The M. A. C. RECORD

ESTABLISHED IN 1896

M. A. C. Cannot Live on Her Past—What Will You Do for Her Future?

Entered as second-class matter October 30, 1916,
at the post office at East Lansing, Michigan,
under the Act of March 3, 1879.

Published every Friday during the College Year
by the Michigan Agricultural College
Association.

E. W. Ranney '00, Greenville - - - Pres.
H. C. Pratt '09, Lansing - - - Vice Pres.
W. K. Prudden '78, Lansing - - - Treas.
J. B. Hasselman, East Lansing - - Acting-Editor
Members of Executive Committee.
Elected at Large:
C. S. Langdon, '11, Hubbardston.
A. C. Anderson, '06, Flint.
Mrs. Helen Esselstyn Wood, '09, Lansing.

MEMBERSHIP IN THE M. A. C. ASSOCIATION
which includes subscription to the
Record, \$2.50 PER YEAR.

Make Remittances payable to the M. A. C.
Association.

Unless members request a discontinuance it will be
assumed that a renewal of membership is desired.

THE M. A. C. RECORD

VOL. XXVII. No. 28

EAST LANSING, MICHIGAN

MAY 5, 1922

INAUGURAL CEREMONIES for President David Friday will be held in connection with commencement exercises next June, according to preliminary plans of the commencement committee of the faculty. A college reception for President Friday and Secretary H. H. Halladay the day before commencement, and a joint program on commencement day itself are included in the plans. The commencement address will be delivered by President Friday himself, with suitable inaugural ceremonies added. Jason Woodman, senior member of the State Board of Agriculture, and others are expected to take part in the program.

MISS EUDORA SAVAGE, Dean of Women at M. A. C. since September 1919, has announced her resignation to take effect at the end of the college year. While Dean Savage has made no definite announcement of her plans for next year, it is understood that she will re-enter the field of Normal College work, in which she was engaged for several years before coming to M. A. C. Miss Savage has done a great deal of research work along advanced educational lines, and she expects to take up specialized work in this field.

AGRICULTURAL LECTURES by radiophone are the latest educational feature of the college extension service. Through arrangement with the Detroit News, different agricultural specialists from the college go to Detroit each Saturday and deliver fifteen minute talks into the News distributing station. These messages are received over the entire country and are proving an effective and unique method of extension work.

SOPHOMORES won the inter-class track meet held on college field last Saturday, running up a total of 58 points as against 29 for the Juniors, their nearest competitors. Very good time was recorded in several of the events, in spite of the fact that varsity men were not permitted to compete.

ANOTHER NAME has been added to the list of M. A. C. dairy department cows that have broken records for milk production. Pauline Mutual Margolyn, a cow bred and raised at the college, has just broken the state record for seven days' production of milk, for senior three year old Holsteins.

THE SOPHOMORE PROM will be held in the gymnasium on Saturday evening, May 6. For the first time in the history of the sophomore class parties at M. A. C. the affair this year is to assume proportions comparable with the Junior Hop. Special decorations, a ten-piece orchestra, and other "trimmings" will be provided to make the dance a real event on the year's social program.

THE MICHIGAN AGRICULTURIST, monthly magazine published by students of the agricultural division, was recently granted membership in the American Association of Agricultural College Magazines. Gaining admission to the national association during its first year of publication is regarded as a distinct achievement for the Agriculturist and an indication of its rapid rise to national standards and recognition.

REPORT OF WAR DEPARTMENT INSPECTORS who examined the M. A. C. artillery forces early in April has placed the unit first among similar college military forces in the country, as far as detailed work is concerned. Lack of sufficient men in advanced elective courses resulted in an official ranking which placed the M. A. C. unit fifth, although the inspectors remarked that "the detailed work of the unit was surpassed by but one other, if any."

RAYMOND ROBBINS, well known lecturer, addressed a student convocation in the gymnasium last Monday morning at eleven o'clock. All classes were dismissed for the occasion.

A HEBREW PROGRAM will be given by the Cosmopolitan Club of the college at a meeting Friday night, May 5. Discussion of Hebrew literature will be led by Prof. W. W. Johnston of the English department and H. E. Segelin, '22.

INTERSOCIETY BASEBALL competition got under way last week, with teams in all blocks of the series playing. Interest in intra-mural sports is increasing each year, with the result that literally hundreds of men who never win a place on varsity squads get the benefit of competitive athletic work.

A FIELD DAY for all men who have taken part in the spring football training will be held Saturday morning. Special cups will be awarded winners of the different events, which include punting, passing, goal kicking, drop kicking, and sprints.

EAST LANSING'S BUSINESS ROW, along Grand River Avenue across from the campus, has undergone a complete change of personnel in recent weeks. The Smoke Shop, operated by C. A. Washburn '17, and Hank and Frank's barber shop, known to generations of M. A. C. men, have taken quarters in the same room in the new business block near the corner of M. A. C. Avenue and Grand River. A shop carrying a complete line of ladies' furnishings has been opened in the same building, while the Wildwood Tea Room is doing business in quarters on the second floor of the new block. A bakery in the room recently vacated by Hank and Frank completes the list of new "college business houses."

Dr. Beal Seriously Ill.

Word that Dr. W. J. Beal is very seriously ill at his Amherst home will be received with sorrow by his hundreds of friends and admirers among the M. A. C. family. A letter received from Ray Stannard Baker this week by Dr. W. O. Hedrick says that physicians hold out but slight hope for Dr. Beal's recovery. That he may win his present fight with sickness and continue for many years of active leadership as the "Grand Old Man" of the Michigan Agricultural College, is the prayer of Dr. Beal's host of loyal friends.

President Friday to Deliver Founders' Day Address.

A wireless message to all alumni associations, to be sent from East Lansing on Saturday evening, May 13, by President David Friday, is the latest feature planned in the arrangements for recognition of Founders' Day.

A joint meeting of the Central Michigan Alumni Association and students and faculty of the college will be held in the Gymnasium Saturday evening at eight o'clock. Short addresses by President Friday, and by representatives of the alumni, student, and faculty groups will be given, while music and other entertainment features are to be provided. While plans are not complete, it is probable that a Union dance will be held immediately after the program, in order to provide a complete evening.

President Friday's message will be sent out by radio at eight o'clock, fast time, from the sending station at East Lansing.

All associations holding meetings Saturday evening, in accordance with the plan of simultaneous gatherings to celebrate Founders' Day, will be able to make arrangements for installation of receiving outfits to "catch" the address at that time. Further information as to the wireless program will be sent to all associations when plans are completed.

Several associations have already made plans for Founders' Day meetings, while practically all are considering some sort of gathering in honor of the occasion. The following incomplete list includes those groups from whom word has been received at the alumni office:

The New York alumni will meet at The Clarendon, 135th Street and Broadway, on Friday evening, May 12, instead of May 13.

Flint alumni will observe Founders' Day on Thursday evening, May 11, at the Dresden Hotel.

Grand Rapids alumni are planning to gather, but have not decided on the place yet.

The Chicago association will hold a banquet Saturday evening, May 13, at the Palmer House, State and Monroe Streets, in the Victorian Room at 6:30 p. m. It is also the occasion of the annual get-together and it is rumored that there will be "eats, and eats, and talks, and dancing and other amusements."

The Washington, D. C., people are planning

to commemorate Founders' Day, but details have not been arranged yet.

Economy to Mark Friday Administration.

That strictest economy would be the keynote of the first year of President Friday's administration of executive affairs at M. A. C. was indicated by action of the State Board of Agriculture at a special meeting last Monday.

Authorization of a plan to cut down the expenditures of the college by many thousands of dollars was given by the Board at this time. Elimination of all possible duplication of work, general readjustment of the salary scale, and economy in the handling of all affairs of the college were included in the program outlined.

It is understood that the move is made necessary by the limitations of the budget. If the college is to stay within its income and at the same time have funds available for expansion in lines that may be deemed vital in the future, curtailment of the present budget is necessary, according to authorities.

New Home Economics Building Located.

Final selection of the site for the new Home Economics building was made by the State Board Monday. Present plans call for the removal of Howard Terrace, in order that the building may be located where the Terrace now stands.

The building committee of the Board, consisting of Mr. McColl and Mrs. Stockman, examined Howard Terrace last week and reached the conclusion that the old dormitory had nearly reached the end of its period of usefulness anyway. Confirmation by Olmstead Brothers, consulting architects, is all that remains to make the selection of the proposed site final.

Plans for the H. E. building are rapidly nearing completion, and work will be started in the near future.

NECROLOGY

MRS. EDNA CHAMBERLAIN BROWN, '11.

Mrs. Herbert L. Brown (Edna Chamberlain '11) died in Lansing, early Tuesday morning, May 2, following a short illness and operation. She is survived by her husband and two children.

THE SORORIAN ALUMNAE held their April meeting at the home of Bess Turner '16, in Lansing. A business meeting followed dinner. The Sophomore and Junior active members were guests of the evening. The next meeting will be held at the home of Alice Wood Irvin, on South Cedar Street, the last Wednesday in May.

ATHLETICS

Track Captain Wins Event in Drake Relays

DeGay Ernst, captain of the varsity track team, won the 440-yard hurdles at the famous Drake Relay carnival at Des Moines last Saturday. In winning this event, Ernst defeated the fastest men in the Western Conference, and incidentally bettered the time made in the quarter mile hurdles at the Pennsylvania Relays the same day.

The Drake victory gives the M. A. C. star real national prestige, and ranks him among the leading track men of the country. Ernst has been conceded to be one of the best men in the state for the last two years, but Saturday's performance has been his first real bid for national honors. A third in the Western Conference 440 yard dash last June had been his best previous performance.

Ernst's time at Des Moines was 54.4-5 seconds, as against a mark of 58 seconds hung up at the big Pennsylvania Relays. The world's record, held by Gus Desch, of Notre Dame, is only a second faster than Ernst's Saturday performance.

The only other M. A. C. entry at Drake was also a winner. Coach Bert Barron's two mile relay team, composed of Hartsuch, Baguely, Brendel, and Huston, won the college two mile event. Although the larger universities were barred from this special event, competition was keen and the M. A. C. victory marked a real achievement.

Three dual meets are scheduled for college field on the next three Saturdays, DePaul, Oberlin, and Ohio State University coming in the order named. The entire team will, of course, have a chance to compete in these meets, whereas, only limited entries will be made in the intercollegiate which follow later in the season.

Baseball Team Breaks Even On First Trip

Winning from Kalamazoo College and Armour Institute and dropping games to Notre Dame and Wabash, the varsity baseball team broke even on its trip last week.

Heavy hitting accounted for an 8 to 4 victory over Kalamazoo in the opening game of the trip. Hits, combined with two bases on balls, brought in six runs in the third inning and put the game on ice. Bub Kuhn worked in the box for M. A. C., turning in a well pitched game.

The best game of the series from the point of view of good baseball found the varsity on the short end of a 3-2 score with Wabash. Good pitching and fast defensive play kept the score down on both sides. Ross pitched for M. A. C., letting the Little Giants down with seven hits, but his mates were unable to accumulate enough runs to win.

The Armour Institute game resembled a track meet and football game combined. When the score keepers finally completed their computations the result was found to be a 31 to 7 victory for M. A. C., a near-record for college ball games. The Chicago team seemed unable to put a pitcher in the box and all the varsity men fattened up their batting averages handsomely.

Notre Dame's slugging Irishmen found Wenner, recruit pitcher, for four runs in the opening inning of the game at South Bend Saturday, and held their lead throughout. The final score was 12-6 in Notre Dame's favor, the game being even after the first two innings, during which the varsity experienced its customary inability to settle down.

Notre Dame Saturday—Michigan Game Rained Out

Notre Dame baseball men are scheduled to appear on the college field Saturday afternoon, May 6, in what is expected to be one of the best home games of the year. The Irishmen have an unusually fast team this year and have been winning consistently in their early games. Coach Morrissey has been pointing his men especially for the game, however, and with pitchers in shape should be able to offer the visitors a real battle all the way. A victory to check against the defeat suffered at South Bend last week will be the aim of the squad.

Rain interfered with the Michigan game Wednesday. Although glimpses of sunshine held out false hopes all through the day, and the visitors were actually on the campus and ready to play, the field proved to be far too wet to make the calling of the game advisable. An effort will be made to bring the Ann Arbor squad to East Lansing later in the season, but it is a question as to whether or not Michigan's full schedule will permit the booking of an added game.

MEETING OF THE STATE BOARD OF AGRICULTURE.

President's Office.

May 1, 1922. 1 o'clock p. m.

Present: President Friday, Mrs. Stockman, Messrs. Woodman, Brody, McColl, and the Secretary.

The minutes of the previous meeting were approved without reading.

On motion of Mr. Woodman, the Building Committee was given authority to begin with plans and specifications, and also to receive bids for the new Home Economics building. The committee was authorized to act with Mr. Bowd, the president, and the secretary in this matter.

On motion of Mr. McColl, the former action of the Board locating the new Home Economics building, was rescinded, and that of Howard Terrace was substituted.

On motion of Mr. McColl, the president and

the secretary were authorized to have a map of the college grounds prepared, showing all heating, electrical, water, and sewage lines, so that a proper study can be made to determine future additions to the equipment.

On motion of Mr. Woodman, Mr. Brody was authorized to sign all vouchers for the Board.

On motion of Mrs. Stockman, Mr. Schepers and Miss Yakeley were requested to submit to the Board a schedule of fees for consideration, at the next meeting. It was also voted to credit all fees to the general fund.

On motion of Mr. Woodman, it was decided to abolish the position of Field Agent for the college at the end of the present year.

On motion of Mr. McColl, Mr. Bowd was engaged as architect for the coming year.

On motion of Mr. McColl, the experimental kiln offered by the Detroit Testing Laboratory for use in the Engineering Building, was accepted and the expense of installation was authorized to be paid.

On motion of Mrs. Stockman, the expenses of Mr. Grover, Mr. Walpole, Miss Hart, and Miss Garrison in attending the conference of the Federal Board for Vocational Education to be held at Chicago, May 8, 9, 10 and 11, were allowed.

On motion of Mr. Woodman, Dr. Coons was requested to furnish the president with detailed information, together with estimate of cost, relative to the proposed pathological program of the college.

On motion of Mr. Woodman, the matter relative to pay for Mrs. Lohman, who is on sick leave, was referred to the president.

On motion of Mr. Brody, Dr. Beal's History is to be distributed to the libraries of all high schools which are on the accredited list for the Michigan Agricultural College.

The following motion by Mr. McPherson was carried:

"I move that the president, with the approval of the Budget Committee, shall review the salary roll for the purpose of eliminating at least \$15,000 of stenographic help from the payroll for the year 1922-1923; for the purpose of reducing the personnel of departments whose expenditures are disproportionate to the results which are being obtained; and for the purpose of effecting a reduction of approximately ten per cent of the salary schedule of the Michigan Agricultural College.

On motion of Mr. McPherson, the meeting adjourned.

MARRIAGES

UNGREN-CHILSON.

Einar Ungren '19 and Lillian Chilson were married at high noon on Wednesday, May 3, at the home of the bride's parents, 120 Euclid Avenue, Jackson, Michigan. They will be at home at 1618 E. Michigan Avenue, Lansing. Ungren is publicity director for the Michigan State Farm Bureau.

H. F. "Sam" Miners Writes of Western Life.

An interesting account of nomadic life in the West, with mountains, trout streams, and outdoors things in general playing a large part in it, is contained in the following letter received at the alumni office recently from H. F. Miners, '13. "Sam" is doing many of the things that the rest of us merely long to try, and he writes about them in a delightfully interesting way. The letter, from which we take the liberty of quoting at length, was sent to C. W. McKibbin, '11.

"In telling of my recent wanderings, perhaps I had best begin at the beginning, which is usually the best way to begin anyway. As you probably know, when I got back from trying to stay on the top-side of a subchaser I found that I had acquired a couple of lungs that didn't function with usual eclat. After about seventeen years (actually eight months) in bed I came out here.

"At that time I really had no license to be alive, but Mrs. Miners insisted that I should not die, so what was I to do? Mrs. Miners is about as much of a fighter as one of those old teams about 1914 that used to chew four or five legs off Michigan. She has kept on insisting ever since so now I've sort of got the habit. I had thought of shuffling off in the spring, but that brings it pretty close to the trout season, and I really ought to go back and catch an old rainbow that swiped one of my flies over in the Blue Range last summer. And then there's a grizzly that wouldn't let me kill him over in the Gore Range. If I stay for the trout season I ought to stay till fall and get that bear. So you see how it is, I never seem conveniently to have the time.

"To be serious, however, I am much better than when I came out here. I had it in both lungs, now one is entirely healed. The other is much better, but still quite a ways from healed. Whether it will ever heal is hard to say. Maybe it will, maybe not. All I can do is keep on trying. If I die tomorrow I've lived a lot. To have watched the sun go down in the desert is something.

"Since coming out here I have wandered quite a little, as much as my condition and the doctor would allow. Last summer I spent high up in the Rockies at a tiny lake. Twenty-five miles from a railroad and ten thousand feet from sea level. Roof of the world. We had a glorious time and I improved a lot.

"I have turned to writing fiction as a source of income. Must eat you know. Of course the government helps me, but that's uncertain as the wind. Just to make things interesting the government has just taken my insurance benefits away. Since that constituted part of our meal ticket it is a bit awkward, but we still eat three times every time the sun goes around. The government doesn't want things to become dull and they go to great lengths to provide entertainment. This thing of being a gloryless war hero has its drawbacks at times.

"The fiction has proved fairly successful, particularly lately. It's hard to break in but once in the sailing is easier. Lately I have blossomed a little. The last check that came in was from Western Story Magazine, not high brow to be sure, but darned good pay.

"I have also been able to land with several of the outdoor publications and while they never made a man rich they are steady. A good hunting or fishing tale usually has a ready sale. In this connection I expect to bring out a book within the next year.

"I suppose after looking at the picture of the lion (enclosed with letter) you wonder how in the name of the Seven Hens of the Iriwadi a man who is supposed to be a half invalid can stand the strenuous sport of lion hunting. Well he can't but there is nothing to prevent him trailing along on an old grandma cow pony while the dogs and the rest of the party chase the lion over sixteen mountain ranges and a hill. That way a fellow gets in at the death without much exertion and he still has a flock of fun. Incidentally try climbing up a tree and taking a picture of an old papa lion at a distance of four feet. They're not dangerous but it will give you something to talk about—and something to dream about.

"This summer Mrs. Miners and I are planning quite an extended trip. Principally I am going in order to gather material for stories but as a sideline I expect to snake a few steelheads out of Lake Tahoe, Cal. We expect to leave here about the middle of June and go out through the northwestern corner of the state to Salt Lake City, thence about eight hundred miles through the Utah and Nevada deserts, leaving Nevada at Lake Tahoe. Thence down the California mountains, taking in Yosemite, Sequoia National Park, Mariposa Big Trees, Gen. Grant Park, and down to Los Angeles. The trip will take from two to three months and if the climate agrees with me we will probably make our future home somewhere in Southern California. Next winter we want to go to Arizona for about four months, taking a look at the Grand Canon while there. If you know of any nice spots there let me know.

"Again I suppose you wonder how a half invalid can do such things. The answer is—Mrs. Miners. She can drive a car over any mountain range or desert that ever got up in the morning to look at the sun. And she can cook a steak over a camp fire that will change your whole scheme of life. And until three years ago she had never been out of the Middle Western States. I guess that's about enough about me. You are probably bored to death by this time anyway. Now a little about the college.

"I notice in the Record that there is an agitation to change the name. Why in the name of heavens don't they get busy and change it? The old name was always a misnomer anyway. It is not any more Michigan Agricultural College than I am the Sultan of Turkey. Call it Michigan State or Wolverine

University or something that describes it. Out here no one would know what you meant if you said you graduated from 'M. A. C.' They'd think it was a shorthand school. Say 'Michigan State' and they know."

—H. F. Miners, '13.

CLASS NOTES

'82

Liberty Hyde Bailey and his daughter Ethel returned to Ithaca, N. Y., on April 18 from the Windward Islands, where Mr. Bailey spent the winter making botanical collections for his private herbarium and museum.

'89

R. H. Wilson has changed his address to 1524 Vine Street, Lansing.

'10

Sam Hagenbuch says he is busy "raising Airedales and feeding baby chicks." He thinks perhaps he will have some farming to do if it ever stops raining. He is the owner of the "Degree Farm" near Three Rivers, Michigan.

'13

Earl Meyer is now getting his Record at the Roosevelt American Legion Hospital, Battle Creek.

W. S. Cumming has moved from Detroit to 11 West Second Street, Monroe.

'14

As a result of renumbering the houses in Jackson, Ralph Dodge finds himself living at 1107 South Milwaukee Street.

J. DeLoss Towar and Marion Sly Towar have moved to 1322 Chelsea Avenue, Lansing.

'15

Captain Donald Stroh of the 59th Infantry is now stationed at Vancouver Barracks, Vancouver, Washington.

Mr. Gustav Donald, husband of Addie Gladden Donald, died the latter part of April. Mrs. Donald may be addressed at 861 Summit Avenue, Blue Island, Illinois.

'17

Austin Pino and Eugenia Armstrong Pino are living in East Lansing at 240 Michigan Avenue.

'18

Stanley Sargent may be reached at Shelby, Michigan.

'20

Bertine Cole has moved in Lansing to 1232 Michigan Avenue, West.

Robert T. Roblin is living in Jackson at 808 Francis Street.

Edwin R. Clark has been transferred from the Owosso branch of the Connor's Ice Cream Company to Lansing.

H. R. Pettigrove may be addressed at the Experiment Station at Chatham, Michigan.

'21

McGlenard Williamson has changed his address to 410 Clinton Street, Detroit. He says that when the roll is called at Commencement he'll be there.
