OCTOBER 1946

# Around the Campus with the Editor:

As you've been reading about the extensive construction program now under way on the campus perhaps you've been more than a little worried about how it will affect the beautiful campus of which we all are so proud.

Those of you who may have had an opportunity to visit the campus in the past few months probably are even more worried about it. You've seen steam shovels digging in odd places, and bulldozers shoving dirt all over the place. You've seen pavements, grass and sidewalks torn up, apparently indiscriminately.

If you've observed very closely, however, you may have noticed something more. In one case, for instance, there was a steamshovel digging up dirt, and not more than 50 feet behind it was another filling the newly made ditch up again. But, in between, the necessary work was being done.

In several cases, too, pavement that was torn up less than three weeks ago already has been repatched and is as good as new. Trees and shrubbery are being protected as well as possible to provide a nucleus for future plantings that will bring the campus back to normal.

Harold W. Lautner, 1925 graduate of Michigan State, who returned to the campus last spring as head of the department of landscape architecture and campus landscape architect, has a word of assurance for us that we'll still have a beautiful campus despite the many new buildings.

"The beauty of the campus," he says, "has not been harmed by buildings built in the past and there is no indication that the new buildings will harm it now. Just the reverse is true. The new permanent buildings will add immense possibilities in site planning design."

As you stop to think about it you'll no doubt agree that the beauty of the campus hasn't been just its trees, shrubbery and gardens. The buildings themselves always have been an important part of the overall picture. The buildings, the roads and the sidewalks all have been blended into the beautiful campus that lies beside the winding cedar.

Next issue, by which time it is expected that all construction in the South Harrison road area is completed, we hope to present an aerial view showing just what has been done over there. You'll note how even in the temporary areas the buildings have been laid out along curving roads, with wide, open areas for recreation.

Incidentally, we said something about the campus BESIDE the winding cedar a couple of paragraphs back. You'll note elsewhere in this issue that the new agricultural engineering building is going up south of the river, the first academic building down that way.

If that develops into a trend, and well it may, maybe some day we'll have to change the phrase to something like "ASTRIDE the winding cedar."

—S—

One of the most gratifying things about the college to an alumnus of my day returning to the campus is the calibre of the faculty and the accomplishments of many of its individual members.

I'm thinking offhand of some who have been in the news most recently—such as Dr. Nye, new division and department head who won a Pulitzer prize in 1945 for his biography of George Bancroft; or Dr. Richard M. Dorson, of the history department, who recently published a book on New England folklore and is now studying Michigan's Upper Peninsula in preparation for another book on that area.

Also Dr. Williams and Dr. Hoppe of the English department have had work accepted for publication, as noted elsewhere. There are many others, too, but these are in the current news and come to mind at the moment.

Dr. Dorson, particularly, I'd like to mention for it is quite possible many of you could give him a lift with his work. He is in charge of the Folklore Archives of the college and is seeking folklore of the whole state. Perhaps you can send something in to him. He'll be glad to have it.

Speaking of folklore, our own campus has its share of it. The RECORD would be glad to run material of that type, space permitting, but some one, of course, has to send it to us.

Maybe it should be mentioned that folklore doesn't necessarily have to be old. Many incidents of college life in recent years eventually will become the subjects of future reminiscences, and would provide interesting material even now. We ourselves might some day tell the story of the goal posts at Ann Arbor and how it happened they fell so easily just 10 years ago this fall. And, to mention a couple of names, maybe Dave Christian or Fred Belen would like to tell about their bright idea for an extra float for the 1937 Water Carnival. Maybe not, too.

Anyhow, drop us a line about the days you spent here and some of the things that made life interesting at M.S.C. or M.A.C. And, by the way, send such material directly to the editor—as listed in the box below.

—S—

Many of you who were here in the days when the enrollment was in the three to six thousand bracket must think of this new 13,000 total with awe—particularly, if you think of the registration procedure.

Remembering the kind of schedules the late comers used to get in those olden days, one can't help but sympathize for those coming from 10,000 on up nowadays.

Hero of the week almost must be Kermit Smith, assistant registrar, who always seemed able to find time and space for the many new sections required because of the unheralded number of students.

# "We Wouldn't Have It Otherwise"

Thus did President John A. Hannah express the willingness of Michigan State College to stretch its facilities to the utmost to accommodate the greatly increased enrollment this fall. He was speaking to the convocation for new students at the opening of freshman week on September 23.

President Hannah explained to the new students that the college had never had more than about 7,000 students at any one time prior to the war. An all time high of 8,000 was reached last spring. He added that more than 10,000 were expected to register before the close of that week.

"We wouldn't have it otherwise," he said. "There have been five years when the education of young men has been interfered with by the war, and now there is that great accumulated backlog of veterans wanting to come to college, partially subsidized by the government.

"It was obvious last spring that we were not going to be able to take care of all the students who wanted to come to Michigan State College, but we decided we would take care of all the veterans we could.

"Michigan State College has spent a great deal of money and a great deal of effort trying to do everything it could to be ready for you, and in spite of it all we are not 100 percent ready."

\* \* \*

Maybe Michigan State College was not 100 percent ready for the 10,000 expected students on September 23.

But on September 30 Michigan State College started its fall term class work with 13,045 students—and, all things considered, was doing very well.

True, everyone was not housed in normal quarters, eating was a difficult problem for nearly everyone, some classes were held at odd hours, and teaching staffs were working somewhat more than overtime. But the adoption of many emergency measures helped solve the many problems, and whole-hearted cooperation from all concerned made things run much more smoothly than anyone anticipated.

Dr. Hannah had warned that everyone would have to put up with inconveniences and hardships for a few weeks, but pointed out that it was no fault of the college. Michigan State, with 5,000 more students than it had ever had at one time before, was fulfilling its responsibilities

to the people of Michigan and their children seeking a higher education.

## The Student Body

The registrar's office on October 10 reported that 13,045 students had registered. Of this number 9,693 were men, and 3,352 were women. Although a definite count had not been made it was estimated that 8,000 were veterans. The proportion of three men to one woman is almost the reverse of what it was at times during the war.

The students started to register on Wednesday, September 25, and at the end of the first day it was obvious that early estimates of 10,500 total were low. Approximately 3,900 students registered that day. The total had swelled to nearly 7,600 on Thursday and over 11,000 Friday night. Saturday morning registrations brought the total to 12,832. Latecomers made the total 13,045.

Previous fall term high was in 1940 when 6,776 enrolled. Previous high for any term was last spring when registration week saw 7,954 enrolled, although full year short course students, registered earlier, swell the spring term total to more than 8,000.

## Where They Live

When the war ended in August, 1945, college officials realized it wouldn't be long before great numbers of students would be seeking admission to Michigan State. And the first and foremost problem to be met was that of housing.

In the fall of 1945 fewer than 3,000 students were housed in college-operated housing. There were no wives or children at that time, but it was obvious that many returning veterans intended to bring their families to the campus with them when they returned to school.

At the start of the fall term this year 5,300 students lived in college housing, in addition to nearly 600 dependents. About 900 men and women lived in fraternities and sororities. Approximately 2,000 students lived in their own homes or with relatives. The remainder, or nearly 5,000, are living in rented quarters in Lansing and East Lansing. Appeals to residents of those cities to open rooms for student occupancy drew an excellent response. The cooperation of homeowners did much to alleviate the housing shortage.

Other housing projects now under construction probably will be ready for occupancy by January 1. Two former army hospital units will house 240 men when completed. These probably will be moved from Jenison gymnasium, where 524 men are now housed.

More of the 11 permanent apartment buildings will be completed, and made available for student families. Ten families are now housed there. The 300 former army barracks, not occupied at present, should be complete by January 1, providing housing for 1,148 families.

Snyder and Phillips halls for men are expected to be completed early in the winter. They will house more than 1,200 men. Three women's dormitories, Elida

---

## HELP! HELP! Textbooks Are Badly Needed!

The large enrollment at Michigan State College has created a serious textbook shortage. The situation is serious throughout the nation, so that textbook publishers can promise no immediate relief. Meanwhile, many students must resort to makeshift methods to study classroom assignments in textbooks.

Maybe you as alumni have some textbooks that will help. You are urgently requested to send ANY textbooks you may have to:

Michigan State College Book Store  
Veterans Books  
East Lansing, Michigan

Note: Use book rate postage. It's cheaper. Do it now!  
The books will be distributed to veterans, free of charge.

Yakeley, Linda Landon, and Maude Gilchrist also are progressing. It is hoped that one will be ready by winter term, thus permitting the enrollment of more freshmen women.

Upon completion of all present building projects the campus will house more than 9,200 students. Including faculty members in college-operated housing, and the dependents of both student and faculty groups, the "city" of Michigan State College will have a resident population of more than 12,000 persons—four times what it was a year ago.

### Where They Eat

When the 13,000 students descended on the campus this fall, the question of eating became even more of a problem than that of housing. Additional rooms were unearthed in Lansing and East Lansing, but finding additional places to eat wasn't that simple.

The Union building cafeteria is now closed to all except students and staff members. Also, the Union is operating a boarding club of about 450 members. In the Quonset Village a large Quonset dining hall was constructed, but its facilities were not complete as school opened. As a result food had to be cooked downtown and brought out for serving. However, within two weeks after opening of classes the dining hall was operating on its own.

Odd hours for classes, running from 7 a.m. to 10 p.m., through both lunch and supper hours, caused changes in dormitory and other eating schedules. Breakfast is served from 6:30 to 8, lunch from 11 to 1:15, and supper from 5 to 7:15. East Lansing restaurants also are crowded with students and faculty members seeking food.

### Where They Learn

Classroom space was at a premium when original schedules were set up to provide for an expected 10,500 enrollment. But as the 13,000 students poured through the registration mill, more and more sections were added, and somehow, Kermit Smith, assistant registrar, always seemed to find vacant hours and classrooms.

About 300 sections were added to the original program. Many sections were increased in size to provide for more students. The college rented two rooms from the Peoples church to be used as classrooms for the remainder of the fall term. In addition, the Federal Public Housing authority has granted the college a group of metal barracks, seven of which when completed will be used for classrooms.

Last stop in the registration line was the nurses' tables where every student had the opportunity to receive an immunization shot for influenza. While it was not compulsory, nearly all gladly took the shots. Here, Esther Schuur, Decatur sophomore, is given the needle by Mrs. Mary Lou Schepers, of the college hospital staff.

The Horticultural building is a typical example of a crowded campus building. For example, Room 206, the large lecture room, is in service 61 hours of the week. Other rooms in the same building, 208, 103 and 306, are in use 68 hours each week.

This is made possible by addition of many 7 a.m. classes, and stretching the day to 10 p.m. This makes a full 15-hour day with many classes scheduled for the 12 to 1 and 5 to 6 hours which are normally reserved for eating.

### How They Study

Textbooks offered another problem. Bookstores ordered books for 10,500 students last spring. Most of those orders have been filled, although a few are still en route. But the textbooks needed for the additional 2,500 students necessarily were not ordered until late. Publishers make no promises for delivery, citing various reasons for delays.

## ON THE COVER

The Michigan State College marching band of 80 pieces made its first appearance at a football game in four years on October 5, at the Boston College game. Drum major was James Dye, Saginaw freshman.

This has caused problems for Jackson Towne, librarian. Already faced with the need for handling assigned reading for 13,000 students in a room with a seating capacity of 140, the library was given the added burden of handling textbooks through the assigned reading room. In this way a number of textbooks are made available to the students, but not in a satisfactory way.

It is hoped that an addition to the library can be started in the near future to provide a much larger room for assigned reading, and also additional stack space.

### The Faculty

The faculty is faced with heavy schedules, a large part of the staff carrying excess loads because of the high enrollment. Additional teachers have been recruited wherever possible, but new teachers from outside in many cases have hesitated to come to East Lansing because of the housing situation.

Many wives of faculty members, as well as of local business men and teachers, have been added to the staff. Many of these persons hold advanced degrees and have taught previously in higher institutions.

\* \* \*

Michigan State is making every effort to provide adequate educational facilities for its 13,000 students, in spite of its many problems. It is probable that the enrollment will go even higher for winter term. Completion of housing projects and classroom buildings now under construction will do much to alleviate many of the difficulties encountered this fall.

## City and College Approve Campus Fire Station

Construction on a temporary fire station has been started on the northwest corner of South Harrison road and Kalamazoo streets, following an agreement reached between the State Board of Agriculture and the City of East Lansing.

Improvement of fire protection has been made necessary by the rapid expansion of the college, and particularly by the large area of temporary housing along South Harrison road. The fire station will serve the entire campus.

New equipment is to be purchased, including a modern fire fighting truck. The fire department will be under the supervision of the East Lansing fire department, which will hire the personnel.

The temporary building now under construction will be replaced later by a permanent building when needed materials are available.

# Homecoming November 16!

Yes, the welcome sign will be out for all alumni on November 15 and 16 for the first big homecoming celebration since pre-war days. Feature event of the two days, of course, will be the clash between Coach Charley Bachman's Spartans and the Hilltoppers from Marquette in Macklin Field on Saturday afternoon.

There'll be plenty of opportunity for the returning grads to work off pre-game steam on Friday night. Students of the college are planning a mammoth pep rally starting at 7 p.m. With a student body of 13,000 filled with undergraduate enthusiasm it shouldn't be too difficult for the alumni to get back into the swing of things.

Then at 9 p.m. comes the major event of Friday night, the annual stag smoker downtown. This event, held in the main ballroom of the Hotel Olds, is jointly sponsored by the Alumni Varsity club and the Central Michigan Alumni club. This has always been a popular feature of homecoming weekend.

The Saturday morning program is featured by an increasing number of departmental open houses. A look at the complete schedule in the columns to the right shows that music, engineering, agriculture, veterinary science, home economics, dairy, and journalism grads may meet their colleagues at department headquarters. The dairy group will hold a breakfast in the forestry cabin at 8 a.m.

Fraternities and sororities, operating on a more normal basis this fall, will go all out in decorating their homes for the day.

Just prior to the football game on Saturday afternoon, the Varsity club will hold a memorial service at the entrance to Macklin field. This will take place at 1:30.

Saturday night's big event is the Homecoming dance in the college auditorium. This starts at 9 p.m. and Glen Stewart warns everyone to make ticket reservations in advance. Tickets will be limited to 1,500 couples, and that enrollment of 13,000 should be fair warning that tickets probably will not last long.

Throughout the weekend, of course, there will be the usual informal gatherings at fraternity and sorority houses. Other special groups will be holding parties.

Yes, the "WELCOME, ALUMNI" sign will be out, and the program that Glen Stewart has arranged proves the college means it. It'll be a big day for everybody—except Marquette.

"Back in Step with Spartan Pep"  
**WELCOME  
ALUMNI**

## *Program*

### Friday afternoon, November 15

- 2 p.m. on —Alumni registration in Union Lobby—first floor.
- 2:00- 4:00—Campus motor tours as arranged by Alumni Relations Office.  
Get ticket at registration desk in Union Lobby.
- 4:00- 7:00—Dinners—Informal, at organized houses.

### Friday night

- 7:00- 8:00—Pep rally at the West Door of Union Memorial Building.
- 9:00-12:00—"Stag" Smoker—Joint entertainment by Alumni Varsity Club and Central Michigan Alumni Club—Main Ballroom, Hotel Olds.
- 9:00-12:00—Mason-Abbot Hall Dance—Closed party—Auditorium.

### Saturday morning, November 16

- 8:00- 9:00—Dairy Alumni Breakfast—Forestry Cabin.
- 9:00-12:00—Alumni registration in Union Lobby—first floor.
- 9:00 on —Open houses for Music, Engineering, Agriculture, Veterinary Hospital, Home Economics, Dairy, Journalism at department headquarters.
- 9:00 on —Campus motor tours as arranged by Alumni Relations Office. Get tickets at registration desk in Union lobby.
- 10:00 —Fraternity and Sorority Houses decorated. Judged at 12:00 noon.
- 12:00 noon —People driving to East Lansing for the day are requested to bring their own box lunches.

### Saturday afternoon

- 1:30 —Varsity Club Memorial Service—Entrance Macklin Field.
- 2:00 —Football game between Michigan State and Marquette—Macklin Field.
- 4:30 —Informal alumni gatherings in organized houses.
- 9:00-12:00—Homecoming Dance in College Auditorium. Everyone invited. Price \$3.00 per couple, inc. tax.
- 9:00-12:00—Pan Hellenic Club Dance—Closed party—Union Ballroom.

**NOTE:** The Union cafeteria is not serving meals to the public this year.  
All East Lansing eating places are over-crowded.

The advanced ticket sale for the Homecoming game is the largest ever known. Send your check to L. L. Frimodig, athletic department, for tickets—all reserved seats \$2.40 each, including tax.

The HOMECOMING DANCE may be sold out in advance—graduates and former students who send checks to Glen O. Stewart at the alumni relations office, Box 551, East Lansing, Michigan, will be guaranteed tickets up to November 12. Tickets are \$3.00 per couple, including tax.

# Alumni Voice Support of Memorial

Preliminary work has been started by the Department of Alumni Relations on the task involved in the distribution of Memorial Center information to the alumni body and the reception of pledges in support of the project. Newly appointed as assistant director of the department is Joseph K. Goundie, Jr., '41, a member of many campus organizations while a student and a recently discharged Army Air Forces veteran of the Pacific theatre.

In his new position, Goundie will assist Glen O. Stewart in the coordination of plans for the project. Already he has received many requests for informa-

tion concerning the memorial, as announced in the July RECORD. The Memorial Center is to include an International House and a Memorial Chapel in a formal garden setting, located on the high ground just east of the Beal Botanical Gardens.

Within the near future complete information about the Center will be sent to every graduate and former student. The information will give descriptions and sketches of the Memorial Chapel and International House, discuss the memorial opportunities in each building which are suitable for individual dedications, and outline how each Michigan State man and

woman may play a part in the building of the Memorial Center.

Ralph R. Calder, consulting architect of Detroit, who has been associated with the construction of some of the new buildings on the campus, is completing drawings of the memorial. Mr. Calder has said that the site chosen lends itself excellently to the work of landscaping.

More than 6,300 former students of the College served in the armed forces during the war. The list of war dead to be honored by the memorial now numbers 326.

Below are statements in support of the project voiced by three members of the alumni body.

"There is evidence today of a growing spirit to attach oneself to objects of permanence and of worth. The men and women of our Alma Mater have caught this spirit. From villages and towns and cities throughout this country and in foreign lands have come letters of approval of the Memorial Center plan. It is a spontaneous expression of a willingness on the part of these graduates and former students to accept their inheritance from our war dead.

"I have long felt that the proposal of a worthy project on campus would receive unbounded sup-

port from the alumni body. My belief has been sustained. When the work on the Memorial Center has been completed and two buildings stand overlooking the beauty of the Beal Gardens, there will be more than a dedication to good will among men and nations—there will be proof that in the hearts of alumni and friends was a feeling that this dedication be made to those who gave to us, the living, another chance to achieve that good will."

—E. B. More, '16,

Chairman of Alumni Advisory Council

"I am sure the feeling I had when I first learned of the proposed Memorial Center was shared by many alumni. It seemed we had waited a long time for an opportunity to do a real job together. The idea of a chapel, together with an International House, located on a beautiful spot on the old section of campus, appeared to be just the right theme for a living memorial. And the only financial program which would ever give us these two buildings, since they possess no source of income, would be one of alumni support.

"Our class lost Royce A. Drake who was killed on the Leyte beachhead while serving as a colonel with the famed First Cavalry division. We shall never forget Colonel Drake and the other men of Michigan State who gave their lives in World War II. It is fitting that we build in their honor a Memorial Center which looks to the past with reverence and respect and faces the future with intelligent faith in the better world they held so deep in their hearts."

—June Ranney Lyman (Mrs. Richard P.) '27

"Three hundred and twenty-six Michigan State men died in the service of their country during World War II. It is to these men that we owe a debt.

"The men of the American forces became known everywhere as friendly ambassadors of a wonderful country. Yet, as they made friends with Icelanders and Burmese, with Australians and Belgians, they found it difficult to understand the failure among nations to establish sincere and direct relations. The work of the Inter-

national House will help us fulfill their wish. And, in the Memorial Chapel nearby, connected to the International House by a covered walk, Michigan State men and women will worship in their own edifice, dedicated to those who said their last prayers in the black jungles of the Solomons and the rain and mud of the Italian front.

"I feel that the building of the Memorial Center is as fine a project as we can undertake in their behalf."

—John S. Pingel, '39, Assistant Football Coach

# Three New Buildings Are Started

Work on three more academic buildings with an estimated cost of \$2,225,000 was started on the campus late in September. Completion of the three projects, physics, electrical engineering, and agricultural engineering, will do much to alleviate existing shortages of classroom and laboratory space.

Ground was broken September 17 for the new physics building, largest of the three. Costing an estimated \$1,000,000, it will be two stories high with basement, and will contain 1,000,000 cubic feet of space. It is to be located immediately east of the anatomy building in the eastern section of the main campus.

This will provide modern quarters for the departments of physics and astronomy and mathematics. For many years the physics department has been housed in one of the oldest buildings on the campus, originally constructed as a chemistry laboratory and remodeled many times since. The mathematics department for several years has been in Morrill hall, formerly the woman's building.

The new electrical engineering building has been started south of the chemical engineering building. This building will have a ground floor and three additional stories, and will contain 850,000 cubic feet of space. It will cost an estimated \$750,000. Removal of the electrical engineering department from the R. E. Olds hall of engineering, will provide additional space for the civil and mechanical engineering departments.

The third of the new projects, the agricultural engineering building, will be one of the first academic structures to be located south of the river. It will be built along Farm Lane road on the present site of the work horse barn. The latter now is being moved to another site.

This building will have a ground floor, two stories in the front and one in the rear. The estimated cost is \$475,000.

All three projects are expected to be completed for the opening of fall term in September, 1947. The Reniger Construction company of Lansing is the contractor for the physics and agricultural engineering buildings, and the Christman company, of Lansing, will do the general contracting work for the electrical engineering building.

Other general projects now under construction include the classroom building, which is being pushed to completion to provide essential classroom space. This building, a \$1,000,000 structure located across the road from the Horticultural

Three of the buildings now under construction on the campus are pictured in this view. In the lower right is the classroom building. Its 53 classrooms, seating 3,204 students at once, will do much to alleviate shortage of classroom space when completed around January 1, 1947. Just to the left is the home management laboratory and in the upper left hand corner is the basement of the Natural Science building, which will not be completed until fall of 1947.

building, will have 53 classrooms with a seating capacity of 3,250. It is hoped it may be completed by winter term, or at the latest in time for opening of spring term.

Largest of all buildings on the campus will be the Natural Science building when completed. Costing \$2,000,000 this building is to be 704 feet long. It is located just east of the Dairy building, and is designed to follow the curve of the road. It will house the departments of botany, entomology, zoology, geology and geography, and Basic College science departments.

The construction already started also includes a home economics home management laboratory, next to the classroom building, a food stores building and a power house, both just east of the stadium south of the river, and an addition to the Administration building.

In the near future the construction program calls for a two million dollar addition to the Union Memorial building and a conference-hotel building. Somewhat later, it is expected that additions to the Home Economics building and the Library will be constructed.

## 728 Graduate Students

Dean Ralph C. Huston, of the School of Graduate Studies, reports that 728 students enrolled for graduate work at the college this fall. Of the number, 73, or approximately ten percent, are from foreign countries.

## Extension Service Sponsors Rural Caravan Again

The Michigan State College extension service will sponsor another Caravan starting in January, 1947. The tour—which will center around better rural living—will visit every county in the lower peninsula. Last year's Caravan was visited by 93,000 persons—nearly double the expected attendance.

James G. Hays, '11, of the emergency farm labor office, has been named as director of the Caravan tour. George Amundson, of the agricultural engineering department, directed the tour last year and remains as chairman of the Caravan committee.

## Atoms on the Campus

There are times that parts of the Michigan State campus may look as though an atomic bomb had spread its destruction. But Dr. Ralph A. Bowersox, associate professor of physics and astronomy, reports that there was only an inconsequential increase in radioactivity in the college area at the time of the first atomic bomb test at Bikini, on July 1.

The increase amounted only to about 6 or 7 percent, Dr. Bowersox said, and, so far as physicists are concerned that is hardly conclusive. He estimates that an increase of more than 900 percent would have been necessary to affect any of the human beings in the area.

Pictured is the group of 11 permanent apartment buildings named for former students who were killed in World War II. Left to right in the front row are the buildings named for Joseph A. Pelton, William T. Rafferty, Arthur J. Howland, Robert L. French, and Robert Parker. In the second row the nearly complete building on the left is named for Arthur K. Ungren. To the right from that are those named for Joseph L. Bale III, Royce A. Drake and Robert T. Bauman. Parallel to the front row in the rear may be seen footings for the buildings named for Carol N. Frang and Edwin B. Crowe.

## Five Alumni Heroes Honored

Names for the second group of five permanent apartment buildings now under construction on the campus were approved by the State Board of Agriculture at its September meeting. As in the case of the first group of six buildings the apartments will be named for former students who lost their lives in World War II.

Those whose memories will be thus honored are:

Joseph Louis Bale III, of Detroit, class of '46. He was private first class in the army and was killed in action in France on January 30, 1945. While in college he was enrolled in physical education. While serving in the army he was awarded the Distinguished Service Cross.

Royce A. Drake, of Ypsilanti, class of '27. As a colonel in the army he was killed in action on Leyte island in the Philippines in October, 1944. He won the Silver Star and the Legion of Merit. He graduated from Michigan State in veterinary medicine. Turning to military life he became an officer in the Regular Army and was stationed at the college as an R.O.T.C. instructor for some time. An American military installation near Tokyo also has been named in his honor.

Robert T. Bauman, of Lansing, class of '43. A first lieutenant in the army, he was killed in action in Germany in November, 1944. He was awarded the Silver Star medal and the Bronze Star medal. He was enrolled as a liberal arts junior when he left to join the army.

Carol N. Frang, of Parma, class of

'42. A first lieutenant in the army air forces, he was killed in a B-29 crash at McAlester, Oklahoma in August, 1945. He received the Distinguished Flying Cross and the Air Medal with four clusters. He graduated in engineering.

Edwin B. (Ted) Crowe, son of Dean and Mrs. S. E. Crowe, East Lansing, class of '40. He was a major in the army air forces and was lost in action off Japan in June, 1945. He won the Distinguished Flying Cross and the Air Medal with two clusters. He was a hotel administration graduate.

The first group of six apartment buildings were named for Arthur J. Howland, '41, Joseph A. Pelton, '36, William T. Rafferty, w'42, Robert L. French, '43, Robert Parker, w'43, and Arthur K. Ungren, '32.

## Metal Barracks Provide Classroom Space

The acute classroom shortages on the campus will be alleviated to some extent by the erection on the south side of the river of 12 temporary steel barracks furnished to the college by the Federal Public Housing Authority. These will be located on the west side of Farm Lane road just south of the river road.

Seven of the 12 buildings will be used for classrooms, providing at least nine rooms which are expected to be ready for occupancy by the middle of the fall term.

## Three Scholarly Treatises By Faculty Members On Book Lists

Three members of the faculty recently have had books published or have had them accepted for publication. In one case, the proposed publication is to be assisted by a direct grant of \$1,000 by the State Board of Agriculture, first such grant ever made at the college.

"The Common Expositor," a study of scriptural commentary in the Renaissance period, written by Dr. Arnold L. Williams, assistant professor English, is to be published by the University of North Carolina Press.

In the belief that this book exemplifies the type of scholarship which the board likes to encourage among members of the faculty, the State Board of Agriculture authorized the \$1,000 subsidy to cover the costs of publication. The book is considered the most exhaustive study yet made in its field.

The book tries to fix the part that the Book of Genesis played in the thought of the Renaissance period, dealing particularly with the contributions of the commentaries of that time to the culture of the period. Besides a detailed account of the contents of the commentaries the book studies the relations between the commentaries and science, literature, political and economic thought and other fields.

Dr. Harry R. Hoppe, also an assistant professor of English, has had his book, "The Bad Quarto of Romeo and Juliet," accepted by publication as the next volume in the Cornell Studies in English, published by the Cornell University Press.

Dr. Hoppe's work attempts to explain the differences between the first and second editions of "Romeo and Juliet." The book lays the blame on the poor memory of some actor or actors who had played in a performance of the tragedy. Much of the basic research for this study was done by Dr. Hoppe in European libraries.

Dr. Richard M. Dorson, assistant professor of history and political science and now in charge of the college folklore archives, had his book on New England folklore, "Jonathan Draws the Long Bow," published in August by the Harvard University Press.

Dr. Dorson's book is based on his own search through old almanacs, newspapers, town histories, and periodicals of the New England area. The work originally formed his doctorate thesis. He now is studying Michigan's Upper Peninsula and its folklore in preparation for writing a book on that section.

Pictured are new division and department heads, appointed since the close of spring term. Left to right, they are: Dr. Russel B. Nye, director of the division of language and literature and head of the department of English; Dr. Thomas H. Osgood, director of the division of physical sciences; Dr. Hermann H. Thornton, head of the department of foreign languages; and Dr. Harold H. Anderson, head of the department of psychology.

## Board Appoints Staff Heads

At its August and September meetings the State Board of Agriculture appointed three new department heads, and designated one of them to head a division. In addition, the board also established a separate department of psychology. Formerly psychology and philosophy were combined in one department.

Dr. Russel B. Nye was named head of the department of English in August and director of the division of language and literature in September. In both positions he succeeds Dr. Ben Euwema, who resigned to accept a position as dean of the School of the Liberal Arts at Pennsylvania State college. The division includes Dr. Nye's own department, as well as the departments of speech, dramatics and radio education and foreign languages.

Dr. Nye came to Michigan State in 1940 as an instructor, became an associate professor in July, 1945 and a professor in April, 1946. He received his A.B. degree from Oberlin college in 1934 and his M.A. and Ph.D. degrees from the University of Wisconsin in 1935 and 1939, respectively.

In 1945 he received the Pulitzer prize for his book, "George Bancroft, Brahmin Rebel," designated as the best biography written in 1944. Dr. Nye wrote this book under an Alfred A. Knopf fellowship, and now is working under a fellowship from the Rockefeller Foundation, making a study of civil liberties during the anti-slavery controversy.

Dr. Hermann H. Thornton was appointed head of the department of foreign languages, succeeding Prof. L. C. Hughes, retired. The appointment will be effective January 1, 1947, when Dr. Thornton will come here from a position

as professor of Romance languages at Oberlin college, Ohio.

Dr. Thornton received his A.B. degree from Wittenberg college, Springfield, Ohio, and his A.M. and Ph.D. degrees from the University of Chicago. He studied for a year at the University of Paris, France, and did post-doctoral study at Harvard university. He has taught in summer sessions at the University of Chicago. He is a native of Michigan, having attended high school in Battle Creek.

Dr. Harold H. Anderson was named professor and head of the department of psychology, which formerly was a part of the department of philosophy and psychology. Dr. J. M. DeHaan will continue as head of the department of philosophy.

Dr. Anderson comes to Michigan State from the University of Illinois where he has been associate professor of psychology since 1936. He received his A.B. degree at Harvard university, and his doctorate at the University of Geneva, Switzerland.

The opening of fall term finds one other new division head appointed since the close of spring term. Dr. Thomas H. Osgood was named director of the division of physical sciences at the June board meeting. He replaced acting director Dean R. C. Huston, who continues as dean of the School of Graduate Studies.

### Spartan Reactivated

The Spartan, campus humor magazine, returned to the college during registration week with its first issue of the new school year. Appearance of the publication terminated an absence of two and one-half years. Dave Lucas, East Lansing junior, edits the magazine.

## Board of Agriculture Accepts \$9,980 For Research Aid

Gifts totaling \$9,980 were accepted by the State Board of Agriculture at its August and September meetings.

Largest single gift was the \$2,500 given the college by the A. M. Todd company, of Kalamazoo, to be used for the continuation of mint research by the department of botany.

The American Cyanimid company of New York city gave \$1,500 for continuation of research on defoliation problems of nursery stock being conducted by the department of horticulture.

The Research Council of the American Veterinary Medical association gave \$1,500 to be used to pay the expenses of Howard W. Dunne, a graduate fellow, to carry out investigations on enteritis in swine.

The Parke, Davis company of Detroit gave \$1,400 to cover costs of research work being carried on in the department of chemistry on development of a new method for determining potency of vitamin D materials.

The Grand Rapids Real Estate Board gave \$600 for two tuition scholarships in the new curriculum in real estate. The LaVerne Noyes estate gave \$480 to be used for LaVerne Noyes scholarships.

The entomology department will conduct research in the use of DDT under a grant of \$600 from the Michigan Chemical corporation of St. Louis, Michigan. The American College of Dentists gave \$500 for a continuation of research work in connection with inheritance factors relating to dental caries.

Financial assistance was accepted from two companies to make studies of mildew of onions. The B. F. Goodrich Chemical company of Cleveland gave \$300, and the Dow Chemical company of Midland \$400. The Salt Producers' association, of Detroit, gave \$200 to assist in the work of determining the value of salt in increasing the yield, improving the quality and changing the chemical composition of crops grown on muck soil.

### Board Member Honored

Miss Sarah VanHoosen Jones, member of the State Board of Agriculture, has been honored by election to the vice-presidency of the Holstein-Friesian association of America. Her election took place at the association meeting in Rockford, Illinois, early this summer.

**BIG WHEELS**—Guard Don LeClair of Wyandotte (left) and End Ken Balge of Dearborn are big guns in Michigan State's forward wall. Both are returned servicemen.

## Sports at State

*By Nick Kerbawy*

Although football crowds this year have reached unprecedented numbers at Michigan State, an all-time high is in prospect at homecoming on November 16 when the Spartans entertain the Hill-toppers of Marquette University in Macklin Field Stadium.

Homecoming this year promises to have all the whoop-de-do of prewar years. Extensive plans being developed by the alumni office are being matched by the athletic department for the featured football attraction commencing at 2 p.m.

We suspect that a goodly number of Michigan State grads residing in proximity of East Lansing has already viewed Coach Charlie Bachman's grid machine in action. However, there is something electrifying about a homecoming game that spins a different slant from previously played games.

In brief, it is a game designed chiefly with you in mind. It's your ballgame, lock, stock and barrel.

In past years, Michigan State and Marquette have been involved in some spine-tingling affairs. This year's game promises to be no exception. Back at the helm of Marquette coaching is Frank Murray, whose unique variations of the "T" offense have produced some sparkling ball teams.

Followers of the Marquette series will remember Murray's teams against Michigan State from 1933 to 1936. He lost a pair of encounters to Bachman coached elevens, 6 to 0 and 13 to 7, after which Murray bounded right back to win a couple of tilts by identical scores, 13 to 7.

Murray served Marquette with brilliance before his departure in 1937 to the University of Virginia. Now back in Milwaukee, he has reinherited a football series with Michigan State that favors the Spartans, eight games won as against six lost and one tied.

The lone tie score resulted last year in a game that left the fans mumbling to themselves.

Trailing by a score of 6 to 0 going into the fourth quarter, Michigan State shoved across two touchdowns and kicked an extra point to gain a 13 to 13 deadlock. The climax occurred when End Tino Barbas scooped up a blocked punt and scampered 16 yards to score shortly before the final gun sounded.

Best that you write "Frim" for your tickets right away. The price is \$2.40 per, and be sure to add 10 cents on your order to cover mailing costs.

And, if you haven't made room reservations for that weekend, you'd better start worrying right now.

## National Harrier Meet On Fall Schedule

The eighth annual National Collegiate Athletic Association cross country championship on the East Lansing campus highlights Michigan State's 1946 distance running schedule.

The NCAA meet is scheduled Monday, Nov. 25 over Michigan State's newly constructed four-mile track.

Returned to bolster the Spartan squad are Captain-elect Walter C. Mack and Bill Scott, both of Buffalo, N.Y.; Walter Kalmbaugh of Grass Lake, Richard Zobel of Ferndale and Larry Johns of Pontiac. Each has won either a major or minor award in previous years.

The schedule: Oct. 19, at Penn State; Oct. 26, Notre Dame at East Lansing; Nov. 2, Loyola invitational at Chicago; Nov. 9, triangular meet with Wisconsin and Iowa at Madison; Nov. 16, ICAAAA at New York; Nov. 25, NCAA at East Lansing.

## Michigan Game Skedded On November Date

For the first time since 1931 the traditional Michigan State-Michigan football game has a November date.

All roads lead to Ann Arbor on November 9, and prospects are that a sell-out crowd of persons will greet their favorite team.

The game is the seventh on Michigan State's 10-game schedule. Three following games, all to be played in East Lansing, will ring down the 1946 curtain as follows: November 16, Marquette (homecoming); November 23, Maryland; November 30, Washington State.

## Former Backfield Coach Dies In Missouri

Joseph Holsinger, former backfield coach at Michigan State, died at his home in Jefferson City, Missouri, on August 14. Holsinger, who had undergone a brain operation a year before, was stricken again five weeks before his death. He was 42 years old.

He joined Charley Bachman in 1939, serving as backfield coach and chief scout, as well as assistant professor of physical education. Because of his illness he had missed the early part of the 1945 football season, but returned to the team for the last half of the season.

He resigned from the Michigan State staff on July 1, 1946, and moved to Jefferson City with his family. He is survived by his wife, Dorothy, and five children, Michael, Mark, Anne, Elizabeth, and David.

## Four New Opponents On Twenty Game Cage Schedule

Four new opponents are included on Michigan State's 1946-47 basketball schedule. Eleven of the games will be played in East Lansing and nine away from home.

Arizona, Georgia Tech, Boston College and Virginia will "break bread" with the Spartans for the first time, Arizona on January 2, Georgia Tech on January 4, Virginia on February 11, and Boston College on February 22. The four games will be played in the Spartans' bailiwick.

Meanwhile, plans are set to increase the seating capacity of Jenison fieldhouse from 10,500 to over 13,000 in order to accommodate the increased size of the student body and the upsurge of interest in basketball.

Traditional rivals dot the Michigan State cage schedule. Included are Michigan, Notre Dame, Ohio State and Kentucky.

Coach Ben F. Van Alstyne, starting his 19th year at Michigan State, has a record number of candidates seeking berths on the team. Among them are three members of last year's brilliant squad, forward Robin Roberts and the two guards, Ollie White, honorary captain last year, and Don Waldron.

The schedule:

Saturday, Dec. 7, Michigan at Ann Arbor  
Friday, Dec. 20, STANFORD AT EAST LANSING  
Saturday, Dec. 28, Wayne at Detroit  
Tuesday, Dec. 31, Syracuse at Syracuse  
Thursday, Jan. 2, ARIZONA AT EAST LANSING  
Saturday, Jan. 4, GEORGIA TECH AT EAST LANSING  
Monday, Jan. 6, MARQUETTE AT EAST LANSING  
Saturday, Jan. 11, Detroit at Detroit  
Tuesday, Jan. 14, NOTRE DAME AT EAST LANSING  
Saturday, Jan. 18, Minnesota at Minneapolis  
Monday, Jan. 20, WISCONSIN AT EAST LANSING  
Saturday, Jan. 25, DePaul at Chicago  
Monday, Jan. 27, Kentucky at Lexington  
Saturday, Feb. 1 WAYNE AT EAST LANSING  
Monday, Feb. 3, Marquette at Milwaukee  
Saturday, Feb. 8, Notre Dame at Notre Dame  
Tuesday, Feb. 11, VIRGINIA AT EAST LANSING

Forward Robin Roberts (left), Springfield, Ill., sophomore who was voted the most valuable collegiate player in Michigan last year, and Guard Ollie White, Cleveland senior and honorary captain of the 1945-46 team, are heavily counted upon to bolster Michigan State's new basketball season.

## *Notre Dame Plays Here In 1948; Stadium To Be Enlarged*

Michigan State college will play host to the University of Notre Dame's football team in 1948, and the college is planning to enlarge Macklin Field stadium to a capacity of more than 50,000.

The announcement of the resumption of the Notre Dame-Michigan State series climaxes the negotiations which have been carried on between the administrative officials of the two schools during recent months. It is intended that the rivalry will continue for an indefinite period. Notre Dame comes to East Lansing in 1948, the Spartans journeying to South Bend in 1949.

The Notre Dame and Michigan State football teams have met 15 times in the past, the last time being in 1921. In that year Knute Rockne's western champions defeated the then Michigan Aggie team,

48 to 0. Of the 15 games, State won two, 17 to 0 in 1910, and 13 to 0 in 1918.

Michigan State and Notre Dame have enjoyed excellent relations in all other sports in recent years. Last year the two schools met in basketball, baseball, track, tennis, and golf.

The stadium expansion program will also provide a housing unit of 450 dormitory rooms, capable of housing 900 men students. This addition to the college housing program will help alleviate the acute housing shortage prevailing on the campus at the present time.

The college's system of financing much of its building program through self-liquidation will be applied to the stadium addition. No public funds will be used to defray the cost.

The combination stadium-dormitory will cost in excess of one and one-half millions of dollars. Construction will start as soon as material is available, following the close of the present season's schedule. It is expected to be ready for use by the opening of the 1948 season.

Al Kawal, Michigan State's line coach, was captain of Northwestern's football and basketball team during his senior year in college.

Saturday, Feb. 15, OHIO STATE AT EAST LANSING  
Wednesday, Feb. 19, DETROIT AT EAST LANSING  
Saturday, Feb. 22, BOSTON COLLEGE AT EAST LANSING  
Saturday, Mar. 1, MICHIGAN AT EAST LANSING

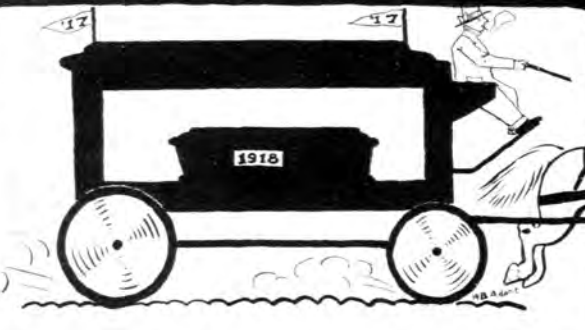

This class rush was typical of the unofficial freshman orientation program of a generation ago. (One sweater bears the chalked numerals "09.")

A tug-of-war across—and through—the cold waters of the Red Cedar had been substituted in the late 1930's to reduce the casualty rate.

# YE BOOBS OF '18

Hear Ye, Dregs of the Setwers: This  
is a college, not a barnyard, you  
anemic, atrophied aggregation of apes.  
Your conduct nauseates us, your malformed craniums  
are seething cess pools of stagnation, therefore—

Know Ye: To us has been detailed the task of ridding our beloved  
campus of your detestable carcasses; and, etisoon the

SLAUGHTER SATURDAY COMETH

In the evening your corrupting corpses will litter the earth. To us the task  
is odious, but love for our college rules the CLASS OF '17.

## Days of Yore

*By Madison Kuhn  
and Joseph G. Duncan*

★ ← This poster of 1914 was an invitation to such a fight as pictured above. In those days freshmen were believed to need a physical as well as mental adjustment to the college world. Dire promises were only partially fulfilled, but the announcement was calculated to induce fear in the hearts of some of the freshmen.

Another poster, now in the College Archives, offers such "services" as the following to the Class of 1913:

★ "NOTICE—We have lately purchased a fine new hearse and Freshmen can now take their last ride in a stylish vehicle cheaply.

"FOR SALE—A few desirable lots in potter's field for Freshmen who do not desire to be shipped home.

"FOR SALE CHEAP—One second-hand tombstone. Any Freshman by the name of Jackson who expects to die for his country can get an especial bargain by calling at once at Mound Bros."

★ In the early days of the century the informal and rather strenuous class fights had been replaced by more formal contests under the direction of Coach C. L. Brewer. Picked teams engaged in wrestling matches, tug-of-war, canvas rush, and flag rush. By the 1930's this had simmered down to tug-of-war across the Red Cedar.

Intramural rivalry could be laid aside when opposing teams from other colleges were met each year. Here are the captains of State's athletic teams of 1908 and 1909 on either side of Coach Brewer. On the left are the football, baseball, basketball, and track captains of 1908: W. H. Smith, '08; unidentified; R. Vondette, '08; and Ralph Carr, '08: On the right, leading the respective groups in 1909, are: Bert Shedd, w'09; H. Mills, w'09; P. G. McKenna, '10; and C. J. Oviatt, '09.

# Folks from Everywhere

## Robert G. Benedict, '36

When Robert G. Benedict, of Ionia, received the "Sayer Prize" in bacteriology in his junior year at Michigan State no one dreamed that within 10 years his name would be linked with the new drug "penicillin." Yet in the hush-hush research work on this important drug during the war years, Benedict, as a member of 12-man team at the Northern Regional Research Laboratory in Peoria, Illinois, helped to create an urgently-needed high-productivity strain of penicillin mold. The 12 scientists working as a research team utilized the pool of their collective knowledge and microbiology and chemistry to produce the miracle drug in quantity.

Benedict recalls the beginning of the story, which was not long ago—1929, in fact, when Alexander Fleming, an Englishman got to thinking what man most certainly had observed previously. And that was that mold which accidentally became lodged in a culture of disease-inducing bacteria had stopped the growth of the organism.

Then in 1941 began the Peoria angle of penicillin's story, which likewise was given impetus by an Englishman, Dr. H. W. Florey of the Oxford university medical school. He came to the States to enlist aid in making penicillin available for treating war wound infections and was immediately referred to the Peoria laboratory. There he found one of the world's largest collections of molds and a staff long experienced in the use of micro-organisms for the production of chemicals. No dollar value can be placed upon the savings in human

Robert G. Benedict

lives as the result of the work done by Benedict and his associates but the wholesale price of the product has dropped from \$20 to 60 cents per 100,000 units, and the commercial value of penicillin last year was estimated at \$100,000,000.

Benedict has his Ph.D. degree from Wisconsin, where he taught from 1938 to 1942. He is married and has one son.

## Lyman Carrier, '02

The fame of Michigan State "ag" graduates was given national recognition this summer when Lyman Carrier, '02, was named MAN OF THE YEAR in "Service to Virginia Agriculture" by the "Progressive Farmer," farm publication in Virginia.

Because of long continued service to his adopted state of Virginia through the development of better pasture programs and state-wide soil conservation policies, Carrier — now

Lyman Carrier

state conservationist, was cited for the award on the following basis:

1. First to demonstrate close-grazing, liberal fertilizing and liming made better pastures.
2. Organized the first Crop Improvement Association in Virginia and this aided in better seed of all kinds with state laws for certification.
3. Instrumental in selecting two wheat strains that lead production in Virginia.
4. Developed key by which 50 common grasses and small grain seedlings can be identified.
5. Achieved national recognition by becoming for a time chief agronomist for the National Soil Erosion Service. In 1936 he received the "Award of Merit" of the Virginia Polytechnic Institute.
6. Outstanding citizenship—in church work, all forms of public welfare, in preserving agricultural history.

Carrier looks back to his undergraduate days at Michigan State where one special achievement placed his name on the athletic rolls—he won the one-mile walk at the state meet at Hillsdale in 1901.

## Ellis W. Ranney, Active Alumnus, Dies July 9

Ellis W. Ranney, '00, one of the most prominent of Michigan State alumni, died at Greenville on July 9 at the age of 68.

Following his graduation from the college, Ranney continued his interest in the college throughout his life. From 1921 to 1924 he was president of the Alumni Association. At the 1934 Homecoming the Varsity Club awarded him a distinguished service medal for his athletic achievements as an undergraduate and for his lifelong interest in the institution since graduation.

Ranney was one of the first of the college's three letter men, starring in baseball, basketball and football—in fact, he captained all three of the teams during his final year.

On hearing of Ranney's death, George Alderton, Lansing State Journal sports editor, devoted his daily column to a tribute. "Ellis Ranney," he said, "was a man whose interest in sports was but a part of a full life. What he did and stood for will never die."

Alderton went on to tell of Ranney's continued interest in the college athletic teams, citing his many trips to East Lansing to see the teams play, in addition to some longer jaunts for out-of-town games. The sports editor pointed out that Ranney's interest didn't stop with himself—he was always ready to help some children develop an interest in clean, wholesome athletics.

He cites one occasion when Grandpa Ranney hitchhiked to Detroit with a few of his grandchildren to see the Tigers play—because the kids thought it would be more fun that way. Alderton also said his own son would never forget a trip to Temple during which Ranney teamed up with young Alderton to provide the latter a trip he would never forget.

Ranney's five children, who survive, all graduated from Michigan State. They are Mrs. June Lyman and Mrs. Mary Whitelaw, both of East Lansing, Mrs. Ruth Young of East Grand Rapids, and the two sons, Frederick B. and George, of Greenville. Mrs. Whitelaw's husband, Colonel John L. Whitelaw, is now commandant of the R.O.T.C. at the college. Others surviving are two sisters, Carrie and Hattie, and one brother, LeRoy W. Ranney, all of Greenville. His wife died in 1928.

At the time of his death Ranney was chairman of the board of the Ranney Refrigerator company, and was also affiliated with other business interests in Grand Rapids and Lansing.

# Following Alumni Clubs

*By Glen O. Stewart*

## Allegan-Van Buren Club

Dr. W. A. Taylor, 83 years of age, and a graduate with the Class of 1888, was special guest and speaker Sunday, August 4, when nearly 100 alumni and guests of the new Michigan State College Alumni club of Allegan-Van Buren counties held their first annual picnic at Base Line beach. Dr. Taylor, one of the five men to first receive the Alumni Award For Distinguished Service, is a former chief of the Bureau of Plant Industry in Washington, D. C. The picnic is one of a series of events planned by the club.

The board of directors has appointed functional committees with the following in charge: social, Myron Dowd, Hartford; sports, Ray Floate, Allegan and Stanley Johnston, South Haven; scholarship, Kenneth Lyle, Paw Paw; publicity, Jack Sinclair, Hartford; legislative, Kermit Washburn, Paw Paw and new students, John Vucich, Bangor.

Officers for the new club are: Don Barden, '35, president, South Haven; first vice-president, Ray Floate, '39, Allegan; second vice-president, Myron Dowd, '38, Hartford; secretary, Mrs. Robert Winkel, '39, South Haven; and treasurer, Albert Crane, '39, Fennville. — Gertrude Sidebotham Winkel, '39, secretary.

## Bostonians Hear Stewart

The Somerset hotel in Boston, Mass., where Jack Chambers, '40, serves as resident manager, was the scene of a gathering of Michigan State alumni on July 13. This informal "get-together" of 28 alumni, many of whom were surprised to find each other in the city, was engineered by Jim McElroy, '28, now living at 7 A Bacon street, Winchester. The guest speaker was Glen O. Stewart, director of alumni relations, who was accompanied by Mrs. Stewart, (Fanny Rogers, '18) and Miss Gladys Franks, '27, alumni recorder. After learning of the building program and other developments at the College the group spent some time in fond reminiscence of college days. McElroy was named temporary chairman with the understanding that a permanent club would be formed this fall or winter.

## Rochester, N. Y.

When Janet Meech, '42, left the annual meeting of our club before the election of officers she had no idea that the presi-

dency would rest on her shoulders this year. That's what always happens. But armed with a revised list from East Lansing our year's activities started off September 15 with a basket picnic at Hemlock Lake park, 30 miles from Rochester. About 85 people responded to the work of the committee consisting of Calvin Brown, '23, E. H. Walker, '18, and wife Eleanor Moser, '42, and Mrs. Virginia Thompson Love, '37. Before the picnic supper we enjoyed baseball, boating, quoits, badminton and shuffleboard. Our next meeting is going to be a pre-Michigan game affair, probably a dinner-bowling party early in November. Our president, Janet Meech, will be in East Lansing for the club presidents' assembly, November 22-23. — Jane Walker, '46, secretary.

## Washington, D.C., Elects

At the annual meeting of the Washington, D.C., Alumni club the following officers were elected: president, C. R. Oviatt, '16, 4702 Windom Place, N.W., Washington, D. C.; vice-president, Carl Behrens, '23, 5307 2nd street North, Arlington, Virginia; secretary, Margaret A. Matthews, '28, 1320 31st street N.W., Washington 7, D. C.; treasurer, Dr. Harold C. Knoblauch, '31, 1105 North

Evergreen street, Arlington, Virginia. Members of the executive committee include Kris P. Bemis, '15, 4613 Amherst Road, College Park, Md., Ray M. Schenck, '21, 113 Glenrose street, Kensington, Md., Gertrude I. Fitz, '44, 0-116 Nebraska Hall, Arlington Farms, Va., M. Kathryn Pitcher, '45, 2145 K. street, Washington, 7, D. C.

Ray Turner, '09, continues to head the special committee for the Alumni Award for Distinguished Service. — Margaret Matthews, '28, secretary.

## Chemical Engineers Reune

One of the most enthusiastic alumni meetings of September 10 during the annual conference of the American Chemical Society in Chicago occurred at the Michigan State Alumni breakfast in the Morrison hotel when 47 men met to discuss affairs at their Alma Mater and to hear short talks by several guest professors.

Dr. Laurence L. Quill, new head of the department of chemistry and Dr. C. C. De Witt, head of chemical engineering, outlined briefly the progress of new buildings and course changes on the campus. Dr. Charles Frey, '11, chief of research for Standard Brands Inc. of New York City, told of his experiences at returning for commencement last June. H. G. Bogie, '25, of Chicago, stressed the importance of chemical engineers of working more closely together as a unit while Dr. T. L. Caniff, a former staff member and now with the American Can company, served as chairman of local arrangements. All agreed they

President John A. Hannah was on hand to welcome back these two draft horses owned by the college as they returned from triumphant trips to national exhibits. Trevaet, held on the left by Andy Quirrie, took the national grand championship at the National Percheron show in Indianapolis. A week before, Ginger's Jewel, being led down the ramp by Clair Copeland, animal husbandry student, won the grand championship for Belgians at the American Belgian show in Columbus, O.

wanted more news in the RECORD from chemical engineers and chemistry majors.

Among those attending were the following:

John M. Vandenberg, Ph.D., '40, Parke Davis Co., Detroit; Paul D. Applegate, '39, Hercules Powder, Kalamazoo; Paul J. Murdoch, '36, Mid-continent Chemicals Corp., 407 S. Dearborn street, Chicago; Howard M. D'Arcy, M.S. '31, graduates studies M.S.C.; John C. Vander Weele, M.S. '41, Dow Chemical company, Midland; Arthur H. Neeley, Ph.D. '35, M.S. '33, Air Reduction company, Stamford, Conn.; Fred M. Younger, '34, Anheuser Busch Inc., St. Louis, Mo.; Ellis R. Fehlberg, '31, and wife, Pasco Packing Co., Dade City, Fla.; Henry B. Dirks, Jr., '40, Western Condensing Co., Appleton, Wis.; Ronald M. Warren, M.S. '32, American Can Co., Chicago; John M. McCarthy, '44, East Lansing; H. G. Bogie, '25, Sherwin-Williams Co., Chicago; Dean Lawrence, '26, and Gordon W. Hueschen, '45, Lawrence, Woodhams & Mills, St. Johns; Arnold C. Ott, Ph.D. '43, The Upjohn Co., Kalamazoo; Kenneth D. Bacon, M.S. '36, Dow Chemical company, Midland; Carl W. Carlson, P.G., Heyden Chemical Corp., New Brunswick, N. J.; Henry P. Stevens, '39, Universal Oil Products, Chicago; Robert B. Goodman, '38, Goman Laboratories, Newark, N. J.; Allen J. Richards, '40, Children's Fund of Michigan, Dearborn; Marjorie J. Leshner, '42, East Lansing; Thomas L. Canniff, Ph.D. '43, American Can company, Chicago; Dr. Chas. N. Frey, '11, Standard Brands Inc., New York City; Wayne Barrett, '41, Mellon Institute, Pittsburgh, Pa.; Gordon L. Jarman, '27, Chemical War Service, Edgewood Arsenal, Md.; Herbert T. Walworth, '31, Lumberman's Mutual Casualty company, Wilmette, Ill.; J. L. Speirs, International Pulo. corporation and L. I. Snyder, Ethyl corporation.

Faculty members present included: Dean R. C. Huston, Dr. L. L. Quill and wife, F. R. Duke, Ralph L. Guile, Ph.D. '39, G. L. Goerner, Bruce Hartsuch, R. L. Bateman, Ph.D. '44, C. C. Langham, E. C. Tabor, E. Leininger, J. C. Spreck, Jr., D. T. Ewing, C.D. Ball and C. C. DeWitt.

—Prof. L. L. Quill, reporting.

## Detroit Sports Party

Reviving the pre-war annual sports party more than 125 men enjoyed the stag party at Huck's restaurant, corner of Grand River and Seven-mile road, September 19. A large delegation from the college was introduced by Coy Eklund, '39. Speakers included Glen O. Stewart, Director Ralph Young, L. L. Frimodig, Coaches Charles Bachman, Lou Zarza, Ed Pogor, John Pingel and Sports Publicity Director Nick Kerbawy. Several sports writers and radio men were guests of the sports committee. The buffet luncheon was arranged by Andy Knudsen, '39.

—Ray Covey, '14, sports chairman.

## Detroit Club Lunches

The M.S.C. Alumni club of Detroit meets for lunch every Monday noon in the cafeteria on the 32nd floor of the Union Guardian building.

Every Monday morning from 10 to 10:30 these three students are starred on the first stage production ever presented by WKAR with a "live" studio audience. The program is the "Adventures in Music" series, conducted by the extension department for rural and urban schools. This year the program is given each Monday in the Music auditorium, with children from some Michigan school as an audience.

Kisimi, magician and master of ceremonies for the show, is played by Bob Huber, Cincinnati, Ohio, junior, on the right. His two young friends, to whom he tells the stories of the music played on the program, are Dick Beals, Birmingham sophomore, and Marion Cannon, Toledo, Ohio, junior.

## Flying Farmers Elect Lee Talladay, '38

Lee Talladay, '38, of Milan, was named president of the Michigan Flying Farmers at the new group's organization meeting at the Lansing city airport on September 14. Another alumnus, Dave Friday, '34, of Hartford was named to the group's board of directors.

The state organization of flying farmers is a branch of the National Flying Farmers association. Approximately 59 farmers attended the September 14 meeting, which was addressed by Pres. John A. Hannah and Milon Grinnell, of Detroit, editor of Michigan Farmer. The college, the Michigan Farmer, and the state department of aeronautics joined in sponsoring the organization meeting.

## Farm Equipment Course Proves Attractive

The new M.S.C. course in farm equipment sales and service, started in 1945, has more applicants than can be accommodated.

The course was the first of its kind in any agricultural college in the United States. Offered by the department of agricultural engineering, it gives two 12-week terms of academic training and two 12-week terms of placement training with implement dealers. All the work is under college supervision.

Eighty percent of those applying for the course are veterans. Both sections for the 1946-1947 school year are filled. M. L. Bailey, '22, assistant professor in the agricultural engineering department, is counselor for the program. He recently appeared at a meeting of agricultural engineering college heads and teachers at Purdue university to tell them of the course.

## John "Jack" Carter Dies In Kentucky

John Carter, better known around the college as "Jack" or "Jock," died at his home in Winchester, Kentucky, on September 30. He was in charge of the college draft horses for 19 years, retiring on September 1, 1941 at the age of 65. Shortly after his retirement he went to Fairholme Farms near Lexington, Kentucky.

Carter was known throughout the United States as the Dean of Grooms, and helped to make fame for Michigan State college by fitting and showing many Belgians and Percherons to national championship honors.

For many years he and his wife lived near the horse barns on the campus. Before his death he expressed a wish to be buried near the college. He was buried in Glendale cemetery, Okemos, on October 2.

## Indiana Grads Picnic

With the help of Ralph Norman (former Journalism faculty) and his wife, the former Gertrude Brummelhoff, '29, plenty of table space was reserved in the beautiful Danville city park, 30 miles west of Indianapolis, for the Michigan State alumni picnic, Sunday, August 18. Joseph H. Ryan, '18, of Indianapolis, presided with Glen O. Stewart, director of alumni relations, guest speaker. Plans are under way for a winter meeting in Indianapolis with a separate meeting in South Bend for the northern part of the state.

## ABOUT THESE ALUMNI

By Gladys M. Franks

### Patriarchs

A tree planting ceremony on the Michigan State College campus on June 12 honoring Dr. Kenyon L. Butterfield, '91, was a feature of the annual conference of the American Country Life Association. Dr. Butterfield, former president of the College, was one of the founders of the association and served as its president for the first ten years.

### 1897

A. T. Cartland visited friends on the campus on July 30. A retired Methodist minister, Mr. Cartland is living in Augusta, Michigan.

### 1900

#### In Memoriam

The Class of 1900 hereby offers an affectionate tribute to the memory of their classmate Ellis W. Ranney whose passing is not only a great loss to family and friends but to Michigan State and all it stands for.

Way back in June 1900 the Class Prophetess foretold that Ellis would become athletic director and football coach for his Alma Mater. He has been more than that—he has been a good angel to football and baseball teams for years. An athletic field bears his name but his kindness and generosity have been known and appreciated for lesser projects without fanfare.

We, his classmates of Naughty Naught feel that Ellis would like us to remember him as the baseball enthusiast shouting hoarsely towards the end of a close game: "one old dobber down!" and as the fun loving member of that famous band of Calchumpians in old Wells hall.

And so it is to the friend and pal of college days that we offer this heartfelt testimonial of our affectionate remembrance.

—Submitted by the class alumni secretary,  
Irma Thompson Ireland

The sympathy of the class is extended to George B. Wells whose wife passed away at their home in Dade City, Florida, on June 1. Mr. Wells spent the summer with his son in Royal Oak, Michigan.

### 1905

Frank J. Kratz is connected with the Special Engineering company in Detroit where he lives at 15034 Piedmont boulevard.

### 1906

Howard E. Beardsley, sales engineer for the Dion Hill Pump company of Indianapolis, Indiana, died in that city on August 7. Mr. Beardsley, who held a degree from Michigan College of Mining and Technology, had been associated with the American Asbestos Products company and the Acorn Refining company of Cleveland, Boydell Brothers of Battle Creek, and the Allison Engineering company of Indianapolis. He is survived by his wife and two daughters. . . . Joseph E.

LeFevre, purchasing agent for the Dow Chemical company for the past 27 years, died in Midland, Michigan, on March 31.

### 1907

E. Lynn Grover, a member of the College faculty for 25 years, died in LaGrange, Illinois, on August 20. Retiring from his post as associate professor of education in 1938, he continued to make his home in East Lansing until last April when he moved to LaGrange, Illinois, to live with his daughter, Mrs. Paul Hartsuch, '23. A second daughter, Mrs. Howard Bissland, '37, also survives.

### 1911

Herbert A. Lossing is sales engineer and manager for the Modern Tool company in Jackson, Michigan.

### 1912

On terminal leave from the Army, Colonel John J. Harris has returned to Niagara Falls, New York, where he lives at 145 80th street.

### 1913

Elmer W. Brandes heads the divisions of sugar and rubber in the Bureau of Plant Industry with headquarters in Beltsville, Maryland. He makes his home at 5 Grafton street, Chevy Chase.

### 1915

Hugh E. Johnson, former teacher and postmaster in Greenfield, Indiana, died at his home in that city on July 4. He is survived by his wife and two daughters. . . . Henry I. Davies is located in Port Hueneme, California, engaged in work with the Navy's pilotless aircraft unit.

### 1916

James L. Morse, engineer with the U. S. Bureau of Reclamation and former instructor at Michigan State College, died in Denver on May 5. Mr. Morse left the College in 1917 to head the department of mechanical engineering at the Colorado School of Mines. In 1930 he became associated with the Dorr company in Denver, later transferring to the Horne Machinery company, and in 1936 entered government service with the Bureau of Reclamation. He is survived by his wife and daughter. . . . Major E. G. Hamlin reports he is still in service, "for the second time. This war saw our whole family—Mrs. Hamlin in the AAF WAC's at Mitchel Field, our son, killed in action in Germany, was in the 8th Division (Don Stroh's, '15). I have been stationed in several ports, Fort Oglethorpe, Georgia, Fort Huachuca, Arizona, Fort Douglas, Utah, Fort Devens and Camp Edwards, Massachusetts, and am now in Springfield, Massachusetts, organizing reserve corps activities in three counties." . . . James Johnson is a partner in the firm of Geldner and Johnson, manufacturers representatives, in Huntington Park, California.

He and Mrs. Johnson, the former Pauline Haynes, '19, live in Los Angeles at 10763 Wilkins avenue.

### 1917

U. G. Jasberg is employed by Parke, Davis and company in Detroit where he lives at 3106 E. Jefferson. . . . Major Thaddeus E. Peterson is out of the Army and has returned to Muskegon, Michigan, where he lives at 1528 Roosevelt road. . . . Lowell O. Stewart has been named acting dean of engineering at Iowa State College at Ames. He is head of the department of civil engineering there. . . . William D. Thompson, a member of the Port Huron city commission, was recently appointed mayor pro-tem for the unexpired term ending April 1947. He was also named chairman of the central housing bureau committee.

### 1918

Calvin J. Overmyer is vice president of the Elliott Paint and Varnish company in Chicago, and lives in Oak Park at 510 N. Grove avenue. . . . Percy Parkyn has moved from Birmingham, Michigan, to Riverside, California, where he lives at 3277 5th street.

### 1920

C. J. McLean is employed by the Public Service company of Northern Illinois and lives in Evanston at 1583 Asbury avenue.

### 1921

T. G. Lindquist is located in Rockford, Illinois, as executive director of the Winnebago County Housing Authority.

### 1922

At recent meeting in New York City of the American Marketing association, Arno H. Johnson, director of media and research of the J. Walter Thompson company, received the top award for leadership in marketing for his study "57 Million Jobs—a Post-War Goal and Opportunity." This was the study which was presented by Mr. Johnson at the Governors' conference at Mackinac Island last year and to various groups across the nation.

### 1923

Richard Bruce Buckingham, of 8620 W. Outer drive, Detroit, was fatally injured in an automobile accident near Detroit on June 23. He is survived by his wife and three sons.

### 1924

Paul H. Allen is located at the American University in Beirut, Lebanon, as area director for the Near East foundation.

### 1925

Carl Boehringer is enroute to China where he has been assigned as assistant commercial attache to the Embassy at Nanking.

### 1926

Ivan M. Dennis may be reached in Grand Rapids at the Union Bank of Michigan. . . . After 37 months of service with the Navy Medical Corps, Dr. E. J. Robson has returned to Lansing where he has opened offices at 420 W. Ottawa. . . . Ted R. Smits, chief of the Associated Press bureau in Detroit since 1929, has been appointed general sports editor of the Associated Press with headquarters in New York City.

### 1928

Frederick W. Eberbach, voice instructor in Lansing for a number of years, died in that city on July 18. He is survived by his wife and three sons. . . . Donovan Neil Smith, research engineer for the Dow Chemical company since 1929, died in Midland on March 25. His wife and daughter survive. . . . Bruce Bolton and Klyta Sawyer were married on July 15 in Providence, Rhode Island, where they are making their home at 247 Bowen street. Mr. Bolton is associated with the United

Engineers and Constructors in that city. . . . **Virginia Chase** heads the boys and girls department of the Carnegie library at 4400 Forbes street, Pittsburgh. . . . Recently released from active duty as a lieutenant commander, **Russell M. Daane** is vice president of the United Savings bank and assistant treasurer of the Daisy Manufacturing company in Plymouth, Michigan, where he lives at 530 Garfield avenue. . . . On terminal leave from the Army, **Lt. Col. Fred C. Garlock** is living at 323 S. Chandler street, Rantoul, Illinois. . . . **Howard E. Houser** is assistant superintendent of the electro-chemical division at Dow Chemical company in Midland. . . . **Major G. T. Schwartz** is at the SMC headquarters in Frankfurt, Germany, where his wife and small son recently joined him.

## 1929

**Irl D. Ball** may be reached in care of the Federal Communications commission, Room 323 Post Office building, San Juan, Puerto Rico. . . . **Stanley B. Hunt** has returned from overseas and is once more in the U. S. Engineer office in Buffalo while he makes his home at 111 McKinley avenue, Kenmore.

## 1930

**Earl H. Bjornseth** has been assigned by Grasselli Chemicals department of the duPont company to the Michigan territory as technical service representative in agricultural chemicals. His headquarters are in Detroit at 1530 E. Hancock. . . . **Dr. Henry W. Clapp** was discharged March 14 as a major in the Army Air Forces and has opened his offices at 230 Lyman building, Muskegon, Michigan. . . . Mr. and Mrs. John E. Anderson (**Helena Close**) of 600 S. Thompson, Jackson, Michigan, announce the birth of a son, John Jeffrey, on April 29. They also have three daughters, Nancy, Susan, and Julia Mary. . . . **Lloyd J. Goulet** is assistant manager of the Standard Accident Insurance company, 640 Temple, Detroit. . . . A son, Peter Wallace, was born August 4 to Dr. and Mrs. John F. Johnson (**Beryl Farr**) of 926 W. State street, Trenton, New Jersey. Their daughter Cynthia is seven and John Jr. is three. . . . **Eugene R. Lepley** was recently transferred from Steamboat Springs, Colorado, to Custer, South Dakota, where he is assistant supervisor in charge of timber management on the Harvey National forest. At the time of his transfer he had just completed a several months detail in the Washington, D. C., office of operations in the U. S. Forest service. . . . **Lt. Col. A. N. Niemi** is located at the Industrial College of the Armed Forces in Washington, D. C. . . . **Commander Marshall F. Parsons** may be reached through 432 Ethel avenue S.E., Grand Rapids.

## 1931

**F. A. and Merle (Moore, '26) Bray** are living at 8200 Reading road, Cincinnati, Ohio. . . . **Dr. Lawrence Droleit** has returned from duty in the Army and is practicing in Lansing where he lives at 228 S. Jenison. . . . **Ward Duncan** is employed by Cullman Wheel company in Chicago where he lives at 2750 Mildred. . . . **Tom Garland** is located at 321 Garces drive, San Francisco, as west coast representative for Blackmer Pump. He adds: "I spent five years in the air corps, being separated as a colonel in March. Am mighty glad to get back in the civilian groove again." . . . **Ruth Gilbert** gives her new name and address as Mrs. Laurence Friedle, 3596 Kawkawlin River drive, Bay City. . . . **Lt. Comdr. Frederick Ludwig** has been relieved from active duty in the Navy and has reopened his offices in the Sperry building in Port Huron. . . . **Gulford H. Rothfuss** is located in Birmingham, Michigan, as advertising manager for the Berry Door corporation.

## 1932

**M. C. Christensen** may be reached in care of the U. S. Forest service at Rolla, Missouri, where he is district ranger on the Mark Twain National forest. He reports the birth of a second daughter,

**Janet Sue**, on June 11. . . . **Mildred Crow** and **Robert Brushaber** were married on December 29, 1945, and are living in Detroit at 10930 Craft. . . . **Robert and Margaret McQuade Fahrney**, of 1024 Alto avenue S.E., Grand Rapids, announce the birth of Susan Elizabeth on June 30. . . . **John and Alice (Ulrich, '33) Jennings** are temporarily located at 1007 S. Candler road, Decatur, Georgia, where he is district sales manager in the paper container division of Continental Can company. . . . Discharged from duty in February, 1946, with the rank of major, **Ward W. Kelley** is now associated with his father, Dean W. Kelley, and William J. Sessions in a law firm with offices at 326 Mutual building, Lansing.

## 1933

**Andrew E. McElroy** and **Mary B. O'Grady** were married in New York City on June 8. . . . **Dr. T. A. Merrill**, who received his M.S. with the class, has left the College to become head of the department of horticulture at Washington State college at Pullman. . . . **Wm. Mollenhauer Jr.**, forester, land-use consultant, and flood and erosion specialist, has joined the staff of the Eastern division of the Farmers Educational and Cooperative Union of America. He is living in Pitman, New Jersey, at 186 West avenue. . . . **Major and Mrs. Frederick P. Magers** announce the birth of a daughter, Sara Carolyn, on June 11, 1946. Together with five-year-old Patricia Jane, the Magers are living at Fort Knox, Kentucky, where he is stationed at Headquarters of the Armored School.

## 1934

**Lt. Col. Joseph R. Hradel** is located at the AAF Special Staff School, Air University, Craig Field, Selma, Alabama, where he and Mrs. Hradel (**Elizabeth Hard, '33**) are living. . . . **Capt. Allan A. Kunze** is chief of the general engineering branch of the AAF Watson Laboratories at Red Bank, New Jersey.

## 1935

Recently separated from the Army as a major after four and one-half years service, **Dr. Wayne H. Chapman** will resume his practice of optometry at 103 S. Cochran avenue, Charlotte, Michigan. . . . **Dr. Harry J. Hornberger** has his dental offices in the Professional building in Lansing and lives in East Lansing at 1023 Short street. . . . **Mrs. Norman W. Fink**, the former **Kathryn Lee**, is living at 610 Martin Way, Vancouver, Washington, where her husband is surgeon-in-chief at the Northern Permanente Foundation.

## 1936

**Mrs. and Mrs. Charles A. Pedigo (Maryruth Martin)** announce the birth of a son, Charles A. Jr., on May 22. They are living in Indianapolis at 504 W. Drive, No. 4 Woodruff Place. . . . **Howard F. Taylor**, research associate at Massachusetts Institute of Technology, was the first recipient of the Peter L. Simpson gold medal of the American Foundrymen's association. Mr. Taylor, on leave from the naval research laboratory in Washington, D. C., was cited for his work in foundry research and his influence on the broadening of naval research in the field of cast metals. Under his direction the naval research laboratory developed an all-purpose molding sand for use at advanced naval repair bases and aboard vessels of the fleet. . . . Working under civil service, **William C. Thielemann** is administrative assistant chief at the Air Training Command headquarters at Barksdale Field, Louisiana. . . . **Ruth A. Ryder** is director of education at the Illinois Children's Hospital-School at 2551 N. Clark street, Chicago.

## 1937

**Mrs. Preston Steel**, the former **Beulah Atkins**, may be reached at 1225 Market street, Wilmington, Delaware, where her husband is senior instructor for the state O.R.C. They have two boys,

**Robert and David. . . . Paul F. Brinen** is quality control engineer for the Young Radiator company in Racine, Wisconsin. . . . A daughter, Martha Mary, was born June 24 to Mr. and Mrs. **Lawrence Distel** of 529 Charles street, East Lansing. . . . **Dr. Donald Droleit** is resident physician at St. Joseph Hospital in Ann Arbor, Michigan. . . . **George Hyatt Jr.** is associate professor of dairy husbandry at West Virginia university, and lives in Morgantown at 204 Elmhurst. . . . **R. W. Mason Jr.** has joined the development and research division of the International Nickel company Inc., with headquarters in the General Motors building in Detroit.

## 1938

**Harmon Cantrell** was instantly killed on August 2 by an electric shock in a sawmill he operated in Sand Point, Idaho. He is survived by his wife and two daughters. . . . **William D. Bell** is assistant manager of the Hotel Penn-Alto in Altoona, Pennsylvania. . . . **Graydon Benn** recently joined the staff at Michigan State as extension specialist in animal husbandry, and lives in East Lansing at 932 Forest. . . . **Norman Boettcher** manages the Caribbean Canning corporation with headquarters at Cadenas, Cuba. . . . **Arthur Brandstatter**, chief of the East Lansing police department since last February, has resigned to become assistant director of the College police administration school. . . . **Richard and Florence (Carter, '39) Drullinger** are located in Traverse City where he is employed in the soil conservation service. . . . **Norine Erwin** is now Mrs. C. W. Gilman and may be reached in care of Lt. Gilman, Dental Dispensary, NAS, Alameda, California. . . . Mr. and Mrs. Benjamin Hassell (**Erna McKenzie**), of 222 E. Elm street, Lansing, announce the birth of a daughter, Erna Carolyn, on May 21. . . . **Stuart C. Hildebrand**, who received his M.S. with the class, has returned to the College as extension specialist in farm crops. . . . **W. H. Krehl** is engaged in dairy products production as superintendent of Crowley's Inc. in Miami, Florida, where he and Mrs. Krehl (**Frances B. Brown, '34**) live at 426 N.W. Third avenue. . . . **Edward McAllister** is located in Petersburg, Virginia, as forester in the lumber division of the American Hardware company.

## 1939

**Margaret M. Anderson** and **A. Roger Pitsch** were married on May 18 and are at home on R. 1, Alto, Michigan. . . . Drawn up in proper army form was the following extract from "Special orders, number 1: Having reported this headquarters on 5 June 1946 in compliance with secret orders and weighing in at 7 pounds and 14 ounces, **VICKI LYNN EKLUND** is assigned to duty as Directress of Household in the home of **Lowell and Della Mae Eklund**, 2600 16th street South, Arlington, Virginia, and attached thereto for rations and quarters. All previous regulations, menus, policies and parents' rights out are hereby rescinded." . . . At Purdue University's June commencement, Ph.D. degrees were conferred upon Mr. and Mrs. Samuel O. Thomas. Mrs. Thomas is the former **Orpha Mae Huffman** who received her M.S. with the class. . . . Mr. and Mrs. Eugene Campbell Willings (**Mabel Ruth Doyle**) of 719 Washington avenue, Alpena, Michigan, announce the birth of a daughter, Bonnie Kay, on May 27. . . . **Charles Larwood** who received his Ph.D. with the class, is dean of pharmacy at the University of Toledo. . . . **Arthur H. Mann** is located in Louisville, Kentucky, as paint chemist for the James-Dabney company. . . . **Dorothy Osburn** is stationed in Tokyo with the American Red Cross. . . . **S. J. Ryckman**, a former lieutenant junior grade in the Navy, is now on the civil engineering staff at the University of Maine in Orono. . . . **Spencer Spross** is an industrial chemist for the Apte Tampa company in Tampa, Florida. . . . **Donald Western**, who received his M.A. with the class, was awarded his Ph.D. at the June commencement at Brown

university where he will remain on the mathematics staff. He lives in Providence at 150 Brown street. . . . **Woodrow A. Yared** announces the opening of law offices at 1307 Grand Rapids National Bank building in Grand Rapids, Michigan.

## 1940

**William L. Dewey** was separated from service in January and is employed at Ernst & Ernst in Detroit where he and Mrs. Dewey (**Ruth Kittridge**, '41) live at 17543 Edinborough. They have three daughters, Barbara, Linda, and Janet, and a son, born August 6. . . . **Carl F. Dietz**, who received his M.S. with the class, is production manager for the Corneli Seed Company in St. Louis, Missouri. . . . **Dr. Gerald Drake** is a patient at the University Hospital in Ann Arbor, and Mrs. Drake, the former **Martha Gower**, '39, is making her home in Ann Arbor at 1005 Cornwell place. . . . **Clyde Anderson** and **Geraldine Gifford**, '41, were married June 23 and are making their home at 2713 Haley, Midland, where he is employed at the Dow Chemical company. . . . **Leona Gordon Platt** has joined her husband, Lt. Col. **Robert G. Platt**, '39, at his Army base on Saipan, and they report: "We are comfortably settled in an attractive quonset hut and are looking forward to a rather pleasant year or so on this tropical isle. The flowers are beautiful and much different than those in the States. The red Hibiscus and the Royal Poinciana are particularly brilliant and breathtaking. We are attempting to grow some tomato and pepper plants but are rather dubious of the results. For entertainment we have plenty of movies, USO shows, dances, and swimming beaches. There are several other Army and Navy families here now so we will have a real community one day." . . . Major and Mrs. **John G. Hemans** announce the birth of a daughter, **Alice Janet**, on July 17. . . . "Daughter number five" **Nancy Joan** was born July 8 to Mr. and Mrs. **Edward Hirn** (**Doris Hooker**) of 129 Bailey, East Lansing. . . . Lt. Comdr. **Robert C. and Virginia Pfander Mayo** are located in Corpus Christi, Texas, where he is executive officer of the cadet regiment at the Naval Air station. . . . **Penny Sue** was born June 18 to **Capt. Garth B. and Christine** (**Horn**, '41) **Oswald** of Scott Field, Illinois. . . . **Charles and Ruth Mairy** (**Stone**, '42) **Scribner** announce the birth of **Robert Charles** on June 8. . . . A son, **Robert W. Jr.**, was born April 15 to **Robert and Janet O'Hara Richardson** of 312 E. Jefferson, Ann Arbor. . . . Mr. and Mrs. **D. W. Schang** announce the birth of their second daughter, **Marilee Kaye**, on July 3. The Schangs live in Wexford, Pennsylvania, and he is employed at the American Bridge company at Ambridge

and his wife and two daughters are temporarily located at 129 E. Pearl street, Coldwater, Michigan. . . . **Harold and Eleanor Shaw Ringelberg**, of 715 Sheldon road, Grand Haven, Michigan, announce the birth of **Carole June** on June 1. . . . **Gordon Erickson** (formerly **Gordon Solberg**) is employed by the Brandt company in Cleveland where he is temporarily located at the Hotel Sterling. Mrs. Erickson (**Martha Jane Edgar**, '42) and **Catherine Lou**, who celebrated her first birthday on June 27, are making their home at 3255 Glendale, Detroit. . . . **Almo Squitiero** has been transferred by the U. S. Rubber company to Schenectady, New York, where he is sales and service engineer. . . . **Patricia Wood** gives her address as Hqs. 1400th AAF BU, EURD, ATC, APO 741, % Postmaster, New York City, and reports that she has resigned from the American Red Cross to accept a civilian job with the Air Transport Command. She is secretary to the commanding officer at Orly Field, just a few minutes out of Paris, and the first plane to land after she started work was the one bearing Mr. Byrnes and his staff for the Peace conference. . . . A son, **Erwin Clarence**, was born June 23 to Mr. and Mrs. **Worthe Clark** of 251 Electric avenue, Rochester, New York. Mrs. Clark was the former **Carolyn Ward**.

## 1942

**Kenneth Ash** lives at 540 Fairmont, Mt. View, California, and is employed as a broker with realtor **Harry Hoefler** in Los Altos. . . . Mr. and Mrs. **Burton Drummond** announce the birth of a son, **Robert Burton**, on June 16 (just six days before his father returned to civilian life). . . . **Dr. Katherine Jean Crawford** is located at the City Sanitarium, 5400 Arsenal street, St. Louis, Missouri. . . . **Robert Dunlap** is plant engineer at Aluminum Company of America in Detroit where he lives at 5785 Three Mile drive. . . . Discharged in February, **William H. Faust** is located in Manila as civilian personnel manager of the Army Exchange Service. . . . **James S. Guy** is chief of police at Cadillac, Michigan. . . . **Gerald Hath** is herdsman at the Dr. Douglas farm on Route 1, Sylvania, Ohio. . . . **George T. Hilliard** is assistant traffic superintendent for the New York Telephone company in Yonkers where he lives at 383 Warburton avenue. . . . **C. S. and Irene Brintnall Hungerford** announce "a new candidate for 4-H clubs in 1956, **Nancy Irene**, on August 14." . . . **Elene King** and **Richard Plack** were married in December 1945. . . . **Robert M. Johnson** was discharged from the Army on June 1 and has returned to his former job as engineer with the Aluminum Cooking Utensil company, with residence at the Aluminum Club in New Kensington, Pennsylvania. . . . **John and Marjorie Klepser Johannot** are located in Milford, Michigan, where he is civil engineer at the General Motors Proving ground. . . . **Pamela Joy** was born to **C. William and Lucile** (**Coe**, '44) **Loveland Jr.**, of 420 E. Tennessee avenue, Oak Ridge, Tennessee, on their fourth wedding anniversary, July 27. **Pamela** and her brother **Peter**, three years old on August 19, are grandchildren of **Clarence**, '15, and **Hazel Rosenquist**, '16, **Loveland**. . . . A son, **John Lawrence**, was born February 16 to Mr. and Mrs. **Donald J. Maloney** (**Betty Pease**) of 18126 Fielding, Detroit. . . . Mr. and Mrs. **John H.
