in the sport; for the freshmen have learned to give as good as they take in shin kicking." The same issue mentioned that at an athletic field day with Olivet College on May 19, the football game was called off because the baseball game had taken up too much time.

In this picture, left to right, are: R. J. Coryell, '84; C. P. Gillett, '84; E. A. Bartmess, '85; W. C. Sanson, '87; D. J. Stryker, '85; J. D. Towar, '85; J. G. Clark, '85; W. I. Power, '85; E. C. Bank, '84; Rich Elding, '86; C. C. Lillie, '84. Holding the ball is George Morrice, '85. The coach was Prof. Rolla C. Carpenter, instructor in mathematics and civil engineering.

Days of Yore

By Joseph G. Duncan

(Above) Here is a typical student's room in Williams Hall about 1898. Seated, left to right, are Will Stewart (no data); David Hale, '98, deceased; and Dewey A. Seeley, '98, deceased.

(Left) These coeds performed during the Union Vaudeville of 1925. Left to right, they are Frances (Chambers) Hewetson, '28; Frances (Ayres) Seeley, '25; Zona Eberly (no data); and Geneva (Church) Newell, '26.

(Below) "The Captain of Plymouth", a light opera based on Longfellow's "Courtship of Miles Standish", was presented at the Gladmer Theater in Lansing in the winter of 1914. Tenth person from the left in the back row is Howard C. Rather, '17, dean of the new Basic College.

ABOUT THESE ALUMNI

By Gladys M. Franks

Peggy Killeen, '39

Singing, dancing Peggy Killeen, '39, is now celebrating her first birthday as a "soldier in grease paint" with USO Camp Shows, the organization that supplies live talent to American servicemen throughout the world.

During the past year, Peggy has been touring isolated army bases and naval installations with a USO Camp Show tabloid troupe covering states in the south and southwest. In July she left for Italy and her recent letters tell of meeting many M.S.C. men and women. Her act includes specialty songs (written just for her) and patter and eccentric dance routines. Being 5 feet, 9 inches tall with light-brown hair and blue eyes, Peggy is claimed to be one of the tallest and prettiest show girls in the business. Her father is Prof. Fred Killeen, of the department of music at M.S.C.

Ever since her graduation Peggy has been in show business. She worked in stock in Hartford, Connecticut, with the Edward J. Scanlon company, playing in "Hit the Deck," "No, No, Nanette," and other musicals. Her next step was New York where she performed at various supper clubs and secured a job on Cue Magazine as a side-line. Later she played Madame Nincoff in Shubert's "Merry Widow" for the run of the show and continued night club engagements throughout the east.

Patriarchs

Clement J. Strang, '78, retired Congregational minister, teacher, and writer, died in a Yankton, South Dakota, hospital on July 2. Mr. Strang was born on Beaver Island in 1852 during the time that community was occupied by Mormons and ruled over by his father, King James Strang, and was one of the last survivors of that interesting phase of Michigan's history. Mr. Strang studied at Oberlin and Harvard and received his bachelor of divinity degree from Andover Theological seminary in 1881. He served pastorates in a number of rural, mining, and lumbering towns, and taught in many of these communities. At one time he published a newspaper in Beulah and served as township treasurer and county school commissioner. His later years were spent in scientific and philosophical writing. He is survived by a son and two daughters.

George Grover, '81, for many years city clerk for San Jacinto, California, died in Los Angeles on May 18 following a brief illness. From his graduation until 1912, Mr. Grover was a teacher, railway station agent and telegraph operator, and a merchant. In 1912 he became city clerk in San Jacinto and held that position until December, 1943, when he retired and moved to Los Angeles. His three sons survive.

Word has been received of the death on January 4 of **Llewellyn Bonham**, '84, well known manufacturer and engineer of Oxford, Ohio.

Paul Woodworth, w'90, for nearly half a century a practicing attorney in Huron county, died at his home in Bad Axe on May 30. Mr. Woodworth received his law degree from the University of Michigan in 1893. Upon graduation he prospected in Alaska for two years before engaging practice. He served Huron county as prosecuting attorney from 1900 to 1909. He participated regularly in Republican state conventions, was a delegate to several national conventions of the party, and in 1928 was a member of the electoral college. His wife and two sons survive.

1895

Since its appearance in June, the Alumni Office has received many fine comments on "Fifty Years Out of College", all warm with praise for its author, **Maurice G. Kains**. Mr. Kains intends that a copy of the book reach every member of the class and his children. If any have failed to receive a copy, write to Mr. Kains at Livingston Mansr, New York. Published by Greenberg, of 400 Madison avenue, New York City, copies are also available to non-members of the class. The price is \$2.00 per copy.

Howard R. Smith, general manager of the National Live Stock Loss Prevention board in Chicago, was the recipient of a doctor of agriculture degree conferred at the annual commencement of the University of Nebraska. It was during his service on the faculty of that institution that Dr. Smith began his campaign against bovine tuberculosis and the degree was, in part, a recognition of his leadership in the nation-wide eradication of the disease.

1898

Fred L. Woodworth, for many years active in politics and public service in Michigan, died at his home near Los Angeles, California, on May 4. Mr. Woodworth entered public life in 1909 when he was elected state representative from Huron county where he had been engaged in farming and stock raising. He served two terms as a representative and then represented his district as senator for two terms. He was then appointed to the office of state dairy and food commissioner which he held until 1922 when he was named collector of internal revenue in Detroit. In 1935 he became state welfare director and held this post until late in 1936. During the last two years he and Mrs. Woodworth made their home in California and at the time of his death he was employed by the Douglas Aircraft corporation in Los Angeles. He is survived by Mrs. Woodworth, the former **Gertrude Lowe**, w'01; a son, **Capt. Thomas L. Woodworth**, '31, of Fort Riley, Kansas; and three daughters, **Clara Woodworth Connor**, w'25, of San Diego, California; **Elizabeth Woodworth Fremont**, '27, and **Mary Woodworth Grimes**, '32, both of Detroit.

1899

Francis E. West recently completed his forty-second year in the teaching of college chemistry but remarks: "It seems but yesterday that Dr. R. C. Kedzie was leading us through the forests of organic chemistry and Dr. Frank Kedzie in qualitative analysis was giving us a smoke screen of hydrogen sulfide." Dr. West is head of the chemistry department at Bob Jones college in Cleveland, Tennessee.

1903

J. F. Loop visited the campus recently while enroute from Detroit to Edmonds, Washington, where he is locating on Route 2, Box 629B.

1904

Edward Balbach, of 15 Englewood Road, Springfield, Ohio, has called attention to the unique fact that he and his two sons are all members of Tau Beta Pi. One of his sons, **Howard E.**, was graduated from Michigan State in 1931, and the other one, **Carl**, was initiated into the Ohio State university chapter.

1907

William B. Allen, assistant chief design engineer for TVA, is located at 105 Ailsie drive, Knoxville 15, Tennessee.

1909

His classmates and other friends will be grieved to learn of the death of **Charles C. Cobb** in a Lansing hospital on June 26. Active in church

Lt. Seckinger, '39

Among the Home Economics graduates of recent years who have made outstanding records as dietitians in World War II is Lt. **Gertrude R. Seckinger**, of the 87th General Hospital Unit, now in service some place in England.

Lt. **Seckinger** writes that she is thoroughly enjoying the work and is thrilled at the many opportunities she has had to use her home economics training during the present crisis. Before training for overseas duty she served as a dietitian in hospitals at Indianapolis, Indiana; Madison, Wisconsin; Grand Rapids, Michigan; Gary, Indiana; and Staten Island, New York. He parents live at Clark Lake, near Jackson, Michigan.

and lodge circles, Mr. Cobb has been associated for the past 20 years with the Dail Steel Products company as engineer. He is survived by his widow.

The sympathy of the class is extended to **Edith Hudson Bearup** of Okemos, Michigan, in the death of her husband, **George H. Bearup**, on May 7.

John R. Thoenen is located in Little Rock.

Arkansas, as district engineer in Arkansas and Louisiana for the Bureau of Mines of the U. S. Department of the Interior. His office is charged with finding new sources of bauxite to enable the war production of aluminum to continue at a rapidly increasing rate. He reports that **J. H. Hedges**, '03, is engaged in similar work in the state of Arizona.

1910

Edith B. Langenbacher, a member of one of Lansing's pioneer families and a piano teacher there for many years, died on July 22 following a long illness. She is survived by her mother, a brother **Andrew**, w'06, and a niece **Mary Langenbacher Weed**, w'42.

1911

Major Robert P. Holdsworth recently returned from the Mediterranean theatre where he served as a combat intelligence officer with the allied photo reconnaissance wing in North Africa and Italy. Before going overseas he was a member of the staff of instruction at the Army Air Forces Air Intelligence school at Harrisburg, Pennsylvania. Major Holdsworth who served throughout World War I as a captain of infantry, expects to go on the inactive list soon. He has three sons serving in the armed forces.

John W. Knecht, general superintendent of the Grand Rapids Motor Coach company, recently added another title and duty, that of assistant to the president and general manager of the concern. He and Mrs. Knecht, **Helen Norton**, '12, make their home in Grand Rapids at 1404 Dunham, S.E.

1912

Aurelia Belle Potts, director of the division of nursing education at Peabody college since 1929, died in Vanderbilt hospital in Nashville, Tennessee, on April 19, following a brief illness. Miss Potts taught home economics in Traverse City and Menominee, Michigan, before entering Columbia university in 1916. After receiving her master of science degree she was engaged in extension work, first at Pennsylvania State college and then at Michigan State. In 1922 she entered the University of Michigan School of Nursing, was graduated in 1924, and became associated with the Merrill Palmer school in Detroit. She joined the faculty of George Peabody college in Nashville in 1929. Miss Potts was very active in many state and national associations in her profession and was instrumental in developing the home nursing program at Peabody college and the cadet nurse corps in Nashville. She is survived by four brothers, **Roy C.**, '06; **Ray G.**, '06; **Russell J.**, '15, and **Frank M.**, and a niece, **Aurelia Potts Waters**, '35.

1914

Carl E. Pinney recently became secretary-manager of the Chamber of Commerce in Midland, Michigan, where he lives at 1405 Helen street.

1916

Harry J. Richards, for the past ten years associated with the General Motors Truck and Coach division in Pontiac, died in that city on May 10. For a short time after graduation he was chief engineer for the Acme Motor Truck company in Cadillac, leaving there in 1917 to become vice president and chief engineer of the Larrabee-Deyo Motor Truck company in Binghamton, New York. In 1931 he became chief engineer in charge of service at the Atterbury Motor Car company in Buffalo, and in 1934 joined the sales-engineering department of the Yellow Truck and Coach in Pontiac. At the start of the war Mr. Richards was placed in charge of war contracts at the truck division, a position he held until his death. He is survived by his widow and one son, and a brother, **Fred J.**, '11, of Flint.

1917

Their classmates and other friends will be grieved to learn of the deaths of **Major and Mrs. Ralph B. Henning**. Mrs. Henning, the former **Lucille Curtice**, died in Ford hospital in Detroit on September 6, 1943, while Major Henning died on March 6 in California where he was stationed with an anti-aircraft brigade. They are survived by one son, **James**, a lieutenant in the air corps.

Grace Holtrop Pettigrove, wife of **Herbert R. Pettigrove**, '20, assistant professor of farm crops at the college, died at their home near Okemos on July 4. Before her marriage in 1922, Mrs. Pettigrove taught home economics in Ludington and Petoskey. She was a member of Eastern Star, Sesame society, and Zeta Tau Alpha sorority. Besides her husband she is survived by four brothers and a sister.

John Sheldon is located in Sheridan, Montana, as state agent for the Ferry-Morse Seed company.

1918

Paul Andres is associate professor of electrical engineering at Illinois Institute of Technology in Chicago where he lives at 10811 S. Fairfield avenue.

After three years duty as a lieutenant colonel in the Army, **George T. Bentley** was returned to inactive status on May 20, and has resumed his former position as superintendent of production at the Michigan Consolidated Gas company in Detroit.

Clement Johnson is located at 5451 Vinewood avenue, Detroit, where he is designing engineer at the Ford Motor company.

1922

Word has been received of the death on May 23 of **Owen E. Stricklen**, associated for many years with the Ann Arbor Dairy company in Ann Arbor, Michigan.

For the past two years, **E. D. Clifford** has been doing research work on the Emergency Rubber project and was recently placed in charge of the Guayule nurseries in Indio, California. He and Mrs. Clifford, **Elizabeth Bassingthwaite**, '24, report their daughter plans to enter Michigan State this fall and when her "Beside the Winding Cedar" booklet arrived they were tempted to join her for another four years here.

1925

A citation for "outstanding research accomplishments with brucellosis (undulant fever)" was presented to **Dr. I. Forest Huddleson**, internationally known bacteriologist, by the college chapter of Sigma Xi, national scientific honor society, at its annual banquet held before the close of last spring term. Dr. Huddleson is credited with the development of brucellin, a curative agent for treating undulant fever in man, and brucellergin, a skin test material for diagnosis.

1926

Mark Burlingame has been transferred by the Natural Gas Pipeline company of America to their Chicago office where his title is that of assistant superintendent of pipelines. He lives in Wilmette at 606 Central avenue.

1928

C. Russell Parker, secretary-treasurer of the Federal Home Loan Bank of Indianapolis, died April 20 in Ford hospital in Detroit, following a month's illness. Mr. Parker had been associated with the Federal Home Loan bank system for ten years and had been secretary-treasurer since

November, 1941. He previously had been examiner for the building and loan division of the Department of State in Michigan. He is survived by his widow and a seven-year-old son.

Victor Anderson is prosecuting attorney for Ingham county and he and Mrs. Anderson (**Macie Ernst**, w'33) and their two children make their home in East Lansing at 409 Cowley.

Paul Smith has been named recreational director at the Dowmetal plant in Bay City, Michigan. Mr. Smith has been employed by the Dow Chemical company for the past two years, transferring there from Akron, Ohio, where he had been associated with General Tire & Rubber.

1929

Cpl. Milton L. Berg and **Marion Larson**, '33, were married on April 9 and are making their home at Fort Sam Houston, Texas, where he is stationed at Brooke General hospital.

1930

Dr. Paul Brown is assistant professor of pathology at Colorado State college in Fort Collins.

F. McCracken Fisher is stationed overseas with the Office of War Information and Mrs. Fisher, the former **Constance Clark**, M. S., '38, may be reached through her parents' address, 209 N. Downie, Alma, Michigan.

Frances Lamb, who received her M.S. in 1931 and her Ph.D. in 1933, is chemist for the Gelatin Products corporation, 9425 Grinnell avenue, Detroit.

1932

C. S. Bryan, who received his M.S. with the class, his Ph.D. in 1937, and his D.V.M. in 1942, is now head of surgery and medicine at M.S.C. with offices in the veterinary clinic.

Catherine Doerr, who has been on the faculty of Temple university for the past six years, has been appointed assistant professor of home economics at the University of Hawaii in Honolulu. She will assume her new post in September.

Hilma Strong Lawrence is manager partner of "Dyspeptic Bill's Restaurant" at 12275 Ventura boulevard, Studio City, California.

1933

Evans Boucher, secretary of the Lansing city plan commission, is the new president of the Lansing Junior Chamber of Commerce, succeeding Prof. Paul Bagwell of the college's speech and dramatics department.

Transcontinental and Western Air, Inc., recently announced the election of **Albert G. Huber** to the office of executive secretary of the concern's senior management board in Washington, D. C.

Mr. and Mrs. **William J. McCarty (Mary Simons)** of Bad Axe, Michigan, announce the birth of **Marilyn Ann** on May 9.

1934

John and Mary (Johnson, '41) Kellogg and their small daughter **Susan**, are living at 614 Pleasant avenue, Prescott, Arizona, where he is chief engineer and geologist for the Iron King mine. The Kelloggs lived for some time in Cristo, Cuba, while he was engineering geologist for the Cuban Mining company.

While her husband is in service, **Marian McLean Johnson** is managing his insurance agency at 66 W. Huron street, Pontiac 14, Michigan.

Philip Minges is located in Davis, California, as extension specialist in vegetable crops for the

agricultural extension service of California. He reports the birth last December of a daughter, Phyllis Kathleen, whose brother Kendall will soon be four years old.

L. H. Rhodes has left extension work and is now located on a farm in Eaton county, a few miles out of Charlotte where he receives his mail on Route 5.

Curtis Rogers has been advanced by the Office of Price Administration to the post of chief of the processed foods branch of the food rationing division.

1935

Tom and Ruth Gregg King have moved to 45 Burlington street, Lexington, Massachusetts, while he has taken over his new work as chief metallurgist for the New England Metallurgical corporation in Boston.

Earl and Eva (Ward, '36) McKim, and their daughters Sara and Martha, have moved to Lansing where he has accepted a position with the E. H. Ward Sheet Metal company.

Walter and Mary Belle (Wickersham, '37) Niedermeier, of 919 Collingwood drive, East Lansing, report their son Bart Walter will celebrate his first birthday on September 1.

Victor Smith, who has been assistant professor of economics at Yale for the past two years, has accepted a similar position at Wellesley college in Wellesley, Massachusetts.

1936

Ruth Anne Ryder has been serving with the Red Cross in the South Pacific area for the past six months.

Viola Mae Young is located in Chicago where she is instructor of bacteriology and parasitology at the Chicago Medical school. Miss Young received her M.S. from the University of Illinois School of Medicine in Chicago in 1943.

1937

Newton C. Foster, a chemist for Westinghouse in Wilkesburg, Pennsylvania, for the past few years, has developed a new plastic which replaces rubber and seals radar and other electrical parts, making them moisture proof. The new compound has been named Fosterite.

Maxwell G. and Harriet (Bosma, '39) Hammer, of 406 Allen place, Albion, Michigan, announce the birth of Melvin Paul on May 25.

Mr. and Mrs. Louis Miller, of 222 N. O'Keefe, Cassopolis, Michigan, announce "a new chip off the old block," in the person of Kathleen Ann, born June 6.

Capt. Robert H. and Charlotte (Smith, '35) Madison announce the birth of their second son, John Abbott, on January 23. They are living in Kinston, North Carolina, while Capt. Madison is stationed at Camp Davis.

1938

Eleanor Bare is located in England as a staff assistant for the American Red Cross.

R. K. Boyd, who received his M.A. with the class, is on the faculty at Pacific Union college at Angwin, California.

Lt. William R. Bradford and Prudence Addin-sell were married on February 5 in England where he is stationed with the air corps.

Lt. G. Wesley Charter and Maxine Scott were married on February 18 in the Post chapel at the Sioux Falls (South Dakota) Army Air field where Lt. Charter is stationed.

Florence Digby is army special service librarian at the regional station hospital at Fort Custer, Michigan.

A second daughter, Jill Ann, was born July 1 to Mr. and Mrs. W. K. Miller (Ruth Ogden) of 18467 Forrer, Detroit.

Ensign Paul L. and Sara (Wilkins, w'41) Moyes announce the birth of their second son, Tommy, on May 6. Mrs. Moyes and the two boys are making their home with her parents, Mr. and Mrs. C. O. Wilkins, in Haslett while he is serving in the Navy.

Major Robert Reed and WAC Lt. Jean Hodges (Woman's College, University of North Carolina) were married on June 11. Major Reed is located at the AAF Tactical center in Orlando, Florida.

W. A. and Lucile (Callison, '39) Shulls are living at 1300 W. Bethune, Detroit 2, where he is chemist for the U. S. Rubber company and she teaches dietetics at the Grace Hospital clinic.

1939

Mr. and Mrs. J. C. Maynard (Helen Beardslee) of 5501 University, Des Moines, Iowa, report the birth of a daughter, Carey Evatt, on May 3.

Mary Hagens Fowler and her husband, Lt. Julien W., will celebrate their first wedding anniversary on September 19. Mrs. Fowler may be reached through her home address of 141 Auburn, S.E., Grand Rapids 6.

A son, Lawrence Robert, was born July 6 to Mr. and Mrs. Robert Myers of 17595 Mansfield, Detroit.

Capt. Charles F. and Margaret (Lee, '40) Pegg announce the birth of Sarah Lee on May 12. Capt. Pegg is stationed at Camp Phillips, Kansas, and he and his family are making their home at 509 W. Crawford, Salina, Kansas.

Capt. Howard R. Taylor and his wife, Lt. Mary Dodge Taylor, w'41, of the Army Nurse corps, are stationed at Gardiner General hospital at 1660 E. Hyde Park boulevard in Chicago.

1940

Dr. and Mrs. William R. Hendricks (Frances Bates) of 5766 Doerger Lane, Cincinnati 13, announce the birth of Barbara Jo on June 16.

Mr. and Mrs. Joseph J. Botwinski, of 1100 Sheldon, S.E., Grand Rapids, announce the birth of Carol Ellen on April 15.

Kathleen Thurston was born June 23 to Lt. William H. and Anne (Doyle, w'43) Mansfield.

Norris March designs and tests electronic instruments for the Chrysler Engineering division in Detroit where he lives at 18110 Stout street.

John Meyer heads the product and tool design department of the Chicago Metal Hose corporation, and he and his wife and two sons live at 376 N. Commonwealth, Elgin, Illinois.

Lt. Robert W. Richardson and Janet O'Hara were married on July 1 and are making their home in Monroe, Louisiana, where he is navigation instructor at Selman Field. In the June RECORD it was erroneously stated that Lt. Richardson had been grounded because of ear drum trouble. To the contrary, he has never been grounded and in his present work is flying as much as ever.

Carried out in typical army orders style was the cleverly worded announcement of the birth of Hillis Mairy on April 5 to Lt. Charles and Ruth Mairy (Stone, '42) Scribner, of Merced Field, California.

1941

Sarah Azlin Gerts (Mrs. Harry B.) is living at 111 N. Harrell street, Florence, South Carolina, while her husband is stationed at the Florence army air base.

For the past three years Frances Elliott has

been assistant in floriculture at Cornell university where she received her M.S. and completed one year toward a Ph. D. She is now doing research for the E. W. McLellan company in Burlingame, California, where she lives at 1224 Edgobill drive.

Margaret J. Trout and Lt. (jg) Robert W. Schafer, USNR, were married March 23. Mrs. Schafer may be reached through her home address, R. 1, Jackson, Michigan.

1942

Major Barrie Burnside has been named director of training and operations at the army air forces' vast material command headquarters at Wright Field, Dayton, Ohio. Major Burnside takes over the job with a wealth of background ranging from his initial assignment as a co-pilot with the first pre-war squadrons of B-26 Marauder medium bombers to operations officer of the 309th Bombardment wing of the Fifth Air force, and including the awarding of the Distinguished Flying Cross with Oak Leaf cluster.

Lt. Melvin W. and Glenna (Potts, '43) Correll, of Lake Charles, Louisiana, announce the birth of John Dee on May 26.

Lt. Donald L. and Helen (Watson, '41) Collins, of 904 E. 62nd St., Chicago 37, announce the birth of twin daughters on March 7.

Barbara Jean French and Charles W. Garthwaite (U. of Mich., '44) were married on April 29 and are making their home in Eau Claire, Wisconsin, at 511 S. Barstow street.

John and Virginia Ray Kline, of 1970 S. Layton, Milwaukee, announce the birth of Marjorie Marie on June 5.

Theresa McMillan, who has been Mrs. Karl Schen since April 24, 1943, is a chemist on the staff at Massachusetts Institute of Technology, and lives in Boston at 51 Park drive.

Dr. and Mrs. William R. Wicks (Genevieve Ream) of 5613 South Cottage Grove avenue, Chicago, announce the birth of Thomas William on June 5.

1943

Richard C. Ferriss and Bettie Smith were married on July 31, 1943, at Fort Stockton, Texas. He is now an officer candidate at Aberdeen Proving Ground, Maryland.

Lucille Franzen is administrative dietitian at St. Mary hospital in Saginaw.

Doris Holser and William C. Wetherbee, Jr., were married on January 2, and are living at 4350 Kingswell avenue, Los Angeles, where he is an attorney.

Lt. Ralph R. McGaw and Betty L. Miller were married on December 18, and may be reached at 585 W. Goldengate, Detroit.

Paul Olson is the new editor of the semi-monthly publication put out by the Bendix Aviation plant in Owosso. He and Mrs. Olson, the former Edith Carroll, and their two children live in Owosso at 116 E. King.

1944

Flight Officer H. Kenneth Jordon and Jane Merrill, '43, were married in East Lansing on June 13. They may be reached through 1902 21st street, Parkersburg, West Virginia.

Phyllis A. Lightfield has been named winner of the thirteenth annual Kate Neal Kinley fellowship from the University of Illinois. The award provides a sum towards expenses of a year's advanced study in America or abroad and Miss Lightfield plans to study piano in New York city.

Jane Williams is a technical assistant in the Bell Telephone laboratories in New York city where she lives at 118 W. 13th Street.

Chinese Laboratory Aided By WKAR

Although the war in China is more than 8,000 miles from East Lansing, WKAR, Michigan State college radio station, has been informed of the important role it played in providing refrigeration equipment to preserve perishables in a health laboratory in interior China.

R. J. Coleman, director of the station, disclosed how John T. Tripp, of the Sanitary Corps in the United States Army, came to WKAR last fall with a request for help in finding Icy Ball refrigerators, a unit manufactured up to eight years ago by the Crosley company for use in rural areas where electricity was not available. As this type of refrigeration was practically obsolete the possibility of locating at least four was quite remote.

A spot announcement was prepared for broadcast over WKAR, and after announcing the message ten times from November 15 through November 27, 1943, seven replies came from Michigan and one from Ohio. As a result, one double unit

Icy Ball refrigerator was purchased from the Clare (Michigan) Hardware company, and seven others were purchased from the following families: Mrs. Roy Huckins, Coral; Clarence Beardslee, Sheridan; Rudolph Schemms, R. R. 1. Frankemuth; John O. Roberts, St. Louis; H. C. Kildegaard, Gowen; C. L. Emery, Albion; and Clift Implement service, Cygnet, Ohio.

Major Tripp sailed for China on February 1 by way of India from where the rest of the trip had to be made by cargo plane flying over the Himalaya mountains. Months were required before the equipment reached China. The monsoon season, with its heavy rains, kept planes grounded in India. In a letter to Mr. Coleman, Major Tripp stated, "The health laboratory is in operation serving the Chinese army and population as well."

In expressing appreciation for the services rendered by WKAR Major Tripp stated: "Please

accept my thanks for your cooperation; I was at the end of my rope and really discouraged about refrigeration until I got in touch with you. . . . Without refrigeration there was no point in even starting, but now I have the physical set-up to carry on with my work."

From the Department of State, Washington, D. C., Charles A. Thomson, chief of cultural relations, expressed the following: "Major John T. Tripp, who has been detailed to the Department of State to prepare for a special laboratory in China, has written to me concerning his search for an old-fashioned refrigeration unit for use in China. He stated that you arranged a broadcast about this need which reached a large farm audience, and that eight replies were received from persons who were willing to sell a refrigeration unit to the government for this purpose. Your assistance to the Department of State in its effort to aid China is appreciated."

For Gallantry in Action

(Continued from Page 8)

for extraordinary achievement while serving as a navigator on a B-17 Flying Fortress on 25 bombardment missions over enemy-occupied continental Europe. He arrived in Lansing on leave the week his son, Lawrence Roy was born. His wife is the former Betty Atchison, and they reside at 225 North Butler Boulevard, Lansing.

Capt. Gough, '40

For the part he played in the big drive against Rome last spring, Capt. Geoffrey "Jeff" Gough, '40, was awarded the Croix-de-Guerre by the French Army during the last week of July, 1944.

In writing to the campus he stated he was quite surprised and excited about the award, because he never expected it. "The only trouble in accepting this award is getting kissed by a whiskery French General on both cheeks," stated Jeff. "I'd prefer a nice little signorina." He reports he is neither dead, lost, nor missing in action, he's simply too nervous to be hit. He admits having some close calls, however, and is at present in the vicinity of Florence, Italy.

His message states that he had a grand Michigan State bull-session in Rome with Johnny Chambers, '40, who happened to be night manager of the Grand Hotel there which has been taken over by the Army. He has also met Lt. Col. Charles Pearson, '38, and Major Charles Gibbs, '39. His wife, the former Keith Riddlebarger, is now at Northwestern university, Evanston, Illinois, doing graduate work in radio and speech.

Lt. John R. Telford, w'44

A recently decorated East Lansing officer, bombardier on a Liberator, is missing after more than 22 missions over Germany. He is Lt. John R. (Dick) Telford, who, after six weeks overseas duty, was awarded the Air Medal and first Oak

Leaf Cluster by Major General James Doolittle. Lt. Telford is the son of Mr. and Mrs. J. M. Telford, 425 Division Street, East Lansing, and was attached to the Eighth Air Force in England. He enlisted in February, 1943, and received his wings at Midland, Texas, in October, 1943.

Lt. Harold H. Curtice, w'41

First Lt. Harold H. Curtice, w'41, a navigator with the United States Army Air Forces, who is a prisoner in Germany was recently awarded the Air Medal and three Oak Leaf Clusters for 22 missions over enemy territory with no regard for his life. Lt. Curtice's wife lives at 618 N. Fairview Avenue, Lansing, and his parents, Mr. and Mrs. LeRoy J. Curtice, live at 531 Pacific Avenue, Lansing.

Ensign Joseph Ruwitch, '41

Word reached the alumni office in June concerning the activities of Ensign Joseph Ruwitch, U.S.N.R., '41, who is serving in the South Pacific with his classmate Ensign Frank Karas, '41. The citation for Ensign Ruwitch reads in part: "for conspicuous gallantry and intrepidity in action while serving as the First Lieutenant of a tank landing ship during operations against the enemy at Vella Lavella, British Solomon Islands, on August 1, 1943. Ensign Ruwitch led the firing and mooring party from his vessel as it went alongside a similar ship which was exploding and burning. With complete disregard for his own safety, he worked in close proximity to exploding ammunition and gasoline and voluntarily led a party to the tank deck where they successfully fought the blaze amidst burning gasoline cargo." Ensign Ruwitch entered State from Norway, Michigan.

In Action — Somewhere

(Continued from Page 13)

Capt. Merwyn Plumley, w'37

Capt. Merwyn Plumley, w'37, of Nashville, Michigan, recently visited his parents after returning to California where he was hospitalized for a leg injury received in the important raids with Carlson at Makin island. As a member of the marines he has seen action in important raids in the Solomons and New Guinea. He was awarded the navy cross by Admiral Nimitz for his part in the Makin island raid, and the medal of honor, with a citation from President Roosevelt, for action at Guadalcanal.

Lt. Paul E. Kenney, w'43

Mr. and Mrs. M. E. Kenney, 1139 River street, Lansing, have been notified that their son, Lt. Paul E. Kenney, w'43, has been awarded the Air Medal, somewhere overseas, where he is a bombardier on a Flying Fortress.

First Lt. Stover, w'41

First Lt. Merton J. Stover, w'41 of Berrien Springs, Michigan, damaged an ME 109 on a recent bomber escort mission to the Berlin area.

"As an ME 109 crossed in front of me," he said, "he started down, and I followed. As I was closing on him I looked behind and saw another 109 closing on me. The one to my rear was out of range, but he was firing. I started to turn into him, and as I did I got two strikes on my Mustang. I out-turned the 109 and he started to hit for the clouds. But before he got into the layer I got in two short bursts, which I saw register on the fuselage. I lost him in the clouds."

Lt. Stover, who also is flying to France, is helping to extend the ground already gained on the continent by seeking out enemy aircraft and engaging them in combat, by providing escort protection for heavy bombers, by bombing and strafing ground installations, convoys, airfields and other targets, and by providing cover for Allied troops.

He attended Benton Harbor High School, from which he was graduated in 1936, and spent three years at Michigan State College. From July, 1942, to December, 1942, he was a second lieutenant in the cavalry. He took his primary flight training at Hicks Field, basic at Randolph Field, and advanced at Mission, all in Texas. He won his wings on December 13, 1942. He was advanced to first lieutenant on July 24, 1943. He is now a member of the Eighth Fighter Command Mustang group commanded by Col. Joe L. Mason, of Columbus, Ohio.

Mrs. Stover, the former Ellen Butler, w'41, lives at 709 Crystal avenue, Crystal Falls, Mich.

Major Appointments

(Continued from Page 12)

concert work and practice in New York City. Professor Dumesnil is a famous conductor and lecturer and has appeared with orchestras and in recitals all over Europe and in South American countries.

Mrs. Isabella Gonan was named assistant counsellor for women in the office of Elisabeth W. Conrad, counsellor for women. Mrs. Gonan, who arrived September 1, comes from Shelburne Falls, Mass., where she was personnel director for two years in a business firm. She holds degrees from Mt. Holyoke and Smith colleges and has studied at la Sorbonne in Paris.

Dr. Charles Schoff has been named assistant physician in the college health service. Dr. Schoff, who replaces Dr. L. M. Folkers, came from the Lansing Sparrow Hospital and the Ingham County Sanitarium where he interned the past year. Dr. Folkers recently resigned to accept a position at Stephens college, Columbia, Mo., as director of the health service and acting chairman of the division of health education.

W. Lowell Treaster has been appointed extension editor in the department of publications. Mr. Treaster, who replaces E. B. Swingle, who resigned recently to accept a public relations position with Carl Byoir and Associates, Inc. in New York, has arrived on the campus from Kansas State College where he was assistant extension editor. Previously, for ten years, he had held writing and executive positions on several Kansas newspapers.
