COLLEGE**

## MEETS THE CHALLENGE

### School of Education Reorganizes

ONE OF THE CHALLENGES the School of Education has facing it is the growing shortage of teachers in the public schools for the next several years. There is no leveling off in sight in the number of young children entering school. The birth rate in the early months of 1954 is seven per cent more than that of the same months in 1953 and it is still going up.

Every year 6500 new teachers are needed to teach in Michigan schools, the positions ranging from elementary teaching to college and university teaching.

A COMPLETELY new set-up will greet prospective teachers enrolling in the School of Education at the start of the school year. Teacher education has been intelligently redirected after 11 months of intensive study of the problem by Dean Clifford E. Erickson and the staff of the School of Education.

"The reorganization represents a real step ahead in developing a teacher education program that utilizes all the resources of Michigan State College," states Dr. Erickson.

To avoid the extreme departmentalization which is characteristic of most American colleges and universities, a minimum number of departments was set up. Also, a plan was developed which made it possible for the School of Education to cooperate with all the schools on the campus in teacher education.

#### Five Departments Instead of Eight

The new organizational plan calls for five departments instead of the original eight. The five will be the Departments of Teacher Education; Foundations of Education; Administrative and Educational Services; Health, Physical Education and Recreation; and the Department of Vocational Education.

Under this plan, the Department of Teacher Education has been established to teach courses in methods and specialized courses in specific fields. It also is responsible for planning and coordinating student's programs and directing student teaching and other laboratory experiences for prospective teachers.

Since it was felt that teachers might be getting too highly specialized and that there was a need for them to have a broader educational background, a Department of Foundations of Education was established which provides a foundation program common to all undergraduate students in Education, and, at the graduate level, provides both general and specialized courses in the foundation areas.

Responsibility for the professional preparation of personnel who provide leadership in the educational system and work in an administrative capacity falls under the Department of Administrative and Educational Services.

Educational workers in vocational and practical art areas will have their pro-

grams planned and coordinated by the Department of Vocational Education.

For the preparation of men and women physical educators, physical therapy personnel and recreation leaders, the Department of Health, Physical Education and Recreation was organized.

#### All Available Resources Used

Dean Erickson explained that under the terms of the reorganization, all candidates for secondary school teaching will be enrolled, advised, and granted degrees by the School of their major field and by the School of Education. Also, the enrollment officer will be assigned from the student's major field. However, all candidates for secondary school teaching must be approved by the School of Education before they undertake a teacher training program, and must continue to be approved throughout the entire program.

Under this five-department set-up, the committee on secondary education intends to use all of the resources of the campus to develop the best trained teachers possible.

The committee was also interested in building an organization which would bring research, field services and campus teaching together. In other words, to do the same thing in the field of education that the Extension Service does for the School of Agriculture.

Thus, a Bureau of Research and Service was organized to handle off-campus instruction, publications, radio and television services, and to develop research in the field of education. Some technical personnel are in the Bureau, but most of its staff are members of the teaching departments doing part-time work in the Bureau.

In brief, the School of Education has taken decisive steps towards meeting the educational requirements and leading in the development of educational patterns within the cultural framework of the United States.

#### On the Cover . . .

are Mr. and Mrs. Charles Wunderlich, about to enter their apartment—one of M.S.C.'s 12 new units built to house married students. Charles is a student in the School of Veterinary Medicine, and Yvonne, like so many young wives, is working to help put hubby through.

The baby was borrowed, but he is a bona fide resident of the apartment building, though he didn't give his name.

## THE RECORD

RUSSELL POWERS, JR., '49, Associate Editor

A. WESTLEY ROWLAND, Editorial Advisor

STARR H. KEESLER, '41, Director of Alumni Relations; GLADYS FRANKS, '27, Recorder; FRED W. STABLEY, Sports Editor; TED EMERY, Assistant Sports Editor; JOHN MCGOFF, '50, Assistant Director of Alumni Relations; MADISON KUHN and JOSEPH G. DUNCAN, Historians; EARL C. RICHARDSON, Agricultural Editor; BARBARA BROWN, Artist; W. LOWELL TREASTER, Director of Information Services. Campus pictures by PHOTO LAB photographers.

Member of the American Alumni Council, THE RECORD is published seven times a year by THE DEPARTMENT OF INFORMATION SERVICES, Michigan State College. Entered as second class matter at East Lansing, Michigan, under the Act of Congress, August 24, 1912.

# A Family Affair

Some families could stage a Michigan State College alumni meeting with just the members of their own family. It seems that way when Mrs. Fred Morse and her kinfolks get together, or the Herb Gettels, or the family of Santiago Iledan from the Philippines.

AT THE TURN of the century a young girl, Paulina Raven (now Mrs. Fred Morse), chanced to hear a talk on home economics at Michigan State which filled her with such enthusiasm that she went home and told her father she was going to enroll at "M.A.C." and study home economics. At that time, Mrs. Morse recalls, it was considered unusual for a girl to go to college to "learn the duties of the home."

"I shall never forget my father's reply," she said, "when I told him." He asked, "What do you expect to do when you finish, be a cook for a Rockefeller or a Vanderbilt?"

Mrs. Fred Morse

But that was not to be Paulina's future. After graduating in 1905, she taught the first home economics extension school in Michigan, and in 1914 taught two courses in the first home economics short course at M.S.C.

Always a strong booster of Michigan State, Mrs. Morse has been responsible for encouraging a number of her family and relatives to attend. All of her brothers and sisters—with the exception of one—and her children and grandchildren have gone to State.

One of the largest "family groups" on the M.S.C. alumni rolls, Mrs. Morse and more than 25 of her relatives attended M.S.C. between 1895 and 1950.

It is quite a coincidence that it was her brother, county agent Emmett Raven, who said about the Gettel family in a recent article in the *Country Gentleman*, "You never saw folks who work so well together and have such a good time."

THERE'S no doubt but that M.S.C. has exerted a telling influence upon the lives of the Gettel family.

Record readers may have read about the Gettels. There are Herb Sr. and his wife, Dora, their four sons and a daughter. All except the daughter are in a farming venture together on a 640-acre farm, called Fertile Acres, in the "thumb" district.

Of the four sons, Douglas, 19, and the youngest, is now a junior at M.S.C.

GETTEL PLANNING SESSION: Herb, Sr. (left) and his four sons, Douglas, '56, Loren, Clarence, '41, and Herb Jr.; Loren and Herb Jr. attended winter short courses.

Photo courtesy of *Country Gentleman*

SECOND GENERATION: Priscilla Iledan.

Clarence, 33, graduated from State in 1941, specializing in farm crops, and both Loren, 26, and Herb Jr., 31, attended winter short courses for several years. The daughter, Dorothy, graduated in home economics (need it be mentioned?) at Michigan State and taught in schools near Detroit before her marriage.

Herb Sr. is director of the state Crop Improvement Association, and a member of the executive committee of the Michigan Agricultural Conference.

Even though the farm is large and highly diversified, all the regular work is handled by the family. Herb Jr., because of reasons of health, has had to quit actual farming, but with the help of the rest of the Gettels, has established a farm implement firm nearby. Clarence and Loren are Herb's two full-time farmer sons. Douglas, of course, is busy with his studies at M.S.C., but he pitches in during the summer months.

All is not work for the Gettel clan, however. This happy family spends many a bright, fall Saturday at the M.S.C. stadium, cheering for their favorite football team—the Spartans.

EVER SINCE we were little kids in the Philippines, father said we were going to Michigan State College like he did," recalls Priscilla Iledan.

This pretty little Philippine miss is the second generation and the third member of her family to attend Michigan State. Her father, Santiago Iledan, attended M.S.C. from 1916 to 1920. After graduating, he returned to the Philippines to teach agriculture, and he is now the principal of the Institute of Madyaas, at Numia, Capiz, Philippine Islands. Elizabeth, Priscilla's sister, graduated with a master's degree in education in 1950, and is now married and living in Chicago.

Priscilla plans to return to the Philippines this fall and work in the republic's Department of Agriculture.

# Campus Prepares for Homecoming Celebration Planned for Oct. 22-23

Crowds of alumni in a holiday mood are expected on the M.S.C. campus to mingle with the students and celebrate homecoming weekend, Oct. 22-23.

A full calendar is scheduled for alumni club presidents on Friday afternoon and Saturday morning in the Union Building. The Friday afternoon workshop will include talks by campus staff on topics related to club activities. The first part of the Saturday morning session will be given over to reports from clubs which have turned in outstanding performances in alumni work this past year, and the second half of the morning session will be broken down into group discussions, according to club classification.

Club presidents and wives (or husbands) will be guests of the Department of Alumni Relations, Friday evening, Oct. 22, at a dinner at which President John A. Hannah will be the speaker. At this time, the outstanding alumni clubs for 1953-54 will be announced.

Also Friday evening, will be the homecoming stag smoker and the alumnae homecoming mixer. (See *Club News*.)

## Elizabeth Daniels Memorial Fund Grows

Elizabeth Daniels, known, respected and loved by many students and staff members, passed away in June, and a memorial service was held at the Alumni Chapel on June 11.

A scholarship was established as a memorial to Betty, because it seemed the most fitting tribute her friends could pay to a person who took such a personal interest in her students and helped and encouraged those in need. It was her wish that some money be set aside for student aid.

A temporary committee composed of Lydia Lightring, head of women's physical education; Dorothy J. Parker, former associate of Miss Daniels in the physical education department and now assistant to the Dean of Students in the women's division; Mabel Petersen, assistant to the Dean of Students in the women's division; and Mrs. Henrietta Barnes, of the scholarship aid office, have outlined the way in which the fund will be administered.

Aid from this fund, which has now grown to over \$800.00, will be available to junior and senior physical education majors in health, physical education and recreation. Those friends who wish to share in this memorial to Miss Daniels may send their contribution to the Elizabeth Daniels Scholarship Fund, Women's Physical Education Department, Michigan State College.

Highlight of the festivities will be Saturday's M.S.C.-Purdue game. Following the game, alumni will assemble on the football field under placards marked with their class numerals.

The weekend will come to a close with the Homecoming Ball Saturday evening where the homecoming queen will be crowned.

A special added attraction this year will be the concerts, both Friday and Saturday evening, by the Purdue Glee Club, one of the outstanding men's choral groups in collegiate circles. These concerts will be sponsored by the student government and the M.S.C. Glee Club.

## Changes Greet Students As School Opens

New buildings, new courses, and a new driving regulation will greet an estimated 15,300 students when classes begin this month at Michigan State College.

Three major construction projects have been underway during the summer at M.S.C.—apartment buildings for married students, men's dormitories and a new \$4 million library. Although the steel framework of the library is rising above ground, it is not scheduled for completion until 1955-56. (See story on housing in this issue.)

Students will start classwork Sept. 27. More than 128 courses will be offered, as well as three new graduate programs. For the first time, master's degree programs in Landscape Architecture and in Hotel, Restaurant and General Institutional Management will be offered. Also, in the winter term, the Department of Engineering is planning to offer a master of science degree with a major in agricultural mechanics.

Students headed toward teaching careers will be met by a newly organized School of Education. The reorganization, effected July 1, is designed to make the school one of the most modern and effective in the country (See *Inside Story*).

Expected to be a top subject of conversation this Fall among students is the new code permitting any M.S.C. student to own and drive a car on the campus. Permission is granted under provisions of a new set of regulations adopted by the State Board of Agriculture, M.S.C.'s governing body. Mapped jointly by student government, campus police and the Dean of Students, the regulations permit the ownership and operation of cars by students, subject to specific regulations. Violation of regulations will result in stiff penalties for the student.

## NEW STYLE

There's a stylish new fad at Michigan State this fall and experts unanimously agree it should spread like wildfire across the nation during the next 16 months.

The subject—M.S.C.'s Centennial; the torchbearers—students, faculty, alumni and friends of the college. Throughout the state, nation and world, the Story of State will be told and retold thousands of times between now and the end of 1955.

As aids in carrying out this program, Michigan State will have available many promotional and souvenir items. Russel Villars, college book store manager, expects to have special Centennial color picture folders, decals, banners, stationery, napkins, ties, "T" shirts, ashtrays and other similar items on sale within the next few weeks.

Alumni or clubs interested in securing any of these items should write: Manager, College Book Store, Union Building.

## Concerts Feature World's Greatest

Some of the world's greatest names of music, drama and lecture platform fame will appear in Michigan State College's 1954-55 Lecture-Concert Series.

The 19 programs will be presented in M.S.C.'s popular "A" and "B" series beginning in October, according to Dean S. E. Crowe, series director.

The high point of the season will be two performances, on Dec. 7 and 8, of "A Midsummer Night's Dream" by the Old Vic Company of London, starring Moira Shearer of "Red Shoes" fame.

In addition, the completed schedule includes Roberta Peters, the Boston Symphony, London Festival ballet, New York City Opera company, Detroit symphony, Isaac Stern, the Concertgebouw orchestra, Vienna Choir Boys, Victor Herbert Festival and Myra Hess.

Lecturers will include John Gunther, Trygve Lie, Dwight Cooke, Congressman Douglas R. Stringfellow and Meredith Willson. Special numbers, not included in the regular series, will offer the Festival of Modern American Jazz, Jazz at the Philharmonic, the "Caine Mutiny Court-martial," "Biggest Show of 1954" Marge and Gower Champion and Burl Ives.

The weekly World Travel Series will start Oct. 2, and the fall term Foreign Film Series on Sept. 27.

# AFFAIRS OF STATE

## M.S.C. Mourns Death Of Two Faculty Members

Dr. Dwight Tarbell Ewing, professor emeritus of chemistry at M.S.C. and a national expert on electroplating, died unexpectedly in August of a heart attack at the age of 66.

Dr. Ewing came to Michigan State as a chemistry instructor in 1914, and although he retired in June 1953, still served as a consultant to the chemistry department.

In his 39 years at Michigan State, Dr. Ewing was active in the field of chemistry, publishing some 75 scientific papers, and holding seven patents on electroplating and other electrochemical processes. During World War I, Dr. Ewing did research on mustard gas, and during World War II worked on the Manhattan project, receiving an award for meritorious research.

Dr. J. Howard Muncie, 64, a member of the M.S.C. faculty in the Department of Botany and Plant Pathology since 1929, died in July at the family summer home at Elk Lake.

An outstanding authority on plant diseases affecting the potato industry, Dr. Muncie served the U.S. Department of Agriculture in two world wars to step up production of scarce agricultural commodities.

Dr. Muncie first came to the Michigan State campus in 1913 to what was then the Michigan Agricultural College. He left to do research at other colleges and earn his doctor's degree, returning to M.S.C. in 1929.

## Gifts and Grants

Gifts and grants of \$400,185.25 for research and educational purposes at Michigan State College were accepted Friday by the State Board of Agriculture, M.S.C.'s governing body.

The biggest single grant accepted by the board is \$161,012 from the Institute of Inter-American Affairs, a U.S. agency. M.S.C. will use the fund in helping to establish the first school of business administration in Brazil.

Nine other government grants—two from the army, one each from the Office of Naval Research and U.S. department of agriculture, and five from the Atomic Energy Commission—amount to \$107,860.

## Top-Level Appointments

Three top-level appointments became effective this summer—one each in Continuing Education Service, the School of Education, and the School of Agriculture.

Leland W. Dean, who has headed the Department of Special Courses and Conferences for the Continuing Education Service, will become a new assistant to the Dean of Education. Succeeding Dean will be Richard Marcus, who has been in charge of the Continuing Education business office.

Dean

Dean, M.A. '51, who joined the M.S.C. staff three years ago, will be responsible for student registration, advisement on courses and all other matters pertaining to students in the School of Education.

Marcus, M.A. '46, who takes over the responsibilities for the many conferences and special courses, joined the M.S.C. staff in 1947 as an assistant professor in the Adult Education Department.

Marcus

Boger

Dr. Lawrence L. Boger, Ph.D. '50, one of the youngest agricultural economics heads in the nation, was appointed head of Michigan State College's Agricultural Economics Department in July at the age of 31.

Coming to M.S.C. in 1947 from Purdue University, where he obtained his bachelor of science degree, the agricultural economist became an instructor here in 1948, and received his master's degree here in 1948.

He is rated as an outstanding teacher, and is also an agricultural marketing and price authority.

A first place award in a national competition went to the Department of Information Services at M.S.C. for its community newspaper editorial conference. The competition was sponsored by the American College Public Relations association.

This marked the fourth consecutive year the department has received a top award in the association's competition.

**WINS DAIRY NUTRITION AWARD:** Dr. Carl F. Huffman (center), of Michigan State College, is presented the American Feed Manufacturers Association award of \$1,000 for outstanding research in animal nutrition at a meeting of the American Dairy Science Association.

held at Pennsylvania State University. The award is presented by Dr. Raymond T. Parkhurst, chairman of the AFMA Nutrition Council (right). At left is Dr. T. W. Gullickson of the University of Minnesota, chairman of the selections committee.

## Press Box Report on **SPARTAN SPORTS**

By FRED STABLEY and TED EMERY

THE 58TH VARSITY football team is shaping up on the practice areas south of Macklin Field. Head Coach Duffy Daugherty picked up on Sept. 1 where he left off at the end of spring training and has until Sept. 25 to tinker around with the new Spartan grid machine. Then it will be put to its first major test of the season against highly-regarded Iowa, noted as Big Ten title favorite.

**Bullough**

This is a year of transition in Michigan State football, and it is still anybody's guess as to just how well the team will develop. The loss of 16 players from last year's Big Ten co-championship team and Rose Bowl winner, plus four of the coaches, are the big handicaps which must be overcome.

At the request of newsmen covering the opening day of practice, Daugherty lined up the following as a tentative first team: Ends, Co-captain Don Kauth and Ellis Duckett; tackles, Randy Schrecengost and Roland Dotsch; guards, Ferris Hallmark and Hank Bullough; center, Fred Rody; quarterback, Earl Morrall; left half, Co-captain LeRoy Bolden; right half, Ray Eggleston; fullback, Jerry Planutis. Of these, only three—Hallmark, Bullough and Bolden—were regulars last season. The rest, with the exception of Eggleston, were lettermen. Eggleston didn't letter, but is looked upon as a fine prospect.

Behind this outfit, Daugherty lined up a second string which looked like this: Ends, John Lewis and Carl Diener; tackles, Embry Robinson and Morley Murphy; guards, Bill Ross and Norm Masters; center, Joe Badaczewski; quarterback, John Matsock; left half, Gary Lowe; right half, Travis Buggs, and fullback, Vic Postula. Of these men, Lewis, Badaczewski, Ross, Masters, Murphy, Diener and Matsock won letters last fall.

One point which quickly caused some concern to sideline observers was the thin crop of backs. Only 21 reported—six quarterbacks, five left halfbacks, six right halfbacks and four fullbacks. Of these, only five were letter-winners last

**Hallmark**

**Bolden**

season, and only one—Bolden—was a regular. Line depth on the other hand, was encouraging. Two or three good hands were to be found in most positions, plus promising newcomers to back them up.

Among the sophomores receiving a great deal of attention were end Lacey Bernard; tackles Ron Latronica and Dave Trippett; guards Joe Carruthers and Frank Nauyokas; centers Don Berger and John Matsko, and backs Lou Costanzo, Rudy Gaddini, Clarence Peaks and Pat Wilson.

**FIVE SPARTAN ALL-AMERICANS:** Enough to delight any college football coach, are shown as they gathered at Michigan State this summer for filming of a football training movie. Dorne Dibble (82) and Larry Fowler (70), both now with the Detroit Lions; Don Coleman (78) and Bob Carey (88), also professional players, are looking on as former Spartan guard, Don Mason, is checked in his lineman stance by head coach Hugh Duffy Daugherty, whom he replaced as line coach. All five were All-Americans. Also pictured are Sid Stein (55) and assistant coach Bill Yeoman (21), former Army center.

## M.S.C.'s Athletic Alumni Make Headlines

Michigan State's athletic alumni have been turning up in the sports headlines recently.

The current amateur golf and tennis champions of Michigan are both Michigan State graduates, and the British Empire 440-yard dash king is a State student.

Glenn Johnson ('46), a former Spartan quarterback, won the golf title, while Len Brose ('50), another Spartan alumnus, took the tennis crown by nipping Stan Drobac ('53), who also is a former Spartan tennis star. Both Brose and Drobac were Big Ten singles champions at State.

At Vancouver, British Columbia, Kevan Gosper, the captain-elect of the 1955 State track squad, ran off with the Empire 440-yard title in a record time of 47.1. The old record was 47.9. Gosper, who ran for Australia, has one more year of competition at Michigan State.

In baseball, Robin Roberts, ('48), former Spartan ace pitcher, is a leading major leaguer with 18 wins. The big righthander has lost nine. Roberts has already won 20 or more in four straight seasons, and he can tie a National League record if he does it again this year. He was signed off the Spartan campus by the Phillies before he completed his eligibility.

# Huby First to Film Game Play-by-Play

COMPLETE PLAY-BY-PLAY movies of football games which today are indispensable to coaches and alumni entertainment committees, were first taken in 1923 . . . at Michigan State!

And the pioneer in the field was Everett N. Huby, a distinguished, senatorial-looking Rhode Island native who still makes State's game movies.

Huby was just a young man with an idea when he approached Ralph H. Young, State Athletic Director, with the thought of taking game movies for State.

At that time there had never been a full-game movie, although some game action had been recorded for newsreels. In fact, that was Huby's job. He was filming newsreels for Reo Motors of Lansing.

Mr. Young liked the idea, but explained that the college budget was not geared for such things, and so Huby agreed to pay some of the expenses himself.

The results were good, and Mr. Young was well pleased. Huby was hired to do the most important games on the Spartan schedule. Since State couldn't afford to have all home games filmed, Huby took his idea to Fielding Yost at

Michigan. Yost approved of the idea, too, and so Huby started dividing Saturdays between the two schools.

It was the Detroit Lions next. Huby approached Patsy Clark, the Lions' coach, and he met the same approval. Until three years ago, Huby had been filming all the Lion home games.

In 1938, Michigan State's budget reached the point where Huby could be hired full-time, and he's been filming State's games ever since. His work now also includes filming of home basketball, wrestling, gymnastics, hockey and boxing events.

But football is Huby's first love. Every home game Saturday, while the bands blare and shoulder pads smack, Huby's 16 mm. camera goes quietly clicking on, atop Macklin Field, in a camera room which Huby himself designed.

"Besides being more convenient up there, it's a lot safer," Huby smiles. "When I started out there were no press boxes and I took from the sidelines. Sometimes the plays ran right over me."

It's not like that now, though. Even on trips away from Macklin Field, Huby finds most stadiums have good facilities for taking game films.

Today almost every major college and small college has its games filmed, and it all started when Everett N. Huby had an idea in 1923.

## Football Training Film

Freshmen football candidates at Michigan State are in for a new form of indoctrination in the complex Spartan system of play. For new head coach Hugh Duffy Daugherty and his staff have been busy during the summer months filming a training movie to be shown to the Spartans of the future.

Demonstration of methods will be at its very best—with no less than five former Spartan All-Americans appearing in the film.

Ends Dorne Dibble ('51) and Bob Carey ('52), established professionals now, will show the offensive and defensive duties of the flankers.

On the line, Don Mason ('50), now varsity line coach, and Don Coleman ('52), now with the professional Chicago Cardinals, join with Larry Fowler ('54), a member of the 1952 and 1953 elevens at State. Coleman played the No. 7 tackle spot with such ability that he became a unanimous All-American choice. He is the only Spartan player ever to have his jersey permanently retired.

Al Dorow ('52), who quarterbacked the undefeated, untied 1951 team, is the signal-caller in the film, while other backfield men are Billy Wells ('54), Rose Bowl hero, at right half; Sonny Grandelius ('51), freshman coach, left half; and Wayne Benson ('52), fullback.

Others assisting in the film are Sid Stein and two current Spartans, ends Charles Fairbanks and John Lewis.

Bill Yeoman, a great center at West Point, and now an assistant coach at State, is the center.

Coach Daugherty and staff prepared and directed the sequence filming.

Upon completion by staff photographer Everett N. Huby, the film will have a sound track affixed and its use may be extended to high school coaches in the state.

## Name Change

The name on the athletic director's office in Jenison Fieldhouse has been changed from "Mr. Young" to "Mr. Munn." Since July 1, Biggie has been running the athletic show which for 31 years was directed by Mr. Young.

Mr. Young was feted royally as his leave-taking approached. He was honored by various groups, but the most pretentious affair was that staged by a group of Lansing area friends and colleagues at Olds Engineering Auditorium. Nearly 800 people attended. Mr. Young was overwhelmed with tributes which included a new Oldsmobile 98, the announcement of the naming of the varsity track and field area the "Ralph H. Young field," and the establishment of a Ralph H. Young Scholarship Fund.

## Advance Football Schedule

More and better football is in the future for Michigan State fans, according to advance schedules released by Athletic Director Clarence L. (Biggie) Munn.

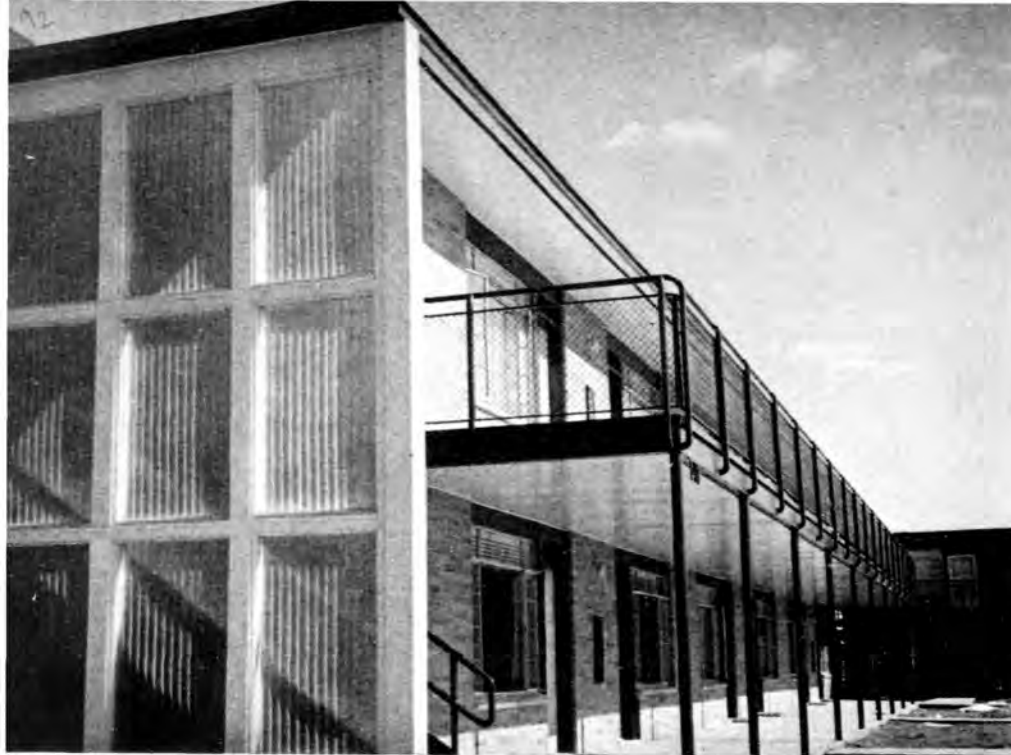

For example, Michigan State's centennial year, 1955, will see Stanford, Notre Dame, Illinois, Minnesota and Marquette at East Lansing.

New teams to be met include Kansas State and California, while an old rival, Pittsburgh, will return to the schedule.

1955		1956	
Sept. 24—Indiana	Oct. 1—Michigan	Sept. 29—Stanford	Oct. 6—Michigan
Oct. 8—Stanford*	Oct. 15—Notre Dame*	Oct. 13—Indiana*	Oct. 20—Notre Dame
Oct. 22—Illinois*	Oct. 29—Wisconsin	Oct. 27—Illinois	Oct. 27—Illinois
Nov. 5—Purdue	Nov. 12—Minnesota*	Nov. 3—Wisconsin*	Nov. 10—Purdue*
Nov. 19—Marquette*		Nov. 17—Minnesota	Nov. 24—Kansas State*

\*Home game

Glass, brick and iron combine to give married student's housing a look of the future. There are 12 of these units on the campus.

# ADVENTURES IN

**A** NEW adventure in living is taking place on the M.S.C. campus. There was a time when a college or university built one or two dormitories and felt that they had done reasonably well in fulfilling their responsibilities in student housing.

That time is now past. Not only does Michigan State have the largest on-campus student housing in the country, but they are pioneering in building attractive, modern brick apartments for *married students*. These apartments—12 units and 144 apartments in all—will be ready for occupancy this fall, although three of the units were set up first as “pilot models” and were in use throughout 1953.

A generation ago, it was unheard of for a college to provide housing for mar-

ried students. But today's student is the product of a different set of circumstances. Generally, he is older; usually he has been in military service and, upon getting out, is eager to get married and to complete his schooling. He accomplishes both.

Thomas Dutch, director of housing, and Emery Foster, manager of dormitories and food services, emphasizes that since the non-veteran student applying for married housing must have a junior class rating, “we don't feel we are encouraging students to marry by providing housing. What we want to do is to provide housing for the married student who sincerely wants to come to college.”

Actually, these 144 apartments are a small start, Foster says. All apartments have already been leased with more than

200 on the waiting list. By 1960, approximately 2,000 married students are expected on campus, and the barracks apartments, now full and with a waiting list, have been in use seven or eight years. It is a question how long the barracks will last, Foster commented, though they are in good condition now.

To meet the problem before it becomes acute, the State Board of Agriculture, governing body of M.S.C., voted in August to draw up a plan for financing at least 200 more apartments and to study the possibility of financing three more men's dormitories.

## No Cost to the Public

The new living quarters are self-liquidating and are built at no cost to the public. Money for construction was made available from a central auxiliary

An attractive living room in the married student apartments

Pleasant surroundings for meals with everything handy

A typical room in the new Butterfield Hall for men. All students are responsible for the upkeep of their own rooms. It may be that these boys in the picture are unusually neat.

A spacious lounge in Butterfield Hall, men's residence in the new Harrison Road group. A library is also provided in each unit and a faculty member and wife act as resident advisors.

# LIVING AT MSC

enterprises fund, according to Philip J. May, comptroller and treasurer.

All the apartments are furnished. In the beginning, one of the pilot apartments was left unfurnished, but since not many young marrieds are lucky enough to possess three rooms of furniture when starting out, it was decided to furnish them all.

The apartments have living room, kitchen and bedroom, with bath and closet space. They rent for \$69 a month for the one-bedroom apartments, and \$75 for the two-bedroom, all utilities included.

For young married couples going through college on a shoestring, there are 1100 barrick apartments which rent from \$27 to \$36 a month, unfurnished.

## New Dorm Nearing Finish

About 20 per cent of those enrolled at M.S.C. are married students, but the married student housing is just one part of the picture.

This fall, Bryan, third, and newest of six men's dormitories under construction in the Harrison Road group, will be ready for occupancy. Brody Hall, the central dining unit, will also be in operation.

Women students will be taking over Snyder, previously a men's dorm. This will take care of about 425 additional girls. Approximately 3200 women will live on campus this coming year, and must be housed in space that will normally accommodate 2800. It is also esti-

mated that about 3400 men will register for dormitory rooms, and at present, there is space to accommodate only 2600.

## Brody Hall a Campus Wonder

In the middle of the Harrison Road men's residence group is the Clark L. Brody Hall. This is the hall which will eventually serve 4,000 meals three times a day. Although it may be a year or two before the Harrison project is completed, Brody Hall is still being outfitted to fill its long-range duties. It will contain seven separate dining rooms when finished—one for each of the six dorms and one for employees and special events.

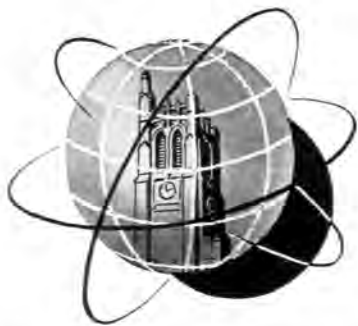

Those visiting Brody Hall are amazed at the tremendous set-up necessary to prepare food for 4,000 persons. Each dining room has its own serving line, equipped with walk-in refrigerators. A single kitchen in the center of the building serves all seven dining rooms. Since only two of the dining rooms open into the central dishwashing room, conveyor belts are installed to get the dishes from dining rooms to dishwashing room.

All the food and dining facilities are on the second floor of Brody Hall. First floor will house the recreational facilities for the six dormitories.

At the present time about 7700 students are housed on the campus, about half of the total enrollment. In short, Michigan State College houses more students, both in numbers and percentage, than any other Big Ten University.

Stairwell of Butterfield Hall at night

# COVERING THE CLUBS

By JOHN McGOFF, '50

**MOST MICHIGAN STATE** alumni clubs have been lying dormant during the hot summer months, but soon they'll be coming to life again. Already, clubs are making plans for Fall activities, and in this short column today, we'll try to give you a preview of many of our club's plans for the ensuing months. High on club agendas will be football film showing and out-of-state pre-game meetings. I know we haven't all of the meetings, but we'll include as many as have been reported to us up to the date of our deadline.

There have been few meetings this summer, with **Hillsdale** turning out the largest number of alumni for an old-fashioned chicken barbecue. Some 110 members were on hand to greet Michigan State's two representatives, Alvie Smith, Centennial director, and Bob Toll, '49, assistant alumni director. Mr. Smith reviewed plans for the big Centennial year at Michigan State, beginning on Founders Day, February 12, 1955.

The club also elected new officers. They are: Dean Williams, '48, club president; John Comstock, '51, vice-president; Shirley Williams, secretary-treasurer.

M.S.C.'s alumni club at **Manistee** held its annual picnic at the home of Mrs. Almira Digby, '14, in Copemish. A picnic supper was enjoyed by 39 Michigan State College alumni and their families.

The following officers were elected for the coming year: Rowland Blair, '33, president; John Joseph, '34, vice-president; Mrs. Edward Clifford, '24, secretary-treasurer. Mrs. Almira Digby, Wayne Crampton, '21, and Claude Simons, '48, retiring president, were elected as directors.

## Pre-Game Meetings

The first pre-game meeting of the coming football season will be held Saturday, September 25 at 11:30 a.m. in the Iowa Memorial Union Building, Iowa City, Iowa.

President Hannah, Starr Keesler, '41, alumni director, and other staff members will be guest speakers at the meeting. For reservations, contact program chairman, Richard P. Smith, '48, 104 Grandview Court, Iowa City, Iowa.

On Friday, October 8 at 8:15 p.m. C.S.T., alumni living in and around Indianapolis are invited to a pre-game

meeting to be held at the Indiana University Student Union and Food Service Building, 1300 West Michigan Avenue, Indianapolis, Indiana. Films of the M.S.C.-Wisconsin game will be shown.

According to Bob Kershaw, '42, club president, out-of-town alumni are cordially invited to attend. "Reservations are not necessary," he added.

One of the big pre-game meetings of the year will be held in South Bend on Friday, October 15.

Program chairman, Duke Fleming, w'50, announced that the club will sponsor a dinner-dance at the Oliver Hotel in South Bend on that date. The dinner is scheduled for 7:30 p.m. E.S.T. "Several Michigan State staff members will be present," he stated.

For reservations, contact Mrs. Ervin Reister, w'26, 1715 Hilltop, South Bend, Indiana. The cost is \$4.00 per person for dinner and dance or \$3.00 per couple for the dance.

The final pre-game meeting of the season will be held in Minneapolis, Minnesota on Friday, October 29. The dinner meeting is scheduled for 7:00 p.m. C.S.T. Talks by M.S.C. representatives, as well as a film showing of a previous football game, will be part of the program.

Mrs. Claire Hekhuis, '51, program chairman, urges out-of-state alumni who are planning to attend the meeting to make hotel reservations at the earliest possible time, in that the M.S.C.-Minnesota game is scheduled as Minnesota's Homecoming game this year.

For dinner reservations, contact club treasurer, Verne Morgan, '51, 5416 North Utah Avenue, Minneapolis, Minnesota.

## Out-of-State

### Cleveland Game Excursion

October 16 will be a big day for Cleveland alumni. The club has a block of 50 much coveted tickets for the Notre Dame vs. Michigan State game. Plans are complete to have an M.S.C. car on the Notre Dame Alumni train to South Bend. The round trip cost is \$28.50 per person. This includes train fare, two meals on board, and your football ticket. This will be a gala trip for all. Reservations are being taken starting August 29th by Jack Bedell, chairman, at TR. 1-3193 or MA. 1-3230. Bob Erwin will also take reservations. His phone number is LO. 1-2079.

## Homecoming Smoker And Mixer Planned

The Michigan State Alumni Club of Ingham County will hold its annual Homecoming Stag Smoker on Friday, October 22 at 8:00 p.m., Hotel Olds.

The Spartan Alumnae Club of Lansing will hold its annual Homecoming Mixer on Friday, October 22, 1954, at 8:00 p.m., Room 21, Union Building. Special college guests will be the wives of the M.S.C. coaching staff. General chairman of the event is Mrs. George Alderton, '23, of 4980 Mohawk Road, Route 2, Okemos, Michigan.

# Days of Yore

By Madison Kuhn and Joseph G. Duncan

The death of Dr. Wilbur O. Hedrick, '91, in June marked the end of an era. During 67 of the College's 99 years he was seen almost daily on campus; his long and useful life was intimately associated with events that occurred during two-thirds of the institution's existence.

W. O. Hedrick when he was assistant professor of history and economics in 1900. Below: (Left) Hedrick at commencement (1924) outside present Women's Gymnasium, talking with an alumnus. (Middle) His brother, Ulysses P. Hedrick, '93, wrote a charming story of their boyhood home near Harbor Springs: "The Land of the Crooked Tree." (Right) Dr. and Mrs. Hedrick (died in 1944) with the first grandchild.

Hedrick in a colleague's room in Howard Terrace in 1896.

Four members of the class of '91: Kenyon L. Butterfield, Michigan State's 10th president; Hedrick; F. B. Mumford; and V. H. Lowe.

The faculty in 1900. Hedrick is at the right end of the back row. President J. L. Snyder is the man in the center, front row.

# News About These Alumni

By GLADYS M. FRANKS, '27

## Patriarchs

**John Strange, w'02**, of Grand Ledge, former commissioner of agriculture and civil service, and active in many county and state organizations, received a Distinguished Service to Agriculture award at a general session of the 1954 Farmers' Week. Son of **Daniel Strange, '67**, he operated, until a few years ago, the 390-acre farm which is one of Michigan's centennial farms, having been in the family before Michigan became a state. . . . **Burr Wheeler, '03**, represented the College at the May 15 inauguration of Dr. Francis H. Horn as the fourth president of Pratt Institute in Brooklyn, N. Y.

Another recipient of a Distinguished Service to Agriculture award during Farmers' Week is **Clark L. Brody, '04**, who was recently appointed by Pres. Eisenhower to the board of directors of the farm credit administration in Washington. Former St. Clair county agricultural agent, Mr. Brody served 31 years as executive secretary of the Michigan Farm Bureau, and is now the bureau's executive vice president. He has been a member of the college governing body, the State Board of Agriculture, since 1921, and has served as chairman for several years.

**'08 E. S. Bartlett**, of Ludington, Mich., has been awarded a trophy that he won for Michigan State College 50 years ago in a sheep shearing contest. Former Branch County residents, Mr. and Mrs. Bartlett were honored at a banquet given by members of the college animal husbandry department, and the trophy, won at the St. Louis World's Fair while a student at the college, was presented to him. The college will have a memento of the shearing expert who achieved international fame, however, as his portrait will be hung in the new Animal Industry Building. Something of an expert with hand shears before he came to the college, he became a professional shearer, and his record of 311 Rambouillet ewe fleeces in a 10-hour shearing day is still considered tops. He traveled widely, introduced machine shearing to South Africa, and was one of the first in the United States to adopt the so-called Australian method. He holds patents on shearing equipment, and his books on the subject are basic needs for the beginner. He is still an advisor to manufacturers of shearing equipment.

**Robert K. Milward**, for the past 26 years manager of the Detroit Branch of U. S. Radiator Corp., has been named manager of customer relations. Mr. Milward began his service with the company in the Detroit plant 47 years ago, and was salesman and later manager for the St. Louis branch before returning to Detroit. He makes his home in Detroit at 2441 Calvert Ave.

Twin honors were recently accorded **Earl F. Riley** who retired June 1 after 35 years service as president of North Dakota State School of Science at Wahpeton. At a ceremony early in May, one of the school's new dormitories was named for him, and later the faculty and employees of the school were hosts at a testimonial dinner honoring Mr. and Mrs. Riley. They left Wahpeton in mid-June to make their home at 1337 7th St., Clarkston, Wash.

**'09 John R. Thoenen** is located in Knoxville, Tenn., as division chief for the United States Bureau of Mines.

**'12 Otto B. Holley**, superintendent of Carbide Power Company in Sault Ste. Marie since 1938, retired last Nov. 30 after 41 years service. He started in 1912 as electrical engineer

Holley

Vaughan of Lansing, and a son, **Richard, '50**, who is employed by Electro Metallurgical Co.,

for the company, which is a subsidiary of Union Carbide and Carbon Corp., operating a hydro-electric power plant at the Soo for the manufacture of calcium carbide. He and Mrs. Holley live in Sault Ste. Marie at 207 Barbeau St., and spend their winters in Florida. They have two children; a daughter, Mrs. John

also a UCC subsidiary, in Marietta, Ohio.

**'13 Harry A. Schuyler**, of 8411 LaBajada, Whittier, Calif., writes that he has been "on the shelf for a couple of months," with a broken leg sustained in a fall while riding a king road drag at their mountain place.

**'14 Don Francisco**, vice president of the J. Walter Thompson Company, New York, has been re-elected vice chairman of the board of directors of Brand Names Foundation Inc. Often referred to as the man who introduced orange juice to the American public, he was the chief force behind the promotion of the California Fruit Growers Exchange, first as advertising manager for the exchange and then as a member of the firm of Lord & Thomas.

At a special ceremony during the 20th anniversary of the National Agricultural Chemicals Association, **George F. Leonard** was presented with an honorary life membership in the Association in recognition of his contributions to the Association and the pesticides industry. This is the first membership of its type which has been awarded by the Association to an individual, since membership has constituted only companies en-

## Deaths

**THOMAS W. CLARK, w'97**, former teacher and long-time farmer of the Rockford, Mich., area died April 20 in Grand Rapids. A member of the Bostwick Lake Congregational church for 55 years, he had served as deacon, clerk, chairman, and teacher. He was a past president of the Rockford Co-operative Elevator Co., and active in many farm organizations. He is survived by his wife, daughter, and son, **J. Wallace Clark, '29**, all of Rockford.

**FREDERICK B. HOWARD, '05**, life-long resident and farmer of Ionia, Mich., died in that city, July 17.

**HERBERT IMLAH DUTHIE, '11**, engineering inspector for the city of Grand Rapids, Mich., died at his home there July 3. Shortly after graduation he was employed by the G R & I Railway, later associating with the Fargo Engineering Company of Jackson. He was superintendent of the experimental plant for Haskelite Corp. for a short time before taking over construction work for Standard Oil, and later for J. A. Utley. He had been with the city engineering department for the past 15 years. Surviving are his wife, the former **Winifred Felton, '11**, of 332 Carlton Ave., Grand Rapids; a son, **Herbert I. Jr., '39**, of Kalamazoo; and three daughters, two of whom are **Katherine Duthie McShannock, '41**, and **Mary Duthie Anderson, '47**.

**SAUL DAVID SEMENOW, '16**, for many years associated with the Standard Oil Company in Pittsburgh, died in the West Penn hospital there May 29. He and Mrs. Semenow has been living at 1095 S.W. 58th Ave., Miami, Fla., since his retirement two years ago. Besides his wife, he is survived by two daughters, **Beverly Semenow Robin, w'39**, and **Dr. Ruth Semenow, w'44**, both of Pittsburgh.

**DONALD CHARLES BEAVER, '18**, Detroit cancer specialist, died Aug. 10 when his cabin cruiser struck an unlighted race-course marker on Walloon Lake near Petoskey. A graduate of Wayne University College of Medicine, and one-time student and consultant at the Mayo Clinic, he served as a lieutenant commander in the Navy. He joined the staff at Woman's Hospital in Detroit in 1935, as director of laboratories and pathology. An associate professor at Wayne University, he was the author of a treatise on the cellular diagnosis of cancer. He was president of the Detroit Institute of Cancer Research with which he had been associated since its founding in 1943. Dr. Beaver leaves his wife, who survived the accident, of 15892 Rosemont, Detroit; two daughters, two

sons, and a nephew whom he reared from childhood.

**JOHN BERNARD DAKIN Sr., '23**, plant engineer for Oldsmobile division in Lansing, died July 9 in Mt. Carmel hospital, Detroit, from injuries suffered in an automobile accident near Royal Oak. He started work at Oldsmobile in 1927 and was made plant engineer at the Forge in 1940. He remained there during most of World War II, returning to the main plant as engineering assistant, then chief of plant engineering operations, and Jan. 1, 1951, was named plant engineer. He was a member of Oldsmobile's Quarter Century and Executive clubs. Mr. Dakin was always active in campaigns of the United Community Chest and assisted in the recent hospital expansion drive. His affiliations included the Disabled American Veterans, Lansing Lodge No. 196, B.P.O.E.; and Gabriel Richard chapter of the Knights of Columbus. He was a member of one of Lansing's "fightingest families." Members of the Dakin family have fought in every important war in American history, starting with the French and Indian wars. Mr. Dakin was a veteran of World War I and two of his sons were in World War II, and three are now in service, **William, John Jr., w'45**, and **Patrick, '51**. Other survivors are the widow, who lives at 413 N. Clemens, Lansing; three daughters, one of whom is **Margaret Dakin Hendrick, w'48**; and two sisters, including **Loretta Dakin Taft, w'20**.

**KAZIMER EDWARD NEVULIS, '37**, a member of the faculty at Theodore Roosevelt Junior High School in Amsterdam, N. Y., and well-known athlete, died July 30 at the YMCA's Camp Onanole at Bean Hill. A science teacher at the high school he was also associate director of Camp Onanole and head of the retail section of Mohawk Sportswear. He is survived by his wife, of 42 Tremont St., Amsterdam, and three daughters.

**EDWARD GEORGE SPENCER, w'31**, died in Henry Ford hospital, Detroit, May 29. He is survived by his wife and daughter, his father, sister, and brother, **Robert D. Spencer, '39**.

**THOMAS LEONARD NORRIS, M.S., '50, Ph.D., '52**, staff anthropologist for Bradley Home in East Providence, R. I., was killed July 17 in a glider crash near Philadelphia. Dr. Norris was studying glider piloting at the Philadelphia port at Hilltown, and the craft went into a dive shortly after its release from a tow plane.

**ANNE LUCILLE LIMBERG, '54**, who was graduated in March and teaching in Civil Park school in Flint, died in that city June 30.

## SPARTAN PERSONALITY

Chester Hardt

Although the odds are not great that a Ph.D. will find himself worth a half a million in less than 10 years after receiving his degree—all due to his own business acumen—still it does sometimes happen. It is also true that this is still the "land of opportunity" and Chester Hardt's (Ph.D. '43) story is the kind everyone likes to hear.

Hardt's success is tied up with the attractive, pastel-colored cellulose sponges which have been so popular with housewives (and their car-washing husbands) ever since World War II. Du Pont had the domestic cellulose sponge field almost to itself at the start. To capitalize on the heavy post-war demand, O-Cel-O was formed by three ex-Du Pont men, of which Chester Hardt was one. Each invested \$500 to start, and a lot of work, research and ingenuity, with the result that they recently sold out to General Mills in exchange for shares of stock worth \$3.4 million. Hardt retains his position as assistant general manager of Sales and Production, O-Cel-O Division.

gaged in the pesticides business. Mr. Leonard recently retired as executive vice president of Tobacco By-Products and Chemical Corporation of Richmond, Va. He served as president of the NAC Association from 1946 to 1949 and as a member of the board of directors from 1934 to 1953. Under his new membership award, he will continue to serve as chairman of the finance committee. He and Mrs. Leonard (Vera Hyde, '12) live in Richmond at 3902 Exeter Rd.

**'15** "Please change by address to Hurlock, Md.," writes Louis A. Dahl, and continues: "I am retiring from my position at the Portland Cement Association (Chicago) and moving to a home we purchased some time ago in Maryland in preparation for retirement. I was officially retired at the end of 1951, but for some unfathomable reason have been retained until I was ready to quit of my own accord. Now I am looking forward to my life in Maryland."

**'16** William (Bill) Murphy, agricultural agent for Macomb county since 1920, retired July 1. Recipient of the distinguished service award of the National Association of County Agricultural Agents in 1947, he has worked out of Mt. Clemens, assisting the farmers of Macomb county in the organization of effective marketing groups for poultry and dairy products, and has given wholehearted support to the 4-H club program in the county.

**'17** Sheldon and Clarissa (Pike, '18) Lee are living at 4920 Morgan Ave. South, Minneapolis, Minn., where he is associated with the Minneapolis Gas Co.

**'20** Dr. Reuben E. Trippensee, head of the wildlife management department at the University of Massachusetts, has received a national award for his latest text on wildlife management. The certificate is given annually to the outstanding publication in the wildlife field by the American Association for Conservation Information.

**'23** Leslie J. Nason received his Ed.D. degree from the University of Southern California at the June 12 commencement.

**'25** Carl Boehringer has been transferred from the Office of the U. S. High Commissioner, Bonn, Germany, to the American Embassy, Manila, P. I., and may be reached on APO 928 out of San Francisco.

**'28** John D. Kaiser has been named to the factory manager post at Duo-Therm division of Motor Wheel in Lansing. Joining the corporation in 1928 as plant engineer, he advanced to industrial engineer at Plant No. 1 and continued in that capacity at Plant No. 4. He was promoted to the position of assistant factory manager in 1948. . . . Elmer Kirk is engineer for the Board of Fundamental Education at Jarvis College, Hawkins, Texas.

**'29** Dr. Todd J. Leavitt Jr., of 711 Collingwood Dr., East Lansing, has been appointed to the state board of dentistry for a term expiring Dec. 31, 1960. . . . Donald G. Rawden is chassis engineer for General Motors Holden Ltd. in Melbourne, Australia, and lives at 1 Marne Rd., Apt. 4, South Yarra, Victoria.

**'31** James A. Krimian joined the Packard Motor Car Company staff July 12 as a chemical engineer. He had been with the Murray Corporation of America for 21 years, as chemist, material engineer, chief chemist, and laboratory supervisor. He lives in Detroit at 16129 Inverness Ave. . . . Dr. Dorothy Leith, physician in Imlay City, Mich., and Lapeer County coroner, was the "Photo of the Week" in the May 28 issue of Imlay City Times. It sketched her membership in various medical associations and her experience in sports and physical education. Dr. Leith received her M.D. degree from Wayne University College of Medicine, interned at Grace Hospital in Detroit, and had offices in the Fisher Bldg. before moving to Imlay City a few years ago.

**'32** John C. Jennings has been named Continental Can company's product sales manager of plastic bottles which are manufactured by Elmer E. Mills corporation, Chicago, newly acquired Continental subsidiary. He became associated with Continental in 1946 as Atlantic district sales manager of the Paper Container division. Subsequently he was product sales

manager, manager of manufacturing, and assistant to the vice president of the division. He and Mrs. Jennings (Alice Ulrich, '33) and their four sons are living at 297 LaTrobe Ave., Northfield, Ill. . . . Arthur Lawrence, soil conservationist for Calhoun county, was recently presented with a 20-year pin for his service with the U. S. Department of Agriculture. He and Mrs. Lawrence and their three sons live in Marshall at 409 N. Linden. . . . "Our four daughters—Margaret, Nancy, Sally, and Cindy—made it necessary for us to find a larger house," writes Marian Lee Aylesworth from 810 Marshall Lane, Alexandria, Va.

**'33** Rowland Blair has charge of all forest operation for the American Box Board company of Filer City, Mich., and is not only responsible for management of company-owned lands and research projects on aspen or poplar but gives assistance and technical advice to private timberland owners. He makes his home in Manistee at 387 8th St. . . . With Standard Oil since 1940, Charles R. Chapman has been appointed administrative assistant to the general manager, sales department, 910 S. Michigan, Chicago. . . . A daughter, Anne Beth, was born June 24 to Mr. and Mrs. George Culp of 27 Homewood Dr., Manhasset, N. Y. . . . Col. Russel D. Turrill, organization and methods examiner at the Veterans Administration regional office in Denver, recently completed two weeks active duty at the U. S. Army Reserve School at Camp Carson. . . . J. Donaven Wells has been named chief mechanical engineer for the Brownsville, Texas, plant of Stanolind Oil and Gas.

**'34** Col. Ralph Dickie is assigned to G-3 Section, OCAFF, Fort Monroe, Va. . . . Raymond Salgat is chemist for the Coca-Cola Export Corp., 70 Sta. Mesa Blvd., Ext., San Juan, Manila, P. I.

**'35** Douglas Graham, who has been Lansing Bureau manager for the United Press since 1942, has been appointed public relations representative for Portland Cement Association's Michigan district office, with offices at 2108 Michigan National Tower in Lansing. . . . Dr. William

Thorp

T. S. Thorp, veterinary director with the U. S. Public Health Service and chief of the laboratory aids branch, National Institutes of Health, since 1947, has taken up his new duties as assistant dean and the director of the School of Veterinary Medicine at the University of Minnesota. He was formerly instructor in animal pathology at Michigan State College and in 1938 joined the staff of Pennsylvania State College. . . . Col. Howard Edward Price is stationed VII Corps Headquarters, in Stuttgart, Germany, receiving mail at APO 107, New York.

**'37** Robert Bair is director of sanitary engineering division, District Public Works Office, 6th Naval District, and lives in Charleston, S. C., at 28 James Town Rd., The Crescent. . . . Lt. Col. Lawrence L. Larsen has been appointed Infantry Center post exchange officer at Fort Benning, Ga. He has recently returned from Korea where he served as senior adviser to the Republic of Korea Service Corps Division. Before going to Korea in 1953 he was professor of military science and tactics at the University of Akron.

**'38** John F. Brower, of 6 S. 23rd St., Battle Creek, Mich., received his M.S. in hygiene from Harvard University June 17. . . . Robert Burhans may be reached through OARMA, U. S. Embassy, Saigon, APO 74, Box S, San Francisco. . . . George R. Grantham, who spent

the last two years in France, in construction work for the U. S. government, is now on the staff of the consulting engineering firm, Patchen & Zimmerman, in Augusta, Ga., where he lives at 2830 Cornelia Rd. . . . **Dr. J. Guy Woodward**, who received his M.S. with the class, is one of seven research engineers working on the color project at the RCA laboratories in Princeton, N. J., where he makes his home. Their development of the magnetic tape recorder, which was publicly announced last Dec. 1, is regarded as the first major step into an era of electronic photography.

**'39 Y'ALL HEAR!** There will be a get-together for members of the class of 1939 and their families and friends at the Union following the Homecoming game, Oct. 23. There will be a room for visiting before and after dinner, which will be served for a fee somewhere around \$2.75. **Bill Findley**, of 371 Chesterfield Parkway, East Lansing, is wondering how many of the class mates can make it. Y'ALL HERE?? . . . **Dr. Edwin G. Balle** may be reached in care of American Express, Rome, Italy. . . . The mailing address for Capt. and Mrs. Daniel Jakovich, Jr. (she was **Elizabeth Benner**) is North District, Joint Construction Agency, APO 230 USAF, New York City. Anyone wanting to call on them while in Paris can find them at 45 Rue du Val D'or, Parc du Val D'or, Apartment 19, St. Cloud, France (Seine et Oise). . . . **Herbert and Ruth (Arny, w'40) Dales** and their two children are living at 200 Fort Gray Dr., Lewiston, N. Y., while he is industrial sales manager for Carborundum in Niagara Falls. . . . **Lois Kempf** and **James Beckwith** were married April 17 and are making their home at 225 Kipling Blvd., Lansing. . . . **Robert L. Weeks** has charge of research on lubricant sand wax processing at Standard Oil's Esso Laboratories, and lives at 2001 Parkwood Dr., Scotch Plains, N. J.

**'40 Charles and Hilda Roen Asher** announce the birth of **Stephan Michael** on May 4. They are living on North Bay Shore Rd., Sturgeon Bay, Wis., where Charles is president and general manager of the Roen Salvage Company. . . . **John A. Beale** received his Masters in Public Administration from Harvard University June 17. . . . **Christian F. Beukema** has been named vice president of Michigan Limestone, a division of United States Steel Corp. He joined Michigan Limestone shortly after graduation, and after four years of army service, rejoined the division as construction engineer. In 1949 he was transferred to U.S. Steel as special assistant to the vice president of raw materials, and in 1951 was named director of planning on long-range iron ore development. He returned to Michigan Limestone a year ago as general manager of operations. Beukema was recently elected to the Alumni Advisory Council. . . . **Major Clare Jensen** has been transferred from Chicago to Hqrs. Combat Command B, 4th Armored Division, Fort Hood, Texas.

**Philip Lawrence** has been transferred by B. F. Goodrich Chemical Company, to London where he will remain until the new plant is constructed in South Wales. With Mrs. Lawrence and their three boys he is living at Devonshire House, Mayfair Place, Piccadilly, London W1. . . . **Frances Mantey Alles** and her husband, **Glen**, have purchased a drug store in Caro, Mich., where they live at 318 Pearl St. . . . **Herbert Sayers** has finished his graduate work at the University of California and returned to Saudi Arabia where he may be reached in care of the Arabian American Oil Co., Dhahran (Abqaiq).

**'41 The C. Morrison Taylors** (she was **Mary Jeanette Martin**) and their daughter, **Mary Jeanette**, are living at 241 12th Ave., Sea Cliff, N. Y. "Our telephone is listed in the Nassau County phone directory and the latch string is always out." . . . **Philip D. Millsom** has been released from duty in the Navy and he and Mrs. Millsom (**Jane Kennedy, '42**) are moving into their new home at 2653 Hall St. S.E., Grand Rapids.

**'42 Dr. Vaughan D. Hildebrandt**, who received his M.S. in 1946, and his Ph.D. in 1950, is research and development engineer for Dow Chemical in Midland. . . . **Stacy Anne**, fourth child and second daughter of Mr. and Mrs. **Derald Hatcher**, was born May 18 in Midland, Mich., where her Dad is the Lincoln-Mercury dealer. . . . **Jane and Barbara Godfrey, w'43** **Keith** and their two children have been living in Yokohama since last December. Major Keith spent a year in Korea and is now stationed at USAFFE Headquarters at Camp Zama. "We are enjoying our visit over here very much, but there is no place like the United States of America!" Their mailing address is Yokohama American Dep. Schools, Hq. Camp Yokohama, APO 563, San Francisco.

**Major Sidney Knutson** is stationed at Fort Leavenworth, Kans., with Student Detachment, CGSC. . . . **Betty Pease Maloney** writes that her husband, **Donald J.**, has purchased the Oldsmobile dealership in Crosswell, Mich., where they and their two sons make their home. . . . **William E. Rasmusson**, superintendent of maintenance and construction in the plant engineering department of Oldsmobile in Lansing, has been named plant engineer of the division. . . . **Dennis Robert** was born June 27 to Mr. and Mrs. **John Casey (Helen Searson)** of 3904 Salem, Midland, Mich.
