ACADEMIC COSTUME

The pageantry and color at commencement exercises reveal a record of academic achievement of the various individuals taking part in the exercises. The following brief description is given so that the audience may more readily interpret such achievement.

In 1895, the Intercollegiate Commission, a group of leading American educators, met at Columbia University to draft a code which would serve to regulate the design of gowns and hoods indicating the various degrees as well as the colors to indicate the various faculties. This code has been adopted by most of the colleges and universities in America and its use has made identification of scholastic honors an immediate activity.

Three types of gowns are indicated by the code. Those worn by the bachelors have long, pointed sleeves. Those worn by masters have long, closed sleeves with the arc of a circle near the bottom. The arm goes through a slit, giving the appearance of short sleeves for the master's gown. Doctor's gowns are faced with velvet. The sleeves are full, round and open with three bars of velvet on each sleeve. The velvet facing of bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic color of the institution conferring the degree. If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velveteen binds the hoods and indicates the department or faculty to which the degree pertains.

Historical associations of color have been continued to signify the various faculties. Arts and letters can be recognized by the white, taken from the traditional white fur trimming of the Oxford and Cambridge Bachelor of Arts hoods. Red, long traditional of the church, indicates theology. The royal purple of the King's court signifies law. The green of medicinal herbs immediately identifies a medical degree. Philosophy is signified by the color of wisdom and truth, blue. Because through research untold wealth has been released to the world, science is identified by golden yellow. Oxford pink indicates music, and russet brown, the color of dress worn by ancient English foresters, indicates forestry.

The color of the velvet of the hood is distinctive of the subject to which the degree pertains. For example, the trimming for the degree of Master of Science in Agriculture should be maize, representing agriculture, rather than golden yellow, representing science.

At Michigan State University, it is customary to identify the bachelors graduating from the different departments of study by tassels of the official department color as established by the Intercollegiate Code.

COLLEGE OF AGRICULTURE AND NATURAL RESOURCES <i>Maize</i>	COLLEGE OF HUMAN ECOLOGY <i>Maroon</i>
Forest Products, Forestry, Packaging <i>Russet</i>	COLLEGE OF HUMAN MEDICINE <i>Green</i>
COLLEGE OF ARTS AND LETTERS <i>White</i>	JAMES MADISON COLLEGE <i>Citron</i>
Music <i>Pink</i>	JUSTIN MORRILL COLLEGE <i>White</i>
Philosophy <i>Navy Blue</i>	LYMAN BRIGGS COLLEGE <i>Golden Yellow</i>
COLLEGE OF BUSINESS <i>Drab</i>	COLLEGE OF NATURAL SCIENCE <i>Golden Yellow</i>
Economics <i>Copper</i>	Nursing <i>Apricot</i>
COLLEGE OF COMMUNICATION ARTS <i>Royal Blue</i>	COLLEGE OF OSTEOPATHIC MEDICINE <i>Green</i>
Journalism <i>Crimson</i>	COLLEGE OF SOCIAL SCIENCE <i>Citron</i>
Speech <i>Silver Gray</i>	COLLEGE OF VETERINARY MEDICINE <i>Dark Gray</i>
COLLEGE OF EDUCATION <i>Light Blue</i>

MICHIGAN STATE UNIVERSITY

Michigan State University, one of the leading land-grant universities and the first agricultural college in America, strives for excellence in affording liberal and practical education for its students in a broad range of human endeavors.

MSU also serves people of the state, nation and world through its numerous research, extension and international programs.

Now in its 118th year, Michigan State University has grown from three buildings and six faculty members to one of the largest universities in the nation. It has more than 3,000 staff members engaged in teaching, research and public service, 431 buildings, and more than 5,000 acres of land of which 2,010 acres are in existing or planned campus development.

Founded in 1855 to educate youth for the major occupation of that day — farming — MSU has broadened its offerings to meet the educational needs of today. The University now has the School for Advanced Graduate Studies and 16 colleges — Agriculture and Natural Resources, Arts and Letters, Business, Communication Arts, Education, Engineering, Human Ecology, Human Medicine, James Madison, Justin S. Morrill, Lyman J. Briggs, Natural Science, Osteopathic Medicine, Social Science, Veterinary Medicine and the University College. Some 165 programs of instruction are available to undergraduates; 76 departments offer graduate studies.

The Honors College, which enables superior students to waive normal graduation requirements and undertake individual programs, attracts many of the nation's finest young scholars. Michigan State University also is a prominent sponsor of the National Merit Scholarship Program, comprised of an unusually select group of scholars.

One of the many innovations in higher education made by Michigan State University is its coeducational academic-residence halls. Incorporation of classrooms and faculty offices with living, dining and recreational facilities has given these giant dormitories, now nine in number, a stimulating academic environment. Each of these halls is the center of curricular and noncurricular activities, creating a "college within a college" atmosphere.

The "small college within the larger university" concept was introduced at MSU by the establishment of the Justin S. Morrill College, which offers a limited enrollment liberal education program with an international emphasis. The concept was expanded by the establishment and opening of the James Madison College and the Lyman J. Briggs College. James Madison offers a curriculum for the study of public policy problems within the framework of the social sciences and related disciplines. Lyman Briggs makes available a liberal curriculum for students especially interested in science and mathematics.

Today, more than 41,000 students attend the University at East Lansing. About 80 percent are from Michigan, representing every section of the state. Students also come from every state in the nation and 80 foreign countries.

MICHIGAN STATE UNIVERSITY

(continued)

In the land-grant tradition it pioneered, Michigan State University is concerned with research and service as well as teaching. All colleges and the Agricultural Experiment Station are engaged in a wide range of research. Approximately 2,000 individual projects are in process. The University's research tools include the Control Data 3600 and 6500 computers, a cyclotron of the sector-focused type capable of accelerating protons to 50 MeV (60,000 miles per second), and the MSU Observatory which houses a 24-inch reflecting telescope, a computer and related equipment. Modern facilities include the following buildings: chemistry, biochemistry, psychology research, veterinary medicine, plant science research, natural resources, food science, pesticide research, and Life Sciences I.

Through an agreement with the Atomic Energy Commission, MSU has become a national center for basic research on plants and their reactions to radiation; involved is a \$2 million building, a staff of approximately 90 persons and an annual budget of approximately \$1 million.

Benefits of the University are brought to every county in Michigan by the Cooperative Extension Service and the Continuing Education Service. Their programs, on and off campus, provide a wide range of technical information and formal course work for hundreds of thousands of Michigan citizens. The Kellogg Center for Continuing Education, one of the finest conference centers in the nation, annually hosts nearly 50,000 adults who come to the campus for some 600 conferences and other educational meetings.

Michigan State University's land-grant concept of service is international. Supported by grants from the federal government and private foundations, Michigan State University maintains research and educational assistance projects in Asia, Africa and Latin America. International projects have given many faculty members overseas experience, adding a new dimension to their teaching.

With more than a century of educational achievement behind it, Michigan State University continues to apply its academic and physical resources to the problems of today and the challenges of the future.

HONORARY DEGREES

GEORGE A. GARRATT

In the half century since you received your baccalaureate degree in forestry at this university, you have followed a distinguished career as a scientist and educator. Now, as Dean Emeritus of the Yale University School of Forestry, you can view with just pride the many contributions which, as teacher, scholar and administrator, you have made to that institution and to your profession. In all your endeavors, you have shown unusual initiative, intelligence and dedication to the discovery of new knowledge to improve human welfare. Your contributions as Chief of the Division of Technical Service Training at the Forest Products Laboratory, Forest Service, U. S. Department of Agriculture; as Director of the Packaging Training Center, U. S. Transportation Corps in Paris, France; as a member of the Connecticut State Park and Forest Commission and of the State Council on Agriculture and Natural Resources; and as a member of the National Forestry Research Advisory Committee of the U. S. Department of Agriculture are among a few of your notable services in behalf of your discipline and profession. These have been widely acclaimed by your colleagues in this country and abroad as have your accomplishments in academic programs in which you have remained active including your work as one of the editors of the *Journal of Forestry* and your work as chairman of the steering committee of the Society of Wood Science and Technology. As a researcher, scholar, administrator and public servant, this institution has honored you with awards for your distinguished services on three earlier occasions. Today, because of the credit which you have brought to yourself and your alma mater, and the continuing important accomplishments of your remarkable career in forestry, Michigan State University is pleased to grant you the degree of Doctor of Laws.

ELLIOT LEE RICHARDSON

In the course of your outstanding career as a lawyer, administrator and public servant, you have made notable contributions to America's social progress. As a practicing attorney and later as Lieutenant Governor and Attorney General of Massachusetts, you gave clear evidence of your integrity, your keen sense of justice and your concern for human rights.

More recently, as Undersecretary of the U. S. Department of State and now as Secretary of Health, Education and Welfare, you have continued with admirable energy and dedication your efforts to enhance the educational and social well-being of our nation. In all of these undertakings, you have contended firmly and fairly for

HONORARY DEGREES

the democratic principle in our institutions and our public policy. In the development of the new Higher Education Bill you have espoused cogently the need to encourage the reform of post-secondary education, to innovate improvements in the learning process, to provide equal opportunity for all, and to create institutions and programs which might lead to new paths to career and professional training as well as new combinations of academic and experimental learning.

Your participation in the World Affairs Council of Boston; in the United Community Services of Metropolitan Boston; in the Greater Boston United Fund Campaign; your appointment as Massachusetts General Hospital trustee and as a member of the board of overseers of Harvard College are exemplary of your broad professional concerns and your willingness to give generously of your time and effort to promote civic projects in your native New England. Because of your exceptional record in legal and social affairs, and your constant devotion to the educational, and cultural progress of the American people, Michigan State University is pleased to grant you the degree of Doctor of Laws.

LEONARD WOODCOCK

Throughout your long career you have devoted your energy and leadership to solving the economic and social problems of the common man. Your competence and integrity have been widely recognized in the labor movement but you have also been entrusted with important responsibilities in a variety of endeavors pointed toward the amelioration of your fellow man. Your work as Chairman, Committee on National Health Insurance, as a member of the Advisory Committee on the National Committee Against Discrimination in Housing, as a member of the Executive Committee of the National Urban Coalition, as a member of the President's Commission on Productivity, as a member of the American Civil Liberties Union and the NAACP are illustrative of the scope of your concerns.

Among your professional activities, you have served the United Automobile Workers as a regional director, as vice president, and since 1970 as its president. Through contract negotiations with the automobile industry, as well as through your influence in governmental and other national agencies, you have worked successfully against discriminatory employment practices and for labor-management programs providing cost-of-living protection, a fair retirement plan, and other benefits for working people. By these means, and through political action and public service, you have expressed your deep loyalty to the principles of justice and human dignity. In recognition of the valuable contributions which you have made to the social welfare of the working men and women in Michigan and throughout the nation, Michigan State University is pleased to grant you the degree of Doctor of Laws.

- KEITH ALLEN JANSSEN, Ph.D. B.S., M.S., University of Nebraska.
Soil Science. Major Professor: Maurice L. Vitosh, Assistant Professor.
Thesis: Effect of Physical and Nutritional Factors of the Environment on Nitrogen Fixation, Plant Composition, and Yield of Dark Red Kidney Beans (*Phaseolus Vulgaris* L.).
- MARGARET ANN JETTER, Ph.D. B.A., Mercyhurst College; M.A., University of Michigan.
Education. Major Professor: Paul W. F. Witt, Professor.
Thesis: The Roles of the School Library Media Specialist in the Future: A Delphi Study.
- JENNY TAYLOR JOHNSON, Ph.D. A.B., Meredith College.
Nutrition. Major Professor: Olaf Mickelsen, Professor.
Thesis: The Effect of Obesity in the Rat on the Kidney and Urine.
- SAMIR KAMAL, Ph.D. B.S., Cairo University; M.S., Carnegie Institute.
Computer Science. Major Professor: Carl V. Page, Associate Professor.
Thesis: Diagnosis of Intermittent Faults in Digital Systems.
- UAN GEN KANG, Ph.D. B.S., Coupuk National University.
Chemistry. Major Professor: Gerasimos J. Karabatsos, Professor.
Thesis: Temperature Dependence of Some Secondary Kinetic Deuterium Isotope Effects.
- COURTNEY MICHAEL KERWIN, Ph.D. B.S., Illinois Institute of Technology.
Chemistry. Major Professor: Gordon A. Melson, Assistant Professor.
Thesis: Nickel(II) Complexes Containing Non-Cyclic and Macrocyclic Ligands Derived From Benzil Monohydrazone.
- PHILIP KENNETH KIENAST, Ph.D. B.A., University of Notre Dame; M.L.I.R., Michigan State University.
Social Science. Major Professor: Albert Blum, Professor.
Thesis: Policemen and Fire Fighter Employee Organizations: A Comparative Study of Historical and Sociological Factors Affecting Employee Organization Structure.
- WERNER KIENE, Ph.D. B.S., Hochschule Fuer Bodenkultur; M.S., Michigan State University.
Agricultural Economics. Major Professors: A. Allan Schmid, Vernon L. Sorenson, Professors.
Thesis: Evaluation of the Impact of Health Care on Activity Levels of the Rural Poor.
- BEVERLY JANE KLOOSTER, Ph.D. A.B., Calvin College; M.S., Michigan State University.
Microbiology and Public Health.
Major Professor: Delbert E. Schoenhard, Professor.
Thesis: Genetic Studies in *Salmonella pullorum* Using F-TRP, FT71, and F-LAC Donors.

- LLOYD JOHN KORHONEN, Ph.D. B.S., University of Minnesota; M.A., Ed.S., Eastern Michigan University.
Education. Major Professor: Russell J. Kleis, Professor.
Thesis: A Case Study of the Adult Education Association of Michigan and a Normative Model for a Comprehensive State Adult Education Association.
- THOMAS ROBERT KOWAR, Ph.D. B.S., Kent State University.
Chemistry. Major Professor: Eugene LeGoff, Associate Professor.
Thesis: Synthetic Approaches to 1,2-Cyclooctatrienedione.
- SHIOU-SAN KUO, Ph.D. B.S., Cheng Kung University; M.S., Michigan State University.
Civil Engineering. Major Professor: Roy R. Goughnour, Associate Professor.
Thesis: Stress and Time Effect on the Creep Rate of Polycrystalline Ice.
- CHARLES AUSTIN LADLEY, JR., Ph.D. A.B., Fresno State College; M.A., Western State College.
Education. Major Professor: Howard Hickey, Associate Professor.
Thesis: An Analysis of Attitudes of Certain Adults Regarding Assignment of Young Addicts to Drug Treatment Programs as Based on Selected Variables.
- DUANE CLARK LARSON, Ph.D. B.S., Wisconsin State University; M.S., Michigan State University.
Physics. Major Professor: Sam M. Austin, Professor.
Thesis: Inelastic Proton Scattering from ^{138}Ba and ^{144}Sm and its Microscopic Interpretation.
- NANCY ZANDER LARSON, Ph.D. B.S., M.S., Michigan State University.
Physics. Major Professor: Jack H. Hetherington, Associate Professor.
Thesis: Three-Body Problem: A Formalism and Computer Code for Arbitrary Kinds of Particles.
- DAVID T. LEE, Ph.D. B.A., Taiwan Provincial Chung Hsing University; M.S., South Dakota State; M.U.P., Michigan State University.
Social Science. Major Professor: Charles Barr, Professor.
Thesis: Development of a Mathematical Model and Information System for Forecasting Intercity Trip Demands for the Taipei, Taiwan Metropolitan Area.
- KYE WOO LEE, Ph.D. B.L., Seoul National University.
Economics. Major Professor: Anthony Koo, Professor.
Thesis: An International Study of Manufacturing Production Functions: Estimation and Implications.
- MOON YONG LEE, Ph.D. B.A., M.A., Seoul National University.
Education. Major Professor: Cole S. Brembeck, Professor.
Thesis: A Comparative Study of Apprenticeship Schemes in Selected Developing Countries.
