AGRICULTURAL HALL

**MICHIGAN STATE
COLLEGE**

Veterinary Dean C. S. Bryan Dies; Dr. C. F. Clark Appointed Successor

Dr. Claude S. Bryan, 43, dean of the School of Veterinary Medicine at Michigan State College, died suddenly July 30 in the University Hospital at Ann Arbor following a short illness.

The death of the capable and popular administrator came as the college's new \$2,500,000 veterinary medical center was nearing completion.

Hannah Laments Loss

Said President John A. Hannah:

"In the death of Dean Bryan, Michigan State College has sustained a loss from which it will be difficult to recover. His untimely death is all the more regrettable because he will not see put into use the fine new building being constructed to house the school, including the Department of Bacteriology in which he taught for nearly 20 years."

To succeed Dr. Bryan, dean for four years, the State Board of Agriculture named Dr. Chester F. Clark, head of the MSC Department of Surgery and Medicine and state veterinarian from 1946 to 1949.

Dean Bryan had been at Michigan State College since 1932. He received his B. S. degree from Pennsylvania State College in 1930, and his M. S., Ph. D., and D. V. M. degrees from MSC between 1932 and 1942.

Became Dean in 1947

In 1947, Dr. Bryan became dean of the School of Veterinary Medicine following the retirement of the late Dr. Ward Giltner. He was a widely-known educator and scientist, particularly in the fields of bovine mastitis and dairy hygiene. He had written more than 100 journal articles, in addition to numerous bulletins, and held high offices in many scientific and honorary organizations.

Dean Bryan is survived by his wife, two daughters, five brothers and two sisters.

Dr. Clark Joined Staff in 1929

Dr. Clark joined the Spartan staff in 1929 after receiving his D. V. M. degree at MSC. The 52-year-old veterinary surgeon became head of the Department of Surgery and Medicine in 1949 upon his return to the college from his work as

Bryan

Clark

state veterinarian of Michigan.

Also popular with the students, Dr. Clark was one of the top-ranking teachers in a teacher popularity survey conducted some years ago among MSC alumni.

Dr. Clark's research activities in the field of cattle diseases have resulted in many significant contributions to veterinary progress of the nation. He has published extensively in professional journals, many of which have dealt with the problem of brucellosis in dairy cattle and with bovine reproduction.

MSC Gets Top Recognition For Public Relations Work

Top national recognition was given the Michigan State College Department of Information Services during the summer at annual conventions of the American College Public Relations Association and the American Association of Agricultural College Editors.

Win Five Awards

The department won four out of 15 top awards made for outstanding public relations projects at the ACPRA meeting and an additional award at the AAACE meeting.

Three of the awards went for departmental efforts under the supervision of W. Lowell Treaster, director of information services; another went for a sports project handled by Fred Stabley, sports editor in the department; and the AAACE award went for agricultural extension work directed by E. C. Richardson.

Col. G. S. Bond Heads Expanded Air ROTC

A new commandant and two new options for training will be awaiting Michigan State Air Force ROTC students when they return to school this fall.

The new commandant is Col. Graeme S. Bond, former commanding officer of the 56th Fighter Interceptor Wing, Selfridge Air Base, Mich. Col. Bond took over his new post Aug. 21, replacing Lieut. Col. George O. Commenator.

A veteran of 21 years, Col. Bond has more than 3,000 flying hours. He received his wings at Kelly Field in 1931, after graduating from the University of Illinois.

The 41-year-old Chicagoan has served as a pilot and administrator with Air Force units from Hawaii to Japan. Before going to Selfridge Field, he was deputy director for statistical services, Air Force headquarters.

Heads Expanded Program

Col. Bond will head up an expanded Air Force ROTC program which includes two new options, one in flight operations and the other in general technical work. The new course offerings are expected to increase enrollment in the air unit at MSC from 1,000 to 1,400 next fall.

Starting in 1953, the Air Force unit will graduate 290 second lieutenants annually compared with this year's class of 98, Col. Bond said. These men will graduate from the two new courses and the already existing options in maintenance and engineering and administration and logistics.

The new flight operations option is designed as a complete pre-flight program to prepare students for flying schools of the Air Force. In order to qualify, students must be physically fit for flying duty and must agree to enter flight training upon graduation.

The general technical option introduces the student to primary technical fields and related equipment used in the USAF.

Receives Fulbright Award

Miss Marilyn J. Stokstad, Lansing, began a year's study this summer at the University of Oslo under a Fulbright scholarship. Miss Stokstad is taking advanced work in the history of art.

THE RECORD

Vol. 56—No. 6

ALVIE L. SMITH, Editor

September 15, 1951

JOHN C. LEONARD, '48, and RICHARD J. DANDENEAU, Associate Editors

STARR H. KEESLER, '41, Director of Alumni Relations; GLADYS FRANKS, '27, Recorder; FRED W. STABLEY, Sports Editor; EDWARD M. ERICKSON, '48, Assistant Sports Editor; MADISON KUHN and JOSEPH G. DUNCAN, Historians; JOHN W. FITZGERALD, '47, Agricultural Editor; MRS. BARBARA CAHOON, Artist; W. LOWELL TREASTER, Director of Information Services. Campus photos this issue by EVERETT HUBY, RAY HUBY, BOB BROWN, JOHN BEECH, and JOHN RANDALL, '52.

Member of the American Alumni Council, THE RECORD is published seven times a year by THE DEPARTMENT OF INFORMATION SERVICES, Michigan State College. Entered as second class matter at East Lansing, Michigan, under the Act of Congress, August 24, 1912.

Athletic Group Issues New Ticket Sales Policy

The athletic council, governing body of athletics at Michigan State College, has announced a revised policy for distribution of home football game tickets, effective with the 1952 season.

The policy revision comes as a direct result of difficulties encountered in meeting alumni demand for tickets to the 1951 Notre Dame game.

New Policy Listed

The new policy consists of these points:

1. Students, faculty members and season ticket holders will get first opportunity to purchase tickets, just as in the past.

2. After they have been accommodated, the athletic ticket office will reserve, for a minimum of three weeks after the first day of accepting general applications, the majority of the remaining tickets for alumni purchase on an individual game or season ticket basis. In past years this remaining group of tickets would have comprised approximately 25 per cent of the 50,000 tickets originally available. The exact number depends upon the result of the sales mentioned above under point No. 1.

Advise Season Purchases

Despite this new priority arrangement, alumni demand probably will exceed the supply of tickets for particularly attractive games, such as this year's Notre Dame game. It is recommended, therefore, that alumni should purchase season tickets to help assure seats at all home games.

The same general priority for alumni will apply for away-from-home games.

Robert S. Lintons Recovering From Summer Auto Accident

MSC Registrar Robert S. Linton, recovering from a serious automobile accident and series of heart attacks last spring, will be back at his familiar desk in the administration building this fall.

Registrar and Mrs. Linton were injured April 13, when their car went out of control and struck a tree in Poplar Bluff, Mo. They were on their way to the Registrars' National Convention in Houston, Tex.

Mrs. Linton suffered fracture of both legs, but has improved steadily, graduating "from crutches to canes," Linton said.

Linton was hospitalized in Missouri and later in Edward W. Sparrow hospital, Lansing, with a series of heart attacks following the accident.

Michigan State Completes Modern Kellogg Center

EDUCATION FOR THE PEOPLE: MSC's modern seven-story Kellogg Center, opened this month, ranks as one of the foremost adult education centers in the U. S. The \$2,000,000 structure contains facilities for accommodating conference or study groups totaling 400 persons. It also will serve as a top-flight working laboratory for hotel and restaurant management students.

Michigan State College Opens Giant Adult Education Center This Month

Michigan State College has unveiled its newest and most unique educational structure—the Kellogg Center for Continuing Education—which may serve as a model for adult education centers of the future in the United States.

Kelloggs Give Large Grant

The \$2,000,000 building is believed to be the foremost structure of its type in the nation. Financed largely through a grant from the Kellogg Foundation of Battle Creek, the modern seven-story building was scheduled for completion by Sept. 15.

The Kellogg Center is designed primarily to accommodate the thousands of Michigan residents who come to the MSC campus each year for special courses and conferences designed to help them improve their vocational abilities and everyday living.

The building contains 193 hotel-type double rooms, dining facilities for more than 1,000 persons, an auditorium seating 355 persons, 15 conference rooms with seating capacities ranging from 10 to 100, equipment and audio-visual rooms and other informal meeting areas.

The Kellogg Center contains facilities for conducting the on-campus phases of all programs of the Continuing Education Service. During the 1950-51 year, more than 125,000 persons, representing

250 separate groups, were served by the service. With the completion of the new building, this total is expected to near the 250,000 mark by 1953.

The building also will provide hotel and restaurant management students with one of the best working laboratories in the country.

Special laboratories will be devoted to restaurant practice, furnishings, mechanical equipment, groceries, and accounting and front office. Students will serve in positions ranging from bellmen and housekeepers to assistant managers in the operation of the center.

The John Willy Memorial reading room is dedicated to the late John Willy, former editor of the Hotel Monthly trade magazine and recipient of an honorary doctorate from Michigan State in 1937.

Hannah Praises Building

MSC President John A. Hannah said:

"As a land-grant college, Michigan State has always cherished its responsibilities to include all of the people of Michigan in its educational program. The Kellogg Center will provide the facilities necessary for carrying out an expanded program of services, particularly to the adult population of the state. This is a program which will result in a higher standard of living for all Michigan people."

THE AFFAIRS OF STATE

Student Affairs

New courses, opening of the Kellogg Center and a full program of extra-curricular activities will be awaiting new and returning Michigan State College students this fall.

Approximately 12,500 students are expected to register Sept. 17-21, according to Kermit Smith, assistant registrar. This compares with last year's fall enrollment of 14,993 and the record high of 16,243 reached in the fall term of 1948.

Smith added that similar enrollment decreases will be felt all over the nation. Two factors in this drop in college enrollment are the departure of World War II veterans and a drain of younger men for action in the present military crisis.

Summer enrollment rose near the all-time peak. A total of 4,924 students took courses in the first session of MSC's new around-the-calendar college year.

About 3,000 of the expected 12,500 students will be new and transfer students, Smith said. Men will still outnumber coeds by about 8,600 to 3,900, and veterans are expected to number around 1,400.

Heading the list of new courses is a four-year course in American Studies, designed to strengthen the student's understanding of American civilization and the development of American institutions and democracy. A four-year program in Far Eastern and Asiatic Russian Studies also will be put into operation.

Michigan State's new campus-wide television station will provide facilities for expanded and improved course offerings in the television production and engineering fields. Actual production of TV programs got under way this summer during the graduate workshop on television held at the college.

Lectures and Concerts

Returning students also will find another top-notch schedule of lectures, concerts and foreign films on tap for the college year.

A total of 40 programs have been booked, insuring MSC students the pleasure and educational experience of hearing and seeing some of the top performers in the entertainment world.

Among them are Patrice Munsel and Brian Sullivan of the Metropolitan Opera Company; Jascha Heifetz, violinist; the Norwegian Boys' Choir; Myra Hess,

famed British pianist; the Chicago and Philadelphia Orchestras; and the famed Sadler's Wells Theater Ballet.

New to the series is a program titled Rodgers and Hammerstein Nights, which will feature an orchestra and soloists in an evening of music by the composers of "Oklahoma," "Carousel," and "The King and I."

Scheduled dates for these programs are: Rodgers and Hammerstein Nights, Oct. 19; Sadler's Wells Theater Ballet, Oct. 30 and Nov. 1; Kathleen Ferrier, contralto, Nov. 2; Chicago Symphony, Nov. 5; New York City Opera Company, Nov. 19 and 20; Philadelphia Orchestra, Feb. 26; Myra Hess, March 4; Norwegian Boys' Choir, March 7; and Jascha Heifetz, March 11.

Lecturers will be Dr. Will Durant, philosopher, Oct. 9; Dr. Donald P. Wilson, psychologist, Oct. 23; Louis Fischer, writer, Nov. 27; Edward Weeks, editor of the Atlantic Monthly, Dec. 5; Ogden Nash, humorist, Jan. 23; and Rear Admiral Ellis M. Zacharias, Feb. 6.

Twenty-four travel experts and adventurers have also been scheduled for MSC's World Travel Series, among them Burton Holmes, Bob Friars and Glen Cooper.

Two New Courses

Two new four-year courses—American Studies and Far Eastern and Asiatic Russian Studies—will begin this fall at Michigan State College, according to Dean Lloyd C. Emmons of the School of Science and Arts.

The two courses are designed to provide study in the two major conflicting cultures of the world today, Dean Emmons said.

Students in the American Studies curriculum will investigate the social, political, intellectual, cultural and economic patterns in America and American institutions.

Purpose of the course is "to acquaint the student with the basic principles of American civilization," the dean said.

The Far Eastern and Asiatic Russian Studies program will be conducted in a similar manner. Students will study the patterns of civilization in Soviet Russia as well as other Far Eastern and Asiatic nations.

Both programs will be under the Division of Social Science, headed by Dr. Harry H. Kimber. Dr. Russel B. Nye, head of the Department of English, will coordinate the American Studies curriculum.

New Band Uniforms

Splashes of green and white will replace the familiar military colors of Spartan marching band members in the near future—but whether it will be this fall is still a question.

Culminating a year-long student campaign for new band uniforms, the State Board of Agriculture this summer appropriated funds for the purchase of new garb for the band, according to Dean Lloyd C. Emmons, chairman of the band committee.

"Though plans are moving ahead as swiftly as possible, there is still a question as to whether the new uniforms will be available in time for part of this fall's football season," Dean Emmons said.

Exact specifications for the new uniforms have not been decided, Dean Emmons added, but negotiations are being made with commercial companies for drawing up various styles of outfits.

Increase Dorm Rates

Increased labor and food costs have made necessary a four per cent increase in dormitory room and board rates at Michigan State College this fall.

The increase brings men's dormitory rates from \$576 to \$600 a year, and women's rates from \$591 to \$615.

Philip J. May, college treasurer, said, however, "Our rates, even after the increase, are still below the average rates at other Midwest universities of comparable facilities."

"Food prices have gone up about five per cent since last year, and the college's 10 per cent wage adjustment, effective last January, will have to be paid during the whole year in 1951-52," May added.

Refreshed Memories

"Memory, of all of the powers of the mind, is the most delicate and frail."

Ben Jonson gives the introduction for an apology to the class of 1939, which has been slighted in two editions of the RECORD during the past few months.

The last outdoor commencement held at Michigan State prior to 1951 was that of the class of 1939 and not 1938. Dr. E. C. Elliott, president of Purdue University, was the speaker at ceremonies in the bandshell Monday morning, June 12, 1939. Graduates shivered in the cold morning air and many took home sunburned faces with their diplomas, according to the records.

Thanks of the editors go to Miss Betty-luise Salle, '39, Ann Arbor, Mich., for refreshing delicate and frail memories.

THE AFFAIRS OF STATE

Tenth Anniversary

Michigan State College President John A. Hannah began his second decade at the helm of the college this summer, following a 10-year period which saw MSC emerge as one of the nation's leading universities.

When Dr. Hannah became president July 1, 1941, enrollment stood at 6,356. Today, its student body numbers approximately 13,000, ranking MSC as the tenth largest university in the U.S.

In marking President Hannah's tenth anniversary, a United Press dispatch said:

"Today, Hannah at 48 is a nationally recognized educator and school administrator . . .

"More significant than considerable physical improvement in

the college was the broadening of its academic program and boost in educational standards.

"In 1944, the aggressively progressive Hannah instituted a Basic College two year course required for all students.

"In accordance with modern education philosophy, the Basic College course provides a rounded liberal arts education for students before specialization studies in their chosen professions or technical fields.

"During his ten-year reign, the college has completed a \$35,500,000 building program financed partly by the state, but the bulk on a self-liquidating basis. The self-liquidating projects, financed by a bond issue paid off by income from the buildings, are a Hannah innovation and have been the envy of many other institutions and widely imitated."

Also noteworthy during the first decade of President Hannah's direction was the establishment of the Continuing Education Service in 1948 for expanded services to the people of Michigan.

Dr. Hannah is generally considered one of the top spokesmen for American education, not only in general guidance and in relations with the federal government, but as a key official in international educational cooperation.

He served as president of the Association of Land-Grant Colleges and Universities during 1949 and as chairman of the executive committee in 1950. When he was elected to serve a second term as executive committee chairman of the

ALGCU in 1951, he became the first college president ever to be accorded this honor.

He also is a member of the 12-man advisory board for President Truman's Point Four Program.

Most people who have watched Michigan State's dynamic growth have given the lion's share of the credit to the personality, foresight, energies and executive abilities of John A. Hannah. He is the first one, however, to pass off much of the credit to the fine ground-work laid by his predecessor and to the able direction of the State Board of Agriculture.

Chairman Clark L. Brody, Lansing, summed up the feelings of the State Board of Agriculture, when he said:

"In his first 10 years as president of Michigan State College, Dr. Hannah has achieved an enviable record of accomplishments reflecting credit on himself, the state of Michigan and the nation."

Hannah

Faculty Affairs

A Michigan State College economist has been cited by Rep. Gerald B. Ford, Jr., for his work with a federal sub-committee designed to save taxpayers money.

The economist is Henry G. Brainard. The five-man sub-committee was appointed by the house appropriations committee of which Rep. Ford is a member. Sub-committee members succeeded in cutting \$126,210,443 off the national budget which includes money for flood control work, dam building, river and harbor work. This is the deepest cut for any item in the 1951-52 budget.

Dr. Clyde W. Wilkinson, associate professor of journalism, has been elected a member of the board of directors of

the American Business Writing Association. The association is a national professional organization of college and university teachers of business writing.

A Fulbright scholarship has been awarded Dr. Austin L. Moore, associate professor of history of civilization, to work for a year at Farouk I University in Alexandria, Egypt. He will serve as a lecturer in a course on the history of civilization.

Dr. Charles P. Loomis, head of MSC's Department of Sociology and Anthropology, has been selected to direct a nation-wide study of adult education activities among rural people. The project will be undertaken by the Association of Land Grant Colleges and Universities and financed by the Ford Foundation. Dr. Loomis has just returned from Costa Rica, where he directed a rural social study for that country.

The U.S. Office of Naval Research this summer sent a Michigan State College botanist and two graduate students to Alaska to begin a new research project. They are Dr. Gerald W. Prescott, professor of botany and plant pathology, George H. Lauff, Milan, and William C. Vinyard, River Pines, Calif.

The team investigated algae in the fresh water of the Navy petroleum reserve at Point Barrow, Alaska.

Gifts and Grants

Gifts and grants totaling \$158,347.86 were received by Michigan State College during the summer to further research work in many fields.

Largest single grant was from the Great Lakes Steel Corporation of Detroit involving buildings and equipment worth \$26,000. They will be used by the agricultural engineering department as research units to study cattle housing.

To perpetuate the Hinman scholarships for the 1951-52 school year, \$21,950 was received from the William and Sarah E. Hinman Endowment Fund.

The Ford Foundation gave the college \$18,000, through the American Association of Land-Grant Colleges and Universities, to be used by the Social Research Service. The Service will study adult education programs in rural life of the United States.

Additional money totaling \$11,000 was given by the U.S. Atomic Energy Commission, Washington, D.C., for continuation of a study of calcium and cobalt in rats as influenced by hormones and nutrition. The research is being conducted by the physiology and pharmacology department.

On The Cover . . .

Is stately Agricultural Hall, one of the college's best-known and most-used buildings. Constructed in 1908-09, it was the third "home" for MSC's agricultural school after its establishment in 1855 as the first of its kind in the U. S. Its entrance is framed by an assortment of Scotch Pine, Norway Spruce, White Fir and Red Cedar trees which gives it a year-round beauty. The photograph, second in a new series of covers portraying the beautiful MSC campus, is by John L. Beech.

MSC "Adopts" Pacific University In Unique Educational Program

Michigan State College has "adopted" the University of the Ryukyus in its own educational version of the Point Four program of aid to underdeveloped areas of the world.

The project is designed to transplant the basic philosophy and programs of America's land grant college system of education to the newly-formed Pacific university, located near Naha, Okinawa. This is an important phase of the U. S. reorientation program designed to provide a stable economy and democratic form of government to the occupied Ryukyus Islands.

Total Cost Borne by Army

Total cost of MSC's participation in the project will be borne by the sponsoring U. S. Department of the Army.

The project involves the assignment of a resident staff of five MSC professors to the University of the Ryukyus, responsible for setting up and conducting programs in extension and adult education for the people of the Ryukyus Islands in addition to teaching duties in certain fields. The project also calls for an exchange of students between the two institutions and the extension of as many educational facilities and services as possible from MSC to the Okinawa university.

Michigan State was selected for the special assignment because of its strong offerings in agriculture, home economics, education and public administration, in addition to the college's outstanding record in adult education and agricultural extension work.

Director of the program is Dr. Milton E. Muelder, who headed up the education and cultural relations division of the U. S. Military Government in Germany after World War II. At Michigan State, Dr. Muelder is head of the Department of Political Science and Public Administration and director of the Office of Research Development.

Horwood Heads Island Team

Heading up the five-member mission on the islands is Russell E. Horwood, director of the college's extension and research programs in the Upper Peninsula. Horwood was on loan to the government in 1946-47 to set up an agricultural extension program in Japan.

Other MSC faculty members assigned to the year-old University of the Ryukyus are: Political Scientist Guy Fox, who has extensive World War II military government and educational experience in the Far East; Eleanor Dens-

Muelder

Horwood

more, Kent County home demonstration agent; Edward Pfau, Jr., doctoral education student at MSC; and Horace C. King, Department of Business Administration.

The five-member team left the States early in August, and were on hand for the opening of the college year Sept. 10.

President Lauds Project

President John A. Hannah, commenting on the selection of MSC for this project in international education, said:

"Michigan State College is grateful for this opportunity to be of real service to the people of the Ryukyus Islands and to the long-time best interests of American policy in the Pacific. The obligation is accepted with full appreciation of the responsibilities involved, and with determination to do everything possible to make the project a successful one.

"Generally speaking, we hope to be able to implant in the new university the same philosophy which has guided the successful operation of Michigan State College for nearly a century—that all of the resources of knowledge, teaching and research should be brought to bear on the solution of the everyday problems of living people."

Dr. C. H. Spurway, '09,

Noted Soil Expert, Dies

Dr. C. H. Spurway, '09, noted soil scientist and retired Michigan State College faculty member, died July 11 in Lansing.

A recognized authority in the management of greenhouse soils, Dr. Spurway was on the college staff for 35 years before retiring in 1944 due to ill health.

Some of his major contributions included the development of simplified methods of determining lime requirements of soils and available plant food elements.

1951 Alumni Roll Call Is Progressing Well

A total of \$15,000 has been contributed so far by 2,410 Spartan alumni to the 1951 MSC Alumni Roll Call, according to William L. Davidson, '13, director.

The figure compares with \$17,136 from 2,723 donors to the Roll Call at the same time last year, Davidson said. But he added that 1950's Roll Call started three weeks earlier than this year's. The grand total in 1950 was \$22,846 in gifts from 3,900 contributors.

Calls for Increased Support

In commenting on the Roll Call's progress to date, Davidson said:

"If we could hear from 3,000 alumni who wish to be included with a gift of one dollar or more, we surely can equal 1950's gifts and enable MSC to keep pace with other Western Conference schools."

Davidson said that the Roll Call money collected in 1951 will be used to make available 13 High School Alumni tuition scholarships, twice as many as last year; six new research projects; seven new pieces of equipment for the college, in addition to placing \$1,000 in the President's Fund; and seven post-doctoral fellowships to outstanding scholars.

Last year's fund provided for research work in the Department of Zoology, the School of Veterinary Medicine, and the Department of Physical Education for Men. The Fund also provided for a number of small student loans for Michigan State College students.

Adult Education Services

Reached 129,000 in 1951

More than 129,000 persons were served through the facilities of the MSC Continuing Education Service during 1950-51, according to Edgar L. Harden, director.

This total compares with 100,000 served in the same area last year.

Programs Held Around the State

Three divisions of the service—special courses and conferences, business and industry and education and community services—held more than 600 institutes, classes and training courses, both on campus and throughout the state.

In the special courses and conferences department, 70,500 people participated in more than 200 programs, including special courses, adult evening classes, conferences and exhibitions.

About 8,600 persons took part in 163 programs of the business and industry department, and an additional 50,000 people were served through education and community services.

New Post-Graduate Hotel Course Opened at MSC

A new post-graduate course, designed to bridge the college-to-business gap for future employees of the nation's hotel and restaurant industries was launched in August at Michigan State College.

The full-year course, believed to be the first of its type in the nation, is on a non-degree basis, according to Prof. Donald Greenaway, head of the Department of Restaurant Management and Director of the program.

Training Ground Is Kellogg Center

Laboratory for trainees, who must be graduates of accredited hotel or restaurant management schools, will be Kellogg Center.

In addition to special classwork, trainees will spend the first nine or 10 months learning the basic operations of all departments of Kellogg Center. The last months will be spent on the supervisory staff of the center.

Prof. Greenaway said, "We feel this project fills a definite need in preparing college graduates for professional employment. It is designed to close up the chasm between books and business and also to turn out people who can assume more quickly positions of leadership in the field."

MSC Training Project Proves Aid to Industry

A new experiment in industry-education cooperation has proved that the training period for new plant foremen can be cut from six months to one month.

The pilot phase of the program, conducted by the Continuing Education Service at Michigan State and the Eaton Manufacturing Company, Battle Creek, was completed during the summer.

In a seven-month period, more than 80 new supervisors were trained at the special MSC school.

The program, directed by Paul L. Moore, is designed specifically for first-line supervisory personnel. It substitutes a compact four-week course of work in college classrooms and in the company plant for the trial and error method normally used in transforming machinists into foremen.

Orientation time of a new supervisor or foreman usually runs from six months to a year. Graduates of this special MSC course return to the plant after a month to perform their jobs on a par with, if not better than, those trained under the traditional system, according to Harold Dyer, general manager of the Eaton Manufacturing Company.

A. F. Bradleys Raise Their Own Spartan Fan Club

SET GOOD EXAMPLE: When editors of THE RECORD printed a survey last year pointing up that college graduates were not reproducing themselves, they certainly were not referring to the A. Ferris Bradley family of Springport, Mich. Shown above from left to right, are: front row, Sally, 8; Vern, 3; Mrs. Dorothy Mulvena Bradley, '29; Jack, eight months; A. Ferris Bradley, '28; Lois, 5; and Lynn, 7; back row, Ann, 17; Ralph, 18; Alice, 11; Roger, 20; Dennis, 13; and Allaire, 15.

Union, Kellogg Center Headed by Spartan Trio

It's a small world!

Three recent Michigan State alums graduated, went their separate ways and returned to the campus to become the managing team of MSC's Union and Kellogg Center for Continuing Education.

Total Program Under Scott

Leslie W. Scott, '35, is director of both buildings and also heads MSC's Division of Hotel, Restaurant and General Institutional Management.

Scott came to Michigan State College in 1946 after more than five years as assistant general manager in charge of catering services at Chicago's Hotel Morrison.

Dmochowski Manages Union

When Scott was elevated from Union manager to his present posts, Michael Dmochowski, '47, was named Union manager. Previously Dmochowski has served in several managerial capacities in the college's dormitory and food service departments.

Weldon S. Garrison, '46, was appointed manager of the Kellogg Center in August. Garrison spent two years with Chicago's Hotel Morrison and the R. H. Gore hotel chain in Florida and North Carolina before becoming assistant Union manager. He served as acting manager of the Kellogg Center for the past year.

Michigan State Names Four As Honorary Spartan Alumni

Four Michigan men have been named honorary alumni of Michigan State College for their outstanding interest in Spartan affairs, according to Starr Keesler, alumni director.

They are C. B. Dakin, manager of the Oldsmobile Forge Plant, Lansing; Harry Conrad, head of the Christman Construction Company, Lansing; O. J. Munson, Lansing architect; and Glenn MacDonald, editor of the Bay City Times.

First Awards by MSC

This is the first time that such awards have been made by Michigan State College.

The four have been recognized by the college for their continued interest in college affairs and friendliness toward MSC, though none of them are Michigan State graduates, Keesler said.

They will be entitled to all privileges and rights of MSC alumni.

Experts Place Spartans Atop 1951 Grid Heap; Biggie Doesn't Like It

By FRED STABLEY

Like no Spartan eleven in history, Michigan State's 1951 football team is on a hot spot.

Every "expert" in the country has picked the Great Green to be one of the top teams in the nation, and that seriously complicates matters for Coach "Biggie" Munn and company.

Every Team Will Gun for MSC

Now, instead of being just another opponent for powerful rivals like Michigan, Ohio State and Notre Dame, the Spartans can expect to be the target of all-out efforts from every foe.

Part of the big burst of ballyhoo is deserved, but part of it detours the facts. The Spartans have 25 lettermen back from the team which last year won eight of nine games. MSC also has a group of promising sophomores and newly-eligible freshmen going through fall practice paces with the veterans.

Ignored, however, is the important fact that large groups of returning lettermen grace the rosters of most Spartan opponents. It is also true that last year's string of victories was scored over many teams that were experiencing "off" seasons. Chances are strong that Michigan, Notre Dame, Indiana and others won't be quite so docile this time around.

Coleman, Carey Rated High

"I'll be very happy indeed if we come close to living up to predictions made for us," says Coach Munn by way of summing up his reactions to the situation.

Individual Spartans rated very high on the potential All-American lists are Bob Carey and Don Coleman, the giant end and midget tackle who play side by side in the Spartan offensive line.

Other standouts who will give them a hand are right halfback Vince Pisano, 1950 Notre Dame game star; quarterback Al Dorow, a highly underrated player; linebackers Ed Timmerman, Doug Weaver and Bill Hughes and defensive guard Frank Kush.

Big question marks will be at left halfback, where Everett "Sonny" Grandelius, State's 1950 All-American, held firm sway; defensive ends, where Dorne Dibble, another All-American, Hank Minarik and Jim King have graduated; and guard, where three good men, John Yocca, John Tobin and J. C. Williams, are gone. Pass defense, with only Ray Vogt to lend experience, may be a sore spot, too.

Carey

Coleman

Sophomores who may make contributions this fall include guard Don Schiesswohl, ends Tom Saidock and Don Dohoney and halfbacks Rex Corless, Tom Yewcic and Billy Wells.

Expect Little Help from Frosh

Few freshmen figure to make the varsity grade despite their new-found eligibility. Exceptions may be halfbacks Eugene Lekenta and LeRoy Bolden.

All in all, it looks like the Spartans will have a good team but they could end up with a poorer record than last year's 8-1 slate and still boast a fine season.

The complete schedule: At home, Sept. 22, Oregon State; Oct. 13, Marquette; Oct. 27, Pittsburgh; Nov. 10, Notre Dame; Nov. 24, Colorado. Away, Sept. 29, Michigan; Oct. 6, Ohio State; Oct. 20, Penn State, and Nov. 17, Indiana.

Spartans Battle Pittsburgh At Homecoming Oct. 27

More than 10,000 Spartan alumni are expected to return to the MSC campus Oct. 27 for traditional Homecoming festivities, according to Starr H. Keesler, '41, alumni director.

The weekend will be highlighted by the Michigan State-Pittsburgh football game at 2 p.m. in Macklin Field stadium. The Panthers will be out to avenge a 19-0 loss to the Spartans in 1950. Michigan State hopes to keep its post-war string of Homecoming victories intact. Last year, they dumped William and Mary, 33-14.

Registration Begins Friday

Friday afternoon registration in the Union will open the weekend for alumni. Other alumni activities will include the Friday evening pep rally; the Central Michigan Alumni Association smoker in the Hotel Olds from 9 to 12 p.m.; and tours of campus living units to view Homecoming decorations.

Traditional crowning of MSC's Home-

Ex-Michigan Tech Coach Directs MSC Pucksters

Amo Bessone, former ice hockey coach at Michigan College of Mining and Technology, is the new head coach of the Michigan State College hockey squad.

Bessone, who will take over the Spartans' newest sport this fall, succeeds Harold Paulsen. The latter coached Green and White ice squads since 1950 when the sport was revived after a lapse of 20 years.

Paulsen Resigns Post

Paulsen resigned his post to devote full time to work in the physical education department. Along with other duties, he will supervise practice teaching of physical education majors.

The Spartans' new coach comes to MSC after four years at Michigan Tech where his hockey teams enjoyed several successful seasons. Bessone also taught physical education at Tech and served as acting golf coach and assistant football coach.

Bessone

A graduate of the University of Illinois, Bessone is a native of Massachusetts and prepped at West Springfield, Mass., high school and Hebron and Kents Hill academies in Maine.

Played Professional Hockey

The 34-year-old hockey mentor was a three-sports star in prep school but concentrated on hockey and baseball in college.

After graduation, he played professional hockey with the Providence Reds in the American Hockey League and professional baseball with the Springfield Nationals of the Eastern League.

Bessone served four years in the Navy during World War II. He taught and coached at Westfield, Mass., high school before going to Michigan Tech as head hockey coach.

While at Michigan Tech, Bessone sent his team against MSC eight times in two years and captured five victories.

coming Queen will be featured at the Homecoming Ball, scheduled for 9 to 12 Saturday evening.

The fall meeting of the Alumni Advisory Council will be held Friday and the Alumni Club Presidents will meet on Friday and Saturday.

Tickets for the MSC-Pittsburgh football game are still available at \$3.60. Alumni should order from the MSC Athletic Ticket Office in Jenison Fieldhouse.

Cross Country Team Looks Strong for 1951

The Spartans' cross country team, expected to be one of the best in the country again this fall, has a seven-meet schedule featuring the National Collegiates at home Nov. 26.

Only two important men—Warren Druetzler and Don Makielski—are missing from the 1950 team which took second places in the Big Ten and NCAA meets.

Eight Veterans Return

Veteran runners back are Jim Keppford, John Walter, Wayne Scutt, Jerry Zerbe, Ekin Graber, Francis Carey, Walter Schoenegge and Herb Cook.

Help is expected from a number of promising sophomore harriers topped by Lyle Garbe, Dick Jarrett, Ron Barr and Ken Barley.

The complete schedule—At home, Oct. 13, Purdue; Nov. 10, Notre Dame; Nov. 26, National Collegiates.

Away, Oct. 20, Penn State; Nov. 3, Wisconsin; Nov. 16, Conference meet at Chicago, Ill.; Nov. 19, IC4A, at New York.

MSC's Ice Arena Boasts Busy Year-Round Schedule

Michigan State College's Ice Arena is fast becoming one of the more popular skating spots in the country for ice enthusiasts.

The third annual summer ice session held from June 30 to Aug. 25 was highly successful. Plans are being made to increase the number of sessions next summer, according to Norris Wold, manager.

Professionals Conduct Classes

Professionals Guy Owan, Ottawa, Canada, and Ailsa McLachlan, Pittsburgh, were on hand to help train skaters for the U. S. Figure Association tests given at the Arena later. Two ice shows, sponsored by the Lansing Ice Skating Club, were also held in the arena.

The Arena is used throughout the year for public skating, physical education classes and for the Spartan hockey team. Approximately 400 students use the rink each term, Wold said.

Professional Marilyn Homson, formerly with the Ice Follies Review, will be resident instructor this winter.

Football and Home Ec

Sam Breck, varsity manager of the 1950-51 Michigan State hockey team, is the only Spartan major letter-winner ever to receive his degree in home economics. Breck majored in interior designing.

MSC Track Stars Tour Japan with NAAU Team

Spartan Runners, Coach Tour Japan with NAAU

Warren Druetzler and Jesse Thomas, two of the brightest of recent Michigan State track stars, toured Japan this summer with a United States good will track team.

Coach of the team, which was sponsored by the National AAU, was the veteran Spartan track mentor, Karl A. Schlademan.

Runners Make Fine Showing

Druetzler, a middle distance runner who won the NCAA mile championship last spring, and Thomas, a dashman, who is the Big Ten's 100-yard dash champion, both were consistent winners on their tour.

The Spartan distance ace was the big star. His many victories included setting a new Japanese record for the 3000-meter steeplechase. He was clocked in 9:19.2 minutes for the event in a meet at Yawata.

Druetzler consistently beat Kijuo Moriga, Japanese middle distance champ, in the 1500-meter run. Included in the speedy Spartan's 1500-meter victories was a first in the Kyushu Championships.

Thomas Takes Four Places in Meet

Thomas had a big day in a meet at Osaka when he picked up a first in the 110-meter high hurdles and seconds in both the broad jump and 100-meter dash.

Michigan State's great all-around athlete Bob Carey was also invited to make the trip to participate as a shot-putter, but the lanky star attended ROTC summer camp instead. Carey set a new MSC record last year with a heave of 53 feet, 2½ inches.

TOUR JAPAN: Heading a U. S. track and field delegation on a tour of Japan this summer were Michigan State's track coach, Karl Schlademan and Spartan stars Warren Druetzler, left, and Jesse Thomas, right. Schlademan and his top performers are being welcomed to Osaka by WAC Sergeant Ellen Cook of Flint.

Munn Holds Grid Clinics In Germany and Hawaii

Coach "Biggie" Munn had a busy summer with flying "vacations" to Europe and Hawaii to conduct coaching clinics. His first international junket was a tour of the U. S. zone of Germany, where the Spartan grid mentor gave coaching tips at U. S. Army occupation bases.

Clinics Are Well Received

On the European trip, Munn was accompanied by Fritz Crisler, University of Michigan athletic director, and other outstanding collegiate coaches from all over the United States.

Munn reported that the clinics were well-received and voiced the belief that they would be continued at least for the next few years.

Visited Four Hawaiian Islands

The MSC coach had only a short stop-over before winging his way to Hawaii to conduct coaching schools sponsored by the Honolulu Coaches Association.

Along with his 10-year-old son, Mike, Munn made trips to four islands in the Hawaiian group.

The 1951 trip marked the second straight year that Munn visited the islands for clinics.

FOLLOWING ALUMNI CLUBS

By Starr Keesler, '41

MICHIGAN CLUBS

Branch Alums Picnic

Fifty members of the Branch County Alumni Club joined forces July 19 for a picnic in Coldwater. Jim Nash, '35, presided over a business meeting which saw the following officers elected: Bill Winemiller, '26, president; Hale Pearce, '28, vice-president; and Mrs. Ralph E. Kirch, '48, secretary-treasurer. Members also heard a talk by John McGoff, '50, assistant director of alumni relations.

U.P. Clubs Meet

June 13 and 14 brought out a total of fifty alumni for Upper Peninsula meetings. The Keweenaw-Houghton-Baraga Alumni Club held a dinner meeting at the Scott Hotel in Hancock. Thirty alumni in attendance viewed the film "Postmark East Lansing" and the 1950 Notre Dame-Michigan State football game. Principal speakers of the evening were Jack Breslin, '46, assistant alumni director, and William L. Davidson, '13, director of the MSC Fund. Charles L. SanClemente, '40, acted as toastmaster.

Twenty members of the Iron County Club turned out the following evening, June 14, at Bates School in Stambaugh. A temporary board of directors was elected and plans made for a meeting in the fall. Jack Breslin was the principal speaker on the program which concluded with the showing of "Postmark East Lansing."

Eaton County Elects

Twenty-two alumni held a picnic dinner and business meeting June 24 at Pine Lake. Olivet. Al Cox, '33, reported to the club on the last meeting of the Alumni Advisory Council, of which he is a member.

Club members elected Byron Waddell, sc, president; Mrs. Allen R. Murray, '32, vice-president; Mrs. Harry D. Towner, '28, secretary; and John Viele, sc, treasurer.

The group also named a new board of directors. New directors are: Darrell Bacon, sc; Danna Clark, '50; Anne E.

KENT COUNTY LUNCHEON: Grand Rapids alumni talk Michigan State with MSC's Dean of Students Tom King at a luncheon held recently in the furniture city. Left to right are Mrs. Gladys Kellogg Brady, '22; F. H. Mueller, '14, of the State Board of Agriculture; Dean King; and George Bylsma, '31. The meeting, held in the Peninsular Club, was in honor of Grand Rapids students who won scholarships to MSC this year.

Field, '49; Wayne Gibson, '35; Mrs. Bart Rypstra, '39; and Ben Sierra, '50.

Washtenaw Meets

The evening of May 8 was one of cards, square dancing and a buffet supper in Saline, where the Washtenaw County Alumni Club met, 45 strong. Co-chairmen for the evening's activities were Charles Osgood, '21, and Charles Leverett, '43.

Picnic at Hillsdale

Fifty Hillsdale County alumni met Aug. 8 at the Hillsdale rearing ponds for a chicken barbecue and family picnic. As part of the evening's entertainment, the film, "Postmark East Lansing," was shown.

Club members elected the following officers: Mike Radke, '49, president; Alfred Bishop, '42, vice-president; Josephine Lowery, '37, secretary-treasurer. Club members also elected five new members to the board of directors. Elected were: David Rood, '50; Dr. Charles Coy, '42; Don Eppelheimer, '42; Mrs. Martha Gaberdiel, '47; and Mrs. Marjory Cunningham, '45.

Newaygo Plans Year

Officers of the Newaygo County Alumni Club met at Fremont Lake, June 20, to formulate activities for the com-

ing year. Max Dietz, '43, club president, appointed committees for various projects, the first of which was an alumni outing held July 12.

Other activities planned for the year include a homecoming dinner and program at Newaygo, Oct. 14, a football rally in Fremont, Jan. 10, and the annual business meeting, March 14.

Newly-elected officers for this year are: President Dietz; Don Ferguson, '37, vice-president; Mrs. Ross Shoecraft, '43, secretary; Mrs. Forest Waldo, '38, treasurer; Russell Shepherd, '39, Robert Thompson, '18, and Vidian Roe, '38, were elected to the board of directors.

Two N. E. Michigan Meetings

Thirty-two members of the the Northeastern Michigan Alumni Club met June 6 for a pot-luck dinner at the County Airport near Alpena. In a short business session the club voted to establish a scholarship fund for worthy students from the three-county area.

William Davidson and John McGoff gave short talks to the group. The program concluded with a showing of "Postmark East Lansing."

At their second meeting June 20, Northeastern club members elected Victor Horvath, '42, president; Harry Grambau, '19, vice-president; Mrs. E. C.

Past and Present Prexies

CALIFORNIA SMILES: Mike Ralston, '23, left, and Arthur Beckley, w'25, chuckle over a good story at a summer meeting of the MSC Alumni Club of Northern California. Beckley is immediate past president of the group and Ralston is the new president.

Hamann, '19, secretary-treasurer. Wayne Fulton, '23, and Jack Murphy, '39, were elected to the board of directors.

OUT-OF-STATE CLUBS

Cincinnati Alums Gather

The second annual picnic and election of officers of the Greater Cincinnati Alumni Club was held June 24 at Winton Woods. Forty members attended.

The club's new officers are: Don Maskey, '39, president; Arthur Warner, '13, vice-president; Mildred Nelson Davis, '34, secretary; and Gaylord M. Burke, '27, treasurer.

William D. Gordon, '43, past president, presided at the meeting.

Spring Meets in California

Knott's Berry Farm near Los Angeles was the scene of the annual Spring get-together for alumni of Southern California. More than 90 members turned out for this meeting on May 26.

In addition to comments from club members, former MSC Dean of Students, Stanley E. Crowe, talked to the group on college activities.

Club members elected Richard Mosher, '47, president; Leslie Bruckner, '40, first vice-president; Keith A. Murdock, '39, second vice-president; and Margaret L. Frimodig, '47, secretary-treasurer.

In Northern California, alumni gather-

Five Michigan State Alumni Win Recent Promotions and Citations

Achievement awards and new promotions have gone to five Michigan State College alumni. They are Gerald E. Eddy, '30, Gilbert L. Lee, Jr., '41, Roland H. Kaven, '35, Harlow R. Brigham, '28, and Dr. John L. Etchells, '31.

Eddy Is Conservation Head

Eddy, who has been state geologist for Michigan, was recently appointed State Conservation Director. Eddy joined the conservation department in 1933 as petroleum engineer, then became mining geologist. He was named chief of the geology division in 1946. He was a captain with the U.S. Air Force in World War II.

A native of Pontiac, Gilbert Lee has been named controller of the University of Michigan. Lee, a staff member of the university's engineering research institute before his appointment, majored in business administration at MSC.

Eddy

Kodak Advances Brigham

Eastman Kodak Company has appointed Harlow Brigham as assistant superintendent in charge of product improvement activities of its color control division. Brigham joined Kodak in 1929 as research chemist. Later, he worked in the Manhattan project at Oak Ridge, Tenn., and rejoined Kodak research laboratories in 1947.

Kaven, a former Marquette county agricultural agent, has been named to

ed the same day at the Shattuck Hotel in Berkeley for a dinner meeting.

Lawrence H. Taylor and Fred J. Curtis, both of '91, were the two oldest grads in attendance. Speaker for the evening was Lynn "Pappy" Waldorf, head football coach at the University of California, who spoke on "Michigan State's Chances in the Big Ten."

Buffalo Summer Meeting

Buffalo alumni gathered at Snyder, New York, Aug. 11, for a family picnic. Some 25 members were present to join in the games and activities.

Norman R. Rossow, '31, was chairman of the affair.

Cliff Kirtland, '45, newly-elected president of the club, has received orders to return to active duty with the Navy. His duties will be assumed by the vice-president, E. "Bucky" Walsh, '48.

a Point Four program position in India. An extension specialist in livestock and general crops of 16 years experience, he will reside in New Delhi.

Dr. Etchells has received a superior service award from the U.S. Department of Agriculture for his contribution to development of fresh pack pickles and other research on the preservation of vegetables. Dr. Etchells is in charge of USDA's food fermentation laboratory.

MSC War Toll Rises; Pearson Is Prisoner

Two former Michigan State College students have died in the service of their country. They are Ensign James I. Fiscus, w'50, Detroit, and Sgt. Francis E. Frye, w'51, Lansing.

Sgt. Frye was one of eight marines killed when defective mortar shells fell short during maneuvers at Camp LeJeune, N.C. Witnesses reported that mortar gunners saw the shells were defective a split second after they were fired, but before their hurried warning calls could be relayed to forward positions, the shells had exploded short of the target.

Sgt. Frye, who had served 31 months in the South Pacific during World War II, was a junior at Michigan State when called to active duty last September.

Fiscus Dies in Jet Crash

Ensign Fiscus was killed in the crash of his jet plane during maneuvers to test America's air defenses in early summer. He was piloting a Navy F-9F Panther jet which plunged from a formation over Currituck, N.C.

Fiscus attended Michigan State for two years as a Navy student and took his pre-flight training at Pensacola, Fla., in 1948. He won his wings at Corpus Christi, Tex., in June, 1950. Assigned to the carrier Franklin D. Roosevelt, Fiscus had returned recently from a Mediterranean cruise.

Pearson Is Prisoner of War

A bit of good news came in the form of an announcement that Maj. Helge E. Pearson, '40, U.S. Army, has been reclassified as a prisoner of war instead of "missing in action."

A former football star at MSC, Maj. Pearson has written his family from a North Korean military prison. He said that he was "well," even though he had "lost some weight." He added that he was living in permanent barracks and was "comfortable."

Days of Yore

*By Madison Kuhn and
Joseph G. Duncan*

(Left) The Michigan Agricultural College team "unwraps" before the game at Ferry Field, Ann Arbor, in 1915. Michigan earned the small end of a 24 to 0 score. This picture came from B. W. Housholder, '17, Savannah, Ga., who also contributed the photograph of the band parading on the streets of Ann Arbor. The leader is Master Sergeant "Paddy" Cross.

(Right) Mrs. Willits, wife of President Edwin Willits (1885-89), gave this picture to Mary Carpenter Mayo, '88. Mrs. Mayo wrote us from Highland Park, Ill., "It was a 'Worth' gown—the very acme of style and excellence of the time—which she wore when her husband was in Congress before coming to MAC as President. It was much admired when she wore it at the President's Reception at the college."

(Below, left) On the back of this picture is this statement: "Fellow with bottle, Horton, '02." Norman B. Horton was a member of the class of 1902. (Below, right) The sub-freshman class in a woodshop class, 1905-06. Several of these men

graduated with the class of 1910. W. J. Thome, '10, donor of the picture, stands in the second row, second from the right. The sub-freshman course was a preparatory one for students who entered before graduation from high school.

News

ABOUT THESE ALUMNI

By Gladys M. Franks, '27

1897

Amy Vaughn Gilger writes from Hadley, Pa.: "How is this for a Patriarch? Made my first trip across the Atlantic last fall. Went from New York to London in a Pan-American plane, and traveled through England, Holland, Switzerland, Italy and France."

1902

Mr. and Mrs. L. Jay Hartt, of Route 4, Vassar, will celebrate their golden wedding anniversary, Sept. 1.

1903

For the past many months, H. Ray Kingsley has been traveling in Europe, and after a visit to Scandinavia and the British Isles, will sail Nov. 8 from Liverpool, arriving home for Thanksgiving. . . . The sympathy of the class is extended to Samuel W. McClure, of 915 Raspberry St., Erie, Pa., whose wife died Feb. 7.

1906

Flora Campbell, 649 Mar Vista, Pasadena, Calif., is retiring after 35 years teaching in Los Angeles schools. . . . John E. Poole, 8236 Ford, Van Dyke, has been elected president of the Marine Historical Society of Detroit.

John E. Poole writes: "In the last issue of THE RECORD, you state that I had my picture taken wearing my varsity baseball uniform. This is slanderous."

He points out that this was actually his class sweater and cap, traditional garb in his days at MSC. He goes on to explain the secrecy involved in procuring "beanies" and sweaters done in class colors.

"Had word gotten out that we had our caps, our rooms would have been ransacked by upper classmen. Our caps . . . were shipped to Harold 'Bull' Childs, who lived in Lansing. He brought them out a half dozen or so each day until all were delivered. Then we sprung them."

1911

Three of Harry and Grace (McKinley, '16) Peterson's five children have attended Michigan State. Charles, '42, is in business with his father; Sally, '43, is married and has two children; and Patrick is a junior in the engineering school. "Tom got away from us on a scholarship, and is a sophomore at Cornell. Harry 'Too' is a sophomore at Cranbrook, so you'll get him later." The Petersons live at 39 McLean, Detroit.

1912

Russell A. Warner, patent attorney with the West Lynn, Mass., General Electric works, is the donor of an annual award for the outstanding invention in the company's meter and instrument division. The award which is Mr. Warner's own handiwork, was a beautifully turned tobacco humidor. This year Mr. Warner was surprised with the gift of a drill press from the inventors in appreciation of his guidance and helpfulness in securing patents for the division. . . . Edwin Smith, 9 N. Garfield Ave., Wenatchee, Wash., is serving as 1951 president of the Washington State Horticultural Assoc.

1914

Ernest and Lela (Mead, w'17) Burt have been traveling in Europe since last fall, with headquarters in Vienna, Austria. . . . J. Lynn Farwell, Route 4 out of Coldwater, has a sawmill and a couple of farms. . . . Jean Lovejoy is employed in the alumni catalog office at the University of Michigan, and lives in Ann Arbor at 227 S. Thayer.

1917

Maurice Carmody of Route 8, Kalamazoo, is vice president of the Globe Construction Co. . . . Fred and Florence Stoll England have moved into their new home at 936 Southlawn, East Lansing.

1919

Caryl Burlington farms in Marcellus, and has been elected chairman of the Cass County board of supervisors.

1920

Maurice Jewett, chief engineer of the chain and transmission division, Chain Belt Co., Milwaukee, Wis., has been appointed to an administrative post in the National Production Authority. He is in Washington as chief of the mechanical power transmission branch, general components division, industrial and agricultural bureau of NPA. He will help organize the branch and serve until a permanent chief is appointed. . . . Clarence Shaver, vice-president and treasurer of the United States Gypsum Co., has been named chairman of the company's board of directors. He joined the Chicago firm in 1928 as assistant comptroller and was named secretary and treasurer and a director in 1933. He lives in Glenview, Ill., at 225 Randolph st.

1921

Lester Beltz is chief electrical engineer at Ford Motor Co., and lives at 5900 Walnut Lake Rd., Walled Lake. . . . Major Heward E. Elmer is stationed at Madigan Army hospital, Fort Lewis, Wash. . . . T. G. Lindquist, 202 S. Highland, Rockford, Ill., is boasting about his twin grandsons born May 18.

1922

Richard and Harriet Hooper Boonstra have moved into their new home at 1315 John St., Joliet, Ill., and write: "Any MSCites in our area are most cordially invited to visit us." He is research and development agricultural engineer for Public Service Co. of Northern Illinois with offices in Chicago. . . . James P. Hoekzema is editor of "Indiana's Farmers' Guide" and lives in Huntington at 11 Roche St.

1923

George Irvine, an official of the dairy branch of the U. S. Department of Agriculture's production and marketing administration, has been named to direct the recently approved milk marketing order for Detroit.

1924

Harold and Hattie (Lucas, '30) Newman, 2301 Spring Ave., Lutherville, Md., where he is in charge of fresh fruit and vegetable inspection work for the U. S. Department of Agriculture. . . .

Invention of equipment for pouring concrete in large construction jobs was responsible for the formation of a firm manufacturing and marketing these products by C. I. Williams, president of the Williams Form Engineering Corp., Grand Rapids. . . . A. C. McIntyre, 1710 Lynnwood Dr., Upper Darby, Pa., edits "Pennsylvania Foresters" for the Pennsylvania Forestry Assoc.

1925

Fay Hyland has been promoted to full professorship in the Department of Botany at the University of Maine, Orono.

1926

Orson S. Bird has charge of nutritional research at Parke, Davis and Co., Detroit, and lives in Grosse Pointe Park, at 1023 Somerset. . . . Dorothea Haddon Lamb (Mrs. John F.) who teaches in Homer, N. Y., expects to receive her M.S. in Education at Cornell in 1952. Mrs. Lamb lives in Cortland, N. Y., at 70 Madison St.

1927

Col. Thomas L. Sherburne is stationed at Fort Bragg, N. C., with Headquarters, 82nd Airborne Division Artillery.

1928

The Detroit branch of H. J. Heinz Co., 6030 Joy Rd., is managed by two former Spartans, both from the class of 1928. Ray Leavengood is branch manager of grocery division and H. D. "Hod" Fish is branch manager of hotel and restaurant division. They report Art Robinson, '29, started in the Detroit office but was made office manager at the Toledo branch and just recently was transferred to Columbus, Ohio. . . . Larry Glerum visited the campus in May and reported that he and his wife, the former Mary Gibson, '34, and their two children were living in Santa Barbara, Calif., where he is serving as city judge. . . . For the past 15 years, Leon Greene, 710 S. Webster, Jackson, has been a manufacturers agent in automotive parts and tools.

1930

Major Russell Hitchcock has offices at 292 George St., New Brunswick, N. J., as senior unit instructor ORC 1243 ASU. . . . LaRue L. Miller, who received his master of public health degree from the University of Michigan in June, is chief of the section of environmental sanitation of the Michigan Department of Health, Lansing. On his staff of five men are William Jay, '43; W. M. Decker, '46; and Robert Bruce, '49. Mr. and Mrs. Miller (the former Marjorie Weldon, '32) and their three children live at 821 Ann St., East Lansing. . . . Major Jane Piatt, Lansing nursery school director and World War II veteran, is assigned to the 9622 Volunteer Air Reserve Training squadron. The first woman to be attached to a reserve squadron in Central Michigan, Major Piatt will assist in recruiting for the Women's Air Force. . . . Arthur K. Walton, who joined the Sears, Roebuck organization a few months after he was graduated, has been named head of Sears' automobile tire buying department. He lives in Elmhurst, Ill., at 417 S. Prospect.

1931

Horace Craig, 15784 Hene, Detroit, is a salesman for Milton A. Meier Co., dealing in brass and aluminum alloys. . . . Mr. and Mrs. Wilbur D. Emmons, 523 Baldwin Ave., Meriden, Conn., announce the birth of their second son, John Corwin, Jan. 13. . . . The Rev. Edward R. A. Green, canon of St. Paul's Episcopal Cathedral, Detroit, since Feb. 1949, will become rector of Christ Church, Dearborn, Sept. 1. Prior to his Detroit work he was rector of St. James Church, Sault Ste. Marie, and St. Peter's, Tecumseh. . . . John Lessiter and his wife and two children live at 501 Baldwin Rd., Lake Orion, where he has been operating a farm since 1943. . . . Douglas Watkins has been transferred by Consumers Power Company to Jackson, where he lives at 722 Woodlawn.

1932

George E. Gollwitzer and Margaret Laginess were married Nov. 11, 1950, and are living at 528 Scene Ridge Rd., Liberty Boro, McKeesport, Pa.

He is plant engineer for Kelsey Hayes Wheel Co. . . . **Lawrence G. Sexton**, manager of the St. Johns, Mich., division of Sealed Power Corp., has been elected president of the St. Johns Chamber of Commerce. . . . **Ralph H. Toaz**, secretary-manager of the merchants' division of the Lansing Chamber of Commerce was recently installed as new district governor of Rotary International. . . . **Willis C. Whorley**, his wife and their two sons are living at 505 South St., Bronson, where he is general manager of Douglas Manufacturing Co.

1933

Marvin Bogema has been promoted to full professor in civil engineering at Cornell University, Ithaca, N. Y. . . . **Joseph Gagnier** is business and production manager of Carma Manufacturing Co., Torrance, Calif. He and Mrs. Gagnier (**Marian Hoyt**, '34) and their two sons are living in Manhattan Beach at 400 18th Place. . . . Mr. and Mrs. F. H. Cooper (**Carlyn Goetz**), 938 Southworth Terrace, Kalamazoo, announce the birth of their son **Robert Kent**, April 26. . . . **John Wilde** has been transferred by Campbell Soup Co. to Seneca, Ill., where he, Mrs. Wilde (**Marjorie Olson**) and their two sons make their home.

1934

Gladys Joughin Gilley, her husband **Clyde**, and their three boys are in the Hereford cattle business at Lake George, Colo.

1935

Ivan S. Davis, superintendent of schools, Merrill, since 1939, has resigned to accept a similar position at Gaylord, Mich. . . . Mr. and Mrs. **Merle J. Finch** announce "a blessed exemption," **Margaret Jean**, born Dec. 27.
