SEATING DIAGRAM FOR GRADUATES AND COMMENCEMENT GUESTS

ACADEMIC COSTUME

The pageantry and color at commencement exercises reveal a record of academic achievement of the various individuals taking part in the exercises. The following brief description is given that the audience might more readily interpret such achievement.

In 1895, the Intercollegiate Commission, a group of leading American educators, met at Columbia University to draft a code which would serve to regulate the design of gowns and hoods indicating the various degrees as well as the colors to indicate the various faculties. This code has been adopted by most of the colleges and universities in America and its use has made identification of scholastic honors an immediate activity.

Three types of gowns are indicated by the code. Those worn by the bachelors are made of black worsted material and have long, pointed sleeves. Those worn by masters may be made either of black silk or black wool and have long, closed sleeves with the arc of a circle near the bottom. The arm goes through a slit, giving the appearance of short sleeves for the master's gown. Doctor's gowns are made of black silk and are faced with velvet. The sleeves are full, round and open with three bars of velvet on each sleeve. The velvet facing of bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic

color of the institution conferring the degree. If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velveteen binds the hoods and indicates the department or faculty to which the degree pertains.

Historical associations of color have been continued to signify the various faculties. Art and letters can be recognized by the white, taken from the traditional white fur trimming of the Oxford and Cambridge Bachelor of Arts hoods. Red, long traditional of the church, indicates theology. The royal purple of the King's court signifies law. The green of medicinal herbs immediately identifies a medical degree. Philosophy is signified by the color of wisdom and truth, blue. Because through research untold wealth has been released to the world, science is identified by golden yellow. Oxford pink indicates music and russet brown, the color of dress worn by ancient English foresters, indicates forestry.

The color of the velvet of the hood is distinctive of the subject to which the degree pertains. For example, the trimming for the degree of Master of Science in Agriculture should be maize, representing agriculture, rather than golden yellow, representing science.

At Michigan State University, it is customary to identify the bachelors graduating from the different departments of study by tassels of the official department color as established by the Intercollegiate Code.

CONFERRING OF DEGREES

JOHN A. HANNAH, D.AGR., LL.D., HH.D., L.H.D., D.Sc.
President, Michigan State University

ALMA MATER *Traynor*

M.S.U., we love thy shadows
When twilight silence falls,
Flushing deep and softly paling
O'er ivy covered halls.
Beneath the pines we'll gather
To give our faith so true,
Sing our love for Alma Mater
And thy praises, M.S.U.

When from these scenes we wander
And twilight shadows fade,
Our mem'ry still will linger
Where light and shadows played.
In the evening oft we'll gather
And pledge our faith anew,
Sing our love for Alma Mater
And thy praises, M.S.U.

Guests are requested to remain in their places while those in the procession are entering and leaving the stadium.

BOARD OF TRUSTEES

Michigan State University operates under the jurisdiction of a constitutional body known as the Board of Trustees. The six elected members serve six-year terms. Two are elected biennially from the state at large.

The President of the University is appointed by the Board and is by constitutional provision the presiding member of the body.

The Board likewise appoints a Secretary and a Treasurer. The State Superintendent of Public Instruction is an ex-officio member of the Board.

THE HONORABLE CONNOR D. SMITH, <i>Chairman</i>	Pinconning
THE HONORABLE C. ALLEN HARLAN	Detroit
THE HONORABLE WARREN M. HUFF	Plymouth
THE HONORABLE FRANK MERRIMAN	Deckerville
THE HONORABLE DON STEVENS	Okemos
THE HONORABLE JAN B. VANDERPLOEG	North Muskegon

THE HONORABLE LYNN M. BARTLETT, <i>Ex Officio</i>	Lansing

MICHIGAN STATE UNIVERSITY

Michigan State University, the pioneer of the land-grant system of higher education, strives for excellence in affording liberal and practical education for its students in a broad range of human endeavors.

MSU also serves people of the state, nation and world through its numerous research, extension and international programs.

Now in its 109th year, Michigan State University has grown from 3 buildings and 6 faculty members to one of the ten largest universities in the nation. It has approximately 2,500 staff members engaged in teaching, research and public service, 422 buildings, and 4,250 acres of land, including 960 acres in the campus and housing area and 900 more in planned development.

Founded in 1855 to educate youth for the major occupation of that day — farming — Michigan State University has broadened its offerings as young people, preparing for other vocations, have sought the advantages of university training. Today, Michigan State University has 10 colleges — Agriculture, Arts and Letters, Business, Communication Arts, Education, Engineering, Home Economics, Natural Science, Social Science, Veterinary Medicine — and the School for Advanced Graduate Studies. It offers approximately 200 areas of specialization at the undergraduate level and 275 at the graduate level. This excludes the curriculum of the University College, which has been recognized as one of the most progressive ideas for higher education in the nation today, and the Honors College established in 1957 as a unique program designed for the superior student. All students finishing their freshman year with a “B plus” average, or attaining this average in their sophomore year, have the option of entering the Honors College. Once a student is designated an Honors

College scholar, all requirements for graduation from Michigan State (other than total number of hours) are waived. He is assigned a special adviser in his field of major interest and together they work out a program appropriate for the individual.

Through fast-growing research programs in all colleges and the Agricultural Experiment Station, Michigan State University is adding to mankind's store of fundamental knowledge and paving the way for development of new products. Matching and complementing this growth has been an equally rapid growth of the graduate program, which now has an enrollment exceeding 4,000.

Benefits of the University are brought to every county in Michigan by the Cooperative Extension Service and the Continuing Education Service. Their programs, both on campus and in local communities, provide many kinds of technical information and formal course work for hundreds of thousands of Michigan citizens.

Today, more than 25,000 students from Michigan and other states and from nations all over the world are attending the University at East Lansing — about 14,000 of whom are housed on the campus proper. With about 79 percent of these students coming from communities in every section of the state, it is doing its part to fill the greatly increased demand of the younger generation for higher education.

Michigan State University continues to make outstanding educational and research contributions in many fields, including agriculture, business and the professions. Noted for its democratic and friendly spirit, the student body harmonizes with the University faculty to make Michigan State University one of the great educational institutions in America.

DISTINGUISHED ALUMNI AWARDS

Nominations for the award are submitted by the Alumni Advisory Council and local alumni clubs representing alumni throughout the United States. The awards committee of the Alumni Advisory Council recommends

no more than five alumni to the Board of Trustees of the University for final action. The awards are presented each spring at Commencement. The chairman of the awards committee is John H. Spelman, class of 1943.

Recipients of the awards for 1963 are:

FREDERICK CHRISTOPHER BELEN

HONORARY DEGREES

SAMUEL MILLER BROWNELL

Your distinguished career as a teacher, author and educational administrator has earned you a reputation as one of the outstanding educators of our time. Because of your intellectual integrity, wisdom and dedication to the best traditions of American education you have served with uncommon success as a university professor, college president and superintendent of one of the country's largest public school systems. Both as a writer and

speaker you have given abundant evidence of your keen insights into many of the pressing problems of education and their solutions. Because of the valuable contributions which you have made to the advancement of educational and cultural life in Michigan and the nation, Michigan State University is pleased to grant you the degree of Doctor of Laws.

EDWARD N. COLE

Your career as an engineer, business executive and civic leader has been marked by eminent achievement. Because of your vision and knowledge you have made a noteworthy contribution to industrial progress. During your long career with the General Motors Corporation, you have acquired an outstanding reputation as an engineer and business administrator. In addition to your active career with one of the country's largest industrial corporations, you have devoted great energy and en-

thusiasm to important civic projects in the Detroit area. You have also supported with both words and deeds the cause of higher education in Michigan and the nation. In recognition of your fine contributions to the economic and civic welfare of your fellow citizens and to the advancement of American industry, Michigan State University is pleased to grant you the degree of Doctor of Engineering.

SEBASTIAN S. KRESGE

Your long and distinguished career as an executive and philanthropist is one of the most memorable in the annals of American business. From the time you began working as a merchant's clerk some seventy years ago until you became chief executive officer of one of the nation's largest and best known business enterprises, you displayed unusual intelligence, imagination and energy. Your rise to eminence has been a living example of the achievements which are possible in our free American environment for men of vision, courage and faith. You

have unselfishly shared the rewards of your success with your fellow men. The Kresge Art Center on this campus is one of the most appreciated and impressive symbols of your generous concern with the advancement of education and human service. Because of your devotion to the highest ideals of the free enterprise system, your outstanding leadership in the field of business and your many contributions to the welfare of your fellow Americans, Michigan State University is proud to grant you the degree of Doctor of Laws.

ALAN T. WATERMAN

Your achievements as a scientist and educator have been extraordinary. During your years as a research scholar and professor of physics at Yale University, you demonstrated the enthusiasm, intelligence and steadfast purpose which have been the mark of your career. In your capacity as science advisor to the Office of Naval Research, to the Office of Defense Mobilization and other important agencies, you exercised admirable leadership and wise judgment. The esteem in which you are held by your

fellow scientists is evident in the responsible offices they have assigned to you in professional organizations, particularly in your important position as Director of the National Science Foundation. Because of your outstanding contributions to electrical theory, your devotion to scientific education and to man's quest for scientific truth, Michigan State University is proud to grant you the degree of Doctor of Laws.

CLYDE E. WEED

Your record of achievement as an industrialist, mining engineer and administrator has given you an international reputation. As a specialist in the mining industry you have made outstanding contributions to technological progress and operational efficiency. Your industrial and administrative leadership as president of the Anaconda Copper Mining Company, the Andes Copper Mining Company and other major organizations has brought you

FREDERICK RUSSELL KAPPEL

Your career over the past four decades as an engineer, industrialist and business executive has been unusually distinguished.
